Cellcom Israel announces

second Quarter 2017 Results

Cellcom Israel concludes the second quarter of 2017 with net income of NIS 45 million and EBITDA¹ of NIS 237 million.

Nir Sztern, Cellcom CEO said: "Again in this quarter we maintained the high subscription rates: Cellcom tv with an addition of approximately 13,000 households that chose the best television in Israel and the internet infrastructure field with an addition of 16,000 households. We continue to strengthen our position as the significant recruiters in these markets."

"The results of the second quarter of 2017 reflect an improvement in financial parameters compared with the previous quarter, in a period of intense competition."

Second Quarter 2017 Highlights (compared to second quarter of 2016):

Total Revenues totaled NIS 962 million (\$275 million) compared to NIS 1,029 million (\$294 million) in the second quarter last year, a decrease of 6.5%

Service revenues totaled NIS 731 million (\$209 million) compared to NIS 782 million (\$224 million) in the second quarter last year, a decrease of 6.5%

§ **Operating income** totaled NIS 102 million (\$29 million) compared to NIS 104 million (\$30 million) in the second quarter last year, a decrease of 1.9%

§ **Net income** totaled NIS 45 million (\$13 million) compared to NIS 44 million (\$13 million) in the second quarter last year, an increase of 2.3%

§ **Net income margin** 4.7%, an increase from 4.3% in the second quarter last year

§ **EBITDA**¹ totaled NIS 237 million (\$68 million) compared to NIS 238 million (\$68 million) in the second quarter last year, a decrease of 0.4%

¹ Please see "Use of Non-IFRS financial measures" section in this press release.

§ **EBITDA margin** 24.6%, an increase from 23.1% in the second quarter last year

§ **Net cash from operating activities** totaled NIS 278 million (\$80 million) compared to NIS 204 million (\$58 million) in the second quarter last year, an increase of 36.3%

§ **Free cash flow**¹ totaled NIS 77 million (\$22 million) compared to NIS 103 million (\$29 million) in the second quarter last year, a decrease of 25.2%

§ **Cellular subscriber base** totaled approximately 2.779 million subscribers (at the end of June 2017)

Nir Sztern, the Company's Chief Executive Officer, referred to the results of the second quarter of 2017:

"The results of the second quarter of 2017 reflect an improvement in the financial parameters compared to the previous quarter, in a period of intense competition. In the current quarter, net income increased to NIS 45 million, compared with NIS 26 million in the previous quarter, and revenues were stable and amounting to NIS 962 million, compared to NIS 959 million in the previous quarter. In addition, in the current quarter, EBITDA amounted to NIS 237 million, compared to NIS 201 million in the previous quarter.

Again in this quarter we continued to present rapid growth in the fixed-line worlds that solidify our position as a communications group. The net increase in television households was approximately 13,000 and the net increase in wholesale market households was approximately 16,000. The addition of content from the prestigious HBO content provider to the Cellcom tv service and the launching of the Quattro package in the previous quarter, were received by our customers as significant value proposals, solidifying their choice of us and reinforcing our strategy."

Shlomi Fruhling, Chief Financial Officer, said:

“The second quarter of 2017 was characterized by continued growth in the fixed-line segment and continued competition in the cellular field. The network sharing agreement with Golan came into force as of the beginning of the second quarter of 2017. According to the terms of the agreement, part of the consideration is recognized as revenues and part is recognized as a reduction of operation costs. In addition, revenues from the agreement are now divided between the cellular and fixed-line segments.

Service revenues from the cellular segment decreased by 5.5% compared to the previous quarter. The decrease resulted from the implementation of the network sharing agreement with Golan and was partly offset by an increase in revenues from customers mainly as a result of seasonality. Excluding the effect of the classification of the consideration according to the network sharing agreement with Golan on the cellular segment revenues, the cellular ARPU increased by NIS 0.8 compared to the previous quarter. The service revenues in the fixed-line segment increased by 4.7% compared to the previous quarter. This increase resulted mainly from revenues from fixed-line communications services provided under the network sharing agreement with Golan, as well as increase in revenues from internet and TV services. The EBITDA of the fixed-line segment increased by 88.1% compared to the previous quarter. The increase resulted from increase in the segment revenues, the recognition of a gain of approximately NIS 10 million from the sale of the Group's holdings in Internet Rimon Israel 2009 Ltd and from decrease in the operating expenses of the segment.

Free cash flow for the second quarter of 2017 totaled NIS 77 million, a 16.7% increase compared to the previous quarter. The increase in free cash flow resulted from higher receipts from customers which was partly offset by higher capital expenditures in fixed assets and intangible assets in the current quarter.

The Company's Board of Directors decided not to distribute a dividend for the second quarter of 2017, given the continued intensified competition in the market and its effect on the Company's operating results and in order to further strengthen the Company's balance sheet. The Board of Directors will re-evaluate its decision as market conditions develop, and taking into consideration the Company's needs."

Netanya, Israel – August 4, 2017 – Cellcom Israel Ltd. (NYSE: CEL; TASE: CEL) ("Cellcom Israel" or the "Company" or the "Group") announced today its financial results for the second quarter of 2017.

The Company reported that revenues for the second quarter of 2017 totaled NIS 962 million (\$275 million); EBITDA for the second quarter of 2017 totaled NIS 237 million (\$68 million), or 24.6% of total revenues; net income for the second quarter of 2017 totaled NIS 45 million (\$13 million). Basic earnings per share for the second quarter of 2017 totaled NIS 0.45 (\$0.13).

Financial Review (second quarter of 2017 compared to second quarter of 2016):

Revenues for the second quarter of 2017 decreased 6.5% totaling NIS 962 million (\$275 million), compared to NIS 1,029 million (\$294 million) in the second quarter last year. The decrease in revenues is attributed to a 6.5% decrease in service revenues and a 6.5% decrease in equipment revenues.

Service revenues totaled NIS 731 million (\$209 million) in the second quarter of 2017, a 6.5% decrease from NIS 782 million (\$224 million) in the second quarter last year.

Service revenues in the cellular segment totaled NIS 481 million (\$138 million) in the second quarter of 2017, a 15.2% decrease from NIS 567 million (\$162 million) in the second quarter last year. This decrease resulted from the gap between the national roaming services revenues in the second quarter of 2016 and the revenues for rights of use in cellular networks according to the network sharing agreement with Golan which came into force as the beginning of the second quarter of 2017 and from a decrease in cellular service revenues. The decrease in cellular services revenues resulted from the ongoing erosion in the prices of these services and churn of customers as a result of the competition in the cellular market.

Service revenues in the fixed-line segment totaled NIS 292 million (\$84 million) in the second quarter of 2017, a 10.6% increase from NIS 264 million (\$76 million) in the second quarter last year. This increase resulted mainly from fixed-line communications services provided according to the network sharing agreement with Golan which came into force as the beginning of the second quarter of 2017 as well as increase in revenues from internet and TV services.

Equipment revenues totaled NIS 231 million (\$66 million) in the second quarter of 2017, a 6.5% decrease compared to NIS 247 million (\$71 million) in the second quarter last year. This decrease resulted mainly from a decrease in the amount of end user equipment sold in the cellular segment. This decrease was partially offset by an increase in equipment sales in the fixed-line segment.

Cost of revenues for the second quarter of 2017 totaled NIS 665 million (\$190 million), compared to NIS 666 million (\$191 million) in the second quarter of 2016, a 0.2% decrease. This decrease resulted mainly from Golan's participation in operating costs according to the network sharing agreement which came into force as of the beginning of the second quarter of 2017. The decrease was partially offset by an increase in costs of TV services content and in costs related to internet services in the fixed-line segment.

Gross profit for the second quarter of 2017 decreased 18.2% to NIS 297 million (\$85 million), compared to NIS 363 million (\$104 million) in the second quarter of 2016. Gross profit margin for the second quarter of 2017 amounted to 30.9%, down from 35.3% in the second quarter of 2016.

Selling, Marketing, General and Administrative Expenses ("SG&A Expenses") for the second quarter of 2017 decreased 15.5% to NIS 207 million (\$59 million), compared to NIS 245 million (\$70 million) in the second quarter of 2016. This decrease is primarily a result of a decrease in salaries and commissions expenses due to capitalization of part of the customer acquisition costs as a result of early adoption of a new International Financial Reporting Standard (IFRS 15) since the first quarter of 2017. The effect of the adoption of the standard on the second quarter of 2017 expenses is in a total amount of NIS 20 million (\$6 million). In addition, the decrease in expenses resulted from the Company's continuous efforts to reduce ongoing operating expenses.

Other income for the second quarter of 2017 totaled NIS 12 million (\$3 million), compared with other expenses of NIS 14 million (\$4 million) in the second quarter of 2016. Other income for the second quarter of 2017 mainly include a gain from the sale of Internet Rimon Israel 2009 Ltd., an indirect subsidiary of the Company, in the amount of approximately NIS 10 million (\$3 million), compared to an expense for employee voluntary retirement plan in the amount of approximately NIS 13 million (\$4 million) in the second quarter of 2016.

Operating income for the second quarter of 2017 decreased by 1.9% to NIS 102 million (\$29 million) from NIS 104 million (\$30 million) in the second quarter of 2016.

EBITDA for the second quarter of 2017 decreased by 0.4% totaling NIS 237 million (\$68 million) compared to NIS 238 million (\$68 million) in the second quarter of 2016. EBITDA as a percent of revenues for the second quarter of 2017 totaled 24.6%, up from 23.1% in the second quarter of 2016.

Cellular segment EBITDA for the second quarter of 2017 totaled NIS 158 million (\$45 million), compared to NIS 181 million (\$52 million) in the second quarter last year, a decrease of 12.7%, which resulted mainly from the gap between national roaming services revenues in the second quarter of 2016 and the revenues for rights of use in cellular networks according to the network sharing agreement with Golan which came into force as the beginning of the second quarter of 2017 and from the ongoing erosion in the service revenues. The decrease was partially offset by a decrease in selling and marketing expenses due to the capitalization of part of the customer acquisition costs as a result of early adoption of a new International Financial Reporting Standard (IFRS15) since the first quarter of 2017. Fixed-line segment EBITDA for the second quarter of 2017 totaled NIS 79 million (\$23 million), compared to NIS 57 million (\$16 million) in the second quarter last year, a 38.6% increase, mainly as a result of a decrease in operating expenses and an increase in revenues from fixed-line communications services provided according to the network sharing agreement with Golan as well as a gain from the sale of Internet Rimon Israel 2009 Ltd., an indirect subsidiary of the Company.

Financing expenses, net for the second quarter of 2017 were similar to the second quarter of 2016 and totaled NIS 44 million (\$12 million).

Net Income for the second quarter of 2017 totaled NIS 45 million (\$13 million), compared to NIS 44 million (\$13 million) in the second quarter of 2016, an increase of 2.3%.

Basic earnings per share for the second quarter of 2017 totaled NIS 0.45 (\$0.13), compared to NIS 0.43 (\$0.12) in the second quarter last year.

In the second quarter of 2017, the Company's households base in respect of the internet infrastructure field increased by approximately 16,000 net households, and the Company's households base in the TV field increased by 13,000 net households.

Financing and Investment Review

Cash Flow

Free cash flow for the second quarter of 2017 totaled NIS 77 million (\$22 million), compared to NIS 103 million (\$29 million) in the second quarter of 2016, a 25.2% decrease. The decrease in free cash flow, resulted mainly from higher cash capital expenditures in fixed assets and intangible assets in the second quarter of 2017 compared to the second quarter of 2016, which was partly offset by decrease in payments to end user equipment suppliers in the cellular segment.

Total Equity

Total Equity as of June 30, 2017 amounted to NIS 1,398 million (\$400 million) primarily consisting of undistributed accumulated retained earnings of the Company.

Cash Capital Expenditures in Fixed Assets and Intangible Assets

During the second quarter of 2017, the Company invested NIS 191 million (\$55 million) in fixed assets and intangible assets (including, among others, investments in the Company's communications networks, information systems, software and TV set-top boxes and capitalization of part of the customer acquisition costs as a result of early adoption of a new International Financial Reporting Standard (IFRS 15) since the first quarter of 2017), compared to NIS 102 million (\$29 million) in the second quarter 2016.

Dividend

On August 4, 2017, the Company's Board of Directors decided not to declare a cash dividend for the second quarter of 2017. In making its decision, the board of directors considered the Company's dividend policy and business status and decided not to distribute a dividend at this time, given the intensified competition and its adverse effect on the Company's results of operations, and in order to strengthen the Company's balance sheet. The board of directors will re-evaluate its decision in future quarters. No future dividend declaration is guaranteed and is subject to the Company's board of directors' sole discretion, as detailed in the Company's annual report for the year ended December 31, 2016 on Form 20-F dated March 20, 2017, or the 2016 Annual Report, under "Item 8 - Financial Information – A. Consolidated Statements and Other Financial Information - Dividend Policy".

Loans from Financial Institutions

According to a loan agreement entered by the Company and two financial institutions in May 2015, in June 2017 the second loan under the agreement in a principal amount of NIS 200 million was provided to the Company. The loan is without linkage and the principal amount bears an annual fixed interest of 5.1%, and will be paid in four equal annual payments on June 30 of each calendar year commencing June 30, 2019 through and including June 30, 2022. The interest will be paid in ten semi-annual installments on June 30 and December 31, of each calendar year commencing December 31, 2017 through and including June 30, 2022.

For details regarding the fulfillment of financial covenants included in the loan agreements, which are identical to those included in the Company's Debentures Series F through K, see comment no.1 to the table of "Aggregation of the information regarding the debenture series issued by the Company" under "Disclosure for Debenture Holders" section in this press release. For additional details regarding the loans see the Company's 2016 Annual Report, under "Item 5B. Liquidity and Capital Resources – Other Credit Facilities".

Regulation

Wholesale Market

In June 2017, the Ministry of Communications published the maximum tariffs for Hot Telecom L.P., or Hot, wholesale internet infrastructure services (after a petition filed by Hot against the Ministry of Communications in February 2017, claiming the Ministry of Communications was required to hold another hearing prior to setting maximum tariffs, was dismissed). Due to disagreements with Hot as to the implementation of the service (which await resolution by the Ministry of Communications), it is unclear when the service - which was to be offered by Hot as of February 2015 – will be offered. The maximum tariffs set are higher than those set for Bezeq the Israeli Telecommunications Company Ltd., or Bezeq, the other wholesale internet service provider.

In addition, in June 2017, the Ministry of Communications published regulations setting Bezeq's resale telephony service to be provided by Bezeq as of July 2017, as a temporary 14 month alternative for wholesale landline telephony service. In addition, the Ministry of Communications resolved that Bezeq's obligation to offer wholesale telephony service, which was to be offered by Bezeq as of May 2015, will be postponed until the lapse of said resale telephony service period. The resolution further notes that the Ministry of Communications will consider the resale telephony service as a permanent replacement of the telephony wholesale service. The tariffs set for the resale telephony service

are substantially higher than those set for Bezeq's telephony wholesale service.

The Ministry of Communications is holding a public hearing in relation to the aforementioned tariffs, to be applied retroactively after its conclusion.

Cellular License Amendment

In July 2017, following the previously reported amendment to the Company's cellular license in relation to the requirement that Israeli citizens and residents from among the Company's founding shareholders hold at least 5% of the Company's outstanding shares and other means of control, as of July 2017, the Israeli Ministry of Communications amended the Company's cellular license so as to postpone the application of such requirement until October 31, 2017.

For additional details see the Company's Annual Report for 2016 under "Item 3. Key Information – D. Risk Factors - Risks Related to our Business – There are certain restrictions in our licenses relating to the ownership of our shares" and "Item 4. Information on the Company – B. Business Overview – Government Regulations – Cellular Segment – Our Cellular License".

Change in Independent Auditors

In July 2017, Kesselman & Kesselman, or PwC Israel, one of the Company's joint independent registered public accounting firms, concluded serving as the Company's joint independent registered public accounting firm. Somekh Chaikin, a member of KPMG International, the Company's other joint independent registered public accounting firm, will continue to serve as the Company's sole independent registered public accounting firm.

PwC Israel's audit reports on the consolidated financial statements for the fiscal year ended December 31, 2016 of Cellcom Israel Ltd. did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principle. During the Company's fiscal year ended December 31, 2016 and the subsequent interim period through March 31, 2017, there were no disagreements between the Company and PwC Israel on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to PwC Israel's satisfaction, would have caused PwC Israel to make reference to the matters in their reports on the Company's consolidated financial statements for such year. During the Company's fiscal year ended December 31, 2016 and the subsequent interim period through March 31, 2017, there

have been no reportable events (as defined in S-K 304(a)(1)(v)).

Debt Raising

Private Debentures Placement

In June 2017, the Company entered into an agreement with certain Israeli institutional investors, according to which the Company irrevocably undertook to issue to the institutional investors, and the institutional investors irrevocably undertook to purchase from the Company, NIS

220 million aggregate principal amount of additional debentures of the existing series K debentures (which are listed on the Tel Aviv Stock Exchange, or TASE), on July 1, 2018, or the Agreed Date.

The price was set at NIS 1.011 for each Series K debenture (which bear a stated interest rate of 3.55% per annum) of NIS 1 principal amount, or a total consideration of approximately NIS 222 million, reflecting an effective interest yield of 3.6% per annum. The Company is required to pay a certain commitment fee to the institutional investors. In case the debentures' rating on the Agreed Date shall be il/(A-) or below, the price shall be reduced to NIS 1.001 for each Series K debenture of NIS 1 principal amount.

The closing of the issuance will be subject to certain customary conditions, including: the receipt of the TASE's approval, the absence of any event of default under the series K debentures indenture, the Company having an Israeli shelf prospectus in force, and satisfaction of the conditions set out in the series K debentures indenture for the issuance of additional K debentures (meaning, aside from the no events of default condition detailed above, that the issuance of additional debentures itself will not cause a rating downgrade compared to the rating prior to such issuance, and that the Company meets the financial covenants applicable to the series K debentures on the date of such issuance and thereafter). In June 2017, the TASE granted the Company the said requisite approval.

In relation to the said offering, the Company's rating agency reaffirmed the current rating of ilA+/stable for the Company and its debentures.

The offering described in this press release was made only in Israel and only to residents of Israel. The said debentures will not be registered under the U.S. Securities Act of 1933 and will not be offered or sold in the United States. This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities.

Loan Agreement

In June 2017, the Company entered into a loan agreement with an Israeli bank that provided the Company a similar loan in August 2015 (the "Lender" and the "2015 Loan Agreement", respectively), according to which the Lender has agreed, subject to certain customary conditions, to provide the Company a deferred loan in a principal amount of NIS 150 million, unlinked, which will be provided to the Company in March 2019, and will bear an annual fixed interest of 4%. The loan's principal amount will be payable in four equal annual payments on March 31 of each of the years 2021 through and including 2024 and the interest will be payable in ten semi-annual installments on March 31 and September 30 of each calendar year commencing September 30, 2019 through and including March 31, 2024. Until the provision of the loan, the Company is required to pay the Lender a commitment fee.

The agreement includes similar terms and obligations to those included in the Company's August 2015 loan agreement and applies the right to demand immediate repayment of either or both agreements due to certain events of default under either agreement.

For additional details regarding the Company's existing debentures and existing loan agreements, including the August 2015 loan agreement, see the Company's 2016 Annual Report under "Item 5B. Liquidity and Capital Resources – Debt Service – Public Debentures" and "-Other Credit Facilities" and the Company's current report on Form 6-K dated June 1, 2017.

Sale of Indirect Subsidiary of the company

In June 2017, the previously reported sale of 013 Netvision Ltd. (the Company's wholly owned indirect subsidiary) holdings in Internet Rimon Israel 2009 Ltd. was completed.

For additional details see the Company's current report on Form 6-K dated May 24, 2017 under "Other developments during the first quarter of 2017 and subsequent to the end of the reporting period - Sale of Indirect Subsidiary".

Changes in Management- Vice President of Business Customers

In July 2017, Ms. Keren Shtevy notified the Company of her resignation from her position as the Company's vice president of business customers, and will be leaving the Company on August 15, 2017, after 19 years of successful and extensive tenure in 013 Netvision Ltd. and the Company. The Company's board of directors has nominated Mr. Nadav Amsalem as the Company's vice president of business customers, effective July 20, 2017.

Nadav Amsalem has served as head of the strategic customers department in the Company's business customers division, in charge of the major corporate business customers from 2014. From 2011 to 2014, he served as the director of strategic landline customers and major business customers sector. Mr. Amsalem has been a member of the Company's business customer's division since 2006.

IDB

In May 2017, IDB Development Corporation Ltd., or IDB, the Company's indirect controlling shareholder, announced in connection to the Concentration Law (according to which IDB and Discount Investment Corporation Ltd., or DIC, may not retain control over the Company beyond December 2019 so long as the Company is a third layer company in their pyramidal structure), that after reviewing possible ways to deal with this restriction, IDB is proposing to sell its holdings in DIC to a private company controlled by IDB's controlling shareholder. There can be no assurance of how or when this would occur, if at all.

For information about the Concentration Law, see the Company's 2016 Annual Report, under "Item 3.D - legislation in Israel affecting corporate conglomerates could adversely affect us."

Forward-Looking Statements

The following information contains, or may be deemed to contain forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995 and the Israeli Securities Law, 1968). In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “expect,” “plan,” “anticipate,” “estimate,” “predict,” “potential” or “continue,” the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about the Company, may include projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. These statements are only predictions based on the Company's current expectations and projections about future events. There are important factors that could cause the Company's actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause such differences include, but are not limited to: changes to the terms of the Company's license, new legislation or decisions by the regulator affecting the Company's operations, new competition and changes in the competitive environment, the outcome of legal proceedings to which the Company is a party, particularly class action lawsuits, the Company's ability to maintain or obtain permits to construct and operate cell sites, and other risks and uncertainties detailed from time to time in the Company's filings with the U.S. Securities and Exchange Commission, including under the caption “Risk Factors” in its Annual Report for the year ended December 31, 2016.

Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or achievements. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The Company assumes no duty to update any of these forward-looking statements after the date hereof to conform its prior statements to actual results or revised expectations, except as otherwise required

by law.

The Company prepares its financial statements in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). Unless noted specifically otherwise, the dollar denominated figures were converted to US\$ using a convenience translation based on the New Israeli Shekel (NIS)/US\$ exchange rate of NIS 3.496 = US\$ 1 as published by the Bank of Israel for June 30, 2017.

Use of non-IFRS financial measures

EBITDA is a non-IFRS measure and is defined as income before financing income (expenses), net; other income (expenses), net (excluding expenses related to employee voluntary retirement plans and gain (loss) due to sale of subsidiaries); income tax; depreciation and amortization and share based payments. This is an accepted measure in the communications industry. The Company presents this measure as an additional performance measure as the Company believes that it enables us to compare operating performance between periods and companies, net of any potential differences which may result from differences in capital structure, taxes, age of fixed assets and related depreciation expenses. EBITDA should not be considered in isolation, or as a substitute for operating income, any other performance measures, or cash flow data, which were prepared in accordance with Generally Accepted Accounting Principles as measures of profitability or liquidity. EBITDA does not take into account debt service requirements, or other commitments, including capital expenditures, and therefore, does not necessarily indicate the amounts that may be available for the Company's use. In addition, EBITDA as presented by the Company may not be comparable to similarly titled measures reported by other companies, due to differences in the way these measures are calculated. See the reconciliation of net income to EBITDA under "Reconciliation of Non-IFRS Measures" in the press release.

Free cash flow is a non-IFRS measure and is defined as the net cash provided by operating activities (including the effect of exchange rate fluctuations on cash and cash equivalents) excluding a loan to Golan Telecom, minus the net cash used in investing activities excluding short-term investment in tradable debentures and deposits and proceeds from sales of such debentures (including interest received in relation to such debentures) and deposits. See "Reconciliation of Non-IFRS Measures" below.

Cellcom Israel Ltd. and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements

Note 1 - General

Cellcom Israel Ltd. (the "Company") is a company incorporated and domiciled in Israel and its official address is 10 Hagavish Street, Netanya 4250708, Israel. The condensed consolidated interim financial statements of the Group as at June 30, 2017 comprise the Company and its subsidiaries (together referred to as the "Group"). The Group operates and maintains a cellular mobile telephone system in Israel and provides cellular and landline telecommunications services, internet infrastructure and connectivity services, international calls services and television over the internet services (known as Over the Top TV services, or OTT TV services). The Company is a subsidiary of Discount Investment Corporation (the parent company "DIC"), which is controlled by IDB Development Corporation Ltd., or IDB.

B. Material event in the reporting period - Change in estimate

In the reporting period, the Company has changed the expected useful life of certain intangible asset items. For further information, see Note 2E, regarding the basis of preparation of the financial statements.

Note 2 - Basis of Preparation

A. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting and do not include all of the information required for full annual financial statements. They should be read in conjunction with the financial statements as at and for the year ended December 31, 2016 (hereinafter - "the annual financial statements").

These condensed consolidated interim financial statements were authorized for issue by the Company's Board of Directors on August 4, 2017.

B. Functional and presentation currency

These condensed consolidated financial statements are presented in New Israeli Shekel ("NIS"), which is the Group's functional currency, and are rounded to the nearest million. NIS is the currency that represents the primary economic environment in which the Group operates.

C. Basis of measurement

These condensed consolidated financial statements have been prepared on the basis of historical cost except for the following assets and liabilities: current investments and derivative financial instruments that are measured at fair value through profit or loss, deferred tax assets and liabilities, assets and liabilities in respect of employee benefits and provisions.

D. Convenience translation into U.S. dollars (“dollars” or “\$”)

For the convenience of the reader, the reported NIS figures as of and for the six and three month periods ended June 30, 2017, have been presented in dollars, translated at the representative rate of exchange as of June 30, 2017 (NIS 3.496 = US\$ 1.00). The dollar amounts presented in these financial statements should not be construed as representing amounts that are receivable or payable in dollars or convertible into dollars, unless otherwise indicated.

Note 2 - Basis of Preparation (cont'd)

E. Use of estimates and judgments

Except as described below, the estimates and underlying assumptions that were applied in the preparation of these interim financial statements are consistent with those applied in the preparation of the annual financial statements.

During the six and three month periods ended June 30, 2017, management has updated an estimate as follows:

Towards the end of the Company's 2G and 3G frequencies (the "Frequencies") original amortization period, the Company's annual depreciation committee examined the estimated useful life of the Frequencies. Based on Company's estimate, the Company will continue to use the Frequencies at least for the next 10 years.

The estimated useful life of the Frequencies was determined in the past according to the period of the Company's cellular license (until 2022).

According to applicable law, the Company's cellular license may be extended for additional 6-year periods, subject to the requirements set in the license. The Company estimates that based on its experience and acquaintance with the communications market in Israel, if current conditions continue, there is high probability that the license will be extended for an additional term of 6 years.

In light of the aforesaid, the estimated useful life of the Frequencies has been re-evaluated for the first time, for an additional period of ten years, starting from the beginning of the second quarter of 2017 and ending in 2028 (instead of 18-20 years ending in 2022, as originally estimated).

The effect of this change on the condensed consolidated interim financial statements, in current and future periods is as follows:

	For the six month period ended June 30, 2017	For the three month period ended June 30, 2017	For the six month period ending December 31, 2017	Subsequently

Note 3 - Significant Accounting Policies

Except as described below, the accounting policies of the Group in these condensed consolidated interim financial statements are the same as those applied in the annual financial statements.

Below is a description of the essence of the change made in the accounting policies used in the condensed consolidated interim financial statement and its effect:

Adoption of a new standard effective January 1, 2017

IFRS15, Revenue from Contracts with Customers

Effective January 1, 2017 the Group early adopted International Financial Reporting Standard 15 (“IFRS 15” or “the standard”), which provides guidance on revenue recognition.

The standard introduces a new five step model for recognizing revenue from contracts with customers:

1. Identifying the contract with the customer.
2. Identifying separate performance obligations in the contract.
3. Determining the transaction price.
4. Allocating the transaction price to separate performance obligations.
5. Recognizing revenue when the performance obligations are satisfied.

The standard was applied using the cumulative effect approach as from the initial date of application, with an adjustment to the balance of retained earnings as at January 1, 2017 and without restating comparative data.

Cellcom Israel Ltd. and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements

Note 3 - Significant Accounting Policies (cont'd)

In the framework of the initial application of the standard, the Group has chosen to apply the following expedients:

1. Application of the cumulative effect approach only for contracts not completed at the transition date; and
2. Examining the aggregate effect of contract changes that occurred before the date of initial application, instead of examining each change separately.

The main impact of the standard on the Group's financial statements is that customer acquisition costs are capitalized when it is expected that the Group will recover these costs, instead of recognizing these costs in profit or loss as incurred, as was done prior to the adoption of the standard. Accordingly, incremental incentives and commissions paid to Group employees and resellers for securing contracts with customers, are recognized as an asset and are amortized to profit or loss, in accordance with the expected service period from these contracts (over a period of 2-3 years). Such customer acquisition costs capitalization, is expected to have a material positive effect on the Group's results of operations in the coming years, which will be leveled off in later years.

In the statements of cash flows, customer acquisition costs paid are presented as part of cash flows used in investing activities.

The Group applies the practical exemption specified in the standard and recognizes customer acquisition costs in profit or loss when the expected amortization period of these costs is one year or less.

In respect of contracts which have not been concluded until the date of transition, such change did not have a material impact on the retained earnings at the initial date of application.

The tables below present the effects on the condensed consolidated interim statements of financial position as at June 30, 2017 and on the condensed consolidated interim statements of income for the six and three month periods then ended, assuming that the previous revenue recognition policy would have continued in that period:

According to the standard, incremental costs of obtaining a contract with a customer are recognized as an asset when it is probable that the Group will recover those costs. Accordingly, incremental incentives and commissions paid to Group employees and resellers for securing contracts with customers, are recognized as an asset and amortized to profit or loss in accordance with the expected service period from these contracts.

Cellcom Israel Ltd. and Subsidiaries**Notes to the Condensed Consolidated Interim Financial Statements****Note 4 - Operating Segments**

The Group operates in two reportable segments, as described below, which are the Group's strategic business units. The strategic business unit's allocation of resources and evaluation of performance are managed separately. The operating segments were determined based on internal management reports reviewed by the Group's chief operating decision maker (CODM). The CODM does not examine assets or liabilities for those segments and therefore, they are not presented.

Cellular segment - the segment includes the cellular communications services, cellular equipment and supplemental services.

Fixed-line segment - the segment includes landline telephony services, internet infrastructure and connectivity services, television services, landline equipment and supplemental services.

The accounting policies of the reportable segments are the same as described in the annual financial statements in Note 3, regarding Significant Accounting Policies.

* See Note 3 regarding the early adoption of IFRS 15, *Revenue from Contracts with Customers*.

** Segment EBITDA as reviewed by the Group's CODM, represents earnings before interest (financing expenses, net), taxes, other income (expenses) (except for an expense in the amount of approximately NIS 13 million in respect of voluntary retirement plan for employees, which has been recorded in the second quarter of 2016 and a capital gain in the amount of approximately NIS 10 million due to a sale of a subsidiary which has been recorded in the second quarter of 2017 (see Note 8, regarding Sale of Indirect Subsidiary)), depreciation and amortization and share based payments, as a measure of operating profit. Segment EBITDA is not a financial measure under IFRS and may not be comparable to other similarly titled measures for other companies.

Note 5 - Debentures and Long-term Loans from Financial Institutions

Debentures

In June 2017, the Company entered into an agreement with certain Israeli institutional investors, according to which the Company irrevocably undertook to issue to the institutional investors, and the institutional investors irrevocably undertook to purchase from the Company, NIS 220 million aggregate principal amount of additional debentures of the existing series K debentures (which are listed on the Tel Aviv Stock Exchange, or TASE), on July 1, 2018, or the Agreed Date.

The price was set at NIS 1.011 for each Series K debenture (which bear a stated interest rate of 3.55% per annum) of NIS 1 principal amount, or a total consideration of approximately NIS 222 million, reflecting an effective interest yield of 3.6% per annum. The Company is required to pay a certain commitment fee to the institutional investors. In case the debentures' rating on the Agreed Date shall be il(A-) or below, the price shall be reduced to NIS 1.001 for each Series K debenture of NIS 1 principal amount.

The closing of the issuance will be subject to certain customary conditions, including: the receipt of the TASE's approval, the absence of any event of default under the series K debentures indenture, the Company having an Israeli shelf prospectus in force, and satisfaction of the conditions set out in the series K debentures indenture for the issuance of additional K debentures (meaning, aside from the no events of default condition detailed above, that the issuance of additional debentures itself will not cause a rating downgrade compared to the rating prior to such issuance, and that the Company meets the financial covenants applicable to the series K debentures on the date of such issuance and thereafter). In June 2017, the TASE granted the Company the said requisite approval.

In relation to the said offering, the Company's rating agency reaffirmed the rating of i1A+/stable for the Company and its debentures.

Note 5 - Debentures and Long-term Loans from Financial Institutions (cont'd)

Long-term Loans from Financial Institutions

In June 2017, the Company entered into a loan agreement with an Israeli bank that provided the Company a similar loan in August 2015 (the "Lender" and the "2015 Loan Agreement", respectively), according to which the Lender has agreed, subject to certain customary conditions, to provide the Company a deferred loan in a principal amount of NIS 150 million, unlinked, which will be provided to the Company in March 2019, and will bear an annual fixed interest of 4%. The loan's principal amount will be payable in four equal annual payments on March 31 of each of the years 2021 through and including 2024 and the interest will be payable in ten semi-annual installments on March 31 and September 30 of each calendar year commencing September 30, 2019 through and including March 31, 2024. Until the provision of the loan, the Company is required to pay the Lender a commitment fee.

The agreement includes similar terms and obligations to those included in the Company's August 2015 loan agreement (for additional details, see Note 17(2) to the annual financial statements, regarding long-term loans from financial institutions) and applies the right to demand immediate repayment of either or both agreements due to certain events of default under either agreement.

According to a loan agreement entered by the Company and two Israeli financial institutions in May 2015 (for additional details, see Note 17(2) to the annual financial statements, regarding long-term loans from financial institutions), in June 30, 2017 the second loan under the agreement in a principal amount of NIS 200 million was provided to the Company. The loan is without linkage and the principal amount bears an annual fixed interest of 5.1%. The loan's principal amount will be payable in four equal annual payments on June 30 of each of the years 2019 through 2022 (inclusive). The interest will be paid in ten semi-annual installments on June 30 and December 31, of each calendar year commencing December 31, 2017 through and including June 30, 2022.

Note 8 - Sale of Indirect Subsidiary

In May 2017, a wholly owned indirect subsidiary of the Company, 013 Netvision Ltd., or Netvision, has entered an agreement for the sale of its holdings in Internet Rimon Israel 2009 Ltd., or Rimon, a subsidiary of Netvision, to the other shareholders of Rimon. In June 2017, the sale of Netvision's holdings in Rimon was completed, following which the Company recorded a capital gain of approximately NIS 10 million. The consideration shall be paid to Netvision in several installments over a period of two years from the closing of the transaction.

Note 9 - Commitments

In March 2017 and in April 2017, the Company's network sharing and hosting services agreements with Marathon 018 Xfone Ltd. (which has not entered the cellular market yet) and with Electra Consumer Products Ltd., or Electra, respectively, came into effect after their respective preliminary conditions were met and the Company's agreement with Electra was adopted by Golan Telecom Ltd., or Golan Telecom, upon completion of its share capital being purchased by Electra.

Upon completion of the Company's network sharing and hosting services agreement with Electra/Golan Telecom, or the Network Sharing Agreement, a loan in an amount of NIS 130 million was provided to Golan Telecom according to the terms of such agreement.

According to the terms of the Network Sharing Agreement, part of the consideration is recognized as revenues and part is recognized as a reduction of operation costs.

The Network Sharing Agreement includes a number of performance obligations for revenue recognition purposes:

- Right of Use (IRU) to Golan Telecom to the passive elements of the Company;

- Right of Use (IRU) to Golan Telecom in half of the existing active elements of the 3G and 4G network and 2G hosting services;

- Transmission services to Golan Telecom.

For additional details, see Note 30(6) to the annual financial statements.

Note 10 - Contingent Liabilities

In the ordinary course of business, the Group is involved in various lawsuits against it. The costs that may result from these lawsuits are only accrued for when it is more likely than not that a liability, resulting from past events, will be

incurred and the amount of that liability can be quantified or estimated within a reasonable range. The amount of the provisions recorded is based on a case-by-case assessment of the risk level, while events that occur in the course of the litigation may require a reassessment of this risk. The Group's assessment of risk is based both on the advice of its legal counsels and on the Group's estimate of the probable settlements amounts that are expected to be incurred, if such settlements will be agreed by both parties. The provision recorded in the condensed consolidated interim financial statements as of June 30 2017, in respect of all lawsuits against the Group amounts to approximately NIS 56 million.

Described hereunder are details regarding new purported class actions which have been added during the reporting period or updates on lawsuits which were included in the annual financial statements. The amounts presented below are calculated based on the claims amounts as of the date of their submission to the Group and refer to the sum estimated by the plaintiffs, if the lawsuit is certified as a class action.

Consumer claims

In the ordinary course of business, lawsuits have been filed against the Group by its customers. These are mostly requests for approval of class action lawsuits, particularly concerning allegations of illegal collection of funds, unlawful conduct or breach of license, or a breach of agreements with customers, causing monetary and non-monetary damage to them. During the reporting period, five purported class actions have been filed against the Group (two of which were included in Note 31(1) to the annual financial statements): three purported class actions against the Group in the total sum estimated by the plaintiffs to be approximately NIS 18 million and two purported class actions against the Group, without specifying the amount claimed from the Group. At this early stage, it is not possible to assess their chances of success.

Notes to the Condensed Consolidated Interim Financial Statements

Note 10 - Contingent Liabilities (cont'd)

Consumer claims (cont'd)

During the reporting period, twelve purported class actions (six of which were reported as dismissed in Note 31(1) to the annual financial statements), were concluded: eight purported class actions against the Group for a total sum of approximately NIS 487 million, a purported class action against the Group, in which the amount claimed has not been quantified by the plaintiffs, two purported class actions against the Group and other defendants together in which the amount claimed has not been quantified by the plaintiffs and a purported class action for approximately NIS 6.7 billion, that has been filed against the Group and other defendants together.

In December 2016, the District court partially approved a request to certify a lawsuit filed against the Company in July 2014 as a class action, relating to an allegation that the commercial messages the Company sent to its subscribers failed to meet the requirements by applicable law. In January 2017, the plaintiffs appealed the dismissal of the allegations which were not approved, to the Supreme Court. The total amount claimed was estimated by the plaintiffs to be approximately NIS 21 million.

In January 2017, the District court partially approved a request to certify a lawsuit filed against the Group in February 2013 as a class action, relating to an allegation that the Group failed to disconnect customers within the time frame set in its license and applicable law. In March 2017, the plaintiffs appealed the dismissal of the allegations which were not approved, to the Supreme Court. The total amount claimed was estimated by the plaintiffs to be approximately NIS 72 million.

After the end of the reporting period, a purported class action has been filed against the Group, in a total amount estimated by the plaintiffs to be approximately NIS 272 million, if the lawsuit is certified as a class action. At this early stage it is not possible to assess its chances of success.

After the end of the reporting period, a purported class action against the Group and other defendants, in which the amount claimed has not been quantified by the plaintiffs, was concluded.

Described hereunder are purported class actions against the Group, in which the amount claimed was NIS 1 billion or more:

1. In March 2015, a purported class action in a total amount estimated by the plaintiffs to be approximately NIS 15 billion, if the lawsuit is certified as a class action, was filed against the Company, by plaintiffs alleging to be subscribers of the Company, in connection with allegations that the Company unlawfully violated the privacy of its subscribers. In February 2017, a settlement agreement was filed with the court and proceedings are still pending.

2. In December 2015, a purported class action was filed against the Company and two other defendants, alleging that the defendants unlawfully offer cellular pre-paid calling cards for very high prices by allegedly coordinating such prices among them. The total amount claimed from all defendants, including the Company, had the lawsuit been certified as a class action, was estimated by the plaintiffs to be approximately NIS 13 billion, out of which, based on the data specified in the lawsuit by the plaintiffs, an estimated amount of approximately NIS 6.7 billion was claimed from the Company. In September 2016, the purported class action was dismissed by the District Court. In November 2016, the plaintiffs filed an appeal regarding the District Court's decision and in January 2017, the Supreme Court dismissed their appeal.
