MARKET VECTORS MUNICIPAL INCOME ETFs

Dear Shareholder:

We are pleased to present this semi-annual report for the municipal income exchange-traded funds of the Market Vectors ETF Trust for the six months ended October 31, 2012.

During this period, bond exchange-traded funds (ETFs) continued to benefit from low interest rates and investors' appetite for yield. According to the Investment Company Institute, 205 bond ETFs were traded on U.S. exchanges as of October, and they held \$238.7 billion in total assets. The number of bond ETFs increased by 25.0% year-over-year and their assets grew by 37.0%. Bond ETFs now account for 17.2% of total ETFs and 18.8% of total ETF assets.¹

In total, including equity ETFs, Market Vectors has grown into the fifth largest ETF family in the U.S. based on assets, with \$28.0 billion invested in 50 funds.²

Two municipal bond ETFs that have seen substantial investor interest over the past six-month period and throughout 2012:

HYD offers investors targeted exposure to the highest yielding securities in municipal bond market. As of the end of October, the fund's assets had grown by 171% since the beginning of 2012.

ITM is designed to replicate an index of medium-duration bonds with a nominal maturity of 6-17 years. As of the end of October, the fund's assets had grown by 83% since the beginning of 2012.

Market Review

During this period, investors continued to search for yield, and net inflows stayed strong in virtually all segments of the bond fund market, especially tax-exempt municipals. Once again, a major driver was action taken by the Federal Reserve Bank (the Fed) to maintain exceptionally low interest rates, while also adding to the mountainous pile of securities it is buying.

On September 13, Fed Chairman Ben Bernanke announced a third round of aggressive bond buying (quantitative easing (QE 3)), while also promising to maintain low short-term rates through 2015. The Fed will buy \$40 billion of mortgage-backed securities per month until it believes U.S. economic conditions have improved. When QE3 is combined with ongoing interest reinvestment on Fed holdings and the Operation Twist maturity extension program, the Fed's bond-buying demand will total \$85 billion per month through the end of 2012.

Although the Fed's actions did not greatly exceed analysts' expectations, the combination of the 2015 low-rate extension and a bottomless well of bond buying is expected to sustain investors' demand for most types of debt instruments. By explicitly linking the duration of QE3 to the outlook for labor market improvement, the Fed made a more open-ended commitment than in its predecessor programs.

Throughout 2012, strong investor demand for tax-exempt bonds and moderate new issuance has worked in tandem with Fed easing to drive municipal yields lower. In October, the yield-to-worst on the Barclays Municipal Bond Index fell to 2.16%, its lowest level in ten years. However, this was still above Treasury yields, which also continued on a downward slope. As of October 31, the ratio of 10-year municipal investment grade general obligation (GO) yields to Treasuries was at 104.0%.³

Yield-to-Worst measures the lowest of either yield-to-maturity or yield-to-call date on every possible call date.

MARKET VECTORS MUNICIPAL INCOME ETFs

Market Fundamentals Push Yields to Lowest Level in Ten Years

Source: FactSet. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

During the 2012 election season, political debates over federal income tax rates helped to remind high-income investors of municipal bonds' tax benefits. For example:

As of October 23, 2012, 10-year U.S. Treasuries were yielding 1.76%, compared to 2.16% for the Barclays Municipal Index. For an investor in today's top federal bracket (35%), the municipal index produces a taxable equivalent yield (TEY) of 3.32%. However, if the Bush tax cuts expire for this investor, as President Obama vowed to accomplish during the election, the top federal rate would go to 39.6% and TEY would rise to 3.58%.

Under existing law, a new Unearned Income Medicare Contributions Tax (UIMCT) will take effect on January 1, 2013. This 3.8% surtax on unearned income will apply on net investment income in excess of modified adjusted gross incomes of \$200,000 for single filers or \$250,000 for joint filers. Since municipal bond interest is excluded from the UIMCT calculation (while Treasury interest is included), TEY calculators will change for high-income taxpayers. In the above example, the TEY for a taxpayer subject to UIMCT would increase from 3.58% to 3.82%.⁴

The flipside of these tax benefits is their potential vulnerability to tax reform proposals to increase federal revenues. In October, the nonpartisan Congressional Committee on Taxation included in its revenue-raising analysis a repeal of the interest exclusion on municipal bonds issued after December 31, 2012. Coincidentally, this report came only a few days before Hurricane Sandy devastated the Northeast corridor of the U.S., potentially adding billions of dollars of clean-up and infrastructure repair costs to municipal budgets. Any actions taken in Washington to limit or cap municipal interest tax-exemption would greatly increase municipalities' cost of financing, at a tenuous time.

In 2011, Harrisburg, PA, was the only municipal general obligation (GO) issuer to default, among 9,700 issues rated by Moody's.⁵ In 2012, three California communities—San Bernardino, Stockton and Mammoth Lakes—filed for bankruptcy in late June and early July. A month later, Moody's indicated that it would review the ratings of 93 community development districts in California due to concerns over rising credit risks. Then, in October, Moody's clarified that its primary focus was just on 30 California cities that are candidates for downgrades.

Yield-to-Worst is generally defined as being the lowest yield that a buyer can expect to receive.

While these developments are meaningful, they overshadow a more important storyline in the \$3.7 trillion municipal securities market, where the SEC recently reported that 75% of assets are held by individual retail investors. As the U.S. economy has continued its steady recovery in 2012, municipal bond credit ratings have stabilized overall. Since the onset of the financial crisis in 2008, despite loud and dire warnings about municipalities' solvency, defaults in this market have trended to and likely below long-term historic averages in number or dollar amounts. Now, the market's overall credit health appears to be gradually improving almost everywhere, even in most parts of California, due to the steady recovery of the U.S. economy and state/local tax revenues.

Today's municipal market is characterized by healthy inflows balanced against new bond issuance, which only recently has accelerated and approached the normal historic pattern. Recently, we have seen municipals attracting more institutional demand, in addition to the always dependable retail investors. Re-investable cash in the form of called bonds, reinvested coupons and maturing bonds has propelled muni performance through the third quarter and should continue to drive demand into 2013.

Along the full spectrum of market participants, ranging from professional analysts to the investing public, we are seeing a general awareness that municipal credit quality has been strong enough to survive a big downturn in the U.S. economy and then rebound impressively, without series credit impairments or widespread defaults. This experience has added strength to the market and made it worthy of inclusion as an asset class in millions of portfolios.

Interested in receiving a weekly blog on the municipal bond market? Call 888.MKT.VCTR to receive a complimentary subscription to **Muni Nation**, written Jim Colby, portfolio manager and senior municipal strategist.

On the following pages, you will find the performance record of each of the funds for the six-month period ended October 31, 2012. You will also find their financial statements and portfolio information. We value your ongoing confidence in us and look forward to helping you meet your investment goals in the future.

CEF MUNICIPAL INCOME ETF (XMPT)

PERFORMANCE COMPARISON

October 31, 2012 (unaudited)

Total Return	Share Price ¹	NAV	CEFMXTR ²
Six Months	8.48%	8.77%	8.95%
One Year	20.90%	21.04%	21.57%
Life* (annualized)	19.57%	19.39%	19.85%
Life* (cumulative)	26.24%	26.00%	26.69%

*since 7/12/11

Commencement date for the Market Vectors CEF Municipal Income ETF was 7/12/11.

¹ The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/12/11) to the first day of secondary market trading in shares of the Fund (7/13/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results.

Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 1.32% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the Adviser) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes, extraordinary expenses and Acquired Fund Fees and Expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2013. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called creation units and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The Net Asset Value (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

S-Network Municipal Bond Closed-End Fund IndexSM (CEFMXTR) is composed of shares of municipal closed-end funds listed in the United States that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield.

S-Network Municipal Bond Closed-End Fund IndexSM is calculated and maintained by S-Network Global Indexes, LLC. S-Network does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

² Barclays Municipal Pre-Refunded Treasury-Escrowed Index (LMPETR) is comprised of pre-refunded and escrowed-to-maturity municipal securities secured by an escrow or trust account containing obligations that are directly issued or unconditionally guaranteed by the U.S.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

government. The escrowed securities consist solely of U.S. Treasury obligations. To be included in the Index, bonds must have a nominal maturity of 1-30 years; outstanding par value of at least \$7 million; issued as part of transaction of at least \$75 million in value; fixed rate coupon and denominated in U.S. dollars.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

SHORT MUNICIPAL INDEX ETF (SMB)

PERFORMANCE COMPARISON

October 31, 2012 (unaudited)

Total Return	Share Price ¹	NAV	LMT1TR ²
Six Months	1.07%	1.18%	1.33%
One Year	3.20%	3.32%	3.97%
Life* (annualized)	3.90%	3.86%	4.42%
Life* (cumulative)	19.68%	19.43%	22.51%

*since 2/22/08

Commencement date for the Market Vectors Short Municipal Index ETF was 2/22/08.

¹ The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/22/08) to the first day of secondary market trading in shares of the Fund (2/26/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results.

Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.20%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the Adviser) provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The Net Asset Value (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² Barclays AMT-Free Short Continuous Municipal Index (LMT1TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, Fitch. If only two of the three agencies rate the security, the lower

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least one year but less than six years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, May 1, 2012 to October 31, 2012.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during the period.

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as fees on purchase payments. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value May 1, 2012	Ending Account Value October 31, 2012	Annualized Expense Ratio During Period	Expenses Paid During the Period* May 1, 2012- October 31, 2012

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

October 31, 2012 (unaudited)

Note 1 Fund Organization Market Vectors ETF Trust (the Trust), is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2012, offers fifty investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: CEF Municipal Income ETF (CEF Municipal), High-Yield Municipal Index ETF (High-Yield), Intermediate Municipal Index ETF (Intermediate), Long Municipal Index ETF (Long), Pre-Refunded Municipal Index ETF (Pre-Refunded) and Short Municipal Index ETF (Short), each a Fund and collectively the Funds. Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its Index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the Adviser) uses quantitative analysis to select bonds and other securities that represent a sample of securities in the Index in terms of key risk factors, performance attributes and other characteristics. The number of securities in these Funds will be based upon several factors, including asset size of the Fund. The Adviser generally expects these Funds to hold less than the total number of securities in the Index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds' commencement of operations dates and their respective Indices are presented below:

Fund	Commencement of Operations	Index
CEF Municipal	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index SM
High-Yield	February 4, 2009	Barclays Capital Municipal Custom High Yield Composite Index
Intermediate	December 4, 2007	Barclays Capital AMT-Free Intermediate Continuous Municipal Index
Long	January 2, 2008	Barclays Capital AMT-Free Long Continuous Municipal Index
Pre-Refunded	February 2, 2009	Barclays Capital Municipal Pre-Refunded-Treasury-Escrowed Index
Short	February 22, 2008	Barclays Capital AMT-Free Short Continuous Municipal Index

Note 2 Significant Accounting Policies The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Funds.

- A. Security Valuation** The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Funds' Board of Trustees, the Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. Closed-end publicly listed fund investments are valued at the official market closing price. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities for which market quotations are readily available are valued on the basis of quotations furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. Certain factors such as economic conditions, political events, market trends and security specific

information are used to determine the fair value for these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented on the Schedules of Investments.

The Funds utilize various methods to measure the fair value of most of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Fund's investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Fund's Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

- B. Federal Income Taxes** It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.
- C. Dividends and Distributions to Shareholders** Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.
- D. Currency Translation** Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gains and losses from foreign currency transactions.
- E. Restricted Securities** The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities is included at the end of each Fund's Schedule of Investments.
- F. Use of Derivative Instruments** The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (OTC) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds had no derivative instruments outstanding during the period ended October 31, 2012.

- G. Other** Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Dividend income is recorded on the ex-dividend date. Realized gains and losses are calculated on the identified cost basis. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3 Investment Management and Other Agreements The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The High Yield, Intermediate, Long, Pre-Refunded and Short Funds utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, except the fee payment under the Investment Advisory Agreement, interest expenses, offering costs, trading expenses, taxes and extraordinary expenses. For CEF Municipal, the Adviser voluntarily waived its fees and assumed certain fund expenses during this period to limit total annual operating expenses to the expense caps listed below.

The current management fee/unitary management fee and the expense cap and the amounts waived/assumed by the Adviser for the period ended October 31, 2012 are as follows:

Fund	Expense Cap	Management Fee	Waiver of Management Fees	Expenses Assumed by the Adviser
CEF Municipal *	0.40%	0.40%	\$ 20,029	\$ 26,369

Fund	Unitary Management Fee
High-Yield	0.35%
Intermediate	0.24
Long	0.24
Pre-Refunded	0.24
Short	0.20

* The Adviser has agreed, at least until September 1, 2013, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Fund so that the Fund's total annual operating expenses does not exceed the expense caps, excluding interest expense.

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4 Investments For the period ended October 31, 2012, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
CEF Municipal High-Yield	\$ 367,478,145	\$ 46,472,950
Intermediate	173,262,877	1,715,255
Long	23,781,612	3,585,358
Pre-Refunded	5,512,728	3,094,557
Short	54,437,094	15,727,290

Note 5 Income Taxes As of October 31, 2012, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
CEF Municipal High-Yield	\$ 13,988,879	\$ 725,847	\$ (1,270)	\$ 724,577
Intermediate	843,721,951	73,018,760	(2,703,295)	70,315,465
Long	602,343,301	32,518,598	(161,446)	32,357,152
Pre-Refunded	97,511,147	7,618,827	(15,730)	7,603,097
Short	34,012,273	1,125,772	(3,024)	1,122,748
	169,825,174	3,463,949	(31,393)	3,432,556

The tax character of dividends paid to shareholders during the year ended April 30, 2012 was as follows:

Fund	Tax-Exempt	Ordinary Income
	April 30, 2012	April 30, 2012
CEF Municipal High-Yield	\$ 213,566	\$ 3,914
Intermediate	17,486,728	215,812
Long	9,711,970	30
Pre-Refunded	2,807,385	13,940
Short	467,040	
	2,028,885	

The tax character of current year distributions will be determined at the end of the current fiscal year.

On December 22, 2010 the Regulated Investment Company Modernization Act of 2010 (the Act) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund is permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in the pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

At April 30, 2012, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Fund	Post-Effective-No Expiration Short-Term Capital Losses	Amount Expiring in the Year Ended April 30,		
		2019	2018	2017
High-Yield	\$ 650,727	\$	\$	\$
Long	352,011	78,825	1,554,202	603,978
Pre-Refunded	144,178			
	79			

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The Funds recognize the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended 2009 - 2011), or expected to be taken in the Funds' current tax year. Therefore, no provision for income tax is required in the Funds' financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2012, the Funds did not incur any interest or penalties.

Note 6 Capital Share Transactions As of October 31, 2012, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 100,000 shares, except for CEF Municipal, which has Creation Units consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2012, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
CEF Municipal	\$ 6,397,565	\$ 523,843
High-Yield	2,000,000	
Intermediate	20,561,589	21,191,047
Long	13,873,385	13,603,905
Pre-Refunded	2,544,240	2,518,290
Short	17,547,344	17,297,248

Note 7 Concentration and Other Risks The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a passive or index approach to achieve each Fund's investment objective. The Funds (except CEF Municipal) use a sampling approach in which the Adviser uses quantitative analysis to select bonds that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

High-Yield invests in non-investment grade securities, often referred to as junk bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund's shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

Note 8 Trustee Deferred Compensation Plan The Trust has a Deferred Compensation Plan (the Plan) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Effective September 1, 2010, High Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds are included in Management fees . The liability for the Plan is shown as Deferred Trustee fees in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in Due to Adviser for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in Trustees fees and expenses in the Statements of Operations. The liability for the Plan is shown as Deferred Trustee fees in the Statements of Assets and Liabilities.

Note 9 Share Split On October 10, 2008, the Board of Trustees of the Market Vectors ETF Trust approved a split of the shares for Intermediate, Long and Short. The share splits took place for shareholders of record as of the close of business on October 21, 2008, and were payable on October 23, 2008. Fund shares began trading on a split-adjusted basis on October 24, 2008. Intermediate split its shares five-for-one, Long split its shares five-for-one and Short split its shares three-for-one.

Note 10 Bank Line of Credit Certain Funds may participate in a \$130 million committed credit facility (Facility) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended October 31, 2012, the following Funds borrowed under this facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate
High-Yield	43	\$ 1,669,442	1.90%
Intermediate	9	1,230,221	1.91
Long	17	1,067,353	1.89
Short	1	449,000	1.90

As of October 31, 2012, the Funds had no outstanding loan balances.

Note 11 Custodian Fees The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2012, there were no offsets of custodian fees.

Note 12 Recent Accounting Pronouncements The Funds have adopted Accounting Standards Update (ASU) No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. ASU No. 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU No. 2011-04 requires reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU No. 2011-04 requires reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new disclosures have been implemented for annual and interim periods beginning after December 15, 2011 and can be found in Note 2 to the financial statements and the Schedule of Investments, if applicable.

In December 2011, the Financial Accounting Standards Board issued ASU No. 2011-11, *Balance Sheet (Topic 210) Disclosures about Offsetting Assets and Liabilities*, which requires an entity to make additional disclosures about offsetting assets and liabilities and related arrangements. The new guidance seeks to enhance disclosures by requiring improved information about financial instruments and derivatives instruments that are either: (1) offset in accordance with GAAP, or (2) subject to enforceable master netting arrangement or similar agreement, irrespective of whether they are offset in accordance with GAAP. The new guidance is effective for periods beginning on or after January 1, 2013. Management is currently evaluating the implications of this change and its impact on the Funds financial statements.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

(unaudited)

At a meeting held on June 7, 2012 (the Meeting), the Board, including all of the Independent Trustees, approved an investment management agreement between the Trust and the Adviser (the Investment Management Agreement) with respect to the Market Vectors Short High-Yield Municipal Bond ETF (the Fund).

The Board's approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of each Fund's proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees' consideration of the Investment Management Agreement was based, in part, on information obtained through discussions with management of the Funds and the Adviser at the Meeting, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved or proposed to be involved in the management and administration of the Fund. The Trustees also considered the terms of, and scope of services that the Adviser would provide under, the Investment Management Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of the Fund from exceeding agreed upon limits for a period of at least one year following the effective date of the Fund's registration statement. The Trustees also considered information with respect to the financial condition of the Adviser, the current status, as they understood it, of the Adviser's compliance environment and the Adviser's views of the proposed service providers.

In addition, the Trustees were given data on the exchange-traded fund market and expense ratios of other funds. The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to the Fund, including any it may receive from providing administrative services to the Fund and from an affiliate of the Adviser serving as distributor to the Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of the Fund to the Adviser because the Fund had not yet commenced operations. However, the Adviser agreed to provide the Trustees with profitability information in connection with future proposed continuances of the Investment Management Agreement, which will permit the Trustees to consider in the future the extent to which economies of scale may exist and whether the fees paid to the Adviser reflect these economies of scale for the benefit of shareholders. In addition, because the Fund had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to the Funds, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, the fees paid by certain other funds, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the interest of the Fund and the Fund's shareholders.

* * *

At a meeting held on June 7, 2012 (the Renewal Meeting), the Board, including all of the Independent Trustees, approved the continuation of the investment management agreements between the Trust and the Adviser (the Municipal Investment Management Agreements) with respect to the Market Vectors California Long Municipal Index ETF, High-Yield Municipal Index ETF, Intermediate Municipal Index ETF, Long Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF, Pennsylvania Municipal Index ETF, Pre-Refunded Municipal Index ETF and Short Municipal Index ETF (the Municipal Funds) and the continuation of the investment management

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

(unaudited) (continued)

the Funds). The Municipal Investment Management Agreements and the CEF Investment Management Agreement are collectively referred to as the Investment Management Agreements.

The Board's approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 8, 2012. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (Lipper), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds' peer funds, information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund's designated peer group. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was also based on their review of information obtained through discussions with management of the Funds and the Adviser at the Renewal Meeting and the May 8, 2012 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, with respect to the CEF Muni Fund, the Adviser's commitment to waive certain fees and/or pay expenses of the CEF Muni Fund to the extent necessary to prevent the operating expenses of the CEF Muni Fund from exceeding agreed upon limits for a period of time and, with respect to the Municipal Funds, the Adviser's agreement to pay all of the direct expenses of the Municipal Funds (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses).

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios, especially in light of the performance of those Funds that had commenced operations as of the date of the Renewal Meeting (the Operating Funds). In evaluating an Operating Fund's performance, the Trustees assessed the Operating Funds' performance based on how well the performance of an Operating Fund tracked the performance of its benchmark index, using a variety of measurements in this regard, and concluded that the investment performance of the Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser, the current status, as they understood it, of the Adviser's compliance environment and the Adviser's analysis of the Trust's other service providers.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other exchange-traded funds (ETFs). In reviewing the information, the Trustees considered the Adviser's analysis of any tracking error between each Operating Fund and its relevant benchmark index and concluded that each Operating Fund's tracking error was within an acceptable range. The Trustees noted that the information provided showed that all of the Operating Funds, except CEF Muni Fund and Pre-Refunded Municipal Index ETF, had a total expense ratio (after the effect of any applicable expense limitation) below the average and the median of its peer group of funds. The Trustees also noted that the information provided showed that the CEF Muni Fund had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and the median of its peer group of funds and that the Pre-Refunded Municipal Index ETF had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and at the median of its peer group of funds. The Trustees concluded, however, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness due to the lack of a large number of directly comparable ETFs.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that the Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees also considered, with respect to the Municipal Funds, the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of the Municipal Funds. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the profitability to the Adviser of Market Vectors California Long Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF and Pennsylvania Municipal Index ETF because none of those Funds had commenced operations at the time of the Renewal Meeting. However, the Adviser agreed to provide the Trustees with profitability information in connection with future proposed continuances of the Investment Management Agreements after those Funds had commenced operations. In addition, because none of those Funds had commenced operations, the Trustees were not in a position to consider the historical performance or the quality of services previously provided to each of those Funds although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 8, 2012 meeting, as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, the fees paid by certain other funds, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the interest of the Funds and each Fund's shareholders.
