**ABOUT THIS PROSPECTUS SUPPLEMENT**

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering of the Notes and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. The second part is the accompanying prospectus, which contains a description of the securities registered by us. To the extent there is a conflict between the information contained or incorporated by reference in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or any document incorporated by reference therein, on the other hand, the information in this prospectus supplement shall control.

This prospectus supplement and the accompanying prospectus are part of a registration statement that we filed with the Securities and Exchange Commission ( **SEC** ) using a shelf registration process as a well-known seasoned issuer . Under the registration statement, we may sell securities, including Notes, of which this offering is a part.

It is important for you to read and consider all information contained in this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein and therein, in making your investment decision. This prospectus supplement and the accompanying prospectus incorporate important business and financial information about us and our subsidiaries that is not included in or delivered with these documents. This information is available without charge to security holders upon written or oral request. See [Where You Can Find More Information](#) .

**SUMMARY**

*This summary may not contain all of the information that may be important to you. You should read carefully this prospectus supplement and the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus in their entirety before making an investment decision. The terms **CMS Energy**, **we**, **our** and **us** as used in this document refer to CMS Energy Corporation and its subsidiaries and predecessors as a combined entity, except where it is made clear that such term means only CMS Energy Corporation. In this document, **MW** means megawatts.*

**CMS Energy Corporation**

CMS Energy is an energy company operating primarily in Michigan and is the parent holding company of several subsidiaries, including Consumers Energy Company ( **Consumers** ) and CMS Enterprises Company ( **Enterprises** ). Consumers is an electric and gas utility company serving Michigan's lower peninsula. Consumers' electric utility operations include the generation, purchase, distribution and sale of electricity. At December 31, 2010, Consumers' electric utility owned and operated electric generating plants with an aggregate of 6,188 MW of capacity. Consumers' gas utility operations include the purchase, transmission, storage, distribution and sale of natural gas. At December 31, 2010, Consumers' gas utility owned and operated 26,585 miles of distribution mains and 1,664 miles of transmission lines throughout Michigan's lower peninsula. Consumers' customer base includes a mix of residential, commercial and diversified industrial customers. Consumers provides electricity and/or natural gas to 6.8 million of Michigan's 10 million residents. Enterprises, through its equity investments and subsidiaries, is primarily engaged in independent power production. At December 31, 2010, CMS Energy had ownership interests in independent power plants totaling 1,166 gross MW of generation capacity. CMS Energy's principal executive offices are located at One Energy Plaza, Jackson, Michigan 49201, and CMS Energy's telephone number is (517) 788-0550.

**Recent Developments**

***First Quarter 2011 Consolidated Results of Operations***

For the three months ended March 31, 2011, CMS Energy's net income available to common stockholders was \$135 million, and diluted earnings per share were \$0.52. This compares with net income available to common stockholders of \$85 million and diluted earnings per share of \$0.34 for the three months ended March 31, 2010. Among the most significant factors contributing to CMS Energy's improved performance were benefits from electric and gas rate orders and increased gas deliveries, offset partially by higher distribution and service restoration costs.

For the three months ended March 31, 2011, net cash provided by operating activities at CMS Energy was \$841 million, which constituted an increase of \$184 million compared with the three months ended March 31, 2010. The increase was due primarily to higher net income, the absence of pension plan contributions in 2011, and increased collection of accounts receivable.

**Table of Contents****The Offering**

*The following summary is qualified in its entirety by reference to the more detailed information appearing elsewhere in this prospectus supplement and the accompanying prospectus. For additional information concerning the Notes, see Description of the Notes .*

| Use of Proceeds                   | We estimate that the proceeds from the sale of the Notes, after deducting underwriting discounts and commissions but before deducting estimated offering expenses, will be \$ . We intend to use the proceeds of the offering of the Notes for general corporate purposes, including the prepayment of all outstanding loans under the \$550 million Revolving Credit Agreement dated as of March 31, 2011 among CMS Energy, the Banks, as defined therein, and Barclays Bank PLC, as Agent (the <b>CMS Revolving Credit Agreement</b> ). At May 9, 2011, we had approximately \$125,000,000 of loans outstanding under the CMS Revolving Credit Agreement at a weighted average rate of 2.22% per year. Some of the underwriters, |

either directly or through affiliates, are lenders under the CMS Revolving Credit Agreement.

Ranking

The Notes will be senior unsecured obligations of CMS Energy Corporation and will rank equal in right of payment with all of CMS Energy Corporation's existing and future senior unsecured indebtedness. The Notes will be effectively subordinated to CMS Energy Corporation's existing and future secured indebtedness to the extent of the value of the related collateral securing that indebtedness and structurally subordinated to the indebtedness and other liabilities of our subsidiaries. As of March 31, 2011, CMS Energy Corporation had outstanding approximately \$2.3 billion of senior unsecured indebtedness and CMS Energy Corporation's subsidiaries had outstanding approximately \$10.4 billion of indebtedness and other liabilities.

**Table of Contents****RISK FACTORS**

*An investment in the Notes involves a significant degree of risk. You should consider carefully the following risk factors, together with all of the other information included or incorporated by reference in this prospectus supplement. In particular, you should carefully consider the factors listed in Forward-Looking Statements and Information as well as the Risk Factors contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 and in Forward-Looking Statements and Information in our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2011, each of which is incorporated by reference into this prospectus supplement, before you decide to purchase the Notes. This prospectus supplement, the accompanying prospectus and the documents that we incorporate or that are deemed to be incorporated in this prospectus supplement or the accompanying prospectus, and other written and oral statements that we make, contain forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995 and relevant legal decisions. Our intention with the use of words such as may, could, anticipates, believes, estimates, expects, intends, plans and other similar words is to identify forward-looking statements that involve risk and uncertainty. We have no obligation to update or revise any forward-looking statements regardless of whether new information, future events or any other factors affect the information contained in the statements. The risks and uncertainties described below and those incorporated from the referenced Annual Report on Form 10-K and Quarterly Report on Form 10-Q are not the only ones we may confront. Additional risks and uncertainties not currently known to us or that we currently deem not material also may impair our business operations. If any of those risks actually occur, our financial condition, operating results and prospects could be materially adversely affected. This section contains forward-looking statements.*

***The Notes will be effectively subordinated to any existing and future secured indebtedness and structurally subordinated to existing and future liabilities and other indebtedness of our subsidiaries.***

The Notes will be general, unsecured obligations of CMS Energy Corporation only and will rank equally in right of payment with all of CMS Energy Corporation's existing and future unsubordinated, unsecured indebtedness. As a result, the Notes will be effectively subordinated to CMS Energy Corporation's existing and future secured indebtedness to the extent of the value of the related collateral securing that indebtedness and structurally subordinated to any existing and future indebtedness and other liabilities of our subsidiaries. These liabilities may include indebtedness, trade payables, guarantees, lease obligations and letter of credit obligations. None of our subsidiaries has any obligation with respect to the Notes. The Notes do not restrict us or our subsidiaries from incurring additional indebtedness, including secured indebtedness.

***We may be unable to raise the funds necessary to purchase Notes upon a change of control repurchase event.***

In the event of a change of control repurchase event, each holder of Notes may require us to purchase all or a portion of its Notes at a purchase price equal to 101% of the principal amount thereof, plus accrued interest. Our ability to purchase the Notes will be limited by the terms of our other debt agreements and our ability to finance the purchase. It is expected that we will issue additional debt with similar change of control provisions in the future. If this occurs, the financial requirements for any purchases could be increased significantly. In addition, the terms of any debt securities issued to purchase debt under these change of control provisions may be unfavorable to us. We cannot assure holders of Notes that we will be able to finance these purchase obligations or obtain consents to do so from holders of debt under other debt agreements restricting these purchases.

***We may choose to redeem the Notes prior to maturity.***

We may redeem all or a portion of the Notes at any time. See Description of the Notes Optional Redemption. If prevailing interest rates are lower at the time of redemption, holders of the Notes may not be able to reinvest the redemption proceeds in a comparable security at an interest rate as high as the interest rate of the Notes being redeemed.

***We cannot provide assurance that an active trading market will develop for the Notes.***

The Notes will constitute a new series of securities with no established trading market. We do not intend to apply to list the Notes for trading on any national securities exchange or to include the Notes in any automated quotation system. We cannot provide assurance that an active trading market for the Notes will develop or as to the liquidity or sustainability of any market, the ability of holders of the Notes to sell their Notes or the price at which holders of the

Notes will be able to sell their Notes. Future trading prices of the Notes will also depend on many other factors, including, among other things, prevailing interest rates, the market for similar securities, our financial performance and other factors.

***The terms of the indenture and the Notes provide only limited protection against significant events that could adversely impact a holder's investment in the Notes.***

As described under "Description of the Notes—Purchase of Notes Upon Change of Control", upon the occurrence of a change of control repurchase event, holders are entitled to require us to repurchase their Notes. However, the definition of the term "change of control repurchase event" is limited and does not cover a variety of transactions (such as acquisitions by us or recapitalizations) that could negatively impact the value of a holder's Notes. As such, if we were to enter into a significant corporate transaction that would negatively impact the value of the Notes, but which would not constitute a change of control repurchase event, a holder would not have any rights to require us to repurchase its Notes prior to their maturity.

Furthermore, the indenture for the Notes does not:

require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity;

limit our ability to incur unsecured indebtedness;

restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness or other obligations that would be senior to our equity interests in our subsidiaries and therefore rank effectively senior to the Notes with respect to the assets of our subsidiaries;

restrict our ability to repurchase or prepay any of our other securities or indebtedness; or

restrict our ability to make investments or to repurchase, or pay dividends or make other payments in respect of, our common stock or other securities ranking junior to the Notes.

As a result of the foregoing, anyone evaluating the terms of the Notes should be aware that the terms of the indenture and the Notes do not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events that could have an adverse impact on an investment in the Notes.

**Table of Contents****USE OF PROCEEDS**

We estimate that the proceeds from the sale of the Notes, after deducting underwriting discounts and commissions but before deducting estimated offering expenses, will be \$ . We intend to use the proceeds of the offering of the Notes for general corporate purposes, including the prepayment of all outstanding loans under the CMS Revolving Credit Agreement. At May 9, 2011, we had approximately \$125,000,000 of loans outstanding under the CMS Revolving Credit Agreement at a weighted average rate of 2.22% per year. Some of the underwriters, either directly or through affiliates, are lenders under the CMS Revolving Credit Agreement.

**Table of Contents****DESCRIPTION OF THE NOTES**

*The terms **CMS Energy**, **we**, **our** and **us**, as used in this section, refer only to CMS Energy Corporation and not to any of its subsidiaries.*

**General**

The Notes will be issued as a series of senior debt securities under the indenture that is referred to in the accompanying prospectus as the senior debt indenture, as supplemented by a supplemental indenture thereto establishing the terms of the Notes to be dated as of May , 2011 (the **supplemental indenture** ). The Notes will be initially limited in aggregate principal amount to \$ . The indenture permits us to re-open this offering of the Notes without the consent of the holders of the Notes. Accordingly, the principal amount of the Notes may be increased in the future on the same terms and conditions and with the same CUSIP number as the Notes being offered by this prospectus supplement, provided that such additional notes must be part of the same issue as the Notes offered hereby for United States federal income tax purposes. The Notes offered by this prospectus supplement and any such additional notes will constitute a single series of debt securities. This means that, in circumstances where the indenture provides for the holders of notes to vote or take any action, the holders of the Notes offered by this prospectus supplement and the holders of any such additional notes will vote or take that action as a single class. The Notes will be unsecured and unsubordinated senior debt securities of CMS Energy.

We may issue debt securities from time to time in one or more series under the indenture. There is no limitation on the amount of debt securities we may issue under the indenture. The indenture does not limit our ability to incur additional indebtedness, including secured indebtedness. The covenants contained in the indenture would not necessarily afford holders of Notes protection in the event of a highly leveraged transaction or other transaction involving us that may adversely affect the holders.

The statements herein concerning the Notes and the indenture are a summary and do not purport to be complete and are subject to, and qualified in their entirety by, all of the provisions of the indenture, which is incorporated herein by this reference. They make use of defined terms and are qualified in their entirety by express reference to the indenture, including the supplemental indenture, a copy of which will be available upon request to the trustee.

**Ranking**

The Notes will be our senior unsecured obligations and will rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The Notes will be effectively subordinated to our existing and future secured indebtedness to the extent of the value of the related collateral securing that indebtedness and structurally subordinated to the indebtedness and other liabilities of our subsidiaries.

CMS Energy is a holding company that conducts substantially all of its operations through its subsidiaries. Its only significant assets are the capital stock of its subsidiaries, and its subsidiaries generate substantially all of its operating income and cash flow. As a result, dividends or advances from its subsidiaries are the principal source of funds necessary to meet its debt service obligations. Contractual provisions or laws, as well as its subsidiaries' financial condition and operating requirements, may limit CMS Energy's ability to obtain cash from its subsidiaries that it may require to pay its debt service obligations, including payments on the Notes. In addition, the Notes will be effectively subordinated to all of the liabilities of CMS Energy's subsidiaries with regard to the assets and earnings of CMS Energy's subsidiaries. The subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the Notes or to make any funds available therefor, whether by dividends, loans or other payments. CMS Energy's rights and the rights of its creditors, including holders of Notes, to participate in the distribution of assets of any subsidiary upon the latter's liquidation or reorganization will be subject to prior claims of the subsidiaries' creditors, including trade creditors.

As of March 31, 2011, CMS Energy had outstanding approximately \$2.3 billion of senior unsecured indebtedness and CMS Energy's subsidiaries had outstanding approximately \$10.4 billion of indebtedness and other liabilities.

**Primary Source of Funds of CMS Energy; Restrictions on Sources of Dividends**

The ability of CMS Energy to pay (i) dividends on its capital stock and (ii) its indebtedness, including the Notes, depends and will depend substantially upon timely receipt of sufficient dividends or other distributions from its subsidiaries, in particular Consumers

**Table of Contents**

and, to a lesser extent, Enterprises. Each of Consumers' and Enterprises' ability to pay dividends on its common stock depends upon its revenues, earnings and other factors. Consumers' revenues and earnings will depend substantially upon rates authorized by the Michigan Public Service Commission.

Consumers' Restated Articles of Incorporation ( **Consumers' Articles** ) provide two restrictions on its payment of dividends on its common stock. First, prior to the payment of any common stock dividend, Consumers must reserve retained earnings after giving effect to such dividend payment of at least (i) \$7.50 per share on all then outstanding shares of its preferred stock, (ii) in respect to its Class A Preferred Stock, 7.5% of the aggregate amount established by its board of directors to be payable on the shares of each series thereof in the event of involuntary liquidation of Consumers and (iii) \$7.50 per share on all then outstanding shares of all other stock over which its preferred stock and Class A Preferred Stock do not have preference as to the payment of dividends and as to assets. Second, dividend payments during the 12-month period ending with the month the proposed payment is to be paid are limited to: (A) 50% of net income available for the payment of dividends during the base period (as defined below), if the ratio of common stock and surplus to total capitalization and surplus for 12 consecutive calendar months within the 14 calendar months immediately preceding the proposed dividend payment (the **base period** ), adjusted to reflect the proposed dividend, is less than 20%; and (B) 75% of net income available for the payment of dividends during the base period, if the ratio of common stock and surplus to total capitalization and surplus for the 12 consecutive calendar months immediately preceding the proposed dividend payment, is at least 20% but less than 25%.

Consumers is subject to the Federal Power Act and the Natural Gas Act. These acts limit Consumers' ability to pay dividends from its retained earnings. As of March 31, 2011, Consumers' unrestricted retained earnings were \$453 million.

Consumers' Articles also prohibit the payment of cash dividends on its common stock if Consumers is in arrears on preferred stock dividend payments.

In addition, Michigan law prohibits payment of a dividend if, after giving it effect, Consumers or Enterprises would not be able to pay its debts as they become due in the usual course of business, or its total assets would be less than the sum of its total liabilities plus, unless Consumers' Articles or Enterprises' articles of incorporation permit otherwise, the amount that would be needed, if Consumers or Enterprises were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution. Currently, it is Consumers' policy to pay annual dividends equal to 80% of its annual consolidated net income. Consumers' board of directors reserves the right to change this policy at any time.

**Payment and Maturity**

The Notes will mature on \_\_\_\_\_, 20\_\_\_\_, and will bear interest at the rate of \_\_\_\_\_% per year. At maturity, CMS Energy will pay the aggregate principal amount of the Notes then outstanding. Each Note will bear interest from the original date of issue, payable semi-annually in arrears on \_\_\_\_\_ and \_\_\_\_\_, commencing on \_\_\_\_\_, 2011, and at maturity. We will pay interest to holders of record at 5:00 p.m., New York City time, on the \_\_\_\_\_ and \_\_\_\_\_ next preceding the relevant interest payment date (whether or not a business day), except that interest payable at stated maturity shall be paid to the person or entity to whom the principal amount is paid. Interest payable on any interest payment date or on the date of maturity will be the amount of interest accrued from and including the date of original issuance or from and including the most recent interest payment date on which interest has been paid or duly made available for payment to but excluding such interest payment date or the date of maturity, as the case may be. Interest on the Notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

In any case where any interest payment date, redemption date, repurchase date or maturity date (including upon the occurrence of a change of control repurchase event resulting in a purchase date) of any Note shall not be a business day at any place of payment, then payment of interest or principal (and premium, if any) need not be made on such date, but may be made on the next succeeding business day at such place of payment with the same force and effect as if made on the interest payment date, redemption date, repurchase date or maturity date (including upon the occurrence of a change of control repurchase event resulting in a purchase date); and no interest shall accrue on the amount so payable for the period from and after such interest payment date, redemption date, repurchase date or maturity date, as the case may be, to such business day.

**Registration, Transfer and Exchange**

The Notes will be initially issued in the form of one or more Notes in registered, global form, without coupons, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof as described under Book-Entry System below. The global Notes will be

S-15

registered in the name of the nominee of DTC. Except as described under **Book-Entry System** below, owners of beneficial interests in a global Note will not be entitled to have Notes registered in their names, will not receive or be entitled to receive physical delivery of any such Note and will not be considered the registered holder thereof under the indenture.

**Optional Redemption**

The Notes will be redeemable at CMS Energy's option, in whole or in part, at any time or from time to time, at a redemption price equal to 100% of the principal amount of such Notes being redeemed plus the applicable premium (as defined below), if any, thereon at the time of redemption, together with accrued and unpaid interest, if any, thereon to, but not including, the redemption date. In no event will the redemption price be less than 100% of the principal amount of the Notes plus accrued interest, if any, thereon to the redemption date.

The following definitions are used to determine the applicable premium:

**Applicable premium** means, with respect to a Note (or portion thereof) being redeemed at any time, the excess of (i) the present value at such time of the principal amount of such Note (or portion thereof) being redeemed plus all interest payments due on such Note (or portion thereof) after the redemption date (but, for the avoidance of doubt, excluding any portion of such payments of interest accrued to the redemption date), which present value shall be computed using a discount rate equal to the treasury rate plus                      basis points, over (ii) the principal amount of such Note (or portion thereof) being redeemed at such time. For purposes of this definition, the present values of interest and principal payments will be determined in accordance with generally accepted principles of financial analysis.

**Treasury rate** means the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15(519) (the **statistical release** )) that has become publicly available at least two business days prior to the redemption date or, in case of defeasance, prior to the date of deposit (or, if such statistical release is no longer published, any publicly available source of similar market data) most nearly equal to the then remaining average life to stated maturity of the Notes; provided, however, that if the average life to stated maturity of the Notes is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the treasury rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given.

If less than all of the Notes are to be redeemed, the trustee under the indenture shall select, in such manner as it shall deem appropriate and fair, the particular Notes or portions thereof to be redeemed. Notice of redemption shall be given by mail not less than 30 nor more than 60 days prior to the date fixed for redemption to the holders of Notes to be redeemed (which, as long as the Notes are held in the book-entry only system, will be DTC (or its nominee) or a successor depository (or the successor's nominee)); provided, however, that the failure to duly give such notice by mail, or any defect therein, shall not affect the validity of any proceedings for the redemption of Notes as to which there shall have been no such failure or defect. On and after the date fixed for redemption (unless CMS Energy shall default in the payment of the Notes or portions thereof to be redeemed at the applicable redemption price, together with accrued interest, if any, thereon to such date), interest on the Notes or the portions thereof so called for redemption shall cease to accrue.

No sinking fund is provided for the Notes.

**Purchase of Notes Upon Change of Control**

In the event of any change of control repurchase event (the effective date of such change of control repurchase event being the **change of control date** ) each holder of a Note will have the right, at such holder's option, subject to the terms and conditions of the indenture, to require CMS Energy to repurchase all or any part of such holder's Note on a date selected by CMS Energy that is no earlier than 60 days nor later than 90 days (the **purchase date** ) after the mailing of written notice by CMS Energy of the occurrence of such change of control repurchase event, at a repurchase price payable in cash equal to 101% of the principal amount of such Notes plus accrued interest, if any, thereon to the purchase date (the **change of control purchase price** ).

Within 30 days after the change of control date, CMS Energy is obligated to mail to each holder of a Note a notice regarding the change of control repurchase event, which notice shall state, among other things:

that a change of control repurchase event has occurred and that each such holder has the right to require CMS Energy to repurchase all or any part of such holder's Notes at the change of control purchase price;

the change of control purchase price;  
the purchase date;  
the name and address of the paying agent; and  
the procedures that holders must follow to cause the Notes to be repurchased.

To exercise this right, a holder must deliver a written notice (the **change of control purchase notice**) to the paying agent (initially the trustee) at its corporate trust office in New York, New York, or any other office of the paying agent maintained for such purposes, not later than 30 days prior to the purchase date. The change of control purchase notice shall state:

the portion of the principal amount of any Notes to be repurchased, which must be a minimum of \$1,000 and in \$1,000 integral multiples, provided, that any unredeemed portion of a Note must be in a minimum denomination of \$2,000;

that such Notes are to be repurchased by CMS Energy pursuant to the applicable change of control provisions of the indenture; and

unless the Notes are represented by one or more global Notes, the certificate numbers of the Notes to be repurchased.

Any change of control purchase notice may be withdrawn by the holder by a written notice of withdrawal delivered to the paying agent not later than three business days prior to the purchase date. The notice of withdrawal shall state the principal amount and, if applicable, the certificate numbers of the Notes as to which the withdrawal notice relates and the principal amount, if any, that remains subject to a change of control purchase notice.

If a Note is represented by a global Note, DTC or its nominee will be the holder of such Note and therefore will be the only entity that can require CMS Energy to repurchase Notes upon a change of control repurchase event. To obtain repayment with respect to such Note upon a change of control repurchase event, the beneficial owner of such Note must provide to the broker or other entity through which it holds the beneficial interest in such Note (i) the change of control purchase notice signed by such beneficial owner, and such signature must be guaranteed by a member firm of a registered national securities exchange or of the Financial Industry Regulatory Authority, Inc. or a commercial bank or trust company having an office or correspondent in the United States and (ii) instructions to such broker or other entity to notify DTC of such beneficial owner's desire to cause CMS Energy to repurchase such Notes. Such broker or other entity will be responsible for disbursing any payments it receives upon the repurchase of such Notes by CMS Energy.

Payment of the change of control purchase price for a Note in registered, certificated form (a **certificated Note**) for which a change of control purchase notice has been delivered and not withdrawn is conditioned upon delivery of such certificated Note (together with necessary endorsements) to the paying agent at its office in New York, New York, or any other office of the paying agent maintained for such purpose, at any time (whether prior to, on or after the purchase date) after the delivery of such change of control purchase notice. Payment of the change of control purchase price for such certificated Note will be made promptly following the later of the purchase date or the time of delivery of such certificated Note.

If the paying agent holds, in accordance with the terms of the indenture, money sufficient to pay the change of control purchase price of a Note on the purchase date for such Note, then, on and after such date, interest on such Note will cease to accrue, whether or not such Note is delivered to the paying agent, and all other rights of the holder shall terminate (other than the right to receive the change of control purchase price upon delivery of the Note).

Under the indenture, a **change of control repurchase event** means the occurrence of both a change of control and a rating decline.

Under the indenture, a **change of control** means the occurrence of any of the following events:
