Table of Contents**KIRKLAND'S, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****Note 1 Basis of Presentation**

Kirkland's, Inc. (the Company) is a specialty retailer of home décor with 294 stores in 30 states as of July 30, 2011. The consolidated financial statements of the Company include the accounts of the Company and its wholly-owned subsidiaries, Kirkland's Stores, Inc., Kirkland's DC, Inc., Kirkland's Texas, LLC, and Kirklands.com, LLC. Significant intercompany accounts and transactions have been eliminated.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, including normal recurring adjustments, considered necessary for a fair presentation have been included. These financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on April 14, 2011.

It should be understood that accounting measurements at interim dates inherently involve greater reliance on estimates than those at fiscal year end. In addition, because of seasonality factors, the results of the Company's operations for the 13-week and 26-week periods ended July 30, 2011 are not indicative of the results to be expected for any other interim period or for the entire fiscal year. The Company's fiscal year ends on the Saturday closest to January 31, resulting in years of either 52 or 53 weeks. All references to a fiscal year refer to the fiscal year ending on the Saturday closest to January 31 of the following year.

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from the estimates and assumptions used.

Changes in estimates are recognized in the period when new information becomes available to management. Areas where the nature of the estimate makes it reasonably possible that actual results could materially differ from amounts estimated include: impairment assessments on long-lived assets, inventory reserves, self-insurance reserves, income tax liabilities, stock-based compensation, gift certificate and gift card breakage, customer loyalty program accruals and contingent liabilities.

Note 2 Income Taxes

An estimate of the annual effective tax rate is used at each interim period based on the facts and circumstances available at that time, while the actual effective tax rate is calculated at year-end. For the 13-week period ended July 30, 2011, the Company recorded an income tax benefit of 19.7% of the loss before income taxes. In the prior year period, the Company recorded income tax expense of 37.0% of income before income taxes. The decline in the tax rate was primarily the result of the proximity of pre-tax results to breakeven. For the 26-week period ended July 30, 2011, the Company recorded income tax expense of 40.6% of income before income taxes. In the prior year period, the Company recorded income tax expense of 39.5% of income before income taxes.

Note 3 Earnings Per Share

Basic earnings per share is computed by dividing net income or loss by the weighted average number of shares outstanding during each period presented, which excludes non-vested restricted stock. Diluted earnings per share is computed by dividing net income by the weighted average number of shares outstanding plus the dilutive effect of stock equivalents outstanding during the applicable periods using the treasury stock method. Diluted earnings per share reflects the potential dilution that could occur if options to purchase stock were exercised into common stock. Stock options that were not included in the computation of diluted earnings per share were not included because to do so would have been antidilutive. These shares were 1.9 million and 200,000 shares for the 13-week periods ended July 30, 2011 and July 31, 2010, and 450,000 and 200,000 for the 26-week periods ended July 30, 2011 and July 31, 2010, respectively.

Table of Contents

Note 4 Commitments and Contingencies

The Company is party to pending legal proceedings and claims. Although the outcome of such proceedings and claims cannot be determined with certainty, the Company's management is of the opinion that it is unlikely that these proceedings and claims in excess of insurance coverage will have a material effect on the financial condition, operating results or cash flows of the Company.

Note 5 Stock-Based Compensation

The Company maintains equity incentive plans under which it may grant non-qualified stock options, incentive stock options, restricted stock units, or stock appreciation rights to employees, non-employee directors and consultants.

The Company granted 172,500 stock options and 89,000 restricted stock units during the 13-week and 26-week periods ended July 30, 2011. This compares to 114,000 stock options and 225,000 restricted stock units granted in the 13-week and 26-week periods ended July 31, 2010. Total stock-based compensation expense (a component of compensation and benefits) was \$900,000 for the 13-week period ended July 30, 2011 and \$1.6 million for the 26-week period ended July 30, 2011 compared to \$671,000 and \$1.1 million, respectively, for the comparable prior year periods.

Note 6 Related Party Transactions

In July 2009, the Company entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because one of its principals is the spouse of the Company's Vice President of Merchandising.

During the second quarter of fiscal 2011 and 2010, purchases from this vendor totaled approximately \$5.4 million, or 11% of total merchandise purchases, and \$6.0 million, or 13% of total merchandise purchases, respectively. During the first half of fiscal 2011 and fiscal 2010, purchases from this vendor totaled approximately \$9.8 million, or 11% of total merchandise purchases, and \$9.4 million, or 11% of total merchandise purchases, respectively. Payable amounts outstanding to this vendor were approximately \$750,000 and \$900,000 as of July 30, 2011 and July 31, 2010, respectively. The Company's payable terms with this vendor are consistent with the terms offered by other vendors in the ordinary course of business.

Note 7 Subsequent Events

Amended Credit Facility:

On August 19, 2011, the Company entered into an Amended and Restated Credit Agreement, dated as of August 19, 2011 (the "Credit Agreement"), with Bank of America, N.A. as administrative agent and collateral agent, and the lenders named therein (the "Lenders"). The Credit Agreement increases the Company's senior secured revolving credit facility from \$45 million to \$50 million and extends its maturity date to August 2016. Borrowings under the facility will bear interest at an annual rate equal to LIBOR plus a margin ranging from 175 to 225 basis points with no LIBOR floor. The Company will also pay the banks a fee of 0.375% per annum on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

Table of Contents

Also on August 19, 2011, the Company entered into an Amended and Restated Security Agreement, dated as of August 19, 2011 (the Security Agreement), with its Lenders. Pursuant to the Security Agreement, the Company pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of the assets of the Company to secure the payment and performance of the obligations under the Credit Agreement.

The Company and its subsidiaries entered into the Credit Agreement and the Security Agreement to amend and restate the previous Loan and Security Agreement, dated as of October 4, 2004 (the Loan and Security Agreement) and amended on August 6, 2007, by and among the Company and its Lenders. The Loan and Security Agreement and the amendment thereto have been previously filed with the Securities Exchange Commission.

Share Repurchase Authorization:

On August 19, 2011, the Company announced that its Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$40 million of the Company's outstanding common stock from time to time until February 2013. The timing, price and volume of repurchases will be based on market conditions, relevant securities laws and other factors. The stock repurchases may be made from time to time on the open market or in privately negotiated transactions. The stock repurchase program does not require the Company to repurchase any specific number of shares, and the Company may terminate the repurchase program at any time.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide an understanding of our financial condition, change in financial condition, cash flow, liquidity and results of operations. The following discussion contains forward-looking statements that reflect the Company's plans, estimates and beliefs. The Company's actual results could differ materially from those discussed or referred to in the forward-looking statements. Factors that could cause or contribute to any differences include, but are not limited to, those discussed under the caption, Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 and under Part II, Item 1A Risk Factors .

Net sales. Net sales increased 0.2% to \$89.7 million for the second fiscal quarter of 2011 compared to \$89.5 million for the prior year period. The impact of net new store growth accounted for an increase in sales of \$4.8 million. E-Commerce sales of \$1.7 million also contributed an increase over the prior year. These increases in net sales were offset by a decline in comparable store sales of 8.0%, accounting for a \$6.5 million decline versus the prior year quarter. Comparable store sales increased 1.0% in the prior year period. The comparable store sales decrease was

primarily due to a decrease in the number of transactions and a decline in the average ticket. The decrease in transactions was due to a 4% decrease in customer traffic count. The decrease in the average ticket was the result of a lower average retail selling price, partially offset by an increase in items per transaction. Merchandise categories contributing most to the comparable store sales decline were alternative wall décor, decorative accessories, and frames.

Gross profit. Gross profit as a percentage of total revenue decreased from 38.9% in the second quarter of 2010 to 34.4% in the second quarter of 2011. Merchandise margins decreased from 53.3% in the second quarter of fiscal 2010 to 50.4% in the second quarter of fiscal 2011. Merchandise margin is calculated as net sales minus product cost of sales (including inbound freight), inventory shrinkage, and loyalty reward program expense. Merchandise margin excludes outbound freight, store occupancy and central distribution costs. The decrease in merchandise margin during the second quarter of 2011 was due to higher rates of promotional activity and markdowns and slightly higher ocean freight costs. Store occupancy costs as a percentage of net sales increased 0.4% versus the prior year quarter. This increase resulted primarily from the decline in comparable stores sales. Outbound freight costs and central distribution expenses increased as a percentage of sales primarily due to comparable store sales deleverage and an increase in diesel fuel costs as well as shipping and packaging costs associated with E-commerce.

Table of Contents

Compensation and benefits. At the store-level and corporate level, the compensation and benefits expense ratio increased for the second quarter of fiscal 2011 as compared to the second quarter of fiscal 2010 primarily due to the negative comparable store sales performance and an increase in stock compensation expense.

Other operating expenses. Other operating expenses increased as a percentage of net sales for the second quarter of fiscal 2011. This was primarily the result of negative comparable store sales performance as well as increases in legal fees and information technology maintenance expenses in the second quarter of fiscal 2011 as compared to the prior year period.

Depreciation. The decrease in depreciation as a percentage of sales versus the prior year quarter reflects the impact of lease extensions during the preceding twelve months for store locations in which the majority of the fixed assets had been fully depreciated.

Income tax expense. We recorded an income tax benefit of approximately \$118,000, or 19.7% of pre-tax loss during the second quarter of fiscal 2011, versus income tax expense of approximately \$1.9 million, or 37.0% of pre-tax income, in the prior year quarter. The decrease in the tax rate was primarily the result of the proximity of the pre-tax loss to breakeven for the second quarter of fiscal 2011.

Net income and earnings per share. As a result of the foregoing, we reported net loss of \$0.5 million, or \$0.02 per diluted share, for the second quarter of fiscal 2011 as compared to net income of \$3.3 million, or \$0.16 per share, for the second quarter of fiscal 2010.

Net sales. Net sales increased 0.6% to \$184.1 million for the first half of fiscal 2011 from \$183.0 million for the prior year period. The impact of net new store growth accounted for an increase in net sales of \$11.5 million. E-Commerce sales of \$3.3 million also contributed an increase over the prior year period. These increases in net sales were offset by a decline in comparable store sales of 8.2%, accounting for a \$13.7 million decline versus the prior year period. Comparable store sales increased 6.6% in the prior year period. The comparable store sales decrease was primarily due to a decline in number of transactions and a decrease in the average ticket. The decline in transactions resulted from lower traffic counts and a decline in the conversion rate. The decrease in average ticket was the result of lower average retail selling price, partially offset by an increase in items per transaction. Categories contributing most to the comparable store sales decline were alternative wall décor, decorative accessories, frames and mirrors.

Gross profit. Gross profit as a percentage of total revenue decreased from 41.2% in the first half of fiscal 2010 to 37.4% in the first half of fiscal 2011. The decrease in gross profit as a percentage of total revenue was primarily driven by a decline in merchandise margins, which decreased from 55.0% in the first half of fiscal 2010 to 52.7% in the first half of fiscal 2011. The decrease in merchandise margin was the result of higher rates of promotional activity and markdowns, as well as higher inbound freight costs. Store occupancy costs as a percentage of net sales increased 0.6%. This increase resulted primarily from the decline in comparable stores sales. Outbound freight costs and central distribution expenses also increased as a percentage of sales primarily due to deleverage, an increase in diesel fuel costs, and shipping and packaging costs associated with E-commerce.

Compensation and benefits. At the store-level, the compensation and benefits expense ratio increased for the first half of fiscal 2011 as compared to the first half of 2010 primarily due to the negative comparable store sales performance. At the corporate level, the compensation and benefits ratio was flat for the first half of 2011 as compared to the first half of 2010.

Other operating expenses. Other operating expenses increased as a percentage of net sales for the first half of fiscal 2011. This was primarily the result of increases in real estate legal fees, credit card processing fees, and information technology maintenance expenses in the first half of fiscal 2011 as compared to the prior year period.

Depreciation. The decrease in depreciation as a percentage of sales versus the prior year period reflects the impact of lease extensions during the preceding twelve months for store locations in which the majority of the fixed assets had been fully depreciated.

Income tax expense. We recorded income tax expense of approximately \$1.8 million, or 40.6% of pre-tax income during the first half of fiscal 2011, versus approximately \$6.4 million, or 39.5% of pre-tax income, during the prior year period.

Net income and earnings per share. As a result of the foregoing, we reported net income of \$2.7 million, or \$0.13 per diluted share, for the first half of fiscal 2011 as compared to net income of \$9.8 million, or \$0.47 per share, for the first half of fiscal 2010.

Liquidity and Capital Resources

Our principal capital requirements are for working capital and capital expenditures. Working capital consists mainly of merchandise inventories offset by accounts payable, which typically reach their peak by the end of the third quarter of each fiscal year. Capital expenditures primarily relate to new store openings; existing store expansions, remodels or relocations; and purchases of equipment or information technology assets for our stores, distribution facilities and corporate headquarters. Historically, we have funded our working capital and capital expenditure requirements with internally generated cash and borrowings under our credit facility.

Cash flows from operating activities. Net cash used in operating activities was \$5.6 million and \$2.1 million for the first half of fiscal 2011 and fiscal 2010, respectively. Cash flows from operating activities depend heavily on operating performance, changes in working capital and the timing and amount of payments for income taxes. The change in the amount of cash used in operations as compared to the prior year period was primarily the result of the decline in our operating performance and an increase in working capital. These factors were partially offset by a decrease in income taxes paid. Cash tax payments for the first half of fiscal 2011 totaled approximately \$5.8 million compared to \$16.0 million in the prior year period.

Table of Contents

Cash flows from investing activities. Net cash used in investing activities for the first half of fiscal 2011 consisted of \$11.8 million in capital expenditures as compared to \$9.1 million for the prior year period. The capital expenditures primarily related to the construction of ten new stores and the continuation of several information technology projects.

Cash flows from financing activities. Net cash provided by financing activities was approximately \$1.3 million and \$479,000 for the first half of fiscal 2011 and fiscal 2010, respectively, and were related to the exercise of employee stock options, the vesting of restricted stock units, employee stock purchases, and the related tax benefits.

Revolving credit facility. On August 19, 2011, we entered into an Amended and Restated Credit Agreement, dated as of August 19, 2011 (the "Credit Agreement"), with Bank of America, N.A. as administrative agent and collateral agent, and the lenders named therein (the "Lenders"). The Credit Agreement increases our senior secured revolving credit facility from \$45 million to \$50 million and extends the maturity date to August 2016. Borrowings under the facility will bear interest at an annual rate equal to LIBOR plus a margin ranging from 175 to 225 basis points with no LIBOR floor. We will also pay the banks a fee of 0.375% per annum on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

Also on August 19, 2011, we entered into an Amended and Restated Security Agreement, dated as of August 19, 2011 (the "Amended and Restated Security Agreement"), with our Lenders. Pursuant to the Security Agreement, we pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of our assets to secure the payment and performance of the obligations under the Credit Agreement.

We entered into the Credit Agreement and the Security Agreement to amend and restate the previous Loan and Security Agreement, dated as of October 4, 2004 (the "Loan and Security Agreement") and amended on August 6, 2007, between us and the Lenders. The Loan and Security Agreement and the amendment thereto have been previously filed with the Securities Exchange Commission.

As of July 30, 2011, we were in compliance with the covenants in the facility and there were no outstanding borrowings under the credit facility, with approximately \$30 million available for borrowing. We do not anticipate any borrowings under the credit facility during fiscal 2011.

At July 30, 2011, our balance of cash and cash equivalents was approximately \$75.1 million and the borrowing availability under our facility was \$30 million. We believe that the combination of our cash balances, line of credit availability and cash flow from operations will be sufficient to fund our planned capital expenditures and working capital requirements for at least the next twelve months.

Share Repurchase Authorization. On August 19, 2011, we announced that our Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$40 million of our outstanding common stock from time to time until February 2013. The timing, price and volume of repurchases will be based on market conditions, relevant securities laws and other factors. The stock repurchases may be made from time to time on the open market or in privately negotiated transactions. The stock repurchase program does not require us to repurchase any specific number of shares, and we may terminate the repurchase program at any time.

During the second quarter of fiscal 2011 and 2010, the Company's purchases from this vendor totaled approximately \$5.4 million, or 11% of total merchandise purchases, and \$6.0 million, or 13% of total merchandise purchase, respectively. During the first half of fiscal 2011 and 2010, purchases from this vendor totaled approximately \$9.8 million, or 11% of total merchandise purchases, and \$9.4 million, or 11% of total merchandise purchases, respectively. Payable amounts outstanding to this vendor were approximately \$750,000 and \$900,000 as of July 30, 2011 and July 31, 2010, respectively. The Company's payable terms with this vendor are consistent with the terms offered by other vendors in the ordinary course of business.
