PROXY STATEMENT

This proxy statement contains information related to the annual meeting of shareholders of Verticalnet, Inc. to be held on Wednesday, June 18, 2003, beginning at 10:00 a.m. local time, at the offices of Morgan, Lewis & Bockius, 1701 Market Street, Philadelphia, Pennsylvania 19103, and any postponements or adjournments thereof. Verticalnet first mailed these proxy materials to shareholders on or about May 16, 2003.

ABOUT THE MEETING

What is the purpose of the annual meeting?

At the annual meeting, shareholders will act upon the matters listed in the Notice of Annual Meeting and any other matters that properly come before the meeting. In addition, the management team will report on the performance of Verticalnet during its 2002 fiscal year and respond to questions from shareholders.

Who can vote at the meeting?

All shareholders of record at the close of business on March 20, 2003, or the record date, are entitled to vote at the meeting and any postponements or adjournments of the meeting.

What are the voting rights of the holders of the common stock?

Holders of the common stock will vote on all matters to be acted upon at the annual meeting. Each outstanding share of the common stock will be entitled to one vote on each matter to be voted upon at the meeting.

Who can attend the meeting?

Edgar Filing: VERTICALNET INC - Form DEF 14A

All shareholders as of the record date, or their duly appointed proxies, may attend the meeting. Each shareholder may be asked to present valid picture identification, such as a driver's license or passport. If you hold your shares through a broker or other nominee, you must bring a copy of a brokerage statement reflecting your stock ownership as of the record date. Everyone must check in at the registration desk at the meeting.

How do I vote?

You may attend the annual meeting and vote in person. Alternatively, you may vote your shares by proxy:

- By mail

- By telephone

- Via the Internet

To vote by mail, simply mark, sign and date your proxy card and return it in the postage-paid envelope provided. The enclosed proxy card contains instructions for telephone or Internet voting, which is available to shareholders 24 hours a day, 7 days a week until noon, Malvern, Pennsylvania time on June 17, 2003.

Please note that if your shares are held in street name, you must check the proxy card or contact your broker or nominee to determine if you will be able to vote by telephone or via the Internet. If you want to vote in person at the meeting and you hold Verticalnet stock in street name, you must obtain a proxy card from your broker and bring that proxy card to the meeting, together with a copy of a brokerage statement reflecting your stock ownership as of the record date.

Please also note that by casting your vote by proxy in any of the three ways listed above, you are authorizing the individuals listed on the proxy card to vote your shares in accordance with your instructions.

Is my vote confidential?

Yes. Proxy cards, ballots and voting tabulations that identify shareholders are kept confidential except in certain circumstances where it is important to protect the interests of Verticalnet and its shareholders.

What if I do not indicate my preference on the proxy card?

If you do not indicate how you would like your shares to be voted for a particular nominee for director, your shares will be voted FOR the election of the nominee. If you withhold your vote for a particular nominee for director, your shares will be voted AGAINST that particular nominee. As to other matters as may properly come before the meeting (or any adjournments or postponements thereof), the proxy holders will vote as recommended by the board of directors. If no such recommendation is made, the proxy holders will be authorized to vote upon such matters in their own discretion.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the Secretary of Verticalnet either a notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the meeting in person and request to recast your vote. Attendance at the meeting will not, by itself, revoke a previously granted proxy.

What constitutes a quorum?

As of the record date, Verticalnet had 13,710,685 shares of its common stock outstanding. The presence at the meeting, in person or by proxy, of the holders entitled to cast at least a

majority of votes which all shareholders are entitled to cast as of the record date will constitute a quorum. Broker non-votes, abstentions and votes withheld count as shares present at the meeting for purposes of a quorum.

What are the recommendations of the Board of Directors?

Unless you instruct otherwise on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the board of directors. The board's recommendations are set forth below. In summary, the board recommends a vote:

- **FOR** the election of the nominated slate of directors;

- **FOR** the approval of the amendment of the Verticalnet, Inc. 2000 Equity Compensation Plan.

The proxy holders will vote as recommended by the board of directors with respect to any other matter that properly comes before the meeting. If the board of directors on any such matter gives no recommendation, the proxy holders will vote in their own discretion.

What vote is required to approve each proposal?

Election of Directors. The affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. A properly executed proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Approval of Amendment of Verticalnet, Inc. 2000 Equity Compensation Plan. For Proposal 2, the approval of the amendment of the Verticalnet, Inc. Equity Compensation Plan, the affirmative vote of a majority of the votes cast by all shareholders entitled to vote for the proposal will be required for approval. A properly executed proxy marked **ABSTAIN** with respect to any such matter will be counted for purposes of determining whether there is a quorum. However, under Pennsylvania law, a proxy marked **ABSTAIN** is not considered a vote cast. Accordingly, an abstention will have no effect on the approval of the proposal.

Other Proposals. For each other proposal that may be properly brought before the meeting, the affirmative vote of a majority of the votes cast by all shareholders entitled to vote for the proposal will be required for approval. A properly executed proxy marked **ABSTAIN** with respect to any such matter will be counted for purposes of determining whether there is a quorum. However, under Pennsylvania law, a proxy marked **ABSTAIN** is not considered a vote cast. Accordingly, an abstention will have no effect on the approval of the other proposals.

If you hold your shares in street name through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. So, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in the voting results. Shares represented by such broker non-votes will, however, be counted in determining whether there is a quorum. Accordingly, broker non-votes will not be counted toward a nominee's total of

affirmative votes in the election of directors and will have no effect on the approval of the other proposals.

Who conducts the proxy solicitation and how much will it cost?

Verticalnet is soliciting the proxies and will bear the cost of the solicitation. Verticalnet has retained Georgeson Shareholder to aid in the solicitation. For these services, Verticalnet will pay Georgeson Shareholder a fee of \$5,500 and reimburse it for out-of-pocket disbursements and expenses. Verticalnet may ask its officers and other employees, without compensation other than their regular compensation, to solicit proxies by further mailing or personal conversations, or by telephone, facsimile, Internet or other means of electronic transmission. Verticalnet will also, if asked, reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to the beneficial owners of the common stock.

INFORMATIONAL NOTE REGARDING PRIOR STOCK SPLITS

Information in this statement has been adjusted to reflect three separate stock splits of our common stock. A two-for-one stock split was effected on August 20, 1999 and another two-for-one stock split was effected on March 31, 2000. A one-for-ten reverse stock split was effected on July 15, 2002. All references to shares and per share amounts have been adjusted retroactively for these splits.

years, except that a director has 90 days to exercise after leaving the board. In Fiscal 2002, Verticalnet granted its three non-employee, non-investor directors an aggregate of 15,000 stock options.

EXECUTIVE COMPENSATION

Report Of The Compensation Committee

The compensation committee of the board of directors, which reviews Verticalnet's general compensation policies and approves incentive compensation and stock option plans, has furnished the following report on executive compensation for Fiscal 2002.

What Is Verticalnet's Philosophy Of Executive Officer Compensation?

Verticalnet's philosophy of executive officer compensation is designed to align the interests of executive officers with the short- and long-term interests of Verticalnet shareholders. Towards that goal, the compensation program for executives consists of three key elements:

A base salary,

A performance-based annual bonus, and

Periodic grants of stock options and/or restricted stock.

The compensation committee believes that this approach best serves the interests of Verticalnet and its shareholders. Verticalnet operates in a challenging and competitive environment, so the compensation committee must ensure that executive officers are compensated in a way that advances both the short- and long-term interests of shareholders. Under this approach, a significant portion of an executive officer's total compensation is tied to performance—namely, the annual bonus, stock options and restricted stock. The variable annual bonus permits individual performance to be recognized on an annual basis, and is based, in significant part, on an evaluation of the contribution made by the executive officer to Verticalnet's performance. Stock options and restricted stock relate a significant portion of long-term remuneration directly to stock price appreciation realized by Verticalnet's shareholders.

Base Salary: Base salaries for Verticalnet's executive officers, as well as changes in such salaries, are determined after considering numerous factors including:

Competitive salaries;

The nature of the officer's position and its subjective importance to Verticalnet's success;

Level of experience;

Expected amount of individual responsibility; and

General market conditions.

Annual Bonus: Annual bonuses for executive officers of Verticalnet are based on the achievement of goals pertaining to financial and operating objectives, individual objectives, and goals relating to targets for areas of responsibility. The bonus plan weighs the objective goals more heavily than the subjective targets. During 2002, because of the Company's financial condition, the board and management agreed that

no discretionary bonuses would be awarded to Verticalnet's executive officers. The compensation committee reevaluates the performance targets each year to reflect Verticalnet's goals for the coming year.

Stock Options And Restricted Stock: The compensation committee has utilized stock options and grants of restricted stock to motivate and retain executive officers. The compensation committee believes that this form of compensation closely aligns the officers' interests with those of shareholders and provides an incentive to building long-term shareholder value. Options are typically granted annually and are subject to vesting provisions to encourage executive officers to remain employed with Verticalnet. Similarly, restricted stock units are granted at the inception of employment and thereafter on a periodic basis. Each executive officer receives stock options and/or restricted stock based upon that officer's relative position, responsibilities and his or her anticipated performance and responsibilities. Additionally, the compensation committee reviews the prior level of grants to the executive officers and to other members of senior management, including the number of shares that continue to be subject to vesting under outstanding options, in setting the level of options to be granted to the executive officers. Stock options are granted at the market price on the date of grant and provide value only if the price of Verticalnet's common stock is over the exercise price on the date of exercise. Restricted Stock Units are granted at a price of \$.01 per share.

How were the Chief Executive Officers Compensated?

Mr. Hagan was appointed President and CEO in January 2001. At the beginning of 2002, Mr. Hagan's salary was \$150,000, and his target bonus was 50% of his salary. Mr. Hagan resigned in February 2002 and received a severance benefit equal to continued salary for the remainder of 2002. In addition, Mr. Hagan would receive a Change in Control payment equal to \$150,000 upon a change in control of the Company.

Mr. McKay was appointed President and CEO in February 2002. Pursuant to his Employment Agreement, Mr. McKay received an initial salary of \$415,000, a target bonus of 50% of salary, of which \$100,000 was guaranteed for 2002, and a signing bonus of \$125,000. He also received an initial option grant of 175,000 shares and a grant of restricted stock units of 25,000 shares. Mr. McKay resigned in November 2002; pursuant to a termination agreement, Mr. McKay received continued salary until his termination date of December 15, 2002 as he assisted in the transition of his duties to Mr. Lentz. Thus, he became entitled to and was paid an installment of \$25,000 of his guaranteed 2002 bonus. All but 18,750 vested options and all but 9,375 vested restricted stock units previously granted to Mr. McKay terminated upon his resignation. The compensation committee and the Board of Directors believe that Mr. McKay's leadership of the Company throughout the year merited the benefits provided by this termination agreement.

Mr. Lentz was appointed President and CEO in November 2002. Pursuant to his Employment Agreement, Mr. Lentz received an initial salary of \$350,000 and is eligible to receive a Sale of the Company Bonus of \$75,000 if the Company were to be sold during the term of his employment; the Sale of the Company bonus will increase by \$75 for each \$10,000 of the sale price of the Company in excess of \$5,000,000. He also received a grant of 100,000 restricted stock units. Mr. Lentz received a grant of 100,000 options in September 2002. The compensation committee and the Board of Directors believes that this salary and benefit package was merited

by Mr. Lentz's experience and knowledge of the Company and his willingness to accept the leadership role during an extremely tumultuous period of the Company's history.

How Is The Company Addressing Internal Revenue Code Limits On Deductibility Of Compensation?

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1,000,000 paid for any fiscal year to the individuals named in the Summary Compensation Table. However, the statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. The compensation committee currently intends to structure performance-based compensation, including stock option grants and annual bonuses, to executive officers who may be subject to Section 162(m) in a manner that satisfies those requirements.

The compensation committee reserves the authority to award non-deductible compensation as it may deem appropriate. Because of uncertainty surrounding the interpretation of Section 162(m), the committee can give no assurance, notwithstanding Verticalnet's efforts, that compensation intended to satisfy the requirements for deductibility under Section 162(m) will in fact do so.

Employment Agreements

The Company entered into employment agreements with the following executives during 2002 and 2003 on the terms set forth below:

On February 19, 2002, the Company entered into an employment agreement with Kevin S. McKay with an initial salary of \$415,000 per annum. The agreement had a term of two years, with automatic renewal unless either party gave at least one-year advance notice of non-renewal. The

Edgar Filing: VERTICALNET INC - Form DEF 14A

agreement had a target bonus of 50% of salary, \$100,000 of which was guaranteed for 2002 and a signing bonus of \$125,000. If Mr. McKay had been terminated without cause (with one month advance notice of termination without cause), then the executive would have received, in exchange for a mutual general release: a lump sum payment equal to salary for one year; any

unpaid portion of the signing bonus of \$125,000; and the target bonus for 2002, less any payments made on the guaranteed portion of the target bonus; but if the executive had been employed by the Company until January 1, 2003, then he would have received a lump sum payment equal to salary for two years (one year for non-renewal); any 2002 guaranteed bonus not already paid and the pro rata portion of any bonus Mr. McKay would have earned in the year of termination. In addition, healthcare coverage would have been paid by the Company for one year; unvested options granted at the inception of employment would be accelerated for a period equal to six months plus one additional month for each month that the executive has been employed by the Company; and all vested options granted at the inception of employment would be exercisable for five years after termination of employment. Upon a change of control, Mr. McKay's outstanding stock options and restricted stock units would have become fully vested. If within two years after a change of control, the executive was terminated without cause or chose to leave for good reason, then the executive would have received the termination without cause benefits above. The agreement provided for a cap to the executive's compensation if it produced a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Internal Revenue Code. The agreement defined good reason after a change of control as (1) the executive is transferred more than 50 miles without consent; or (2) a material reduction of authority, duties or responsibilities after reasonable notice and a chance to cure; or (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company.

On February 7, 2002, the Company entered into an employment agreement with John A Milana with an initial salary of \$250,000 per annum. The agreement had a term of two years, with automatic renewal unless either party gave at least one-year advance notice of non-renewal. The agreement had a target bonus of 40% of salary for 2002 and thereafter, 60% of salary. In addition, a bonus of \$150,000 was guaranteed for 2002, payable \$75,000 on August 15, 2002 and \$75,000 on February 1, 2003, if Mr. Milana was employed by the Company on those dates. If Mr. Milana had been terminated without cause (with one month advance notice of termination without cause) prior to February 7, 2004, then he would have received, in exchange for a mutual general release: a lump sum payment equal to two times the salary then in effect, plus the target bonus then in effect, minus any guaranteed 2002 bonus payments already made. In addition, the Company would have paid healthcare coverage for two years; unvested options granted at the inception of employment would have been accelerated in full; and all vested options granted at the inception of employment would have been exercisable for 90 days after termination of employment. But if the Company had employed the executive until February 4, 2004, then he would have received a lump sum payment equal to salary for one year; and the target bonus Mr. Milana would have earned in the year of termination. In addition, healthcare coverage would have been paid by the Company for one and one-half years; unvested options granted at the inception of employment would be accelerated in full; and all vested options granted at the inception of employment would be exercisable for five years after termination of employment. If within two years after a change of control, the executive was terminated without cause or chose to leave for good reason, then the executive would have received the termination without cause benefits above, plus, if the employment was terminated after February 7, 2004, the Company would have paid a Change In Control Payment equal to the target bonus for the year in which the termination occurred, plus one additional year of salary then in effect. The agreement provided for a cap to the executive's compensation if it produced a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute

payment under sections 280G and 4999 of the Internal Revenue Code. The agreement defined "good reason" after a change of control as (1) the executive is transferred more than 50 miles without consent; or (2) a material reduction of authority, duties or responsibilities after reasonable notice and a chance to cure; or (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company.

As of November 13, 2002, the Company entered into an employment agreement with Nathanael V. Lentz with an initial salary of \$350,000 per annum. The agreement has a term of two years, with automatic renewal unless either party gives at least one-year advance notice of non-renewal. The agreement has a target bonus of 50% of salary, which is not guaranteed. If Mr. Lentz is terminated without cause (with one month advance notice of termination without cause), then he will receive, in exchange for a mutual general release: a lump sum payment equal to salary for one year and a pro rata portion of any target bonus Mr. Lentz would have earned in the year of termination. If the termination is within 120 days of a sale of the Company, Mr. Lentz will receive the "Sale Of The Company Bonus" described below. In addition, he would receive healthcare coverage paid by the Company for one year; unvested options granted during 2001 would be accelerated for a period equal to six months plus one additional month for each month that the executive has been employed by the Company; all vested options granted during 2001 would be exercisable for five years after termination of employment. Upon a "change of control," Mr. Lentz's outstanding restricted stock units would become fully vested. If within two years after a change of control, Mr. Lentz is terminated without cause or chooses to leave for "good reason," then he will receive the termination without cause benefits above, and a change in control bonus equal to, if the change in control occurs during the first year of employment, a pro rata portion of the target bonus for that year, and, if the change in control occurs after one year of employment, the entire target bonus for the year in which the change in control takes place. In addition, the agreement provides for a "Sale Of The Company Bonus" in the event the Company is sold during the term of his employment, equal to \$75,000, plus an amount equal to \$75 for every \$10,000 of the purchase price in excess of \$5,000,000. The agreement provides for a cap to the executive's compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Internal Revenue Code. The agreement defines "good reason" after a change of control as (1) the executive is transferred more than 50 miles without consent; or (2) a material reduction of authority, duties or responsibilities after reasonable notice and a chance to cure; or (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company.

As of February 3, 2003, the Company entered into an employment agreement with Gene S. Godick to be the Company's Chief Financial Officer with an initial salary of \$300,000 per annum. The agreement has a term of two years, with automatic renewal unless either party gives at least one-year advance notice of non-renewal. The agreement has a target bonus of 40% of salary, which is not guaranteed. The agreement provides for a grant of 100,000 stock options and 75,000 restricted stock units. If Mr. Godick is terminated without cause (with one month advance notice of termination without cause), then he will receive, in exchange for a mutual general release: a lump sum payment equal to salary for one year; pro rata portion of any target bonus Mr. Godick would have earned in the year of termination; and, if the termination is within 120 days of a sale of the Company, the "Sale Of The Company Bonus" described below. In addition, the Company will pay healthcare coverage for one year and all vested options granted would be

exercisable for one year after termination of employment. Upon a change of control, Mr. Godick's outstanding stock options and restricted stock units would become fully vested. If within two years after a change of control, the executive is terminated without cause or chooses to leave for good reason, then the executive will receive the termination without cause benefits above, and a change in control bonus equal, if the change in control occurs prior to November 13, 2003, a pro rata portion of the target bonus for that year, and, if the change in control occurs after November 13, 2003, the entire target bonus for the year in which the change in control takes place. In addition, the agreement provides for a Sale Of The Company Bonus in the event the Company is sold during the term of his employment, equal to \$50,000, plus an amount equal to \$50 for every \$10,000 of the purchase price in excess of \$5,000,000. The agreement provides for a cap to the executive's compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Internal Revenue Code. The agreement defines good reason after a change of control as (1) the executive is transferred more than 50 miles without consent; or (2) a material reduction of authority, duties or responsibilities after reasonable notice and a chance to cure; or (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company.

As of December 16, 2002, the Company entered into an employment agreement with Christopher G. Kuhn to be the Company's General Counsel with an initial salary of \$165,000 per annum. The agreement has a term of one year, with automatic renewal unless either party gives at least one-year advance notice of non-renewal. If Mr. Kuhn is terminated without cause (with one month advance notice of termination without cause), then he will receive, in exchange for a mutual general release: a lump sum payment equal to salary for three months and a pro rata portion of any bonus Mr. Kuhn would have earned in the year of termination. In addition, the Company will pay healthcare coverage for six months; unvested options would be accelerated and all vested options would be exercisable for 90 days after termination of employment. If within one year after a change of control, the executive is terminated without cause or chooses to leave for good reason, then the executive will receive the termination without cause benefits above, except Mr. Kuhn will receive a lump sum payment equal to salary for six months. The agreement provides for a cap to the executive's compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Internal Revenue Code. The agreement defines good reason after a change of control as (1) the executive is transferred more than 50 miles without consent; or (2) a material reduction of authority, duties or responsibilities after reasonable notice and a chance to cure; or (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company.

The Company entered into severance or termination agreements during 2002 with named executive officers Michael J. Hagan, Kevin S. McKay, Christopher Larsen and John A. Milana, as follows:

- a. In exchange for a release of all claims against the Company, Mr. Hagan received a severance benefit equal to: continued salary at \$150,000 per annum for one year; paid healthcare for one year; and, if a change in control occurred during the transition period, a change in control bonus equal to \$150,000. Mr. Hagan continued to serve as executive chairman throughout the year.

b. In exchange for a release of all claims against the Company, Mr. McKay received: continued salary at \$415,000 per annum for one month to assist in transition of his duties to Mr. Lentz; continued paid healthcare through December 31, 2002; in the event of a sale of the Company prior to June 30, 2003, a Sale Of The Company Bonus equal to \$25,000; and a release of all claims held by the Company against him. In addition, because he remained as an employee until after December 1, 2002, Mr. McKay received a portion of his 2002 guaranteed bonus in the amount of \$25,000 that became due on December 1, 2002. At the time of termination, 18,750 options were vested according to their terms and Mr. McKay received an extension of time from 90 days to 180 days to exercise those options; all other options terminated. At the time of termination, 9,375 restricted stock units were vested according to their terms. According to the terms of such grants, Mr. McKay had 90 days to exercise those restricted stock units and all other restricted stock units terminated.

c. In exchange for a release of all claims against the Company, Mr. Larsen received continued salary at \$300,000 per annum for six months, the unpaid \$100,000 portion of his \$200,000 fiscal year 2001 bonus, and a severance payment equal to \$150,000, representing his fiscal year 2002 target bonus.

d. In exchange for a release of all claims against the Company, Mr. Milana received a lump sum severance payment equal to \$50,000; continued paid healthcare through December 31, 2002; in the event of a sale of the Company prior to June 30, 2003, a Sale Of The Company Bonus equal to \$25,000; and a release of all claims held by the Company against him, and an extension of time to 180 days to exercise his stock options which were vested at the time of termination.

- (7) 25% of the grant vested August 7, 2002. The remainder of the grant terminated upon Mr. Milana's resignation.
- (8) These columns show gains that may exist for the respective options, assuming that the market price for the common stock appreciates from the date of grant over a period of 10 years at annual rates of growth of 5% and 10%, respectively. These rates of growth are mandated by rules of the Securities and Exchange Commission. There can be no assurance that the actual stock price appreciation over the 10-year option term will be at the assumed 5% and 10% levels or at any other defined level. If the market price of the common stock does not appreciate over the option term, no value will be realized from the option grants.

Does not necessarily reflect the value received if the individual sells the shares acquired by the option exercise, since the market price of the shares at the time of sale may be higher or lower than the market price on the date of exercise.

(2) Represents the difference between the year-end stock price (\$0.79 per share) and the exercise price associated with each option, multiplied by the number of shares underlying the options.

STOCK PERFORMANCE GRAPH

The graph below compares the cumulative total return of Verticalnet's common stock with that of the Nasdaq Composite Index and the Nasdaq Computer and Data Processing Index from February 11, 1999 (the date the common stock began to trade publicly) through March 31, 2003. Verticalnet's fiscal year ends on December 31. The graph assumes that you invested \$100 at the close of market on February 11, 1999 in Verticalnet common stock and \$100 was invested at that same time in each of the indexes. The comparison assumes that all dividends, if any, are reinvested. EQUITY COMPENSATION PLAN

Verticalnet uses four equity compensation plans to grant stock options to employees, all of which have previously been approved by Verticalnet shareholders. Our shareholders approved the 2000 Equity Compensation Plan at the 2000 Annual Meeting.

The 2000 Equity Compensation Plan sets forth a limitation on the number of shares that can be issued under the Plan and a further limitation on the number of shares that can be granted to any one person per year. Pursuant to the approval of shareholders at the 2002 Annual Meeting, the Board approved a 10 for 1 reverse stock split, which became effective in July 2002. As a result of the reverse split, both the number of shares authorized and the number of shares per year limitations in the 2000 Equity Compensation Plan became too low to render grants that were effective for the purposes that were intended by the grants, that is, to align the goals of the employee receiving the grants with the ultimate goals of the shareholders.

Our board has approved the amendment to the 2000 Plan to increase the number of shares available under the plan to 4,000,000 shares (up from 1,000,000 on a post split basis), and to increase the number of shares that can be awarded to any individual to 500,000 per year (up from 75,000 per year on a post split basis). The 2000 Plan permits grants to all employees, including officers, and to non-employee directors, consultants or advisors. If shareholders do not approve the amendment to the 2000 Plan at the annual meeting, these amendments will not become effective but we will continue to use the plans as broadly-based employee plans under current Nasdaq rules unless those rules are no longer available.

The board believes it is in Verticalnet's best interest to approve the amendment to the 2000 Plan. The Plan is intended to encourage employees to contribute materially to the growth of the company, thereby benefiting its shareholders, and aligning the interests of the employees with shareholders. At the annual meeting, a proposal to approve the amendment to the Verticalnet, Inc. 2000 Equity Compensation Plan will be presented to Verticalnet shareholders.

The Verticalnet, Inc. 2000 Equity Compensation Plan (As amended and restated April 30, 2003) is set forth in Annex A to this Proxy Statement. The following description of the Verticalnet, Inc. 2000 Equity Compensation Plan (as amended and restated April 30, 2003) is qualified in its entirety by reference to Annex A.

Summary of the 2000 Equity Compensation Plan (As amended and restated April 30, 2003)

The compensation committee will administer the 2000 Equity Compensation Plan. The compensation committee will have the sole authority to determine the individuals that receive grants; determine the type, size and terms of grants, the timing of grants and the period grants will be exercisable or when restrictions will lapse; amend the terms of previously issued grants; and deal with any other matters arising under the 2000 Equity Compensation Plan. Nonetheless, the compensation committee may delegate to Verticalnet's Chief Executive Officer the authority to make certain grants in accordance with applicable law and subject to any conditions and limitations imposed by the compensation committee. The board may ratify and approve any grants it deems appropriate.

The number of shares reserved for issuance under the 2000 Equity Compensation Plan is 4,000,000 shares of common stock. As of April 25, 2003, 46,879 shares have been issued, 834,350 shares have been reserved for outstanding grants and 118,771 shares are available for future grants. All shares subject to grants that expire or are cancelled, surrendered or terminated for any reason will be available for new grants under the 2000 Equity Compensation Plan. The 2000 Equity Compensation Plan limits the aggregate number of shares for which options or stock awards may be granted to any person during any calendar year to 500,000 shares. The compensation committee may adjust these limits, as well as the number of shares covered by outstanding grants, and the price per share of outstanding grants if there is any change in the number or class of shares because of stock dividends, stock split, merger, reclassification, or other similar changes in Verticalnet's stock because of a corporate transaction.

All of Verticalnet's employees and employees of its subsidiaries will be eligible to participate in the 2000 Equity Compensation Plan, including employees who are officers or members of the board and individuals who have accepted employment with Verticalnet or any of its subsidiaries. Verticalnet's non-employee directors, as well as certain consultants and advisors who perform services for Verticalnet or its subsidiaries, will also be eligible to participate in the 2000 Equity Compensation Plan.

The 2000 Equity Compensation Plan permits grants of incentive stock options, nonqualified stock options and stock awards.

Incentive stock options may be granted only to employees. Nonqualified stock options may be granted to employees, individuals who have accepted employment, non-employee directors, consultants and advisors. The compensation committee will determine the exercise price underlying the option. The exercise price for non-qualified stock options may be equal to, greater than or less than the fair market value of Verticalnet's stock on the date of grant. The exercise price for incentive stock options may be equal to or greater than the fair market value of Verticalnet's stock on the date of grant, and an incentive stock option granted to a 10% shareholder must have an exercise price of not less than 110% of the fair market of Verticalnet's stock on the date of grant.

Participants may pay the exercise price of an option by (i) cash, (ii) with the approval of the compensation committee, by delivering shares of common stock owned by the grantee, (iii) payment through a broker in accordance with procedures permitted by Regulation T of the Federal Reserve Board, or (iv) by such other method as the compensation committee may approve.

Options will become exercisable according to the terms and conditions determined by the compensation committee and specified in the grant instrument. The compensation committee may accelerate the exercisability of any or all outstanding options at any time for any reason. The compensation committee will determine the term of each option, up to a maximum ten-year term. The term of an incentive stock option granted to an employee who owns more than 10% of Verticalnet's stock may not exceed five years from the date of grant. Options may be exercised while the grantee is an employee, consultant, advisor or member of the board, or within a specified period of time after termination of employment or service.

The compensation committee may issue shares of common stock to employees, individuals who have accepted employment, consultants, advisors and non-employee directors subject to restrictions or no restrictions. Unless the compensation committee determines otherwise, during any restriction period, grantees will have the right to vote shares of stock awards and to receive dividends or other distributions paid on such shares. Unless the compensation committee determines otherwise, if a grantee's employment or service terminates during any restriction period or if any other conditions are not met, the stock awards will terminate as to all shares on which restrictions are still applicable, and the shares must be immediately returned to Verticalnet.

Grants under the 2000 Equity Compensation Plan may not be transferred except upon the grantee's death or, with respect to grants other than incentive stock options, if permitted by the compensation committee pursuant to a domestic relations order. The compensation committee, on such terms as it deems appropriate, may permit a grantee to transfer nonqualified stock options to family members or other entities that benefit or are owned by family members.

The board may amend or terminate the 2000 Equity Compensation Plan at any time. However, the board may not make any amendment without shareholder approval if such approval is required under the applicable provisions of the Internal Revenue Code or stock exchange requirements. The 2000 Equity Compensation Plan will terminate on the day immediately preceding the tenth anniversary of its effective date, unless the board terminates the 2000 Equity Compensation Plan earlier or extends it with the approval of the shareholders.

The 2000 Equity Compensation Plan provides that in the event of a change of control, unless the compensation committee determines otherwise, each outstanding option will continue in effect according to its terms. The compensation committee may take any of the following actions in the event of a change of control: (i) require that all outstanding options be assumed by or replaced with comparable options of the surviving company and that restricted stock be replaced with restricted stock of the surviving company, (ii) provide that all outstanding options are fully exercisable and that all restrictions on outstanding restricted stock immediately lapse, (iii) require grantees to surrender their outstanding options in exchange for payment by Verticalnet, in cash or common stock, of an amount equal to the amount by which the fair market value of Verticalnet's common stock exceeds the option price of the options, or (iv) determine that all outstanding options not exercised within a certain period will terminate.

A change of control will be deemed to occur if (i) any person becomes a beneficial owner, directly or indirectly, of Verticalnet's securities representing more than 50% of the voting power of Verticalnet's then outstanding securities, or (ii) its shareholders approve (or, if shareholder approval is not required, the board approves) an agreement providing for (x) the merger or consolidation of Verticalnet where the shareholders immediately before the transaction will not hold, immediately after the transaction, a majority of the stock of the surviving corporation, (y) a sale of substantially all of Verticalnet's assets, or (z) a liquidation or dissolution.

Federal Income Tax Consequences

The current federal income tax consequences of grants under the 2000 Equity Compensation Plan are generally described below. This description of tax consequences is not a complete description, and is based on the Internal Revenue Code as presently in effect, which is

subject to change, and is not intended to be a complete description of the federal income tax aspects of options and stock awards under the 2000 Equity Compensation Plan.

Nonqualified Stock Options

An optionee will not be subject to federal income tax upon the grant of a nonqualified stock option. Upon the exercise of a nonqualified stock option, the optionee will recognize ordinary compensation income in an amount equal to the excess, if any, of the then fair market value of the shares acquired over the exercise price. Verticalnet will generally be able to take a deduction with respect to this compensation income for federal income tax purposes. The optionee's tax basis in the shares acquired will equal the exercise price plus the amount taxable as compensation to the optionee. Upon a sale of the shares acquired upon exercise, any gain or loss is generally long-term or short-term capital gain or loss, depending on how long the shares are held. The required holding period for long-term capital gain is presently more than one year. The optionee's holding period for shares acquired upon exercise will begin on the date of exercise.

Incentive Stock Options

An optionee who receives incentive stock options generally incurs no federal income tax liability at the time of grant or upon exercise of the options. However, the spread will be an item of tax preference which may give rise to alternative minimum tax liability at the time of exercise. If the optionee does not dispose of the shares before the date that is two years from the date of grant and one year from the date of exercise, the difference between the exercise price and the amount realized upon disposition of the shares will constitute long-term capital gain or loss, as the case may be. Assuming both holding periods are satisfied, no deduction will be allowable to Verticalnet for federal income tax purposes in connection with the option. If, within two years of the date of grant or within one year from the date of exercise, the holder of shares acquired upon exercise of an incentive stock option disposes of the shares, the optionee will generally realize ordinary compensation income at the time of the disposition equal to the difference between the exercise price and the lesser of the fair market value of the stock on the date of exercise or the amount realized on the disposition. The amount realized upon such a disposition will generally be deductible by Verticalnet for federal income tax purposes.

Stock Awards

If a grantee receives an unrestricted stock award, the grantee will recognize compensation income upon the grant of the stock award. If a grantee receives a restricted stock award, the grantee normally will not recognize taxable income upon receipt of the stock award until the stock is transferable by the grantee or no longer subject to a substantial risk of forfeiture, whichever occurs earlier. When the stock is either transferable or no longer subject to a substantial risk of forfeiture, the grantee will recognize compensation income in an amount equal to the fair market value of the shares (less any amount paid for such shares) at that time. A grantee may, however, elect to recognize ordinary compensation income in the year the stock award is granted in an amount equal to the fair market value of the shares (less any amount paid for the shares) at that time, determined without regard to the restrictions. Verticalnet will generally be entitled to a corresponding deduction at the same time, and in the same amount, as

the grantee recognizes compensation income with respect to a stock award. Any gain or loss recognized by the grantee upon subsequent disposition of the shares will be capital gain or loss.

Tax Deductibility Under Section 162(m)

Section 162(m) of the Internal Revenue Code disallows a public company's deductions for employee compensation exceeding \$1,000,000 per year for the chief executive officer and the four other most highly compensated executive officers. Section 162(m) contains an exception for performance-based compensation that meets specific requirements. The 2000 Equity Compensation Plan is intended to permit all options to qualify as performance-based compensation.

Withholding

Verticalnet has the right to deduct from all grants paid in cash or other compensation, any taxes required to be withheld with respect to grants under the 2000 Equity Compensation Plan. Verticalnet may require that the participant pay to it the amount of any required withholding. The compensation committee may permit the participant to elect to have withheld from the shares issuable to him or her with respect to an option and restricted stock a number of shares with a value equal to the required tax withholding amount.

Future Grants

At present, the compensation committee does not have definitive plans for granting of awards under the 2000 Equity Compensation Plan. No determination has been made as to the number of stock options or stock awards to be granted, or the number or identity of optionees or recipients of awards.

The closing price of Verticalnet's stock as reported on the Nasdaq National Market on April 25, 2003 was \$0.82.

The board recommends a vote FOR the approval of the Verticalnet, Inc. 2000 Equity Compensation Plan (As amended and restated April 30, 2003).
