- (1) Status Report:
 1. Business Report of 2009.
 2. Report by supervisors on review of the 2009 financial statements.
 3. Report on total amount for endorsement, guarantee and amount of loans to third parties.
 4. Report on implementation of indirect investment on Mainland China by the Company.
- (2) Matters for Ratification:
 1. Ratification of 2009 final financial statement.
 2. Ratification of 2009 earnings distribution proposal.
- (3) Matters for Discussion:
 1. Discussions of earnings and capital reserve-turned capital increase in new shares issuance.
 2. Discussions of authorization to the board of directors to opt at the most optimal time for capital increase in cash from participation in issuance of GDR, or conduct capital increase in cash at home, or issue domestic convertible bond or ECB overseas.
 3. Discussions of revision of Handling Procedure for Loans to Third Parties.
 4. Discussions of revision of Handling Procedure for Endorsements and Guarantees.
 5. Discussions of revision of the Company's Articles of Incorporation.
- (4) Extempore Motions.
 2. For the Company's 2008 surplus distribution, the Board of Directors has drafted a shareholder dividend of NT\$6,593,961,945 at NT\$1.2 per share. NT\$1,978,189,485 of the total dividend shall be distributed as cash (at NT\$0.36 per share) and the remaining NT\$4,615,775,460 shall be distributed as shares (84 shares from capital increase issuance shall be distributed nonremuneratively for each 1,000 shares). In addition, together with the capital reserve-turned capital increase that the Company plans to conduct, with amount totaling NT\$879,195,320 (16 shares from capital increase issuance shall be distributed nonremuneratively for each 1,000 shares). The total dividend distributed to shareholders is NT\$1.36 per share, which includes cash dividend of NT\$0.36 and stock dividend of NT\$1. The above distribution of dividends to shareholders and the cash and stock dividend distribution rates are calculated based on the number (5,494,970,794) of shares recorded in the Register of Shareholders as of March 17, 2010. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.
 3. According to Article 165 of the Company Act, stock transfer shall be discontinued from April 16, 2010 to June 14, 2010.
 4. Apart from the public announcement, this is the letter of invitation attached with one copy each of the Notice for Attendance of the Shareholders' General Meeting and proxy. Matters for Ratification

Item 1 (Proposed by the Board of Directors)

Proposal : 2009 final accounts for your recognition.

Explanation : 1. The Company's 2009 financial statements have been audited and attested by Deloitte & Touche and reviewed by the Supervisors.

2. Please ratify the financial statements (see Attachment III to this Agenda Manual for details) and the 2009 Business Report (see Attachment I to this Agenda Manual for details).

Resolution :

Item 2 (Proposed by the Board of Directors)

Proposal : Please ratify the Company's 2009 proposal for earnings distribution.

Explanation : The Board of Directors has drafted the Company's 2009 proposal for surplus distribution as shown in the table below in accordance with The Company Act and the Company's Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc.

2009 Surplus Distribution Proposal

	Unit: NT\$
Item	Amount
Prior year retained earnings	2,953,801,375
Add: Current year gross profit	6,744,545,355
Add: Adjustments to Long-term Investments at Equity	27,143
Subtract: Provision for 10% statutory surplus	674,454,536
Current year earnings to be distributed	9,023,919,337
Items for distribution:	
Dividends (Note)	6,593,964,945
Current year retained earnings	2,429,954,392

Notes:

NT\$120,000,000 to be distributed for Director and Supervisor remuneration

NT\$607,009,000 to be distributed for employee bonuses, all in cash

President: Jason C.S. Chang

Manager: Richard H.P. Chang

Accountant Manager: Joseph Tung

Note 1 : The shareholders' bonus distributed this time totaled NT\$ 6,593,964,945, NT\$ 1.2 per share, of which NT\$ 1,978,189,485 was distributed in cash, cash dividend of NT\$0.36 per share and the remaining NT\$ 4,615,775,460 was distributed in stocks, i.e., 84 shares of stock dividend as gratuitous surplus-turned capital increase for cash 1,000 shares held. Additionally, the Company plans to implement a capital increase out of capital reserves of NT\$ 879,195,320 i.e., 16 shares of stock dividend as capital reserve-turn capital increase for each 1,000 shares held, and the total amount of dividends for this shareholder distribution is NT\$ 1.36 per share, which includes a cash dividend of NT\$ 0.36 per share and a stock dividend of NT\$ 1 per share. With respect to the above-mentioned cash dividend rate, the calculation was based on the 5,494,970,794 shares registered in the roster of shareholders as of March 17, 2010. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.

Note 2: In order to meet the implementation to Income Tax Integration, earnings of the most recent year will be priority in distributed this time.

Resolution:

Matters for Discussions

Item 1 (Proposed by the Board of Directors)

Proposal : Please consider a share issue by converting earnings and capital reserve into equity stock.

- Explanation: 1. In conjunction with the plant expansion plan, the Company contemplates to use the shareholders' bonus of NT\$4,615,775,460 due for distribution in 2009 for capital increase of 461,577,546 shares at NT\$10 par value.
2. It is additionally planned to allocate NT\$ 879,195,320 from capital reserves for capitalization. The interest payable arising from convertible bonds, NT\$ 656,826,623, will take precedence prior to stock premium, NT\$ 222,368,697, in the aforementioned capitalization of capital reserves.
 3. New shares allocation method: In the previous items 1 and 2, a capital increase of a total of NT\$ 5,494,970,780 is planned, with an issuance of 549,497,078 new shares, calculated according to the 5,494,970,794 shares registered in the Company's roster of shareholders as of March 17, 2010, with 16 shares of stock dividend as gratuitous surplus-turned capital increase and 84 shares of stock dividend as capital reserve-turned capital increase for a total of 100 shares for each 1,000 shares held by shareholders. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentially and make the adjustment accordingly. Shareholders are advised to consolidate the odd share of less than one share to make up one share by their own means for registration within 5 days as of the base date for distribution of new shares. Where the insufficient and inadequate part will be paid in cash by the par value. The board of directors has authorized the chairman to assign a specific person to purchase odd shares of less than one share. In addition, distribution of new shares for employee bonus-turned capital increase, the Company's by laws and the Company's Measures Concerning Distribution of Employee Bonus shall govern.
 4. The rights and obligations of new shares shall be equal to the older ones.
 5. Ex-rights base date: It shall be set separately, pending resolution passed by the shareholders' meeting and approval by the competent regulatory authority.
 6. The plant expansion plan by the capital increase of this time shall be completed by December 2011. Implementation of such plan is expected to enhance the Company's competitiveness, elevate the benefit of operation efficiency and is passively beneficial to the shareholders' equity. If the competent regulatory authority deems it necessary to change any of the.

Resolution:

Item 2

(Proposed by the Board of Directors)

Proposal : To meet the requirements for larger production capacity in future the Company needs to enrich its operation capital in order to repay bank loans or the needs for other long-term development use, thereby enabling the fund-raising channels more diversified and flexible. As such, the shareholders' meeting is requested to authorize the board of directors to opt at the optimal time, depending on the market situation and the status of capital needs of the Company and in accordance with existing laws and regulations, for capital increase in cash by issuing common shares or joining the issuance of GDR (Global depository receipts) or domestic capital increase in cash or issuance of domestic or ECB to raise fund. The case is being presented for discussions.

Explanation: 1. The principles to authorize the board of directors to issue new common shares and GDR for capital increase in cash shall be as follows:

1.1 Issuance of common shares in the form GDR for capital increase in cash shall be limited to 500,000,000 shares only. The shareholders' meeting shall authorize the board of directors and the chairman of the board to make the adjustment by the market condition and issue the authorized GDR's all at once.

1.2 In conducting issuance of new shares in the form of GDR for capital increase in cash, the issuance price shall be by the rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process, i.e., the issuance price shall not be lower than the closing price of the Company's common stock at the domestic open market. Take the simple arithmetic mean of the closing price of the common share on the first, third and fifth day prior to the price-setting day, minus 90% of the average stock price after gratuitous ex-rights and ex-interest, then comes the price for the new issue. However, the price-setting method may be duly adjusted if related domestic laws and regulations are updated. Since the stock price at home has often experience drastic volatility in the short run, the chairman of the board is authorized to set the actual issuance price within the above-mentioned price range, after having consulted with underwriter taking into consideration the international general practice, international capital market, domestic market price, the overall subscription status so as to make the offering price attractive to overseas investors. Consequently, the price-setting method should be reasonable. Additionally, the deciding method for the issuance price of GDR is based on the fair trading price of common shares at the domestic open market whereas the original stockholder may purchase the common shares at domestic stock exchange at the price close to the issuance price of the GDR, without bearing the exchange rate risk and liquidity risk. Moreover, the tranche of issuance of new shares and GRD for capital increase in cash do not affect much of the shareholders' equity as the highest dilution ratio in relation to the original shareholders' equity stands only at 9.13%.

1.3 10% of common shares issued for capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the remaining 90% will be fully appropriated for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Trading Act.

For the part that employees have not subscribed, the chairman of the board is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

1.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

1.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, source of capital, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

1.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to proceed with matters related to issuance of new shares.

1.7 If the agreement on issuance time, issuance condition, issuance volume, issuance amount of capital increase in cash and participation in issuance of GDR as well as other matters related to capital increase in cash and participation in issuance of GDR needs update in future due to the decision by the competent regulatory authority and on the basis of operation evaluation, or the needs of objective environment, the board of directors shall be authorized to handle at its full discretion.

1.8 In conjunction with the issuance method of common shares for capital increase in cash and participation in GDR issuance, the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters related to the participation in the issuance of GDR.

1.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

2. The principles to authorize the board of directors to conduct capital increase in cash at home shall be as follows:

2.1 Number of new shares issued for capital increase in cash shall not be in excess of 500,000,000 shares.

2.2 The par value of the new shares for capital increase in cash shall be NT\$10 each. Actual issuance price shall be by related rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process and the market condition at the time of issuance. The chairman of the board and the underwriter may reach an agreement on the issuance in consideration of all the conditions mentioned above, which shall be subject to the approval by the competent regulatory authority before the issuance.

2.3 The issuance method of new shares for the capital increase in cash shall be by price enquiry and selected purchase. With the exception of 10%-15% reserved for employees as required by Article 267 of The Company Act, the rest will be offered for public issuance as all original shareholders have waived their rights to subscribe according to Article 28-1 of the Securities Trading Act. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

2.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

2.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

2.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to set the base date for capital increase.

2.7 With respect to the manner of issuance as mentioned in Section 2.3 above, the board of directors is authorized to make the amendment at its full discretion if amendment becomes necessary due to update of laws or regulations or the objective environment dictates the amendment.

2.8 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

3. The principles to authorize the board of directors to conduct capital increase in cash by issuance of convertible corporate bond at home and ECB overseas:

3.1 Estimated number of shares for conversion: Not to exceed the number of shares registered in the application for update of the Company's profit-seeing

registration card.

3.2 Time of issuance: It depends on the capital needs by the Company and the market condition.

3.3 Interest rate: In principle, it shall be by the market interest rate then prevailing in the marketplace and reasonable, if possible.

3.4 Issuance duration: It depends on the capital needs by the Company

3.5 Issuance condition: Subject to negotiation with the lead underwriter and existing laws and regulations.

3.6 The proceeds from subscriptions to the domestic convertible corporate bond and ECB overseas shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is

expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

3.7 The board of directors is authorized to set the issuance measures, amount of fund raised, plan items, estimated progress as well as estimated probable effect generated.

3.8 In conjunction with the issuance of the convertible corporate bond the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the issuance of the convertible corporate bond as well as handling all needed matters related to the issuance of the convertible corporate bond.

3.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

Advanced Semiconductor Engineering, Inc.
Business Report

World economy gradually recovered from the financial tsunami in the second half of 2009. Emerging markets began to show their strength on the world economic stage with the Chinese economy becoming the main force for global economic growth. Benefiting from a substantial increase in the ratio of consumption in emerging markets to all markets, the world's manufacturing sector is expected grow strongly in 2010. According to the IEK ITIS project of Industrial Technology Research Institute, in 2009 output of Taiwan's assembly industry was NT\$199.6 billion, a 10% decrease on 2008. In 2009, the testing industry output in Taiwan was NT\$87.6 billion, which was a 9.2% drop from 2008. In spite of an economic recovery, governments' policies to cope with the financial tsunami that have resulted in an asset bubble and possible inflation will be issues global economy must face in the future. The Company should watch closely developments in the international financial conditions to carefully deal with future challenges. The following is our report on the company's operation for the past year:

"2009 Operating Results"

1. Implementation results of business plan for 2009

The Company's consolidated revenues for 2009 were NT\$85.8 billion, a drop of 8.6 billion from 2008, a contraction of 9.1%. In the first half, affected by the economic downturn continued from 2008, most IC semiconductor firms made adjustments to their stocks. The semiconductor industry saw its worst sales in decades. Coupled with a traditional low season in the electronics industry, the Company experienced a period of hardship. In the second half, with the economy recovering, IDM customers outsourcing their orders and all employees working hard, the Company gradually made progress in its operations with sales rising each season and profits made, an indication of its resilience to industry ups and downs.

2. Budget performance

No financial forecast was disclosed in 2009.

3. Analysis of financial accounts and profitability

As of the end of 2009, the Company's paid-in capital was NT\$54,798,783 thousands and shareholders' equity NT\$71,616,026 thousands accounting for 54% of total assets of NT\$133,343,314 thousands. Its long-term capital are 375% of fixed assets and current ratio 97%. This year's ratios are slightly worse than the preceding year's. Nevertheless, its financial structure and ability to repay debts are relatively sound. This year's after-tax net profit rose to NT\$6,744,546,000. The Company's overall operating results and profitability have returned to the levels before the global economic recession.

4. R&D overview

In terms of R&D, 3D SiP has become the best option of producing advanced compact products. Its main elements include TSV, PoP, Embedded Technology and IPD, integrating all kinds of active, passive components, sensors and actuators and is the future trend. Processes the Company successfully developed in 2009 are 45 nano copper/lead-

free flip-chip assembly and wire-bond assembly of wafers with an ultra-low dielectric coefficient/lead-free flip-chip stacking assembly of wafers with a low dielectric coefficient, silicon substrate assembly, substrate embedded with active, passive components, WLCSP (Fan out WLP) and Cu Pillar Bump assembly processes. Maintaining an edge in R&D will ensure the Company's continuing growth and profitability.

"Outline of 2010 Business Plan"

1. Operating policy

(1) Providing customers with service of "ultimate quality" (2) creating long-term, stable profits for the Company and customers (3) working with partner firms to jointly create a prosperous future (4) being as flexible as possible in its business dealings.

2. Projects sales volume and references

In light of current industry dynamics, future market demand and ASE's capacity, the projected sales volume for 2010 is as follows:

Item	Project Sales
Package	Approx. 7.2 billion chips
Test	Approx. 900 million chips

3. Important production and sales policies

As 3C products are becoming more compact with more powerful functionality, ASE has decided to merge Universal Scientific Industrial Co., Ltd. in order to develop an SIP module technology by combining its IC assembly and testing technology with USI's PCB carrier technology. Meanwhile, it will endeavor to increase its market share in the hope of a growth rate higher than the rate of economic recovery in the coming year.

In the past few years, most competitors committed few resources to the development of new technology. By contrast, the Company continued to invest manpower and funds in R&D and developed several standard-setting new assembly processes and techniques. In 2010, with the development of new processes including copper process, aQFN, Fan-Out and WLP, the results will be worth looking forward to. The Company plans to speed up its transition to a new copper process and boost its aQFN and Fan-Out WLP capacity. Meanwhile, it will actively encourage customers to certify and employ its new assembly process and technique in order to enhance its cost edge and boost sales.

"Development Strategy"

IEK of ITRI estimates the semiconductor industry will recover in 2010 as the world economy resumes growth. It estimates a growth rate of 10%-15% and that Taiwan's IC output will grow by 23.6%, better than the world's semiconductor growth rate. In recent years gold prices have risen and remained high. Efforts are being made to replace gold with copper as a stable source of material in an effort to stabilize profits. It takes at least 18 months for a copper process to be developed, certified and used in mass production. The Company currently leads competitors by a large margin in the development and certification of copper processes, which is estimated to account for more than 30% of

wire-bond assembly business by the end of 2010. More orders from Japanese IDM firms have been received this year. European and American IDM firms are expected to place orders soon. The Company will endeavor to develop new processes so that it can do better during the low season next year.

"Impacts of Competition, Legislation and Operating Environment"

Faced with dramatic economic ups and downs in the past two years, the Company came up with various personnel, production and cost-cutting plans, constantly improving itself in terms of efficiency and profitability. It eventually emerged from fierce competition and proved its ability to face and solve problems. Management is not satisfied with what it has accomplished. It will work hard to grow the Company and ensure shareholders' interests. This year, as the economy improves, the Company will endeavor to improve its competitiveness, deal carefully with changes, and generate higher return to reward shareholders' support and employees' hard work.

Financial Statements for the
Years Ended December 31, 2009 and 2008 and
Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2009 and 2008, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the accompanying financial statements, starting from January 1, 2009, the Company adopted Statements of Financial Accounting Standards No. 10 "Accounting for Inventories" revised by the Accounting Research and Development Foundation of the Republic of China (the "ARDF") in November 2007. Also, starting from January 1, 2008, the Company adopted Interpretation 96-052, "Accounting for Bonuses to Employees, Directors and Supervisors" issued by the ARDF in March 2007.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2009 and 2008, and have issued a modified unqualified opinion with an explanatory paragraph.

March 10, 2010

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Years Ended December 31, 2007, 2008 and 2009 and
Report of Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the “Company”) as of December 31, 2008 and 2009, and the related consolidated statements of income, changes in shareholders’ equity and cash flows for each of the three years in the period ended December 31, 2009, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China (“ROC”) and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2008 and 2009, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2009, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the ROC.

As discussed in Note 3 to the consolidated financial statements, starting from January 1, 2009, the Company adopted the newly revised ROC Statement of Financial Accounting Standards (“SFAS”) No.10, “Accounting for Inventories”. Besides, starting from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052, “Accounting for Bonuses to Employees, Directors and Supervisors” issued by the ROC Accounting Research and Development Foundation (“ARDF”) in March 2007.

Accounting principles generally accepted in the ROC differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 32 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2009, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 28, 2010 expressed an unqualified opinion on the Company's internal control over financial reporting.

Article 7 Decision-making and Authority Delegation

Article 7 Decision-making and Authority Delegation

1. Before granting a loan, the Finance Department shall evaluate and determine whether the Procedure has been adequately followed and the evaluation results along with the assessment started in Article 6 shall be submitted to the President for approval which shall then be approved by the board of directors before the lending can be conducted.

1. Before granting a loan, the Finance Department shall evaluate and determine whether the Procedure has been adequately followed and the evaluation results along with the assessment started in Article 6 shall be submitted to the President for approval which shall then be approved by the board of directors before the lending can be conducted.

2. Where the company has set up independent directors, before granting a loan, their opinions shall be full consideration and included the independent director's assenting or disassenting opinion as well as the reasons of disassenting in the minutes of BOD's meeting.

2. Lending between the Company and its parent company or subsidiaries, or between its subsidiaries shall be submitted to the board of directors for a resolution as stated above. The chairman may be authorized to lend to a given party several times or provide it with a revolving credit within a year on condition that the combined amount does not exceed the total granted at a board meeting.

3. Lending of funds and relevant matters shall be presented in the shareholders' meeting of the following year.

3. Except for foreign firms directly or indirectly 100% controlled by the Company that meet the conditions as set forth in Article 2.3, which are free from any limits to the amount lent between them, the amount of loans granted to any single company by the Company or subsidiaries shall not exceed 10% of the net worth shown on its most recent financial statements.

4. Where the company has set up independent directors, before granting a loan, their opinions shall be full consideration and included the independent director's assenting or disassenting opinion as well as the reasons of disassenting in the minutes of BOD's meeting.

5. Lending of funds and relevant matters shall be presented in the shareholders' meeting of the following year.

Combined guarantees provided by the Company and subsidiaries to third parties shall not exceed 45% of the Company's net worth as shown in its most recent</p>

financial statements.

3. As well as the above rules, guarantees provided to a business the Company has dealings with shall not exceed the amount associated with the dealings the Company has with it. Amount associated with dealings with a business refer to income arising from products sold or services provided or cost incurred as a result of purchases of goods or services, whichever is higher, in the most recent one year.

Article 5 Procedure for Providing Guarantees

1. Before granting a guarantee to a business having a quota provided by the Company, the business shall provide the Company with details including amount, length of time and nature of the guarantee it requests. The guarantee shall be granted only after the Finance Department evaluates the risks involved and the request is approved by the board.

2. The Finance Department shall check the credit history of the business requesting a guarantee and evaluate the risks involved. The following aspects shall be evaluated when conducting an evaluation:

- (1) Necessity and reasonableness for the guarantee
- (2) Creditworthiness of the business to which a guarantee is provided and the risks involved
- (3) The impact the guarantee has on the Company's operating risks, financial condition and shareholders' rights and interests
- (4) Is collateral required and how much it is worth if it is
- (5) For a guarantee provided to a business the Company has dealings with, is the amount guaranteed commensurate with the amount of dealings involved

3. If determined by evaluation to be necessary, collateral shall obtained and properly dealt with (hypothecated, pledged etc).

4. Combined guarantees provided by the Company and subsidiaries to any single business shall not exceed 35% of the Company's net worth as shown in its most recent financial statements.

5. As well as the above rules, guarantees provided to a business the Company has dealings with shall not exceed the amount associated with the dealings the Company has with it. Amount associated with dealings with a business refer to income arising from products sold or services provided or cost incurred as a result of purchases of goods or services, whichever is higher, in the most recent one year.

Article 5 Procedure for Providing Guarantees

1. Before granting a guarantee to a business having a quota provided by the Company, the business shall provide the Company with details including amount, length of time and nature of the guarantee it requests. The guarantee shall be granted only after the Finance Department evaluates the risks involved and the request is approved by the board.

2. The Finance Department shall check the credit history of the business requesting a guarantee and evaluate the risks involved. The following aspects shall be evaluated when conducting an evaluation:

- (1) Necessity and reasonableness for the guarantee
- (2) Creditworthiness of the business to which a guarantee is provided and the risks involved
- (3) The impact the guarantee has on the Company's operating risks, financial condition and shareholders' rights and interests
- (4) Is collateral required and how much it is worth if it is
- (5) For a guarantee provided to a business the Company has dealings with, is the amount guaranteed commensurate with the amount of dealings involved

3. If determined by evaluation to be necessary, collateral shall obtained and properly dealt with (hypothecated, pledged etc).

4. The Finance Department shall keep a written record of guarantees the Company provides, indicating the parties and amounts guaranteed, dates they were passed at board meetings or approved by the president, and periods during which guarantees are valid. It shall evaluate all the aspects stated above and indicate in the record conditions the Company must meet to be relieved of its guarantee responsibility or the date when that happens.

4. The Finance Department shall keep a written record of guarantees the Company provides, indicating the parties and amounts guaranteed, dates they were passed at board meetings or approved by the president, and periods during which guarantees are valid. It shall evaluate all the aspects stated above and indicate in the record conditions the Company must meet to be relieved of its guarantee responsibility or the date when that happens.

5. In addition to the above four rules, when the Company or a subsidiary provides another subsidiary, whose net worth is less than 1/2 of its paid-in capital, with a guarantee the Finance Department of the Company or subsidiary providing the guarantee shall pay constant attention to the guaranteed subsidiary's finances, sales and creditworthiness. If major risks are found to exist, a written report shall be submitted to its board of directors.

Rules of Procedure for the Shareholders' Meeting

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Attending shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in. The number of voting right shall be calculated according to the sign-in cards submitted.
3. Unless as stipulated in Article 179 of The Company Act whereas there are shares that have no voting right for shareholders of the Company, there is one vote for each share. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the shareholders' meeting shall be where the Company is located or a place convenient for shareholders to attend and suitable for convening the shareholders' meeting. The beginning time for the meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by The Company Act, the shareholders' meeting shall be convened by the board of directors and presided by the chairperson. If the chairperson is on leave or unable to exercise the official function for whatever the reason, Article 208 Paragraph 3 of The Company Act shall govern. If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the meeting shall be presided by the convening person. Where there are two or more persons entitled to convene the shareholders' meeting, they shall nominate among them one person to preside the meeting.

6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.
8. When the time comes for the shareholders' meeting to begin, the chairperson shall immediately call the meeting in session. However, if the shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.
9. Where the shareholders' meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. The meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the shareholders' meeting.

If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply mutatis mutandis.

Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.

After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.

10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.
If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.
13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.

17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.
18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector".
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

Information Concerning Employee Bonus and Information Remuneration for Directors and Supervisors

The Company's 2009 earnings distribution proposal was passed by resolution for the Board of Directors on March 26, 2010, and the proposed earnings distribution situation as passed by the Board of Directors is as follows:

1. Distribution of employee cash bonus of NT\$607,009,000.
2. NT\$120 million is distributed as remuneration to directors and supervisors.
3. The difference between the amount to be distributed and the combined amount of employee bonuses of NT\$607,009,081 and remuneration to directors and supervisors of NT\$121,401,817 already expensed is NT\$1,401,898.
 - a. Reason for the difference: The result of rounding off accounting estimates.
 - b. Handling of the difference: The difference was recognized as changes in accounting estimates at the time the board passed the resolution. If the amount still changes on the day shareholders pass the resolution, it shall be treated as changes in accounting estimates and entered into accounts in the year shareholders pass the resolution.

Item 16G. Corporate Governance

As a company listed on the New York Stock Exchange, or the NYSE, we are subject to certain corporate governance rules of the NYSE. The application of the NYSE's corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the SEC; 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies	Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies
<p>Director independence Listed companies must have a majority of independent directors, as defined under the NYSE listing standards.</p>	<p>Two member of our board of directors is independent as defined in Rule 10A-3 under the United States Securities of 1934, as amended (the "Exchange Act"). We do not assess the independence of our directors under the independence requirements of the NYSE listing standards.</p> <p>Pursuant to relevant laws and regulations of the Republic of China (the "ROC"), we have two independent directors on our board of directors that were elected through the candidate nomination system at our annual general shareholders meeting on June 25, 2009.</p>
<p>To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management.</p>	<p>All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The ROC Company Law does not require companies incorporated in the ROC to have their non-management directors meet at regularly scheduled executive sessions without management.</p>
<p>Nominating/Corporate governance committee Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.</p>	<p>We do not have a nominating/corporate governance committee. The ROC Company Law does not require companies incorporated in the ROC to have a nominating/corporate governance committee.</p> <p>Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.</p> <p>The ROC Company Law requires that directors be elected by shareholders. Under ROC law and regulations, companies that have independent directors are required to adopt a candidate</p>

nomination system for the election of independent directors. Our two independent directors were elected through the candidate nomination system provided in our articles of incorporation. All of our non-independent directors were elected directly by our shareholders at our shareholders meetings without a nomination process.

Compensation committee

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We do not have a compensation committee. Under the ROC Company Law, companies incorporated in the ROC are not required to have a compensation committee. However, the ROC Company Law requires that the measures by which director compensation is determined either be set forth in the company's articles of incorporation or be approved at a shareholders meeting.

Our articles of incorporation currently provide that total director and supervisor remuneration shall be no more than 2% (inclusive) of our net income after payment of all income taxes, deduction of any past losses, allocation of 10% of our net income for legal reserves and allocation for special reserves.

The ROC Company Law requires the compensation of managers, including executive officers, of a company limited by shares to be approved by a resolution of the board of directors or pursuant to a higher standard specified in its articles of incorporation. Our articles of incorporation do not provide measures by which the compensation of executive officers is determined and such compensation is determined by our board of directors according to our internal compensation policies.

Audit committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

We have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

Pursuant to the ROC Securities and Exchange Law, beginning January 1, 2007, public companies shall either establish an audit committee satisfying specified requirements or install supervisors. Under certain circumstances, public companies may be required by the Financial Supervisory Commission (the "FSC") to establish an audit committee. In addition to our Rule 10A-3 audit committee, we currently have supervisors pursuant to the ROC Securities and Exchange Law.

The audit committee must have a minimum of three members.

We currently have two member on our audit committee. Our audit committee member satisfies the independence requirements of Rule 10A-3 under the Exchange Act.

In addition to any requirement of Rule 10A-3(b)(1), all audit committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

We do not assess the independence of our audit committee member under the independence requirements of the NYSE listing standards.

The audit committee must have a written charter that provides for the duties and responsibilities set out in Rule 10A-3 and addresses certain other matters required by the NYSE listing standards.

Our audit committee charter provides for the audit committee to assist our board of directors in its oversight of (i) the integrity of our financial statements, (ii) the qualifications, independence and performance of our independent auditor and (iii) our compliance with legal and regulatory requirements and provides for the duties and responsibilities set out in Rule 10A-3. Our audit committee charter does not address all the matters required by the NYSE listing standards beyond the requirements of Rule 10A-3.

Each listed company must have an internal audit function.

Because the appointment and retention of our independent auditor are the responsibility of our entire board of directors under ROC law and regulations, our audit committee charter provides that the audit committee shall make recommendations to the board of directors with respect to these matters.

We have an internal audit function. Under the ROC Regulations for the Establishment of Internal Control Systems by Public Companies, a public company is required to set out its internal control systems in writing, including internal audit implementation rules, which must be approved by the board of directors.

Our entire board of directors and the Chief Executive Officer are responsible for the establishment of the internal audit functions, compliance with the internal audit implementation rules and oversight of our internal control systems, including the appointment and retention of our independent auditor.

Equity compensation plans

Shareholders must be given the opportunity to vote on all equity-compensation plans and material revisions thereto, except for employment inducement awards, certain grants, plans and amendments in the context of mergers and acquisitions, and certain specific types of plans.

We comply with the corresponding requirements of the ROC Company Law, the ROC Securities and Exchange Law, and the ROC Criteria Governing the Offering and Issuance of Securities by Securities Issuers, which require shareholders' approval for the distribution of employee bonuses, while the board of directors has authority to approve employee stock option plans by a majority vote of the board of directors at a meeting where at least two-thirds of all directors are present and to grant options to employees pursuant to such plans, subject to the approval of the Securities and Futures Bureau of the FSC and to approve treasury stock programs and the transfer of shares to employees under such programs by a majority vote of the board of directors in a meeting where at least two-thirds of all directors are present.

Corporate governance guidelines

Listed companies must adopt and disclose corporate governance guidelines.

We currently comply with the domestic non-binding Corporate Governance Best-Practice Principles for Taiwan Stock Exchange and GreTai Stock Market Listed Companies promulgated by the Taiwan Stock Exchange and the GreTai Stock Market, and we provide an explanation of differences between our practice and the principles, if any, in our ROC annual report.

Code of ethics for directors, officers and employees

Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.

We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our company and our subsidiaries and will disclose any waivers of the code as required by Item 16B of Form 20-F. We have posted our code of ethics on our website.

Description of significant differences

Listed foreign private issuers must disclose any significant ways in which their corporate governance practices differ from those followed by domestic companies under NYSE listing standards.

This table contains the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

CEO certification

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary.

As a foreign private issuer, we are not required to comply with this rule; however, our Chief Executive Officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

Each listed company CEO must promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any material non-compliance with any applicable provisions of Section 303A.

We intend to comply with this requirement.

Each listed company must submit an executed Written Affirmation annually to the NYSE. In addition, each listed company must submit an interim Written Affirmation each time a change occurs to the board or any of the committees subject to Section 303A. The annual and interim Written Affirmations must be in the form specified by the NYSE.

We have complied with this requirement to date and intend to continue to comply going forward.
