You may obtain a description of the Fund's proxy voting policies and procedures, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") web site at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's web site at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

AllianceBernstein Investment Research and Management, Inc. is an affiliate of Alliance Capital Management L.P., the manager of the funds, and is a member of the NASD.

February 23, 2005

Annual Report

This report provides management's discussion of fund performance for ACM Income Fund (the "Fund") for the annual reporting period ended December 31, 2004. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "ACG".

Investment Objectives and Policies

This closed-end fund is designed to provide high current income consistent with the preservation of capital. The Fund invests principally in U.S. government obligations. The Fund may also invest a portion of its assets in other fixed-income securities, including those issued by foreign governments. Additionally, the Fund may utilize other investment instruments, including options and futures, and employs leverage. For more information regarding the Fund's risks, please see "A Word About Risk" on page 4 and "Note G--Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 34.

Investment Results

The table on page 6 provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) U.S. Aggregate Index, for the six- and 12-month periods ended December 31, 2004.

For both the six- and 12-month periods ended December 31, 2004, the Fund outperformed its benchmark. The Fund's emerging market debt and high yield holdings significantly outperformed the components of the benchmark, which is comprised solely of U.S. investment-grade holdings.

During 2004, lower-rated fixed-income market sectors outperformed the higher-rated traditional sectors as economic conditions generally improved. Additionally, the relatively lower interest rate environment was favorable for lower-rated debt. The Fund's ability to leverage during a year of strong individual sector returns also contributed positively to returns, allowing the Fund to further enhance its relative outperformance.

Within the emerging market sector, the Fund's overall individual country weighting decisions for the year contributed positively to the Fund's performance. The returns of most emerging market countries exceeded those of the Fund's benchmark. The Fund's security selection, however, was defensive

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

relative to U.S. interest rates, modestly dampening the emerging market sector's relative outperformance. The Fund's duration was shortened during the spring and summer of 2004, as interest rates were expected to rise. However, a mid-year slowdown in the U.S. enabled a measured tightening pace by the U.S. Federal Reserve and kept interest rates relatively low, providing a continued favorable environment for emerging market debt.

Within the Fund's high yield allocation, positive security selection within the cable/media and health care sectors positively impacted performance during the annual reporting period. The Fund's performance also benefited from its underweighted positions in the

ACM INCOME FUND o 1

technology, auto and retail sectors, which underperformed relative to other high yield sectors. Almost all high yield sectors outperformed the Fund's benchmark during the 12-month period ended December 31, 2004.

Market Review and Investment Strategy

The U.S. Treasury market, as measured by the LB Treasury Index, posted a very modest return of 3.54% for the year as Treasury prices reflected mixed economic news throughout the reporting period. In April 2004, the Treasury market sold off sharply in response to strong payroll employment data. Subsequently, the Treasury market rebounded somewhat as the U.S. economy experienced a mid-year economic slowdown. Although short-term U.S. interest rates followed the U.S. Federal Reserve and moved higher, longer-term rates failed to increase as expected. Instead, the yield on the 10-year Treasury ended the year roughly where it began and longer-maturity yields ended about 25 basis points lower, resulting in a significantly flatter yield curve. The yield spread between two- and 30-year Treasuries narrowed more than 150 basis points during the year.

One of the strongest performing sectors in 2004 was emerging-market debt, which posted a return of 11.73%, according to the J.P. Morgan Emerging Markets Bond Index (EMBI) Global Index. This sector enjoyed a favorable low interest rate environment, strong global liquidity and improving individual country fundamentals, which encouraged investor risk-taking and strengthened local currencies. Strong currencies have provided opportunities for these countries' central banks to accumulate reserves, which in turn has improved their debt sustainability.

High yield also posted very strong performance for the year, returning 11.96% according to the Credit Suisse First Boston (CSFB) High Yield Index. After a volatile first half of the year in which investors worried about the speed of imminent U.S. Federal Reserve tightening, official rate hikes commenced at a measured pace and market volatility subsided. The result was an inflow of funds into the asset class from yield-seeking investors. The average high-yield spread over Treasuries tightened over 100 basis points during the year to its tightest level since April 1998, with all major industry sectors recording gains in 2004.

During the reporting period, the Fund maintained allocations to its core emerging market countries (Brazil, Russia, Colombia, Mexico, Ecuador, Turkey and Venezuela); however, the Fund's emerging market interest rate duration exposure was reduced later in the reporting period as global liquidity tightened and interest rates were poised to move higher.

The Fund generally maintained an overweighted position in Russian debt early in

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

the period as credit statistics continued to improve and Russia benefited from higher oil prices. In July 2004, however, the Fund's Russian holdings were reduced as positive economic fundamentals were offset by ad-

2 o ACM INCOME FUND

ministrative paralysis and the Yukos affair. Russia's Justice Ministry had seized the assets of Yukos, the country's largest oil producer, and was preparing to sell its main oil-producing unit in Siberia to recover payment of back taxes. Additionally, the Fund's spread exposure in Brazil was reduced as valuations became rich. The Fund's position in the Ukraine was increased due to strong economic growth and prospects for rating upgrades.

Within the Fund's high yield allocation, the lower-spread tiers have been underweighted given expectations for rising rates in 2005. The lower spread tiers offer not only a smaller yield cushion but tend to be more sensitive to changes in interest rates. The Fund's portfolio management team (the "team") is taking a more concentrated position in its best ideas in the higher-spread tiers, where its research indicates that the Fund is being adequately compensated for taking increased risk and where securities tend to be less interest-rate sensitive. With historically tight spread levels and a lack of dispersion across most industries, individual security selection is critical. Therefore, the team has been focused on identifying the best security-specific total-return opportunities, and taking larger positions in our analysts' best ideas.

In Memory

It is with sadness that we announce the passing of Clifford L. Michel, a member of the Board of Directors of ACM Income Fund. Mr. Michel served the interests of the Fund's shareholders for the last 18 years. His hard work, dedication and contributions to the Fund will be greatly missed.

Historical Performance

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on page 6 represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. Returns are annualized for periods longer than one year. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

ACM Income Fund Shareholder Information

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 426-5523. The Fund also distributes its daily net asset value to various financial publications or independent organizations

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

such as Lipper Inc., Morningstar, Inc. and Bloomberg. Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of The Wall Street Journal under the abbreviation "ACM IncFd." The Fund's NYSE trading symbol is "ACG." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal and each Sunday in The New York Times and other newspapers in a table called "Closed-End Bond Funds." For additional shareholder information regarding this Fund, please see page 50.

Benchmark Disclosure

The unmanaged Lehman Brothers (LB) U.S. Aggregate Index does not reflect fees and expenses associated with the active management of a mutual fund portfolio. The Index covers the U.S. investment-grade fixed-rate bond market, including government and credit securities, agency mortgage passthrough securities, asset-backed securities and commercial mortgage-backed securities. An investor cannot invest directly in an index, and its results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

The Fund may utilize additional leverage through the investment techniques of reverse repurchase agreements and dollar rolls. Repurchase agreements involve sales by the Fund of portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price. Generally, the effect of such a transaction is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities. Such transactions are only advantageous if the interest cost to the Fund of the reverse repurchase agreement transaction is less than the cost of otherwise obtaining the cash.

The Fund may enter into dollar rolls in which the Fund sells securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type and coupon) securities on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase (often referred to as the "drop") as well as by the interest earned on the cash proceeds of the initial sale.

Reverse repurchase agreements and dollar rolls are speculative techniques and are considered borrowings by the Fund. The effect of leverage can realize shareholders higher returns than if the Fund were not leveraged, and the use of leverage techniques can add to net asset value (NAV). However, the risks of such techniques are potentially a higher volatility of the NAV of the Common Stock, potentially more volatility in the market value of the Common Stock and the relatively greater effect on the NAV of the Common Stock caused by favorable or adverse changes in the currency exchange rates. In addition, changes in the interest rate environment can increase or decrease shareholder returns. This additional leverage will not exceed 33% of the Fund's total assets, less liabilities.

(Historical Performance continued on next page)

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Historical Performance

HISTORICAL PERFORMANCE

(continued from previous page)

To the extent that the current interest rate on the Fund's indebtedness approaches the net return on the leveraged portion of the Fund's investment portfolio, then the benefit to the shareholders will be reduced. If the rate on indebtedness were to exceed the net return on the same portion of the portfolio, then this would result in a lower rate of return for the shareholders. Similarly, the use of leverage in a declining market can advance the decrease of the Fund's NAV more so than if the Fund were not leveraged, which would likely be reflected in a greater decline in the market price for shares of Common Stock than if the Fund were not leveraged. In extreme cases, if the Fund's current investment income were not sufficient to meet interest payments on indebtedness or if the Fund failed to maintain the asset coverage required by the 1940 Act, then it could be necessary for the Fund to liquidate certain investments at a time when it may be disadvantageous to do so, thereby reducing its NAV. The Fund can also invest in foreign securities, including emerging markets, which may magnify these fluctuations due to changes in foreign exchange rates and the possibility of substantial volatility due to political and economic uncertainties in foreign countries.

20 o ACM INCOME FUND

Portfolio of Investments

* Represents entire or partial securities out on loan. See Note E for securities lending information.

(a) Positions, or portion thereof, with an aggregate market value of \$1,044,438,726 have been segregated to collateralize the loan payable outstanding.

(b) Positions, or portion thereof, with an aggregate market value of \$458,159,588 have been segregated to collateralize reverse repurchase agreements.

(c) Positions, or portion thereof, with an aggregate market value of \$557,186,386 have been segregated to collateralize open forward exchange currency contracts.

(d) Security is in default and is non-income producing.

(e) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At December 31, 2004, the aggregate market value of these securities amounted to \$390,981,516 or 20.7% of net assets.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

(f) Coupon increases periodically based upon a predetermined schedule. Stated interest rate in effect at December 31, 2004.

(g) Indicates a security that has a zero coupon that remains in effect until a predetermined date at which time the stated coupon rate becomes effective until final maturity.

(h) Non-income producing security.

(i) Position, or a portion thereof, with an aggregate market value of \$8,955,935 has been segregated as collateral for the futures transactions outstanding at December 31, 2004.

(j) One contract relates to principal amount of \$1.00.

ACM INCOME FUND o 25

Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS

December 31, 2004

NOTE A

Significant Accounting Policies

ACM Income Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used;

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

securities traded in the over-the-counter market, ("OTC") (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, Alliance Capital Management, L.P. (the "Adviser") may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

26 o ACM INCOME FUND

Notes to Financial Statements

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because, most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Currency Translation

Assets and liabilities denominated in foreign currencies and commitments under forward exchange currency contracts are translated into U.S. dollars at the mean of the quoted bid and asked prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated into U.S. dollars at the rates of exchange prevailing when such securities were acquired or sold. Income and expenses are translated into U.S. dollars at the rates of exchange prevailing when accrued.

Net realized gain or loss on foreign currency transactions represents foreign exchange gains and losses from sales and maturities of foreign fixed income investments, foreign currency exchange contracts, holding of foreign currencies, currency gains or losses realized between the trade and settlement dates on foreign investment transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains and losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of unrealized appreciation and depreciation of investments and foreign currency denominated assets and liabilities.

3. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or repatriated. Taxes are accrued and applied to net investment income, net realized gains and net unrealized appreciation/depreciation as such income and/or gains are earned.

4. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the date the securities are purchased or sold. Investment gains and losses are

ACM INCOME FUND o 27

Notes to Financial Statements

determined on the identified cost basis. The Fund accretes discounts as adjustments to interest income. Additionally, the Fund amortizes premiums on debt securities for financial statement reporting purposes only.

5. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

6. Repurchase Agreements

The Fund's custodian or designated subcustodian will take control of securities as collateral under repurchase agreements and determine on a daily basis that the value of such securities are sufficient to cover the value of the repurchase agreements. If the seller defaults and the value of collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of collateral by the Fund may be delayed or limited.

NOTE B

Advisory, Administrative Fees and Other Transactions with Affiliates

Under the terms of an investment advisory agreement, the Fund pays the Adviser a monthly advisory fee in an amount equal to the sum of 1/12th of .30 of 1% of the Fund's average weekly net assets up to \$250 million, 1/12th of .25 of 1% of the Fund's average weekly net assets in excess of \$250 million, and 5.25% of the Fund's daily gross income (i.e., income other than gains from the sale of securities and foreign currency transactions or gains realized from options and futures contracts less interest on money borrowed by the Fund) accrued by the Fund during the month (the "Income Component"). However, such monthly advisory fee shall not exceed in the aggregate 1/12th of 1% of the Fund's average weekly net assets during the month (approximately 1% on an annual basis). Please see the Subsequent Events Note for additional information regarding the advisory

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

fee.

Under the terms of a Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. ("AGIS"), a wholly-owned subsidiary of the Adviser, the Fund reimburses AGIS for costs relating to servicing phone inquiries on behalf of the Fund. During the year ended December 31, 2004, the Fund reimbursed AGIS \$7,850 for such costs.

For the period January 1, 2004 through June 30, 2004, under the terms of an Administrative Agreement, the Fund pays its Administrator, UBS Global Asset Management (US) Inc. ("UBS Global AM"), a monthly fee equal to the annual

28 o ACM INCOME FUND

Notes to Financial Statements

rate of .18 of 1% of the Fund's average weekly net assets up to \$100 million, .16 of 1% of the Fund's next \$200 million of average weekly net assets and .15 of 1% of the Fund's average weekly net assets in excess of \$300 million. For the period July 1, 2004 through December 31, 2004, the Fund paid UBSGlobal AM .02 of 1% of the Fund's average weekly net assets. Such fee is accrued daily and paid monthly. UBS Global AM is an indirect wholly-owned asset management subsidiary of UBS AG. UBS Global AM prepares financial and regulatory reports for the Fund and provides other administrative services.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended December 31, 2004 were as follows:

	Purchases =====	Sales =====
Investment securities (excluding U.S. government securities)	\$1,211,647,381	\$1,311,621,896
U.S. government securities	2,668,698,289	2,507,377,373

The cost of investments for federal income tax purposes, gross unrealized appreciation and unrealized depreciation (excluding foreign currency contracts, futures contracts, written options and swap contracts) are as follows:

Cost	\$2,750,302,101 =====
Gross unrealized appreciation	\$ 175,049,726
Gross unrealized depreciation	(38,621,062) -----
Net unrealized appreciation	\$ 136,428,664 =====

1. Financial Futures Contracts

The Fund may buy or sell financial futures contracts for the purpose of hedging its portfolio against adverse affects of anticipated movements in the market. The Fund bears the market risk that arises from changes in the value of these financial instruments and the imperfect correlation between movements in the

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

price of the future contracts and movements in the price of the securities hedged or used for cover.

At the time the Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. Risks may arise from the potential inability of a counterparty to meet the terms of the contract. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

ACM INCOME FUND o 29

Notes to Financial Statements

2. Forward Exchange Currency Contracts

The Fund may enter into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchase and sales commitments denominated in foreign currencies. A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract would be included in net realized gain or loss on foreign currency transactions.

Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund.

The Fund's custodian will place and maintain cash not available for investment or other liquid assets in a separate account of the Fund having a value at least equal to the aggregate amount of the Fund's commitments under forward exchange currency contracts entered into with respect to position hedges.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

3. Option Transactions

For hedging and investment purposes, the Fund may purchase and write (sell) put and call options on U.S. and foreign government securities and foreign currencies that are traded on U.S. and foreign securities exchanges and over-the-counter markets.

The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commis-

30 o ACM INCOME FUND

Notes to Financial Statements

sions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

Transactions in written options for the year ended December 31, 2004, were as follows:

	Number of Contracts (000)	Premiums Received
	=====	=====
OPTIONS OUTSTANDING AT DECEMBER 31, 2003	-0-	\$ -0-
Options written	200,667	1,072,282
Options terminated in closing purchase transactions	(29,605)	(426,216)
Options expired	(159,507)	(479,228)
	-----	-----
OPTIONS OUTSTANDING AT DECEMBER 31, 2004	11,555	\$ 166,838
	=====	=====

4. Swap Agreements

The Fund may enter into swaps on sovereign debt obligations to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

As of January 1, 2004, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standard Board Statement No. 133.

ACM INCOME FUND o 31

Notes to Financial Statements

The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Prior to January 1, 2004, these interim payments were reflected within interest income/expense in the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/ depreciation of investments.

The Fund may enter into credit default swaps. The Fund may purchase credit protection on the referenced obligation of the credit default swap ("Buy Contract") or provide credit protection on the referenced obligation of the credit default swap ("Sale Contract"). A sale/(buy) in a credit default swap provides upon the occurrence of a credit event, as defined in the swap agreement, for the Fund to buy/(sell) from/(to) the counterparty at the notional amount (the "Notional Amount") and receive/(deliver) the principal amount of the referenced obligation. If a credit event occurs, the maximum payout amount for a Sale Contract is limited to the Notional Amount of the swap contract ("Maximum Payout Amount"). During the term of the swap agreement, the Fund receives/(pays) semi-annual fixed payments from/(to) the respective counterparty, calculated at the agreed upon interest rate applied to the Notional Amount. These interim payments are recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities.

Credit default swaps may involve greater risks than if a Fund had invested in the referenced obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund is a buyer and no credit event occurs, it will lose its investment. In addition, if the Fund is a seller and a credit event occurs, the value of the referenced obligation received by the Fund coupled with the periodic payments previously received, may be less than the Maximum Payout Amount it pays to the buyer, resulting in a loss to the Fund.

At December 31, 2004, the Fund had Sale Contracts outstanding with Maximum Payout Amounts aggregating \$21,785,000, with net unrealized appreciation of \$737,369 and terms ranging from 1 year to 10 years, as reflected in the portfolio of investments.

In certain circumstances, the Fund may hold Sale Contracts on the same referenced obligation and with the same counterparty it has purchased credit protection, which may reduce its obligation to make payments on Sale Contracts,

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

if a credit event occurs. The Fund had Buy Contracts outstanding with a Notional Amount of \$5,260,000 with respect to the same referenced obligations and same counterparties of certain Sale Contracts outstanding, which reduced its obligation to make payments on Sale Contracts to \$16,525,000 as of December 31, 2004.

32 o ACM INCOME FUND

Notes to Financial Statements

5. Dollar Rolls

The Fund may enter into dollar rolls. Dollar rolls involve sales by the Fund of securities for delivery in the current month and the Fund's simultaneously contracting to repurchase substantially similar (same type and coupon) securities on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase (often referred to as the "drop") as well as by the interest earned on the cash proceeds of the initial sale. Dollar rolls involve the risk that the market value of the securities the Fund is obligated to repurchase under the agreement may decline below the repurchase price. Dollar rolls are speculative techniques and may be considered to be borrowings by the Fund.

6. Reverse Repurchase Agreements

Under a reverse repurchase agreement, the Fund sells securities and agrees to repurchase them at a mutually agreed upon date and price. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing liquid assets having a value at least equal to the repurchase price.

For the year ended December 31, 2004, the average amount of reverse repurchase agreements outstanding was \$489,131,264 and the daily weighted average annual interest rate was 1.24%.

NOTE D

Capital Stock

There are 300,000,000 shares of \$.01 par value common stock authorized of which 228,402,531 shares were issued and outstanding at December 31, 2004. During the years ended December 31, 2004 and December 31, 2003, the Fund issued 1,328,765 and 1,349,486 shares, respectively, in connection with the Fund's dividend reinvestment plan.

NOTE E

Securities Lending

The Fund has entered into a securities lending agreement with AG Edwards & Sons, Inc. (the "Lending Agent"). Under the terms of the agreement, the Lending Agent, on behalf of the Fund, administers the lending of portfolio securities to certain broker-dealers. In return, the Fund receives fee income from the lending transactions or it retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive dividends or interest on the securities loaned. Unrealized gain or loss on the value of

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

the securities loaned that may occur during the term of the loan will be reflected in the accounts of the Fund. All loans are continuously secured by collateral exceeding the value of the securities loaned. All collateral consists of either cash or U.S. Government securities. The Lending Agent may invest the cash collateral received in accordance with the investment restrictions of the Fund in one or more of the following investments: U.S. Government or U.S. Government agency obligations, bank obligations, corporate debt obligations, asset-backed

ACM INCOME FUND o 33

Notes to Financial Statements

securities, structured products, repurchase agreements and an eligible money market fund. The Lending Agent will indemnify the Fund for any loss resulting from a borrower's failure to return a loaned security when due. As of December 31, 2004, the Fund had loaned securities with a value of \$37,955,603 and received cash collateral of \$39,998,940, which was invested in a money market fund as included in the accompanying portfolio of investments. For the year ended December 31, 2004, the Fund earned fee income of \$290,196, which is included in interest income in the accompanying statement of operations.

NOTE F

Bank Borrowing

The Fund participated in a credit facility for a commercial paper asset securitization program with Societe Generale ("SG") as Administrative Agent, and Barton Capital Corporation ("Barton") as lender. The credit facility has a maximum limit of \$400 million. Under the SG Program, Barton will fund advances to the Fund through the issuance of commercial paper rated A-1+ by Standard & Poor's Ratings Services and P-1 by Moody's Investors Service, Inc. The collateral value must be at least 171% of outstanding borrowings. The borrowings under the SG program are secured by the pledging of the Fund's portfolio securities as collateral. The interest rate on the Fund's borrowings is based on the interest rate carried by the commercial paper. The weighted average annual interest rate was 1.46% and the average borrowing was \$400,000,000 for the year ended December 31, 2004. At December 31, 2004, the interest rate in effect was 2.31% and the amount of borrowings outstanding was \$400,000,000.

NOTE G

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Foreign Securities Risk--Investing in securities of foreign companies or foreign governments involves special risks which include changes in foreign exchange rates and the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies or foreign governments and their markets may be less liquid and their prices more volatile than those of comparable United States companies or the United States government.

34 o ACM INCOME FUND

Notes to Financial Statements

The Fund invests in sovereign debt obligations of countries that are considered emerging market countries at the time of purchase. Therefore, the Fund is susceptible to governmental factors and economic and debt restructuring developments adversely affecting the economies of these emerging market countries. In addition, these debt obligations may be less liquid and subject to greater volatility than debt obligations of more developed countries.

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

NOTE H

Distributions to Shareholders

The tax character of distributions paid during the fiscal years ended December 31, 2004 and December 31, 2003 were as follows:

	2004 =====	2003 =====
Distributions paid from:		
Ordinary income	\$ 177,629,178	\$ 195,843,523
	-----	-----
Total taxable distributions	177,629,178	195,843,523
Tax return of capital	-0-	-0-
	-----	-----
Total distributions paid	\$ 177,629,178	\$ 195,843,523
	=====	=====

As of December 31, 2004, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Accumulated capital and other losses	\$ (378,567,879) (a)
Unrealized appreciation/(depreciation)	137,035,927 (b)

Total accumulated earnings/(deficit)	\$ (241,531,952)
	=====

(a) On December 31, 2004, the Fund had a net capital loss carryforward of \$378,564,547 of which \$116,390,821 expires in the year 2006, \$67,513,083 expires in the year 2007, \$8,878,672 expires in the year 2008, \$48,113,872 expires in the year 2009 and \$137,668,099 expires in the year 2010. To the

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

extent future capital gains are offset by capital loss carryforwards, such gains will not be distributed. Based on certain provisions in the Internal Revenue Code, various limitations regarding the future utilization of these carryforwards, brought forward as a result of the Fund's merger with ACM Government Securities Fund and ACM Government Spectrum Fund, may apply. During the fiscal year, the Fund utilized capital loss carryforwards of \$35,897,321. For the year ended December 31, 2004, the Fund deferred losses on straddles of \$3,332.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premium, the realization for tax purposes of unrealized gains and losses on certain derivative instruments and the difference between book and tax treatment of swap income.

ACM INCOME FUND o 35

Notes to Financial Statements

During the current fiscal year, permanent differences primarily due to the tax treatment of foreign currency gains and losses, tax treatment of swap income, tax treatment of paydown losses, tax treatment of bond premium and distributions in excess of net investment income, resulted in a net decrease in distributions in excess of net investment income, a net increase in accumulated net realized loss on investment and foreign currency transactions and a net decrease to additional paid-in capital. This reclassification had no effect on net assets.

NOTE I

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual fund cases involving market and late trading in the District of Maryland. Management of the Adviser believes that these private lawsuits are not likely to have a material adverse

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

effect on the results of operations or financial condition of the Fund.

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuance dated September 1, 2004 ("NYAG Order"). Among the key provisions of these agreements are the following:

36 o ACM INCOME FUND

Notes to Financial Statements

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

The Adviser and approximately twelve other investment management firms were publicly mentioned in connection with the settlement by the SEC of charges that an unaffiliated broker/dealer violated federal securities laws relating to its receipt of compensation for selling specific mutual funds and the disclosure of such compensation. The SEC has indicated publicly that, among other things, it is considering enforcement action in connection with mutual funds' disclosure of such arrangements and in connection with the practice of considering mutual fund sales in the direction of brokerage commissions from fund portfolio transactions. The SEC has issued subpoenas to the Adviser in connection with this matter and the Adviser has provided documents and other information to the SEC and is cooperating fully with its investigation.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

defendants. The Fund was not named as a nominal defendant in the Aucoin

ACM INCOME FUND o 37

Notes to Financial Statements

Complaint. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by an alleged shareholder of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, numerous additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants, and others may be filed.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

NOTE J

Subsequent Events

Effective January 1, 2005, UBS Global AM resigned as Administrator. Since January 1, 2005, Princeton Administrators, L.P. has been acting as Administrator for the Fund pursuant to the terms of an Administrative agreement for a fee equal to .02 of 1% of the Fund's average weekly net assets.

Effective February 11, 2005, the terms of the Advisory Agreement were amended so that the Income Component of the advisory fee was reduced to 4.75% of the Fund's daily gross income, as described in Note B, and so that the monthly advisory fee shall not exceed in the aggregate 1/12th of .95% of the Fund's average weekly net assets during the month (approximately .95% on an annual basis).

ACM INCOME FUND o 39

Financial Highlights

(a) As of January 1 2004, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however prior to January 1 2004, these interim payments were reflected within interest income/expense on the statement of operations. The effect of this change for the year ended December 31, 2004, was to decrease net investment income per share and increase net realized and unrealized gain (loss) on investment transactions. The effect on the per share amounts was less than \$0.005. The ratio of net investment income to average net assets was decreased by 0.03%.

(b) As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide Audits of Investment Companies, and began amortizing premium on debt securities for financial reporting purposes only. The effect of this change for the year ended December 31, 2001, was to decrease net investment income per share by \$.05, decrease net realized and unrealized loss on investment transactions per share by \$.05, and decrease the ratio of net investment income to average net assets from 9.92% to 9.33%. Per share, ratios and supplemental data for periods prior to January 1, 2001 have not been restated to reflect this change in presentation.

(c) Based on average shares outstanding.

(d) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total investment return calculated for a period of less than one year is not annualized.

(e) Net of interest expense of .68%, .57%, .61%, 1.13% and 1.35%, respectively, on borrowings (see Notes C and F).

40 o ACM INCOME FUND

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Report of Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of ACM Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of ACM Income Fund, Inc. (the "Fund"), including the schedule of investments, as of December 31, 2004, and the related statements of operations and cash flows for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with the custodian and others. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the ACM Income Fund, Inc. at December 31, 2004, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

ACM INCOME FUND o 41

Additional Information

ADDITIONAL INFORMATION
(unaudited)

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Shareholders whose shares are registered in their own names may elect to be participants in the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), pursuant to which dividends and capital gain distributions to shareholders will be paid in or reinvested in additional shares of the Fund. Equiserve Trust Company, N.A. (the "Agent") will act as agent for participants under the Plan. Shareholders whose shares are held in the name of a broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan.

If the Board declares an income distribution or determines to make a capital gain distribution payable either in shares or in cash, as holders of the Common Stock may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock of the Fund valued as follows:

(i) If the shares of Common Stock are trading at net asset value or at a premium above net asset value at the time of valuation, the Fund will issue new shares at the greater of net asset value or 95% of the then current market price.

(ii) If the shares of Common Stock are trading at a discount from net asset value at the time of valuation, the Agent will receive the dividend or distribution in cash and apply it to the purchase of the Fund's shares of Common Stock in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made on or shortly after the payment date for such dividend or distribution and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with Federal securities laws. If, before the Agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average purchase price per share paid by the Agent may exceed the net asset value of the Fund's shares of Common Stock, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund.

The Agent will maintain all shareholders' accounts in the Plan and furnish written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Agent in non-certificate form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

There will be no charges with respect to shares issued directly by the Fund to satisfy the dividend reinvestment requirements. However, each participant will pay a pro-rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account will be the average cost, including brokerage commissions, of any shares purchased in the open market plus the cost of any shares issued by the Fund.

42 o ACM INCOME FUND

Additional Information

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends and distributions.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such dividend or distribution. The Plan may also be amended or terminated by the Agent on at least 90 days written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Agent at Equiserve Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.

Since the filing of the most recent amendment to the Fund's registration statement with the Securities and Exchange Commission, there have been (i) no material changes in the Fund's investment objectives or policies, (ii) no changes to the Fund's charter or by-laws that would delay or prevent a change of control of the Fund's, (iii) no material changes in the principal risk factors associated with investment in the Fund.

- (1) Member of the Audit Committee and the Governance and Nominating Committee.
- (2) Messrs. DeNoon and Peebles are the persons primarily responsible for the day-to-day management of the Fund's investment portfolio.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase from time to time at market prices shares of its Common Stock in the open market.

This report, including the financial statements herein, is transmitted to the shareholders of ACM Income Fund for their information. The financial information included herein is taken from the records of the Fund. This is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in this report.

Annual Certifications - As required, on April 27, 2004, the Fund submitted to the New York Stock Exchange ("NYSE") the annual certification of the Fund's Chief Executive Officer certifying that he is not aware of any violation of the NYSE's Corporate Governance listing standards. Subsequently, the Fund notified the NYSE that it had determined that a member of the Fund's Audit Committee was an "interested person," as defined in the 1940 Act, of the Fund's Adviser from March 25, 2004 through October 21, 2004, which was inconsistent with then applicable audit committee composition requirements. The Fund also has included the certifications of the Fund's Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the Fund's Form N-CSR filed with the Securities and Exchange Commission for the annual period.

Summary of General Information

SUMMARY OF GENERAL INFORMATION

ACM Income Fund Shareholder Information

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 426-5523. The Fund also distributes its daily net asset value to various financial publications or independent organizations such as Lipper Inc., Morningstar, Inc. and Bloomberg.

Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of The Wall Street Journal under the designation "ACM IncFd." The Fund's NYSE trading symbol is "ACG." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal and each Sunday in The New York Times and other newspapers in a table called "Closed-End Bond Funds."

Dividend Reinvestment Plan

A Dividend Reinvestment Plan provides automatic reinvestment of dividends and capital gains distributions in additional Fund shares. The Plan also allows you to make optional cash investments in Fund Shares through the Plan Agent. If you wish to participate in the Plan and your shares are held in your name, simply complete and mail the enrollment form in the brochure. If your shares are held in the name of your brokerage firm, bank or other nominee, you should ask them whether or how you can participate in the Plan.

For questions concerning shareholder account information, or if you would like a brochure describing the Dividend Reinvestment Plan, please call Equiserve Trust Company, N.A. at (800) 219-4218.

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer and principal accounting officer. A copy of the registrant's code of ethics is filed herewith as Exhibit 11(a)(1).

(b) During the period covered by this report, no material amendments were made to the provisions of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, no implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a) above were granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors has determined that independent directors David H. Dievler and William H. Foulk, Jr. qualify as audit committee financial experts.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) - (c) The following table sets forth the aggregate fees billed by the independent registered public accounting firm Ernst & Young LLP, for the Fund's last two fiscal years for professional services rendered for: (i) the audit of the Fund's annual financial statements included in the Fund's annual report to stockholders; (ii) assurance and related services that are reasonably related to the performance of the audit of the Fund's financial statements and are not reported under (i), which include advice and education on accounting and auditing issues and quarterly press release review, and preferred stock

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

maintenance testing (for those Funds that issue preferred stock); and (iii) tax compliance, tax advice and tax return preparation.

		Audit Fees	Audit-Related Fees	Tax Fees
		-----	-----	-----
ACM Income Fund, Inc.	2003	\$55,000	\$12,500	\$18,000
	2004	\$58,000	\$10,030	\$17,880

(d) Not applicable.

(e) (1) Beginning with audit and non-audit service contracts entered into on or after May 6, 2003, the Fund's Audit Committee policies and procedures require the pre-approval of all audit and non-audit services provided to the Fund by the Fund's independent registered public accounting firm. The Fund's Audit Committee policies and procedures also require pre-approval of all audit and non-audit services provided to the Adviser and Service Affiliates to the extent that these services are directly related to the operations or financial reporting of the Fund.

(e) (2) All of the amounts for Audit Fees, Audit-Related Fees and Tax Fees in the table under Item 4 (a) - (c) are for services pre-approved by the Fund's Audit Committee.

(f) Not applicable.

(g) The following table sets forth the aggregate non-audit services provided to the Fund, the Fund's Adviser and entities that control, are controlled by or under common control with the Adviser that provide ongoing services to the Fund, which include conducting an annual internal control report pursuant to Statement on Auditing Standards No. 70 ("Service Affiliates"):

		All Fees for Non-Audit Services Provided to the Portfolio, the Adviser and Service Affiliates	Total Amount of Foregoing Column Pre- approved by the Audit Committee (Portion Comprised of Audit Related Fees) (Portion Comprised of Tax Fees)
		-----	-----
ACM Income Fund, Inc.	2003	\$929,765	\$392,500
			\$374,500
			\$18,000
	2004	\$985,628	\$102,910
			\$85,030
			\$17,880

(h) The Audit Committee of the Fund has considered whether the provision of any non-audit services not pre-approved by the Audit Committee provided by the Fund's independent registered public accounting firm to the Adviser and Service Affiliates is compatible with maintaining the auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

The audit committee members are as follows:

Ruth Block	Michael J. Downey
David H. Dievler	William H. Foulk, Jr
John H. Dobkin	Dr. James M. Hester

ITEM 6. SCHEDULE OF INVESTMENTS.

Please see Schedule of Investments contained in the Report to Shareholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant has adopted the following proxy voting policies and procedures of its investment adviser, Alliance Capital Management L.P.

ALLIANCE CAPITAL MANAGEMENT L.P.

Statement of Policies and Procedures for Proxy Voting

Introduction

As a registered investment adviser, Alliance Capital Management L.P. ("Alliance Capital", "we" or "us") has a fiduciary duty to act solely in the best interests of our clients. We recognize that this duty requires us to vote client securities in a timely manner and make voting decisions that are in the best interests of our clients. Consistent with these obligations, we will disclose our clients' voting records only to them and as required by mutual fund vote disclosure regulations. In addition, the proxy committees may, after careful consideration, choose to respond to surveys regarding past votes.

This statement is intended to comply with Rule 206(4)-6 of the Investment Advisers Act of 1940. It sets forth our policies and procedures for voting proxies for our discretionary investment advisory clients, including investment companies registered under the Investment Company Act of 1940. This statement applies to Alliance Capital's growth and value investment groups investing on behalf of clients in both US and non-US securities.

Proxy Policies

This statement is designed to be responsive to the wide range of proxy voting subjects that can have a significant effect on the investment value of the securities held in our clients' accounts. These policies are not exhaustive due to the variety of proxy voting issues that we may be required to consider. Alliance Capital reserves the right to depart from these guidelines in order to avoid voting decisions that we believe may be contrary to our clients' best interests. In reviewing proxy issues, we will apply the following general policies:

Corporate Governance: Alliance Capital's proxy voting policies recognize the importance of good corporate governance in ensuring that management and the board of directors fulfill their obligations to the shareholders. We favor proposals promoting transparency and accountability within a company. We will vote for proposals providing for equal access to the proxy materials so that shareholders can express their views on various proxy issues. We also support the appointment of a majority of independent directors on key committees and separating the positions of chairman and chief executive officer.

Elections of Directors: Unless there is a proxy fight for seats on the Board or

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

we determine that there are other compelling reasons for withholding votes for directors, we will vote in favor of the management proposed slate of directors. That said, we believe that directors have a duty to respond to shareholder actions that have received significant shareholder support. We may withhold votes for directors that fail to act on key issues such as failure to implement proposals to declassify boards, failure to implement a majority vote requirement, failure to submit a rights plan to a shareholder vote or failure to act on tender offers where a majority of shareholders have tendered their shares. In addition, we will withhold votes for directors who fail to attend at least seventy-five percent of board meetings within a given year without a reasonable excuse. Finally, we may withhold votes for directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement.

Appointment of Auditors: Alliance Capital believes that the company remains in the best position to choose the auditors and will generally support management's recommendation. However, we recognize that there may be inherent conflicts when a company's independent auditor performs substantial nonaudit related services for the company. While we will recognize that there may be special circumstances that could lead to high non-audit fees in some years, we would normally consider non-audit fees in excess of 70% to be disproportionate. Therefore, we may vote against the appointment of auditors if the fees for non-audit related services exceed 70% of the total audit fees paid by the company or there are other reasons to question the independence of the company's auditors.

Changes in Legal and Capital Structure: Changes in a company's charter, articles of incorporation or by-laws are often technical and administrative in nature. Absent a compelling reason to the contrary, Alliance Capital will cast its votes in accordance with the company's management on such proposals. However, we will review and analyze on a case-by-case basis any non-routine proposals that are likely to affect the structure and operation of the company or have a material economic effect on the company. For example, we will generally support proposals to increase authorized common stock when it is necessary to implement a stock split, aid in a restructuring or acquisition or provide a sufficient number of shares for an employee savings plan, stock option or executive compensation plan. However, a satisfactory explanation of a company's intentions must be disclosed in the proxy statement for proposals requesting an increase of greater than one hundred percent of the shares outstanding. We will oppose increases in authorized common stock where there is evidence that the shares will be used to implement a poison pill or another form of anti-takeover device, or if the issuance of new shares could excessively dilute the value of the outstanding shares upon issuance.

Corporate Restructurings, Mergers and Acquisitions: Alliance Capital believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, we will analyze such proposals on a case-by-case basis, weighing heavily the views of the research analysts that cover the company and the investment professionals managing the portfolios in which the stock is held.

Proposals Affecting Shareholder Rights: Alliance Capital believes that certain fundamental rights of shareholders must be protected. We will generally vote in favor of proposals that give shareholders a greater voice in the affairs of the company and oppose any measure that seeks to limit those rights. However, when analyzing such proposals we will weigh the financial impact of the proposal against the impairment of shareholder rights.

Anti-Takeover Measures: Alliance Capital believes that measures that impede takeovers or entrench management not only infringe on the rights of shareholders but may also have a detrimental effect on the value of the company. We will generally oppose proposals, regardless of whether they are

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

advanced by management or shareholders, the purpose or effect of which is to entrench management or dilute shareholder ownership. Conversely, we support proposals that would restrict or otherwise eliminate antitakeover measures that have already been adopted by corporate issuers. For example, we will support shareholder proposals that seek to require the company to submit a shareholder rights plan to a shareholder vote. We will evaluate, on a case-by-case basis, proposals to completely redeem or eliminate such plans. Furthermore, we will generally oppose proposals put forward by management (including blank check preferred stock, classified boards and supermajority vote requirements) that appear to be intended as management entrenchment mechanisms.

Executive Compensation: Alliance Capital believes that company management and the compensation committee of the board of directors should, within reason, be given latitude to determine the types and mix of compensation and benefit awards offered. Whether proposed by a shareholder or management, we will review proposals relating to executive compensation plans on a case-by-case basis to ensure that the long-term interests of management and shareholders are properly aligned. We will analyze the proposed plans to ensure that shareholder equity will not be excessively diluted, the option exercise price is not below market price on the date of grant and an acceptable number of employees are eligible to participate in such programs. We will generally oppose plans that permit repricing of underwater stock options without shareholder approval. Other factors such as the company's performance and industry practice will generally be factored into our analysis. We will support proposals to submit severance packages that do not exceed 2.99 times the sum of an executive officer's base salary plus bonus that are triggered by a change in control to a shareholder vote. Finally, we will support shareholder proposals requiring companies to expense stock options because we view them as a large corporate expense.

Social and Corporate Responsibility: Alliance Capital will review and analyze on a case-by-case basis proposals relating to social, political and environmental issues to determine whether they will have a financial impact on shareholder value. We will vote against proposals that are unduly burdensome or result in unnecessary and excessive costs to the company. We may abstain from voting on social proposals that do not have a readily determinable financial impact on shareholder value.

Proxy Voting Procedures

Proxy Voting Committees

Our growth and value investment groups have formed separate proxy voting committees to establish general proxy policies for Alliance Capital and consider specific proxy voting matters as necessary. These committees periodically review these policies and new types of corporate governance issues, and decide how we should vote on proposals not covered by these policies. When a proxy vote cannot be clearly decided by an application of our stated policy, the proxy committee will evaluate the proposal. In addition, the committees, in conjunction with the analyst that covers the company, may contact corporate management and interested shareholder groups and others as necessary to discuss proxy issues. Members of the committee include senior investment personnel and representatives of the Legal and Compliance Department. The committees may also evaluate proxies where we face a potential conflict of interest (as discussed below). Finally, the committees monitor adherence to these policies.

Conflicts of Interest

Alliance Capital recognizes that there may be a potential conflict of interest when we vote a proxy solicited by an issuer whose retirement plan we manage, or we administer, who distributes Alliance Capital sponsored mutual funds, or with whom we or an employee has another business or personal relationship that may

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

affect how we vote on the issuer's proxy. Similarly, Alliance may have a potential material conflict of interest when deciding how to vote on a proposal sponsored or supported by a shareholder group that is a client. We believe that centralized management of proxy voting, oversight by the proxy voting committees and adherence to these policies ensures that proxies are voted with only our clients' best interests in mind. That said, we have implemented additional procedures to ensure that our votes are not the product of a material conflict of interests, including: (i) on an annual basis, the proxy committees will take reasonable steps to evaluate the nature of Alliance Capital's and our employees' material business and personal relationships (and those of our affiliates) with any company whose equity securities are held in client accounts and any client that has sponsored or has material interest in a proposal upon which we will be eligible to vote; (ii) requiring anyone involved in the decision making process to disclose to the chairman of the appropriate proxy committee any potential conflict that they are aware of (including personal relationships) and any contact that they have had with any interested party regarding a proxy vote; (iii) prohibiting employees involved in the decision making process or vote administration from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties; and (iv) where a material conflict of interests exists, reviewing our proposed vote by applying a series of objective tests and, where necessary, considering the views of a third party research service to ensure that our voting decision is consistent with our clients' best interests. Because under certain circumstances Alliance Capital considers the recommendation of third party research services, the proxy committees will take reasonable steps to verify that any third party research service is in fact independent based on all of the relevant facts and circumstances. This includes reviewing the third party research service's conflict management procedures and ascertaining, among other things, whether the third party research service (i) has the capacity and competency to adequately analyze proxy issues; and (ii) can make such recommendations in an impartial manner and in the best interests of our clients.

Proxies of Certain Non-US Issuers

Proxy voting in certain countries requires "share blocking." Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting (usually one-week) with a designated depository. During this blocking period, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients' custodian banks. Alliance Capital may determine that the benefit to the client of exercising the vote does not outweigh the cost of voting, which is not being able to transact in the shares during this period. Accordingly, if share blocking is required we may abstain from voting those shares.

In addition, voting proxies of issuers in non-US markets may give rise to a number of administrative issues that may prevent Alliance Capital from voting such proxies. For example, Alliance Capital may receive meeting notices without enough time to fully consider the proxy or after the cut-off date for voting. Other markets require Alliance Capital to provide local agents with power of attorney prior to implementing Alliance Capital's voting instructions. Although it is Alliance Capital's policy to seek to vote all proxies for securities held in client accounts for which we have proxy voting authority, in the case of non-US issuers, we vote proxies on a best efforts basis.

Proxy Voting Records

Clients may obtain information about how we voted proxies on their behalf by contacting their Alliance Capital administrative representative. Alternatively, clients may make a written request for proxy voting information to: Mark R. Manley, Senior Vice President & Chief Compliance Officer, Alliance Capital Management L.P., 1345 Avenue of the Americas, New York, NY 10105.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

There have been no purchases of equity securities by the Fund or by affiliated parties for the reporting period.

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to this item.

ITEM 10. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-2(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no significant changes in the registrant's internal controls over financial reporting that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

ITEM 11. EXHIBITS.

The following exhibits are attached to this Form N-CSR:

EXHIBIT NO.	DESCRIPTION OF EXHIBIT
