¹ As a percentage of the Fund's total investments on 4-30-11.

² Sector investing is subject to greater risks than the market as a whole. Because the Fund may focus on particular sectors of the economy, its performance may depend on the performance of those sectors.

³ Ratings are from Moody's Investor Services, Inc. If not available, we have used S&P ratings. In the absence of ratings from these agencies, we have used Fitch, Inc. ratings. "Not Rated" securities are those with no ratings available. They may have internal ratings similar to those shown. All are as of 4-30-11 and do not reflect subsequent downgrades, if any.

² For the ten-month period ended 10-31-08. The Fund changed its fiscal year end from December 31 to October 31.

³ Based on the average daily shares outstanding.

⁴ Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market value reflects changes in market value. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period.

⁵ Not annualized.

⁶ Unaudited.

⁷ Annualized.

⁸ Ratios calculated on the basis of expenses relative to the average net assets of common shares. Without the exclusion of preferred shares, the annualized ratio of expenses would have been 0.76%, 0.77% and 0.77% for the periods ended 12-31-07, 12-31-06 and 12-31-05, respectively.

⁹ Ratios calculated on the basis of net investment income relative to the average net assets of common shares. Without the exclusion of preferred shares, the annualized ratio of net investment income would have been 5.82%, 5.45% and 5.06% for the periods ended 12-31-07, 12-31-06 and 12-31-05, respectively.

¹⁰ Calculated by subtracting the Fund's total liabilities from the Fund's total assets and dividing that amount by the number of APS outstanding, as of the applicable 1940 Act Evaluation Date, which may differ from the financial reporting date.

¹¹ In May 2008, the Fund entered into a Credit Facility Agreement with a third-party commercial bank in order to redeem the APS. The redemption of all APS was completed on 6-12-08.

¹² Asset coverage equals the total net assets plus APS divided by the APS of the Fund outstanding at period end.

¹³ Asset coverage equals the total net assets plus borrowings divided by the borrowings of the Fund outstanding at period end (Note 8).

Notes to financial statements

(unaudited)

Note 1 □ Organization

John Hancock Income Securities Trust (the Fund) is a closed-end diversified management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act).

Note 2 □ Significant accounting policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Events or transactions occurring after the end of the fiscal period through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Fund:

Security valuation. Investments are stated at value as of the close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. The Fund uses a three-tier hierarchy to prioritize the pricing assumptions, referred to as inputs, used in valuation techniques to measure fair value. Level 1 includes securities valued using quoted prices in active markets for identical securities. Level 2 includes securities valued using significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these techniques are received from independent pricing vendors and brokers and are based on an evaluation of the inputs described. Level 3 includes securities valued using significant unobservable inputs when market prices are not readily available or reliable, including the Fund's own assumptions in determining the fair value of investments. Factors used in determining value may include market or issuer specific events, changes in interest rates and credit quality. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the values by input classification of the Fund's investments as of April 30, 2011, by major security category or type:

28 Income Securities Trust | Semiannual report

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. During the six-month period ended April 30, 2011, there were no significant transfer in or out of Level 1 or Level 2 assets.

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value. Transfers in or out of Level 3 represent the beginning value of any security or instrument where a change in the level has occurred from the beginning to the end of the period.

*Change in unrealized appreciation (depreciation) attributable to Level 3 securities held at the period end. This balance is included in the change in unrealized appreciation (depreciation) on the Statement of Operations.

In order to value the securities, the Fund uses the following valuation techniques. Equity securities held by the Fund are valued at the last sale price or official closing price on the principal securities exchange on which they trade. In the event there were no sales during the day or closing prices are not available, then securities are valued using the last quoted bid or evaluated price. Debt obligations are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied and electronic data processing techniques, taking into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data. Certain securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Certain short-term securities are valued at amortized cost. Other portfolio securities and assets, where market quotations are not readily available, are valued at fair value, as determined in good faith by the Fund's Pricing Committee, following procedures established by the Board of Trustees.

Repurchase agreements. The Fund may enter into repurchase agreements. When a Fund enters into a repurchase agreement, it receives collateral which is held in a segregated account by the Fund's custodian. The collateral amount is marked-to-market and monitored on a daily basis to ensure that the collateral held is in an amount not less than the principal amount of the repurchase agreement plus any accrued interest. In the event of a default by the counterparty, realization of the collateral proceeds could be delayed, during which time the collateral value may decline.

Security transactions and related investment income. Investment security transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is accrued as earned. Gains and losses on securities sold are determined on the basis of identified

cost and may include proceeds from litigation. Dividend income is recorded on the ex-date, except for dividends of foreign securities where the dividend may not be known until after ex-date. In those cases, dividend income is recorded when the Fund becomes aware of the dividends. Interest income includes coupon interest and amortization/accretion of premiums/discounts on debt securities. Debt obligations may be placed in a non-accrual

status and related interest income may be reduced by stopping current accruals and writing off interest receivable when the collection of all or a portion of interest has become doubtful.

Payment-in-kind bonds. The Fund may invest in payment-in-kind bonds (PIK Bonds). PIK Bonds allow the issuer, at its option, to make current interest payments on the bonds either in cash or in additional bonds. The market prices of PIK Bonds are affected to a greater extent by interest rate changes and thereby tend to be more volatile than securities which pay cash interest periodically. The Fund accrues income on these securities and this income is required to be distributed to shareholders. Because no cash is received at the time income accrues on these securities, the Fund may need to sell other investments to make distributions.

Real estate investment trusts. From time to time, the Fund may invest in real estate investment trusts (REITs) and, as a result, will estimate the components of distributions from these securities. Distributions from REITs received in excess of income are recorded as a reduction of cost of investments and/or as a realized gain.

Stripped securities. Stripped mortgage backed securities are financial instruments structured to separate principal and interest cash flows so that one class receives the entire principal from the underlying mortgage assets (PO or principal only), while the other class receives the interest cash flows (IO or interest only). Both PO and IO investments represent an interest in the cash flows of an underlying stripped mortgage backed security. If the underlying mortgage assets experience greater than anticipated prepayments of principal, the Fund may fail to fully receive its initial investment in an IO security. The market value of these securities can be extremely volatile in response to changes in interest rates. In addition, these securities present additional credit risk such that the Fund may not receive all or part of its principal or interest payments because the borrower or issuer has defaulted on its obligation.

Overdrafts. Pursuant to the custodian agreement, the Fund's custodian may, in its discretion, advance funds to the Fund to make properly authorized payments. When such payments result in an overdraft, the Fund is obligated to repay the custodian for any overdraft, including any costs or expenses associated with the overdraft. The custodian has a lien, security interest or security entitlement in any Fund property, that is not segregated, to the maximum extent permitted by law to the extent of any overdraft.

Expenses. The majority of expenses are directly attributable to an individual fund. Expenses that are not readily attributable to a specific fund are allocated among all funds in an equitable manner, taking into consideration, among other things, the nature and type of expense and the fund's relative assets. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.

Federal income taxes. The Fund intends to continue to qualify as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

For federal income tax purposes, the Fund has a capital loss carryforward of \$17,851,774 available to offset future net realized capital gains as of October 31, 2010. The following table details the capital loss carryforward available as of October 31, 2010.

30 Income Securities Trust | **Semiannual report**

CAPITAL LOSS CARRYFORWARD EXPIRING AT

Under the recently enacted Regulated Investment Company Modernization Act of 2010, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

As of October 31, 2010, the Fund had no uncertain tax positions that would require financial statement recognition, de-recognition or disclosure. The Fund's federal tax return is subject to examination by the Internal Revenue Service for a period of three years.

Distribution of income and gains. Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-date. The Fund generally declares and pays dividends quarterly and capital gain distributions, if any, annually.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America.

Capital accounts within financial statements are adjusted for permanent book-tax differences. These adjustments have no impact on net assets or the results of operations. Temporary book-tax differences, if any, will reverse in a subsequent period. Book-tax differences are primarily attributable to defaulted bonds, derivative transactions and amortization and accretion on debt securities.

Statement of cash flows. Information on financial transactions that have been settled through the receipt and disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents the cash on hand at its custodian and does not include any short-term investments.

Note 3 □ Derivative instruments

The Fund may invest in derivatives in order to meet its investment objectives. The use of derivatives may involve risks different from, or potentially greater than, the risks associated with investing directly in securities. Specifically, derivatives expose the Fund to the risk that the counterparty to an over-the-counter (OTC) derivatives contract will be unable or unwilling to make timely settlement payments or otherwise honor its obligations. OTC derivatives transactions typically can only be closed out with the other party to the transaction. If the counterparty defaults, the Fund will have contractual remedies, but there is no assurance that the counterparty will meet its contractual obligations or that the Fund will succeed in enforcing them.

Futures. A futures contract is a contractual agreement to buy or sell a particular commodity, currency, or financial instrument at a pre-determined price in the future. Risks related to the use of futures contracts include possible illiquidity of the futures markets, contract prices that can be highly volatile and imperfectly correlated to movements in hedged security values and/or interest rates and potential losses in excess of the recognized on the Statement of Assets and Liabilities.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. Upon entering into a futures contract, the Fund is required to deposit initial margin with the broker in the form of cash or securities. The amount of required margin is generally based on a percentage of the contract value; this amount is the initial margin for the trade. The margin deposit must then be maintained at the established level over the life of the contract. Futures contracts are marked-to-market daily and an appropriate

Edgar Filing: JOHN HANCOCK INCOME SECURITIES TRUST - Form N-CSRS

payable or receivable for the change in value (variation margin) is recorded by the Fund.

During the six months ended April 30, 2011, the Fund used futures contracts to manage the duration of the portfolio. The following table summarizes the contracts held at April 30, 2011. During the six months ended April 30, 2011, the Fund held futures contracts with absolute notional values ranging from \$7.2 million to \$7.5 million, as measured at each quarter end.

Note 4 □ Guarantees and indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss from such claims is considered remote.

Note 5 □ Fees and transactions with affiliates

John Hancock Advisers, LLC (the Adviser) serves as investment adviser for the Fund. The Adviser is an indirect wholly owned subsidiary of Manulife Financial Corporation (MFC).

Management fee. The Fund has an investment management contract with the Adviser under which the Fund pays a daily management fee to the Adviser equivalent, on an annual basis, to the sum of (a) 0.650% of the first \$150,000,000 of the Fund's average daily net assets and the value attributable to the credit facility agreement (collectively, managed assets), (b) 0.375% of the next \$50,000,000, (c) 0.350% of the next \$100,000,000 and (d) 0.300% of the Fund's average daily managed assets in excess of \$300,000,000. The Adviser has a subadvisory agreement with John Hancock Asset Management a division of Manulife Asset Management (US) LLC (formerly, MFC Global Investment Management (U.S.), LLC), an indirectly owned subsidiary of MFC and an affiliate of the Adviser. Manulife Asset Management (US) LLC is doing business as John Hancock Asset Management. The Fund is not responsible for payment of the subadvisory fees.

The investment management fees incurred for the six months ended April 30, 2011, were equivalent to an annual effective rate of 0.53% of the Fund's average daily managed assets.

Accounting and legal services. Pursuant to a service agreement the Fund reimburses the Adviser for all expenses associated with providing the administrative, financial, legal, accounting and recordkeeping services of the Fund, including the preparation of all tax returns, periodic reports to shareholders and regulatory reports, among other services. These expenses are allocated to each share class based on its relative net assets at the time the expense

was incurred. These accounting and legal services fees incurred for the six months ended April 30, 2011, amounted to an annual rate of 0.01% of the Fund's average daily managed assets.

Trustee expenses. The Trust compensates each Trustee who is not an employee of the Adviser or its affiliates. These Trustees may, for tax purposes, elect to defer receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan (the Plan). Deferred amounts are invested in various John Hancock funds and remain in the funds until distributed in accordance with the Plan. The investment of deferred amounts and the offsetting liability are included within Other receivables and prepaid assets and Payable to affiliates – Trustees' fees, respectively, in the accompanying Statement of Assets and Liabilities.

Note 6 – Fund share transactions

Transactions in Fund shares for the six months ended April 30, 2011, and for the year ended October 31, 2010, were as follows:

	Six months ended 4-30-11		Year ended 10-31-10	
	Shares	Amount	Shares	Amount
Distributions reinvested	36,699	\$525,109	77,303	\$1,079,434

Note 7 – Leverage risk

The Fund utilizes a Committed Facility Agreement (CFA) to increase its assets available for investment. When the Fund leverages its assets, common shareholders bear the fees associated with the facility and have the potential to benefit or be disadvantaged from the use of leverage. The Adviser's fee is also increased in dollar terms from the use of leverage. Consequently, the Fund and the Adviser may have differing interests in determining whether to leverage the Fund's assets. Leverage creates risks that may adversely affect the return for the holders of common shares, including:

- the likelihood of greater volatility of net asset value and market price of common shares
- fluctuations in the interest rate paid for the use of the credit facility
- increased operating costs, which may reduce the Fund's total return
- the potential for a decline in the value of an investment acquired through leverage, while the Fund's obligations under such leverage remains fixed
- the Fund is more likely to have to sell securities in a volatile market in order to meet asset coverage or other debt compliance requirements

To the extent the income or capital appreciation derived from securities purchased with funds received from leverage exceeds the cost of leverage, the Fund's return will be greater than if leverage had not been used, conversely, returns would be lower if the cost of the leverage exceeds the income or capital appreciation derived.

Note 8 – Committed Facility Agreement

The Fund has entered into a Committed Facility Agreement (CFA) with a subsidiary of BNP Paribas (BNP) that allows it to borrow up to \$90 million and to invest the borrowings in accordance with its investment practices.

Borrowings under the CFA are secured by the assets of the Fund as disclosed in the Fund's investments. Interest charged is at the rate of one month LIBOR (reset daily) plus 0.70% and is payable monthly. Prior to April 29, 2011, the interest rate was one month LIBOR plus 0.85%. The Fund also pays a commitment fee of 0.60% per annum on the unused portion of the facility. The Commitment fee for the six months ended April 30, 2011, amounted to \$16,182 and is included in the interest expense in the Statement of operations. As of April 30, 2011, the Fund had borrowings of \$85,900,000 at an interest rate of 0.91%, which are reflected in the Committed facility agreement payable on the Statement of assets and liabilities. During the six months ended April 30, 2011, the average borrowing under the CFA and the effective average interest rate were \$84,656,522 and 1.10%, respectively.

The Fund may terminate the agreement with 90 days' notice and, if the Board of Trustees determines that the elimination of all indebtedness leveraging the Fund's investments is in the best interests of the Fund's shareholders, the Fund may terminate the agreement with 30 days' notice. In addition, if certain asset coverage and collateral requirements, minimum net assets or other covenants are

34 Income Securities Trust | **Semiannual report**

not met, the CFA could be deemed in default and result in termination. Absent a default or a facility termination event, BNP is required to provide the Fund with 270 days' notice prior to terminating or amending the CFA.

The Fund has entered into an agreement with BNP that allows BNP to borrow a portion of the pledged collateral (Lent Securities) in an amount not to exceed the lesser of: (i) outstanding borrowings owed by the Fund to BNP and (ii) thirty-three and one-third percent of the Fund's total assets. The Fund can designate any security within the pledged collateral as ineligible to be a Lent Security and can recall any of the Lent Securities. The Fund also has the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the current borrowings under the CFA. There have been no lending activity under this agreement during the six-month period ended April 30, 2011.

Note 9 □ Purchase and sale of securities

Purchases and sales of securities, other than short-term securities and U.S. Treasury obligations, aggregated \$82,838,394 and \$74,411,475, respectively, for the six months ended April 30, 2011. Purchases and sales of U.S. Treasury obligations aggregated \$28,743,153 and \$34,916,543, respectively, for the six months ended April 30, 2011.

Investment objective and policy

The Fund is a closed-end diversified management investment company, common shares of which were initially offered to the public on February 14, 1973, and are publicly traded on the NYSE. The Fund's investment objective is to generate a high level of current income consistent with prudent investment risk. The Fund invests, primarily

in a diversified portfolio of freely marketable debt securities and may invest an amount not exceeding 20% of its assets in income-producing preferred securities and common stocks. Under normal circumstances, the Fund will invest at least 80% of net assets in income securities. Income securities will consist of the following: (i) marketable corporate debt securities, (ii) governmental obligations and (iii) cash and commercial paper. [Net assets] is defined as net assets plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

It is contemplated that at least 75% of the value of the Fund's total assets will be represented by debt securities, which have at the time of purchase a rating within the four highest grades as determined by Moody's Investors Service, Inc. or Standard & Poor's Corporation. The Fund intends to engage in short-term trading and may invest in repurchase agreements.

On March 9, 2011, the Board of Trustees amended the Fund's investment policy regarding the use of reverse repurchase agreement transactions. The new policy provides the following:

Reverse repurchase agreements: The Fund may engage in reverse repurchase agreement transactions to the extent permitted under the Investment Company Act of 1940, as amended ([1940 Act]), and related guidance of the Securities and Exchange Commission and its staff. The Fund intends to use reverse repurchase agreements to obtain investment leverage either alone and/or in combination with other forms of investment leverage. The Fund may also use reverse repurchase agreement transactions for temporary or emergency purposes. In a reverse repurchase agreement transaction, the Fund temporarily transfers possession of a portfolio instrument to another party in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. The value of the portfolio securities transferred may substantially exceed the purchase price received by the Fund under the reverse repurchase agreement transaction and, during the life of the reverse repurchase agreement transaction, the Fund may be required to transfer additional securities if the market value of those securities initially transferred declines. In engaging in a reverse repurchase transaction, the Fund may transfer ([sell]) any of its portfolio securities to a broker-dealer, bank or another financial institution counterparty as determined by the Adviser to be appropriate. In accordance with guidance from the SEC and its staff from time to time in effect, the Fund will earmark or segregate liquid assets equal to repayment obligations under the reverse repurchase agreements. When the Fund enters into a reverse repurchase agreement transaction, any fluctuations in the market value of either the securities transferred to another party or the securities in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets.

On March 9, 2011, the Board of Trustees also approved certain other investment policy changes, as summarized below:

(i) investment policy stating that [The Fund may also invest up to 20% of its total assets in income-producing preferred and common stocks.] was replaced with the following: [The Fund may also invest up to 20% of its total assets in income-producing preferred securities and common stocks.]; and

36 Income Securities Trust | Semiannual report

(ii) investment policy stating that [The Fund may also purchase income producing securities which are convertible into or come with rights to purchase preferred and common stocks.] was replaced with the following: [The Fund may also purchase income producing securities which are convertible into or come with rights to purchase preferred securities and common stocks.]

Bylaws and Declaration of Trust

In November 2002, the Board of Trustees adopted several amendments to the Fund's bylaws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the bylaws require shareholders to notify the Fund in writing of any proposal which they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior

year's annual meeting of shareholders. The notification must be in the form prescribed by the bylaws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the bylaws.

On August 21, 2003, shareholders approved the amendment of the Fund's bylaws effective August 26, 2003, to provide for the issuance of preferred shares.

On March 31, 2008, the shareholders approved an amendment to the Fund's Declaration of Trust to permit the Fund's Board of Trustees to delegate the authority to declare dividends to a Dividend Committee consisting of officers, employees or agents of the Fund.

Effective September 9, 2008, the Fund's bylaws were amended with respect to notice requirements for Trustee nominations and other proposals by the Fund's shareholders. These provisions require the disclosure of the nominating shareholder and the nominee's investment interests as they relate to the Fund, as well as the name of any other shareholder supporting the nominee for election as a Trustee or the proposal of other business. In order for notice to be proper, such notice must disclose the economic interests of the nominating shareholder and nominee, including his or her holdings of shares in the Fund, the intent upon which those shares were acquired, and any hedging arrangements (including leveraged or short positions) made with respect to the shares of the Fund. Additionally, any material interest that the shareholder has in the business to be brought before the meeting must be disclosed.

Dividends and distributions

During the six-month period ended April 30, 2011, dividends from net investment income totaling \$0.5692 per share were paid to shareholders. The dates of payments and the amounts per share were as follows:

PAYMENT DATE	INCOME DIVIDEND
December 31, 2010	\$0.2818
March 31, 2011	0.2874
Total	\$0.5692

Dividend reinvestment plan

The Board of Trustees approved certain amendments to the Fund's Dividend Reinvestment Plan. The Dividend Reinvestment Plan that is in effect as of July 1, 2011 is described below.

Pursuant to the Fund's Dividend Reinvestment Plan (the Plan), distributions of dividends and capital gains are automatically reinvested in common shares of the Fund by The Bank of New York Mellon (the Plan Agent). Every shareholder holding at least one full share of the Fund is entitled to participate in the Plan. In addition, every shareholder who became a shareholder of the Fund after June 30, 2011 and holds at least one full share of the Fund will be automatically enrolled in the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash.

If the Fund declares a dividend or distribution payable either in cash or in common shares of the Fund and the market price of shares on the payment date for the distribution or dividend equals or exceeds the Fund's net asset value per share (NAV), the Fund will issue common shares to participants at a value equal to the higher of NAV or 95% of the market price. The number of additional shares to be credited to each participant's account will be determined by dividing the dollar amount of the distribution or dividend by the higher of NAV or 95% of the market price. If the market price is lower than NAV, or if dividends or distributions are payable only in cash, then participants will receive shares purchased by the Plan Agent on participants' behalf on the New York Stock Exchange (the NYSE) or otherwise on the open market. If the market price exceeds NAV before the Plan Agent has completed its purchases, the average per share purchase price may exceed NAV, resulting in fewer shares being acquired than if the Fund had issued new shares.

There are no brokerage charges with respect to common shares issued directly by the Fund. However, whenever shares are purchased or sold on the NYSE or otherwise on the open market, each participant will pay a pro rata portion of brokerage trading fees, currently \$0.05 per share purchased or sold. Brokerage trading fees will be deducted from amounts to be invested.

The reinvestment of dividends and net capital gains distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

Shareholders participating in the Plan may buy additional shares of the Fund through the Plan at any time in amounts of at least \$50 per investment, up to a maximum of \$10,000, with a total calendar year limit of \$100,000. Shareholders will be charged a \$5 transaction fee plus \$0.05 per share brokerage trading fee for each order. Purchases of additional shares of the Fund will be made on the open market. Shareholders who elect to utilize monthly electronic fund transfers to buy additional shares of the Fund will be charged a \$2 transaction fee plus \$0.05 per share brokerage trading fee for each automatic purchase. Shareholders can also sell Fund shares held in the Plan account at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.bnymellon.com/shareowner/equityaccess. The Plan Agent will mail a check to you (less applicable brokerage trading fees) on settlement date, which is three business days after your shares have been sold. If you choose to sell your shares through your stockbroker, you will need to request that the Plan Agent electronically transfer your shares to your stockbroker through the Direct Registration System.

Shareholders participating in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.bnymellon.com/shareowner/equityaccess. Such termination will be effective immediately if the notice is received by the Plan Agent prior to any dividend or distribution record date; otherwise, such termination will be effective on the first trading day after the payment date for such dividend or distribution, with respect to any subsequent dividend or distribution. If you withdraw, your shares will be credited to your account; or, if you wish, the Plan Agent will sell your full and fractional shares and send you the proceeds, less a transaction fee of \$5.00 and less brokerage trading fees of \$0.05 per share. If a shareholder does not maintain at least one whole share of common stock in the Plan account, the Plan Agent may terminate such shareholder's participation in the Plan after written notice. Upon termination, shareholders will be sent a check for the cash value of any fractional share in the Plan account, less any applicable broker commissions and taxes.

Shareholders who hold at least one full share of the Fund may join the Plan by notifying the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.bnymellon.com/shareowner/equityaccess. If received in proper form by the Plan Agent before the record date of a dividend, the election will be effective with respect to all dividends paid after such record date. If you wish to participate in the Plan and your shares are held in the name of a brokerage firm, bank or other nominee, please contact your nominee to see if it will participate in the Plan for you. If you wish to participate in the Plan, but your brokerage firm, bank or other nominee is unable to participate on your behalf, you will need to request that your shares be re-registered in your own name, or you will not be able to participate. The Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by you as representing the total amount registered in your name and held for your account by your nominee.

Edgar Filing: JOHN HANCOCK INCOME SECURITIES TRUST - Form N-CSRS

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund and the Plan Agent reserve the right to amend or terminate the Plan. Participants generally will receive written notice at least 90 days before the effective date of any amendment.

In the case of termination, participants will receive written notice at least 90 days before the record date for the payment of any dividend or distribution by the Fund.

All correspondence or additional information about the Plan should be directed to The Bank of New York Mellon, c/o BNY Mellon Shareowner Services, c/o Mellon Investor Services, P.O.
