SPECTRUM CONTROL, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
August 31, 2002

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

Note 1 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the accompanying financial statements include all adjustments which are normal, recurring and necessary to present fairly the results for the interim periods. Operating results for interim periods are not necessarily indicative of the results that may be expected for the year.

The condensed consolidated financial statements include the accounts of Spectrum Control, Inc. and its Subsidiaries ("the Company"). To facilitate timely reporting, the fiscal quarters of the Company's German subsidiary, Spectrum Control GmbH, are based upon a fiscal year which ends October 31. All significant intercompany accounts are eliminated upon consolidation.

The balance sheet at November 30, 2001 has been derived from the audited financial statements at that date but does not include all of the information and notes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and notes thereto included in the Spectrum Control, Inc. and Subsidiaries annual report on Form 10-K for the fiscal year ended November 30, 2001.

Note 2 - Nature of Operations

The Company designs and manufactures electronic control components and systems and has operations in the United States, Mexico and Germany. The Company offers a broad line of signal and power products which are used to condition, regulate, transmit, receive, or govern electronic performance. Although its products are used in many industries worldwide, the Company's largest markets are telecommunications equipment and military/aerospace.

Note 3 - Adoption of New Accounting Pronouncement

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS No. 142"). Under SFAS No. 142, goodwill and intangible assets deemed to have indefinite lives are no longer amortized, but are instead subject to a periodic impairment test at least annually. Other intangible assets continue to be amortized over their useful lives.

Effective December 1, 2001, the Company adopted SFAS No. 142. Accordingly, no amortization of goodwill was recognized in the accompanying consolidated statements of operations for the periods ended August 31, 2002, compared to \$205,000 for the three months ended August 31, 2001 and \$610,000 for the nine months ended August 31, 2001. In accordance with the provisions of SFAS No. 142, the Company has performed the required transitional impairment test of goodwill and has determined that no impairment loss need be recognized in the periods ended August 31, 2002.

As required by SFAS No. 142, the results for the prior year periods have not been restated. A reconciliation of the previously reported net loss and loss per common share, as if SFAS No. 142 had been adopted as of December 1, 2000, is as follows (in thousands except per share data):

	Three Months Ended		Nine Months Ended	
	<u>August 31,</u>		<u>August 31,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Reported net income (loss)	\$ 67	\$ (4,309)	\$ (895)	\$ (1,866)

net of related tax effect	<u>-</u>	<u>127</u>	<u>-</u>	<u>378</u>
Adjusted net income (loss)	<u>\$ 67</u>	<u>\$ (4,182)</u>	<u>\$ (895)</u>	<u>\$ (1,488)</u>

Earnings (loss) per common share:

Basic earnings (loss) per share,				
as reported	\$ 0.01	\$ (0.32)	\$ (0.07)	\$ (0.14)
Impact of goodwill amortization	<u>-</u>	<u>0.01</u>	<u>-</u>	<u>0.03</u>
Adjusted basic earnings (loss)				
per share	<u>\$ 0.01</u>	<u>\$ (0.31)</u>	<u>\$ (0.07)</u>	<u>\$ (0.11)</u>
Diluted earnings (loss) per share,				
as reported	\$ 0.01	\$ (0.32)	\$ (0.07)	\$ (0.14)
Impact of goodwill amortization	<u>-</u>	<u>0.01</u>	<u>-</u>	<u>0.03</u>
Adjusted diluted earnings (loss)				
per share	<u>\$ 0.01</u>	<u>\$ (0.31)</u>	<u>\$ (0.07)</u>	<u>\$ (0.11)</u>

Note 4 - Acquisition

On July 19, 2002, the Company acquired all of the outstanding common stock of FSY Microwave, Inc. ("FSY"). FSY, based in Columbia, Maryland, designs and manufactures RF and microwave filters, combiners, amplifiers, multiplexers, duplexers, and related products and systems. These products and systems are used in numerous industries including military, aerospace, medical, and telecommunications. FSY's products are a natural complement and extension to the Company's existing ceramic-based wireless product offerings. In addition, the Company believes that its low-cost manufacturing capability and established sales channels will provide additional revenue opportunities for FSY products.

The aggregate cash purchase price for FSY was approximately \$6,462,000, excluding possible future contingent payments. The amount of contingent payments will be determined based upon the increase in sales of the acquired product lines during the three years subsequent to the acquisition date. The purchase price has been allocated to the assets acquired and liabilities assumed based upon their respective fair market values. The fair market values of machinery and equipment were primarily determined by reference to published market quotations. Apart from goodwill, there were no identifiable intangible assets acquired. The excess of the aggregate purchase price over the fair values of the net assets acquired was recognized as goodwill. The amount of future contingent payments, if any, will also be allocated to goodwill when the amount of the contingent payments are determinable. The aggregate cash purchase price of \$6,462,000, which includes legal fees and other costs directly related to the acquisition of \$62,000, was funded through available cash reserves.

The allocation of the purchase price to the assets acquired and liabilities assumed is as follows (in thousands):

Cash and cash equivalents	\$1,517
Accounts receivable	731
Inventories	358
Prepaid expenses and other assets	40
Machinery and equipment	446
Accounts payable	(140)
Accrued liabilities	(266)
Goodwill	<u>3,776</u>
	<u>\$6,462</u>

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

The goodwill acquired has been assigned to the Company's Signal Products operating segment. For tax purposes, the Company expects to amortize the acquired goodwill ratably over a 15 year period.

The results of operations of the acquired business have been included in the accompanying consolidated financial statements since the date of acquisition. The following unaudited pro forma consolidated financial information has been prepared as if the acquisition had occurred on December 1, 2000 (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	<u>August 31,</u>		<u>August 31,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Net sales	\$ 16,385	\$ 20,220	\$ 45,639	\$ 81,483
Net income (loss)	77	(4,290)	(622)	(1,109)
Earnings (loss) per common share:				
Basic	0.01	(0.32)	(0.05)	(0.08)
Diluted	0.01	(0.32)	(0.05)	(0.08)

The pro forma information reflects no goodwill amortization for the three and nine months ended August 31, 2002 due to the adoption of SFAS No. 142 by the Company, effective December 1, 2001. The pro forma information does reflect goodwill amortization of \$205,000 and \$610,000 for the three and nine months ended August 31, 2001, respectively, related to acquisitions which occurred prior to the adoption of SFAS No. 142.

Pro forma amounts are based upon certain assumptions and estimates, and do not reflect any benefits from economies which might be achieved from combined operations. The pro forma information does not necessarily represent results which would have occurred if the acquisition had taken place on the basis assumed above, nor are they necessarily indicative of the results of future combined operations.

Note 5 - Inventories

Inventories by major classification are as follows (in thousands):

	August 31,	November 30,
	<u>2002</u>	<u>2001</u>
Finished goods	\$ 1,777	\$ 1,796
Work - in - process	6,277	8,416
Raw materials	<u>6,697</u>	<u>6,932</u>
	<u>\$14,751</u>	<u>\$17,144</u>

Note 6 - Property, Plant and Equipment

Property, plant and equipment by major classification are as follows (in thousands):

	August 31,	November 30,
	<u>2002</u>	<u>2001</u>
Land and improvements	\$ 1,278	\$ 1,264
Buildings and improvements	12,376	12,403
Machinery and equipment	<u>32,721</u>	<u>32,075</u>

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

	46,375	45,742
Less accumulated depreciation	<u>29,035</u>	<u>25,534</u>
	<u>\$17,340</u>	<u>\$20,208</u>

Note 7 - Goodwill

Goodwill by operating segment is as follows (in thousands):

	August 31,	November 30,
	<u>2002</u>	<u>2001</u>
Signal Products	\$14,333	\$10,557
Power Products	<u>3,686</u>	<u>3,686</u>
	<u>\$18,019</u>	<u>\$14,243</u>

Changes in the carrying amount of goodwill are summarized as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	August 31,		August 31,	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Goodwill, beginning of period	\$ 14,243	\$ 14,647	\$ 14,243	\$ 14,894
Goodwill acquired	3,776	18	3,776	176
Goodwill amortization	=	<u>(205)</u>	=	<u>(610)</u>
Goodwill, end of period	<u>\$ 18,019</u>	<u>\$ 14,460</u>	<u>\$ 18,019</u>	<u>\$ 14,460</u>

Note 8 - Other Noncurrent Assets

Other noncurrent assets by major classification are as follows (in thousands):

	August 31,	November 30,
	<u>2002</u>	<u>2001</u>
Intangible assets:		
Patents and patent rights	\$ 574	\$ 574
Debt issuance costs	<u>393</u>	<u>393</u>
	967	967
Less accumulated amortization	<u>658</u>	<u>614</u>
	<u>309</u>	<u>353</u>
Other assets:		
Property held for sale	-	955
Forward currency exchange contracts	12	75
Deferred charges	<u>176</u>	<u>263</u>

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

	<u>188</u>	<u>1,293</u>
	-	-
Other noncurrent assets	<u>\$ 497</u>	<u>\$ 1,646</u>

Amortization of intangible assets, for each of the next five years, is not expected to be material to the Company's consolidated financial statements.

Note 9 - Debt Agreement

The Company maintains an unsecured line of credit with its principal lending institution (the "Bank"), with interest rates on borrowings at or below the prevailing prime rate. During the periods ended August 31, 2002 and 2001, no borrowings were outstanding under this line of credit arrangement. The line of credit agreement contains certain covenants, the most restrictive of which require the Company to maintain designated minimum levels of net worth and profitability and impose certain restrictions on the Company regarding additional indebtedness. In February 2002, certain of these covenants were amended or waived by the Bank. At August 31, 2002, the Company was in compliance with all debt covenants, as amended. Maximum borrowings under the amended agreement may not exceed \$6,000,000. The amended line of credit agreement expires April 30, 2003.

Note 10 - Derivatives and Hedging Activities

From time to time, the Company enters into forward currency exchange contracts in the regular course of business to manage its exposure against foreign currency fluctuations on sales denominated in foreign currencies. The terms of these contracts are generally six months or less.

At August 31, 2002, the Company had forward contracts with aggregate notional amounts of \$1,498,000, maturing at varying dates over a six-month period. The estimated fair value of the forward currency exchange contracts was a net receivable of \$12,000 at August 31, 2002.

Note 11 - Earnings (Loss) Per Common Share

The following table sets forth the computation of basic and diluted earnings (loss) per common share for the periods indicated:

	Three Months Ended <u>August 31,</u>		Nine Months Ended <u>August 31,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Numerator for basic and diluted earnings (loss) per common share (in thousands):				
Net income (loss)	<u>\$ 67</u>	<u>\$ (4,309)</u>	<u>\$ (895)</u>	<u>\$ (1,866)</u>
Denominator for basic earnings (loss) per common share (in thousands):				
Weighted average shares outstanding	<u>13,068</u>	<u>13,260</u>	<u>13,101</u>	<u>13,354</u>

Denominator for diluted

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

earnings (loss) per common
share (in thousands):

Weighted average shares outstanding	13,068	13,260	13,101	13,354
Effect of dilutive securities:				
Stock options	36	-	-	-
Stock warrants	=	=	=	=
	<u>13.104</u>	<u>13.260</u>	<u>13.101</u>	<u>13.354</u>
Earnings (loss) per common share:				
Basic	<u>\$ 0.01</u>	<u>\$ (0.32)</u>	<u>\$ (0.07)</u>	<u>\$ (0.14)</u>
Diluted	<u>\$ 0.01</u>	<u>\$ (0.32)</u>	<u>\$ (0.07)</u>	<u>\$ (0.14)</u>

Options and warrants to purchase 954,483 shares of Common Stock, at a weighted average exercise price of \$7.19 per share, were outstanding at August 31, 2002, but were not included in the computation of diluted earnings (loss) per share for the nine months ended August 31, 2002, because their inclusion would be anti-dilutive.

Note 12- Comprehensive Income (Loss)

The components of comprehensive income (loss) are as follows (in thousands):

	Three Months Ended August 31,		Nine Months Ended August 31,	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Net income (loss)	\$ 67	\$ (4,309)	\$ (895)	\$ (1,866)
Foreign currency translation adjustments	225	10	194	143
Change in fair value of derivatives	<u>(22)</u>	=	<u>(63)</u>	=
Comprehensive income (loss)	<u>\$ 270</u>	<u>\$ (4,299)</u>	<u>\$ (764)</u>	<u>\$ (1,723)</u>

The components of accumulated other comprehensive loss are as follows (in thousands):

	August 31,	November 30,
	<u>2002</u>	<u>2001</u>
Foreign currency translation adjustments	\$ (732)	\$ (926)
Derivative financial instruments gain	<u>12</u>	<u>75</u>
Accumulated other comprehensive loss	<u>\$ (720)</u>	<u>\$ (851)</u>

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

Note 13- Operating Segments

The Company was founded as a solutions - oriented company, designing and manufacturing products to suppress or eliminate electromagnetic interference ("EMI"). In recent years, the Company has broadened its focus and product lines to become a control products and systems company, providing a wide range of components and systems used to condition, regulate, transmit, receive, or govern electronic performance.

The Company's current operations are conducted in two reportable segments: signal products and power products. The Company's Signal Products Group manufactures a broad range of low pass EMI filters, filtered arrays, filtered connectors, specialty ceramic capacitors, ceramic-based wireless products (coaxial ceramic resonators, patch antennas, bandpass filters, and duplexers), RF and microwave filters, and related products and systems. The Power Technologies Group manufactures various power management and conditioning products including power distribution units, power line filters, and power entry devices. In addition, the Company has developed and introduced an advanced systems product offering to become a provider of more complex power management systems, including a line of digital radio-frequency control equipment for remote and automatic electronic systems management. For operating segment reporting purposes, these advanced systems are included in the Power Technologies Group. The reportable segments are each managed separately because they manufacture and sell distinct products with different production processes.

The Company evaluates performance and allocates resources to its operating segments based upon numerous factors, including segment income or loss before income taxes. The accounting policies of the reportable segments are the same as those utilized in the preparation of the Company's consolidated financial statements. However, substantially all of the Company's selling expenses, general and administrative expenses, and nonoperating expenses are not allocated to the Company's reportable operating segments and, accordingly, these expenses are not deducted in arriving at segment income or loss.

For each period presented, the accounting policies and procedures used to determine segment income (loss) have been consistently applied. Reportable segment information for the periods ended August 31, 2002 and 2001 is as follows (in thousands):

Three Months Ended August 31:	Signal <u>Products</u>	Power <u>Products</u>	<u>Total</u>
<u>2002</u>			
Revenue from unaffiliated customers	\$ 12,369	\$ 3,295	\$ 15,664
Segment income	2,355	181	2,536
<u>2001</u>			
Revenue from unaffiliated customers	13,751	4,670	18,421
Segment loss	(1,396)	(1,567)	(2,963)

Nine Months Ended August 31:

<u>2002</u>			
Revenue from unaffiliated customers	33,208	8,302	41,510
Segment income (loss)	6,059	(622)	5,437

2001

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

Revenue from unaffiliated customers	57,665	16,848	74,513
Segment income	9,795	352	10,147

In the three month and nine month periods ended August 31, 2001, reserves for excess and slow-moving inventories of \$3,057,000 and \$2,088,000 were deducted in arriving at segment income or loss for the Signal Products Group and Power Technologies Group, respectively.

A reconciliation of total reportable segment income (loss) to consolidated income (loss) before provision for income taxes for the periods ended August 31, 2002 and 2001 is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	<u>August 31.</u>		<u>August 31.</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>

Interest expense	(39)	(69)	(116)	(185)
Other income	<u>122</u>	<u>144</u>	<u>1,162</u>	<u>395</u>
Consolidated income (loss) before provision for income taxes	<u>\$ 107</u>	<u>\$ (6,925)</u>	<u>\$ (1,438)</u>	<u>\$ (2,984)</u>

Note 14 - New Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" ("SFAS No. 143"). SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. The Company does not expect the adoption of SFAS No. 143 to have a material impact on its financial position or results of operations.

In October 2001, the FASB issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"). SFAS No. 144 establishes one accounting model for long-lived assets to be disposed of by sale, requiring those assets be measured at the lower of carrying amount or fair value less cost to sell. This accounting model applies to all long-lived assets, including those associated with discontinued operations, and replaces certain prior pronouncements and guidance. The provisions of SFAS No. 144 are generally effective for fiscal years beginning after December 15, 2001. The Company does not expect the adoption of SFAS No. 144 to have a material impact on its financial position or results of operations.

In April 2002, the FASB issued Statement of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" ("SFAS No. 145"). Among other items, SFAS No. 145 updates and clarifies existing accounting pronouncements related to reporting gains and losses from the

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

extinguishment of debt and certain lease modifications that have economic effects similar to sale-leaseback transactions. The provisions of SFAS No. 145 are generally effective as of May 15, 2002. The adoption of SFAS No. 145 did not have a material impact on the Company's financial position or results of operations.

In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS No. 146"). SFAS No. 146 nullifies Emerging Issues Task Force ("EITF") Issue No. 94-3, "Liability Recognition for Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)". SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under EITF Issue 94-3, a liability for an exit cost as defined in EITF Issue 94-3 was recognized at the date of an entity's commitment to an exit plan. The provisions of SFAS No. 146 are effective for exit or disposal activities that are initiated after December 31, 2002, with earlier application encouraged. The Company does not expect the adoption of SFAS No. 146 to have a material impact on its financial position or results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis may be understood more fully by reference to the consolidated financial statements, notes to the consolidated financial statements, and management's discussion and analysis contained in the Spectrum Control, Inc. and Subsidiaries annual report on Form 10-K for the fiscal year ended November 30, 2001. All references to "we", "us", "our", or the "Company" in the following discussion and analysis mean Spectrum Control, Inc. and its Subsidiaries.

Overview

We were founded as a solutions-oriented company, designing and manufacturing products to suppress or eliminate electromagnetic interference ("EMI"). In recent years, we broadened our focus and product lines to become a control products and systems company, providing a wide range of components and systems used to condition, regulate, transmit, receive, or govern electronic performance. Although our components and systems are used in many industries worldwide, our largest markets are telecommunications equipment and military/aerospace which represented 52.0% and 28.0%, respectively, of our fiscal 2001 sales. In telecommunications, our products are used in numerous systems including wireless base stations, optical networks, broadband switching equipment, and global positioning systems. Military/aerospace applications for our products include missile defense systems, smart weapons and munitions, simulation equipment, and avionic upgrades. Our other markets include medical instrumentation, industrial equipment, computer, and automotive.

Our operations are primarily conducted in two reportable business segments: signal products and power products. Our Signal Products Group manufactures a broad line of discrete EMI filters, filtered arrays, filtered connectors, specialty ceramic capacitors (single layer, temperature compensating, high voltage, and switch mode), ceramic-based wireless products (coaxial ceramic resonators, patch antennas, bandpass filters, and duplexers), RF and microwave filters, and related products and systems. Our Power Technologies Group currently manufactures various power management and conditioning products including power distribution units, power line filters, and power entry devices. In addition, we have developed and introduced an advanced systems product offering to become a provider of more complex power management systems, including a line of digital radio-frequency control equipment for remote and automatic electronic systems management. For operating segment reporting purposes, these advanced systems are included in our Power Technologies Group.

Adoption of New Accounting Pronouncement

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS No. 142"). Under SFAS No. 142, goodwill and intangible assets deemed to have indefinite lives are no longer amortized, but are instead subject to a periodic impairment test at least annually. Other intangible assets continue to be amortized over their useful lives.

Effective December 1, 2001, the Company adopted SFAS No. 142. Accordingly, no amortization of goodwill was recognized in the accompanying consolidated statements of operations for the periods ended August 31, 2002. In the comparable periods of 2001, goodwill amortization of \$205,000 for the three months ended August 31, 2001 and \$610,000 for the nine months ended August 31, 2001 was recognized and included in selling, general and administrative expense. As

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

required by SFAS No. 142, the results of operations for the periods ended August 31, 2001 have not been restated. If the Company had discontinued amortization of goodwill at the beginning of fiscal year 2001, net loss for the three month and nine month periods ended August 31, 2001 would have decreased \$127,000 and \$378,000, respectively. Basic and diluted loss per share would have each decreased by \$0.03 for the nine month period ended August 31, 2001 and \$0.01 for the three month period ended August 31, 2001.

In accordance with the provisions of SFAS No. 142, the Company has performed the required transitional impairment test of goodwill and has determined that no impairment loss need be recognized in the periods ended August 31, 2002.

Acquisition

On July 19, 2002, the Company acquired all of the outstanding common stock of FSY Microwave, Inc. ("FSY"). FSY, based in Columbia, Maryland, designs and manufactures RF and microwave filters, combiners, amplifiers, multiplexers, duplexers, and related products and systems. These products are a natural complement and extension to the Company's existing ceramic-based wireless product offerings. The aggregate cash purchase price for FSY was approximately \$6.5 million, including legal fees and other costs directly related to the acquisition. The purchase price was entirely funded through the Company's available cash reserves. The results of operations of the acquired business have been included in the accompanying consolidated financial statements since the date of acquisition. Accordingly, FSY net sales of \$859,000 have been included in the Company's consolidated net sales for the periods ended August 31, 2002 and are reported within the Company's Signal Products Group for operating segment purposes.

Forward-Looking Information

The following discussion includes certain "forward-looking statements" within the meaning of the federal securities laws, including statements regarding: (1) our belief as to future market conditions, (2) our anticipated capital expenditures, and (3) our expected future operating requirements and financing needs. The words "believe", "expect", "anticipate" and similar expressions identify forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties which could cause actual results to differ materially from historical results or those anticipated. Factors that could cause or contribute to such differences include those discussed in "Risk Factors That May Affect Future Results", as well as those discussed elsewhere herein. Readers are cautioned not to place undue reliance on these forward-looking statements.

Results of Operations

The following table sets forth certain financial data, as a percentage of net sales, for the three months and nine months ended August 31, 2002 and 2001:

	<u>Three Months Ended</u> <u>August 31,</u>		<u>Nine Months Ended</u> <u>August 31,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Net sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of products sold	<u>81.2</u>	<u>112.9</u>	<u>84.5</u>	<u>84.3</u>
Gross margin	18.8	(12.9)	15.5	15.7
Selling, general and administrative expense	18.6	22.5	21.5	19.3
Restructuring charges	-	<u>2.6</u>	-	<u>0.7</u>
Income (loss) from operations	0.2	(38.0)	(6.0)	(4.3)
Other income (expense)				
Interest expense	(0.3)	(0.4)	(0.3)	(0.2)
Other income and expense, net	<u>0.8</u>	<u>0.8</u>	<u>2.8</u>	<u>0.5</u>
Income (loss) before provision

for income taxes	0.7	(37.6)	(3.5)	(4.0)
Provision for income taxes	<u>0.3</u>	<u>(14.2)</u>	<u>(1.3)</u>	<u>(1.5)</u>
Net income (loss)	<u>0.4 %</u>	<u>(23.4) %</u>	<u>(2.2) %</u>	<u>(2.5) %</u>

The following table sets forth the Company's net sales by operating segments for the three months and nine months ended August 31, 2002 and 2001 (in thousands):

	Three Months Ended		Nine Months Ended	
	<u>August 31.</u>		<u>August 31.</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
Signal Products	\$ 12,369	\$ 13,751	\$ 33,208	\$ 57,665
Power Products	<u>3,295</u>	<u>4,670</u>	<u>8,302</u>	<u>16,848</u>
	<u>\$ 15,664</u>	<u>\$ 18,421</u>	<u>\$ 41,510</u>	<u>\$ 74,513</u>

Third Quarter 2002 Versus Third Quarter 2001

Net Sales

During the third quarter of fiscal 2002, our sales continued to be negatively impacted by the industry-wide slowdown in capital spending by major telecommunications carriers. Overall, our net sales decreased by \$2.7 million during the period, with consolidated net sales of \$15.7 million in the third quarter of fiscal 2002 and \$18.4 million in the comparable quarter of 2001. This decrease reflects reduced shipment volume for substantially all of our product lines. Sales of signal products amounted to \$12.4 million in the current quarter, including FSY product shipments of \$859,000. In the comparable quarter of last year, sales of signal products amounted to \$13.7 million. Power product sales, including advanced systems, decreased by \$1.4 million during the period, from \$4.7 million in the third quarter of fiscal 2001 to \$3.3 million in the current quarter. As a result of competitive pressures, average selling prices declined slightly in 2002 throughout most of our product lines. Customer orders received in the third quarter of fiscal 2002 amounted to \$14.8 million, up 2.0% from the comparable period of 2001. In addition to these customer orders, we assumed approximately \$2.0 million of customer order backlog in connection with the acquisition of FSY. At August 31, 2002, our consolidated sales order backlog was approximately \$25.8 million, up \$3.0 million from the end of last fiscal year.

Early in 2001, the telecommunications equipment market began to experience a severe industry-wide downturn. This downturn was driven by several factors, including: (1) the collapse of numerous start-up, competitive service providers and dot coms resulting in excess component inventories, unsold telecom systems, and a secondary market of used equipment throughout the telecommunications industry and (2) reduced spending for infrastructure and network equipment by incumbent telephone service providers as competitive pressures from start-up providers eased, certain technological advances stalled, and economic recessionary pressures grew. In fiscal 2002, we believe this severe downturn has demonstrated some signs of moderating. Customer order cancellations and delivery date pushouts, which were prevalent throughout 2001, have significantly diminished in fiscal 2002. Overall market demand for telecommunications equipment, however, continues to be very soft with the timing and extent of the market's recovery still uncertain. We cannot forecast with any degree of certainty when an increase in telecom equipment spending may be expected, nor can we forecast what normal customer spending levels may be once this structural market correction is completed. We do not expect any significant improvement in overall market conditions throughout the remainder of fiscal 2002.

Restructuring Charges

During the third quarter of fiscal 2001, we adopted a plan to restructure our operations and reduce operating expenses in response to the severe slowdown in the global telecommunications equipment market. The restructuring plan, which was substantially completed by the end of fiscal 2001, was intended to reduce excess manufacturing capacity, improve efficiencies, and align our operations with current business expectations. The plan included consolidating manufacturing facilities, writing-off slow moving inventories, and disposing of excess property and equipment. In connection with this plan, we recorded restructuring charges of \$485,000 in the third quarter of fiscal 2001. These restructuring charges consisted of employee severance costs and losses on the disposal of excess fixed assets. In addition, we increased our inventory

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

reserves for excess and slow moving items by \$5.1 million. These additional inventory reserves were included in cost of products sold for the third quarter of fiscal 2001.

Gross Margin

In the third quarter of fiscal 2002, gross margin was \$2.9 million or 18.8% of sales. For the third quarter of last year, gross margin was \$2.8 million or 15.1% of sales, excluding the additional inventory reserves of \$5.1 million discussed above. In addition to our formal restructuring plan, we have identified and implemented numerous cost reduction programs during the past year. As a result of these efforts, gross margin in the current quarter was positively impacted by improved labor efficiencies and lower manufacturing overhead. At August 31, 2002, we had a total workforce (excluding FSY personnel) of 756 employees, a reduction of 113 or 13.0% from a year ago. In light of current business conditions, we will continue to review our organization and cost structure to further reduce operating expenses and improve efficiencies.

Selling, General and Administrative Expense

In the third quarter of fiscal 2002, selling expense amounted to \$1.6 million or 10.5% of sales, compared to \$2.4 million or 13.0% of sales in the same quarter of 2001. The decrease in selling expense, as a percentage of sales, principally reflects reduced personnel costs, lower effective commission rates, and the elimination of certain advertising expenses. General and administrative expense was approximately \$1.3 million in the third quarter of 2002, compared to \$1.7 in the comparable quarter of 2001. The decrease in general and administrative expense reflects lower personnel costs and the reduction of certain variable administrative expenses. In addition, \$205,000 of goodwill amortization was recorded and included in general and administrative expense in the third quarter of 2001. With the adoption of SFAS No. 142, no goodwill amortization was recorded during the current period.

Nine Months 2002 Versus Nine Months 2001

Net Sales

For the first nine months of fiscal 2002, net sales decreased by \$33.0 million or 44.3%, with consolidated sales of \$41.5 million in 2002 and \$74.5 million in 2001. This decrease, which was reflected throughout all of our major product lines, was primarily driven by the unprecedented slowdown in the telecommunications equipment industry and sluggish overall economic conditions in the United States and Europe. Sales of signal products amounted to \$33.2 million in the first nine months of fiscal 2002, compared to \$57.7 million in the same period last year. Sales of power products decreased by \$8.5 million during the period, from \$16.8 million in the first nine months of fiscal 2001 to \$8.3 million in the comparable period of 2002. Power product sales included shipments of \$1.2 million in 2002 and \$2.0 million in 2001 of our recently introduced advanced systems product offering. Although we believe the long-term market potential for these advanced systems remains strong, their initial market introduction and penetration has been severely hampered by the current telecom market conditions. Overall, total customer orders received in the first nine months of fiscal 2002 amounted to \$42.5 million, a decrease of \$13.3 million or 23.8% from the same period last year. Average selling prices declined slightly throughout most of our product offerings due to competitive and market pressures.

Gross Margin

For the first nine months of fiscal 2002, gross margin was \$6.5 million or 15.5% of sales. In the comparable period of last year, gross margin was \$16.8 million or 22.6% of sales, excluding the additional inventory reserves of \$5.1 million previously discussed. The decline in gross margin primarily reflects lower sales volume and manufacturing inefficiencies caused by the abrupt downturn in product demand by our telecommunications customers.

Selling, General and Administrative Expense

During the first nine months of fiscal 2002, selling expense amounted to \$5.1 million or 12.2% of sales, compared to \$8.8 million or 11.8% of sales for the same period last year. The increase in selling expense, as a percentage of sales, reflects the impact of lower sales volume and certain fixed selling expenses. This impact has been partially offset by lower effective sales commission rates, reduced advertising expenses, and decreased personnel costs. General and administrative expense was \$3.8 million during the first nine months of fiscal 2002, compared to \$5.6 million in the comparable period of 2001. The decrease in general and administrative expense primarily reflects lower personnel costs and the reduction of certain variable charges and expenditures for professional services. In addition, \$610,000 of goodwill amortization was recorded and included in general and administrative expense during the first nine months of fiscal 2001. With the adoption of SFAS No. 142, no goodwill amortization has been recorded in the current year.

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

Other Income and Expense

With reduced bank indebtedness and lower average interest rates, interest expense decreased slightly during the period. For the first nine months of fiscal 2002, interest expense was \$116,000 compared to \$185,000 for the same period last year.

We hold numerous United States and foreign patents relating to polymer multilayer ("PML") technology. We realized license fee income of \$921,000 in the first nine months of fiscal 2002 upon the granting of PML technology licenses, compared to \$29,000 in the same period last year. Although these licenses require certain royalties to be paid to us upon the sale of products utilizing PML technology, it is not known what commercial value, if any, these patents and related licenses may have.

Investment income of \$200,000 in 2002 and \$316,000 in 2001 was realized from temporary cash investments.

Income Taxes

Our effective income tax rate was 37.8% in 2002 and 37.5% in 2001, compared to an applicable statutory federal and state income tax rate of approximately 40.0%. Differences between the effective tax rate and statutory income tax rate principally arise from state tax provisions and foreign income tax rates.

Risk Factors That May Affect Future Results

In fiscal year 2001, approximately 52.0% of our sales were to customers in the telecommunications industry. Our three largest customers, original equipment manufacturers of telecommunications equipment, represented an aggregate 24.0% of our total consolidated net sales in 2001. Throughout 2001 and the first nine months of 2002, the telecommunications industry has experienced a severe slowdown. If this slowdown continues or intensifies, it will have a material negative impact on our future operating performance. In addition, our results of operations may be negatively affected in the future by a variety of other factors including: competitive pricing pressures, new technologies which decrease the demand for our products, new product offerings by our competitors, product cost changes, changes in the overall economic climate, cancellation of existing customer order backlog, difficulties in successfully integrating our acquisition of FSY, unanticipated impairment of assets, changes in the availability of raw materials, and changes in product mix.

Liquidity, Capital Resources and Financial Condition

We maintain a line of credit with our principal lending institution, PNC Bank, N.A. of Erie, Pennsylvania (the "Bank"). This revolving credit line is unsecured, with interest rates on borrowings at or below the prevailing prime rate. At August 31, 2002, no borrowings were outstanding under the line of credit. The line of credit agreement contains certain covenants, the most restrictive of which require us to maintain designated minimum levels of net worth and profitability and impose certain restrictions on us regarding additional indebtedness. In February 2002, certain of these covenants were amended or waived by the Bank. At August 31, 2002, we were in compliance with all debt covenants, as amended. Maximum borrowings under the amended agreement may not exceed \$6.0 million. Our ability to borrow in the future under this credit facility is dependent on our ongoing compliance with the restrictive covenants. Whether we continue to comply with these covenants is largely dependent on our ability to attain certain levels of operating performance and profitability in the future, for which there can be no assurance. The amended line of credit agreement expires April 30, 2003.

Our wholly-owned German subsidiary maintains an unsecured Euro line of credit with a German financial institution aggregating \$978,000 (Euro 1.0 million). At August 31, 2002, no borrowings were outstanding under this line of credit. Future borrowings, if any, will bear interest at rates below the prevailing prime rate and will be payable upon demand.

At August 31, 2002, we had net working capital of \$40.4 million, compared to \$42.1 million at November 30, 2001. Our current ratio remained very strong throughout the first nine months of fiscal 2002. At August 31, 2002, current assets were 8.49 times current liabilities, compared to 9.17 at the end of fiscal 2001.

With the significant reduction in our sales volume and production requirements caused by the severe slowdown in the telecommunications industry, we currently have excess manufacturing capacity. Accordingly, our capital expenditures in 2002 for new equipment have been minimal. During the first nine months of fiscal 2002, our capital expenditures for property, plant and equipment amounted to \$318,000. These capital expenditures were primarily for manufacturing equipment and tooling to enhance efficiencies in our ceramic capacitor operations and our new advanced systems product offerings. At August 31, 2002, we had not entered into any material commitments for capital expenditures.

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

During fiscal 2001, in response to the poor overall business climate, we adopted and substantially implemented a plan to consolidate certain manufacturing facilities and dispose of excess property and equipment. As part of this plan, we closed two operating facilities in Elizabethtown, Pennsylvania. Manufacturing in these facilities had consisted of certain wireless products, specialty ceramic capacitors, and other signal products. These operations were consolidated into our manufacturing facilities in Juarez, Mexico and New Orleans, Louisiana. In March 2002, the two Elizabethtown facilities and related excess equipment were sold. Net proceeds realized from the sale amounted to \$1.0 million, which approximated the net carrying value of the underlying assets. Accordingly, no gain or loss was recognized on the sale of the property and equipment.

As previously indicated, we acquired all of the outstanding common stock of FSY in July, 2002. The aggregate cash purchase price for FSY was approximately \$6.5 million, excluding possible future contingent payments. The amount of contingent payments will be determined based upon the increase in sales of the acquired product lines during the three years subsequent to the acquisition date. The purchase price, net of cash acquired, was approximately \$4.9 million. This net purchase price was entirely funded through available cash reserves.

We have adopted a stock repurchase program. Under this program, we may repurchase up to \$6.0 million of the Company's outstanding Common Stock. Acquired shares are to be purchased in the open market or through privately negotiated transactions at prevailing market prices. Funding for these repurchases is expected to come from available cash reserves and borrowings under our revolving line of credit facilities. The amount and timing of the shares repurchased are based on our ongoing assessment of the Company's capital structure, liquidity, and the market price of the Company's Common Stock. The repurchased shares are held as treasury stock. During the first nine months of fiscal 2002, 194,900 shares were repurchased at an aggregate cost of \$968,000. Since the adoption of the stock repurchase program, 647,600 shares have been repurchased at a total cost of \$3.5 million.

As of August 31, 2002, our obligations and firm commitments are as follows (in thousands):

<u>Contractual obligations</u>	<u>Total</u>	<u>Payments Due by Period</u>				
		<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>Thereafter</u>
Long-term debt	\$ 2,686	\$ 10	\$ 285	\$ 285	\$ 390	\$ 1,716
Operating leases	2,875	210	781	741	546	597

Current financial resources, including working capital and existing lines of credit, and anticipated funds from operations are expected to be sufficient to meet operating cash requirements throughout fiscal year 2002, including scheduled long-term debt repayment, lease commitments, planned capital equipment expenditures and possible stock repurchases. There can be no assurance, however, that unplanned capital replacement or other future events will not require us to seek additional debt or equity financing and, if so required, that it will be available on terms acceptable to us.

Despite current year-to-date operating losses, our overall cash flow remains strong. Net cash generated by operating activities amounted to \$10.9 million during the first nine months of fiscal 2002, compared to \$8.5 million in the same period of 2001. Operating cash flow in 2002 was positively impacted by the refund of \$3.3 million of federal income taxes from prior year net operating loss carrybacks and overpayments. In addition, as a result of improved turnover rates and lower sales volume and production requirements, accounts receivable and inventories decreased by \$2.6 million and \$2.8 million, respectively, during the first nine months of fiscal 2002.

At August 31, 2002, goodwill represented 22.1% of total assets and 25.6% of stockholders' equity. In addition to the \$3.8 million of goodwill recognized in connection with the acquisition of FSY, a majority of our recorded goodwill was recognized in 1999 in connection with our acquisition of substantially all of the assets of the Signal Conditioning Products Division of AMP Incorporated. With the adoption of SFAS No. 142, effective December 1, 2001, we performed the required transitional impairment test of goodwill and determined that no impairment loss need be recognized in the periods ended August 31, 2002.

New Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" ("SFAS No. 143"). SFAS No. 143 addresses financial accounting

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. We do not expect the adoption of SFAS No. 143 to have a material impact on our financial position or results of operations.

In October 2001, the FASB issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"). SFAS No. 144 establishes one accounting model for long-lived assets to be disposed of by sale, requiring those assets be measured at the lower of carrying amount or fair value less cost to sell. This accounting model applies to all long-lived assets, including those associated with discontinued operations, and replaces certain prior pronouncements and guidance. The provisions of SFAS No. 144 are generally effective for fiscal years beginning after December 15, 2001. We do not expect the adoption of SFAS No. 144 to have a material impact on our financial position or results of operations.

In April 2002, the FASB issued Statement of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" ("SFAS No. 145"). Among other items, SFAS No. 145 updates and clarifies existing accounting pronouncements related to reporting gains and losses from the extinguishment of debt and certain lease modifications that have economic effects similar to sale-leaseback transactions. The provisions of SFAS No. 145 are generally effective as of May 15, 2002. The adoption of SFAS No. 145 did not have a material impact on the Company's financial position or results of operations.

In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS No. 146"). SFAS No. 146 nullifies Emerging Issues Task Force ("EITF") Issue No. 94-3, "Liability Recognition for Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)". SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under EITF Issue 94-3, a liability for an exit cost as defined in EITF Issue 94-3 was recognized at the date of an entity's commitment to an exit plan. The provisions of SFAS No. 146 are effective for exit or disposal activities that are initiated after December 31, 2002, with earlier application encouraged. We do not expect the adoption of SFAS No. 146 to have a material impact on our financial position or results of operations.

Critical Accounting Policies

The methods, estimates and judgments we use in applying our most critical accounting policies have a significant impact on the results we report in our financial statements. The U.S. Securities and Exchange Commission has defined the most critical accounting policies as the ones that are most important to the portrayal of our financial condition and results, and require us to make our most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, we believe our most critical accounting policies relate to the valuation and carrying amounts of accounts receivable, inventories, long-lived assets, and deferred tax assets.

We evaluate the collectibility of our accounts receivable based on a combination of factors including an assessment of the customer's financial condition and the length of time a receivable is past due. At August 31, 2002, our allowance for doubtful accounts was \$862,000, or approximately 7.9% of our aggregate accounts receivable. In determining the adequacy of this allowance, we have assumed that the current severe downturn in the telecommunications industry will stabilize sometime in fiscal 2002. If this stabilization does not occur, or if market conditions deteriorate further, our customers may not be able to meet their financial obligations to us. Accordingly, our estimate of the recoverability of amounts due us could be reduced by a material amount.

At August 31, 2002, we had recorded inventory reserves in the aggregate amount of \$3.8 million for excess and slow-moving items. In determining the adequacy of these reserves, we considered numerous factors including current customer forecasts and estimated usage. Should these forecasts and estimates change due to market, technological or other factors, the net realizable value of our inventories may be materially less than our current carrying values.

With the adoption of SFAS No. 142, we review goodwill for possible impairment at least annually. Impairment losses are recognized when the implied fair value of goodwill is less than its carrying value. The implied fair value of goodwill is contingent upon many factors, including estimates of future discounted operating cash flows. Long-lived assets other than goodwill are reviewed for impairment whenever indicators of possible impairment exist. Impairments are recognized when the expected future operating cash flows derived from such assets are less than their carrying values. No impairment losses have been recognized in any of the periods presented herein. However, our future cash flow expectations assume that the current poor market conditions throughout the telecommunications industry will begin to improve in 2003. If long-term market conditions do not improve, our long-lived assets may become materially impaired.

Edgar Filing: SPECTRUM CONTROL INC - Form 10-Q

We record valuation allowances to reduce deferred tax assets when it is more likely than not that some portion of the asset may not be realized. Presently, we believe that all deferred tax assets will more likely than not be realized and a valuation allowance is not required. We evaluate the need for valuation allowances on a regular basis and make adjustments as needed. These adjustments, when made, may have a materially negative impact on our financial statements.

Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency

Certain of our European sales and related selling expenses are denominated in Euros, British Pounds Sterling, and other local currencies. In addition, certain of our operating expenses are denominated in Mexican Pesos. As a result, fluctuations in currency exchange rates may affect our operating results and cash flows. To manage our exposure to the Euro and British Pound Sterling, we occasionally enter into forward currency exchange contracts. At August 31, 2002, we had forward currency exchange contracts with aggregate notional amounts of \$1.5 million expiring at various dates over a six-month period. The estimated fair value of these contracts at August 31, 2002, was a net receivable of \$12,000. For each of the periods presented herein, currency exchange rate gains and losses were not material.
