Item 5.03 Amendment to Articles of Incorporation

## Edgar Filing: ULTRADATA SYSTEMS INC - Form 8-K

On June 1, 2006 Ultradata entered into a group of agreements. The purpose of the agreements is to facilitate the disposal of Ultradata's current operations and enable Ultradata to acquire a new business under new management. The business that will be acquired has not yet been determined.

One of the agreements signed on June 1, 2006, the Assignment and Assumption Agreement, effected the transfer of all of Ultradata's operating assets to a wholly-owned subsidiary named "RW Data, Inc." In the same agreement, RW Data agreed to pay all of Ultradata's debts and obligations existing on June 1, 2006.

On the same date Ultradata and RW Data entered into a Management Agreement with Monte Ross, Ernest Clarke and Mark Peterson (the "Managers"), who are currently officers and members of Ultradata's Board of Directors. The Managers agreed to the termination of their employment agreements with Ultradata, and that they would instead assume responsibility for the management of RW Data, Inc. The Managers undertake to use their best efforts to effect a sale of RW Data during 2006. In consideration for their commitment, Ultradata issued to the Managers a total of 100,000 shares of Series C Preferred Stock and granted them options to purchase a total of 50,000 additional Series C shares for \$150,000.

The Managers will be able to convert the Series C Preferred Stock into 2% of the outstanding Ultradata shares (3% if they exercise the option for additional Series C shares), but only if Ultradata has acquired an operating company during 2006. Otherwise the Series C Preferred Stock will be cancelled. If the 100,000 shares of Series C Preferred Stock are converted into common stock, the Managers will be entitled to sell the shares to Ultradata after April 1, 2007 for a price equal to the sum of \$275,000 less all liabilities of RW Data at December 31, 2006 and all liabilities of Ultradata that existed on June 1, 2006 and remain on the balance sheet on December 31, 2006. In the event that the afore-mentioned liabilities exceed \$275,000, then the Managers will be required to surrender one Series C share for each \$2.75 of excess liabilities.

On June 1, 2006 Ultradata sold to Warner Technology & Investment Corp. ("Warner") 210,000 shares of Series B Preferred Stock for \$210,000 in cash paid on that date. The holder of the Series B shares will be entitled to cast 51% of the votes at any shareholders meeting. Warner will be entitled to convert the Series B stock into 10% of the outstanding Ultradata shares, but only if Ultradata has acquired an operating company during 2006. Otherwise the Series B Preferred Stock will be cancelled.

In connection with the purchase by Warner of the Series B Preferred Stock, the present directors of Ultradata have elected to the Board two designees of Warner and have submitted their resignations from the Board, effective ten days after Ultradata mails an announcement of the change in control to its record shareholders. After that change of control, Warner and its designees to the Board will bear responsibility for negotiating the acquisition of an operating company. The Certificate of Designation of the Series C stock provides, however, that no corporation acquisition can be completed without the approval of the holders of the Series C stock - i.e. the Managers. In the Management Agreement, the Managers agreed that they will approve any corporate acquisition in which (a) the acquired company had not less than \$2.5 million in revenue and not less than \$700,000 in net pre-tax income in the year ended September 30, 2005, (b) the shareholders of Ultradata on June 1, 2006 and the holders of the Series C Preferred Stock will, on closing of the acquisition, own not less than five percent of the equity in Ultradata, and (c) there are no other material terms of the corporate acquisition that are objectionable to the Managers.

Edgar Filing: ULTRADATA SYSTEMS INC - Form 8-K

Item 9.01 Financial Statements and Exhibits

Exhibits
