Yes No

Indicate by check mark whether the registrant by furnishing the information contained in this form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-

Enclosure: A press release dated April 15, 2009 announcing that the Supervisory Board of STMicroelectronics resolves to submit to the Annual General Meeting a proposal to distribute an annual cash dividend of \$0.12 per share payable in four quarterly installments.

PR No.: C2599C

STMicroelectronics Supervisory Board Resolves to Submit to the Company's Annual General Meeting a Proposal to Distribute an Annual Cash Dividend of \$0.12 per Share Payable in Four Quarterly Installments

Geneva, April 15, 2009 – The Supervisory Board of STMicroelectronics (NYSE:STM) today approved a proposal to submit to the forthcoming 2009 Annual General Meeting of Shareholders the distribution of a cash dividend of \$0.12 per outstanding share of the Company's common stock, payable in four quarterly installments from 2nd quarter 2009 through the 1st quarter 2010. The proposed dividend equals a 2% yield on the Company's share price at closing yesterday on the NYSE.

The proposal will be submitted for shareholder approval at the Company's Annual General Meeting, which will be held in Amsterdam on May 20, 2009.

The Company's quarterly dividend of \$0.03 per share, as proposed, compares to a quarterly dividend of \$0.09 per share paid in the last twelve months.

“One of our key priorities for the Company in 2009 is to maintain a solid financial foundation and to further strengthen our Company for the long-term. As we navigate the current macro-economic environment, we have decided to maintain our dividend policy involving the distribution of a cash dividend, but are proposing, on a temporary basis, to reduce its level, reflecting today's unstable market,” STMicroelectronics President and Chief Executive Officer Carlo Bozotti said.

Some of the statements contained in this release that are not historical facts are statements of future expectations and other forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933 or Section 21E of the Securities Exchange Act of 1934, each as amended) based on management's current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those in such statements. Such forward-looking statements can be identified by the use of forward-looking terminology such as “believes,” “may,” “will,” “should,” “would be” or “anticipates” or similar expressions or negative thereof or other variations thereof, or by discussions of strategy, plans or intentions. Some of the risk factors we face are set forth and are discussed in more detail in “Item 3. Key Information—Risk Factors” included in our Annual Report on Form 20-F for the year ended December 31, 2007, as filed with the SEC on March 3, 2008 and in our press release dated January

27, 2009 filed with the SEC under form 6-K on January 28th. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in this release as anticipated, believed or expected. We do not intend, and do not assume any obligation, to update any information or forward-looking statements set forth in this release to reflect subsequent events or circumstances.

Unfavorable changes in the above or other factors listed under “Risk Factors” from time to time in our SEC filings, including our Form 20-F, could have a material adverse effect on our results of operations or financial condition.

About STMicroelectronics

STMicroelectronics is a global leader in developing and delivering semiconductor solutions across the spectrum of microelectronics applications. An unrivalled combination of silicon and system expertise, manufacturing strength, Intellectual Property (IP) portfolio and strategic partners positions the Company at the forefront of System-on-Chip (SoC) technology and its products play a key role in enabling today’s convergence markets.
