Item 7.01. Regulation FD Disclosure

On April 4, 2011, Builders FirstSource, Inc. (the Company, we, us or our) provided the following information to potential investors in connection with its previously announced offering of senior secured notes. This report shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of notes in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

RECENT DEVELOPMENTS

Recent financial results

Our sales for the two months ended February 28, 2011 were \$95.7 million, a 4.2% increase over sales of \$91.8 million for the two months ended February 28, 2010. Actual single family housing starts in the South Region, as defined by the U.S. Census Bureau, and which includes all of our markets, declined 19.8% over these same periods. Lumber commodity prices were comparable over these same periods. We believe our sales increased despite the challenging macro-economic environment due to the strength of our competitive position, and that our financial results are indicative of market share gains over this time period.

For the fiscal first quarter ending March 31, 2011, we anticipate that sales will be in the range of approximately \$160 million to \$165 million; essentially flat with first quarter 2010 sales of \$161.4 million on significantly fewer housing starts and comparable lumber commodity prices. We expect that our fiscal first quarter Adjusted EBITDA loss will be in the range of approximately \$(9) million to \$(12) million, compared to \$(15.3) million in the first quarter of 2010. A range of net income (loss) and a reconciliation of Adjusted EBITDA to net income (loss) cannot be provided at this time because the line items in our statement of operations have not been finalized with sufficient certainty. We continue to face a challenging operating environment, driven largely by conditions in the housing market and general economic conditions.

The estimates set forth above are based solely on currently available information. We have not finalized our financial statement closing process for the first quarter ended March 31, 2011. During the course of this process we may identify items that would require us to make adjustments to our preliminary operating results described above. As a result, the discussion above constitutes forward-looking statements and, therefore, we caution you that these statements are subject to risks and uncertainties, including possible material adjustments to our preliminary operating results and the risk factors highlighted in this offering memorandum. We do not intend to update or otherwise revise this discussion to reflect future events and do not intend to disclose publicly whether our actual results will vary from those discussed above other than through the release of actual results in the ordinary course of business.
