1. General information

1.1 The Group's business and general information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or the "Company") was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA"), a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group. See Note 2.3 to the Consolidated Financial Statements as of June 30, 2014 and 2013 for a description of the Group's companies.

As of September 30, 2014, the Group operates in two major lines of business: (i) Agricultural business, (ii) Urban Properties and Investments business. See Note 7 to the Unaudited Condensed Interim Consolidated Financial Statements as of June 30, 2014 and 2013 for a description of the Group's segments.

The Group's Agricultural business operations are comprised of crop production, cattle feeding, raising and fattening, milk production, sugarcane production and brokerage activities. Fattening is carried out in specialized feedlots that provide accommodation, health care and animal feeding services based on specialized diets. The Group currently has agricultural operations and investments in Argentina, Brazil, Uruguay, Paraguay and Bolivia.

The Urban Properties and Investments business operations are conducted primarily through IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA and IRSA, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, capital of Argentina, and since 2009 it entered into the US real estate market, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these condensed interim consolidated financial statements to denote investment, development and/or trading properties activities.

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Consolidated Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual consolidated financial statements for the year ended as of June 30, 2014, save for changes in accrued income tax, provision for legal claims and allowance for doubtful accounts.

2.4 Comparative information

Amounts as of September 30, 2013 and June 30, 2014, which are disclosed for comparative purposes have been taken from the Consolidated Financial Statements as of such dates. The financial statements originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

During the period beginning on September 30, 2013 and ended September 30, 2014, the Argentine Peso devalued against the US\$ and other currencies by around 45.5%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income and costs of Agricultural Business and of income from urban property and investments business line, especially from the “office and other rental properties” segment, and our net assets and liabilities in foreign currency as detailed in Note 39.

3. Seasonal effects on operations

The operations of the Group’s agricultural business are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between February and June every year. Wheat is generally harvested between November and January. In Bolivia, weather conditions make it possible to have two soybeans, corn and barley seasons and, therefore, these crops are harvested in April and October, whereas wheat and sunflower are harvested in August and September, respectively. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. In case of sugar cane, harvest and sale take place between May and November of each year. As a result, there may be material fluctuations in the agricultural business results across quarters.

The operations of the Group’s shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and year-end celebrations (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also impact the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

6. Segment information (Continued)

At the time of assessing the performance of business segments and deciding upon the allocation of resources, the Executive Committee uses information on operating income assets and liabilities of each such segment. In the Unaudited Condensed Consolidated Financial Statements, the transactions and balances between related parties which may affect more than one segment are eliminated. In order to obtain clear information that may be useful for Management's decision making, the Group has defined that, as from the three-month period ending September 30, 2014, such transactions will not be eliminated for segment reporting purposes.

The comparative information presented as from such period has been adjusted retrospectively for the sake of comparability.

The following tables present a reconciliation between the total results of segment operations and the results of operations as per the income statements. The adjustments relate to the presentation of the results of operations of joint ventures accounted for under the equity method under IFRS and the non-elimination of the inter-segment transactions as explained in the preceding paragraph.

On May 12, 2014, shares of IDBD started to trade in the Tel Aviv Stock Exchange, Israel; as a result, all of the shares (including pledged shares) were held in trust at Bank Leumi Le-Israel to secure compliance with lock-up provisions of Chapter D of the Tel Aviv Stock Exchange Rules, whereby shares listed under an IPO (initial public offering) may not be freely disposed of for a term of 18 months, which are then released at a rate of 2.5% per month beginning on the fourth month of the IPO date.

Hence, in accordance with Tel Aviv Rules applicable to September 30, 2014, 51,095,676 shares and 335,715 warrants of each of the Series 1, 2 and 3 were still subject to lock-up provisions under the terms described above.

BHSA

On October 31, 2014 the Bank was notified of Ruling 685 dated October 29, 2014 issued by the Superintendency of Financial Entities and Exchange Offices in proceedings conducted pursuant to Financial Investigation Case Number 1320, whereby the Bank and its officers were charged with alleged infringements to rulings on assistance to Non-Financial Public Sector, excess credit risk exposure to non-financial public sector, excess collateralization, failure to comply with minimum capital requirements and objections to the accounting treatment afforded to the transaction "Cer Swap Linked to PG08 and External Debt"; and moreover, delays in communicating the appointment of new members of the board and to file documentation related to new members of the board designated by the Shareholders' Meetings.

Such a ruling assessed a fine in the amount of Ps. 4.04 million to Banco Hipotecario S.A. and fines of diverse amounts to incumbent and former members of the Board, statutory auditors and managers.

The Bank, its incumbent and former directors, statutory auditors and managers intend to file an appeal against such decision with the National Court of Appeals in Administrative Litigation Matters.

10. Investment properties (Continued)

The following amounts have been recognized in the income statements:

	September 30, 2014	September 30, 2013
Rental and service income	689,599	546,152
Direct operating expenses	286,818	(245,217)
Gain from disposal of investment properties	316,767	-

Properties under development mainly comprise works in Shopping Neuquén S.A. (Alto Comahue) and Arcos del Gourmet S.A. (Distrito Arcos). As of September 30, 2014 and June 30, 2014 works in Alto Comahue amount to Ps. 177.9 million and Ps. 126.8 million, respectively. Works in Distrito Arcos as of September 30, 2014 and June 30, 2014 amount to Ps. 237.2 million and Ps. 236.2 million, respectively.

As of September 30, 2014 contractual obligations mainly correspond to constructions regarding to both projects. In Alto Comahue contractual obligations amount to Ps. 205 million and the Project is expected to be completed in March, 2015. In respect of Distrito Arcos, on December 10, 2013, the Judicial Branch confirmed an injunction order that suspends the opening of the shopping center on the grounds that it does not have certain governmental permits. Even though the construction has all regulatory permits in place, the Company is carrying out specific actions, has challenged the ruling, and has requested that the injunction be lifted and has reasonable expectations of a favorable result. On April 1, 2014 the Government of the City of Buenos Aires granted a new environmental clearing certificate.

On the other hand, in one of the two judicial processes (amparos – actions intended to protect constitutional rights) currently being heard, “Charlon, Marcelo Alejandro and others VS. GCBA on/ Amparo”, the Court of Appeals referred above confirmed the decision rendered by the lower court whereby the action was abated, as per notice served upon us on September 1, 2014. This means the process has concluded with the decision being favorable to us.

16. Financial instruments by category

Determining fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which a financial asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels. The initial basis for the allocation is the "economic investment class". Only if this does not result in an appropriate allocation the Company deviates from such an approach in individual cases. The allocation reflects which of the fair values derive from transactions in the market and where valuation is based on models because market transactions are lacking.

16. Financial instruments by category (Continued)

In the case of Level 1, valuation is based on non-adjusted quoted prices in active markets for identical financial assets or liabilities that the Group can refer to at the date of the statement of financial position. A market is deemed active if transactions take place with sufficient frequency and in sufficient quantity for price information to be available on an ongoing basis. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds, government bonds and corporate bonds for which quoted prices in active markets are available. In the case of shares, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency contracts.

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as that information is not available. The inputs used reflect the Group's assumptions regarding the factors which any market player would consider in their pricing. The Group uses the best available information for this, including internal company data. The financial instruments that the Group has allocated to this level mainly comprise shares and warrants of Supertel and Arcos del Gourmet S.A. stock option (its fair value at the end of the period is zero).

As of September 30, 2014, the Group has determined that Arcos del Gourmet S.A.'s stock option is a Level 3 financial instrument and its fair value at the end of the period is zero.

Since June 30, 2014, there have been no transfers between the several tiers used in estimating the fair value of the Group's financial instruments, or reclassifications among their respective categories.

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level 3 instruments. The team directly reports to the Chief Financial Officer (CFO).

16. Financial instruments by category (Continued)

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

The following tables present the Group's financial assets and financial liabilities that are measured at fair value as of September 30, 2014 and June 30, 2014 and their allocation to the fair value hierarchy:

16. Financial instruments by category (Continued)

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair value of these instruments exceeded the transaction price and were determined using a valuation technique that uses inputs not observable in the market. As a result of the use of this technique, the Group has not recognized a gain at the time of initial recognition in the amount of US\$ 7.9 million. On June 30, 2014, the fair value of warrants of Supertel as determined pursuant to the indicated method was lower than the gain not recognized upon initial recording; therefore, warrants are valued at zero.

According to Group estimates, all factors being constant, a 10% decline in the price of the underlying assets of Level 3 Shares and Warrants of Supertel (data observed in the market) as of September 30, 2014, would reduce pre-tax income by Ps. 35 million.

According to Group estimates, all factors being constant, a 10% increase in the credit spread (data which is not observable in the market) of shares and warrants of Supertel used in the valuation model applied to Level 3 financial instruments as of September 30, 2014, would reduce pre-tax income by Ps. 0.06 million. The rate used as of September 30, 2014 was 14.02%.

16. Financial instruments by category (Continued)

26. Taxation (Continued)

The Group did not recognize deferred income tax assets of Ps. 57.2 million and Ps. 57.1 million as of September 30, 2014 and June 30, 2014, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of the different Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of the Group itself, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

	September 30, 2014	September 30, 2013
Tax calculated at the tax rates applicable to profits in the respective countries	(66,147)	43,583
Permanent differences:		
Share of (loss) / profit of associates and joint ventures	(58,432)	13,428
Unrecognized tax losses	(4,121)	-
Non-deductible expenses	(9,422)	(8,968)
Others	7,040	(2,661)
Income tax expense	(131,082)	45,382

27. Shareholders' Equity

Special Reserve

Pursuant to CNV General Ruling No. 609/12, the Company set up a special reserve, to reflect the positive difference between the balance at the beginning of retained earnings disclosed in the first financial statements prepared according to IFRS and the balance at closing of retained earnings disclosed in the last financial statements prepared in accordance with previously effective accounting standards. This reserve may not be used to make distributions in kind or in cash, and may only be reversed to be capitalized, or otherwise to absorb potential negative balances in Retained Earnings.

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements attached of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statements of financial position as of September 30, 2014, the unaudited condensed interim consolidated statement of income and comprehensive income for the three-month period ended September 30, 2014, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and the unaudited condensed interim consolidated statement of cash flows for the three-month period ended September 30, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements mentioned in first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34). REVIEW REPORT ON THE
AUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the unaudited condensed interim consolidated statement of financial position, the unaudited condensed interim consolidated statement of income and comprehensive income, the unaudited condensed interim consolidated statement of changes in shareholders' equity and the unaudited condensed interim consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

1. General information

1.1 The Company's business and general information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or the "Company") was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on November 11, 2014.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

These Unaudited Condensed Interim Separate Financial Statements of the Company have been prepared in accordance with Technical Resolutions No. 26 (RT 26) of Argentine Federation of Professional Councils of Economic Sciences ("F.A.C.P.C.E.", as per its Spanish acronym) and IAS 34 "Interim Financial Reporting".

Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of article 1, Chapter III, Title IV of General Ruling 622/13. Such information is included in the Notes to the Unaudited Condensed Interim Separate Financial Statements according to IFRS.

These Unaudited Condensed Interim Separate Financial Statements should be read together with the annual audited Separate Financial Statements of the Company as of June 30, 2014. These Unaudited Condensed Interim Separate Financial Statements are expressed in thousands of Argentine Pesos.

The Unaudited Condensed Interim Separate Financial Statements for the three-month periods ended September 30, 2014 and 2013 have not been audited. The Company's management believes they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended September 30, 2014 and 2013 do not necessarily reflect proportionally the Company's results for the complete fiscal years.

2.2. Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Separate Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2014 and are based on those IFRS in force as of June 30, 2014 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). Furthermore, the most significant accounting policies are described in the annual Consolidated Financial Statements.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the annual separate financial statements for the fiscal year ended June 30, 2014, except for changes in provisions for income tax, for legal claims and for doubtful accounts.

2.4. Merger with Cactus Argentina S.A.

During September 2014, the Company entered into a pre-merger commitment with its wholly-owned subsidiary Cactus Argentina S.A. whereby the Company would be the absorbent Company and Cactus would be the absorbed Company.

2.5. Comparative information

Amounts as of September 30, 2013 and June 30, 2014, which are disclosed for comparative purposes have been taken from the separate financial statements as of such dates. The financial statements originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period.

During the period beginning on September 30, 2013 and ended September 30, 2014, the Argentine Peso devalued against the US\$ and other currencies by around 45.5%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income and costs, and our assets and liabilities, in foreign currency as detailed in Note 34.

3. Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between February and June every year. Wheat is generally harvested between November and January every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results each quarter.

4. Acquisitions and disposals

On September 30, 2013, the Company sold receivables from Agropecuaria Acres de Sud S.A., Yuchán Agropecuaria S.A., Yatay Agropecuaria S.A. and Ombú Agropecuaria S.A. for a total amount of US\$ 12.4 million, which were capitalized on that same date.

On July 31, 2014 the Company transferred to IRSA an area of 1,058 hectares located in Luján, in Buenos Aires Province. The amount of the transaction was Ps. 210 million, which has already been paid in full.

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim separate financial statements attached of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim separate statements of financial position as of September 30, 2014, the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2014, the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period ended September 30, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria with its subsidiaries as to the aspects mentioned in note 2.2 to the unaudited condensed interim separate financial statements attached. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph “Scope of our review”.

Free translation from the original prepared in Spanish for publication in Argentina

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the unaudited condensed interim separate statement of financial position, the unaudited condensed interim separate statements of income and comprehensive income, the unaudited condensed interim separate statements of changes in shareholders' equity and the unaudited condensed interim separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

During this quarter our revenues were 35.3% higher than in the same period of the previous fiscal year. Gross profit rose 48.3% during the first quarter of 2015, mainly due to higher revenues and higher recognition of the fair value of biological assets and agricultural products. Besides, profit from operations increased by 268.9% in the period under review, mainly explained by the sale of the Madison 183 building in New York by our subsidiary IRSA.

The net profit was positive for ARS 21.7 million, compared to a loss of ARS 89.0 million in the same quarter of 2014.

Grains and Sugarcane

After a neutral 2014 season in the region, with improved weather conditions in Argentina and Paraguay and greater problems in Brazil and Bolivia, better rainfall levels have been recorded at the start of this season as compared to the beginning of 2014 and there have been no signs of droughts, at least until to date. For 2015, we forecast regular weather conditions and a good season in terms of yields. In this sense, we expect to plant approximately 207,000 hectares in the set of countries of the region in which we operate and to reach a production comparable to the one obtained in the past season. We have still not started planting activities in most of the crops in Argentina, Paraguay and Brazil. We have only completed planting of winter crops in Bolivia. Price-wise, the sector is facing the juncture of a large American harvest and thus prices are still very depressed. We expect that the current price levels will be maintained during the following quarter.

The Grains segment decreased mainly as a result of lower holding results, originated in a fall in commodity prices, and higher administrative and selling expenses, mainly due to foreign exchange differences arising from the conversion of Brasilagro's expenses.

The sugarcane segment went up from a loss of ARS 10.8 million to profit for ARS 1.6 million, mainly reflecting a 372% increase in production income originated largely in Brazil as a result of the significant increase in expected and achieved yields, and higher commercial expenses due to a shortfall in the provision for expenses recorded in 2013.

Revenues increased by 98% compared to the same period of the previous year, mainly due to a strong increase of 100% in beef prices. The significant rise experienced by beef cattle during the period has led to higher holding results by ARS 16.5 million.

The variation of costs was lower than that of revenues, mainly due to lower costs of third-party feedlot livestock and lower feeding expenses due to the good pastures we had during this period compared to the previous year, when higher supplemental feeding had been required due to dry weather conditions.

We have decreased milk production hand in hand with the number of milking cows per day. On the contrary, there has been an increase in the level of production per milking cow per day, surpassing our productivity target of 20 liters by milking cow per day following the consolidation of our operations in our “El Tigre” state-of-the-art milking facility.

There has been an increase in revenues from sales of this segment compared to the same quarter of the previous fiscal year, mainly due to a 51.4% increase in the price of milk.

Gross profit rose by 426%, mainly due to the higher price of milk, an increase in costs that was slightly lower than revenues and higher income from changes in the fair value of biological assets.

The increase in Gross Profit, coupled with contained selling and administrative expenses have led to profit of ARS 0.01 million in this segment, compared to a loss of ARS 1.8 million in the same period of the previous fiscal year.

Costs increased in line with revenues. It should be noted that during this quarter, for seasonal reasons, the Company had to afford irrigation service expenses, which will generate income in the coming quarters.

Summary as of September 30, 2014

Prospects for the next fiscal year

After a neutral 2014 season in the region, with improved weather conditions in Argentina and Paraguay and greater problems in Brazil and Bolivia, better rainfall levels have been recorded at the start of this season as compared to the beginning of 2014 and there have been no signs of droughts, at least until to date. For 2015, we forecast regular weather conditions and a good season in terms of yields. In this sense, we expect to plant approximately 207,000 hectares in the set of countries of the region in which we operate and to reach a production comparable to the one obtained in the past season. Price-wise, the sector is facing the juncture of a large American harvest and thus prices are still very depressed. We expect that the current price levels will be maintained during the following quarter.

As concerns our beef cattle business in Argentina, we have observed positive results during the first quarter of 2015, combined with higher livestock production volumes, firm prices and controlled costs, a trend that we hope will continue throughout the year. On the other hand, we expect solid prices for the milk business and a competitive margin from our “El Tigre” dairy facility. In addition, we will continue to roll out our strategy of supplementing agriculture in our own farms with agriculture in leased farms and farms under concession. We expect to maintain the area of leased farms, yet relocating part of our portfolio in better areas. In this way, we will be able to obtain good results from this business if the weather proves to be favorable throughout the 2015 season.

As concerns land transformation and value-adding activities, we will make progress in the development of our farms in Argentina, Paraguay and Brazil, where we plan to transform approximately 12,000 hectares that will be placed into production during this fiscal year and in 2016. We remain watchful of sale opportunities that may arise, by disposing of those farms that have reached their highest degree of appreciation. In addition, we will continue to analyze opportunities in other countries of the region, as we plan to form a regional portfolio with high potential for development and valorization.
