PRESS RELEASE

Board of Directors examines

results as of 31 March, 2007

Revenues and margins in line with targets for 2007

Net income up 4.2% compared with Q1 2006

Industrial investments up around 14% compared with Q1 2006

Over 10 million broadband customers in Europe (7.1 million in Italy, 3.1 million elsewhere in Europe)

33.6 million mobile lines in Italy, of which 4.7 million UMTS

40.4% market share

26.3 million mobile lines in Brazil, confirmed number two market positioning with market share now up to 25.8%

Strategic Committee, Internal Audit and Corporate Governance Committee and Remuneration Committee appointed

New issues under the *Euro Medium Term Note* programme authorized for up to a 4 billion euro

TELECOM ITALIA GROUP

**REVENUES: 7,540 MILLION EURO (UP 0.8% COMPARED WITH THE FIRST QUARTER OF 2006);
ORGANIC GROWTH +1.1% (ANNUAL TARGET +1.0%/ +2.0%)**

**EBITDA: 3,154 MILLION EURO (DOWN 4.3% COMPARED WITH THE FIRST QUARTER OF 2006);
ORGANIC CHANGE -3.9%**

**ORGANIC EBITDA MARGIN EQUAL TO 42.3% (-2.2pp COMPARED WITH THE THREE MONTHS OF
2006), ANNUAL TARGET BETWEEN -2.5pp/-2.0pp vs. 41.5% FOR THE FULL YEAR 2006**

**EBIT: 1,763 MILLION EURO (DOWN 11.1% COMPARED WITH THE FIRST QUARTER OF 2006);
ORGANIC CHANGE -6.3%**

**ORGANIC EBIT MARGIN EQUAL TO 23.7% (-1.9pp COMPARED WITH THE FIRST QUARTER OF
2006, ANNUAL TARGET -3.0pp/ -2.5pp vs. 24.0% FOR THE FULL YEAR 2006)**

**CONSOLIDATED NET INCOME: 775 MILLION EURO; +4.2% COMPARED WITH THE FIRST
QUARTER OF 2006**

**NET FINANCIAL POSITION AT MARCH 31, 2007 EQUAL TO 37,182 MILLION EURO, DOWN 119
MILLION EURO COMPARED WITH YEAR-END 2006, FOLLOWING 669 MILLION EURO
ACQUISITION OF AOL**

This press release contains alternative performance indicators not contemplated under IFRS accounting standards (EBITDA; EBIT; Organic Difference in Revenues, EBITDA and EBIT; and Net Financial Borrowings). These terms are defined in an appendix.

Milan, May 8, 2007 Today's meeting of the Telecom Italia Board of Directors, chaired by Pasquale Pistorio, examined and adopted the Group's first quarter 2007 report on operations.

TELECOM ITALIA GROUP

The Telecom Italia Group's first quarter 2007 Report has been drafted in compliance with article 82 of the Regulations for Issuers (issued by CONSOB under resolution no. 11971, May 14, 1999, and subsequent amendments), in the format contemplated under Enclosure 3D of the aforementioned regulations; it has not yet been subject to audit.

The financial results of the Telecom Italia Group for the first quarter of 2007 and those of the periods to which they are compared have been calculated according to the International Accounting Standards issued by the International Accounting Standards Board and approved by the European Union (IFRS).

The consolidation area as at March 31, 2007 differs from March 31, 2006 and December 31, 2006 as follows:

- Inclusion of AOL Germany's internet operations (consolidated from March 1, 2007);

- Exclusion of Digital Venezuela (sold in May 2006), previously stated as discontinued or soon-to-be discontinued operations; exclusion of Ruf Gestion (sold in March 2006), exclusion of Eustema (sold in April 2006); exclusion of Telecom Italia Learning Services (sold in July 2006) and of other companies of lesser significance.

In the balance sheet at March 31, 2007 (and in the 2006 balance sheet) Solpart Participações and Brasil Telecom Participações are classified as assets held for sale following the decision to proceed with divestment of the equity interests concerned.

Revenues rose **0.8%** to **7,540 million euro** compared with the first quarter of 2006 (7,482 million euro). Excluding exchange-rate fluctuations (-61 million euro) and changes to the area of consolidation (+36 million euro), **organic growth** was equal to **1.1%** (83 million euro higher). Compared with the same period in 2006, first-quarter 2007 revenues were impacted by a reduction in termination rates that came into effect in the second half of 2006, and from March 2007 by the introduction of the so-called Bersani Law. In compliance with the AGCOM regulator Resolution 417/06/CONS, since January 1, 2007 Telecom Italia has merely supplied billing services for customer calls to Alternative Operators' non-geographical numbers, and is no longer liable for the insolvency risks regarding these receivables. Since this date, interconnection revenues and costs have no longer taken into account traffic generated by such calls; in the first quarter of 2006, such calls generated revenues of 119 million euro to the Domestic Fixed-line accounts (and the entry of a similar figure under costs).

Organic growth in the first quarter of 2007 was spurred by Mobile Brazil BU expansion (up 313 million euro), significantly higher revenues from the European BroadBand business unit (up 62 million euro) generated by customer portfolio growth in France and Germany, and Media business unit revenues, which benefited from higher advertising revenues and increased revenues from Digital Terrestrial.

Breakdown by business sector:

(millions of euro)		Domestic	European BroadBand	Mobile Brazil	Media	Olivetti	Other activities	<i>Cancellations and Adjustments</i>	Consolidated total
Revenues	Q1 2007	6,009	304	1,100	58	83	60	(74)	7,540
	Q1 2006	6,297	204	837	44	94	64	(58)	7,482

EBITDA amounted to **3,154 million euro**, a **-4.3%** change compared with the first quarter of 2006 (down 141 million euro). The **EBITDA margin** for the first quarter of 2007 was **41.8%** (44.0% in Q1 2006). Excluding non-organic changes, the impact of currency fluctuations and changes to the area of consolidation, the organic difference was equal to -3.9% (down 130 million euro). The breakdown is as follows:

(millions of euro)	1st quarter	1st quarter	Change	
	2007	2006	(a-b)	%
	(a)	(b)		
HISTORICAL BASIS EBITDA	3,154	3,295	(141)	(4.3)
Effect of change in the scope of consolidation		1		
Effect of change in exchange rates		(16)		
Non-organic (Income) Expenses	37	41		

Non-recurring (Income) Expenses:	-	9		
<i>Corporate restructuring costs</i>	-	9		
Other non-organic (Income) Expenses:	37	32		
<i>Restructuring costs</i>	37	25		
<i>Other (Income) Expenses, net</i>	-	7		
COMPARABLE EBITDA	3,191	3,321	(130)	(3.9)

The organic EBITDA margin was 42.3% (down 2.2% on the figure of 44.5% registered in Q1 2006, compared with an annual target of between -2.5pp/ -2.0pp compared with the full year 2006 figure of 41.5%).

EBIT corresponded to 1,763 million euro, down 221 million euro compared with the first quarter of 2006 (-11.1%). The organic difference in EBIT was -120 million euro, down -6.3%, as follows:

	1st quarter	1st quarter	Change	
	2007	2006	(a-b)	%
(millions of euro)	(a)	(b)		
HISTORICAL BASIS EBIT	1,763	1,984	(221)	(11.1)
Effect of change in the scope of consolidation		1		
Effect of change in exchange rates		(4)		
Non-organic (Income) Expenses	27	(71)		
Non-organic (Income) Expenses already described under EBITDA	37	41		
Additional non-recurring (Income) Expenses	(10)	(112)		
<i>Gains on sale of properties</i>	(10)	(85)		
<i>Gain on sale of Ruf Gestion</i>	-	(27)		
COMPARABLE EBIT	1,790	1,910	(120)	(6.3)

The EBIT margin was down from 26.5% in the first quarter of 2006 to 23.4% in the first quarter of 2007.

EBIT performance was impacted by:

-

Amortization and depreciation of 1,400 million euro (1,428 million euro in the first quarter of 2006), down 28 million euro. Amortization of intangibles posted a 43 million euro increase for the development of systems and new services,

offset by the effect of currency fluctuations in Brazilian mobile companies. Depreciation of fixed assets was down by 71 million euro: increased investments in developing network and support infrastructure for business were also offset by the effect of currency fluctuations in the Brazilian mobile companies, and by the full review of the amortization and depreciation schedules for fixed-line and mobile network assets undertaken at the end of 2006. Applied to the first-quarter of 2006, the post-review share of amortization and depreciation would have been around 122 million euro.

•

Gains realized on disposals of non-current assets worth 9 million euro. Q1 2006 figures benefited from gains realized on the sale of real estate, after associated expenses, worth a total of 112 million euro.

The **EBIT margin** for the first quarter of 2007 was **23.4%** (26.5% in the first quarter of 2006). Excluding non-organic changes, the impact of currency fluctuations and changes to the area of consolidation, the **organic difference** was equal to -120 million euro (down 6.3% compared with the first quarter of 2006). The organic **EBIT margin** was **23.7%** (down **1.9%** on the **Q1 2006 figure of 25.6%**, against an annual target between **-3.0pp/ -2.5pp on the full year 2006 figure of 24.0%**).

The Q1 2007 **consolidated net result** was **775 million euro** (unchanged before taking minorities into account), corresponding to **4.2% growth** compared with the first quarter of 2006 (744 million euro).

Industrial investment in Q1 2007 totaled **1,160 million euro**, a 135 million euro increase (approximately +14%) on the same period associated predominantly with higher investments in European BroadBand (up 47 million euro) and Brazilian mobile operations (up 53 million euro)

Net financial position at March 31, 2007 amounted to **37,182 million euro** (37,301 million euro at year-end 2006), down 119 million euro. The improved net financial borrowings may be ascribed to positive cash flow from operations, which was sufficient to cover investments and the 669 million euro acquisition of AOL in Germany.

At March 31, 2006 the Group **employed 84,191** people. At December 31, 2006, the Group employed 83,209 people. The 982 increase in headcount is entirely linked to the acquisition of AOL (+ 1,101 employees).

BUSINESS UNIT RESULTS

Telecom Italia Media results for Q1 2007 were published in a press release issued yesterday (May 7, 2007) following the Board meeting called to approve the accounts.

On January 22, 2007, Telecom Italia re-organized its structure to reflect major changes that have taken place in technology, the market and the regulatory environment, and to ensure greater operational flexibility and facilitate the strategic convergence of the company's various business lines (fixed-line communications, mobile communications, broadband internet and media content).

Accounting information is now provided for the following business areas:

-

Domestic

-

European BroadBand

-

Mobile Brazil

-

Media

-

Olivetti

-

Other activities

Specifically:

•

The **Domestic** Business Unit covers fixed-line and mobile telecommunications operations undertaken by Telecom Italia S.p.A. and by the Telecom Italia Sparkle Group, plus associated support operations;

•

The **European BroadBand** Business Unit manages innovative broadband services in France, Germany and Holland;

-
- The **Brazil Mobile, Media** and **Olivetti** Business Units remain essentially unchanged;
-

Other Activities include financial undertakings, international operations not included in other business units (Entel Bolivia), and other less significant companies not closely associated with Telecom Italia Group core business.

DOMESTIC

Revenues of **6,009 million euro** were down 4.6% (down 288 million euro) compared with the first three months of 2006. Considering the same consolidation area and excluding exchange-rate fluctuations, revenues were down 4.5% (down 280 million euro). As noted previously, this result was impacted by lower fixed-line/mobile termination tariffs, application of the so-called Bersani Decree in March 2007, self-regulation of international roaming pricing (as per European Commission recommendations) and, more importantly, by the introduction of new accounting procedures as a result of contractual amendments to Premium service non-geographical numbers (119 million euro).

Fixed-line telecommunications

Fixed line telecommunications revenues amounted to **3,989 million euro**, down 6.9% compared with the first quarter of 2006 (down 297 million euro). Excluding exchange-rate fluctuations, changes in consolidation area and the impact of new accounting procedures following amendments to non-geographical number contracts, revenue growth corresponded to -4.1% (-170 million euro).

Retail Telephony

Revenues from **Retail Telephony** amounted to **2,161 million euro**. Excluding the effects of the above-mentioned non-geographical number contractual amendments, this was a 7.8% reduction on the first quarter of 2006, following a contraction of traffic owing to migration from fixed-line phones to mobiles, alongside changes to the regulatory framework (fixed-line/mobile termination rates) and price pressure, particularly in the Top Clients segment.

Internet

Revenues from the **Internet** unit of **353 million euro**, not including the effects of the aforementioned contractual changes relative to non-geographic numbers, registered **7.6% growth** (up 25 million euro) compared with the first quarter of 2006. This performance was driven by strong and continuing growth in **Broadband revenues**, which **rose 10%** compared with the same period in 2006 (up 30 million euro).

The overall fixed-line **broadband connection portfolio** in Italy totaled **7.1 million connections** at March 31, 2007, of whom **5.9 million are retail customers**. The portfolio has grown by a further **325,000 customers since year-end 2006**.

The company's priority remains on extending flat-rate offerings, which now account for around 53% of the Alice Consumer customer portfolio. The VoIP portfolio grew significantly to 549,000, corresponding to 9.3% of all broadband connections.

Data Business

Data Business revenues of **393 million euro** were down overall by 50 million euro (down 11.3%) compared with the first quarter of 2006. The reduction may be ascribed to increasingly fierce competition for the corporate market, and to a price review of government contracts, particularly for leased lines and traditional data transmission. **ICT services** continued to register dynamic **growth, up 5.2%** (7 million euro) compared with the first quarter of 2006.

Wholesale

Revenues from **wholesale** services amounted to **992 million euro**, an overall **increase of 5%** (up 47 million euro) compared with the first quarter of 2006.

Domestic wholesale revenues **rose 11.3%** to **561 million euro** compared with the first quarter of 2006 (up 57 million euro). **International wholesale** revenues amounted to **431 million euro**, down 2.3% (10 million euro) compared with the first quarter of 2006.

Mobile telecommunications

First-quarter 2007 **revenues** amounted to **2,365 million euro**, essentially in line with the first quarter of 2006 (down 5 million euro). The result was partially impacted by the new termination prices, and by the so-called Bersani Decree, and by self-regulation of international roaming prices (as per European Commission recommendations). Excluding these changes to the regulatory framework, overall Domestic Mobile revenues would have grown by 1.4%, while revenues from services would have risen 2.2% compared with the first quarter of 2006. Furthermore, Domestic Mobile revenues were also impacted by the new termination pricing that came into effect in July 2006.

First quarter 2007 growth was driven by the strong performance of revenues from value added services (**VAS**), which **rose 11.1%** (45 million euro) compared with 2006 to **451 million euro**, spurred on by ongoing innovation of the interactive services offerings portfolio. **VAS revenues accounted for 19.1%** of overall revenues (17.1% in Q1 2006), and **20% of revenues from services** (18.0% in Q1 2006). **Voice** revenues totaling **1,741 million euro** registered growth in outbound traffic (up 1.4%) and a contraction in inbound traffic (down 7.9%), following the introduction of the new terminations prices. Excluding this factor, inbound voice revenues were unchanged compared with 2006. **Revenues from the sale of handsets** fell 15.0% to 91 million euro (16 million euro lower than in the first quarter of 2006).

At March 31, 2007, Telecom Italia supplied around **33.6 million mobile lines (4.7 million using UMTS technology)**, a rise of 3.5% compared to December 31, 2006, and with a **40.4% market share**, in line with 2006 year-end. In the first quarter of 2007, Telecom Italia reached a 42% market share on GSM and UMTS net additions (around 1.1 million lines).

EBITDA for the **Domestic Business Unit** amounted to **2,853 million euro**, down 9.4% (295 million euro) compared with the first quarter of 2006. The **EBITDA margin** was **47.5%** (50.0% for the first quarter of 2006). Compared with 2006, the result was significantly impacted by the different mix of revenues, an increase in competitive pressure in Italy that affected prices and commercial costs, and of course the regulatory effects of the Bersani Decree .

The **organic difference** for EBITDA compared with the first quarter of 2006 was -8.9% (down 283 million euro), as follows:

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBITDA	2.853	3.148	(295)	(9.4)
Effect of change in scope of consolidation		(5)		
Effect of change in exchange rates		(1)		
Non-organic (income) expenses:	36	30		
<i>Corporate restructuring costs</i>		5		
<i>Restructuring costs</i>	36	24		
<i>Other</i>		1		
COMPARABLE EBITDA	2.889	3.172	(283)	(8.9)

The **organic EBITDA margin** corresponded to **48.1%** (down 2.3pp on the 50.4% figure posted for the first quarter of 2006).

EBIT at the Domestic Business Unit amounted to **1,790 million euro**, down 14.0% (291 million euro) compared with the first quarter of 2006. The **EBIT margin** was **29.8%** (33.0% for the first quarter of 2006). The organic change in EBIT corresponded to -10.1% (down 205 million euro) compared with the first quarter of 2006, as follows.

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBIT	1.790	2.081	(291)	
Effect of change in scope of consolidation		(5)		
Effect of change in exchange rates				
Non-organic (income) expenses:	26	(55)		
Non-organic (income) expenses already described under EBITDA	36	30		
Additional non-organic (income) expenses	(10)	(85)		
<i>Gains on sale of properties</i>	(10)	(85)		
COMPARABLE EBIT	1.816	2.021	(205)	(10,1)

The **organic EBIT margin** was **30.2%** (32.1% for the first quarter of 2006).

EBIT was penalized by lower amortization and depreciation (80 million euro) arising predominantly from Telecom Italia's review of the useful life of fixed-line and mobile network assets at the end of 2006. Applied from the start of 2006, the post-review share of amortization and depreciation for the first quarter of 2006 would have been around 122

million euro.

Industrial investment amounted to **867 million euro** (up 17 million euro compared with the same period in 2006). Industrial investment was equal to 14.4% of revenues (13.5% for the first quarter of 2006). Higher investments reflect the Group's ongoing focus on upgrading its network, technologies and services.

The company **employed 66,479** members of staff, down 356 compared with December 31, 2006.

EUROPEAN BROADBAND

Revenues from the European BroadBand Business Unit (France, Germany and Holland), **grew by 49.0%** to **304 million euro (up 100 million euro)** compared with the first quarter of 2006. **Organic growth** (based on a like-for-like consolidation area) totalled **62 million euro (up 25.6%)**. At March 31, 2007, the **broadband customer portfolio** exceeded **3.1 million connections** (around 1.1 million of which were added following the acquisition of AOL Germany). The majority of these customers are on dual/triple play packages.

EBITDA was up **28 million euro to 30 million euro**. The **EBITDA margin** corresponded to **9.9%** (1.0% for the first quarter of 2006). **Organic growth** reached **275%** (up 22 million euro) compared with the first quarter of 2006, broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBITDA	30	2	28	
Effect of change in scope of consolidation		6		
EBITDA COMPARABLE	30	8		
COMPARABLE EBITDA	30	8	22	

EBIT was a negative 31 million euro, **despite a 7 million euro (18.4%) improvement** on the first quarter of 2006. **Organic EBIT** posted **3.1% growth** compared with the first quarter of 2006, broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBIT	(31)	(38)	7	(18,4)
Effect of change in scope of consolidation		6		
COMPARABLE EBIT	(31)	(32)	1	(3,1)

Industrial investment amounted to **142 million euro**, a 47 million euro rise compared with the same period in 2006.

Headcount at March 31, 2007 stood at 4,390. The 1,324 rise on the year-end 2006 figure was essentially a result of the AOL Germany acquisition, which added 1,101 employees.

BRAZIL MOBILE

(2007 euro/real average exchange rate 0.36187)

At March 31, 2007, the Brazilian mobile market reached a sized of 102.2 million lines (54.2% population penetration), compared with 99.9 million lines at year-end 2006 (53.2% penetration). The **TIM Brasil Group** consolidated its position as the **nation s second mobile operator**, with a **market share of 25.8% (26.3 million lines)**, up from 25.4% at year-end 2006.

TIM Brasil Group **consolidated revenues** for the first quarter of 2007 reached 3,040 **million reais**, a **37.4% rise** on the first quarter of 2006. Revenues from services alone increased by 40.8%, driven by strong growth in voice and value added services and significant growth in the customer base (up 25.2% compared with the same period in 2006). Excluding the regulatory changes that came into effect in 2006 (abolition of the Bill and Keep rule), growth would corresponded to 19.1% (20.4% in revenues from services alone).

Consolidated **EBITDA** for Q1 2007 grew by 55.9% to 745 million reais (267 million reais up on the first quarter of 2006). The **EBITDA margin** was **24.5%**, a 2.9pp improvement on the same period during the preceding year. **Organic EBITDA growth** compared with the same period in 2006 was equal to 48.7% and is broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of BRL)			amount	%
HISTORICAL EBITDA	745	478	267	55,9
Non-organic (income) expenses:	0	23		
<i>Corporate restructuring costs</i>		<i>11</i>		
<i>Other</i>		<i>12</i>		
EBITDA COMPARABLE	745	501		
COMPARABLE EBITDA	745	501	244	48,7

Consolidated **EBIT** amounted to 46 million reais (compared with minus 94 million reais for Q1 2006). The result improved over 2006 despite higher depreciation and amortization (up from 573 million reais in 2006 to 698 million reais in 2007) associated mainly with network infrastructure and IT systems investment. **Organic** EBIT in Q1 2007 amounted to 46 million reais, a rise of 117 million reais compared with the same period in 2006. Organic growth is broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of BRL)			amount	%
HISTORICAL EBIT	46	(94)	140	-
Non-organic (income) expenses:		23		
Non-organic (income) expenses already described under EBITDA		23		
COMPARABLE EBIT	46	(71)	117	-

Industrial investment amounted to 321 million reais (166 million reais for the first quarter of 2006), up 155 million reais in part as a result of a 65 million reais customer base expansion investment.

Headcount at March 31, 2007 was 9,509, essentially unchanged compared with December 31, 2006.

OLIVETTI

Revenues amounted to **83 million euro**, an 11 million euro reduction compared with the first quarter of 2006 (down 11.7%). Excluding exchange rate fluctuations and changes in consolidation area, the **organic difference** was a 10 million euro reduction (-10.8%). In the wake of a major contract in the first quarter of 2006, Gaming Unit revenues were down by 8 million euro. Traditional ink-jet product revenues were down 4 million euro, following a reduction in fax machine and print head sales.

EBITDA of **-10 million euro** was **2 million euro better than for the same period in 2006**, principally as a result of last year's re-conversion and rationalization drive.

The organic variation, a positive 2 million euro, is broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBITDA	(10)	(12)	2	16,7
Effect of change in exchange rates	-	(1)		
Non-organic (income) expenses:	-	1		
<i>Restructuring costs</i>		<i>1</i>		
EBITDA COMPARABILE			-	-
COMPARABLE EBITDA	(10)	(12)	2	16,7

EBIT corresponded to **-14 million euro**, a 3 million euro improvement in comparison to the same period in 2006.

The organic variation, a positive 3 million euro, is broken down thus:

	1st quarter 2007	1st quarter 2006	Change	
(millions of euro)			amount	%
HISTORICAL EBIT	(14)	(17)	3	17,6
Effect of change in exchange rates	-	(1)		
Non-organic (income) expenses:	-	1		
Non-organic (income) expenses already described under EBITDA	-	1		
COMPARABLE EBIT	(14)	(17)	3	17,6

Industrial investment amounted to **2 million euro**, unchanged compared with the first quarter of 2006.

During the first quarter of 2007 Olivetti unveiled Linea , its first multifunction inkjet technology range of printers designed for the SOHO market, combining Olivetti technology with an exclusive Jasper Morrison design.

§

The Board took steps to establish:

a **Strategic Committee** which, as well as the Chairman, the Deputy Executive Chairman and the Chief Executive, is made up of the directors Paolo Baratta, Domenico De Sole, Jean Paul Fitoussi and Renato Pagliaro;

a **Committee for Internal Audit and Corporate Governance**, made up of the directors Paolo Baratta, Diana Bracco, Domenico De Sole, Luigi Fausti and Cesare Giovanni Vecchio;

a **Committee for Remuneration**, consisting of the directors Stefano Cao, Renzo Capra, Luigi Fausti and Luigi Zingales.

Further, the Board renewed the authorization to issue non-convertible bonds up to an aggregate ceiling of 4 billion euro until March 31, 2008, as a rapid and efficient tool for accessing capital markets in order to ensure financial flexibility and timely seize any favorable refinancing opportunities that may arise on the market.

§

The results for the first three months of 2007 will be presented to the financial community during a conference call today starting at 5:30 pm (Italian time).

Journalists will be able to follow the presentation, without the possibility of asking questions, by dialing +39 06 33168.

Journalists who are unable to listen live may access a recording of the presentation by calling +39 06 334843, (access code 146200#).

TELECOM ITALIA GROUP

1° QUARTER 2007 ATTACHEMENTS TO THE PRESS RELEASE

ALTERNATIVE PERFORMANCE MEASURES

In this press release in addition to the conventional financial performance measures established by IFRS, certain non-IFRS measures are presented for purposes of a better understanding of the trend of operations and the financial condition of the Group for the first quarter of 2007 and 2006. However, such measures should not be construed as a

substitute for the operating and financial information required by IFRS.

Specifically, the non-IFRS alternative performance measures used are described below:

•

EBITDA. This financial measure is used by Telecom Italia as the financial target in internal presentations (business plans) and in external presentations (to analysts and investors). It represents a useful unit of measurement for the evaluation of the operating performance of the Group (as a whole and at the level of the Business Units), in addition to **EBIT**. These measures are calculated as follows:

Income from continuing operations before taxes

- + Financial expenses
- Financial income
- +/- Share of losses / (profits) of associates and joint ventures accounted for using the equity method

EBIT (Operating Income)

- +/- Impairment losses / (reversals) on non-current assets
- +/- Losses / (gains) realized on disposals of non-current assets
- + Depreciation and amortization

EBITDA (Operating income before depreciation and amortization, Capital gains / (losses) realized and Impairment reversals / (losses) on non-current assets)

•

Organic change in Revenues, EBITDA and EBIT. This measure expresses changes (amount and/or percentage) in Revenues, EBITDA and EBIT, excluding, where applicable, the effects of the change in the scope of consolidation, exchange differences and non-organic components constituted by non-recurring items and other non-organic income/expenses.

Telecom Italia deems that the presentation of such additional information allows the operating performance of the Group (as a whole and of the Business Units) to be interpreted in a more effective manner.

The organic change in Revenues, EBITDA and EBIT is also used in presentations to analysts and investors.

•

Net Financial Debt. Telecom Italia believes that the Net Financial Debt represents an accurate indicator of its ability to meet its financial obligations. It is represented by Gross Financial Debt less Cash and Cash Equivalents and other Financial Assets.

The Statements of Income, the Balance Sheets, the Statements of Cash Flows as well as the Net Financial Debt of the Telecom Italia Group, herewith presented, are the same as those included in the First Quarter 2007 Report and are unaudited.

DEBT STRUCTURE, BOND ISSUED AND EXPIRY BOND

During the first quarter 2007, the Telecom Italia Group has not issued new bonds, except for the increase of the Telecom Italia S.p.A. 2002-2022 bond set aside for subscription by Group's Employees, for total euro 22 millions.

The total reimbursement amount, net of the Group's debt buy-back, for the bonds expiring 18 month after 31 March 2007, issued by Telecom Italia S.p.A. and Telecom Italia Finance S.A. (fully guaranteed by Telecom Italia S.p.A.), has amounted to 4,629 euro millions, with the following details:

-

1,720 millions of euro, expiring on April 24, 2007, fully repaid;

-

1,658.86 millions of euro, expiring on January 24, 2008;

- 750 millions of euro; expiring on June 9, 2008;

- 499.67 millions of euro, expiring on September 14, 2008.

Bonds issued by companies of the Group to third parties do not contain either financial covenants or clauses which can cause the early repayment of the bonds except in the event of the insolvency of the Telecom Italia Group. Furthermore, the repayment of the bonds and the payment of interest are not covered by specific guarantees nor are there commitments provided relative to the assumption of guarantees, except for the full and unconditional guarantees provided by Telecom Italia S.p.A. for the bonds issued by Telecom Italia Finance S.A. and Telecom Italia Capital S.A..

It should be underscored that all of the contracts for loans, other than bond issues, granted directly by the European Investment Bank (EIB), which are recorded in the financial statements at March 31, 2007 for euro 1,903 million (euro 1,895 million, nominal amount), are covered by bank guarantees for the full and exact amount of the company's economic obligations (with the exception of a single loan for euro 350 million). These guarantees have been issued by banks that have credit ratings of not less than A- assigned by Standard & Poor's or an equivalent level assigned by other agencies. The loan contracts contain negative pledge clauses, that is limitations regarding activities of the company which could influence its ability to produce profits and therefore meet the commitments undertaken, yet leaving ample operating possibilities in line with international contract best practice.

Moreover, the major bank loans carried by the subsidiaries in Brazil provide for personal and real guarantees, financial covenants (i.e. obligations of the company to respect certain financial indexes), negative pledge clauses and other covenants.

The existing committed credit lines as of March 31, 2007, composed of the Revolving Credit Facility, amount to euro 8 billion expiring in August 2012, drawn for euro 1.5 billion.

Furthermore, the euro 2 billion of residual amount of the syndicated credit line expiring in March 2007, has been cancelled on January 15, 2007. At once, the Revolving Credit Facility maturing in 2012's plafond has been increased by the same amount.

Moreover, at March 31, 2007, the total unused and available committed credit lines (revolving and bilateral) amount to euro 6.6 billion.

It should be stressed that Telecom Italia's syndicated bank lines do not contain financial covenants for non-compliance which require the repayment of the existing loan. They do provide for the normal negative pledge clauses (within the limits of requirements for operations). These credit lines are subject, only with regard to the interest margin, to variations in the ratings which would pertain to the credit risk of the company, on the basis of a pre-set grid.

DETAILS OF NON-RECURRING ITEMS (Comunicazione Consob n. DEM/6064293 del 28 luglio 2006):

1st quarter 1st quarter Change

	2007	2006	(a) (b)

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependent on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;

- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage to its fixed and wireless networks to offset declines in its traditional fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally and shifts in usage pattern;

- the level of demand for telecommunications services, particularly wireless telecommunication services in the maturing Italian market and for new higher value added products and services such as broadband;

- the ability of the Telecom Italia Group to successfully implement its reorganization;

- the success of Telecom Italia's customer loyalty and retention programs and the impact of such programs on revenues;

- the impact of regulatory decisions and changes in the regulatory environment, including implementation of recently adopted EU directives in Italy;

- the impact of economic development generally on the international business of the Telecom Italia Group and on its foreign investments and capital expenditures;

- the continuing impact of rapid or "disruptive" changes in technologies;

- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;

- the impact of fluctuations in currency exchange and interest rates;

- Telecom Italia's ability to successfully implement its strategy over the 2007-2009 period;

- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;

- Telecom Italia's ability to successfully implement its internet and broadband strategy;

- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made and continues to make in Brazil and in Europe on broadband;

- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and

- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Such factors should also be considered together with risk factors included in Telecom Italia Group's Annual Report on Form 20-F for 2005. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the Group will achieve its projected results.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
