Exhibit 99-1

14 may, 2007

SCOR is the first listed French company to form a Common European Companies Committee

The Management of the SCOR group and the employee representatives, forming a Special Negotiating Body (SNB), are pleased to announce the adoption today of an Agreement on the constitution of a SCOR group Common European Companies Committee (Comité Commun de Société Européenne SCOR or CCSE) on how to involve employees in the transformation into Societas Europaeas (SE) of the Group's three parent companies (SCOR, SCOR Global P&C and SCOR Global Life).

Demonstrating their rapid integration into the SCOR group, the employee representatives from Revios, a company acquired by the SCOR group on 21 November 2006, were fully involved in the negotiations within the SNBs and have approved this agreement.

SCOR is thus the first French listed company to conclude an agreement of this type under European regulations on Societas Europaea status.

The main points of the agreement concluded with the SNBs are as follows:

The CCSE is composed of 19 members – 11 for SCOR Global Life SE, 6 for SCOR Global P&C SE and 2 for SCOR SE.

The CCSE has certain prerogatives in terms of information and consultation: it is informed of the general situation, the economic and financial outlook and the developments within each SE. It is consulted on all planned measures considerably affecting the interests of employees in several EU countries.

Employee involvement is guaranteed by the presence on SCOR's Board of Directors of an employee-elected director with the right discussion and vote, elected by Group employees around the world and appointed for a period of 2 years by means of a proposal from the Board of Directors to the General Meeting, as well as by a European representative with the right of discussion only, appointed by the members of the CCSE for a period of 2 years.

The CCSE meets at least once every quarter. One extraordinary meeting per year may be requested by the members of the CCSE or by the Management.

The CCSE has an annual budget and its operating expenses are covered by SCOR.

This agreement demonstrates SCOR's desire to treat all of its employees fairly and equally. The agreement also demonstrates the quality and efficiency of employee/management dialogue within the SCOR group.

The negotiating process concerning the involvement of employees in the future SEs began in July 2006 with the constitution of the three SNBs, uniting employee representatives from each of the Group's entities located in the European Union. The SNBs met eight times beginning in 6 July 2006 in order to reach an agreement on employee involvement within the future societas europaeas, i.e. employee rights relating to information, consultation and participation. Following the acquisition of Revios in November 2006, the composition of the SNBs was modified to incorporate in January 2007 the employee representatives from Revios entities located in the European Union. The agreement marks a decisive step in the constitution of Societas Europaeas from the SCOR group. This process can now be concluded rapidly.

The new legal regime of the Societas Europaea, which was created by a European Directive ruling dated 8 October 2001 and incorporated into French law by a ruling dated 26 July 2005 as well as by various application decrees, corresponds perfectly to the development needs of the SCOR group's structures. Societas Europaea status notably enables SCOR to strengthen the Group's multinational, European identity, to facilitate its acquisition transactions in Europe, and to improve its financial flexibility along with its versatility in terms of capital allocation.

**Table of Contents**

Information in this communication relating to the Tender Offer include forward-looking statements , including but not limited to statements that are predictions of or indicate future events, trends, plans or objectives, based on certain assumptions and include any statement which does not directly relate to a historical fact or current fact.

Forward-looking statements are typically identified by words or phrases such as, without limitation, anticipate , assume , believe , continue , estimate , expect , foresee , intend , may increase and may fluctuate and similar by future or conditional verbs such as, without limitations, will , should , would and could. Undue reliance should not be placed on such statements, because, by their nature, they are subject to known and unknown risks, uncertainties and other factors, which may cause actual results, on the one hand, to differ from any results expressed or implied by the present communication, on the other hand.

Please refer to SCOR 's document de référence filed with the AMF on April 10, 2007 under number D.07-0294 for a description of certain important factors, risks and uncertainties that may affect the business of the SCOR group.
