Statements in this Current Report on Form 8-K, including exhibits, that are not purely historical facts, including statements regarding Merit's beliefs, expectations, intentions or strategies for the future, may be "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. All forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from the plans, intentions and expectations reflected in or suggested by the forward-looking statements. Such risks and uncertainties include, among others, market acceptance of Merit's products, product introductions, potential product recalls, delays in obtaining regulatory approvals, cost increases, fluctuations in and obsolescence of inventory, price and product competition, availability of labor and materials, development of new products and techniques that could render Merit's products obsolete, product liability claims, infringing technology, inability to protect Merit's proprietary technology, foreign currency fluctuations and changes in health care markets related to health care reform initiatives. Additional information with respect to the factors and events that could cause differences between forward-looking statements and future results is contained in Merit's filings with the Securities and Exchange Commission, including Merit's Annual Report on Form 10-K for the year ended December 31, 2002.
