PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation, by and on behalf of the Board of Directors (the "Board") of American Biltrite Inc. (the "Company"), of proxies to be used in voting at the Annual Meeting of Stockholders (the "Meeting") to be held on May 8, 2002 at the FleetBoston Financial Corporation, America Room, 2/nd/ floor, 100 Federal Street, Boston, Massachusetts at 9:00 A.M. local time, and at any adjournments thereof. The principal executive offices of the Company are located at 57 River Street, Wellesley Hills, Massachusetts 02481. The cost of preparing and mailing the notice, proxy statement and proxy card will be paid by the Company. It is expected that the solicitation of proxies will be by the Company by mail only, but may also be made by overnight delivery service, facsimile, personal interview, telephone or telegraph by directors, officers or employees of the Company. The Company will request banks and brokers holding stock in their names or custody, or in the names of nominees for others, to forward copies of the proxy material to those persons for whom they hold such stock and, upon request, will reimburse such banks and brokers for their out-of-pocket expenses incurred in connection therewith. This proxy statement and the accompanying proxy card were first mailed to stockholders on or about April 5, 2002.

Proxies in the accompanying form, properly executed, duly returned to the Company and not revoked, will be voted at the Meeting (including adjournments) in accordance with your instructions.

Any stockholder giving a proxy in the accompanying form retains the power to revoke it at any time prior to the exercise of the powers conferred thereby by filing a later dated proxy, by notice of revocation filed in writing with the Secretary of the Company or by voting the shares subject to such proxy in person at the meeting. Attendance at the Meeting in person will not be deemed to revoke the proxy unless the stockholder affirmatively indicates at the Meeting an intention to vote the shares in person.

On March 25, 2002, there were issued and outstanding 3,441,585 shares of the Company's Common Stock, par value \$.01 per share (the "Common Stock"). Only stockholders of record at the close of business on that date are entitled to notice of and to vote at the Meeting or any adjournment thereof, and those entitled to vote will have one vote for each share held.

A quorum for the consideration of any question at the Meeting will consist of a majority in interest of all stock issued and outstanding and entitled to vote upon that question. A plurality of the shares represented and voting at the Meeting at which a quorum is present is required to elect directors. On all other matters, a majority of the shares represented and voting at the meeting is required to decide the question. Shares represented by proxies marked "WITHHELD" with regard to the election of directors will be counted for purposes of determining whether there is a quorum at the Meeting, but will not be voted in the election of directors, and, therefore, will have no effect on the determination of the outcome of the votes on these matters.

A "broker non-vote" occurs with respect to shares as to a proposal when a broker who holds shares of record in its name is not permitted to vote on that proposal without instruction from the beneficial owner of the shares and no instruction is given. A broker holding your shares in its name will be permitted to vote such shares with respect to the proposal to elect four directors to be voted on at the Meeting without instruction from you, and,

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

accordingly, broker non-votes will not occur with respect to this proposal.

The Company believes that during the year ended December 31, 2001, its officers, directors and holders of more than 10% of the Company's Common Stock complied with all Section 16(a) filing requirements except that Natalie S. Marcus had a late filing of Form 4 in which she reported a gift of stock.

DIRECTOR COMPENSATION AND COMMITTEES

During 2001, the Board held four meetings. Each director who was not an officer and employee of the Company received a director's fee of \$15,000 per year and \$2,000 for each Board meeting attended and each Audit Committee meeting attended during 2001. All of the directors attended all of the Board meetings and all committee members attended all committee meetings in 2001.

Directors may elect to defer the receipt of all or a part of their fees. Amounts so deferred earn interest, compounded quarterly, at a rate equal to the base rate quoted by the FleetBoston Financial at the end of each quarter.

There are four standing committees of the Board. The Company's Executive Committee consists of five members. The functions of the committee are to advise and aid the officers of the Company in all matters concerning its interests and the management of its business and, when the Board is not in

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

session, to exercise all the powers of the Board with reference to the conduct of the business of the Company which may be lawfully delegated by the Board. During 2001, the Executive Committee met once. The members of the Executive Committee are Messrs. William M. Marcus, Chairman, Roger S. Marcus, Richard G. Marcus, Mark N. Kaplan and John C. Garrels III.

6

The Company's Compensation Committee consists of three members. The committee met once during 2001. The members of the Compensation Committee are Messrs. Mark N. Kaplan, Chairman, John C. Garrels III and Kenneth I. Watchmaker. The Company does not have a nominating committee of the Board.

The Company's Stock Award Committee consists of three members. The function of the committee is to grant stock options and other employee incentives to executive officers of the Company (including without limitation the Company's Chief Executive Officer and the Company's four other most highly compensated officers). The members of the Stock Award Committee are John C. Garrels III, Chairman, James S. Marcus and Kenneth I. Watchmaker. The committee did not meet during 2001.

The Company has an Audit Committee composed of independent directors for which information regarding the functions performed by the Committee, its membership, and the number of meetings held during the fiscal year, is set forth in the Audit Committee Report included in this annual proxy statement. The Audit Committee is governed by a written charter adopted by the Board.

AUDIT COMMITTEE REPORT

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors' independence from management and the Company including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of nonaudit services with the auditors' independence.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets quarterly with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held four meetings during fiscal year 2001.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board (and the Board has approved) that the audited

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended the selection of the Company's independent auditors.

COMPENSATION COMMITTEE REPORT

Overall Policy

The Company's executive compensation program is designed to reflect both corporate performance and individual responsibilities and performance. The Compensation Committee administers the Company's overall compensation strategy in an attempt to relate executive compensation appropriately to the Company's overall growth and success and to the executive's duties, demonstrated abilities and, where appropriate, the performance of the operating division or subsidiary for which the executive is responsible. The objectives of this strategy are to attract and retain the best possible executives, to motivate these executives to achieve the Company's business goals and to provide a compensation package that recognizes individual contributions as well as overall business results.

Each year, the Compensation Committee conducts a review of the Company's executive compensation. This review includes consideration of: the relationship between an executive's current compensation and his current duties and responsibilities; the compensation of executive officers with similar duties and responsibilities; and inflationary trends. The annual compensation review permits an ongoing evaluation of the relationships among the size and scope of the Company's operations, the Company's performance and its executive compensation. The Compensation Committee also considers the legal and tax effects (including without limitation the effects of Section 162(m) of the Internal Revenue Code of 1986, as amended), of the Company's executive compensation program in order to provide the most favorable legal and tax consequences for the Company.

The Compensation Committee determines the compensation of the individuals whose compensation is detailed in this proxy statement (including in the Summary Compensation Table) and sets policies for and reviews the compensation awarded to the Company's most highly compensated corporate executives. This process is designed to provide consistency throughout the executive compensation program. In reviewing the individual performance of the executives whose compensation is described in this proxy statement (other than Roger S. Marcus, the Company's Chief Executive Officer), the Compensation Committee takes into account the views of Roger S. Marcus.

The key elements of the Company's executive compensation consist of base salary, annual bonus and stock options. In 1996, the Compensation Committee established certain additional elements to the Company's executive compensation program, including principally splitdollar insurance arrangements. The Compensation Committee's policies with respect to each of these elements, including the bases for the compensation awarded to Roger S. Marcus, are discussed below. In addition, although the elements of compensation described below are considered separately, the Compensation Committee takes into account

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

the full compensation package afforded by the Company (including its subsidiaries) to the individual, including pension benefits, insurance and other benefits, as well as the specific elements of the program described below.

8

Base Salaries

Base salaries for executive officers are determined by considering historical salaries paid by the Company to officers having certain duties and responsibilities and then evaluating the current responsibilities of the position, the scope of the operations under management and the experience of the individual. Annual salary adjustments are determined by evaluating on an individual basis (i) new responsibilities of the executive's position, (ii) changes in the scope of the operations managed, (iii) the performance both of such operations and of the executive in the position and (iv) annual increases in the cost of living.

With respect to the base salary of Roger S. Marcus in 2001, the Compensation Committee took into account the Company's performance (and the performance of Congoleum Corporation, a subsidiary of the Company), the asset values created for the Company by Congoleum Corporation under Mr. Marcus's leadership and the assessment by the Compensation Committee of Mr. Marcus's individual performance as Chief Executive Officer of both the Company and Congoleum Corporation. The Compensation Committee also took into account the length of Mr. Marcus's service to the Company and his increasing responsibilities in the course of such service. Mr. Marcus's base salary of \$540,000 for 2001 represents an increase of 4.3% over his \$517,500 base salary for 2000. The Compensation Committee did not increase Mr. Marcus's base salary for 2002.

Annual Bonus

The Company's executive officers are eligible for an annual cash bonus. Annual bonuses are determined on the basis of individual and corporate performance. The most significant corporate performance measure for bonus payments is earnings of the Company as a whole and then the relevant divisions or subsidiaries, where appropriate. The Compensation Committee has adopted a policy of paying bonuses to each of Roger S. Marcus and Richard G. Marcus of approximately 3-4% of the Company's after-tax earnings, taking into account significant exceptional or nonoperational occurrences and the actual level of profitability for the relevant year. In determining annual bonuses, the Committee also considers the views of Roger S. Marcus as Chief Executive Officer and discusses with him the appropriate bonuses for all executives, including himself.

For 2001, a substantial portion of Mr. Marcus's bonus represents payment of the remainder of an amount received by the Company in 1995 in recognition of Mr. Marcus's extraordinary efforts in accomplishing the public offering and recapitalization of Congoleum Corporation. The Committee had not awarded this balance to Mr. Marcus previously due to tax considerations, and the Company has had the benefit of the cash in the interim. Roger S. Marcus was awarded an aggregate bonus of \$425,000 for 2001 (which amount included the amount referred to in the previous two sentences). For 2000, he was awarded a bonus of \$450,000. A portion of Mr. Marcus's 2001 bonus was based on earnings for the Company as a whole in accordance with the Compensation Committee policy set forth above. Consideration was also given to his performance as Chief Executive Officer of the Company and as Chief Executive Officer of Congoleum Corporation, taking into account certain payments by Congoleum Corporation to the Company relating to, among other things, Mr. Marcus's service as Chief Executive Officer of Congoleum Corporation. In awarding Mr. Marcus's aggregate bonus, the

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

Compensation Committee also considered the performance of the Common Stock and Mr. Marcus's role in promoting the long-term strategic growth of the Company.

9

Stock Options

Under the Company's 1993 Stock Award and Incentive Plan as amended, stock options are granted to the Company's executive officers. Stock options are granted to the Company's executive officers by the Compensation Committee or the Stock Award Committee, as appropriate. Currently, these Committees set guidelines for the size of stock option awards based on factors similar to those used to determine base salaries and annual bonus. Stock options are designed to align the interests of executives with those of the stockholders.

Under the 1993 Stock Award and Incentive Plan, stock options are typically granted with an exercise price equal to the market price of the Common Stock on the date of grant and vest over time. This approach is designed to encourage the creation of stockholder value over the long term since the full benefit of options granted under the plan cannot be realized unless stock price appreciation occurs over time.

In December 2001, the Compensation Committee of Congoleum Corporation approved an offer to exchange outstanding options for new options. Pursuant to the offer to exchange, eligible option holders of Congoleum, including Roger S. Marcus, were allowed to exchange all options granted to them by Congoleum under its 1995 Stock Option Plan or Congoleum's 1999 Stock Option Plan For Non-Employee Directors for new options to be granted under those same plans not earlier than six months and one day after the date Congoleum canceled the options tendered to and accepted by it. The offer to exchange expired at 12:00 Midnight, Eastern time, on January 3, 2002. Pursuant to the offer to exchange, Congoleum accepted for cancellation options to purchase 678,000 shares of its Class A Common Stock, including options to purchase 200,000 shares held by Mr. Marcus. Congoleum anticipates that it will issue the new options on or about July 5, 2002. The new options will be exercisable for the same number of shares of Congoleum's Class A Common Stock as the canceled options. The exercise price of the new options to be granted to Mr. Marcus will be equal to the fair market value as of the date of grant and will vest annually in equal installments over a five year period beginning on the first anniversary of the date of grant. The Compensation Committee considered the effect of the Congoleum option exchange on the compensation of the Company's executive officers when determining other elements of compensation.

Supplemental Benefits

In 1996, the Compensation Committee established supplemental benefits for certain executive officers of the Company. These supplemental benefits were proposed and approved as a means of addressing the substantial inequity to the five most highly compensated executive officers of the Company created by the cap on credited compensation under the Company's qualified pension plan described below under the caption "Defined Benefit Pension Plan." Effective as of December 20, 1996, the Company entered into split-dollar life insurance agreements for the benefit of each of William M. Marcus, Richard G. Marcus and Roger S. Marcus. In 1997, the Company entered into a similar agreement for the benefit of J. Dennis Burns and in 2000, the Company entered into a similar agreement for the benefit of Howard N. Feist III. Under these contracts, the Company agreed to pay a portion of premiums due over a specified time period on certain variable life insurance policies providing life insurance protection for the family of each executive officer, subject to various terms and conditions. Although the Company is only obligated under the agreements to pay

Edgar Filing: AMERICAN BILTRITE INC - Form DEF 14A

a portion of the executives' policy premiums, the Company has paid and may continue to pay the full premium under any of the policies or reimburse the executives for some or all of their portion of the premiums under one or more of their respective policies covered by the agreements. Premiums paid under the split-dollar agreements are reflected in the Summary Compensation Table set forth below under the column entitled "All Other Compensation." Under each of the split-dollar agreements, the Company is entitled to all of the net premiums paid by it upon termination of the agreement in

10

accordance with its terms. Each life insurance policy subject to a split-dollar agreement has been assigned to the Company as collateral to secure recovery by the Company of the premiums paid by it on that policy.

Company Agreements

No executive officer of the Company has an employment agreement with the Company.

Conclusion

Through the programs described above, a significant portion of the Company's executive compensation is linked directly to individual and corporate performance. In 2001, approximately 36% of the Company's executive compensation consisted of performance-based variable elements. In the case of Roger S. Marcus, approximately 44% of his 2001 compensation consisted of performance-based variable elements. The Compensation Committee intends to continue the policy of linking executive compensation to corporate and individual performance, recognizing that the ups and downs of the business cycle from time to time may result in an imbalance for a particular period.

The following table shows for various income and service levels, the annual benefits payable under the Pension Plan, commencing at normal retirement at age 65. These benefits are presented on a five years certain and life thereafter basis and reflect any reduction for Social Security or other offset amounts that may apply.

The Pension Plan provides non-contributory benefits based upon years of service and average annual earnings for the 60 consecutive months in which the participating employee had the highest level of earnings during the 120 consecutive months preceding retirement.

The compensation used to determine a person's benefits under the Pension Plan is such person's salary (including amounts deferred as salary reduction contributions to any applicable tax-qualified plans maintained under Sections 401(k) or 125 of the Code). The Internal Revenue Service has limited the maximum compensation for benefit purposes to \$170,000 in 2001. Salary amounts listed in the Summary Compensation Table are items of compensation covered by the Pension Plan.

The table below sets forth certain information relating to the Pension Plan with respect to the five most highly compensated executive officers of the Company.
