FINANCIAL INFORMATION

Item 1. FINANCIAL STATEMENTS

Introduction to Interim Financial Statements.

The interim financial statements included here in have been prepared by Bay Resources Ltd. (the Company) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (The Commission). Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30 2001.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the consolidated financial position of the Company and subsidiaries as of December 31, 2001 and December 31, 2000, the results of its consolidated operations for the three and six month periods ended December 31, 2001 and December 31, 2000, and the changes in its consolidated cash flows for the three and six month periods ended December 31, 2001 and December 31, 2000, have been included. The results of consolidated operations for the interim periods are not necessarily indicative of the results for the full year.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN AUSTRALIAN DOLLARS.

Notes to Consolidated Financial Statements
 December 31, 2001, June 30, 2001 and
 December 31, 2000

(1) Organisation

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Edensor owned 78.8% of Bay Resources as of December 31, 2000.

Bay Resources acquired a controlling interest on September 3, 1987 in former subsidiary, Solmecs Corporation N.V. (Solmecs) and 100% ownership on January 2, 1992. Bay Resources sold its interest in Solmecs effective June 5, 1998. During fiscal 1998, Bay Resources incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com Pty Ltd has not traded since incorporation.

(2) Investment Securities

The following is a summary of Investment Securities at December 31, 2001, June 30, 2001 and December 31, 2000:

	A\$000's Dec 31 2001	A\$000's June 30 2001	A\$000's Dec 31 2000

reduction of the cost of the investment. No securities were sold during 2001 and 2000 and all securities were treated as available for sale for 2001 and 2000. At June 30, 2001 the Company determined that the decline in value of its investment was permanent and has recorded a realised loss in the amount of A\$4,516.

(3) Short Term and Long Term Debt

The following is a summary of Bay Resources' borrowing arrangements as of December 31, 2001, June 30, 2001 and December 31, 2000.

Total Long-Term	\$ 731	\$ 641	\$ 586

- (1) An amount of \$7000 was repaid on January 20, 2000 partly through the issuance of 8,000,000 options to purchase shares of the Company. Both issuances were to a company affiliated with the President of Bay Resources.

(4) Affiliate Transactions

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation. At December 31, 2001, Bay Resources had no outstanding advances to or from unconsolidated affiliated companies. \$368,000, \$213,000 and \$225,000 of accounts payable for the years shown is due to an affiliated management company.

(5) Going Concern

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources and Solmecs as a going concern. However, Bay Resources has sustained recurring losses. In addition, Bay Resources has no net working capital, which raises substantial doubts as to its ability to continue as going concerns. Bay Resources anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies and the President, Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangements for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

(6) Sale of Solmecs

Pursuant to a stock purchase agreement dated as of June 5, 1998, the Company acquired 499,701 shares in SCNV Acquisition Corp (SCNV), representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmecs Corporation N.V., a Netherlands Antilles company which prior to the exchange was formerly a wholly owned subsidiary of the Company. The 499,701 shares has been valued at US\$2,800,000 or A\$4,516,000 and will be accounted for using the cost method because the Company does not exercise significant influences over SCNV s operating and financial activities (see note 4). The sale resulted in a gain of \$5,899,000 which is included in other income.

SCNV is a Delaware corporation established May 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primary by scientists who immigrated to Israel from and by scientists and institutions in Russia and other countries that formerly comprised the Soviet Union. Simultaneously with the SCNV stock acquisition by the Company, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000.

The Company has been granted certain demand and piggyback registration rights with respect to the SCNV shares. Notwithstanding the foregoing, the Company has agreed not to sell, grant options for sale or assign or transfer any of the SCNV shares, for a period of 24 months from the closing of the (Lock-up) agreement, which expired in June 2000. Bay Resources has requested SCNV to take the necessary steps to register Bay Resources shareholding in SCNV.

(7) Income Taxes

Bay Resources files its income tax returns on an accrual basis. Bay Resources has carry forward losses of approximately US\$17.5 million as of June 30, 2001 which expire in the years 1999 through 2012. Bay Resources will need to file tax returns for those years of the NOL carryforwards. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$6.0 million has been recorded to off set the tax benefit of the carry forward losses. During the year ended June 30, 2001, Bay Resources provided an additional valuation allowance of US\$1.0 million. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$4.7 million has been recorded to off set the tax benefit of the carry forward losses.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FUND COSTS CONVERSION

The consolidated statements of income and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar during the periods indicated:

6 months ended December 31, 2000 A\$1.00 = U.S. \$.5548

6 months ended December 31, 2001 A\$1.00 = U.S. \$.5128

RESULTS OF OPERATION

Three Months ended December 31, 2001 vs Three Months ended December 31, 2000.

Costs and expenses decreased from A\$145,000 during the three months ended December 31, 2000 to A\$123,000 during the three months ended December 31, 2001. The decrease is a net result of:

- a) an increase in interest expense from A\$15,000 for the three months ended December 31, 2000 to A\$21,000 for the three months ended December 31, 2001 as a result of an increase in long term interest bearing debt which was offset by the reduction in interest rates.
- b) the decrease in administrative costs including salaries from A\$128,000 in the three months ended December 31, 2000 to A\$99,000 in the three months ended December 31, 2001. In the prior period costs were incurred in the due diligence on St. Andrew which included consultants and travel and accommodation and there were no comparable costs in this period.

As a result of the foregoing, the loss from operations decreased from A\$145,000 for the three months ended December 31, 2000 to A\$123,000 for the three months ended December 31, 2001. There was no provision for income tax in either period.

The net loss was A\$123,000 for the three months ended December 31, 2001 compared to a net loss of A\$145,000 for the three months ended December 31, 2000.

Six Months Ended December 31, 2001 vs. Six Months Ended December 31, 2000.

Costs and expenses decreased from A\$320,000 in the six months ended December 31, 2000 to A\$223,000 in the six months ended December 31, 2001. The decrease is a net result of:

- a) an increase in interest expense from A\$29,000 for the six months ended December 31, 2000 to A\$41,000 for the six months ended December 31, 2001 as a result of an increase in long term interest bearing debt which was offset by the reduction in interest rates.
- b) the decrease in administrative costs including salaries from A\$280,000 in the six months ended December 31, 2000 to A\$178,000 in the six months ended December 31, 2001. In the prior period substantial costs were incurred in the due diligence on St Andrew which included consultants and travel & accommodation and there were no comparable costs in this period.

As a result of the foregoing, the loss from operations decreased from A\$320,000 for the six months ended December 31, 2000 to A\$223,000 for the six months ended December 31, 2001. There was no provision for income tax in either period.

The net loss was A\$223,000 for the six months ended December 31, 2001 compared to a net loss of A\$320,000 for the six months ended December 31, 2000.

Liquidity and Capital Resources

As of December 31, 2001 the Company had short-term obligations of A\$399,000 comprising accounts payable and accrued expenses.

The Company anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid which there can be no assurance. In addition the Company has historically relied upon loans and advances from

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes based on discussions with such affiliates will continue to be available during fiscal 2001 and 2002.

On October 7, 1999 Bay Resources authorised the issuance effective December 31, 1999 of 4,000,000 shares of its previously unissued stock to a company of which the President of Bay Resources is a director and shareholder, in lieu of repayment of the debt described in note (3). Balance due at the stock issuance was approximately A\$4,076,000.

On January 20, 2000 the Board of Directors authorised the issuance of 8,000,000 options to purchase previously unissued shares, to a company of which the President of Bay Resources is a director and shareholder, partly in lieu of repayment of the debt in note (3).

Table of Contents

Balance at the date of issuance of options was approximately \$8000. Options are exercisable after two years for a period of three years at US\$1.00 per share.

Other than the arrangements above the Company has not confirmed any further arrangements for ongoing funding. As a result the Company may be required to raise funds from additional debt or equity offerings and/or increase the revenues from operations in order to meet its cash flow requirements during the forthcoming year.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-Q is forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the Act) which became law in December 1995. In order to obtain the benefits of the safe harbor provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including the strength of the domestic and foreign economies, slower than anticipated completion of research and development projects and movements in the foreign exchange rate. Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to interest rate risk primarily through loans and advances from affiliates. The Company utilizes these borrowings to meet its working capital needs.

At December 31, 2001, the Company had outstanding borrowings of approximately \$731,000. In the event that interest rates associated with these borrowings were to increase 100 basis points, the impact on future cash flows would be a decrease of approximately \$7,310 annually.
