1. Nature of Operation and Continuance of Business

The Company was incorporated in the State of Nevada on September 7, 1999. The Company changed its name to VisualMed Clinical Solutions Corp. on November 30, 2004. The Company's majority shareholder is Visual Healthcare Corporation, which is a Nevada Corporation, based in Montreal, Canada.

The Company's business plan involves the distribution of medical software. The Company is primarily involved in activities related to the distribution of medical software and is considered to be a development stage company. At December 31, 2007, the Company had a working capital deficiency of \$2,024,996 and has incurred losses of \$31,721,366 since inception. The ability of the Company to emerge from the development stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and then attain profitable operations. There is no guarantee that the Company will be able to complete any of the above objectives. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that may be necessary should the Company be unable to continue as a going concern. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

As at December 31, 2007, the Company had bank indebtedness of \$36,437, and for the next twelve months, management anticipates that the minimum cash requirements to fund its continued operations will be \$2,160,000. Accordingly, the Company does not have sufficient funds to meet planned expenditures over the next twelve months. Management plans to seek additional capital through equity and/or debt offerings and has asked for the continued financial support of related parties. There is no assurance that the Company will be able to raise sufficient cash to fund its future distribution programs and operational expenditures.

2. Summary of Significant Accounting Principles

a) Basis of Presentation and Fiscal Year

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars. The Company has not produced any revenues from its principal business and is a development stage company as defined by Statement of Financial Accounting Standard (SFAS) No. 7 Accounting and Reporting by Development Stage Enterprises. These financial statements include the accounts of the Company and its wholly-owned subsidiary, VisualMed Clinical Systems Marketing Inc., a company incorporated and based in the province of Quebec, Canada. All intercompany transactions and balances have been eliminated. The Company's fiscal year-end is June 30.

b) Interim Consolidated Financial Statements

The interim unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Securities and Exchange Commission (SEC) Form 10-QSB. They do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended June 30, 2007, included in the Company's Annual Report on Form 10-KSB filed on September 28, 2007 with the SEC.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

The consolidated financial statements included herein are unaudited; however, they contain all normal recurring accruals and adjustments that, in the opinion of management, are necessary to present fairly the Company's consolidated financial position at December 31, 2007 and June 30, 2007, and the consolidated results of its operations and consolidated cash flows for the six months ended December 31, 2007 and 2006. The results of operations for the six months ended December 31, 2007 are not necessarily indicative of the results to be expected for future quarters or the full year.

(The accompanying notes are an integral part of these consolidated financial statements)

F-4

2. Summary of Significant Accounting Policies (continued)

c) Use of Estimates

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. The Company regularly evaluates estimates and assumptions related to useful life and recoverability of long-lived assets, allowances for doubtful accounts, sales returns and allowances, inventory reserves, stock-based compensation expense, warranty liabilities and deferred income tax asset valuations. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

d) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

e) Allowance for Doubtful Accounts

The Company evaluates the collectability of accounts receivable based on a combination of factors. In cases where the Company is aware of circumstances that may impair a specific customer's ability to meet its financial obligations subsequent to the original sale, the Company will record an allowance against amounts due, and thereby reduce the net recognized receivable to the amount the Company reasonably believes will be collected. For all other customers, the Company recognizes allowances for doubtful accounts based on the length of time the receivables are past due, industry and geographic concentrations, the current business environment and the Company's historical experience. The allowance for doubtful accounts as of December 31, 2007 was \$nil (June 30, 2007 - \$nil).

f) Property and Equipment

Property and equipment is stated at cost, less accumulated amortization, and consists of office furniture, computer hardware and software, leasehold improvements and assets under capital lease. Amortization of office furniture is computed using the straight-line method over five years. Amortization of computer hardware and software is computed using the straight-line method over three years. Amortization of leasehold improvements is computed using the straight-line method over five years. Amortization of assets under capital lease is computed using the straight-line method over the term of the lease.

g)

Long-Lived Assets

In accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life.

Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

(The accompanying notes are an integral part of these consolidated financial statements)

2. Summary of Significant Accounting Policies (continued)

h) Foreign Currency Transactions

The Company's functional and reporting currency is the United States dollar. The functional currency of the Company's subsidiary is the Canadian dollar. The financial statements of the subsidiary are translated to United States dollars in accordance with SFAS No. 52 "Foreign Currency Translation" using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity. Foreign currency transaction gains and losses are included in current operations.

i) Development Costs

Costs related to the enhancement of existing medical software modules are expensed as incurred until technological feasibility in the form of a working model has been established. The time period between the establishment of technological feasibility and completion of product development is expected to be short, therefore the Company has not capitalized any product development costs during the period.

j) Basic and Diluted Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, "Earnings per Share" which requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS and the weighted average number of common shares exclude all dilutive potential shares since their effect is anti dilutive. Shares underlying these securities totaled approximately 12,060,000 as of December 31, 2007.

k) Financial Instruments and Concentrations

The carrying value of accounts receivable, advances to related parties, bank indebtedness, accounts payable, accrued liabilities, advances from related parties and capital lease obligation approximate fair value due to the relatively short maturity of these instruments. Financial instruments which potentially subject the Company to a concentration of credit risk consist primarily of accounts receivable. For the six-month period ended December 31, 2007, revenue from one customer represented 86% (2006 - 55%) of total revenue and from a second customer represented 11% (2006 - 45%) of total revenue.

l) Inventory

Inventory consists of computer hardware and software acquired for specific revenue contracts. Inventory is stated at the lower of cost or net realizable value.

m) Comprehensive Loss

SFAS No. 130, "Reporting Comprehensive Income," establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. For the six-month periods ended December 31, 2007 and 2006, the Company's only component of comprehensive loss was foreign currency translation adjustments.

n) Advertising Costs

Advertising costs are charged to operations as incurred.

(The accompanying notes are an integral part of these consolidated financial statements)

2. Summary of Significant Accounting Policies (continued)

o) Revenue Recognition

The Company recognizes revenue related to sales and licensing of medical software in accordance with Statement of Position No. 97-2, "Software Revenue Recognition" (SOP 97-2), as amended by Statement of Position No. 98-9, "Software Revenue Recognition with Respect to Certain Arrangements". Pursuant to SOP 97-2 and Staff Accounting Bulletin No. 104 "Revenue Recognition", revenue will only be recognized when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectability is reasonably assured. The Company's revenue contracts are accounted for in conformity with Accounting Research Bulletin No. 45 "Long-Term Construction-Type Contracts" (ARB 45), using the relevant guidance in SOP 81-1 "Accounting for Performance of Construction-Type and Certain Production-Type Contracts", unless specified criteria for separate accounting for any service element are met. The Company uses the completed contract method to recognize revenue from long term service contracts. Licensing revenue is recognized if all revenue recognition criteria pursuant to SAB 104 are met. The Company also follows the guidance in Emerging Issues Task Force (EITF) Issue No. 00-21 "Revenue Arrangements with Multiple Deliverables" relating to the separability of deliverables included in an arrangement into different units of accounting and the allocation of an arrangement's consideration to those units of accounting. It does not address when revenue should be recognized for the units of accounting.

Incremental direct costs related to contract acquisition and origination, which result in deferred revenue, are expensed as incurred. Any significant customer accounts that are not reasonably assured to be collected are excluded from revenues. During the year ended June 30, 2007, the Company licensed technology to a customer for \$1,410,600 (\$1,500,000 CAD). At December 31, 2007, \$1,092,080 (\$1,163,000 CAD) has been excluded from revenues as collectability was considered by management to not be reasonably assured. During the six month period ended December 31, 2007, the Company recognized revenue of \$441,541 related to a \$2,200,000 contract with a customer. Revenue was recognized since customer acceptance or the work completed was obtained and the Company has no further obligations related to this portion of the contract.

p) Reclassifications

Certain reclassifications have been made to the prior period's financial statements to conform to the current period's presentation.

q) Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted SFAS No. 109 "Accounting for Income Taxes" as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. The potential benefit of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in

future years.

r) Warranty

Some of the Company's software or hardware products carry a warranty for the duration of the license term. The Company's liability is limited to the repair or replacement of the defective product and the refund of amounts paid for defective products. The Company establishes reserves for estimated product warranty costs at the time revenue is recognized based upon its historical experience and additionally for any known product warranty issues. At December 31, 2007, management has deemed that no reserve should be accrued. As of December 31, 2007, the Company has not experienced a significant amount of warranty expense.

s) Stock-based Compensation

The Company records stock-based compensation in accordance with SFAS No. 123R "Share Based Payments", using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based on the fair value of the equity instruments issued.

(The accompanying notes are an integral part of these consolidated financial statements)

2. Summary of Significant Accounting Policies (continued)

t)

Recently Adopted Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statements No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a two-step method of first evaluating whether a tax position has met a more likely than not recognition threshold and second, measuring that tax position to determine the amount of benefit to be recognized in the financial statements. FIN 48 provides guidance on the presentation of such positions within a classified statement of financial position as well as on derecognition, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this statement did not have a material effect on the Company's financial statements.

u)

Recently Issued Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141R, "Business Combinations". This statement replaces SFAS 141 and defines the acquirer in a business combination as the entity that obtains control of one or more businesses in a business combination and establishes the acquisition date as the date that the acquirer achieves control. SFAS 141R requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. SFAS 141R also requires the acquirer to recognize contingent consideration at the acquisition date, measured at its fair value at that date. This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The adoption of this statement is not expected to have a material effect on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements Liabilities" (an Amendment of ARB No. 51). This statement amends ARB 51 to establish accounting and reporting standards for the Noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The adoption of this statement is not expected to have a material effect on the Company's Company's financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (Including an Amendment of FASB Statement No. 115). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115 "Accounting for Certain Investments in Debt and Equity Securities" applies to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on

or before November 15, 2007, provided the entity also elects to apply the provision of SFAS No. 157, "Fair Value Measurements". The adoption of this statement is not expected to have a material effect on the Company's financial statements.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". The objective of SFAS No. 157 is to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. The provisions of SFAS No. 157 are effective for fair value measurements made in fiscal years beginning after November 15, 2007. The adoption of this statement is not expected to have a material effect on the Company's financial statements.

(The accompanying notes are an integral part of these consolidated financial statements)

3. Advances to Related Parties

9. Preferred Stock

On January 12, 2006, the Company restated its Articles of Incorporation to increase the authorized share capital to 125,000,000 shares consisting of 100,000,000 shares of common stock, and 25,000,000 shares of preferred stock, of which 15,000,000 have been designated as Series A 10% Cumulative Preferred Stock.

The Series A 10% Cumulative Preferred Stock has a par value of \$0.00001 per share, a stated value of \$1.00 per share and are non-voting. The holders of the Series A Preferred Stock will be entitled to receive an annual dividend equal to 10% per annum of the stated value of \$1.00 per share payable, at the option of the Board of Directors, in either cash or in shares of Series A Preferred Stock.

10. Common Stock

For the six-month period ended December 31, 2007:

- a) On August 1, 2007, the Company issued 1,405,000 shares of common stock upon the exercise of 1,405,000 options at an exercise price of \$0.00001 per share.
- b) On August 15, 2007, the Company issued 985,000 shares of common stock upon the exercise of 985,000 options at an exercise price of \$0.00001 per share.
- c) On September 7, 2007, the Company issued 100,000 shares of common stock upon the exercise of 100,000 options at an exercise price of \$0.00001 per share.
- d) On October 9, 2007, the Company issued 2,070,000 shares of common stock upon the exercise of 2,070,000 options at an exercise price of \$0.00001 per share.
(The accompanying notes are an integral part of these consolidated financial statements)

10. Common Stock

- e) On October 17, 2007, the Company issued 25,000 shares of common stock upon the exercise of 25,000 options at an exercise price of \$0.00001 per share.
- f) On November 1, 2007, the Company issued 250,000 shares of common stock upon the exercise of 250,000 options at an exercise price of \$0.00001 per share.
- g) On November 6, 2007, the Company issued 1,025,000 shares of common stock upon the exercise of 1,025,000 options at an exercise price of \$0.00001 per share.
- h) On November 20, 2007, the Company issued 1,700,000 shares of common stock upon the exercise of 1,700,000 options at an exercise price of \$0.00001 per share.
- i) On November 21, 2007, the Company issued 70,000 shares of common stock upon the exercise of 70,000 options at an exercise price of \$0.00001 per share.
- j) On December 4, 2007, the Company issued 64,500 shares of common stock upon the exercise of 64,500 options at an exercise price of \$0.00001 per share.

11. Share Purchase Warrants

The following table summarizes the continuity of the Company's warrants:

	Number of Warrants	Weighted Average Exercise Price \$
Outstanding, June 30, 2007	10,000,000	0.01
Issued	□	□
Expired	□	□
Outstanding, December 31, 2007	10,000,000	0.01

At December 31, 2007, the following share purchase warrants were outstanding:

Number of Warrants	Exercise Price	Expiry Date
10,000,000	\$ 0.01	March 30, 2012

12. Stock Options

Effective October 4, 2006, the Company filed a Form S-8 Registration Statement in connection with its October 2006 Non-Qualified Stock Option Plan (the "October 2006 Plan") allowing for the direct award of stock or granting of stock options to directors, officers, employees and consultants to acquire up to a total of 2,000,000 shares of common stock. At December 31, 2007, the Company had no shares of common

stock unissued pursuant to the plan.

Effective March 22, 2007, the Company filed a Form S-8 Registration Statement in connection with its March 2007 Non-Qualified Stock Option Plan (the "March 2007 Plan") allowing for the direct award of stock or granting of stock options to directors, officers, employees and consultants to acquire up to a total of 2,000,000 shares of common stock. At December 31, 2007, the Company had no shares of common stock unissued pursuant to the plan.

(The accompanying notes are an integral part of these consolidated financial statements)

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

12. Stock Options (continued)

Effective July 24, 2007, the Company filed a Form S-8 Registration Statement in connection with its July 2007 Non-Qualified Stock Option Plan (the "July 2007 Plan") allowing for the direct award of stock or granting of stock options to directors, officers, employees and consultants to acquire up to a total of 6,500,000 shares of common stock. At December 31, 2007, the Company had 3,100,000 shares of common stock unissued pursuant to the plan.

Effective November 20, 2007, the Company filed a Form S-8 Registration Statement in connection with its November 2007 Non-Qualified Stock Option Plan (the "November 2007 Plan") allowing for the direct award of stock or granting of stock options to directors, officers, employees and consultants to acquire up to a total of 1,900,000 shares of common stock. At December 31, 2007, the Company had 30,000 shares of common stock unissued pursuant to the plan.

The weighted average grant date fair value of stock options granted during the six months ended December 31, 2007 and 2006 was \$0.32 and \$1.59, respectively. During the six months ended December 31, 2007, the Company charged to operations stock-based compensation relating to the granting of options of \$2,725,333 (2006 - \$2,183,789).

A summary of the Company's stock option activity is as follows:

	Number of Shares	Weighted Average Exercise Price \$	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, June 30, 2007	1,340,000	1.29		
Granted	8,414,500	0.02		
Exercised	(7,694,500)	0.00001		
Cancelled	□	□		
Outstanding, December 31, 2007	2,060,000	0.88	3.88	\$27,222
Exercisable, December 31, 2007	2,060,000	0.88	3.88	\$27,222

During the six months ended December, 2007, the Company granted 8,414,500 stock options to purchase shares of common stock at a price below market of \$0.00001 per share with an intrinsic value of \$2,619,953.

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	Six Months Ended December 31, 2007
Expected dividend yield	0%
Expected volatility	123.34%
Expected life (in years)	2.0
Risk-free interest rate	3.86%

A summary of the status of the Company's nonvested shares as of December 31, 2007, and changes during the six months ended December 31, 2007, is presented below:

Nonvested Shares	Number of Shares	Weighted Average Grant Date Fair Value \$

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

Nonvested at July 1, 2007	□	□
Granted	8,414,500	0.32
Vested	(8,414,500)	(0.32)
Nonvested at December 31, 2007	□	□

(The accompanying notes are an integral part of these consolidated financial statements)

F-12

13. Segment Disclosures

The Company operates as one operating segment which is the sale of its suite of clinical software modules. The Chief Executive Officer is the Company's Chief Operating Decision Maker (CODM) as defined by SFAS 131, *Disclosure about Segments of an Enterprise and Related Information*. The CODM allocates resources and assesses the performance of the Company based on the results of operations.

14. Commitments

- a) In November 2004, the Company entered into a lease agreement for office premises at a rate of \$90,000 (CDN\$88,265) per annum including property taxes, insurance and other operating expenses, for a five year term expiring on September 30, 2009, with an option to renew for an additional five years. During the six-month period ended December 31, 2007, the Company incurred rent expense of \$30,296. Future payments for the next five fiscal years are as follows:

	\$
2008	45,000
2009	90,000
2010	22,000
2011	-
2012	-
	157,000

- b) On June 5, 2006, the Company entered into an automobile lease for a term of 48 months. The monthly payments are \$654 (CAD\$642) ending May 5, 2010.
- c) On November 13, 2006, the Company entered into an investor relations agreement with a consultant and issued 200,000 shares of common stock with a fair value of \$360,000 which was included in general and administrative expense during the year ended June 30, 2007. The Company has also agreed to issue the following: 100,000 shares of common stock when the Company's stock trades at \$2.50 per share, 100,000 shares of common stock when the Company's stock trades at \$3.25 per share, and 100,000 shares of common stock when the Company's stock trades at \$3.75 per share. The contingently issuable shares have been recorded in general and administrative expense at a fair value of \$540,000 and in additional paid-in capital in accordance with EITF 96-18, *Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction With Selling, Goods or Services* and EITF 00-19 *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*.

15. Geographic Information and Major Customers

	Six Months Ended December 31, 2007	Six Months Ended December 31, 2006
Revenues from external customers:	\$	\$
United States	70,457	18,124
Canada	441,541	□
Total revenues from external customers	511,998	18,124

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

All long-lived assets are domiciled in Canada. During the six months ended December 31, 2007, the Company recognized \$511,998 (2006 - \$18,124) of revenue from the licensing of software and technology. For the six months ended December 31, 2007, revenue from one customer represented 86% (2006 □ 55%) of total revenue and from a second customer represented 11% (2006 □ 45%) of total revenue.

(The accompanying notes are an integral part of these consolidated financial statements)

F-13

ITEM II - MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATIONS

Overview

Our major focus remains the diversification and expansion of the application of our technology into new areas of the healthcare industry. Target markets are independent clinics, including specialized corporate healthcare providers, and oncology specialty facilities such as the Segal Cancer Center. These system deployments are rapid, cost-effective and have a much shorter sales cycle than full hospitals.

Due to our efforts to adapt the existing technology and the opening of these new markets, we have begun to reduce our operating expenses.

At December 31, 2007, the Company had a working capital deficiency of \$2,024,996 and had incurred losses of \$31,721,366 since inception. These factors raise substantial doubt about our ability to continue as a going concern without raising significant additional capital or generating significant revenue in the upcoming fiscal year.

We incurred losses of \$1,415,916 for the three months ending December 31 2007. This compares to \$2,637,735 in the comparable prior year period. The components of these losses were costs associated with sales and marketing, research and development, customer service and general administration. We also incurred professional expenses, depreciation and filing fees.

Operating expenses for the three months ending December 31, 2007 were \$1,839,502.

Marketing Strategy and Recent Developments

We are now offering our tools to a growing segment of the private healthcare sector which views embracing new technology as a necessity to compete against the much slower reacting public sector. Progress has been greatly accelerated as we move away from concentrating on full-hospital contracts, with the inherent delays and long sales cycles associated with large healthcare bureaucracies, and focus on smaller, faster implementations in the private sector involving clinics such as those operated by the Plexo group, and stand-alone cancer clinics.

Our VisualONCOLOGY module remains the only fully integrated clinical cancer module on the market and has been implemented at the Segal Cancer Center in Montreal. We expect this operational oncology module to facilitate further sales in the coming calendar year to other such clinics throughout North America and Europe. We continue to seek a large-scale agreement with the American Society of Clinical Oncology, which has expressed much interest in VisualONCOLOGY, and is awaiting operational data and results from the Segal Cancer Center deployment.

In November 2007, VisualMED entered into a partnership with Terre des Hommes (TDH) Canada, the Canadian affiliate of an international organization based in Switzerland that promotes child welfare around the world. A \$2.2 million (CDN) project was undertaken to provide electronic tools for child care agencies. The first payment of \$441,541 USD (\$427,500CDN) has been made by TDH Canada Inc. to VisualMED towards this project. The first part of the development project has been achieved and accepted by (TDH) Canada Inc. and the payment of \$441,541. USD (\$427,500.CDN) has been recognized as revenue in this quarter.

Our technology is now operational in 6 healthcare facilities, with the Plexo clinics installation underway and the first clinic expected to go-live within the coming months. We still need to deploy in five more facilities in order to reach our strategic threshold of 12 installed sites. We continue to pursue the opportunities that our growing client base provides. Although progress has been slower than anticipated we feel the goal of obtaining a threshold of 12 installed sites is well within our reach considering the new focus on smaller facilities.

In the interim, our new stand alone modules are more easily affordable to prospective clients, including small practices, clinics and private specialty facilities whose decision making timeframe is much shorter than regular hospitals: typically months instead of years. We continue to market our VisualANESTHESIOLOGY, which we expect will sell hand in hand with our oncology module, and have one VisualDENTISTRY contract. VisualDENTISTRY has been positively reviewed by dentists and we remain one of a very few companies active in

this field.

Management remains confident that the VisualMED brand, with its highly rated clinical functionality and rich content, is by now well known within the medical community. When healthcare institutions are prepared to fully comply with recent and active legislation, and adhere to federally mandated operational reform programs, VisualMED's traditional software solutions will find no shortage of customers.

Negotiations with several hospital management groups in Europe continue to make progress. Our brand and market presence with some decision-making bodies are now well established in France and Italy.

Financial Condition, Liquidity and Capital Resources

During the three months ending December 31 2007, we recognized revenue of \$452,248 from licensing of our product.

At December 31 2007, we had a working capital deficiency of \$2,024,996, compared to a working capital deficiency of \$1,511,763 at June 30, 2007.

We had a net loss of \$1,415,916 and \$2,637,735 for the three month periods ending December 31 2007 and 2006 respectively.

At December 31 2007 our total assets were \$210,076, as compared to total assets of \$467,873 at June 30, 2007.

At December 31, 2007 we had pre-paid expenses of \$62,294. This amount consisted of \$53,537 for rent, \$4,587 for a security deposit on a lease of an automobile for a marketing employee and \$4,170 for a trade show.

At December 31 2007, our total liabilities were \$2,198,227, as compared to total liabilities of \$1,928,446 at June 30, 2007.

We will need to raise additional equity/debt financing to sustain operations over the next 12 months. Our auditors have expressed substantial doubt about our ability to continue as a going concern in their audit report that was included in Form 10-KSB for the fiscal year ended June 30, 2007.

Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations are based upon the Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of Consolidated Financial Statements require management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and disclosures on the date of the Consolidated Financial Statements. On an on-going basis, we evaluate our estimates, including, but not limited to, those related to revenue recognition.

We use authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. Critical accounting policies identified are as follows:

Long-Lived Assets

In accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", we test long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly

Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

Foreign Currency Transactions/Balances

Our functional and reporting currency is the United States dollar. The functional currency of the Company's subsidiary is the Canadian dollar. The financial statements of this subsidiary are translated to United States dollars in accordance with SFAS No. 52, *Foreign Currency Translation*, using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity. Foreign currency transaction gains and losses are included in current operations.

Revenue Recognition

The Company recognizes revenue related to sales and licensing of medical software in accordance with Statement of Position No. 97-2, *Software Revenue Recognition* (SOP 97-2), as amended by Statement of Position No. 98-9, *Software Revenue Recognition with Respect to Certain Arrangements*. Pursuant to SOP 97-2 and Staff Accounting Bulletin No. 104 *Revenue Recognition*, revenue will only be recognized when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectability is reasonably assured. The Company's revenue contracts are accounted for in conformity with Accounting Research Bulletin No. 45 *Long-Term Construction-Type Contracts* (ARB 45), using the relevant guidance in SOP 81-1 *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*, unless specified criteria for separate accounting for any service element are met. The Company uses the completed contract method to recognize revenue from long term service contracts. Licensing revenue is recognized if all revenue recognition criteria pursuant to SAB 104 are met. The Company also follows the guidance in Emerging Issues Task Force (EITF) Issue No. 00-21 *Revenue Arrangements with Multiple Deliverables* relating to the separability of deliverables included in an arrangement into different units of accounting and the allocation of an arrangement's consideration to those units of accounting. It does not address when revenue should be recognized for the units of accounting.

Incremental direct costs related to contract acquisition and origination, which result in deferred revenue, are expensed as incurred. Any significant customer accounts that are not reasonably assured to be collected are excluded from revenues. During the year ended June 30, 2007, the Company licensed technology to a customer for \$1,410,600 (\$1,500,000 CAD). At December 31, 2007, \$1,092,080 (\$1,163,000 CAD) has been excluded from revenues as collectability was considered by management to not be reasonably assured. During the six month period ended December 31, 2007, the Company recognized revenue of \$441,541 related to a \$2,200,000 contract with a customer. Revenue was recognized since customer acceptance or the work completed was obtained and the Company has no further obligations related to this portion of the contract.

Disclosure Regarding Forward-Looking Statements

Certain statements contained in this quarterly report on Form 10-QSB/A constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause deviations in actual results, performance or achievements to be materially different from any future results, performance or achievement expressed or implied. Such factors include but are not limited to: market and customer acceptance of and satisfaction with our products, market demand for our products; fluctuations in foreign currency markets; the use of estimates in the preparation of our financial statements; the impact of competitive products and pricing in our field; the ability to develop and launch new products in a timely fashion; government and industry regulatory environment; fluctuations in operating results, including, but not limited to, spending on research and development, spending on sales and marketing activities, spending on technical and product support; and other risks outlined in previous filings with the Securities and Exchange Commission, and in this quarterly report on Form 10-QSB/A. The words "believe," "expect," "may," "anticipate," "intend" and "plan" and similar expressions identify forward-looking statements. Such statements are subject to risks and uncertainties that cannot be quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements. The terms "Company," "we," "us," "our," "VisualMED" and "the Registrant" refer to VisualMED Clinical Solutions Corp., a Nevada corporation, and its subsidiaries.

Factors that could cause actual results to differ from those expressed in forward-looking statements include, but are not limited to:

- Our limited operating history;

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

- Our auditors have issued a going concern opinion. Therefore we may not be able to achieve our objectives and may have to suspend or cease operations;
- Because we have historically incurred losses and these losses may increase in the future, we must begin generating a profit from our operations. If we do not begin generating a profit we may have to suspend or cease operations;
- We have experienced a history of losses and expect to incur future losses. Therefore, we must continue to raise money from investors to fund our operations. If we are unable to fund our operations, we will cease doing business;
- Because we depend on a limited number of third parties to manufacture and supply critical components for our products and services, if a third party manufacturer should cease operations or refuse to sell components to us, we may have to suspend or cease operations;
- If we cannot deliver the VisualMED systems our customers demand, we will be unable to attract customers, which would likely result in a loss of income and eventually a termination of our operations;
- Competition from companies with already established marketing links to our potential customers may adversely affect our ability to market our products;
- Our parent company has significant influence over our corporate decisions;
- Because we do not have any patents, we rely on trade secrets, confidentiality agreements and contractual agreements, which may not be adequate to protect our proprietary interests. If our proprietary interests are divulged to the public, our operations may be adversely impacted and we may have to cease operations;
- We may be exposed to liability claims if products based on our technologies are marketed and sold. We have liability insurance coverage in the amount of \$1,000,000, however, if a judgment is rendered against us in excess of the amount of our coverage, we may have to cease operations;
- Third parties may claim that our current or future products or services infringe their proprietary rights or assert other claims against us;
- Fluctuations in the value of foreign currencies could result in increased product costs and operating expenses;
- We must be able to respond to rapidly changing technology, services and standards in order to remain competitive;
- Because the market for our common stock is limited, our investors may not be able to resell their shares of common stock;
- Because our common stock is subject to penny stock rules, the liquidity of investments may be restricted.

ITEM 3. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, under the supervision and with the participation of our management, including Gerard Dab, our Chief Executive Officer, and Larry Kurlender, our Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities and Exchange Act of 1934 (Exchange Act)). Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that these disclosure controls and procedures are effective to ensure that information required to be disclosed in our annual reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities Exchange Commission rules and forms. There were no changes in our internal control over financial reporting during the fiscal quarter ended December 31 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our officers believe that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that VisualMED files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and our Chief Financial Officer in order to allow timely decisions regarding required disclosure. There are frequent daily communications among all of our executives, including Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, President and our Vice President for Finance. All of our budgetary decisions and all of our billing and other expenditures require the written, signed approval of at least three of our executives. All issues regarding disclosures and procedures are discussed in a timely fashion, including all financial and other key operational information. Current disclosure controls and procedures are governed by the Board of Directors, and any changes to such controls and procedures must be made with the Board's approval.

Part II

ITEM 1. LEGAL PROCEEDINGS

From time to time we may be involved in litigation incidental to the conduct of our business, such as contractual matters and employee-related matters. Currently, we are not a party to any material legal proceeding or litigation, whether current or threatened, nor are any of our officers, directors or affiliates, a party adverse to us in any legal proceeding or litigation.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
