PROXY STATEMENT

INTERNATIONAL SPECIALTY PRODUCTS INC.

300 DELAWARE AVENUE
SUITE 303
WILMINGTON, DELAWARE 19801

ANNUAL MEETING OF STOCKHOLDERS

This proxy statement is furnished to the stockholders of International Specialty Products Inc. ("ISP" or the "Company") in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held at 10:00 a.m., local time, on Thursday, May 16, 2002, at the offices of Weil, Gotshal & Manges LLP, 767 Fifth Avenue, 25th Floor, New York, New York, and at any adjournments or postponements thereof. This proxy statement and the proxies solicited hereby are being first sent or delivered to stockholders on or about April 12, 2002.

The Board of Directors has set the close of business on March 28, 2002 (the "Record Date") as the record date for the determination of stockholders entitled to notice of, and to vote at, the meeting. As of the close of business on the Record Date, there were outstanding 64,812,866 shares of the Company's common stock, \$.01 par value ("Common Stock"). Holders of record of shares of Common Stock are entitled to one vote for each share held by them as of the Record Date on any matter that may properly come before the meeting.

Shares represented by a valid unrevoked proxy will be voted at the meeting, or any adjournment or postponement thereof, as specified therein by the person giving the proxy. If no specification is made, the shares represented by such proxy will be voted (1) FOR the election of the Board of Directors' nominees as directors; and (2) in the discretion of the persons named as proxies on the enclosed proxy card on such other matters as may properly come before the meeting. Any person giving a proxy may revoke it at any time before its exercise by executing a later dated proxy, by delivery to and receipt by the Company's Secretary of written notice of such revocation, or by attending the meeting and voting in person.

Stockholders of record holding a majority of the issued and outstanding shares of Common Stock entitled to vote at the meeting, present in person or represented by proxy, constitute a quorum for the transaction of business at the meeting. Proxies submitted with votes withheld for the election of directors, abstentions and broker non-votes are included in determining whether or not a quorum is present.

The election of directors of the Company requires the affirmative vote of a plurality of the votes properly cast at the meeting. Any shares not voted (by abstention, broker non-vote or otherwise) will not be counted as votes cast. Abstentions are treated as votes against a proposal. Broker non-votes on proposals are treated as shares as to which the beneficial holders have withheld voting power and, therefore, are not considered as shares entitled to vote on any proposal to which they relate.

Samuel J. Heyman, Chairman of the Board of ISP, beneficially owns (as defined in Rule 13d-3 of the Securities Exchange Act of 1934) and has the power to vote approximately 81.1% of the issued and outstanding Common Stock. See "Security Ownership of Certain Beneficial Owners and Management." Mr. Heyman has indicated to ISP that he intends to vote, or direct the vote of, such shares FOR the election of the Board of Directors' nominees as directors. Accordingly,

election of the Board of Directors' nominees as directors is assured.

PROPOSAL 1

ELECTION OF DIRECTORS

There are six (6) nominees for election as directors of the Company to serve until the next Annual Meeting of Stockholders and until their successors are elected and have been qualified. The persons designated in the enclosed proxy card will vote shares represented by a valid unrevoked proxy FOR the election of each of the nominees named below, unless instructions to the contrary are indicated in the proxy. If any such nominees should be unable to serve for any reason, which the Company does not anticipate, it is intended that proxies will be voted for the election of such other persons as shall be designated by the Board of Directors.

The following persons, all of whom are currently directors of ISP, have been nominated for election as directors. Mr. Charles M. REPORT OF THE AUDIT COMMITTEE

The following is the report of the Audit Committee with respect to the Company's audited consolidated financial statements for the year ended December 31, 2001.

The Audit Committee's responsibilities are set forth in the Audit Committee Charter adopted by the Company's Board of Directors. Each of the members of the Audit Committee qualifies as an "independent" director under the applicable listing standards of the New York Stock Exchange.

Management has the primary responsibility for the Company's system of internal controls, the preparation of the Company's consolidated financial statements and the Company's financial reporting process. The Company's independent accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted accounting standards and for expressing an opinion thereon. The Audit Committee has the responsibility to monitor and oversee these processes.

In this context, the Audit Committee has reviewed and discussed the Company's audited consolidated financial statements with management. The Audit Committee has also discussed with Arthur Andersen LLP, the Company's independent accountants, the matters required to be discussed by the Statement of Auditing Standards No. 61, Communication with Audit Committees, that includes, among other items, matters related to the conduct of the annual audit of the Company's consolidated financial statements. The Audit Committee has also received written

Edgar Filing: INTERNATIONAL SPECIALTY PRODUCTS INC /NEW/ - Form DEF 14A

disclosures and the letter from Arthur Andersen LLP required by Independence Standards Board Standard No. 1, which relates to the accountant's independence from the Company and has discussed with Arthur Andersen LLP its independence.

Based upon the review and discussions referred to above, the Audit Committee has recommended to the Company's Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

Members of the Audit Committee:

CHARLES M. DIKER
ROBERT ENGLANDER
SANFORD KAPLAN
BURT MANNING

The foregoing report does not constitute and shall not be deemed soliciting material or be incorporated by reference in prior or future filings of the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934, directly or by reference to the incorporation of proxy statements of the Company, except to the extent the Company specifically incorporates this report by reference therein, and the report shall not otherwise be deemed filed under such Acts.

AUDIT FEES. The aggregate fees billed by Arthur Andersen LLP for professional services rendered for the audit of the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K and for reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for the year ended December 31, 2001 were \$773,500.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

COMPENSATION OF EXECUTIVE OFFICERS OF THE COMPANY

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation Committee of the Board of Directors reviews and approves the compensation policies of the Company, the specific compensation levels for the Company's executive officers and other employees and administers the Company's compensation plans. The Compensation Committee is composed of three independent, non-employee directors who have no interlocking relationships as defined by the rules promulgated by the Securities and Exchange Commission.

PHILOSOPHY

The objectives of the Company's executive compensation program are to support the Company's strategic goals, to provide compensation that will attract, retain and motivate highly-qualified executives and to align executives' long-term interests with those of the Company's stockholders. The Compensation Committee's philosophy is to compensate the Company's executive officers based primarily on their performance and level of responsibility. Generally, the Company seeks to maintain a competitive position in the executive marketplace with companies identified by the Company, using external surveys, as being of similar size and engaged in similar businesses, by establishing total compensation levels for executive officers competitive with the total compensation earned by executives with comparable responsibilities in such comparison group. These companies are not necessarily the same as those comprising the peer group index in the performance graph included elsewhere in this proxy statement.

EXECUTIVE COMPENSATION

The principal components of the Company's executive compensation program are base salary, annual incentive compensation and long-term incentive compensation.

Executive salary levels generally are adjusted annually based on an evaluation of each executive's performance (such as individual managerial accomplishments and current responsibilities of such executive officer) and the Company's budgetary considerations.

Annual incentive compensation for executive officers generally is awarded under the Company's Executive Incentive Compensation Program ("EIC") and is based on both corporate and individual performance. In any year, the aggregate EIC pool, if any, for all awards is based principally on the Company's operating income as a percentage of the Company's budgeted operating income established at

the beginning of such year. The EIC pool for any year may vary in size depending upon unusual factors affecting the Company's operating results. Individual award targets for each participant in the EIC (including executive officers) are computed as a percentage of base salary based on such participant's grade level. Individual EIC awards may vary from the applicable percentage based on corporate performance as described above or an executive officer's individual performance as described below.

Specific performance-related objectives for an executive officer are established at the beginning of each year. These individual goals relate to specific business, departmental or managerial objectives that support the Company's overall business plan and other specific corporate goals and strategic objectives established for the year. After considering the evaluations and recommendations of the executive officer's supervisor and a senior management

6

committee comprised of the Company's Chairman, President and Chief Executive Officer and Manager of Compensation, the Compensation Committee when appropriate, approves an executive officer's recommended individual EIC award based on the Company's financial performance, such officer's achievement of these pre-established goals and such officer's contribution to the Company's overall performance. It also exercises discretion in view of the Company's compensation objectives and policies described above to determine total annual compensation. Based upon the foregoing criteria and the recommendations and evaluations referred to above, the Compensation Committee approved the payment of an aggregate of \$1,350,310 in EIC cash awards to the Company's executive officers for the year ended December 31, 2001.

In addition to the EIC awards, from time to time, the Company may award employees (including executive officers) annual incentive cash compensation for extraordinary individual performance and contribution to the Company. The Company made no special awards to executive officers for the year ended December 31, 2001.

The Compensation Committee believes that long-term incentive compensation promotes superior future performance by executives by giving executives a significant long-term interest in the Company's success, aligning executives' interests with those of the Company's stockholders and aiding the Company's retention efforts. In early 2000 the Company adopted the International Specialty Products 2000 Long Term Incentive Plan (the "2000 LTI Plan"), a long-term incentive plan based on the Company's book value rather than market value. The Compensation Committee believes that an incentive plan based on book value better reflects and measures the value of the Company and the contributions of the Company's employees.

The 2000 LTI Plan is an important component of the Company's performance-based compensation philosophy and provides a vehicle by which executive officers can be motivated to increase the Company's profitability. The Compensation Committee generally reviews the awarding of incentive units to executive officers under the 2000 LTI Plan on a regular, periodic basis based upon the executive's individual performance, respective grade level and the Company's book value at the time of grant. The Compensation Committee has approved the granting from time to time of incentive units to executives based on individual merit, taking into account, among other things, an evaluation of the executive's past or potential contribution to the Company or its subsidiaries and recommendations by the Company's management, including the Chairman. In October and December 2000, the Compensation Committee adopted amendments to the 2000 LTI Plan to allow the Company to grant incentive units at an initial value that is less than the value that such units would otherwise

have as normally determined under the 2000 LTI Plan and to give to the Compensation Committee discretion to determine the vesting schedule of any grant of incentive units. During 2001, 351,685 incentive units were granted to the Company's executive officers, including 134,075 incentive units granted at initial values that were less than the initial values such units would otherwise have as normally determined under the 2000 LTI Plan. The Committee approved those grants based upon the recommendations of the Company's Chairman, the President and Chief Executive Officer and the Manager of Compensation and, other than in the case of the grant to Mr. Kumar, the President and Chief Executive Officer.

The Compensation Committee also believes that equity ownership by management encourages management to enhance stockholder value. In addition to the awards of incentive units under the 2000 LTI Plan, an executive officer was granted shares of restricted common stock in recognition of his past and potential contributions to the Company. In order to enhance retention and to strengthen the link between the officers' long-term interests with those of the Company's stockholders, the restricted shares granted were made subject to vesting restrictions that lapse over a period of five years so long as the recipient is an employee at the time. A stock bonus award was also made in February 2001 to a named executive officer for retention purposes.

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the deductibility of compensation paid by public companies to certain executive officers. Under Section 162(m), a company generally may deduct compensation paid to such an officer only to the extent it does not exceed \$1 million during any calendar year or is "performance-based" as defined in Section 162(m) and approved by stockholders. While the Compensation Committee generally intends to qualify certain compensation paid to executive officers for deductibility under the Code, including Section 162(m), it may from time to time authorize the payment of compensation to the Company's executive officers that is not fully deductible if it determines, after weighing many factors, including the deductibility of such compensation, that such compensation is appropriate and in the best interests of the Company. The Company expects that the deductibility limit of Section 162(m) currently will have an insignificant effect on the Company.

7

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER

The Compensation Committee reviews and evaluates the Chief Executive Officer's total compensation package annually. Although the Compensation Committee's basis for determining the Chief Executive Officer's compensation is substantially the same as discussed above with respect to the Company's other executive officers, the Compensation Committee relies more heavily on the Company's financial performance, overall financial condition and achievement of annual and strategic corporate objectives in determining the total annual and long-term compensation for the Chief Executive Officer. Among the criteria used in determining the compensation of the Chief Executive Officer are (i) the Company's financial performance compared to its performance in the prior year, including the Company's operating income, revenues, net income per share and overall financial condition, and (ii) the Company's actual financial performance compared to its annual business plan. Based on the foregoing criteria and the recommendation of the Company's Chairman and Manager of Compensation, during 2001 the Compensation Committee increased Mr. Kumar's annual base salary twice in 2001. The first increase on April 1, 2001 represented his annual merit increase of 4% that increased his annual base salary from \$341,300 to \$355,000. On May 16, 2001, Mr. Kumar's annual base salary was increased by 34% to \$475,000. This second base salary adjustment was awarded to bring Mr. Kumar's

Edgar Filing: INTERNATIONAL SPECIALTY PRODUCTS INC /NEW/ - Form DEF 14A

annual base salary closer to the median market value for his position in competitor companies and in recognition of his 2001 performance. Mr. Kumar also received two awards of incentive units, under the 2000 LTI Plan. The first award was for 78,100 incentive units and the second was for 75,000 incentive units, with a value of \$10.60 and \$0.00, per incentive unit, respectively. Mr. Kumar exchanged 500,000 previously granted stock options held by him for 488,818 incentive units under the 2000 LTI Plan.

Mr. Kumar is also eligible to participate in the EIC to the same extent as other executive officers of the Company. Based on the Compensation Committee's evaluation of both corporate and individual achievement of performance-related goals as described above and the recommendation of the Company's Chairman and Manager of Compensation, Mr. Kumar received an EIC award of \$555,310 for 2001. The Compensation Committee considers Mr. Kumar's total compensation package relative to that of other chief executive officers in the comparison group of companies of similar size and in similar businesses to the Company described above.

- (1) All stock options represent options to purchase shares of Common Stock and were granted under the 1991 Incentive Plan. The 1991 Incentive Plan provided that the vesting of options will be accelerated automatically if at any time following a "Change of Control" (as defined), the Company terminates without cause the optionee's employment, the optionee's employment is terminated as a result of death or permanent disability or the optionee terminates employment for "good reason" (as defined). The 1991 Incentive Plan expired in June 2000 in accordance with its terms.
- (2) Options for 100,000, 50,000, 27,074, 6,000 and 8,200 shares of Common Stock were in-the-money for Messrs. Kumar, Weinberg, Cope, Grenner and Ms. Yoss, respectively, at December 31, 2001.

- (1) The Company's 2000 LTI Plan provides long-term compensation to employees and key management personnel based on the Company's "Book Value" (as defined). The number of incentive units granted is determined by the Compensation Committee in its sole discretion, subject to a maximum number of incentive units that may be received by any eligible employee in any calendar year.
- (2) Generally, incentive units vest cumulatively in twenty percent (20%) increments on each anniversary of the date such incentive units were granted to the employee or received in exchange for stock options. The Compensation Committee, in its sole discretion, may grant incentive units

with any vesting schedule other than that normally provided in the 2000 LTI Plan. Messrs. Kumar and Weinberg each received incentive units with accelerated vesting schedules. Vesting will end upon the termination of an employee's employment with the Company or any subsidiary for any reason. Incentive units generally are exercisable for a period of six years from the date of grant. In the event of a "Change in Control" of the Company (as defined), all incentive units will become fully and immediately vested and payable in cash.

- (3) Set forth under the "Threshold" column is the "Initial Value" (as defined) per unit at which the respective incentive units were granted. The value of an incentive unit as of any "Valuation Date" (as defined) generally is equal to the Company's total stockholders' equity (adjusted to exclude accumulated comprehensive income and losses), divided by the total number of outstanding shares of Common Stock as determined on such Valuation Date. A "Valuation Date" is the last business day of each fiscal quarter of the Company. The Compensation Committee, in its sole discretion, may grant incentive units with an Initial Value (i.e., the value of an Incentive unit on the date of grant) that is less than the Initial Value of such incentive units as normally determined under the 2000 LTI Plan. Messrs. Kumar, Weinberg, Cope, Grenner and Ms. Yoss each were granted incentive units with a lower Initial Value.
- (4) Upon exercise of an incentive unit, a participant will receive in cash, the excess, if any, of the value of such incentive unit as of the Valuation Date on or, in the event of an exercise between Valuation Dates, immediately preceding the exercise date (the "Final Value"), over the Initial Value of such incentive unit (subject to all appropriate withholdings). Accordingly, the dollar value of future payouts is not readily ascertainable.
- (5) Messrs. Kumar and Weinberg each received a grant of 75,000 and 50,000 incentive units, respectively, with Initial Values of \$0.00 on December 31, 2001. They will also each receive an additional grant of 75,000 and 50,000 incentive units respectively, with an Initial Value of \$0.00 on December 31, 2002. These incentive units vest in 10% increments every six months following the date of each grant.

PENSION PLANS

NON-QUALIFIED RETIREMENT PLAN. The Company has a non-qualified retirement plan for the benefit of certain key employees (the "Retirement Plan"). The benefit payable under the Retirement Plan, which vests in accordance with a 10-year schedule, consists of an annual payment commencing at age 65 equal to 25% of a covered employee's last full year's base salary. The benefit continues for the longer of 15 years or the joint lifetimes of the employee or his or her spouse. If a covered employee dies while employed by the Company or a subsidiary, a death benefit of 36% of the employee's base salary at the date of death is payable for a term of 15 years to the employee's beneficiary.

No new participants have been admitted to the Retirement Plan since January 1989 and it is not anticipated that any new participants will be admitted hereafter. None of the executive officers named in the Summary Compensation Table participates in the Retirement Plan.

The following table shows, for the salary levels and years of service indicated, the annual pension benefit, payable commencing at age 65 to participants in the Retirement Plan.

OTHER AGREEMENTS

Mr. Kumar became President and Chief Executive Officer of ISP in June 1999. In connection therewith, the Company granted to Mr. Kumar on September 29, 1999 the right to purchase, and on such date Mr. Kumar purchased, 318,599 shares of Common Stock for a purchase price of \$9.563 per share, or an aggregate of \$3,046,762. The purchase price per share was equal to the closing market price of a share of Common Stock on the New York Stock Exchange on the date immediately preceding the date of purchase. Under the purchase agreement, the Company loaned to Mr. Kumar the funds to purchase the shares, which loan was evidenced by a recourse promissory note ("Note") of Mr. Kumar in the foregoing principal amount. The loan was converted to a demand note effective February 15, 2001 and bears interest at the lowest applicable federal rate for short term instruments, as it may be adjusted from time to time with one-half of such interest payable annually in arrears on February 15 of each year commencing February 15, 2002, and the remaining one-half of such interest to continue to accrue and be payable in arrears on the earlier of the stated maturity of the Note or the date on which the outstanding principal amount of the Note is declared to be due and payable. The principal amount of the Note is payable, unless the Company has previously declared the Note to be due and payable, in four installments on each June 11 of the years 2001, 2002 and 2003 and on January 11, 2004, the first three of which are in the amount of \$761,691 each and the last of which is for the balance of the then outstanding principal amount. However, if Mr. Kumar remains continuously employed by the Company or any of its subsidiaries through each installment payment date, the principal amount due on such installment payment date will be forgiven, so that if Mr. Kumar remains continuously employed by the Company or any of the subsidiaries through January 11, 2004, the loan and the Note will be discharged and cancelled in full, provided that all interest due on the Note has been paid. In addition, if a "Change

of Control" (as defined) occurs, and at any time following such Change of Control, the Company (or its successor) terminates without "cause" (as defined) Mr. Kumar's employment, or Mr. Kumar's employment is terminated as a result of his death or "disability" (as defined), or Mr. Kumar terminates his employment

Edgar Filing: INTERNATIONAL SPECIALTY PRODUCTS INC /NEW/ - Form DEF 14A

for "good reason" (as defined), the principal amount of the loan then outstanding shall be immediately forgiven. If Mr. Kumar's employment with the Company is otherwise terminated for any reason whatsoever, the entire principal balance outstanding, together with all interest accrued thereon, will be immediately due and payable at the Company's election.

In January 2002, the Company granted Mr. Kumar 250,000 shares of restricted Common Stock. These shares vest annually in twenty percent (20%) increments commencing January 2, 2003 until full vesting on January 2, 2007. Mr. Kumar has the right to receive dividends on such restricted shares if and when dividends are declared and paid on the Common Stock.

PERFORMANCE GRAPH

The following graph compares the performance of the Common Stock with the performance of the Standard & Poor's 500 Index and the Standard & Poor's Specialty Chemicals Index for the period January 1, 1997 through the end of 2001. The graph assumes that the value of the investment in Common Stock and in each index was \$100 on December 31, 1996 and that all dividends were reinvested.

CERTAIN TRANSACTIONS

MANAGEMENT AGREEMENT

Pursuant to a management agreement (the "Management Agreement"), the Company, through a subsidiary, provides certain general management, administrative, legal, telecommunications, information and facilities services to BMCA. Charges by the Company for providing such services aggregated \$6.8 million in 2001. Such charges consist of management fees and other reimbursable expenses attributable to, or incurred by the Company for the benefit of, the respective parties, which are based on an estimate of the costs the Company incurs to provide such services. The Management Agreement also provides that the Company to pay to a subsidiary of G-I Holdings annual lease payments for the use of one of the Company's sales offices. Effective January 1, 2001, the Management Agreement was amended to provide for the automatic extension of the agreement for successive quarterly periods unless the agreement is terminated by a party on thirty-days notice, and to adjust the management fees payable thereunder. Effective June 27, 2001 and January 1, 2002, respectively, the Management Agreement was further amended to adjust the management fees payable thereunder.

Edgar Filing: INTERNATIONAL SPECIALTY PRODUCTS INC /NEW/ - Form DEF 14A

The Company and BMCA also allocate a portion of the management fees payable by BMCA under the Management Agreement to separate lease payments for the use of BMCA's headquarters. Based on the services provided by the Company in 2001 under the Management Agreement, the aggregate amount payable to the Company under the Management Agreement for 2002, net of the lease payments to a subsidiary of G-I Holdings, is expected to be approximately \$6.0 million.

In January 2001, G-I Holdings filed for reorganization under Chapter 11 of the U.S. Bankruptcy Code due to its asbestos-related claims. As a result, the Company, as of December 31, 2000, established a reserve for doubtful receivables from G-I Holdings of \$2.7 million that includes \$0.5 million of unpaid management fees under the Management Agreement and \$2.1 million of other payments that the Company made on behalf of G-I Holdings.

Some of the executive officers of the Company perform services for affiliates of the Company pursuant to the Management Agreement, and the Company is indirectly reimbursed therefor by virtue of the management fees and other reimbursable expenses payable under the Management Agreement. In this regard, Mr. Weinberg and Ms. Yoss received \$500,000 and \$300,000, respectively, of additional compensation in connection with services performed by them for BMCA in 2001. BMCA reimbursed ISP for these payments pursuant to the Management Agreement.

Although, due to the unique nature of the services provided under the Management Agreement, comparisons with third party arrangements are difficult, the Company believes that the terms of the Management Agreement, taken as a whole, are no less favorable to the Company than could be obtained from an unaffiliated third party.

TAX SHARING AGREEMENT

The Company and certain of its subsidiaries were parties to tax sharing agreements with members of the consolidated tax group for Federal income tax purposes that included G-I Holdings (the "G-I Holdings Group"), in certain prior years and, accordingly, would be severally liable for any tax liability of the G-I Holdings Group in respect of those prior years. Until January 1, 1997, the Company and certain of its subsidiaries were members of the G-I Holdings Group. Therefore, such tax sharing agreements are no longer applicable with respect to the tax liabilities of the Company for periods subsequent to January 1, 1997. The Company and certain of its subsidiaries remain obligated, however, with respect to tax liabilities imposed or that may be imposed for periods prior to such date.

Effective January 1, 2001, the Company entered into a tax sharing agreement with two of its subsidiaries (individually, "subsidiary" or collectively, "subsidiaries") with respect to payment of Federal income taxes and certain related matters. The tax sharing agreement is substantially similar to the 1997 Tax Sharing Agreement described hereinafter. During the term of the 1997 Tax Sharing Agreement, which will extend for as long as the Company or any of its domestic subsidiaries, as the case may be, are included in a consolidated federal income tax return filed by the Company or a successor entity, a subsidiary is obligated to pay to the Company an amount equal to the amount of federal income taxes the subsidiary would have incurred if, subject to specific exceptions, the subsidiary (on behalf of itself and its domestic subsidiaries) filed its own consolidated income tax return. The 1997 Tax Sharing Agreement provides for analogous principles to be applied to any consolidated, combined or unitary state or local income taxes. Under the 1997 Tax Sharing Agreement, the Company makes all decisions with respect to all matters relating to the subsidiary's

obligations with respect to federal and state taxes. The provisions of the 1997 Tax Sharing Agreement take into account both the federal income taxes such subsidiary would have incurred if the subsidiary filed its own separate federal income tax return and the fact that the subsidiary is a member of the ISP Group (as defined) for federal income tax purposes.

SALES TO AFFILIATES

BMCA and its subsidiaries purchase from the Company all of their colored roofing granules requirements under a requirements contract, except for the requirements of certain of their roofing plants that are supplied by third parties. Effective January 1, 2002, this contract was extended by the parties to expire on December 31, 2002. In 2001, BMCA and its subsidiaries purchased a total of \$63.4 million of mineral products from the Company, representing 8.1% of the Company's total net sales and 78.6% of the Company's net sales of mineral products. The Company's supply arrangements with BMCA and its subsidiaries are at prices and on terms which the Company believes are no less favorable to it than could be obtained from an unaffiliated third party.

CERTAIN OTHER TRANSACTIONS

For a discussion of certain arrangements with executive officers of the Company, see "Compensation of Executive Officers of the Company -- Other Agreements."

In February 2001, the Company made a loan to Mr. Weinberg in the principal amount of \$36,450 to enable him to satisfy certain withholding tax obligations in connection with the award by the Company to him of 13,055 shares of unrestricted Common Stock. The latter category of investments is administered, at no cost or charge to the Company, by certain investment partnerships controlled by Mr. Heyman and his family, and, when purchased or sold on the same day as investments purchased or sold by members of the ISP group of companies, and certain Heyman family enterprises, are effected at the same price as the investments of such other entities.
