Notes
TO FINANCIAL STATEMENTS Delaware Investments Dividend and Income Fund, Inc.
May 31, 2003 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with accounting principles generally accepted in the United States and are consistently followed by the Fund:

Security Valuation - All equity securities are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes - The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Distributions - The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains and, if necessary, a return of capital. The current annualized rate is \$1.20 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings - The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 6).

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the funds on the basis of average net assets. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distribution by the issuer.

Certain expenses of the Fund are paid through commission arrangements with brokers. These transactions are done subject to best execution. The amount of these expenses was approximately \$1,538 for the six months ended May 31, 2003. In addition, the Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the six months ended May 31, 2003. The expenses paid under the above arrangements are included in their respective expense captions on the Statement of Operations with the corresponding expense offset shown as "expenses paid indirectly".

2. Investment Management, Administration Agreements and Other Transactions with Affiliates:

In accordance with the terms of its investment management agreement, the Fund

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

The Fund has engaged Delaware Service Company, Inc. (DSC), an affiliate of DMC, to provide accounting and administration services. The Fund pays DSC a monthly fee computed at the annual rate of 0.05% of the Fund's adjusted average weekly net assets, subject to an annual minimum of \$85,000.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At May 31, 2003, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC -----	Accounting, administration and other expenses payable to DSC -----	Other expenses payable to DMC and affiliates -----
\$13,211	\$45,929	\$5,609

Certain officers of DMC and DSC are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

3. Investments

For the six months ended May 31, 2003, the Fund made purchases of \$205,938,333 and sales of \$210,359,342 of investment securities other than U.S. government securities and short-term investments.

At May 31, 2003, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At May 31, 2003, the cost of investments was \$186,019,431. At May 31, 2003, the net unrealized appreciation was \$8,069,122, of which \$20,103,217 related to unrealized appreciation of investments and \$12,034,095 related to unrealized depreciation of investments.

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. The tax

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Such capital loss carryforwards expire as follows: \$6,557,294 expires in 2009 and \$15,759,688 expires in 2010.

5. Capital Stock

The Fund did not repurchase any shares under the Share Repurchase Program or have any transactions in common shares during the six months ended May 31, 2003.

Shares issuable under the Fund's dividend investment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market.

6. Commercial Paper

As of May 31, 2003, \$55,000,000 of commercial paper was outstanding with an amortized cost of \$54,829,293. The weighted average discount rate of commercial paper outstanding at May 31, 2003 was 1.33%. The average daily balance of commercial paper outstanding during the six months ended May 31, 2003 was \$54,882,329 at a weighted discount rate of 1.41%. The maximum amount of commercial paper outstanding at any time during the period was \$55,000,000. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase Bank for \$30,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.15% per annum on the unused balance. During the six months ended May 31, 2003, there were no borrowings under this arrangement.

7. Securities

Lending The Fund, along with other funds in the Delaware Investments Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. Treasury obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States and 105% of the market value of securities issued outside the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements.

Cash collateral received is invested in fixed-income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by

Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings.

In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. At May 31, 2003, the market value of securities on loan was \$24,327,789.

The securities on loan were collateralized by the following:

Description	Market Value
Morgan Stanley Dean Witter	
Discover 1.41% 6/30/04	\$ 279,154
Canadian Imperial Bank NY 1.4095% 10/09/03	139,544
Racers Series 2002-35-C 1.60855% 4/15/04	695,071
Goldman Sachs Group LP 1.515% 7/14/03	977,039
Wilmington Trust Company 1.26% 7/21/03	700,037
Fannie Mae 1.314945% 1/29/04	6,978,590
Barclays London 1.27% 6/17/03	1,118,107
Merrill Lynch Mortgage Capital 1.475% 6/6/03	697,885
UBS Warburg LLC 1.375% 6/2/03	13,044,955

	\$24,630,382

8. Credit and Market Risks

The Fund invests in high-yield fixed income securities, which carry ratings of BB or lower by S&P and/or Ba or lower by Moody's. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so.

The Fund invests in real estate investment trusts (REITs) and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the six months ended May 31, 2003. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.
