Table of Contents

**CARRIAGE SERVICES, INC.
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)**

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Carriage Services, Inc. (Carriage , the Company , we , us or our) is a leading provider of deathcare services and merchandise in the United States. As of June 30, 2011, the Company owned and operated 151 funeral homes in 25 states and 33 cemeteries in 12 states.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

Interim Condensed Disclosures

The information for the three and six month periods ended June 30, 2010 and 2011 is unaudited, but in the opinion of management, reflects all adjustments which are normal, recurring and necessary for a fair presentation of financial position and results of operations as of and for the interim periods presented. Certain information and footnote disclosures, normally included in annual financial statements, have been condensed or omitted. The accompanying Consolidated Financial Statements have been prepared consistent with the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2010 and should be read in conjunction therewith.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of the Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, realization of accounts receivable, goodwill, intangible assets, property and equipment and deferred tax assets. We base our estimates on historical experience, third party data and assumptions that we believe to be reasonable under the circumstances. The results of these considerations form the basis for making judgments about the amount and timing of revenues and expenses, the carrying value of assets and the recorded amounts of liabilities. Actual results may differ from these estimates and such estimates may change if the underlying conditions or assumptions change. Historical performance should not be viewed as indicative of future performance, as there can be no assurance the margins, operating income and net earnings as a percentage of revenues will be consistent from year to year.

Business Combinations

Tangible and intangible assets acquired and liabilities assumed are recorded at fair value and goodwill is recognized for any difference between the price of the acquisition and fair value. We customarily estimate related transaction costs known at closing. To the extent that information not available to us at the closing date subsequently becomes available during the allocation period, we may adjust goodwill, assets, or liabilities associated with the acquisition.

We will recognize the assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at the acquisition date, measured at the fair values as of that date. Goodwill is measured as a residual of the fair values at acquisition date. Acquisition related costs are recognized separately from the acquisition and are expensed as incurred.

During the second quarter of 2010, the Company completed four acquisitions consisting of one cemetery and three funeral home businesses. During the second quarter of 2011, the Company completed two funeral home acquisitions. See Note 3 to the Consolidated Financial Statements herein for further information on these acquisitions.

Table of Contents*Stock Plans and Stock-Based Compensation*

The Company has stock-based employee and director compensation plans in the form of restricted stock, performance units, stock options and employee stock purchase plans, which are described in more detail in Note 17 to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010. The Company recognizes compensation expense in an amount equal to the fair value of the share-based awards issued over the period of vesting. Fair value is determined on the date of the grant. The fair value of options or awards containing options is determined using the Black-Scholes valuation model. See Note 13 to the Consolidated Financial Statements included herein for additional information on the Company's stock-based compensation plans.

Computation of Earnings Per Common Share

Basic earnings per share are computed using the weighted average number of common shares outstanding during the period. Diluted earnings per share are computed using the weighted average number of common and dilutive common equivalent shares outstanding during the period. Dilutive common equivalent shares consist of stock options.

Share-based awards that contain nonforfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are recognized as participating securities and included in the computation of both basic and diluted earnings per share. Our grants of restricted stock awards to our employees and directors are considered participating securities and we have prepared our earnings per share calculations to include outstanding unvested restricted stock awards in both the basic and diluted weighted average shares outstanding calculation. For the three and six month periods ended June 30, 2010 and 2011, there was no material impact to basic and diluted earnings per share as presented in Exhibit 11.1 to this Quarterly Report on Form 10-Q.

Preneed Funeral and Cemetery Trust Funds

The Company's preneed and perpetual care trust funds are reported in accordance with the principles of consolidating Variable Interest Entities (VIEs). In the case of preneed trusts, the customers are the legal beneficiaries. In the case of perpetual care trusts, the Company does not have a right to access the corpus in the perpetual care trusts. For these reasons, the Company has recognized financial interests of third parties in the trust funds in our financial statements as *Deferred preneed funeral and cemetery receipts held in trust* and *Care trusts' corpus*. The investments of such trust funds are classified as available-for-sale and are reported at fair market value; therefore, the unrealized gains and losses, as well as accumulated and undistributed income and realized gains and losses are recorded to *Deferred preneed funeral and cemetery receipts held in trust* and *Care trusts' corpus* in the Company's Consolidated Balance Sheets. The Company's future obligations to deliver merchandise and services are reported at estimated settlement amounts. Preneed funeral and cemetery trust investments are reduced by the trust investment earnings that we have been allowed to withdraw in certain states prior to maturity. These earnings, along with preneed contract collections not required to be placed in trust, are recorded in *Deferred preneed funeral revenue* and *Deferred preneed cemetery revenue* until the service is performed or the merchandise is delivered.

A noncontrolling interest in a subsidiary, which is sometimes referred to as an unconsolidated investment, is an ownership interest in the consolidated entity that should be reported as a component of equity in the Consolidated Financial Statements. Consolidated net income is reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest. The disclosure, on the face of the Consolidated Statements of Operations, is of the amounts of consolidated net income attributable to the parent and to the noncontrolling interest.

In accordance with respective state laws, the Company is required to deposit a specified amount into perpetual and memorial care trust funds for each interment/entombment right and memorial sold. Income from the trust funds is distributed to Carriage and used to provide care and maintenance for the cemeteries and mausoleums. Such trust fund income is recognized as revenue when realized by the trust and distributable to the Company. The Company is restricted from withdrawing any of the principal balances of these funds.

An enterprise is required to perform an analysis to determine whether the enterprise's variable interest(s) give it a controlling financial interest in a Variable Interest Entity. This analysis identifies the primary beneficiary of a VIE as the enterprise that has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity that could potentially be significant to the VIE or the right to receive benefits from the entity that could potentially be significant to the VIE. The Company's analysis continues to support its position as the primary beneficiary in certain of our funeral and cemetery trust funds.

Fair Value Measurements

We define fair value as the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We disclose the extent to which fair value is used to measure financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. Additional required disclosures

- 7 -

Table of Contents

are provided in Note 10 to the Consolidated Financial Statements. We have not elected to measure any additional financial instruments and certain other items at fair value that are not currently required to be measured at fair value.

To determine the fair value of assets and liabilities in an environment where the volume and level of activity for the asset or liability have significantly decreased, the exit price is used as the fair value measurement. For the three months ended June 30, 2011, we did not incur significant decreases in the volume or level of activity of any asset or liability. The Company considers an impairment of debt and equity securities other-than-temporary unless (a) the investor has the ability and intent to hold an investment and (b) evidence indicating the cost of the investment is recoverable before the Company is more likely than not required to sell the investment. If impairment is indicated, then an adjustment will be made to reduce the carrying amount to fair value. As of June 30, 2011, no impairment has been identified.

The fair value disclosures to disclose transfers in and out of Levels 1 and 2 and the gross presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation of the three-tier fair value hierarchy are presented herein in Note 10 to the Consolidated Financial Statements. The Company currently does not have any assets that have fair values determined by Level 3 inputs and no liabilities measured at fair value.

In the ordinary course of business, we are typically exposed to a variety of market risks. Currently, these are primarily related to changes in fair market values related to outstanding debts and changes in the values of securities associated with the preneed and perpetual care trusts. Management is actively involved in monitoring exposure to market risk and developing and utilizing appropriate risk management techniques when appropriate and when available for a reasonable price. Our 7⁷/₈% Senior Notes were issued to the public at par in January 2005 and are carried at a cost of \$130 million. At June 30, 2011, these securities were typically trading at a price of approximately \$100.50, indicating a fair market value of approximately \$131 million. Our convertible junior subordinated debentures, payable to Carriage Services Capital Trust (the Trust), pay interest at the fixed rate of 7% and are carried on our Consolidated Balance Sheets at a cost of approximately \$91.5 million. The fair value of these securities is estimated to be approximately \$72 million at June 30, 2011 based on available broker quotes of the corresponding preferred securities issued by the Trust.

Income Taxes

The Company and its subsidiaries file a consolidated U.S. Federal income tax return and separate income tax returns in the states in which we operate. We record deferred taxes for temporary differences between the tax basis and financial reporting basis of assets and liabilities. The Company records a valuation allowance to reflect the estimated amount of deferred tax assets for which realization is uncertain. Management reviews the valuation allowance at the end of each quarter and makes adjustments if it is determined that it is more likely than not that the tax benefits will be realized.

The Company analyzes tax benefits for uncertain tax positions and how they are to be recognized, measured, and derecognized in financial statements; provides certain disclosures of uncertain tax matters; and specifies how reserves for uncertain tax positions should be classified on the Consolidated Balance Sheets. The Company has reviewed its income tax positions and identified certain tax deductions, primarily related to business acquisitions that are not certain. Our policy with respect to potential penalties and interest is to record them as Other expense and Interest expense, respectively. The entire balance of unrecognized tax benefits, if recognized, would affect the Company's effective tax rate. The Company does not anticipate a significant increase or decrease in its unrecognized tax benefits during the next six months.

2. RECENTLY ISSUED ACCOUNTING STANDARDS*Allowance for Credit Losses of Financing Receivables*

In July 2010, new guidance was issued which increased the disclosure requirements about the credit quality of financing receivables and the allowance for credit losses. The intent of the disclosure is to provide additional information about the nature of credit risks inherent in our financing receivables, how credit risk is analyzed and assessed when determining the allowance for credit losses, and the reasons for the change in the allowance for credit losses. The disclosures related to period-end information were required for annual reporting periods ending after December 15, 2010, and thus effective for the Company at December 31, 2010. Disclosures of activity that occurs during the reporting period are required for interim periods beginning after December 15, 2010, and thus was effective

for the Company for the period beginning January 1, 2011. The additional required disclosures are provided in Note 6 to the Consolidated Financial Statements.

Goodwill Impairment Testing

In December 2010, new guidance was issued as to when to perform the second step of the goodwill impairment test for reporting units with zero or negative carrying amounts. The guidance modifies the first step of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform the second step of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with the existing guidance and

- 8 -

Table of Contents

examples, which require that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The guidance is effective for fiscal years beginning after December 15, 2010, and thus was effective for the Company for the period beginning January 1, 2011. Our goodwill impairment testing is described in more detail in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2010.

Pro Forma Information for Business Combinations

In December 2010, new guidance was issued for disclosing supplementary pro forma information for business combinations that are material on an individual or aggregate basis. The guidance specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The guidance also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This guidance is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, and thus was effective for the Company for the period beginning January 1, 2011. The adoption of this accounting standard update will apply to future material business combinations and is not expected to have a material impact on our Consolidated Financial Statements.

Fair Value Measurements

In May 2011, additional guidance was issued regarding how fair value measurements and disclosures should be applied where it is already required or permitted under International Financial Reporting Standards or United States Generally Accepted Accounting Principles. This new guidance clarifies and aligns the existing application of fair value measurement guidance and revises certain language. This guidance is effective for the first interim or annual period beginning after December 15, 2011, thus effective for the Company for the period beginning January 1, 2012. The Company is currently evaluating the impact the adoption will have on its consolidated financial statements.

Comprehensive Income

In June 2011, new guidance was issued regarding the reporting of comprehensive income in the financial statements. Entities will have the option to present the components of net income and comprehensive income in either a single continuous statement or two separate but consecutive statements. This new guidance eliminates the option to report other comprehensive income and its components in the statement of changes in stockholder's equity. This guidance requires retrospective application and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, thus effective for the Company for the period beginning January 1, 2012. The Company is currently evaluating the impact, if any, the adoption will have on its consolidated financial statements.

3. ACQUISITIONS

Our growth strategy includes the execution of our Strategic Acquisition Model. The goal of that model is to build concentrated groups of businesses in ten to fifteen strategic markets. We assess acquisition candidates using six strategic ranking criteria and to differentiate the price we are willing to pay. Those criteria are:

Size of business

Size of market

Competitive standing

Demographics

Strength of brand

Barriers to entry

During the second quarter of 2011, the Company completed two acquisitions. The consideration paid for those businesses was \$5.1 million in cash. The Company acquired substantially all the assets and assumed certain operating

liabilities, including obligations associated with existing preneed contracts. The assets and liabilities were recorded at fair value and included goodwill. The results of the acquired business are included in the Company's results from the date of acquisition. Selected information on the acquisitions follows (in millions):

- 9 -

Table of Contents

Acquisition Date	Type of Business	Market	Assets Acquired (Excluding Goodwill)	Goodwill Recorded	Liabilities and Debt Assumed
April 2011	Three Funeral Homes	Amarillo, TX	\$0.9	\$2.4	
April 2011	Funeral Home	Miami, FL	\$0.6	\$1.2	

The effect of the acquisitions on the Consolidated Balance Sheets at June 30, 2011 was as follows (in thousands):

Current assets	\$ 44
Property, plant & equipment	1,058
Tradenames	400
Goodwill	3,598
Receivables from preneed funeral contracts	388
Deferred preneed funeral revenue	(388)
	\$ 5,100

4. GOODWILL

Many of the former owners and staff of acquired funeral homes have provided high quality service to families for generations. The resulting loyalty often represents a substantial portion of the value of a funeral business. The excess of the purchase price over the fair value of net identifiable assets acquired, as determined by management in business acquisition transactions accounted for as purchases, is recorded as goodwill.

The following table presents the changes in goodwill in the accompanying Consolidated Balance Sheets (in thousands):

	June 30, 2011
Goodwill at beginning of year	\$ 183,324
Acquisitions and changes in previous estimates	3,593
Goodwill at end of period	\$ 186,917

Changes in previous estimates are related to adjustments for inventory.

5. PRENEED TRUST INVESTMENTS*Preneed Cemetery Trust Investments*

Preneed cemetery trust investments represent trust fund assets that the Company will withdraw when the merchandise or services are provided. The components of preneed cemetery trust investments in our Consolidated Balance Sheets at December 31, 2010 and June 30, 2011 are as follows (in thousands):

	December 31, 2010	June 30, 2011
Preneed cemetery trust investments	\$ 81,771	\$ 84,129
Less: allowance for contract cancellation	(2,080)	(2,419)
	\$ 79,691	\$ 81,710

Upon cancellation of a preneed cemetery contract, a customer is generally entitled to receive a refund of the corpus and some or all of the earnings held in trust. In certain jurisdictions, the Company is obligated to fund any shortfall if

the amounts deposited by the customer exceed the funds in trust, including some or all investment income. As a result, when realized or unrealized losses of a trust result in the trust being under-funded, the Company assesses whether it is responsible for replenishing the corpus of the trust, in which case a loss provision would be recorded.

The cost and fair market values associated with preneed cemetery trust investments at June 30, 2011 are detailed below (in thousands). The Company determines whether or not the assets in the preneed cemetery trusts have an other-than-temporary impairment on a security-by-security basis. This assessment is made based upon a number of criteria, including the length of time a security has been in a loss position, changes in market conditions and concerns related to the specific issuer. If a loss is considered to be other-than-temporary, the cost basis of the security is adjusted downward to its fair market value. Any reduction in the cost basis due to an other-than-temporary impairment is recorded in Deferred preneed cemetery receipts held in trust. There will be no impact on earnings unless and until such time that this asset is withdrawn from the trust in accordance with state regulations at an amount that is less than its original basis.

Preneed Funeral Trust Investments

Preneed funeral trust investments represent trust fund assets that the Company expects to withdraw when the services and merchandise are provided. Preneed funeral contracts are secured by funds paid by the customer to the Company. Preneed funeral trust investments are reduced by the trust earnings the Company has been allowed to withdraw prior to performance by the Company and amounts received from customers that are not required to be deposited into trust, pursuant to various state laws. The components of preneed funeral trust investments in our Consolidated Balance Sheets at December 31, 2010 and June 30, 2011 are as follows (in thousands):

	December 31, 2010	June 30, 2011
Preneed funeral trust investments	\$ 83,324	\$ 80,314
Less: allowance for contract cancellation	(2,181)	(2,332)

6. PRENEED CEMETERY RECEIVABLES

Preneed sales of cemetery interment rights are usually financed through interest-bearing installment sales contracts, generally with terms of up to five years with such earnings reflected as *Preneed Cemetery Finance Charges*. In substantially all cases, we receive an initial down payment at the time the contract is signed. The interest rates generally range between 9.5% and 12%. Occasionally, we have offered zero percent interest financing to promote sales for limited-time offers. Preneed sales of cemetery interment rights are generally recorded as revenue when 10% of the contract amount related to the interment right has been collected. For the six month period ending June 30, 2011, 88.8% of sales of interment rights were recognized in the current year. Merchandise and services may similarly be sold on an installment basis, but revenue is recorded when delivery has occurred. For all contracts, receivables are recorded at cost and finance charges are recorded upon receipt of payment. At June 30, 2011, the balance of preneed receivables for cemetery interment rights and for merchandise and services was \$18.1 million and \$9.5 million, respectively.

The Company determines an allowance for customer cancellations and refunds on contracts in which revenue has been recognized on sales of cemetery interment rights. We reserve 100% of the receivables on contracts in which the revenue has been recognized and payments are 120 days past due or more, which was approximately 1.6% of the total receivables on recognized sales at June 30, 2011. The allowance is recorded at the date that the contract is executed and periodically adjusted thereafter based upon actual collection experience at the business level. At June 30, 2011, the allowance for contract cancellations was as follows (in thousands).

	June 30, 2011
Beginning balance	\$ 1,454
Recoveries	
Provision	(186)
Ending balance	\$ 1,268

The Company has a collections policy where past due notification is sent to the customers beginning at 15 days past due and thereafter periodically until 90 days past due. Any items on contracts that are past due 120 days are sent to a third-party collector. No uncollectible financing receivables are directly charged off to the statement of operations.

The aging of past due financing receivables as of June 30, 2011 is as follows (in thousands):

	31-60 Past Due	61-90 Past Due	91-120 Past Due	>120 Past Due	Total Past Due	Current	Total Financing Receivables
Recognized revenue	\$672	\$378	\$180	\$304	\$1,534	\$17,417	\$ 18,951
Deferred revenue	298	164	69	140	671	7,970	8,641
Total contracts	\$970	\$542	\$249	\$444	\$2,205	\$25,387	\$ 27,592

7. RECEIVABLES FROM PRENEED FUNERAL TRUSTS

The receivables from preneed funeral trusts represent assets in trusts which are controlled and operated by third parties in which the Company does not have a controlling financial interest (less than 50%) in the trust assets. The Company accounts for these investments at cost. As of June 30, 2011, receivables from preneed funeral trusts was as follows (in thousands):

	December 31, 2010	June 30, 2011
Preneed funeral trust funds	\$ 22,542	\$ 23,097
Less: allowance for contract cancellation	(676)	(691)
	\$ 21,866	\$ 22,406

8. CONTRACTS SECURED BY INSURANCE

Certain preneed funeral contracts are secured by life insurance contracts. Generally, the proceeds of the life insurance policies have been assigned to the Company and will be paid upon the death of the insured. The proceeds will be used to satisfy the beneficiary's obligations under the preneed contract for services and merchandise. Preneed funeral contracts secured by

Table of Contents

insurance totaled \$205.0 million and \$212.7 million at December 31, 2010 and June 30, 2011, respectively, and are not included in the Company's Consolidated Balance Sheets.

9. CEMETERY PERPETUAL CARE TRUST INVESTMENTS

Cemetery Care trusts' corpus on the Consolidated Balance Sheets represent the corpus of those trusts plus undistributed income. The components of Cemetery Care trusts' corpus as of December 31, 2010 and June 30, 2011 are as follows (in thousands):

	December 31, 2010	June 30, 2011
Trust assets, at fair value	\$ 45,735	\$ 44,666
Pending withdrawals of income from trust		151
Obligations due to trust	206	
Care trusts' corpus	\$ 45,941	\$ 44,817

The Company is required by various state laws to pay a portion of the proceeds from the sale of cemetery property interment rights into perpetual care trust funds. The following table reflects the cost and fair market values associated with the trust investments held in perpetual care trust funds at June 30, 2011 (in thousands). The Company determines whether or not the assets in the cemetery perpetual care trusts have an other-than-temporary impairment on a security-by-security basis. This assessment is made based upon a number of criteria, including the length of time a security has been in a loss position, changes in market conditions and concerns related to the specific issuer. If a loss is considered to be other-than-temporary, the cost basis of the security is adjusted downward to its fair market value. Any reduction in the cost basis due to an other-than-temporary impairment is recorded as a reduction to Care trusts' corpus.

	Cost	Unrealized Gains	Unrealized Losses	Fair Market Value

10. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date applicable for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. We disclose the extent to which fair value is used to measure financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date.

The Company evaluated its financial assets and liabilities for those financial assets and liabilities that met the criteria of the disclosure requirements and fair value framework. The Company identified investments in fixed income securities, common stock and mutual funds presented within the preneed and perpetual trust investments categories on the Consolidated Balance Sheets as having met such criteria. The following three-level valuation hierarchy based upon the transparency of inputs is utilized in the measurement and valuation of financial assets or liabilities as of the measurement date:

Level 1 Fair value of securities based on unadjusted quoted prices for identical assets or liabilities in active markets. Our investments classified as Level 1 securities include common stock, certain fixed income securities, and equity mutual funds;

Level 2 Fair value of securities estimated based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted market prices that are observable or that can be corroborated by observable market data by correlation. These inputs include interest rates, yield curves, credit risk, prepayment speeds, rating and tax-exempt status. Our investments classified as Level 2 securities include certain fixed income securities and fixed income mutual funds

Level 3 Unobservable inputs based upon the reporting entity's internally developed assumptions which market participants would use in pricing the asset or liability. As of June 30, 2011, the Company did not have any assets that had fair values determined by Level 3 inputs and no liabilities measured at fair value.

The Company accounts for its investments as available-for-sale and measures them at fair value under standards of financial accounting and reporting for investments in equity instruments that have readily determinable fair values and for all investments in debt securities.

The following table presents information about our assets measured at fair value on a recurring basis and summarizes the fair value hierarchy of the valuation techniques utilized by us to determine the fair values as of June 30, 2011 (in thousands). Certain fixed income and other securities are reported at fair value using Level 2 inputs. For these securities, the Company uses pricing services and dealer quotes. As of June 30, 2011, the Company did not have any liabilities measured at fair value.

- 15 -

Table of Contents

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	June 30, 2011

There were no significant transfers between Levels 1 and 2 for the three and six months ended June 30, 2011.

11. LONG-TERM DEBT

The Company has outstanding a principal amount of \$130 million of 7¹/₈% unsecured Senior Notes, due in 2015, with interest payable semi-annually. The Company also has a senior secured revolving credit facility (the credit facility) for which borrowings bear interest at prime or LIBOR options with the current LIBOR option set at LIBOR plus 350 basis points and is collateralized by all personal property and by funeral home real property in certain states. The credit facility was undrawn at June 30, 2011, except for letters of credit of \$0.1 million. Interest is payable quarterly. The credit facility matures in November 2012.

Carriage, the parent entity, has no material assets or operations independent of its subsidiaries. All assets and operations are held and conducted by subsidiaries, each of which (except for Carriage Services Capital Trust, which is a single purpose entity that holds our 7% debentures issued in connection with the issuance of the Trust's term income deferrable equity securities (TIDES) 7% convertible preferred securities) have fully and unconditionally guaranteed the Company's obligations under the 7¹/₈% Senior Notes. Additionally, the Company does not currently have any significant restrictions on its ability to receive dividends or loans from any subsidiary guarantor under the 7¹/₈% Senior Notes. In April 2011, the Company repurchased 26,192 shares of these TIDES for approximately \$953,000 and recorded a gain of \$359,000. The Company converted and immediately cancelled these preferred shares at the current conversion rate of 2.4465 into shares of common stock equal to 64,079 shares. For the six months ended June 30, 2011, the Company has purchased 26,742 shares of TIDES for approximately \$972,000 and recorded a gain of \$366,000. Additionally, 45,015 shares of common stock held in treasury that were repurchased TIDES in prior quarters were cancelled. At June 30, 2011, amounts outstanding under the convertible junior subordinated debenture totaled \$91.5 million.

The Company was in compliance with the covenants contained in the credit facility and the Senior Notes as of June 30, 2010 and 2011.

12. COMMITMENTS AND CONTINGENCIES*Litigation*

We are a party to various litigation matters and proceedings. For each of our outstanding legal matters, we evaluate the merits of the case, our exposure to the matter, possible legal or settlement strategies, and the likelihood of an unfavorable outcome. We intend to defend ourselves in the lawsuits described herein. If we determine that an

unfavorable outcome is probable and can be reasonably estimated, we establish the necessary accruals. We hold certain insurance policies that may reduce cash outflows with respect to an adverse outcome of certain of these litigation matters.

Leathermon, et al. v. Grandview Memorial Gardens, Inc., et al., United States District Court, Southern District of Indiana, Case No. 4:07-cv-137. On August 17, 2007, five plaintiffs filed a putative class action against the current and past owners of Grandview Cemetery in Madison, Indiana, including the Carriage subsidiaries that owned the cemetery from January 1997 until February 2001, on behalf of all individuals who purchased cemetery and burial goods and services at Grandview Cemetery. Plaintiffs claim that the cemetery owners performed burials negligently, breached Plaintiffs' contracts, and made misrepresentations regarding the cemetery. The Plaintiffs also allege that the claims occurred prior, during and after the Company owned the cemetery. On October 15, 2007, the case was removed from Jefferson County Circuit Court, Indiana to the Southern District of Indiana. On April 24, 2009, shortly before Defendants had been scheduled to file their briefs in opposition to Plaintiffs' motion for class certification, Plaintiffs moved to amend their complaint to add new class representatives and claims, while also seeking to abandon other claims. The Company, as well as several other Defendants, opposed Plaintiffs' motion to amend their complaint and add parties. In April 2009, two Defendants moved to disqualify Plaintiffs' counsel from further representing Plaintiffs in this action. On March 31, 2010, the Court granted the Defendants' motion to disqualify Plaintiffs' counsel. In that order, the Court gave Plaintiffs 60 days within which to retain new counsel. In addition, all discovery has been

- 16 -

Table of Contents

stayed and all pending motions including Plaintiffs' motion for leave to file an amended complaint and Plaintiffs' motion for class certification were dismissed without prejudice to re-file with leave of Court upon retention of new counsel. On May 6, 2010, Plaintiffs filed a petition for writ of mandamus with the Seventh Circuit Court of Appeals seeking relief from the trial court's order of disqualification of counsel. On May 19, 2010, the Defendants responded to the petition of mandamus. On July 8, 2010, the Seventh Circuit denied Plaintiffs' petition for writ of mandamus. Thus, pursuant to the trial court's order, Plaintiffs were given 60 days from July 8, 2010 in which to retain new counsel to prosecute this action on their behalf. Plaintiffs retained new counsel and the trial Court granted the newly retained Plaintiffs' counsel 90 days to review the case and advise the Court whether or not Plaintiffs would seek leave to amend their complaint to add and/or change the allegations as are currently stated therein and whether or not they would seek leave to amend the proposed class representatives for class certification. Plaintiffs moved for leave to amend both the class representatives and the allegations stated within the complaint. Defendants filed oppositions to such amendments. The Court has recently issued an order permitting the Plaintiffs to proceed with amending the class representatives and a portion of their claims; however, certain of Plaintiffs' claims have been dismissed. Discovery in this matter will proceed. Carriage intends to defend this action vigorously. Because the lawsuit is in its preliminary stages, we are unable to evaluate the likelihood of an unfavorable outcome to the Company or to estimate the amount or range of any potential loss, if any, at this time.

13. STOCK-BASED COMPENSATION*Stock Options and Employee Stock Purchase Plan*

During the first quarter of 2011, 207,549 stock options were awarded to officers and certain employees. No stock options were awarded during the second quarter of 2011. As of June 30, 2011, 335,628 stock options remain unvested.

For the second quarter of 2011, employees purchased a total of 19,743 shares of common stock through the employee stock purchase plan (ESPP) at a weighted average price of \$4.13 per share. The Company recorded pre-tax stock-based compensation expense for the ESPP and for stock options totaling \$66,000 and \$95,000 for the three months ended June 30, 2010 and 2011, respectively and \$124,000 and \$172,000 for the six months ended June 30, 2010 and 2011, respectively.

The fair value of the right (option) to purchase shares under the ESPP, is estimated on the date of grant (January 1, 2011) associated with the four quarterly purchase dates using the following assumptions:

	2010	2011
Dividend yield	0%	0%
Expected volatility	70%	29%
Risk-free interest rate	0.08%, 0.18%, 0.31%, 0.45%	0.15%, 0.19%, 0.24%, 0.29%
Expected life (years)	.25, .50, .75, 1	.25, .50, .75, 1

Expected volatilities are based on the historical volatility during the previous twelve months of the underlying common stock. The risk-free rate for the quarterly purchase periods is based on the U.S. Treasury yields in effect at the time of grant (January 1). The expected life of the ESPP grants represents the calendar quarters from the grant date (January 1) to the purchase date (end of each quarter).

Common Stock Grants

The Company, from time to time, issues shares of restricted common stock to certain officers, directors and key employees of the Company from its stock benefit plans. The restricted stock issued to officers and key employees vest in either 25% or 33 $\frac{1}{3}$ % increments over four or three year periods, respectively. The Company granted 200,051 and 15,376 shares of restricted stock to certain officers and employees during the first and second quarters, respectively, of 2011 which vest in 33 $\frac{1}{3}$ % increments over three years. Related to the vesting of restricted stock awards previously awarded to our officers and employees, the Company recorded \$333,000 and \$379,000 in pre-tax compensation expense, included in general, administrative and other expenses, for the three months ended June 30, 2010 and 2011, respectively, and \$611,000 and \$761,000 in pre-tax compensation expense for the six months ended June 30, 2010 and 2011, respectively.

Effective March 22, 2010, and subsequently revised on July 14, 2010, the Board of Directors approved a Director Compensation Policy in which the directors no longer have an option to elect to receive all or a portion of their fees in

stock. Consequently, all meeting fees after March 22, 2010 were paid in cash. During the second quarter of 2011, each independent director was granted an annual equity retainer equal to \$40,000 of the Company's common stock. During the second quarter, the Company issued 20,524 shares of common stock to the independent directors for such retainer. One new director joined the Board of Directors during the second quarter of 2011, at which time he was granted 17,006 shares valued in total at \$100,000. One-half of those shares vested immediately; the remainder vest over two years. The Company recorded \$49,000 and \$354,000 in pre-tax compensation expense, included in general, administrative and other expenses, for the three months ended June 30, 2010 and 2011, respectively, and \$326,000 and \$407,000 in pretax compensation expense for the six months ended June 30, 2010 and 2011, respectively, related to the director fees, annual retainers and deferred compensation amortization.

- 17 -

Table of Contents

As of June 30, 2011, the Company had \$2.3 million of total unrecognized compensation costs related to unvested restricted stock awards, which are expected to be recognized over a weighted average period of approximately 1.9 years.

Cash Dividends

On May 17, 2011, our Board of Directors approved the initiation of a quarterly cash dividend policy for our common stock. The Board declared the first quarterly dividend of \$0.025 share, totaling \$460,000, which was paid on June 1, 2011 to common share record holders as of May 17, 2011. The Company has a dividend reinvestment program so that stockholders may elect to reinvest their dividends into additional shares of the Company's common stock.

14. RELATED PARTY TRANSACTIONS

A member of the Company's Board of Directors is a key member of management and Chief Investment Officer of an otherwise unrelated company that holds \$7.3 million of the Company's 7.8% Senior Notes for investment purposes.

15. MAJOR SEGMENTS OF BUSINESS

Carriage conducts funeral and cemetery operations only in the United States. The following table presents revenue, pre-tax income and total assets by segment (in thousands):

	Funeral	Cemetery	Corporate	Consolidated
Revenues from operating activities:				
Six months ended June 30, 2011	\$ 74,673	\$ 24,092	\$	\$ 98,765
Six months ended June 30, 2010	\$ 68,525	\$ 22,839	\$	\$ 91,364
Income (loss) before income taxes:				
Six months ended June 30, 2011	\$ 22,139	\$ 6,327	\$(18,572)	\$ 9,894
Six months ended June 30, 2010	\$ 20,506	\$ 4,831	\$(16,734)	\$ 8,603
Total assets:				
June 30, 2011	\$409,128	\$243,341	\$ 25,271	\$677,740
December 31, 2010	\$409,329	\$242,461	\$ 19,222	\$671,012

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Cautionary Statement on Forward-Looking Statements**

In addition to historical information, this Quarterly Report on Form 10-Q contains forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements include any projections of earnings, revenues, asset sales, cash flow, debt levels or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Forward-looking statements may include the words *may*, *will*, *estimate*, *intend*, *believe*, *expect*, *forecast*, *plan*, *anticipate* and other similar words. Forward-looking statements are not guarantees of performance. Important factors that could cause actual results to differ materially from our expectations reflected in our forward-looking statements include those risks related to our business and our industry set forth in Item 1A., *Risk Factors*, in our Annual Report on Form 10-K for the year ended December 31, 2010. We assume no obligation to publicly update or revise any forward-looking statements made herein or any other forward-looking statements made by us, whether as a result of new information, future events or otherwise.

OVERVIEW*General*

We operate two types of businesses: funeral homes, which account for approximately 75% of our revenues, and cemeteries, which account for approximately 25% of our revenues. Funeral homes are principally service businesses that provide funeral services (traditional burial and cremation) and sell related merchandise, such as caskets and urns. Cemeteries are primarily a sales business that sells interment rights (grave sites and mausoleum spaces) and related merchandise, such as markers and outer burial containers. As of June 30, 2011, we operated 151 funeral homes in 25 states and 33 cemeteries in 12 states within the United States. Substantially all administrative activities are conducted in our home office in Houston, Texas.

We have implemented long-term initiatives in our operations designed to improve operating and financial results by growing market share and increasing profitability. We have a decentralized, entrepreneurial and local operating model that includes operating and financial standards developed from our best operations, along with an incentive compensation plan to reward business managers for successfully meeting or exceeding the standards. The model essentially eliminates the use of line-item financial budgets in favor of the standards. The operating model and standards, which we refer to as the *Standards Operating Model* focus on the key drivers of a successful operation, organized around three primary areas—market share, people and operating and financial metrics. The model and standards are the measures by which we judge the success of each business. To date, the *Standards Operating Model* has driven significant changes in our organization, leadership and operating practices. Most importantly, the *Standards Operating Model* allowed us to measure the sustainable revenue growth and earning power of our portfolio of deathcare businesses, which then led to the development of a *Strategic Acquisition Model*, described below under

Acquisitions, that guides our acquisition and disposition strategies. We expect both models, to drive longer term, sustainable increases in market share, revenue, earnings and cash flow. The standards are not designed to produce maximum short-term earnings because we do not believe such performance is sustainable without ultimately stressing the business, which often leads to declining market share, revenues and earnings. Important elements of the *Standards Operating Model* include:

Balanced Operating Model We believe a decentralized structure works best in the deathcare industry. Successful execution of the *Standards Operating Model* is highly dependent on strong local leadership, intelligent risk taking, entrepreneurial drive and corporate support aligned with the key drivers.

Incentives Aligned with Standards Empowering Managing Partners to do the right things in their operations and local communities, and providing appropriate support with operating and financial practices, will enable long-term growth and sustainable profitability. Each Managing Partner participates in a variable bonus plan whereby they earn a percentage of their business earnings based upon the actual standards achieved. Each Managing Partner has the opportunity to share in the earnings of the business as long as the performance exceeds our minimum standards.

Table of Contents

The Right Local Leadership Successful execution of our operating model is highly dependent on strong local leadership as defined by our 4E Leadership Model, intelligent risk taking and entrepreneurial empowerment. Over time, a Managing Partner's performance is judged according to achievement of the Standards for that business.

Funeral and Cemetery Operations

Factors affecting our funeral operating results include: demographic trends in terms of population growth and average age, which impact death rates and number of deaths; establishing and maintaining leading market share positions supported by strong local heritage and relationships; effectively responding to increasing cremation trends by packaging complementary services and merchandise; controlling salary and merchandise costs; and exercising pricing leverage related to our atneed business to increase average revenues per contract. In simple terms, volume and price are the two variables that affect funeral revenues. The average revenue per contract is influenced by the mix of traditional burial and cremation services because our average cremation service revenue is approximately one-third of the average revenue earned from a traditional burial service. Funeral homes have a relatively fixed cost structure. Thus, small changes in revenues, up or down, normally cause significant changes to our profitability.

Our funeral volumes have increased gradually from 23,366 in 2007 to 25,801 in 2010 (compound annual increase of 3.4%). Our funeral operating revenue has increased from \$119.2 million in 2007 to \$129.7 million in 2010 (compound annual increase of 2.9%). The increases are primarily because of businesses we acquired in 2007 through 2010 and our ability to increase the average revenue per funeral through expanded service offerings and packages. We experienced an increase of 13.5% in volumes in the first six months of 2011 compared to the first six months of 2010, 0.5% of which resulted from organic growth and 13.0% through acquisitions. Funeral operating revenues for the six months ended June 30, 2011 were up 9.5% compared to the six months ended June 30, 2010.

The percentage of funeral services involving cremations has increased from 35.8% for the year ended 2007 to 44.1% for the year ended 2010 and was 46.3% for the first six months of 2011. A significant portion of that trend is the result of acquiring businesses in high cremation areas. On a same store basis, the cremation rate has risen to 41.2% for the six months ended June 30, 2011, up from 40.1% for the comparable period in 2010.

Cemetery operating results are affected by the size and success of our sales organization. Approximately 52% of our 2010 cemetery revenues related to preneed sales of interment rights and mausoleums and related merchandise and services. As of June 30, 2011, those preneed sales were approximately 50.0% of cemetery revenues. We believe that changes in the level of consumer confidence (a measure of whether consumers will spend for discretionary items) also affect the amount of cemetery revenues. Currently, approximately 14.8% of our cemetery revenues are attributable to investment earnings on trust funds and finance charges on installment contracts. Changes in the capital markets and interest rates affect this component of our cemetery revenues.

Our cemetery financial performance from 2007 through 2010 was characterized by fluctuating operating revenues and field level profit margins. Cemetery operating revenue for the first six months of 2011 increased 3.8% over the comparable period in 2010 and we experienced a 16.2% increase in trust fund earnings and finance charges. Also a 5.1% increase in atneed revenues contributed to the growth of revenues. Our goal is to build broader and deeper teams of sales leaders and counselors in our larger and more strategically located cemeteries in order to focus on growth of our preneed property sales. Additionally, a portion of our capital expenditures in 2011 is designed to expand our cemetery product offerings.

Financial Revenue

We market funeral and cemetery services and products on a preneed basis. Preneed funeral or cemetery contracts enable families to establish, in advance, the type of service to be performed, the products to be used and the cost of such products and services. Preneed contracts permit families to eliminate issues of making deathcare plans at the time of need and allow input from other family members before the death occurs. We guarantee the price and performance of the preneed contracts to the customer.

Preneed funeral contracts are usually paid on an installment basis. The performance of preneed funeral contracts is usually secured by placing the funds collected in trust for the benefit of the customer or by the purchase of a life insurance policy, the proceeds of which will pay for such services at the time of need. Insurance policies, intended to fund preneed funeral contracts, cover the original contract price and generally include an element of growth (earnings) designed to offset future inflationary cost increases. Revenue from preneed funeral contracts, along with accumulated

earnings, is not recognized until the time the funeral service is performed. The accumulated earnings from the trust investments and insurance policies is intended to offset the inflation in funeral prices. Additionally, we generally earn a commission from the insurance company from the sale of insurance-funded policies reflected as *Preneed Insurance Commission*. The commission income is recognized as revenue when the period of refund expires (generally one year), which helps us defray the costs we incur to originate the preneed contract (primarily commissions we pay to our sales counselors).

Preneed sales of cemetery interment rights are usually financed through interest-bearing installment sales contracts, generally with terms of up to five years with such earnings reflected as *Preneed Cemetery Finance Charges*. In substantially all

Table of Contents

cases, we receive an initial down payment at the time the contract is signed. The interest rates generally range between 9.5% and 12% per annum. Occasionally, we have offered zero percent interest financing to promote sales for limited-time offers. In most states, regulations require a portion (generally 10%) of the sale amount of cemetery property and memorials to be placed in a perpetual care trust.

We have established a variety of trusts in connection with funeral home and cemetery operations as required under applicable state law. Such trusts include (i) preneed funeral trusts; (ii) preneed cemetery merchandise and service trusts; and (iii) perpetual care trusts. These trusts are typically administered by independent financial institutions selected by the Company. Independent financial advisors are also used for investment management and advisory services.

Preneed funeral trust fund income earned and the receipt and recognition of any insurance benefits are deferred until the service is performed. Applicable state laws generally require us to deposit a specified amount (which varies from state to state, generally 50% to 100% of selling price) into a merchandise and service trust fund for preneed cemetery merchandise and service sales. The related trust fund income earned is recognized when the related merchandise and services are delivered. In most states, regulations require a portion (generally 10%) of the sale amount of cemetery property and memorials to be placed in a perpetual care trust. The income from perpetual care trusts provides a portion of the funds necessary to maintain cemetery property and memorials in perpetuity. This trust fund income is recognized, as earned, in cemetery revenues.

Acquisitions

Our growth strategy includes the execution of the Strategic Acquisition Model. The goal of that model is to build concentrated groups of businesses in ten to fifteen strategic markets. We use six strategic ranking criteria to assess acquisition candidates and to differentiate the price we are willing to pay. Those criteria are:

Size of business;

Size of market;

Competitive standing;

Demographics;

Strength of brand; and

Barriers to entry.

In general terms, our price expectations range from four to five times pre-tax earnings before depreciation for tuck-ins to six to seven times pre-tax earnings before depreciation for businesses that rank very high in the ranking criteria. We derive the pre-tax earnings amounts based primarily on the size and product mix of the target business applied to our standards-based operating model. During 2010, we acquired one cemetery and five funeral home businesses. The consideration paid for these acquisitions was cash, which was generated from our operations. There were no businesses acquired during the first quarter of 2011. During the second quarter of 2011, we acquired two funeral home businesses. The consideration paid for these acquisitions was \$5.1 million cash.

Financial Highlights

Net income for the three months ended June 30, 2011 totaled \$2.6 million, equal to \$0.14 per diluted share, compared to net income for the three months ended June 30, 2010 which totaled \$2.3 million equal to \$0.13 per diluted share. Net income for the six months ended June 30, 2011 totaled \$5.9 million, equal to \$0.32 per diluted share, compared to \$5.1 million for the six months ended June 30, 2010, or \$0.29 per diluted share. Total revenue for the three and six months ended June 30, 2011 was \$47.9 million and \$98.8 million, respectively, an increase of 7.6% and 8.1%, respectively, compared to \$44.5 million and \$91.4 million for the comparable periods in 2010. Our field reporting groups, funeral and cemetery, had increases in revenue and profit but were offset by increases in overhead due to personnel changes and upgrades.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate estimates and judgments, including those related to revenue recognition, realization of accounts receivable, inventories, goodwill, other intangible assets, property and equipment and deferred tax assets. We base our estimates on historical experience, third party data and assumptions that we believe to be reasonable under the circumstances. The results of these considerations form the basis for making judgments about the amount and timing of revenues and expenses, the carrying value of assets and the recorded amounts of liabilities. Actual results may differ from these estimates and such estimates may change if the underlying conditions or assumptions change. Historical performance should not be viewed as indicative of future performance, because there can be no assurance the margins, operating income and net earnings as a percentage of revenues will be consistent from year to year.

Management's discussion and analysis of financial condition and results of operations (MD&A) is based upon our Consolidated Financial Statements presented herewith, which have been prepared in accordance with accounting principles

Table of Contents

generally accepted in the United States. Our significant accounting policies are more fully described in Note 1 to our Consolidated Financial Statements included in this Quarterly Report on Form 10-Q. Our critical accounting policies are those that are both important to the portrayal of our financial condition and results of operations and require management's most difficult, subjective and complex judgment. These critical accounting policies are discussed in MD&A in our Annual Report on Form 10-K for the year ended December 31, 2010. There have been no significant changes to our critical accounting policies since the filing of our Annual Report on Form 10-K for the year ended December 31, 2010.

RESULTS OF OPERATIONS

The following is a discussion of our results of operations for the three and six month periods ended June 30, 2010 and 2011. The term "same store" or "existing operations" refers to funeral homes and cemeteries acquired prior to January 1, 2007 and owned and operated for the entirety of each period being presented. Funeral homes and cemeteries purchased after January 1, 2007 are referred to as "acquired." This classification of acquisitions has been important to management and investors in monitoring the results of these businesses and to gauge the leveraging performance contribution that a selective acquisition program can have on the total company performance. Depreciation and amortization and regional and unallocated funeral and cemetery costs are not included in operating profit.

Funeral Home Segment. The following table sets forth certain information regarding the revenues and operating profit from the funeral home operations for the three and six months ended June 30, 2010 compared to the three and six months ended June 30, 2011.

Three months ended June 30, 2010 compared to three months ended June 30, 2011 (dollars in thousands):

	Three Months Ended		Change	
	2010	2011	Amount	%
Revenues:				
Same store operating revenue	\$ 25,953	\$ 25,876	\$ (77)	(0.3)%
Acquired operating revenue	4,546	7,419	2,873	63.2%
Preneed funeral insurance commissions	497	414	(83)	(16.7)%
Preneed funeral trust earnings	1,439	1,856	417	29.0%
Total	\$ 32,435	\$ 35,565	\$ 3,130	9.6%
Operating profit:				
Same store operating profit	\$ 8,776	\$ 9,190	\$ 414	4.7%
Acquired operating profit	1,281	2,131	850	66.3%
Preneed funeral insurance commissions	185	23	(162)	(87.6)%
Preneed funeral trust earnings	1,439	1,856	417	29.0%
Total	\$ 11,681	\$ 13,200	\$ 1,519	13.0%

Funeral home same store operating revenues for the three months ended June 30, 2011 decreased \$0.1 million, or 0.3%, when compared to the three months ended June 30, 2010. We experienced a 0.7% decrease in the number of contracts, however, the average revenue per contract increased 1.3% or \$75 per contract for those existing operations at \$5,662. The average revenue per contract includes the impact of the funeral trust fund earnings recognized at the time that we provide the needed services for preneed families. Excluding funeral trust earnings, the average revenue per contract increased 0.4% to \$5,360. The number of traditional burial contracts declined slightly while the average revenue per burial contract increased 2.2% to \$8,269. The cremation rate for the same store businesses rose from 40.1% to 41.4%. The average revenue per same store cremation contract decreased 3.9% to \$3,006 and the number of

cremation contracts increased 2.4%. Cremations with services declined from 45.9% of total cremation contracts in the second quarter of 2010 to 38.3% in the second quarter of 2011. The average revenue for other contracts, which make up approximately 6.9% of the number of contracts, increased 6.5% from \$1,879 to \$2,001. Other contracts consist of charges for merchandise or services for which we do not perform a funeral service for the deceased during the period.

Same store operating profit for the three months ended June 30, 2011 increased \$0.4 million, or 4.7%, from the comparable three months of 2010, and as a percentage of funeral same store operating revenue, increased from 33.8% to 35.5%. Despite higher self-insured costs, lower merchandise costs and general liability insurance expenses were the primary reasons for the increase in operating profit.

Funeral home acquired revenues for the three months ended June 30, 2011 increased \$2.9 million, or 63.2%, when compared to the three months ended June 30, 2010, as we experienced a 72.0% increase in the number of contracts, yet a decrease of 4.6%,

Table of Contents

to \$4,049, in the average revenue per contract for those acquired operations. Excluding funeral trust earnings, the average revenue per contract declined 5.1% to \$3,844. The cremation rate for the acquired businesses was 59.9% for the second quarter of 2011, up from 55.1% in the prior year period, as these businesses are located in higher cremation areas compared to our existing locations. The average revenue per cremation contract increased 7.7% to \$2,660 for the second quarter of 2011 and the number of cremation contracts increased 87.0% compared to the same period of 2010.

Acquired operating profit for the three months ended June 30, 2011 increased \$0.8, or 66.3%, from the comparable three months of 2010 and, as a percentage of revenue from acquired businesses, was 28.2% for the second quarter of 2010 compared to 28.7% for the second quarter of 2011. As those funeral homes acquired in 2010 and 2011 transition into Carriage's Standard Operating Model, we expect to see profit margins similar to those on a same store basis.

The two categories of financial revenue, insurance commissions and trust earnings on matured preneed contracts increased \$0.4 million, or 17.2%, in revenue and decreased \$0.2 million, or 15.7%, in operating profit, compared to the second quarter of 2010 primarily due to higher realization in the current year of interest income, dividends and capital gains that have been allocated to individual maturing contracts.

Six months ended June 30, 2010 compared to six months ended June 30, 2011 (dollars in thousands):

	Six Months Ended		Change	
	2010	2011	Amount	%
Revenues:				
Same store operating revenue	\$ 54,635	\$ 55,196	\$ 561	1.0%
Acquired operating revenue	9,684	15,261	5,577	57.6%
Preneed funeral insurance commissions	1,185	887	(298)	(25.1)%
Preneed funeral trust earnings	3,021	3,329	308	10.2%
Total	\$ 68,525	\$ 74,673	\$ 6,148	9.0%
Operating profit:				
Same store operating profit	\$ 19,136	\$ 19,967	\$ 831	4.3%
Acquired operating profit	2,752	4,392	1,640	60.0%
Preneed funeral insurance commissions	527	153	(374)	(71.0)%
Preneed funeral trust earnings	3,021	3,329	308	10.2%
Total	\$ 25,436	\$ 27,841	\$ 2,405	9.4%

Funeral home same store operating revenues for the six months ended June 30, 2011 increased \$0.6 million, or 1.0%, when compared to the six months ended June 30, 2010. We experienced a 0.6% increase in the number of contracts and the average revenue per contract increased 0.4% for those existing operations at \$5,654. The average revenue per contract includes the impact of the funeral trust fund earnings recognized at the time that we provide the needed services for preneed families. Excluding funeral trust earnings, the average revenue per contract increased 0.5% to \$5,401. The number of traditional burial contracts remained flat while the average revenue per burial contract increased 1.5% to \$8,215. The cremation rate for the same store businesses rose from 40.1% to 41.2%. The average revenue per same store cremation contract decreased 1.5% to \$3,048 and the number of cremation contracts increased 3.4%. Cremations with services declined from 46.2% of total cremation contracts in the six months ended June 30, 2010 to 39.0% in the six months ended June 30, 2011. The average revenue for other contracts, which make up approximately 7.1% of the number of contracts, increased 10.0% from \$1,984 to \$2,139.

Same store operating profit for the six months ended June 30, 2011 increased \$0.8 million, or 4.3%, from the comparable six months of 2010, and as a percentage of funeral same store operating revenue, increased from 35.0% to 36.2%. Despite higher self-insured costs, the growth in revenues, lower merchandise costs and a decline in bad debt

expense were the primary reasons for the increase in operating profit.

Funeral home acquired revenues for the six months ended June 30, 2011 increased \$5.6 million, or 57.6%, when compared to the six months ended June 30, 2010 as we experienced a 69.4% increase in the number of contracts, yet a decrease of 6.7%, to \$4,013, in the average revenue per contract for those acquired operations. Excluding funeral trust earnings, the average revenue per contract declined 6.9% to \$3,826. The cremation rate for the acquired businesses was 59.3% for the six months ended June 30, 2011, up from 52.2% in the prior year period, as these businesses are located in higher cremation areas compared to our existing locations. The average revenue per cremation contract increased 6.8% to \$2,630 for the six months ended June 30, 2011 and the number of cremation contracts increased 92.5% compared to the same period of 2010.

- 25 -

Table of Contents

Acquired operating profit for the six months ended June 30, 2011 increased \$1.6 million, or 60.0%, from the comparable six months of 2010 and, as a percentage of revenue from acquired funeral homes, was 28.4% for the six months ended June 30, 2010 compared to 28.8% for the six months ended June 30, 2011 as those businesses acquired in 2010 have not fully transitioned into Carriage's Standard Operating Model.

The two categories of financial revenue, insurance commissions and trust earnings on matured preneed contracts, on a combined basis, were relatively flat in revenue yet decreased 1.9% in operating profit, compared to the six months ended June 30, 2010.

Cemetery Segment. The following table sets forth certain information regarding our revenues and operating profit from the cemetery operations for the three and six months ended June 30, 2010 compared to the three and six months ended June 30, 2011.

Three months ended June 30, 2010 compared to three months ended June 30, 2011 (dollars in thousands):

	Three Months Ended		Change	
	June 30,		Amount	%
	2010	2011		
Revenues:				
Same store operating revenue	\$ 8,916	\$ 9,089	\$ 173	1.9%
Acquired operating revenue	1,548	1,690	142	9.2%
Cemetery trust earnings	1,211	1,228	17	1.4%
Preneed cemetery finance charges	407	336	(71)	(17.4)%
Total	\$ 12,082	\$ 12,343	\$ 261	2.2%
Operating profit:				
Same store operating profit	\$ 2,192	\$ 2,554	\$ 362	16.5%
Acquired operating profit	418	531	113	27.0%
Cemetery trust earnings	1,211	1,228	17	1.4%
Preneed cemetery finance charges	407	336	(71)	(17.4)%
Total	\$ 4,228	\$ 4,649	\$ 421	9.9%

Cemetery same store operating revenues for the three months ended June 30, 2011 increased \$0.2 million, or 1.9%, compared to the three months ended June 30, 2010. Same store revenue from preneed property sales and deliveries of preneed merchandise and services deliveries increased slightly and atneed revenues increased \$0.1 million, or 1.5%. We experienced 12.9% decrease in the number of interment rights (property) sold yet a 7.0% increase in the average price per interment compared to the second quarter of 2010. The percentage of those interment rights sold that we were able to recognize as revenue, because we received at least 10% of the sales price from the customer, decreased 1.0% to 89.3%.

Cemetery same store operating profit for the three months ended June 30, 2011 increased \$0.4 million, or 16.5%. As a percentage of revenues, cemetery same store operating profit increased from 24.6% to 28.1%. The increase in operating profit is primarily a result of a decline of \$0.2 million, or 9.5%, in promotional expenses (primarily preneed sales commissions), a decrease of \$0.1 million, or 5.2%, in preneed and atneed merchandise and service expenses and a \$0.1 million decrease, or 8.2%, in facilities expenses.

Cemetery acquired revenues for the three months ended June 30, 2011 increased \$0.1 million, or 9.2%, compared to the three months ended June 30, 2010. Acquired revenue from preneed property sales increased 11.6%, preneed revenue from merchandise and services deliveries increased 24.5% and atneed revenues increased 3.3%. Cemetery acquired operating profit increased \$0.1 million due to the increase in revenue.

The two categories of financial revenue consist of trust earnings and finance charges on preneed receivables. Total trust earnings decreased 3.3%, when compared to the three months ended June 30, 2010. Earnings from perpetual care trust funds totaled \$0.9 million for the three months ended June 30, 2011 compared to \$1.1 million for the three months ended June 30, 2010, a decrease of \$0.2 million, or 17.8%. Trust earnings recognized upon the delivery of merchandise and service contracts increased \$0.2 million compared to the same period in 2010. Finance charges on the preneed contracts declined \$0.1 million, or 17.4%.

Table of Contents

Six months ended June 30, 2010 compared to six months ended June 30, 2011 (dollars in thousands):

	Six Months Ended		Change	
	2010	June 30, 2011	Amount	%
Revenues:				
Same store operating revenue	\$ 16,672	\$ 17,152	\$ 480	2.9%
Acquired operating revenue	3,088	3,362	274	8.9%
Cemetery trust earnings	2,248	2,889	641	28.5%
Preneed cemetery finance charges	831	689	(142)	(17.1)%
Total	\$ 22,839	\$ 24,092	\$ 1,253	5.5%
Operating profit:				
Same store operating profit	\$ 3,744	\$ 4,627	\$ 883	23.6%
Acquired operating profit	883	1,077	194	22.0%
Cemetery trust earnings	2,248	2,889	641	28.5%
Preneed cemetery finance charges	831	689	(142)	(17.1)%
Total	\$ 7,706	\$ 9,282	\$ 1,576	20.4%

Cemetery same store operating revenues for the six months ended June 30, 2011 increased \$0.5 million, or 2.9%, compared to the six months ended June 30, 2010. Same store revenue from preneed property sales increased \$0.1 million, or 2.0% and atneed revenues increased \$0.4 million, or 6.1%. Deliveries of preneed merchandise and services decreased slightly. We experienced a 13.5% decrease in the number of interment rights (property) sold, yet an 8.8% increase in the average price per interment compared to the six months ended June 30, 2010. The percentage of those interment property rights sold that we were able to recognize as revenue, because we received at least 10% of the sales price from the customer, remained flat at 87.9%.

Cemetery same store operating profit for the six months ended June 30, 2011 increased \$0.9 million, or 23.6%. As a percentage of revenues, cemetery same store operating profit increased from 22.5% to 27.0%. The increase in operating profit is primarily a result from a decline of \$0.3 million, or 10.0%, in promotional expenses (primarily preneed sales commissions) and a decrease of \$0.2 million, or 22.0%, in bad debts in addition to an approximate 1.9% decrease in other controllable costs.

Cemetery acquired revenues for the six months ended June 30, 2011 increased \$0.3 million, or 8.9%, compared to the six months ended June 30, 2010. Acquired revenue from preneed property sales increased \$0.2 million, or 15.8%, and preneed revenue from merchandise and services deliveries increased \$0.1 million, or 18.7% while atneed revenues remained flat. Cemetery acquired operating profit increased \$0.2 million due to the increase in revenue.

The two categories of financial revenue which consist of trust earnings and finance charges on preneed receivables had a meaningful impact on cemetery revenues and operating profit. Total trust earnings increased \$0.5 million, or 16.2%, when compared to the six months ended June 30, 2010. Earnings from perpetual care trust funds totaled \$2.3 million for the six months ended June 30, 2011 compared to \$2.1 million for the six months ended June 30, 2010, an increase of 11.4%. Trust earnings recognized upon the delivery of merchandise and service contracts increased \$0.4 million compared to the same period in 2010. Finance charges on the preneed contracts declined \$0.1 million, or 17.1%.

Other. General and administrative expenses totaled \$9.6 million for the six months ended June 30, 2011, an increase of \$2.0 million, or 26.9%, compared to the six months ended June 30, 2010, primarily due to the expansion and upgrade of talent in our regional operations organization and home office support departments.

Income Taxes. The Company recorded income taxes at the estimated effective rate of 40.5% for the year ended December 31, 2010 and for the first six months of 2011. Carriage has utilized its remaining \$12.6 million of net operating loss carryforwards to offset federal taxable income during the current period. Carriage also has approximately \$56.1 million of state net operating loss carryforwards that will expire between 2013 and 2030, if not utilized. Based on management's assessment of the various state net operating losses, it has been determined that it is more likely than not that the Company will not be able to realize tax benefits on a substantial amount of the state losses. Accordingly, a valuation allowance of approximately \$2.2 million was established and is reviewed every quarter related to the deferred tax asset related to the state operating losses.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

Carriage began 2011 with \$1.3 million in cash and other liquid investments and ended the second quarter with \$5.2 million in cash and an undrawn \$40.0 million bank credit facility (including \$0.1 million of letters of credit). The elements of cash flow for the six months ended June 30, 2011 consisted of the following (in millions):

Cash and liquid investments at beginning of year	\$ 1.3
Cash flow from operations	15.8
Acquisitions	(5.1)
Paydown on the bank credit facility	(0.6)
Maintenance capital expenditures	(3.4)
Dividends on common stock	(0.5)
Purchase of convertible junior subordinated debentures	(1.0)
Growth capital expenditures funeral homes	(0.3)
Growth capital expenditures cemeteries	(1.0)
Cash at June 30, 2011	\$ 5.2

For the six months ended June 30, 2011, cash provided by operating activities was \$15.8 million as compared to \$14.5 million for the six months ended June 30, 2010. Capital expenditures totaled \$4.6 million for the six months ended June 30, 2011 compared to \$4.4 million for the six months ended June 30, 2010. Capital expenditures for the first six months of 2011 included \$1.3 million for cemetery inventory development projects and funeral home expansion projects.

The outstanding principal of senior debt at June 30, 2011 totaled \$136.3 million and consisted of \$130.0 million in 7⁷/₈% Senior Notes maturing in 2015, and \$6.3 million in acquisition indebtedness and capital lease obligations. Additionally, \$0.1 million in letters of credit were issued and outstanding under the credit facility at June 30, 2011.

The Company has a \$40.0 million senior secured revolving credit facility that matures in November 2012 and is collateralized by all personal property and funeral home real property in certain states. The credit facility also contains an accordion provision to borrow up to an additional \$20.0 million. Borrowings under the credit facility bear interest at either prime or LIBOR options. At June 30, 2011, the prime rate option was equivalent to 5.75% and the LIBOR option was equivalent to 3.69%, which is set at the 30 day LIBOR rate plus 350 basis points.

A total of \$91.5 million was outstanding at June 30, 2011 under the convertible junior subordinated debenture. Amounts outstanding under the debenture are payable to our affiliate trust, Carriage Services Capital Trust, bear interest at 7.0% and mature in 2029. Substantially all the assets of the Trust consist of the convertible junior subordinated debentures. In 1999, the Trust issued 1.875 million shares of TIDES. The rights under the debentures are functionally equivalent to those of the TIDES. In April 2011, the Company repurchased 26,192 shares of these TIDES for approximately \$0.9 million and recorded a gain of \$0.4 million. The Company converted and immediately cancelled these preferred shares at the current conversion rate of 2.4465 into shares of common stock equal to 64,079 shares. For the six months ended June 30, 2011, the Company has purchased 26,742 shares of TIDES for approximately \$1.0 million and recorded a gain of \$0.4 million. Additionally, 45,015 shares of common stock held in treasury that were repurchased TIDES in prior quarters were cancelled.

The convertible junior subordinated debenture payable to the affiliated Trust, and the TIDES, each contain a provision for the deferral of interest payments and distributions for up to 20 consecutive quarters. During any period in which distribution payments are deferred, distributions will continue to accumulate at the 7% annual rate. Also, the deferred distributions themselves accumulate distributions at the annual rate of 7%. During any deferral period, Carriage is prohibited from paying dividends on the common stock or repurchasing common stock, subject to limited exceptions. The Company currently expects to continue paying the distributions as due.

On May 17, 2011, our Board of Directors approved the initiation of a quarterly cash dividend policy for its common stock. The Board declared the first quarterly dividend of \$0.025 per share, which was paid on June 1, 2011, to common share record holders as of May 17, 2011.

The Company intends to use its cash and credit facility primarily to acquire funeral home and cemetery businesses and for internal growth projects, such as cemetery inventory development. The Company has the ability to draw on our revolving credit facility, subject to customary terms and conditions of the credit agreement.

We believe our cash on hand, cash flow from operations, and the available capacity under our credit facility described above will be adequate to meet our working capital needs and other financial obligations over the next twelve months.

Table of Contents

SEASONALITY

Our business can be affected by seasonal fluctuations in the death rate. Generally, the rate is higher during the winter months because the incidences of death from influenza and pneumonia are higher during this period than other periods of the year.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

In the ordinary course of business, we are typically exposed to a variety of market risks. Currently, these are primarily related to changes in fair market values related to outstanding debts and changes in the values of securities associated with the preneed and perpetual care trusts. For information regarding the Company's exposure to certain market risks, see Item 7A, "Quantitative and Qualitative Disclosures About Market Risk", in the Company's Annual Report filed on Form 10-K for the year ended December 31, 2010. There have been no significant changes in the Company's market risk from that disclosed in the Form 10-K for the year ended December 31, 2010.

The 7⁷/₈% Senior Notes were issued to the public at par and are carried at a cost of \$130 million. At June 30, 2011, these securities were typically trading at a price of approximately \$100.50, indicating a fair market value of approximately \$131 million.

The convertible junior subordinated debentures, payable to Carriage Services Capital Trust, pay interest at the fixed rate of 7% and are carried on our Consolidated Balance Sheets at a cost of approximately \$91.5 million. The fair value of these securities is estimated to be approximately \$72 million at June 30, 2011 based on available broker quotes of the corresponding preferred securities issued by the Trust.

Item 4. Controls and Procedures

In accordance with the Securities Exchange Act of 1934, as amended (the "Exchange Act") Rules 13a-15 and 15d-15, we carried out an evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2011 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting that occurred during the six months ended June 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

In addition to the matters in Note 12 to our Consolidated Financial Statements, we and our subsidiaries are parties to a number of legal proceedings that arise from time to time in the ordinary course of our business. We self-insure against certain risks and carry insurance with coverage and coverage limits for risk in excess of the coverage amounts consistent with our assessment of risks in our business and of an acceptable level of financial exposure. Although there can be no assurance that self-insurance reserves and insurance will be sufficient to mitigate all damages, claims or contingencies, we believe that the reserves and our insurance provides reasonable coverage for known asserted and unasserted claims. In the event we sustained a loss from a claim and the insurance carrier disputed coverage or coverage limits, we may record a charge in a different period than the recovery, if any, from the insurance carrier.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. [Removed and Reserved]

Item 5. Other Information

The Company reported on Form 8-K during the quarter covered by this report all information required to be reported on such form.

Item 6. Exhibits
