BASIS OF PRESENTATION:

The consolidated financial statements of Air Products and Chemicals, Inc. and its subsidiaries (the company or registrant) included herein have been prepared by the company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of the company, the accompanying statements reflect adjustments necessary to present fairly the financial position, results of operations and cash flows for those periods indicated, and contain adequate disclosure to make the information presented not misleading. Adjustments included herein are of a normal, recurring nature unless otherwise disclosed in the Notes to the consolidated financial statements. However, the interim results for the periods indicated herein do not reflect certain adjustments, such as the valuation of inventories on the LIFO cost basis, which can only be finally determined on an annual basis. The consolidated financial statements included herein should be read in conjunction with the financial statements and Notes thereto included in the company's latest annual report on Form 10-K in order to fully understand the basis of presentation.

Results of operations for interim periods are not necessarily indicative of the results of operations for a full year. Reference the 2007 Outlook included on pages 20-21 in Management's Discussion and Analysis of Financial Condition and Results of Operations. Risk factors that could impact results are discussed under Forward-Looking Statements on page 24.

AIR PRODUCTS AND CHEMICALS, INC. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Millions of dollars, except for share data)

1. MAJOR ACCOUNTING POLICIES

Refer to the company's 2006 annual report on Form 10-K for a description of major accounting policies. There have been no material changes to these accounting policies during the first quarter of 2007.

2. NEW ACCOUNTING STANDARDS

Postretirement Benefits

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132R. This Statement requires recognition of the funded status of benefit plans in the balance sheet, with changes in the funded status recognized in comprehensive income within shareholders' equity in the year in which the changes occur. The funded status is to be determined based on the measurement of plan assets and obligations as of fiscal year end. The requirement to recognize the funded status of benefit plans and the disclosure requirements under the new Statement are effective as of the end of the fiscal year ending after 15 December 2006. Based on the funded status of benefit plans as of 30 September 2006, the company would have recognized an additional liability of \$536. The requirement to measure plan assets and benefit obligations as of fiscal year end is effective for fiscal years ending after 15 December 2008. This will require the company to measure the plan assets and benefit obligations of its U.K. and Belgium plans as of 30 September instead of 30 June. The company is currently evaluating the impact of SFAS No. 158 on its consolidated financial statements.

Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after 15 November 2007, and interim periods within those fiscal years, with earlier application encouraged. The provisions of SFAS No. 157 should be applied prospectively as of the beginning of the fiscal year in which the Statement is initially applied, except for a limited form of retrospective application for certain financial instruments. The company is currently evaluating the effect of SFAS No. 157.

Uncertainty in Income Taxes

In July 2006, the FASB issued FIN No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement No. 109. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN No. 48 is effective for fiscal years beginning after 15 December 2006. The company is currently evaluating the effect this Interpretation will have on its consolidated financial statements.

3. DISCONTINUED OPERATIONS

In March 2006, the company announced it was exploring the sale of its Amines and Polymers businesses as part of the company's ongoing portfolio management activities. The company sold its Amines business to Taminco N.V. on 29 September 2006. Accordingly, the Amines business is being accounted for as discontinued operations and the consolidated financial statements for prior periods have been adjusted to reflect this presentation.

4. ACQUISITION PENDING APPROVAL

On 8 January 2007, the company announced it had reached a definitive agreement with The Linde Group to acquire the industrial gas business of BOC Gazy Sp z o. o. for 370 million Euros (\$481). The transaction is subject to regulatory approval and customary closing conditions. For regulatory purposes, BOC Gazy was required to be sold by Linde as a result of its purchase of The BOC Group plc in September 2006. The BOC Gazy business had fiscal year 2006 sales of approximately 126 million Euros (\$164). The business has approximately 750 employees, five major industrial gas plants, and six cylinder transfills serving customers across a diverse range of industries, including chemicals, steel and base metals, among others.

5. GLOBAL COST REDUCTION PLAN

The following table summarizes changes to the carrying amount of the accrual for the 2006 global cost reduction plan for the three months ended 31 December 2006:

	Severance and		
	Other	Asset	Total
	Benefits	Impairments	
Total 2006 Plan Charge	\$ 60.6	\$ 11.5	\$ 72.1
Noncash Expenses	(13.0)	(11.5)	(24.5)
Cash Expenditures	(1.1)		(1.1)
Accrual Balance at 30 September 2006	46.5		46.5
Cash Expenditures	(8.0)		(8.0)
Accrual Balance at 31 December 2006	\$ 38.5	\$	\$ 38.5

6. SHARE-BASED COMPENSATION

The company has various share-based compensation programs, which include stock options, deferred stock units, and restricted stock. During the three months ended 31 December 2006, the company granted 1.5 million stock options at a weighted-average exercise price of \$67.23 and an estimated fair value of \$22.42 per option. The fair value of these options was estimated using a lattice-based option valuation model that used the following assumptions: expected volatility of 30.6%; expected dividend yield of 2.1%; expected life in years of 7.0-9.0; and a risk-free interest rate of 4.6%-4.7%. In addition, the company granted 366,865 deferred stock units at a weighted-average grant-date fair value of \$68.12 and 50,500 restricted stock units at a weighted-average grant-date fair value of \$66.69. Refer to Note 15 in the company's 2006 annual report on Form 10K for information on the valuation and accounting for these programs. Share-based compensation cost charged against income in the first quarter of 2007 was \$16.4, before taxes of \$6.4. Of the share-based compensation cost recognized, \$13.1 was a component of selling and administrative expense, \$2.3 a component of cost of sales, and \$1.0 a component of research and development. Share-based compensation cost charged against income for the first quarter of 2006 was \$17.2, before taxes of \$6.7. Of the share-based compensation cost recognized, \$13.8 was a component of selling and administrative expense, \$2.2 a component of cost of sales, and \$1.2 a component of research and development. The amount of share-based compensation cost capitalized in 2007 and 2006 was not material.

7. GOODWILL

Changes to the carrying amount of consolidated goodwill by segment for the quarter ended 31 December 2006 are as follows:

	30 September 2006	Acquisitions and Adjustments	Currency Translation and Other	31 December 2006
Merchant Gases	\$ 262.4	\$	\$ 9.9	\$ 272.3
Tonnage Gases	10.3		.3	10.6
Electronics and Performance Materials	305.4	.2	4.0	309.6
Healthcare	379.1	.3	3.4	382.8
Chemicals	31.9		.4	32.3
	\$ 989.1	\$.5	\$ 18.0	\$ 1,007.6

8. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share (EPS):

	Three Months Ended 31 December	
	2006	2005
NUMERATOR		
Used in basic and diluted EPS		
Income from continuing operations	\$ 230.3	\$ 181.8
Loss from discontinued operations		(1.1)
Net Income	\$ 230.3	\$ 180.7
DENOMINATOR (in millions)		
Weighted average number of common shares used in basic EPS	216.7	222.0
Effect of dilutive securities		
Employee stock options	5.6	4.4
Other award plans	1.1	.7
	6.7	5.1
Weighted average number of common shares and dilutive potential common shares used in diluted EPS	223.4	227.1
BASIC EPS		
Income from continuing operations	\$ 1.06	\$.82
Loss from discontinued operations		(.01)
Net Income	\$ 1.06	\$.81
DILUTED EPS		

Edgar Filing: AIR PRODUCTS & CHEMICALS INC /DE/ - Form 10-Q

Income from continuing operations	\$ 1.03	\$.80
Loss from discontinued operations		
Net Income	\$ 1.03	\$.80

9. PENSION AND OTHER POSTRETIREMENT BENEFITS

The components of net pension cost for the defined benefit plans and other postretirement benefit cost are as follows:

	Three Months Ended 31 December			
	2006	2005	2006	2005
	Pension Benefits		Other Benefits	
Service cost	\$ 20.0	\$ 19.4	\$1.5	\$1.6
Interest cost	41.5	36.5	1.3	1.3
Expected return on plan assets	(46.5)	(38.9)		
Prior service cost amortization	1.1	.8	(.5)	(.6)
Actuarial loss amortization	14.3	16.2	.6	.9
Settlement and curtailment charges				
Special termination benefits		1.0		
Other	.4	.3		
Net periodic benefit cost	\$ 30.8	\$ 35.3	\$2.9	\$3.2

During the three months ended 31 December 2006, contributions of \$239.9 were made. The company expects to contribute approximately \$40 to the pension plans during the remainder of 2007. For the three months ended 31 December 2005, contributions of \$102.9 were made. During 2006, total contributions were \$130.1.

10. COMMITMENTS AND CONTINGENCIES

The company is involved in various legal proceedings, including competition, environmental, health, safety, product liability, and insurance matters. While the company does not expect that any sums it may have to pay in connection with these matters would have a materially adverse effect on its consolidated financial position or net cash flows, a future charge for any damage award could have a significant impact on the company's net income in the period in which it is recorded.

11. SUPPLEMENTAL INFORMATION**Share Repurchase Program**

In March 2006, the Board of Directors approved a \$1,500 share repurchase program. The company began the share repurchase program in the third quarter of 2006 and purchased 7.7 million of its outstanding shares at a cost of \$496.1 during 2006. The company expects to complete an additional \$500 of the program during fiscal year 2007 and during the first quarter purchased 1.8 million of its outstanding shares at a cost of \$125.7.

Hurricanes

In the fourth quarter of 2005, the company's New Orleans industrial gas complex sustained extensive damage from Hurricane Katrina. Other industrial gases and chemicals facilities in the Gulf Coast region also sustained damages from Hurricanes Katrina and Rita in fiscal 2005.

Insurance recoveries for property damages and business interruption were recognized as claims were settled.

Operating income for the three months ended 31 December 2005 included a net gain of \$7.3 related to insurance recoveries net of property damage and other expenses incurred. Operating income for the three months ended 31 December 2006 was not impacted except for higher depreciation expense of approximately \$1. During the three months ended 31 December 2006 and 2005, the company collected insurance proceeds of \$19.1 and \$25.0, respectively. The company estimated the impact of business interruption at \$(26.0) for the three months ended 31 December 2005.

A table summarizing the estimated impact of the Hurricanes for the three months ended 31 December 2005 is provided below:

	Three Months Ended 31 December 2005
Insurance Recoveries Recognized	\$ 12.2
Property Damage/Other Expenses	(4.9)
	\$ 7.3
Estimated Business Interruption	(26.0)
Total Estimated Impact	\$ (18.7)

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(Millions of dollars, except for share data)**

The disclosures in this quarterly report are complementary to those made in the company's 2006 annual report on Form 10-K. An analysis of results for the first quarter of 2007, including an update to the company's 2007 Outlook, is provided in the Management's Discussion and Analysis to follow.

All comparisons in the discussion are to the corresponding period in the prior year unless otherwise stated. All amounts presented are in accordance with U.S. generally accepted accounting principles. All amounts are presented in millions of dollars, except for share data, unless otherwise indicated.

FIRST QUARTER 2007 VS. FIRST QUARTER 2006

FIRST QUARTER 2007 IN SUMMARY

Sales of \$2,433 were up 21% from the prior year, driven by strong volume growth, higher equipment sales, and improved pricing.

Operating income of \$332 increased 31% from strong volume growth and improved cost performance.

Net income of \$230 increased 27% and diluted earnings per share of \$1.03 increased 29%. A summary table of changes in earnings per share is presented below.

The company purchased 1.8 million of its outstanding shares at a cost of \$126 under the \$1,500 share repurchase program announced in the second quarter of 2006.

The company announced it had reached a definitive agreement with The Linde Group to acquire the industrial gas business of BOC Gazy Sp z o.o. for 370 million Euros (approximately \$481).

For a discussion of the challenges, risks, and opportunities on which management is focused, refer to the update to the company's 2007 Outlook provided on pages 20-21.

Discussion of Consolidated Results**Sales**

	% Change from Prior Year
Underlying business	
Volume	22%
Price/mix	1%
Acquisitions	1%
Currency	3%
Natural gas/raw material cost pass-through	(6%)
Total Consolidated Change	21%

Sales of \$2,432.5 increased 21%, or \$416.7. Underlying base business growth accounted for 23% of the increase. Sales increased 22% from higher volumes, including prior year hurricane impacts, across all segments, as discussed in the Segment Analysis which follows. Improved pricing in the Merchant Gases segment, partially offset by lower pricing in Electronics and Performance Materials, increased sales by 1%. The acquisition of Tomah³ Products increased sales by 1%. Sales improved 3% from favorable currency effects, driven primarily by the weakening of the U.S. dollar against the Euro. Lower natural gas/raw material contractual cost pass-through to customers decreased sales by 6% mainly due to lower natural gas prices.

Operating Income

	Change from Prior Year
Prior Year Operating Income	\$ 254
Underlying business	
Volume	89
Price/raw materials/mix	14
Costs	(47)
Acquisitions	3
Divestitures	(3)
Currency	13
Prior year European land sale	(10)
Hurricanes ^(A)	19
Operating Income	\$ 332

(A) Includes insurance recoveries, estimated business interruption, asset write-offs, and

other expenses
during 2006.

Operating income of \$332.3 increased 31%, or \$78.8.

Operating income increased \$89 from volume growth in the Merchant Gases, Tonnage Gases, Electronics and Performance Materials, and Equipment and Energy segments, as discussed in the Segment Analysis which follows.

Operating income improved \$14 as higher pricing in Merchant Gases was partially offset by price declines in Electronics and Performance Materials.

Operating income decreased \$47 from higher costs to support growth and due to inflation.

Favorable currency effects, primarily from the weakening of the U.S. dollar against the Euro, increased operating income by \$13.

Operating income decreased \$10 from the sale of land in Europe in the prior year.

Operating income increased \$19 from the impacts of Hurricanes Katrina and Rita, primarily from estimated business interruption in the prior year.

Equity Affiliates Income

Income from equity affiliates of \$30.1 increased \$2.3, or 8%, primarily due to higher income from affiliates in the Equipment and Energy segment.

Selling and Administrative Expense (S&A)

	% Change from Prior Year
Currency	3%
Other costs	10%
Total S&A Change	13%

S&A expense of \$284.4 increased 13%, or \$33.5. S&A as a percent of sales declined to 11.7% from 12.4% in 2006. Currency effects, driven by the weakening of the U.S. dollar against the Euro, increased S&A by 3%. Underlying costs increased S&A by 10%, as productivity gains were more than offset by inflation and higher costs to support growth.

Research and Development (R&D)

R&D decreased 7%, or \$2.8, as a result of the company's organization simplification efforts. R&D decreased as a percent of sales to 1.4% from 1.9% in 2006.

Other (Income) Expense, Net

Other income of \$7.5 decreased \$10.4. Items recorded to other income arise from transactions and events not directly related to the principal income earning activities of the company. Results in 2006 included a gain of \$9.5 related to the sale of land in Europe and a gain of \$7.3 related to insurance recoveries, net of property damage and other expenses incurred due to Hurricanes Katrina and Rita. Otherwise, no individual items were material in comparison to the prior year.

Interest Expense

	Three Months Ended 31 December	
	2006	2005
Interest incurred	\$41.1	\$31.3
Less: interest capitalized	2.0	5.0
Interest expense	\$39.1	\$26.3

Interest incurred increased \$9.8. The increase resulted from a higher average debt balance excluding currency effects, higher average interest rates, and the impact of a weaker U.S. dollar on the translation of foreign currency interest. Capitalized interest decreased by \$3.0 due to lower levels of construction in progress for plant and equipment built by the company.

Effective Tax Rate

The effective tax rate equals the income tax provision divided by income before taxes less minority interest. The effective tax rate was 27.0% in the first quarter of 2007 and 2006.

Discontinued Operations

On 29 September 2006, the company completed the sale of its Amines business to Taminco N.V., a producer of methylamines based in Belgium. As a result of the sale, the operating results of the Amines business have been classified as discontinued operations in the company's consolidated financial statements for 2006. The discontinued operations generated sales of \$82.8 and a loss, net of tax, of \$1.1 in the first quarter of 2006.

Net Income

Net income was \$230.3 compared to \$180.7 in 2006. Diluted earnings per share was \$1.03 compared to \$.80 in 2006. A summary table of changes in earnings per share is presented on page 14.

Segment Analysis
Merchant Gases

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$740.0	\$622.1	19%
Operating income	139.2	105.3	32%
Equity affiliates income	21.1	21.7	(3%)

Merchant Gases Sales

	% Change from Prior Year
Underlying business	
Volume	10%
Price/mix	4%
Currency	5%
Total Merchant Gases Change	19%

Sales of \$740.0 increased 19%, or \$117.9. Underlying base business growth improved sales by 14%. Sales increased 10% from stronger volumes, reflecting the company's continued success in utilizing applications technology to drive growth.

Liquid bulk volumes in North America increased 11%. Liquid oxygen (LOX) and liquid nitrogen (LIN) volumes were flat. Liquid hydrogen and liquid argon volumes increased as Hurricanes Katrina and Rita negatively impacted prior year results.

Liquid bulk volumes in Europe increased 4% due to higher demand across most end markets.

Packaged gas volumes in Europe increased 3% due to higher demand for industrial cylinders and new offerings in the business.

LOX/LIN volumes in Asia were up a strong 21%, driven by solid demand growth across the region.

Pricing increased sales by 4%. Prices for LOX/LIN improved 9% in North America and 5% in Europe from pricing actions to recover higher power and distribution costs. Prices for liquid hydrogen decreased as the prior year included the surcharge pricing impacts of Hurricane Katrina. In Asia, pricing was flat versus the prior year.

Sales increased 5% from favorable currency effects, driven primarily by the weakening of the U.S. dollar against the Euro and the Pound Sterling.

Merchant Gases Operating Income

Operating income of \$139.2 increased 32%, or \$33.9. Favorable operating income variances resulted from higher volumes of \$23, improved pricing and customer mix of \$18, and currency effects of \$7. Operating income declined \$16 from higher costs to support growth and inflation partially offset by productivity improvements.

Merchant Gases Equity Affiliates Income

Gases equity affiliates income of \$21.1 decreased \$.6, as lower income in the European affiliates was mostly offset by higher income from the Asian affiliates.

Tonnage Gases

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$604.5	\$532.6	13%
Operating income	88.8	73.8	20%

Tonnage Gases Sales

	% Change from Prior Year
Underlying business	
Volume	31%
Currency	2%
Natural gas/raw material cost pass-through	(20%)
Total Tonnage Gases Change	13%

Sales of \$604.5 increased 13%, or \$71.9. Underlying base business volume growth increased sales by 31%. Volumes were higher due to the start-up of new hydrogen plants supporting the refinery industry in 2006. Prior year volumes were negatively impacted by the effects of Hurricanes Katrina and Rita.

Sales increased 2% from favorable currency effects, driven primarily by the weakening of the U.S. dollar against the Euro. Lower natural gas cost contractually passed-through to customers decreased sales by 20%.

Tonnage Gases Operating Income

Operating income of \$88.8 increased 20%, or \$15.0. Operating income increased by \$28 from higher volumes and the prior year impacts of Hurricanes Katrina and Rita. Higher maintenance and operating costs, costs to support growth, and inflation decreased operating income by \$10.

Electronics and Performance Materials

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$509.9	\$416.8	22%
Operating income	50.9	38.5	32%

Electronics and Performance Materials Sales

	% Change from Prior Year
Underlying business	

Volume	19%
Price/mix	(2%)
Acquisitions	4%
Currency	1%
Total Electronics and Performance Materials Change	22%

Sales of \$509.9 increased 22%, or \$93.1. Underlying base business growth increased sales by 17%. Higher volumes across all Electronics product lines and from Performance Materials in Europe and Asia improved sales by 19%. Pricing decreased sales by 2%, as electronic specialty materials continued to experience pricing pressure. Sales increased 4% from the acquisition of Tomah³ Products. Favorable currency effects, driven primarily by the weakening of the U.S. dollar against key European and Asian currencies, improved sales by 1%.

Electronics and Performance Materials Operating Income

Operating income of \$50.9 increased 32%, or \$12.4. Operating income increased \$33 from higher volumes, \$3 from the acquisition of Tomah³ Products, and \$2 from favorable currency effects. Operating income declined by \$15 from inflation and higher costs to support growth and \$13 from lower pricing, net of variable costs, primarily due to lower electronics specialty materials pricing.

Equipment and Energy

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$195.6	\$93.8	109%
Operating income	26.8	14.5	85%

Equipment and Energy Sales and Operating Income

Sales of \$195.6 increased by \$101.8, primarily from higher natural gas liquefaction (LNG) and large air separation unit activity and a one-time energy related equipment sale. Operating income of \$26.8 increased by \$12.3, primarily from higher LNG heat exchanger activity, favorable cost performance, and the cancellation of an exchanger order due to a project termination by a customer.

The sales backlog for the Equipment business at 31 December 2006 was \$403, compared to \$446 at 30 September 2006.

Healthcare

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$155.8	\$135.5	15%
Operating income	9.4	18.0	(48%)

Healthcare Sales

	% Change from Prior Year
Underlying business	
Volume	10%
Acquisitions	1%
Currency	4%
Total Healthcare Change	15%

Sales of \$155.8 increased 15%, or \$20.3. Sales increased 10% due to higher volumes, primarily from recent contract wins in Europe, partially offset by lower volumes in the U.S. The acquisition of a small healthcare business in Europe in 2006 improved sales by 1%. Favorable currency effects, driven primarily by the weakening of the U.S. dollar against the Euro, increased sales by 4%.

Healthcare Operating Income

Operating income of \$9.4 decreased 48%, or \$8.6 primarily due to lower volumes in the U.S. and prior year results that included a gain on the sale of land in Europe.

Chemicals

	Three Months Ended 31 December		% Change
	2006	2005	
Sales	\$226.7	\$215.0	5%
Operating income	18.9	8.9	112%

Chemicals Sales

Sales of \$226.7 increased 5%, or \$11.7. Sales increased primarily from higher volumes in both Polymer Emulsions and Polyurethane Intermediates and favorable currency impacts as the U.S. dollar weakened against the Euro. Sales decreased from divestitures, as the company sold its dinitrotoluene (DNT) production facility in Geismar, Louisiana, in the second quarter of 2006.

Chemicals Operating Income

Operating income of \$18.9 increased \$10.0. Operating income in 2007 increased primarily from higher volumes, partially offset by an environmental charge.

The company's efforts to restructure its Chemicals businesses continue. The Polymer Emulsions business is being marketed for sale and to this end the company is in discussions with potential buyers and Wacker Chemie, its partner in the business. This sale has not progressed as quickly as the company had anticipated due to the complexity the partnership introduces to the divestiture efforts. In the company's Polyurethane Intermediates business, the company is also in discussions with its customers and other parties to maximize the value from this business. The company is optimistic that it will be able to conclude these efforts in calendar year 2007.

Other

	Three Months Ended 31 December	
	2006	2005
Operating loss	(\$1.7)	(\$5.5)

Other operating loss includes other expense and income which cannot be directly associated with the business segments, including foreign exchange gains and losses, interest income, and costs previously allocated to the Amines business. Also included are LIFO inventory adjustments, as the business segments use FIFO and the LIFO pool is kept at corporate. Corporate research and development costs are fully allocated to the business segments.

The operating loss of \$1.7 decreased by \$3.8. No individual items were material in comparison to the prior year.

2007 OUTLOOK

The company's priority is to improve return on capital by loading existing assets, driving productivity, and maintaining capital discipline by focusing capital investment in its growth businesses. The discussion below outlines the areas of challenge, risk, and opportunity on which management is focused.

Economic Environment

Domestic manufacturing activity in the first three months of 2007 improved 3.7% from the prior year. The company still anticipates domestic manufacturing growth between 2% and 3% and growth in silicon processed by the semiconductor industry of approximately 5% for the year.

Segments

Merchant Gases results should be lower in the second quarter, on a sequential basis, due to slightly lower volumes and higher costs. Results for 2007 should benefit from operating leverage on existing assets, increased productivity, improved pricing, and new investments, particularly in Asia.

Tonnage Gases should continue to benefit from the new hydrogen facilities brought onstream in 2006. However, results in the second quarter are expected to be lower than the first quarter due to customer outages and increased maintenance costs.

Second quarter results in Electronics and Performance Materials should approximate the first quarter as seasonally higher volumes in Performance Materials are expected to be offset by a seasonal slowdown in Electronics. Results in 2007 are expected to benefit from the cost savings generated by the 2006 global cost reduction plan.

Equipment and Energy results were higher in the first quarter due to the cancelled LNG order and reduced project costs. While LNG activity should continue to be high in 2007, overall segment results should be lower from higher energy development spending.

The Healthcare segment should continue to improve in the second quarter from increased volumes and management actions taken in 2006.

Global Cost Reduction Plan

In the fourth quarter of 2006, the company announced a global cost reduction plan. Based on actions taken in the first quarter, the company does not expect a material change to the original estimated cost savings of \$23 for 2007 and \$39 annually for 2008 and beyond.

Capital Expenditures

Capital expenditures for new plant and equipment are expected to be approximately \$1,000 for 2007. The acquisition of the industrial gas business from The Linde Group should be completed late in the second quarter or early in the third quarter for approximately \$500. The company intends to continue to evaluate acquisition opportunities and investments in affiliated entities.

SHARE-BASED COMPENSATION

Refer to Note 6 to the consolidated financial statements for information on the company's share-based compensation arrangements and the valuation and accounting for the various programs.

PENSION BENEFITS

Refer to Note 9 to the consolidated financial statements for details on pension cost and cash contributions. For additional information on the company's pension benefits and associated accounting policies, refer to the Pension Benefits section of Management's Discussion and Analysis and Note 18 to the consolidated financial statements in the company's 2006 annual report on Form 10-K.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow

The narrative below refers to the Consolidated Statements of Cash Flows included on page 6.

Operating Activities from Continuing Operations

For the first three months, net cash provided by operating activities decreased \$91.5, or 36%, as compared to 2006. Cash provided by operating activities reflects higher earnings of \$48.5 which were more than offset by increased pension plan contributions. In the first three months, the company contributed \$239.9 to the pension plans as compared to \$102.9. An increase of \$30.9 in noncurrent capital lease receivables and lower deferred income taxes of \$39.0 unfavorably impacted cash provided by operating activities. Cash used for working capital increased by \$55.7. The working capital changes occurred principally in three areas: inventories, contracts in progress, and accounts payable and accrued liabilities. Cash used for inventories decreased by \$40.2, as a result of prior year increased business activity and rebuilding of inventories from unusually low levels of inventories as of 30 September 2005 due

to the impact of the hurricanes. Additionally, cash used for contracts in progress decreased by \$57.1, principally attributable to a one-time sale of energy related equipment to a refinery customer on a cost reimbursable basis in November 2006. These changes were more than offset by an increase in cash used for payables and accrued liabilities of \$150.5, due mainly to pension contributions in 2007 and the timing of payments.

Investing Activities from Continuing Operations

Cash used for investing activities decreased \$46.3, or 18%. Capital expenditures totaled \$240.4 for the three months ended 31 December 2006, compared to \$304.6. Additions to plant and equipment totaled \$238.3 for the three months ended 31 December 2006, compared to \$304.0. This decrease is due primarily to prior year additions for the rebuilding of facilities damaged by Hurricane Katrina. Additionally, insurance proceeds received for hurricane property damage were lower by \$10.1 in 2007.

Capital expenditures for continuing operations are detailed in the following table:

	Three Months Ended 31 December	
	2006	2005
Additions to plant and equipment	\$238.3	\$304.0
Investment in and advances to unconsolidated affiliates	1.5	
Acquisitions, less cash acquired		
Capital leases	.6	.6
Total Capital Expenditures	\$240.4	\$304.6

Financing Activities from Continuing Operations

Cash provided by financing activities increased \$51.4. This increase is primarily attributable to a net increase in cash provided by debt (short- and long-term debt proceeds net of repayments) of \$157.9 and higher proceeds from stock option exercises of \$24.0, partially offset by the 2007 use of cash of \$133.5 for the purchase of Treasury Stock.

Total debt at 31 December 2006 and 30 September 2006, expressed as a percentage of the sum of total debt, shareholders' equity, and minority interest, was 37.3% and 35.8%, respectively. Total debt increased from \$2,849.8 at 30 September 2006 to \$3,150.2 at 31 December 2006. This increase was due primarily to long- and short-term debt proceeds exceeding repayments by \$243.8 and the impact of a weaker U.S. dollar on the translation of foreign currency debt.

The company's total multicurrency revolving facility, maturing in May 2011, amounted to \$1,200.0 at 31 December 2006. No borrowings were outstanding under these commitments. Additional commitments totaling \$199.2 are maintained by the company's foreign subsidiaries, of which \$149.0 was utilized at 31 December 2006.

The estimated fair value of the company's long-term debt, including current portion, as of 31 December 2006 was \$2,565.8 compared to a book value of \$2,501.7.

In March 2006, the Board of Directors approved a \$1,500 share repurchase program. The company began the share repurchase program in the third quarter of 2006 and purchased 7.7 million of its outstanding shares at a cost of \$496.1 during 2006. The company expects to complete an additional \$500 of the program during fiscal year 2007 and during the first quarter purchased 1.8 million of its outstanding shares at a cost of \$125.7.

On 8 January 2007, the company announced it had reached a definitive agreement with The Linde Group to acquire the industrial gas business of BOC Gazy Sp z o.o. for 370 million Euros (\$481). The transaction is subject to regulatory approval and customary closing conditions. The company expects that the acquisition will be financed as part of the normal finance plan using a combination of operating cash flows and new debt, as required, with the majority of debt expected to be Euro-denominated.

CONTRACTUAL OBLIGATIONS

The company is obligated to make future payments under various contracts such as debt agreements, lease agreements, unconditional purchase obligations and other long-term obligations. There have been no material changes to contractual obligations as reflected in the Management's Discussion and Analysis in the company's 2006 annual report on Form 10-K.

COMMITMENTS AND CONTINGENCIES

Refer to Note 19 to the consolidated financial statements in the company's 2006 annual report on Form 10-K and Note 10 in this quarterly filing.

OFF-BALANCE SHEET ARRANGEMENTS

There have been no material changes to off-balance sheet arrangements as reflected in the Management's Discussion and Analysis in the company's 2006 annual report on Form 10-K. The company's off-balance sheet arrangements are not reasonably likely to have a material impact on financial condition, changes in financial condition, results of operations, or liquidity.

RELATED PARTY TRANSACTIONS

The company's principal related parties are equity affiliates operating in industrial gas and chemicals businesses. The company did not engage in any material transactions involving related parties that included terms or other aspects that differ from those which would be negotiated at arm's length with clearly independent parties.

MARKET RISKS AND SENSITIVITY ANALYSIS

Information on the company's utilization of financial instruments and an analysis of the sensitivity of these instruments to selected changes in market rates and prices is included in the company's 2006 annual report on Form 10-K.

For foreign currency exchange risk, the sensitivity analysis assumes an instantaneous 10% change in the foreign currency exchange rates with all other variables (including interest rates) held constant. A 10% strengthening of the functional currency of an entity versus all other currencies would result in a decrease of \$274 and \$216 in the net liability position of financial instruments at 31 December 2006 and 30 September 2006, respectively. A 10% weakening of the functional currency of an entity versus all other currencies would result in an increase of \$273 and \$215 in the net liability position of financial instruments at 31 December 2006 and 30 September 2006, respectively.

The sensitivity analysis related to the fixed portion of the company's debt portfolio assumes an instantaneous 100 basis point move in interest rates with all other variables (including foreign exchange rates) held constant. A 100 basis point increase in market interest rates would result in a decrease of \$74 and \$71 in the net liability position of financial instruments at 31 December 2006 and 30 September 2006, respectively. A 100 basis point decrease in market interest rates would result in an increase of \$79 and \$71 in the net liability position of financial instruments at 31 December 2006 and 30 September 2006, respectively.

There was no material change to market risk sensitivity for commodity price risk since 30 September 2006.

The net financial instrument position of the company increased from a liability of \$2,533.0 at 30 September 2006 to a liability of \$2,599.2 at 31 December 2006 primarily due to an increase in the book value of long-term debt, as a result of long-term debt proceeds exceeding repayments and the impact of a weaker U.S. dollar on the translation of foreign currency debt.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of the company's financial condition and results of operations is based on the consolidated financial statements and accompanying notes that have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The significant accounting policies of the company are described in Note 1 to the consolidated financial statements and the critical accounting policies and estimates are described in the Management's Discussion and Analysis included in the 2006 annual report on Form 10-K. Information concerning the company's implementation and impact of new accounting standards issued by the Financial Accounting Standards Board (FASB) is included in Note 2 to the consolidated financial statements. There have been no changes in accounting policy in the current period that had a material impact on the company's financial condition, change in financial condition, liquidity or results of operations.

NEW ACCOUNTING STANDARDS

See Note 2 to the consolidated financial statements for information concerning the company's implementation and impact of new accounting standards.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on management's reasonable expectations and assumptions as of the date of this document regarding important risk factors. Actual performance and financial results may differ materially from those expressed in the forward-looking statements because of many factors, including those specifically referenced as future events or outcomes that the company anticipates, as well as, among other things, overall economic and business conditions different than those currently anticipated and demand for the company's goods and services during that time; competitive factors in the industries in which it competes; interruption in ordinary sources of supply; the ability to recover unanticipated increased energy and raw material costs from customers; uninsured litigation judgments or settlements; changes in government regulations; consequences of acts of war or terrorism impacting the United States and other markets; the effects of a pandemic or epidemic or a natural disaster; charges related to portfolio management and cost reduction actions; the success of implementing cost reduction programs and achieving anticipated acquisition synergies; the timing, impact, and other uncertainties of future acquisitions or divestitures or unanticipated contract terminations; significant fluctuations in interest rates and foreign currencies from that currently anticipated; the impact of tax and other legislation and regulations in jurisdictions in which the company and its affiliates operate; the impact of new financial accounting standards; and the timing and rate at which tax credits can be utilized. The company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained in this document to reflect any change in the company's assumptions, beliefs or expectations or any change in events, conditions or circumstances upon which any such forward-looking statements are based.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Refer to the Market Risks and Sensitivity Analysis on page 23 of Item 2 in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

Under the supervision of the Chief Executive Officer and Chief Financial Officer, the company's management conducted an evaluation of the effectiveness of the design and operation of the company's disclosure controls and procedures as of 31 December 2006. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of its disclosure controls and procedures have been effective. As previously disclosed, the company is in the midst of an SAP implementation. As a result, certain changes have been made to the company's internal control structure, in connection with the SAP implementation, which management believes will strengthen their internal control structure. There have been no other significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of such evaluation.

PART II. OTHER INFORMATION**Item 1A. Risk Factors**

There are no material changes from risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Purchases of Equity Securities by the Issuer

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾⁽²⁾
