ENSTAR GROUP LIMITED

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2009 and December 31, 2008

(Expressed in thousands of U.S. Dollars, except per share amounts)

(unaudited)

1. BASIS OF PREPARATION AND CONSOLIDATION

Our condensed consolidated financial statements have not been audited. These statements have been prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, these financial statements reflect all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of our financial position and results of operations as at the end of and for the periods presented. Results of operations for subsidiaries acquired are included from the dates of their acquisition by the Company. Intercompany transactions are eliminated on consolidation. The results of operations for any interim period are not necessarily indicative of the results for a full year. All significant inter-company accounts and transactions have been eliminated. In these notes, the terms we, us, our, or the Company refer to Enstar Group Limited and its direct and indirect subsidiaries. The following information is unaudited and should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

To facilitate period-to-period comparisons, certain amounts in the 2008 consolidated financial statements have been reclassified to conform to the 2009 presentation. Such reclassifications had no effect on the Company's consolidated net income.

Adoption of New Accounting Standards

The term FAS used in these notes refers to Statements of Financial Accounting Standards issued by the United States Financial Accounting Standards Board (FASB).

The Company adopted FAS No. 141(R), Business Combinations (FAS 141(R)), effective January 1, 2009. FAS 141(R) replaces FAS No. 141, Business Combinations (FAS 141), but retains the fundamental requirements in FAS No. 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. FAS 141(R) requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. FAS 141(R) also requires the Company to recognize acquisition-related costs separately from the acquisition, recognize assets acquired and liabilities assumed arising from contractual contingencies at their acquisition-date fair values and recognize goodwill as the excess of the consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair values of the identifiable net assets acquired. The adoption of FAS 141(R) did not have a material impact on the consolidated financial statements.

The Company adopted FAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 (FAS 160), effective January 1, 2009. FAS 160 amends ARB No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. FAS 160 clarifies that a noncontrolling interest in a subsidiary is an ownership interest that should be reported as equity in the consolidated financial statements. FAS 160 requires consolidated net income to be reported at the amounts that include the amounts attributable to both the parent and the noncontrolling interest. This statement also establishes a method of accounting for changes in a parent's ownership interest in a subsidiary that results in deconsolidation. The

presentation and disclosure of FAS 160 have been applied retrospectively for all periods presented. The adoption of FAS 160 resulted in reclassification of noncontrolling interest in the amounts of \$256.9 million and \$256.0 million to shareholders' equity as at June 30, 2009 and December 31, 2008, respectively.

The Company adopted FAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133 (FAS 161), effective January 1, 2009. FAS 161 expands the disclosure

requirements of FAS 133 and requires the reporting entity to provide enhanced disclosures about the objectives and strategies for using derivative instruments, quantitative disclosures about fair values and amounts of gains and losses on derivative contracts, and credit-risk related contingent features in derivative agreements. The adoption of FAS 161 did not have a material impact on the consolidated financial statements.

The Company adopted the following three FASB Staff Positions (FSPs) effective April 1, 2009:

FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That are Not Orderly (FSP FAS 157-4). This FSP supercedes FSP FAS 157-3, Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active. FSP FAS 157-4 provides additional guidance on: (1) estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to the normal market activity for the asset or liability, and (2) identifying transactions that are not orderly. FSP FAS 157-4 has been applied prospectively; retrospective application is not permitted.

FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments (FSP FAS 115-2 and FAS 124-2). This FSP provides new guidance on the recognition and presentation of other-than-temporary impairments (OTTI) for available-for-sale and held-to-maturity fixed maturities (equities are excluded). A security is considered impaired if the fair value of the security is less than its amortized cost basis at the measurement date. Before the adoption of FAS 115-2, the Company was required to recognize other-than-temporary impairments in earnings if the Company could not assert that it had the ability and intent to hold its securities for a period of time sufficient to allow for any anticipated recovery in fair value in accordance with Staff Accounting Bulletin Topic 5M, Other than Temporary Impairment of Certain Investments in Debt and Equity Securities, and other authoritative literature. If the impairment was determined to be other-than-temporary, then an impairment was recognized in earnings equal to the entire difference between the security s amortized cost basis and its fair value at the balance sheet date. In accordance with FAS 115-2, the Company now recognizes other-than-temporary impairments in earnings for its impaired fixed maturity securities (1) for which the Company has the intent to sell the security or (2) if it is more likely than not that the Company will be required to sell the debt security before its anticipated recovery; and (3) for those securities which have a credit loss. In assessing whether a credit loss exists, the Company has used qualitative and quantitative measures, including comparing the present value of the cash flows expected to be collected from the security with the amortized cost basis of the security. If management concludes a security is other-than-temporarily impaired, the FSP requires that the difference between the fair value and the amortized cost of the security be presented as an OTTI charge in the Consolidated Statements of Earnings, with an offset for any noncredit-related loss component of the OTTI charge to be recognized in other comprehensive income. Accordingly, only the credit loss component of the OTTI amount has an impact on the Company s earnings. The FSP also requires extensive new interim and annual disclosure for both fixed maturities and equities to provide further disaggregated information, as well as information about how the credit loss component of the OTTI charge was determined, and requires a roll forward of such amount for each reporting period. Upon adoption of FAS 115-2 on April 1, 2009, the Company did not recognize a cumulative effect adjustment because all previous impairments were considered credit losses.

FSP FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP FAS 107-1 and APB 28-1). This FSP extends the disclosure requirements under FAS 107, Disclosures about Fair Value of Financial Instruments, to interim financial statements and amends APB Opinion 28, Interim Financial Reporting, to require those disclosures in summarized financial information at interim reporting periods.

CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

1. BASIS OF PREPARATION AND CONSOLIDATION (cont d)

The adoption of these three FSPs did not have a material impact on the Company's consolidated financial statements.

On April 1, 2009, the FASB issued FSP FAS 141(R)-1, Accounting for Assets and Liabilities Assumed in a Business Combination That Arise from Contingencies (FSP FAS 141(R)-1). This FSP amends the guidance in FAS 141(R) by requiring that assets acquired or liabilities assumed in a business combination that arise from contingencies be recognized at fair value only if fair value can be reasonably estimated; otherwise the asset or liability should generally be recognized in accordance with FAS 5, Accounting for Contingencies, and FASB Interpretation 14, Reasonable Estimation of the Amount of Loss. This FSP removes the requirement to disclose an estimate of the range of outcomes of recognized contingencies at the acquisition date. FSP FAS 141(R)-1 is effective for assets and liabilities arising from contingencies in business combinations for which the acquisition date is on or after December 15, 2008. The Company does not anticipate this adoption will have a material impact on its consolidated financial statements.

In May 2009, the FASB issued FAS 165, Subsequent Events (FAS 165), which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. FAS 165 provides guidance on the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The Company adopted FAS 165 during the second quarter of 2009, and its application had no impact on its condensed consolidated financial statements. The Company evaluated subsequent events through the date the accompanying financial statements were issued, which was August 7, 2009.

Recently Issued Accounting Standards Not Yet Adopted

In June 2009, the FASB issued FAS No. 167, Amendments to FASB Interpretation No. 46(R). This statement addresses (1) the effects on certain provisions of FASB Interpretation No. 46(R), Consolidation of Variable Interest Entities, as a result of the elimination of the qualifying special-purpose entity concept in SFAS No. 166, Accounting for Transfers of Financial Assets, and (2) constituent concerns about the application of certain key provisions of FASB Interpretation No. 46(R), including those in which the accounting and disclosures under such interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. This statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The Company is currently evaluating the impact of adopting this standard on the consolidated financial statements.

In June 2009, the FASB issued FAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162 (FAS 168). FAS 168 establishes the FASB Accounting Standards Codification as the single source of authoritative accounting principles in the preparation of financial statements in conformity with U.S. GAAP. FAS 168 explicitly recognizes rules and

interpretive releases of the Securities and Exchange Commission (SEC) under federal securities laws as authoritative U.S. GAAP for SEC registrants. FAS 168 is effective for financial statements issued for periods ending after September 15, 2009. As the new standard is not intended to change or alter existing U.S. GAAP, it is not expected to have any impact on the Company s consolidated financial statements.

The Company has determined that all other recently issued accounting pronouncements will not have a material impact on its consolidated financial statements, or do not apply to its operations.

FAS 115-2 Other-Than-Temporary Impairment Process

Upon the adoption of FAS 115-2, effective April 1, 2009, the Company changed its quarterly process for assessing whether declines in the fair value of its fixed maturity investments, both available-for-sale and held-to-maturity, represented impairments that are other-than-temporary. The process now includes reviewing each fixed maturity investment that is impaired and determining: (1) if the Company has the intent to sell the debt security or (2) if it is more likely than not that the Company will be required to sell the debt security before its anticipated recovery; and (3) assessing whether a credit loss exists, that is, where the Company believes that the present value of the cash flows expected to be collected from the security are less than the amortized cost basis of the security.

The Company had no planned sales of its available-for-sale or held-to-maturity investments as at June 30, 2009. In assessing whether it is more likely than not that the Company will be required to sell a security before its

Table of Contents**ENSTAR GROUP LIMITED****NOTES TO THE UNAUDITED CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. INVESTMENTS (cont d)**

anticipated recovery, the Company considers various factors including its future cash flow requirements, legal and regulatory requirements, the level of its cash, cash equivalents, short term investments and fixed maturity investments available-for-sale in an unrealized gain position, and other relevant factors. For the three months ended June 30, 2009, the Company did not recognize any other-than-temporary impairments due to required sales.

In evaluating credit losses, the Company considers a variety of factors in the assessment of a security including: (1) the time period during which there has been a significant decline below cost; (2) the extent of the decline below cost and par; (3) the potential for the security to recover in value; (4) an analysis of the financial condition of the issuer; (5) the rating of the issuer; and (6) failure of the issuer of the security to make scheduled interest or principal payments.

Based on the factors described above, the Company determined that a credit loss existed for one security. The Company did not consider an evaluation of future cash flows was necessary for this security and the impairment of \$0.6 million was recognized in earnings.

Other Investments

At June 30, 2009 and December 31, 2008, the Company had \$71.0 million and \$60.2 million, respectively, of other investments recorded in limited partnerships, limited liability companies and equity funds. These other investments represented 2.0% and 1.7% of total investments and cash and cash equivalents at June 30, 2009 and December 31, 2008, respectively. All of the Company's investments in limited partnerships and limited liability companies that are categorized as other investments are subject to restrictions on redemptions and sales that are determined by the

governing documents and limit the Company's ability to liquidate these investments in the short term. Due to a lag in the valuations reported by the managers, the Company records changes in the investment value with up to a three-month lag. These investments are accounted for under the equity method. As at June 30, 2009 and December 31, 2008, the Company had unfunded capital commitments relating to its other investments of \$102.4 million and \$108.0 million, respectively. As at June 30, 2009 and December 31, 2008, the Company had 94.6% and 90.6%, respectively, of other investments with a related party.

As a result of the execution of these agreements, the accounting treatment for share-based awards under the Company's employee share plan changed from book value to fair value. The determination of the share-award expenses was based on the fair-market value per share of EGI common stock as of the grant date and is recognized over the vesting period.

Compensation costs of \$0.1 million and \$0.3 million relating to the issuance of share-awards to employees of the Company in 2004 and 2005 have been recognized in the Company's statement of earnings for the three and six-months ended June 30, 2008, respectively, as compared to \$Nil for the three and six-month periods ended June 30, 2009.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of Enstar Group Limited

We have reviewed the accompanying condensed consolidated balance sheet of Enstar Group Limited and subsidiaries (the Company) as of June 30, 2009, and the related condensed consolidated statements of earnings and comprehensive income for the three-month and six-month periods ended June 30, 2009 and 2008, and changes in shareholders' equity and cash flows for the six-month periods ended June 30, 2009 and 2008. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Enstar Group Limited and subsidiaries as of December 31, 2008 and the related consolidated statements of earnings, comprehensive income, changes in shareholders' equity, and cash flows for the year then ended prior to retrospective adjustment for the adoption of FAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, (not presented herein); and in our report dated March 4, 2009, we expressed an unqualified opinion on those consolidated financial statements. We have also audited the adjustments that were applied to retrospectively adjust the December 31, 2008 consolidated financial statements of Enstar Group Limited and subsidiaries (not presented herein). In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2008 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. *MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS*

The following is a discussion and analysis of our results of operations for the three and six months ended June 30, 2009 and 2008. This discussion and analysis should be read in conjunction with the attached unaudited consolidated financial statements and notes thereto and the audited consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Business Overview

Enstar Group Limited, or Enstar, was formed in August 2001 under the laws of Bermuda to acquire and manage insurance and reinsurance companies in run-off, and to provide management, consulting and other services to the insurance and reinsurance industry.

Since our formation we have acquired a number of insurance and reinsurance companies and are now administering those businesses in run-off. We derive our net earnings from the ownership and management of these companies primarily by settling insurance and reinsurance claims below the recorded loss reserves and from returns on the portfolio of investments retained to pay future claims. In addition, we have formed other businesses that provide management and consultancy services, claims inspection services and reinsurance collection services to our affiliates and third-party clients for both fixed and success-based fees.

Recent Transactions

On May 29, 2009, we, through our indirect subsidiary, Nordic Run-Off Limited, entered into a definitive agreement for the purchase of Copenhagen Reinsurance Company Ltd., or Copenhagen Re, from Alm. Brand Forsikring A/S for a total purchase price of approximately \$28.0 million. Copenhagen Re is a Norwegian domiciled reinsurer that is in run-off. We expect the purchase price to be financed from available cash on hand. Completion of the transaction is conditioned on, among other things, regulatory approval and satisfaction of various customary closing conditions. We expect the transaction to close in the third quarter of 2009.

On January 31, 2009, we, through our indirect subsidiary, Sun Gulf Holdings Inc., completed the acquisition of all of the outstanding capital stock of Constellation Reinsurance Company Limited, or Constellation, for a total purchase price of approximately \$2.5 million. Constellation is a New York domiciled reinsurer that is in run-off. The acquisition was funded from available cash on hand.

We own 50.1% of Shelbourne Group Limited, which in turn owns 100% of Shelbourne Syndicate Services Limited, the Managing Agency for Lloyd's Syndicate 2008, a syndicate approved by Lloyd's of London on December 16, 2007 to undertake Reinsurance to Close or RITC transactions (the transferring of liabilities from one Lloyd's Syndicate to another) with Lloyd's syndicates in run-off. In February 2009, Lloyd's Syndicate 2008 entered into a RITC agreement with a Lloyd's syndicate with total gross insurance reserves of approximately \$67.0 million. JCF FPK I L.P., or JCF FPK, a joint investment program between J.C. Flowers II L.P., or the Flowers Fund, and Fox-Pitt Kelton Cochran Caronia Waller (USA) LLC, or FPK, owns 25.0% of Shelbourne Group Limited.

The Flowers Fund is a private investment fund advised by J.C. Flowers & Co. LLC. J. Christopher Flowers, a member of our board of directors and one of our largest shareholders, is the founder and Managing Member of J.C. Flowers & Co. LLC. John J. Oros, our Executive Chairman and a member of our board of directors, is a Managing Director of J.C. Flowers & Co. LLC. In July 2008, FPK acted as lead managing underwriter in our public share offering. An affiliate of the Flowers Fund controls approximately 41% of FPK.

Comparison of the Three Months Ended June 30, 2009 and 2008

We reported consolidated net earnings, before net earnings attributable to noncontrolling interest, of approximately \$19.3 million for the three months ended June 30, 2009 as compared to approximately \$17.5 million for the same period in 2008. The increase in earnings of approximately \$1.8 million was primarily attributable to the following:

- (i) an increase in investment income (net of realized gains) of \$1.3 million primarily as a result of the reversal of prior period writedowns on our equity portfolio partially offset by lower investment income reflecting the impact of lower global short-term and intermediate interest rates;
- (ii) reduction in salary and general and administrative costs of \$5.1 million due to reduced costs primarily as a result of a lower British pound exchange rate to the U.S. dollar;
- (iii) reduced interest expense of \$3.0 million due primarily to lower interest rates on outstanding loans along with lower outstanding principal on the term loan facility agreement of our wholly owned subsidiary, Cumberland Holdings Limited, or the Cumberland Loan Facility; and
- (iv) a reduction in income taxes of \$3.2 million due to lower tax liabilities on the results of our taxable subsidiaries; partially offset by
- (v) decreased reduction in loss and loss adjustment expense liabilities of \$8.1 million; and
- (vi) a reduction in foreign exchange gains of \$3.3 million.

Table of Contents

We recorded noncontrolling interest in earnings of \$10.5 million and \$6.3 million for the three months ended June 30, 2009 and 2008, respectively. The increase for the three months ended June 30, 2009 in noncontrolling interest was due primarily to an increase in the number of subsidiary companies for which there exists a noncontrolling interest. Accordingly, net earnings attributable to Enstar Group Limited decreased from approximately \$11.2 million for the three months ended June 30, 2008 to approximately \$8.8 million for the three months ended June 30, 2009.

Consulting Fees:

| Reinsurance | (8,247) | (9,037) | 790 |
| Total | \$ 4,179 | \$ 3,578 | \$ 601 |

We earned consulting fees of approximately \$4.2 million and \$3.6 million for the three months ended June 30, 2009 and 2008, respectively.

Internal management fees of \$8.2 million and \$9.0 million were paid in the quarters ended June 30, 2009 and 2008, respectively, by our reinsurance companies to our consulting companies. The decrease in internal fees paid to the consulting segment was due primarily to a decrease in fees paid by our reinsurance companies in respect of internal collection and audit services.

Net Investment Income and Net Realized Gains:

| | Net Investment | | | Net Realized | | |
|-------------|---------------------------------------|-------------|-----------------|-----------------------|-------------|-----------------|
| | Income | | | Gains/(Losses) | | |
| | 2009 | 2008 | Variance | 2009 | 2008 | Variance |

| Total | \$ 18,493 | \$ 21,219 | \$ (2,726) | \$ 5,080 | \$ 1,014 | \$ 4,066 |

Net investment income for the three months ended June 30, 2009 decreased by \$2.7 million to \$18.5 million, as compared to \$21.2 million for the same period in 2008. The decrease was primarily attributable to the following:

- (i) lower investment income from fixed maturities and cash and cash equivalents, reflecting the impact of lower global short-term and intermediate interest rates the average U.S. Federal Funds Rate has decreased

from 2.08% for the three months ended June 30, 2008 to 0.25% for the three months ended June 30, 2009;

- (ii) decrease in the Australian dollar and British pound quarterly average foreign exchange rates; partially offset by
- (iii) an appreciation of \$0.4 million in the fair value of our investments in New NIB Partners L.P., the Flowers Fund, Affirmative Investment LLC and GSC European Mezzanine Fund II, LP for the three months ended June 30, 2009.

The average return on the cash and fixed maturity investments for the three months ended June 30, 2009 was 1.96%, as compared to the average return of 2.88% for the three months ended June 30, 2008. The average Standard & Poor's credit rating of our fixed income investments at June 30, 2009 was AA.

Net realized gains for the three months ended June 30, 2009 and 2008 were \$5.1 million and \$1.0 million, respectively. The change between 2008 and 2009 of approximately \$4.1 million relates primarily to mark to market gains in 2009 in the market value of our equity portfolio.

Table of Contents*Net Reduction in Loss and Loss Adjustment Expense Liabilities:*

The net reduction in loss and loss adjustment expense liabilities for the three months ended June 30, 2009 and 2008 were \$17.4 million and \$25.5 million, respectively. The net reduction in loss and loss adjustment expense liabilities for the three months ended June 30, 2009 of \$17.4 million was attributable to a reduction in estimates of net ultimate losses of \$17.7 million and a reduction in estimates of loss adjustment expense liabilities, or LAE, of \$9.4 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments of \$9.8 million relating to companies acquired. The reduction in estimates of net ultimate losses of \$17.7 million primarily related to the reduction in estimates of net ultimate losses of \$13.0 million in one of our subsidiaries. This reduction in estimates of ultimate losses of \$13.0 million was comprised of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of our reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves as required by local regulation.

The reduction in estimates of net ultimate losses of \$25.2 million for the three months ended June 30, 2008 was primarily attributable to the reduction in estimates of net ultimate losses of \$25.5 million related to one of our subsidiaries, which reduction was comprised of net favorable incurred loss development of \$12.1 million and related reductions in IBNR reserves of \$13.4 million. The net favorable incurred loss development of \$12.1 million, whereby net advised case and LAE reserves of \$21.2 million were settled for net paid losses of \$9.1 million, arose from the settlement of non-commuted losses during the period below carried reserves and three commutations of assumed and ceded exposures at less than case and LAE reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$13.4 million was the result of an independent actuarial review and the application of our reserving methodologies to the reduced case and LAE reserves. During the three months ended June 30, 2008, another of our reinsurance subsidiaries commuted its largest exposure, which was fully reinsured by a single reinsurer with a AA- rating from Standard & Poors. The subsidiary paid net claims of \$221.2 million and reduced net IBNR loss reserves by the same amount.

The following table shows the components of the movement in the net reduction in loss and loss adjustment expense liabilities for the three months ended June 30, 2009 and 2008.

Salaries and benefits, which include expenses relating to our discretionary bonus and employee share plans, were \$11.9 million and \$13.9 million for the three months ended June 30, 2009 and 2008, respectively.

The reduction in total salaries and benefits of approximately \$2.0 million is primarily attributable to:

- (i) a reduction in the quarterly average British pound exchange rate to U.S. dollars for the three months ended June 30, 2008 and 2009 from approximately 1.972 to 1.552, respectively. Of our total headcount as at June 30, 2009 and June 30, 2008, approximately 67% and 63%, respectively, had their salaries paid in British pounds;
- (ii) a reduction in the discretionary bonus expense for the three months ended June 30, 2009 of \$0.5 million; partially offset by

- (iii) increased staff costs due to an increase in average staff numbers for the three months ended June 30, 2008 of 249 to an average of 286 for the three months ended June 30, 2009.

Expenses relating to our discretionary bonus plan will be variable and dependent on our overall profitability.

Table of Contents

General and administrative expenses attributable to the consulting segment decreased by \$0.8 million during the three months ended June 30, 2009, as compared to the three months ended June 30, 2008.

General and administrative expenses attributable to the reinsurance segment decreased by \$2.2 million during the three months ended June 30, 2009, as compared to the three months ended June 30, 2008. The reduction in general and administrative expenses is primarily attributable to the following:

- (i) a reduction in the quarterly average British pound exchange rate to U.S. dollars for the three months ended June 30, 2008 and 2009 from approximately 1.972 to 1.552, respectively;
- (ii) a reduction in consulting and third-party management expenses; partially offset by
- (iii) increased legal fees incurred in our U.S. subsidiaries; and
- (iv) increased costs resulting from companies acquired subsequent to June 30, 2008.

Interest expense of \$4.7 million and \$7.6 million was recorded for the three months ended June 30, 2009 and 2008, respectively. The decrease in interest expense is primarily attributable to the combination of:

- (i) a reduction in the principal balance on the outstanding loan relating to the acquisition of AMP Limited's Australian-based closed reinsurance and insurance operations, or Gordian;
- (ii) a reduction in the Australian LIBOR interest rate on the Cumberland Loan Facility between June 30, 2008 and June 30, 2009; and
- (iii) a reduction in the average Australian dollar exchange rate to U.S. dollars from approximately 0.944 to 0.762 for the three months ended June 30, 2008 and June 30, 2009, respectively.

We recorded a foreign exchange gain of \$1.6 million for the quarter ended June 30, 2009, as compared to a foreign exchange gain of \$4.9 million for the same period in 2008. For the quarter ended June 30, 2009, the foreign exchange gain arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar has been depreciating against the currency.

For the three months ended June 30, 2008, the foreign exchange gain arose primarily as a result of the holding of surplus net Australian dollars and Euros in the reinsurance segment at a time when these currencies had been appreciating against the U.S. dollar.

We recorded an income tax recovery/(expense) of \$0.1 million and \$(3.2) million for the three months ended June 30, 2009 and 2008, respectively. During the three months ended June 30, 2009 and 2008, we incurred net income tax recovery/(expense) for our subsidiaries that operate in taxable jurisdictions of \$0.1 million and \$(6.7) million, respectively. For the three months ended June 30, 2008, this was partially offset by the expiration of the statute of limitations on certain previously recorded uncertain tax liabilities. In accordance with FIN 48, those liabilities were reversed with the corresponding adjustment being made to income tax recovery in the income statement. The benefit of the expiration of the statute of limitations on uncertain tax liabilities resulted in a recovery by us for the quarter ended June 30, 2008 of \$3.5 million.

Noncontrolling Interest

We recorded noncontrolling interest in earnings of \$10.5 million and \$6.3 million for the three months ended June 30, 2009 and 2008, respectively. The increase for the three months ended June 30, 2009 in noncontrolling interest was due primarily to an increase in the number of subsidiary companies for which there exists a noncontrolling interest.

Comparison of the Six Months Ended June 30, 2009 and 2008

We reported consolidated net earnings, before extraordinary item and net earnings attributable to noncontrolling interest, of approximately \$30.1 million for the six months ended June 30, 2009 as compared to a net (loss) of approximately \$(2.7) million for the same period in 2008. The increase in earnings of approximately \$32.8 million was primarily a result of the following:

- (i) an increase in investment income of \$14.0 million primarily due to a decrease in the cumulative writedowns on our private equity investments of \$21.0 million, partially offset by lower investment income reflecting the impact of lower global short-term and intermediate interest rates and a \$0.9 million

increase in net realized losses;

- (ii) an increased reduction in loss and loss adjustment expense liabilities of \$19.3 million;
- (iii) a reduction in salary and general and administrative costs of \$3.6 million due to lower actual expenses primarily as a result of a lower British pound exchange rate to the U.S. dollar; and
- (iv) a reduction in income taxes of \$3.6 million due to lower tax liabilities on the results of our taxable subsidiaries; partially offset by
- (v) a reduction in foreign exchange gains and consulting fees of \$8.4 million.

We recorded noncontrolling interest in earnings of \$9.8 million and \$24.8 million for the six months ended June 30, 2009 and 2008, respectively. The decrease for the six months ended June 30, 2009 in noncontrolling interest was due primarily to the noncontrolling interest's share of the negative goodwill relating to the Gordian

acquisition in 2008. Accordingly, net earnings attributable to Enstar Group Limited decreased from approximately \$22.9 million for the six months ended June 30, 2008 to approximately \$20.3 million for the six months ended June 30, 2009.

| Reinsurance | (16,243) | (16,285) | 42 |

We earned consulting fees of approximately \$7.5 million and \$9.6 million for the six months ended June 30, 2009 and 2008, respectively. The decrease in consulting fees primarily related to decreased incentive fees earned from third-party agreements.

Internal management fees of \$16.2 million and \$16.3 million were paid in the six months ended June 30, 2009 and 2008, respectively, by our reinsurance companies to our consulting companies.

Net investment income for the six months ended June 30, 2009 increased by \$14.0 million to \$35.8 million, as compared to \$21.8 million for the same period in 2008. The increase was primarily attributable to the combination of the following items:

- (i) Decrease from \$22.7 million to \$1.7 million in writedowns in the fair value of our investments in New NIB Partners L.P., the Flowers Fund, Affirmative Investment LLC and GSC European Mezzanine Fund II, LP for the six months ended June 30, 2008 and 2009, respectively; partially offset by
- (ii)

lower investment income from fixed maturities and cash and cash equivalents, reflecting the impact of lower global short-term and intermediate interest rates the average U.S. Federal Funds Rate has decreased from 2.65% for the six months ended June 30, 2008 to an average of 0.25% for the six months ended June 30, 2009.

The average return on the cash and fixed maturity investments for the six months ended June 30, 2009 was 1.76%, as compared to the average return of 4.10% for the six months ended June 30, 2008. The average Standard & Poor's credit rating of our fixed income investments at June 30, 2009 was AA.

Net realized (losses) for the six months ended June 30, 2009 and 2008 were \$(0.9) million and \$(0.1) million, respectively. The increase was due primarily to the writedown of our equity investments in 2009.

Net Reduction in Loss and Loss Adjustment Expense Liabilities:

The net reduction in loss and loss adjustment expense liabilities for the six months ended June 30, 2009 and 2008 was \$44.1 million and \$24.8 million, respectively. The net reduction in loss and loss adjustment expense liabilities for the six months ended June 30, 2009 of \$44.1 million was attributable to a reduction in estimates of net ultimate losses of \$47.6 million, a reduction in aggregate provisions for bad debts of \$9.7 million and a reduction in estimates of loss adjustment expense liabilities of \$19.5 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$32.7 million.

The reduction in estimates of net ultimate losses of \$47.6 million primarily related to a reduction in estimates of loss reserves in two of our subsidiaries of \$33.9 million following the commutation of one of our largest ten assumed and ceded exposures at less than case and LAE reserves and the agreement of claims liabilities of certain policyholders at levels that required a reassessment of IBNR loss reserves.

In addition, we recognized a reduction in estimates of net ultimate losses of \$13.0 million in one of our subsidiaries as a result of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of our reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of

reserves as required by local regulation.

The reduction in estimates of net ultimate losses of \$23.9 million for the six months ended June 30, 2008 was primarily attributable to the reduction in estimates of net ultimate losses of \$25.5 million related to one of our subsidiaries, which reduction was comprised of net favorable incurred loss development of \$12.1 million and related reductions in IBNR reserves of \$13.4 million. The net favorable incurred loss development of \$12.1 million, whereby net advised case and LAE reserves of \$21.2 million were settled for net paid losses of \$9.1 million, arose from the settlement of non-commuted losses during the period below carried reserves and approximately three commutations of assumed and ceded exposures at less than case and LAE reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$13.4 million was the result of an independent actuarial review and the application of our reserving methodologies to the reduced case and LAE reserves. During the six months ended June 30, 2008, another of our reinsurance subsidiaries commuted its largest exposure, which was fully reinsured by a single reinsurer with an AA- rating from Standard & Poor's. The subsidiary paid net claims of \$221.2 million and reduced net IBNR loss reserves by the same amount.

Salaries and benefits, which include expenses relating to our discretionary bonus and employee share plans, were \$24.3 million and \$25.3 million for the six months ended June 30, 2009 and 2008, respectively. The reduction in salaries and benefits is primarily attributable to:

- (i) a reduction in the average British pound exchange rate to U.S. dollars for the six months ended June 30, 2008 and 2009 from approximately 1.975 to 1.493, respectively. Of our total headcount as at June 30, 2009 and June 30, 2008, approximately 67% and 63%, respectively, had their salaries paid in British pounds;
- (ii) a reduction in the discretionary bonus expense for the six months ended June 30, 2009 of \$0.5 million; partially offset by
- (iii) increased staff costs due to an increase in average staff numbers from 243 at June 30, 2008 to 287 as at June 30, 2009.

Expenses relating to our discretionary bonus plan will be variable and dependent on our overall profitability.

| Reinsurance | 14,784 | 17,257 | 2,473 |
| Total | \$ 23,292 | \$ 25,883 | \$ 2,591 |

General and administrative expenses attributable to the reinsurance segment decreased by \$2.6 million during the six months ended June 30, 2009, as compared to the six months ended June 30, 2008. For the six months ended June 30, 2008, we incurred approximately \$4.5 million of bank loan structure fees in respect of acquisitions we completed during that period. For the six months ended June 30, 2009 we did not incur any similar fees. In addition, expenses were lower as a result of a reduction in the British pound exchange rate, in which a large portion of our costs are denominated. The reduced expenses were partially offset by increased costs resulting from companies acquired subsequent to June 30, 2008.

Interest Expense:

Interest expense of \$9.6 million and \$11.0 million was recorded for the six months ended June 30, 2009 and 2008, respectively. The decrease in interest expense is primarily attributable to the combination of:

- (i) a reduction in the principal balance on the Cumberland Loan Facility;
- (ii) a reduction in the Australian LIBOR interest rate on the Cumberland Loan Facility between June 30, 2008 and June 30, 2009; and
- (iii) a reduction in the average Australian dollar exchange rate to U.S. dollars from approximately 0.925 to 0.713 for the six months ended June 30, 2008 and June 30, 2009, respectively.

We recorded a foreign exchange gain of \$0.1 million for the six-month period ended June 30, 2009, as compared to a foreign exchange gain of \$6.3 million for the same period in 2008. For the six months ended June 30, 2009, the foreign exchange gain arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by the combination of realized foreign exchange losses on currency translations and foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar has been depreciating against the currency.

Table of Contents

For the six months ended June 30, 2008, the foreign exchange gain arose primarily as a result of the holding of surplus net Australian dollars and Euros in the reinsurance segment at a time when these currencies were appreciating against the U.S. dollar.

In addition to the foreign exchange gains recorded in our consolidated statement of earnings for the six months ended June 30, 2009, we recorded in our condensed consolidated statement of comprehensive income currency translation adjustment gains, net of noncontrolling interest, of \$26.4 million as compared to \$7.7 million for the same period in 2008. For the six months ended June 30, 2009, the currency translation adjustment gains related primarily to Gordian. As the functional currency of Gordian is Australian dollars, we are required to record any U.S. dollar gains or losses on the translation of the net Australian dollar assets of Gordian through accumulated other comprehensive income.

We recorded income tax recovery/(expense) of \$0.6 million and \$(3.0) million for the six months ended June 30, 2009 and 2008, respectively. Income tax (expense)/recovery of \$(1.2) million and \$1.8 million were recorded in the consulting segment for the six months ended June 30, 2009 and 2008, respectively. The variance between the two periods was primarily attributable to our recording of tax recoveries on losses incurred by our U.S. operations for the six months ended June 30, 2008.

Income tax recovery/(expense) of \$1.8 million and \$(4.8) million were recorded in the reinsurance segment for the six months ended June 30, 2009 and 2008, respectively. During the period ended June 30, 2009 and 2008, we recorded net income tax (recovery)/expense related to those subsidiaries operating in taxable jurisdictions of \$1.8 million and \$(8.3) million, respectively.

In addition, the benefit of the expiration of the statute of limitations on uncertain tax liabilities resulted in a recovery by us during the six months ended June 30, 2008 of \$3.5 million.

Negative goodwill of \$nil million and \$50.3 million, was recorded for the six months ended June 30, 2009 and 2008, respectively. For the six months ended June 30, 2008 the negative goodwill of \$50.3 million was earned in connection with our acquisition of AMP Limited's Australian-based closed reinsurance and insurance operations, or Gordian, and represents the excess of the cumulative fair value of net assets acquired of \$455.7 million over the cost of \$405.4 million. This excess was, in accordance with SFAS 141 Business Combinations, recognized as an extraordinary gain in 2008. The negative goodwill arose primarily as a result of the income earned by Gordian between the date of the balance sheet on which the agreed purchase price was based, June 30, 2007, and the date the acquisition closed, March 5, 2008.

The decrease for the six months ended June 30, 2009 in noncontrolling interest was due primarily to the noncontrolling interest's share of the negative goodwill relating to the Gordian acquisition in 2008.

Liquidity and Capital Resources

On April 4, 2009, we repaid AU\$80.7 million (approximately \$56.7 million) of the outstanding principal of the Facility A commitment pursuant to the Cumberland Loan Facility. As at June 30, 2009, the outstanding loan balance related to the Cumberland Loan Facility was AU\$147.9 million (approximately \$119.2 million).

On June 29, 2009, we received approval from the Australian regulators to release a further AU\$123.9 million bringing the total approved and unpaid releases to AU\$149.7 million. We expect the distributions to be made in the third quarter of 2009. In accordance with the terms of the Cumberland Loan Facility, 50% of the total distributions will be used to pay down the Cumberland Loan Facility.

Other than this repayment, there have been no material changes to our liquidity position or capital resource requirements since December 31, 2008. For more information refer to Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources included in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on March 5, 2009.

On December 30, 2008, in connection with the Unionamerica Holdings Limited acquisition, Royston Run-off Limited, or Royston, borrowed the full amount of \$184.6 million available under a term facilities agreement, or the Unionamerica Facilities Agreement, with National Australia Bank Limited, or NABL. Of that amount, Royston borrowed \$152.6 million under Facility A and \$32.0 million under Facility B. The loans are secured by a lien covering all of the assets of Royston. We provided a guarantee of all of Royston's obligations under the facilities agreement. The Facility A portion is repayable within three years from October 3, 2008, the date of the Unionamerica Facilities Agreement. The Facility B portion is repayable within four years from the date of the Unionamerica Facilities Agreement. The Flowers Fund has a 30% non-voting equity interest in Royston Holdings Ltd., the direct parent company of Royston.

On August 4, 2009, Royston entered into an amended and restated term facility agreement pursuant to which: (1) NABL's participation in the original \$184.6 million facility was reduced from 100% to 50%, with Barclays Bank PLC providing the remaining 50%; (2) the guarantee provided by us of all of the obligations of Royston under the Unionamerica Facilities Agreement was terminated; and (3) the interest rate on the Facility A portion was reduced from LIBOR plus 3.50% to LIBOR plus 2.75% and the interest rate on the Facility B portion was reduced from LIBOR plus 4.00% to LIBOR plus 3.25%.

With respect to the six-month periods ended June 30, 2009 and 2008, net cash provided by our operating activities was \$29.1 million and \$334.3 million, respectively. The decrease in cash flows was primarily attributable to a decrease in the net assets assumed on retroactive reinsurance contracts during the six-months ended June 30, 2009.

Net cash used in investing activities for the six-month periods ended June 30, 2009 and 2008 was \$312.2 million and \$196.8 million, respectively. The decrease in the cash flows was primarily due to an increase in net purchases of investments partially offset by an increase in cash provided by the sales and maturities of available-for-sale securities.

Net cash (used in) provided by financing activities for the six month periods ended June 30, 2009 and 2008 was \$(74.5) million and \$334.0 million, respectively. The decrease in cash flows was primarily attributable to the receipt

of bank loans and capital contributions by noncontrolling interest shareholders relating to acquisitions completed during the six months ended June 30, 2008 which did not recur in 2009.

Commitments and Contingencies

There have been no other material changes in our commitments or contingencies since December 31, 2008. This quarterly report contains statements that constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, with respect to our financial condition, results of operations, business strategies, operating efficiencies, competitive positions, growth opportunities, plans and objectives of our management, as well as the markets for our ordinary shares and the insurance and reinsurance sectors in general. Statements that include words such as estimate, project, plan, intend, expect, anticipate, believe, would, should, could, seek, and similar statements of a future or forward-looking nature identify forward-looking statements for purposes of the federal securities laws or otherwise. All forward-looking statements are necessarily estimates or expectations, and not statements of historical fact, reflecting the best judgment of our management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in and incorporated by reference in this quarterly report.

Factors that could cause actual results to differ materially from those suggested by the forward-looking statements include:

risks associated with implementing our business strategies and initiatives;

the adequacy of our loss reserves and the need to adjust such reserves as claims develop over time;

risks relating to the availability and collectability of our reinsurance;

changes in economic conditions, including interest rates, inflation, currency exchange rates, equity markets and credit conditions including current market conditions and the instability in the global credit markets, which could affect our investment portfolio, our ability to finance future acquisitions and our profitability;

losses due to foreign currency exchange rate fluctuations;

tax, regulatory or legal restrictions or limitations applicable to us or the insurance and reinsurance business generally;

increased competitive pressures, including the consolidation and increased globalization of reinsurance providers;

emerging claim and coverage issues;

lengthy and unpredictable litigation affecting assessment of losses and/or coverage issues;

loss of key personnel;

changes in our plans, strategies, objectives, expectations or intentions, which may happen at any time at management's discretion;

operational risks, including system or human failures;

risks that we may require additional capital in the future which may not be available or may be available only on unfavorable terms;

the risk that ongoing or future industry regulatory developments will disrupt our business, or mandate changes in industry practices in ways that increase our costs, decrease our revenues or require us to alter aspects of the way we do business;

changes in Bermuda law or regulation or the political stability of Bermuda;

changes in tax laws or regulations applicable to us or our subsidiaries, or the risk that we or one of our non-U.S. subsidiaries become subject to significant, or significantly increased, income taxes in the United States or elsewhere; and

changes in accounting policies or practices.

Table of Contents

The factors listed above should be not construed as exhaustive and should be read in conjunction with the other cautionary statements and Risk Factors that are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed with the SEC on March 5, 2009, as well as in the materials filed and to be filed with the SEC. We undertake no obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

Item 3. QUANTITATIVE AND QUALITATIVE INFORMATION ABOUT MARKET RISK

There have been no material changes in our market risk exposures since December 31, 2008. For more information refer to Quantitative and Qualitative Disclosures about Market Risk included in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on March 5, 2009.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management performed an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of June 30, 2009. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

Our management has performed an evaluation, with the participation of our Chief Executive Officer and our Chief Financial Officer, of changes in our internal control over financial reporting that occurred during the three months ended June 30, 2009. Based upon that evaluation there were no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

We are, from time to time, involved in various legal proceedings in the ordinary course of business, including litigation regarding claims. We do not believe that the resolution of any currently pending legal proceedings, either individually or taken as a whole, will have a material adverse effect on our business, results of operations or financial condition. Nevertheless, we cannot assure you that lawsuits, arbitrations or other litigation will not have a material adverse effect on our business, financial condition or results of operations. We anticipate that, similar to the rest of the insurance and reinsurance industry, we will continue to be subject to litigation and arbitration proceedings in the ordinary course of business, including litigation generally related to the scope of coverage with respect to asbestos and environmental claims. There can be no assurance that any such future litigation will not have a material adverse effect on our business, financial condition or results of operations.

In April 2008, we, Enstar US, Inc., or Enstar US, Dukes Place Limited and certain affiliates of Dukes Place, or, collectively, Dukes Place, were named as defendants in a lawsuit filed in the United States District Court for the Southern District of New York by National Indemnity Company, or NICO, an indirect subsidiary of Berkshire Hathaway. The complaint alleges, among other things, that Dukes Place, we and Enstar US: (i) interfered with the rights of NICO as reinsurer under reinsurance agreements entered into between NICO and each of Stonewall and Seaton, two Rhode Island domiciled insurers that are indirect subsidiaries of Dukes Place, and (ii) breached certain duties owed to NICO under management agreements between Enstar US and each of Stonewall and Seaton. The suit was filed shortly after Virginia Holdings Ltd., our indirect subsidiary, or Virginia, completed a hearing before the Rhode Island Department of Business Regulation as part of Virginia's application to buy a 44.4% interest in the insurers from Dukes Place. Virginia completed that acquisition on June 13, 2008. The suit does not seek a stated amount of damages. On July 23, 2008, we and Enstar US filed a motion to dismiss Count I (relating to breach of fiduciary duty), Count III (relating to breach of contract) and Count V (relating to inducing breach of contract), in each case for failure to state a claim upon which relief can be granted. Subsequently, the parties entered into a Stipulation and Order filed with the Court on October 7, 2008, by which (i) NICO agreed to dismiss Count V of its Complaint with prejudice, (ii) the defendants agreed to withdraw their motion to dismiss Counts I and III without prejudice, reserving all of their rights and defenses to challenge these claims on the merits, and (iii) NICO agreed to extend the defendants' time to file an answer and counterclaim. On November 5, 2008, we, Enstar US and Dukes Place filed an answer to NICO's complaint and Dukes Place asserted certain counterclaims against NICO. On January 12, 2009, NICO filed a motion to dismiss certain of the counterclaims, along with a motion for summary judgment addressed to the counterclaims. We, Enstar US and Dukes Place filed papers in opposition to NICO's motion on February 23, 2009, and NICO filed reply briefs in support of its motion on March 23, 2009. We, Enstar US and Dukes Place are currently in discussions with NICO regarding a potential settlement of all claims and counterclaims. Our management believes the suit will not have a material impact on us or our subsidiaries.

Item 1A. RISK FACTORS

Our results of operations and financial condition are subject to numerous risks and uncertainties described in Risk Factors included in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed with the SEC on March 5, 2009. The risk factors identified therein have not materially changed.
