CELLCOM ISRAEL ANNOUNCES
FOURTH QUARTER AND FULL YEAR 2013 RESULTS

2013 results reflect the continued impact of the heightened competition in the cellular market

Free cash flow¹ in 2013 totaled approximately NIS 1.2 billion, a 7.1% increase compared with 2012

2013 Full Year Highlights (compared to 2012):

- § Free cash flow increased by 7.1% to NIS 1,210 million (\$349 million)
- § Total Revenues decreased 17% to NIS 4,927 million (\$1,419 million)
- § Service revenues decreased 13% to NIS 3,985 million (\$1,148 million)
- § EBITDA¹ decreased 23.8% to NIS 1,335 million (\$385 million)
- § EBITDA margin 27.1%, down from 29.5%
- § Operating income decreased 33.9% to NIS 651 million (\$188 million)
- § Net income decreased 45.8% to NIS 288 million (\$83 million)
- § Cellular subscriber base totaled approx. 3.092 million subscribers² (at the end of December 2013)

Fourth Quarter 2013 Highlights (compared to fourth quarter of 2012):

- § Free cash flow increased by 6.9% to NIS 308 million (\$89 million)
- § Total Revenues decreased 14.1% to NIS 1,209 million (\$348 million)
- § Service revenues decreased 8.3% to NIS 977 million (\$281 million)
- § EBITDA decreased 10.4% to NIS 335 million (\$97 million)
- § EBITDA margin 27.7%, up from 26.6%
- § Operating income decreased 10.1% to NIS 170 million (\$49 million)
- § Net income decreased 9.7% to NIS 102 million (\$29 million)

Edgar Filing: Cellcom Israel Ltd. - Form 6-K

Netanya, Israel – March 6, 2014 – Cellcom Israel Ltd. (NYSE: CEL TASE: CEL) ("Cellcom Israel" or the "Company" or the "Group"), announced today its financial results for the fourth quarter and full year ended December 31, 2013. Revenues for the fourth quarter and full year 2013 totaled NIS 1,209

1 Please see "Use of Non-IFRS financial measures" section in this press release.

2After removal of approximately 64,000 pre-paid subscribers from the Company's cellular subscriber base in the fourth quarter of 2013 following a change to the subscribers counting mechanism. See "Cellular subscriber base" section in this press release.

- 1 -

million (\$348 million) and NIS 4,927 million (\$1,419 million), respectively; EBITDA for the fourth quarter 2013 totaled NIS 335 million (\$97 million), or 27.7% of total revenues, and for the full year 2013 totaled NIS 1,335 million (\$385 million), or 27.1% of total revenues; and net income for the fourth quarter and full year 2013 totaled NIS 102 million (\$29 million) and NIS 288 million (\$83 million), respectively. Basic earnings per share for the fourth quarter and full year 2013 totaled NIS 1.02 (\$0.29) and NIS 2.89 (\$0.83), respectively.

Commenting on the results, Nir Sztern, the Company's Chief Executive Officer, said: "Again in this year of aggressive competition, Cellcom Group continues to present good financial results, which are reflected in a free cash flow (after investments) of approximately NIS 1.2 billion. The efficiency measures we implemented following the merger with Netvision led to savings at an annual run rate of approximately NIS 640 million³. In 2013 alone we presented actual savings of over NIS 200 million in selling, marketing, general and administrative expenses, compared to last year.

This year we continued with the profitability focused strategy and the expansion of our product offerings to landline services, both of which had satisfactory results, as reflected in the moderation of ARPU and revenues erosion in the last quarters.

I expect that the competition and consequently price erosion in the cellular market will continue in the coming year. However, we will continue to focus on efficiency measures, and we expect that in the long run, a shared passive infrastructure for our network will allow significant savings in operating expenses, and a shared 4G (LTE) network will assist in reducing investments in that area, if such sharing agreements are approved.

Despite the changes in the cellular market and the significant efficiency measures we have implemented, we continue to invest in the building of our infrastructure. We are preparing for a quick launch of a 4G network, which will assure that Cellcom Israel's customers continue to enjoy an advanced and quality network. Additionally, the Company is preparing and making investments towards the opening of the landline communications market to competition, so once an effective wholesale market has been established, the Company will be able to elect to launch a variety of packages and products for the landline communications market and advanced IPTV services."

Shlomi Fruhling, Chief Financial Officer, commented: "2013 was another challenging year, for the communications market in general and for the Company in particular, characterized by a continued high level of competition, during which we continued to implement our efficiency measures in order to adjust the Company's cost structure to its revenues level.

Despite the intensified competition, we concluded the year with a free cash flow (after investments) of approximately NIS 1.2 billion, an increase of approximately 7% compared with 2012. The increase is mainly the result of a decrease in the purchase of cellular handsets, following a significant decline in

3 Based on a comparison of fourth quarter 2013 expenses to fourth quarter 2011 expenses.

sales of such handsets, the efficiency measures we implemented during the year and savings in capital expenditures.

This year, we continued to strengthen the Company's balance sheet, made repayments of principal on our debentures in an amount of over NIS 1 billion from internal resources without raising new debt and decreased our net debt by over NIS 700 million to approximately NIS 3.8 billion.

The Company's Board of Directors decided not to distribute a dividend for the fourth quarter of 2013, given the intensified competition and its adverse effect on the Company's results and in order to further strengthen the Company's balance sheet. The Board of Directors will re-evaluate its decision as market conditions develop, and taking into consideration the Company's needs."

Main Consolidated Financial Results for 2013 (compared to 2012 results):

	NIS millions		% of Revenues		% Change	US\$ millions (convenience translation)	
	2013	2012	2013	2012		2013	2012

Monthly cellular ARPU (in NIS)	78.5	87.5	(10.3%)

Financial Review

Revenues for 2013 decreased 17% totaling NIS 4,927 million (\$1,419 million), compared to NIS 5,938 million (\$1,711 million) last year. The decrease in revenues is attributed to a 30.5% decrease in equipment revenues, which totaled NIS 942 million (\$271 million) in 2013 compared to NIS 1,356 million (\$391 million) in 2012, as well as a 13% decrease in service revenues as a result of the increased competition in the market, from NIS 4,582 million (\$1,320 million) in 2012 to NIS 3,985 million (\$1,148 million) in 2013. Netvision's contribution to revenues totaled NIS 933 million (\$269 million) (excluding inter-company revenues) in 2013, compared to NIS 1,047 million (\$302 million) in 2012. The decrease in Netvision's contribution was mainly due to a decrease in revenues from internet services, international calling services and hubbing services.

4 Data for 2013 is after removal of approximately 64,000 pre-paid subscribers from the Company's cellular subscriber base, made during the fourth quarters of 2013. See "Cellular subscriber base" section in this press release.

5 Churn rates for 2012 and 2013 do not include a removal of subscribers from the Company's cellular subscriber base following a change to the subscribers counting mechanism. See "Churn rate" section in this press release.

The decrease in service revenues in 2013 resulted mainly from a 14.7% decrease in revenues from cellular services due to the ongoing price erosion of cellular services, resulting from the intensified competition in the cellular market. The decrease in service revenues also resulted from a 9% decrease in revenues from internet services, mainly as a result of price erosion of such services and loss of several large customers of data services, and a decrease in revenues from transmission and international calling services, as well as a decrease in revenues from hubbing services following a change in the mix of call destinations. Netvision's contribution to service revenues totaled NIS 873 million (\$252 million) (excluding inter-company revenues) in 2013, as compared to NIS 965 million (\$278 million) in 2012.

The decrease in equipment revenues in 2013 resulted from an approximately 28% decrease in the number of cellular handsets sold in 2013, as compared with 2012, and an approximately 8% decrease in the average sales price of cellular handsets. These decreases were mainly due to the increased competition in the cellular handsets market. Netvision's contribution to equipment revenues totaled NIS 60 million (\$17 million) in 2013, compared to NIS 82 million (\$24 million) in 2012. The decrease in Netvision's contribution to equipment revenues resulted from a decline in the amount of equipment sales transactions with business customers in 2013, as compared with 2012.

Revenues for the fourth quarter of 2013 decreased 14.1% totaling NIS 1,209 million (\$348 million), compared to NIS 1,407 million (\$405 million) in the fourth quarter of last year. The decrease in revenues is attributed mainly to an 8.3% decrease in service revenues, which totaled NIS 977 million (\$281 million) in the fourth quarter 2013 as compared to NIS 1,066 million (\$307 million) in the fourth quarter of 2012. The decrease in revenues also resulted from a 32% decrease in equipment revenues, which totaled NIS 232 million (\$67 million) in the fourth quarter of 2013 as compared to NIS 341 million (\$98 million) in the fourth quarter last year. Netvision's contribution to revenues for the fourth quarter of 2013 totaled NIS 227 million (\$65 million) (excluding inter-company revenues) compared to NIS 270 million (\$78 million) in the fourth quarter of 2012.

The decrease in fourth quarter 2013 service revenues resulted mainly from a decrease in cellular services revenues, due to the ongoing erosion in the price of these services as a result of the intensified competition in the cellular market, as well as decreases in revenues from internet services and international calling services, which also resulted from price erosion. These decreases were partially offset by an increase in revenues from national roaming services. Netvision's contribution to service revenues for the fourth quarter of 2013 totaled NIS 203 million (\$58 million) (excluding inter-company revenues) compared to NIS 239 million (\$69 million) in the fourth quarter of last year.

The decrease in fourth quarter 2013 equipment revenues resulted from a 32% decrease in the number of cellular handsets sold during the fourth quarter of 2013 compared with the fourth quarter of 2012, as well as an approximately 4% decrease in the average cellular handset sale price in the fourth quarter of 2013 as compared to the fourth quarter of last year. Netvision's contribution to equipment revenues for the fourth quarter of 2013 totaled NIS 24 million (\$7 million) compared to NIS 31 million (\$9 million) in the fourth quarter of 2012.

Cost of revenues for 2013 totaled NIS 2,990 million (\$861 million), compared to NIS 3,463 million (\$998 million) in 2012, a 13.7% decrease. This decrease is attributed to a 7.3% decrease in the cost of service revenues and a 29% decrease in the cost of equipment revenues. The decrease in the cost of service revenues in 2013 compared with 2012 mainly resulted from a decrease in payroll expenses due to efficiency measures, a decrease in interconnect fees and cost of content and value added services, as well as a reduction of royalty payments to the Ministry of Communications, the rate of which was reduced to 0% beginning January 1, 2013. Netvision's contribution to cost of revenues (excluding inter-company expenses) decreased to NIS 602 million (\$173 million) in 2013 from NIS 692 million (\$199 million) in 2012, mainly due to a decrease in payroll expenses and interconnect fees. The decrease in cost of equipment revenues mainly resulted from a decrease in the cost of cellular handsets, primarily as a result of a decrease in the number of cellular handsets sold during 2013 as compared with 2012, as well as a decrease in the average cost of cellular handset. Netvision's contribution to cost of equipment revenues decreased to NIS 47 million (\$14 million) in 2013 from NIS 57 million (\$16 million) in 2012 due to the decline in the amount of equipment sales transactions with business customers.

Cost of revenues for the fourth quarter of 2013 decreased to NIS 712 million (\$205 million) from NIS 873 million (\$252 million) in the fourth quarter of 2012, a decrease of 18.4%. This decrease resulted from the same factors as the decrease in the annual cost of revenues mentioned above.

Gross profit for 2013 decreased 21.7% to NIS 1,937 million (\$558 million) from NIS 2,475 million (\$713 million) in 2012. Netvision's contribution to gross profit for 2013 totaled NIS 284 million (\$82 million) compared to NIS 298 million (\$86 million) in 2012. Gross profit margin for 2013 amounted to 39.3%, down from 41.7% in 2012. Gross profit for the fourth quarter 2013 decreased 6.9% to NIS 497 million (\$143 million) from NIS 534 million (\$154 million) in the fourth quarter of 2012. Gross profit margin for the fourth quarter 2013 amounted to 41.1%, up from 38% in the fourth quarter of last year.

Selling, Marketing, General and Administrative Expenses ("SG&A Expenses") for 2013 decreased 13.9% to NIS 1,287 million (\$371 million), compared to NIS 1,494 million (\$430 million) in 2012. This decrease is primarily the result of the efficiency measures implemented by the Company, which led to a decrease in payroll expenses, sales commissions, data processing expenses, rent and other expenses. The decrease in sales commissions also resulted from a decrease in the number of cellular handsets sold in 2013, as compared with 2012. The decrease in SG&A expenses also resulted from a decrease in depreciation expenses and amortization expenses related to intangible assets attributable to the acquisition of Netvision. Netvision's contribution to SG&A expenses totaled NIS 188 million (\$54 million) in 2013, including amortization expenses related to intangible assets attributable to the acquisition of Netvision, compared to NIS 226 million (\$65 million) in 2012.

SG&A Expenses for the fourth quarter of 2013 decreased 6.3% to NIS 327 million (\$94 million), compared to NIS 349 million (\$101 million) in the fourth quarter of last year. This decrease resulted

from the same factors as the decrease in the annual SG&A expenses mentioned above.

Operating income for 2013 decreased 33.9% to NIS 651 million (\$188 million) from NIS 985 million (\$284 million) in 2012. Netvision's contribution to operating income⁶ in 2013 totaled NIS 98 million (\$28 million) compared to NIS 78 million (\$22 million) in 2012. Operating income for the fourth quarter 2013 decreased 10.1% to NIS 170 million (\$49 million) from NIS 189 million (\$54 million) in the fourth quarter of last year. Netvision's contribution to operating income⁶ in the fourth quarter of 2013 increased to NIS 39 million (\$11 million) from NIS 21 million (\$6 million) in the fourth quarter of 2012.

EBITDA for 2013 decreased 23.8% to NIS 1,335 million (\$385 million) from NIS 1,753 million (\$505 million) in 2012. EBITDA, as a percent of revenues, totaled 27.1%, down from 29.5% in 2012. Netvision's contribution to EBITDA for 2013 totaled NIS 269 million (\$77 million) compared to NIS 283 million (\$82 million) in 2012. EBITDA for the fourth quarter 2013 decreased 10.4% totaling NIS 335 million (\$97 million) compared to NIS 374 million (\$108 million) in the fourth quarter of last year. EBITDA for the fourth quarter 2013, as a percent of fourth quarter revenues, totaled 27.7%, up from 26.6% in the fourth quarter of 2012. Netvision's contribution to EBITDA for the fourth quarter of 2013 totaled NIS 77 million (\$22 million) compared to NIS 68 million (\$20 million) in the fourth quarter of 2012.

Financing expenses, net for 2013 decreased 5% to NIS 246 million (\$71 million), compared to NIS 259 million (\$75 million) in 2012. The decrease mainly resulted from a decrease in interest expenses, associated with the Company's debentures in 2013, compared with 2012, due to a lower debt level, following a principal repayment in the amount of approximately NIS 1 billion during 2013. The decrease in financing expenses, net, also resulted from one-time positive effects in the amount of approximately NIS 15 million. The decrease in financing expenses, net, was partially offset by an increase in Israeli Consumer Price Index (CPI) linkage expenses, associated with the Company's debentures, due to increased inflation rate in 2013, compared with 2012. The decrease in financing expenses, net, was also offset in part by a decrease in gains from the Company's investment in tradable debentures in 2013 compared with 2012, as well as a decrease in interest income, associated with cellular handset sales, due to a decline in such sales.

Financing expenses, net for the fourth quarter 2013 decreased 28.6% to NIS 30 million (\$9 million), compared to NIS 42 million (\$12 million) in the fourth quarter of last year. The decrease resulted mainly from a decrease in loss from hedging transactions and a decrease in interest expenses, associated with the Company's debentures, due to a lower debt level. The decrease in financing expenses, net, also resulted from one-time positive effects in the amount of approximately NIS 15 million. The decrease in financing expenses, net, was partially offset by a decrease in CPI linkage income associated with the Company's debentures, due to lower deflation rate in the fourth quarter of 2013, compared with the fourth quarter of 2012, and a decrease in income from foreign currency

⁶ Including amortization expenses related to intangible assets attributable to the acquisition of Netvision.

exchange differences related to trade payables due to lower appreciation of the NIS against the US dollar in the fourth quarter of 2013, compared to the fourth quarter of 2012.

Income tax for 2013 decreased 40% to NIS 117 million (\$34 million) from NIS 195 million (\$56 million) in 2012. The decrease in income tax resulted mainly from a 44.2% decrease in income before income tax, primarily attributable to the adverse effect of the intensified competition in the communications market on the Company's results.

Net Income for 2013 decreased 45.8% to NIS 288 million (\$83 million) from NIS 531 million (\$153 million) in 2012. Netvision's contribution to net income⁷ increased from NIS 67 million (\$19 million) in 2012 to NIS 78 million (\$22 million) in 2013. Net income for the fourth quarter 2013 decreased 9.7% to NIS 102 million (\$29 million) from NIS 113 million (\$33 million) in the fourth quarter of 2012. Netvision's contribution to net income⁷ in the fourth quarter of 2013 increased to NIS 34 million (\$10 million) from NIS 24 million (\$7 million) in the fourth quarter of 2012.

Basic earnings per share for 2013 totaled NIS 2.89 (\$0.83), compared to NIS 5.34 (\$1.54) in 2012. Basic earnings per share for the fourth quarter 2013 totaled NIS 1.02 (\$0.29), compared to NIS 1.14 (\$0.33) in the fourth quarter of last year.

Operating Review (data refers to cellular subscribers only)

Cellular subscriber base – at the end of 2013 the Company had approximately 3.092 million cellular subscribers. During the fourth quarter of 2013 the Company removed approximately 64,000 pre-paid subscribers from its cellular subscriber base, following a change to its subscribers counting mechanism, according to which the Company adds prepaid subscribers to its subscribers base only upon charging a prepaid card and removes them from its subscribers base after six months of no revenue generating calls or SMS. After elimination of this removal, during 2013 the Company's cellular subscriber base decreased by approximately 43,000 net cellular subscribers, and in the fourth quarter of 2013, it did not change.

Cellular Churn Rate for 2013 totaled 36.8%, compared to 31.5% in 2012. The churn rate for the fourth quarter 2013 totaled to 9.9%, compared to 8.7% in the fourth quarter last year. Both annual and quarterly churn rates were primarily affected by the intensified competition in the cellular market. Neither the annual nor the quarterly churn rates include the above mentioned removal of pre-paid subscribers.

The monthly cellular Average Revenue per User (ARPU) for 2013 totaled NIS 78.5 (\$22.6), compared to NIS 87.5 (\$25.2) in 2012. ARPU for the fourth quarter 2013 totaled NIS 78.7 (\$22.7), compared to NIS 82.4 (\$23.7) in the fourth quarter last year. Both annual and quarterly figures were

⁷ Including amortization expenses related to intangible assets attributable to the acquisition of Netvision.

affected, among others, by the ongoing erosion in the price of cellular services, resulting from the intensified competition in the cellular market.

Financing and Investment Review

Cash Flow

Free cash flow for 2013 increased by 7.1% to NIS 1,210 million (\$349 million), compared to NIS 1,130 million (\$326 million) in 2012. Free cash flow for the fourth quarter of 2013 increased by 6.9% totaling NIS 308 million (\$89 million), compared to NIS 288 million (\$83 million) generated in the fourth quarter of 2012. Cash flows from operating activities for 2013 decreased 5.2% from NIS 1,641 million (\$473 million) in 2012 to NIS 1,556 million (\$448 million) in 2013, mainly due to a decrease in proceeds from customers following the decrease in service revenues in 2013 compared with 2012, resulting from the price erosion of cellular services. The decrease in proceeds from customers was partially offset by a decrease in payments to vendors for handset purchases due to the decrease in sales of such handsets and a decrease in operating expenses mainly as a result of efficiency measures implemented by the Company, as well as a decrease in income tax payments following the decrease in profits. Cash flows used in investing activities decreased 51.4% from NIS 708 million (\$204 million) in 2012 to NIS 344 million (\$99 million) in 2013, primarily due to a decrease in acquisition of fixed assets and a decrease in investment in tradable debentures in 2013 compared with 2012.

Total Equity

Total Equity as of December 31, 2013 amounted to NIS 710 million (\$205 million), primarily consisting of accumulated undistributed retained earnings of the Company.

Investment in Fixed Assets and Intangible Assets

During 2013 and the fourth quarter 2013, the Company invested NIS 384 million (\$111 million) and NIS 151 million (\$44 million), respectively, in fixed assets and intangible assets (including, among others, rights of use of communication lines and investments in information systems and software), compared to NIS 537 million (\$155 million) and NIS 140 million (\$40 million) in 2012 and the fourth quarter 2012, respectively.

Dividend

On March 5, 2014, the Company's board of directors decided not to declare a cash dividend for the fourth quarter of 2013. In making its decision, the board of directors considered the Company's dividend policy and business status and decided not to distribute a dividend at this time, given the intensified competition and its adverse effect on the Company's results of operations, and in order to strengthen the Company's balance sheet. The board of directors will re-evaluate its decision in future quarters. No future dividend declaration is guaranteed and is subject to the Company's board of directors' sole discretion, as detailed in the Company's annual report for the year ended December 31, 2013 on Form 20-F, under "Item 8 - Financial Information – A. Consolidated Statements and Other Financial Information - Dividend Policy".

Debentures

For information regarding the Company's summary of financial liabilities and details regarding the Company's outstanding debentures as of December 31, 2013, see "Disclosure for Debenture Holders" section in this press release.

Conference Call Details

The Company will be hosting a conference call on Thursday, March 6, 2014 at 10:00 am EST, 07:00 am PST, 15:00 GMT, 17:00 Israel time. On the call, management will review and discuss the results, and will be available to answer questions. To participate, please either access the live webcast on the Company's website, or call one of the following teleconferencing numbers below. Please begin placing your calls at least 10 minutes before the conference call commences. If you are unable to connect using the toll-free numbers, please try the international dial-in number.

US Dial-in Number: 1 888 668 9141 UK Dial-in Number: 0 800 917 5108

Israel Dial-in Number: 03 918 0610 International Dial-in Number: +972 3 918 0610

at: 10:00 am Eastern Time; 07:00 am Pacific Time; 15:00 UK Time; 17:00 Israel Time

To access the live webcast of the conference call, please access the investor relations section of Cellcom Israel's website: www.cellcom.co.il. After the call, a replay of the call will be available under the same investor relations section.

Annual report for 2013

Cellcom Israel will be filing its annual report for the year ended December 31, 2013 (on Form 20-F) with the US Securities and Exchange Commission on March 6, 2014. The annual report will be available for download from the investor relations section of Cellcom Israel's website, www.cellcom.co.il. Cellcom Israel will furnish a hard copy to any shareholder who so requests, without charge. Such requests may be sent through the Company's website or by sending a postal mail request to Cellcom Israel Ltd., 10 Hagavish Street, Netanya, Israel (attention: Chief Financial Officer).

About Cellcom Israel

Cellcom Israel Ltd., established in 1994, is the largest Israeli cellular provider; Cellcom Israel provides its approximately 3.092 million subscribers (as at December 31, 2013) with a broad range of value added services including cellular and landline telephony, roaming services for tourists in Israel and for its subscribers abroad and additional services in the areas of music, video, mobile office etc., based on Cellcom Israel's technologically advanced infrastructure. The Company operates an HSPA 3.5 Generation network enabling advanced high speed broadband multimedia services, in addition to GSM/GPRS/EDGE networks. Cellcom Israel offers Israel's broadest and largest customer service infrastructure including telephone customer service centers, retail stores, and service and sale centers, distributed nationwide. Through its broad customer service network Cellcom Israel offers technical support, account information, direct to the door parcel delivery services, internet and fax services, dedicated centers for hearing impaired, etc. Cellcom Israel further provides through its wholly owned subsidiaries internet connectivity services and international calling services, as well as landline telephone communication services in Israel, in addition to data communication services. Cellcom Israel's shares are traded both on the New York Stock Exchange (CEL) and the Tel Aviv Stock Exchange (CEL). For additional information please visit the Company's website www.cellcom.co.il

Forward-Looking Statements

The following information contains, or may be deemed to contain forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995 and the Israeli Securities Law, 1968). In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “expect,” “plan,” “anticipate,” “estimate,” “predict,” “potential” or “continue,” the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about the Company, may include projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. These statements are only predictions based on the Company's current expectations and projections about future events. There are important factors that could cause the Company's actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause such differences include, but are not limited to: changes to the terms of the Company's license, new legislation or decisions by the regulator affecting the Company's operations, new competition and changes in the competitive environment, the outcome of legal proceedings to which the Company is a party, particularly class action lawsuits, the Company's ability to maintain or obtain permits to construct and operate cell sites, and other risks and uncertainties detailed from time to time in the Company's filings with the U.S. Securities and Exchange Commission, including under the caption “Risk Factors” in its Annual Report for the year ended December 31, 2013.

Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or achievements. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The Company assumes no duty to update any of these forward-looking statements after the date hereof to conform its prior statements to actual results or revised expectations, except as otherwise required by law.

The Company prepares its financial statements in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Unless noted specifically otherwise, the dollar denominated figures were converted to US\$ using a convenience translation based on the New Israeli Shekel (NIS)/US\$ exchange rate of NIS 3.471 = US\$ 1 as published by the Bank of Israel for December 31, 2013.

Use of non-IFRS financial measures

EBITDA is a non-IFRS measure and is defined as income before financing income (expenses), net; other income (expenses), net; income tax; depreciation and amortization and share based payments. This is an accepted measure in the communications industry. The Company presents this measure as an additional performance measure as the Company believes that it enables us to compare operating performance between periods and companies, net of any potential differences which may result from differences in capital structure, taxes, age of fixed assets and related depreciation expenses. EBITDA should not be considered in isolation, or as a substitute for operating income, any other performance measures, or cash flow data, which were prepared in accordance with Generally Accepted Accounting Principles as measures of profitability or liquidity. EBITDA does not take into account debt service requirements, or other commitments, including capital expenditures, and therefore, does not necessarily indicate the amounts that may be available for the Company's use. In addition, EBITDA as presented by the Company may not be comparable to similarly titled measures reported by other companies, due to differences in the way these measures are calculated. See the reconciliation of net income to EBITDA under "Reconciliation of Non-IFRS Measures" in the press release.

Free cash flow is a non-IFRS measure and is defined as the net cash provided by operating activities minus the net cash used in investing activities excluding short-term investment in tradable debentures and deposits and proceeds from sales of such debentures (including interest received in relation to such debentures) and deposits. See "Reconciliation of Non-IFRS Measures" below.

Comments:

(1) In the reported period, the company fulfilled all terms of the debentures. The company also fulfilled all terms of the Indentures. Debentures F and G financial covenants - as of December 31, 2013 the net leverage (net debt to EBITDA ratio- see definition in the Company's annual report for the year ended December 31, 2013 on Form 20-F, under "Item 5. Operating and Financial Review and Prospects – B. Liquidity and Capital Resources – Debt Service – Shelf prospectus") was 2.9. In the reported period, no cause for early repayment occurred. (2) Including interest accumulated in the books and excluding net balance of premium on debentures and deferred issuance expenses. (3) Annual payments, excluding series F and G debentures in which the payments are semi annual. (4) Regarding Debenture series B, F and G- the company undertook not to create any pledge on its assets, as long as debentures are not fully repaid, subject to certain exclusions. (5) Regarding Debenture series F and G - the company has the right for early redemption under certain terms (see the Company's annual report for the year ended December 31, 2013 on Form 20-F, under "Item 5. Operating and Financial Review and Prospects– B. Liquidity and Capital Resources – Debt Service – Shelf prospectus").(6) Regarding Debenture series F and G - in June 2013, following a second decrease of the Company's debenture rating since their issuance, the annual interest rate has been increased by 0.25% to 4.60% and 6.99%, respectively, beginning July 5, 2013. (7) On January 5, 2014, the Company repaid principal payments of approximately NIS 223 million of series B debentures and approximately NIS 300 million of series E debentures.

(*) On these dates additional debentures of the series were issued, the information in the table refers to the full series.

(**) Series B, D, E and F are material, which represent 5% or more of the total liabilities of the Company, as presented in the financial statements.
