**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**1. Basis of presentation and significant accounting policies**

*Basis of presentation*

The consolidated financial statements include the accounts of Pulte Homes, Inc. and all of its direct and indirect subsidiaries (the Company) and variable interest entities in which the Company is deemed to be the primary beneficiary. The direct subsidiaries of Pulte Homes, Inc. include Pulte Diversified Companies, Inc., Del Webb Corporation (Del Webb) and other subsidiaries that are engaged in the homebuilding business. Pulte Diversified Companies, Inc.'s operating subsidiaries include Pulte Home Corporation and other subsidiaries that are engaged in the homebuilding business. The Company also has a mortgage banking company, Pulte Mortgage LLC (Pulte Mortgage), which is a subsidiary of Pulte Home Corporation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. These financial statements should be read in conjunction with the Company's consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

*Earnings per share*

Basic earnings per share is computed by dividing income available to common shareholders (the numerator) by the weighted-average number of common shares, adjusted for nonvested shares of restricted stock (the denominator) for the period. Computing diluted earnings per share is similar to computing basic earnings per share, except that the denominator is increased to include the dilutive effects of options and nonvested shares of restricted stock. Any options that have an exercise price greater than the average market price are considered to be anti-dilutive, and are excluded from the diluted earnings per share calculation. The calculation of diluted earnings per share excludes 21,827,624 and 2,317,200 stock options and shares of restricted stock for the three months ended March 31, 2007 and 2006, respectively. For the three months ended March 31, 2007, all stock options and unvested restricted stock were excluded from the calculation as they were anti-dilutive due to the net loss recorded during the period.

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**1. Basis of presentation and significant accounting policies (continued)***Land Valuation Adjustments and Write-Offs*Impairment of long-lived assets

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets* (SFAS No. 144), the Company records valuation adjustments on land inventory and related communities under development when events and circumstances indicate that they may be impaired and when the cash flows estimated to be generated by those assets are less than their carrying amounts. The weakened market conditions that arose during 2006 persisted into 2007 and resulted in lower than expected net new orders, revenues, and gross margins and higher than expected cancellation rates during the three months ended March 31, 2007. As a result, a portion of the Company's land inventory and communities under development demonstrated potential impairment indicators and were accordingly tested for impairment. As required by SFAS No. 144, the Company compared the expected undiscounted cash flows for these communities to their carrying value. For those communities whose carrying values exceeded the expected undiscounted cash flows, the Company calculated the fair value of the community. Impairment charges are required to be recorded if the fair value of the community's inventory is less than their carrying amounts. The Company determined the fair value of the community's inventory using a discounted cash flow model. These estimated cash flows are significantly impacted by estimates related to selling price, sales pace, construction costs, and other factors. Due to uncertainties in the estimation process, the significant volatility in demand for new housing, and the long life cycles of many communities, actual results could differ materially from such estimates. The Company's determination of fair value also requires discounting the estimated cash flows at a rate commensurate with the inherent risks associated with the assets and related estimated cash flow streams. The discount rate used in determining each community's fair value depends on the stage of development of the community and other specific factors that increase or decrease the inherent risks associated with the community's cash flow streams. For example, communities that are entitled and near completion will generally require a lower discount rate than communities that are not entitled and consist of multiple phases spanning several years of development and construction activity.

For the three months ended March 31, 2007 and 2006, the Company recorded valuation adjustments of \$62.4 million (related to 35 communities) and \$0.1 million (related to one community), respectively, to reduce the carrying value of the impaired assets to their estimated fair value. The Company recorded these valuation adjustments in its Consolidated Statements of Operations within Homebuilding expense, which includes home cost of sales. In the event that market conditions or our operations deteriorate in the future or the current difficult market conditions extend beyond our expectations, additional impairments may be experienced in the future.

Net realizable value adjustments — land held for sale

In accordance with SFAS No. 144, the Company values long-lived assets held for sale at the lower of carrying amount or fair value less cost to sell. The Company records these net realizable value adjustments in its Consolidated Statements of Operations within Homebuilding expense, which includes land cost of sales. During the three months ended March 31, 2007 and 2006 the Company recognized net realizable value adjustments related to land held for sale of \$18.2 million and \$0, respectively.

Write-off of deposits and pre-acquisition costs

From time to time, the Company writes off certain deposits and pre-acquisition costs related to land option contracts the Company no longer plans to pursue. Such decisions take into consideration changes in national and local market conditions, the willingness of land sellers to modify terms of the related purchase agreement, the availability and best use of necessary capital, and other factors. The Company wrote off deposits and pre-acquisition costs in the amount of \$51.5 million and \$5.1 million during the three months ended March 31, 2007 and 2006, respectively. The Company records these write-offs of deposits and pre-acquisition costs for land option contracts the Company no longer plans to pursue in its Consolidated Statements of Operations within Homebuilding expense, which includes other income (expense), net.

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**1. Basis of presentation and significant accounting policies (continued)***Land, not owned, under option agreements*

In the ordinary course of business, the Company enters into land option agreements in order to procure land for the construction of homes in the future. Pursuant to these land option agreements, the Company will provide a deposit to the seller as consideration for the right to purchase land at different times in the future, usually at predetermined prices. Under FASB Interpretation No. 46, Consolidation of Variable Interest Entities, as amended by FIN 46-R issued in December 2003 (collectively referred to as FIN 46), if the entity holding the land under option is a variable interest entity, the Company's deposit represents a variable interest in that entity. Creditors of the variable interest entities have no recourse against the Company.

In applying the provisions of FIN 46, the Company evaluated all land option agreements and determined that the Company was subject to a majority of the expected losses or entitled to receive a majority of the expected residual returns under a limited number of these agreements. As the primary beneficiary under these agreements, the Company is required to consolidate variable interest entities at fair value. At March 31, 2007 and December 31, 2006, the Company classified \$35.9 million and \$43.6 million, respectively, as land, not owned, under option agreements on the balance sheet, representing the fair value of land under contract, including deposits of \$4.1 million and \$6 million, respectively. The corresponding liability has been classified within accrued and other liabilities on the balance sheet.

Land option agreements that did not require consolidation under FIN 46 at March 31, 2007 and December 31, 2006, had a total purchase price of \$3.8 billion and \$4.3 billion, respectively. In connection with these agreements, the Company had refundable and non-refundable deposits and pre-acquisition costs of \$320.1 million and \$363.5 million included in other assets at March 31, 2007 and December 31, 2006, respectively.

*Allowance for warranties*

Home purchasers are provided with warranties against certain building defects. The specific terms and conditions of those warranties vary geographically. Most warranties cover different aspects of the home's construction and operating systems for a period of up to ten years. The Company estimates the costs to be incurred under these warranties and records a liability in the amount of such costs at the time product revenue is recognized. Factors that affect the Company's warranty liability include the number of homes sold, historical and anticipated rates of warranty claims, and cost per claim. The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary.

Changes to the Company's allowance for warranties are as follows (\$000's omitted):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2007</b>	<b>2006</b>
Allowance for warranties at beginning of period	\$ 117,260	\$ 124,371
Warranty reserves provided	17,170	34,263
Payments and other adjustments	(26,480)	(42,617)
Allowance for warranties at end of period	\$ 107,950	\$ 116,017

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**1. Basis of presentation and significant accounting policies (continued)**

*New accounting pronouncements*

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* Including an amendment of FASB Statement No. 115 (SFAS No. 159), which permits entities to measure various financial instruments and certain other items at fair value at specified election dates. The election must be made at initial recognition of the financial instrument, and any unrealized gains or losses must be reported at each reporting date. SFAS No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Early adoption of the statement is allowed provided that an entity also elects to apply the provisions of SFAS No. 157 (as subsequently presented). The Company is currently reviewing the potential impact of SFAS No. 159 on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently reviewing the potential impact of SFAS No. 157 on its consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* (SFAS No. 156), which provides an approach to simplify efforts to obtain hedge-like (offset) accounting. This new Statement amends SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Company adopted SFAS No. 156 effective January 1, 2007. As the Company sells its servicing rights monthly on a flow basis through fixed price servicing sales contracts, the adoption of SFAS No. 156 did not have a significant impact on the Company's consolidated financial statements.

The FASB has revised its guidance on SFAS No. 133 Implementation Issues as of March 2006. Several Implementation Issues were revised to reflect the issuance of SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments* an Amendment of FASB Statements No. 133 and 140 (SFAS No. 155), in February 2006. SFAS No. 155 allows any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to be carried at fair value in its entirety, with changes in fair value recognized in earnings. In addition, SFAS No. 155 requires that beneficial interests in securitized financial assets be analyzed to determine whether they are freestanding derivatives or contain an embedded derivative. SFAS No. 155 also eliminates a prior restriction on the types of passive derivatives that a qualifying special purpose entity is permitted to hold. SFAS No. 155 is applicable to new or modified financial instruments in fiscal years beginning after September 15, 2006, though the provisions related to fair value accounting for hybrid financial instruments can also be applied to existing instruments. The Company adopted SFAS No. 155 effective January 1, 2007. The effect of adoption was not significant.

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**2. Segment information**

The Company's homebuilding operating segments are engaged in the acquisition and development of land primarily for residential purposes within the continental United States and the construction of housing on such land targeted for first-time, first and second move-up, and active adult home buyers.

The Company has determined that its operating segments are its Areas, which are aggregated into seven reportable segments based on similarities in the economic and geographic characteristics of the Company's homebuilding operations. Accordingly, the Company's reportable homebuilding segments are as follows:

Northeast: Northeast and Mid-Atlantic Areas include the following states:  
*Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Virginia*

Southeast: Southeast Area includes the following states:  
*Georgia, North Carolina, South Carolina, Tennessee*

Florida: Florida Area includes the following state:  
*Florida*

Midwest: Great Lakes Area includes the following states:  
*Illinois, Indiana, Michigan, Ohio, Minnesota*

Central: Rocky Mountain and Central Areas include the following states:  
*Colorado, Kansas, Missouri, Texas*

Southwest: Southwest and Nevada Areas include the following states:  
*Arizona, Nevada, New Mexico*

\*California: Northern California and Southern California Areas include the following state:  
*California*

\* *The Company's homebuilding operations located in Reno, Nevada are reported in the California segment, while its remaining Nevada homebuilding operations are reported in the Southwest segment.*

The Company also has one reportable segment for its financial services operations which consists principally of mortgage banking and title operations conducted through Pulte Mortgage and other Company subsidiaries. The Company's financial services segment operates generally in the same markets as the Company's homebuilding segments.

Evaluation of segment performance is based on operating earnings from continuing operations before provision for income taxes which, for the homebuilding operations, is defined as home sales (settlements) and land sale revenues less home cost of sales, land cost of sales and certain selling, general and administrative and other expenses, plus equity income from unconsolidated entities, which are incurred by or allocated to our homebuilding segments. Operating earnings for the financial services segment is defined as revenues less costs associated with our mortgage operations and certain selling, general and administrative expenses incurred by or allocated to the financial services segment.

Each reportable segment follows the same accounting policies described in Note 1 Summary of Significant Accounting Policies to the consolidated financial statements in the Company's 2006 Annual Report on Form 10-K.

### **3. Inventory**

Major components of the Company's inventory are as follows (\$000's omitted):

	<b>March 31, 2007</b>	<b>December 31, 2006</b>
Homes under construction	\$ 2,886,508	\$ 2,606,613
Land under development	5,078,586	5,478,244
Land held for future development	1,457,751	1,289,478
Total	\$ 9,422,845	\$ 9,374,335

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**4. Investments in unconsolidated entities**

The Company participates in a number of joint ventures with independent third parties. Many of these joint ventures purchase, develop and/or sell land and homes in the United States and Puerto Rico. If additional capital infusions are required and approved (or necessary as a result of the limited recourse financing guarantees discussed below), the Company would need to contribute its pro-rata portion of those capital needs in order not to dilute its ownership in the joint ventures.

At March 31, 2007 and December 31, 2006, aggregate outstanding debt of unconsolidated joint ventures was \$803.6 million and \$935.9 million, respectively. At March 31, 2007 and December 31, 2006, the Company's proportionate share of its joint venture debt was approximately \$244.3 million and \$312.8 million, respectively. The Company provided limited recourse guarantees for \$234.8 million and \$304.1 million for joint venture debt at March 31, 2007 and December 31, 2006, respectively. Accordingly, the Company may be liable, on a contingent basis, through limited guarantees with respect to a portion of the secured land acquisition and development debt. However, the Company would not be liable, unless the joint venture was unable to perform its contractual borrowing obligations. As of March 31, 2007, the Company does not anticipate that it will incur any significant costs under these guarantees.

For the three months ended March 31, 2007, the Company made additional capital contributions to existing joint ventures totaling approximately \$81.7 million and received capital and earnings distributions from these entities totaling approximately \$2 million. At March 31, 2007 and December 31, 2006, the Company had approximately \$213.8 million and \$150.7 million, respectively, invested in these joint ventures. These investments are included in the assets of the Company's Homebuilding segments and are primarily accounted for under the equity method.

**5. Acquisitions and divestitures**

In February 2006, Pulte Mortgage sold its investment in Hipotecaria Su Casita ( Su Casita ), a Mexico-based mortgage banking company. Remaining shareholders of Su Casita, who exercised their right of first refusal to acquire the shares, purchased Pulte Mortgage's 16.7% interest for net proceeds of approximately \$49.2 million. As a result of this transaction, the Company recognized a pre-tax gain of approximately \$31.6 million for the three months ended March 31, 2006.

**6. Shareholders' equity**

Pursuant to the two \$100 million stock repurchase programs authorized by our Board of Directors in October 2002 and 2005, and the \$200 million stock repurchase authorization in February 2006 (for a total stock repurchase authorization of \$400 million), the Company has repurchased a total of 9,688,900 shares for a total of \$297.7 million, though there were no repurchases under these programs during the three months ended March 31, 2007. The Company had remaining authorization to purchase \$102.3 million of common stock at March 31, 2007.

*Accumulated other comprehensive income (loss)*

The accumulated balances related to each component of other comprehensive income (loss) are as follows (\$000's omitted):

	<b>March 31, 2007</b>	<b>December 31, 2006</b>
Foreign currency translation adjustments:		
Mexico	\$ (471)	\$ (316)
Fair value of derivatives, net of income taxes of \$2,061 in 2007 and \$1,637 in 2006	(3,364)	(2,670)
	<b>\$ (3,835)</b>	<b>\$ (2,986)</b>

**Table of Contents**

**PULTE HOMES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

**7. Income Taxes**

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), effective January 1, 2007. FIN 48 creates a single model to address accounting for uncertainty in tax positions and clarifies accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition.

The January 1, 2007 adoption of FIN 48 resulted in a \$31.4 million increase in income tax liabilities and a corresponding charge to beginning retained earnings.

As of adoption, the Company had \$86.7 million of gross unrecognized tax benefits, all of which, if recognized, would affect the effective tax rate. Additionally, the Company had \$24.5 million of accrued interest and \$13.3 million of accrued penalties as of January 1, 2007.

Effective in 2007, the Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. Interest related to unrecognized tax benefits was previously included in interest expense.

The Company is currently under examination by various taxing jurisdictions and anticipates finalizing the examinations with certain jurisdictions within the next twelve months. The final outcome of these examinations is not yet determinable. The statute of limitations for the Company's major tax jurisdictions remains open for examination for tax years 1998-2006.

**8. Supplemental Guarantor information**

At March 31, 2007, Pulte Homes, Inc. had the following outstanding senior note obligations: (1) \$400 million, 4.875% due 2009, (2) \$200 million, 8.125%, due 2011, (3) \$499 million, 7.875%, due 2011, (4) \$300 million, 6.25%, due 2013, (5) \$500 million, 5.25%, due 2014, (6) \$350 million, 5.2%, due 2015, (7) \$150 million, 7.625%, due 2017, (8) \$300 million, 7.875%, due 2032, (9) \$400 million, 6.375%, due 2033, (10) \$300 million, 6%, due 2035, and (11) \$150 million, 7.375%, due 2046. Such obligations to pay principal, premium (if any), and interest are guaranteed jointly and severally on a senior basis by Pulte Homes, Inc.'s 100%-owned Homebuilding subsidiaries (collectively, the Guarantors). Such guarantees are full and unconditional.

Supplemental consolidating financial information of the Company, including such information for the Guarantors, is presented below. Investments in subsidiaries are presented using the equity method of accounting. Separate financial statements of the Guarantors are not provided as the consolidating financial information contained herein provides a more meaningful disclosure to allow investors to determine the nature of the assets held by, and the operations of, the combined groups.

**Item 2. Management's Discussion And Analysis Of Financial Condition And Results Of Operations  
Overview**

During 2006, the U.S. housing market was impacted by a lack of consumer confidence, decreased housing affordability, increased interest rates, and large supplies of resale and new home inventories and related pricing pressures. These conditions continued into 2007 and contributed to weakened demand for new homes, slower sales, higher cancellation rates, and increased price discounts and sales incentives to attract homebuyers compared with the first quarter of 2006. Additionally, the availability of certain mortgage financing products became more constrained starting in February 2007 when the mortgage industry began to more closely scrutinize sub-prime, Alt-A, and other non-conforming mortgage products. As a result of the combination of these homebuilding industry and related mortgage financing developments, gross margins recorded during the first quarter of 2007 decreased from the same period in the prior year. From time to time, we write off deposit and pre-acquisition costs related to land and lot option contracts which we no longer plan to pursue. As a result of challenging market conditions, we wrote off deposit and pre-acquisition costs of \$51.5 million during the first quarter of 2007 related to land transactions we no longer plan to pursue. Additionally, we recorded land valuation and net realizable value adjustments of \$80.6 million to reduce the carrying value of certain assets to fair value. Our evaluation for such adjustments assumed our best estimates of cash flows for the communities tested. If conditions in the homebuilding industry worsen in the future, we may be required to evaluate our inventory assets for additional impairment, which could result in additional impairment charges that might be significant.

We continue to operate our business with the expectation that these difficult market conditions will continue to impact us for at least the near term. We have adjusted our approach to land acquisition and construction practices and continue to shorten our land pipeline, reduce production volumes, and balance home price and profitability with sales pace. We are delaying planned land purchases and reducing our total number of controlled lots owned and under option. Additionally, we are reducing the number of spec homes put into production. While we will continue to purchase select land positions where it makes strategic and economic sense to do so, we currently anticipate minimal investment in new land parcels this year. We have also closely evaluated and made reductions in selling, general and administrative expenses. Given the persistence of these difficult market conditions, improving the efficiency of our selling, general and administrative expenses will continue to be a significant area of focus. We believe that these measures will help to strengthen our market position and allow us to take advantage of opportunities that will develop in the future.

Given the continued weakness in new home sales and closings, visibility as to future earnings performance is limited. At this time, we estimate our second quarter 2007 earnings in the range of break-even to a loss of \$0.10 per diluted share, exclusive of any additional land-related charges. Our outlook is tempered with caution, as conditions in many of the markets we serve across the United States have become more challenging in recent months.

**Table of Contents****Overview (continued)**

The following is a summary of our operating results for the three months ended March 31, 2007 and 2006 (\$000 omitted):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Pre-tax income (loss):		
Homebuilding operations	\$ (148,386)	\$ 377,583
Financial services operations	13,195	49,344
Other non-operating	(7,357)	(9,383)
Pre-tax income (loss)	(142,548)	417,544
Income taxes (benefit)	(56,876)	154,899
Net income (loss)	\$ (85,672)	\$ 262,645
Per share data assuming dilution:		
Net income (loss)	\$ (.34)	\$ 1.01

The following is a comparison of pre-tax income for the three months ended March 31, 2007 and 2006: Homebuilding pre-tax loss was \$148.4 million for the three months ended March 31, 2007, compared with homebuilding pre-tax income of \$377.6 million for the same period in the prior year. The pre-tax loss experienced by our homebuilding operations resulted primarily from lower homebuilding settlement revenues combined with lower gross margins. Gross margins were unfavorably impacted by increased selling incentives combined with increased construction, land and land development costs. For the three months ended March 31, 2007, pre-tax income was unfavorably impacted by \$132.1 million of valuation adjustments recorded to land inventory (\$62.4 million) and land held for sale (\$18.2 million) and the write-off of deposits and pre-acquisition costs (\$51.5 million) related to land option contracts we no longer plan to pursue primarily due to declining market conditions in the homebuilding industry.

Pre-tax income from our financial services business segment decreased 73% for the three months ended March 31, 2007 compared with the prior year period, as we recognized a one-time gain of \$31.6 million related to the sale of our investment in Su Casita, a Mexican mortgage banking company, during the first quarter of 2006. Capture rates were 93% and 89% for the three months ended March 31, 2007 and 2006, respectively.

The decrease in non-operating expenses for the three months ended March 31, 2007, compared with the same period in the prior year, was due primarily to a decrease in incentive compensation resulting primarily from our reduced profitability levels.

**Table of Contents****Homebuilding Operations Summary**

The following table presents a summary of pre-tax income (loss) and unit information for our Homebuilding operations for the three months ended March 31, 2007 and 2006 (\$000 s omitted):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Home sale revenue (settlements)	\$ 1,789,282	\$ 2,888,834
Land sale revenue	40,626	25,918
Home cost of sales <sup>(a)</sup>	(1,594,471)	(2,225,966)
Land cost of sales <sup>(b)</sup>	(56,362)	(21,143)
Selling, general and administrative expense	(281,653)	(284,749)
Equity income (loss)	(1,020)	1,216
Other income (expense), net <sup>(c)</sup>	(44,788)	(6,527)
Pre-tax income (loss)	\$ (148,386)	\$ 377,583
Unit settlements	5,420	8,602
Average selling price	\$ 330	\$ 336
Net new orders units	8,499	10,725
Net new orders dollars	\$ 2,912,000	\$ 3,683,000
Backlog at March 31:		
Units	13,334	19,940
Dollars	\$ 4,703,000	\$ 7,096,000

*(a) Includes homebuilding interest expense, which represents the amortization of capitalized interest. Home cost of sales also includes land and community valuation adjustments of \$62.4 million and \$0.1 million for the three months ended March 31, 2007 and 2006, respectively.*

(b) *Includes net realizable value adjustments for land held for sale of \$18.2 million for the three months ended March 31, 2007.*

(c) *Includes the write-off of deposits and pre-acquisition costs for land option contracts we no longer plan to pursue of \$51.5 million and \$5.1 million for the three months ended March 31, 2007 and 2006, respectively.*

Home sale revenues for the three months ended March 31, 2007 were lower than those for the prior year by \$1.1 billion, or 38%. The decrease in home sale revenues was attributable to a 37% decrease in the number of homes closed combined with a 2% decrease in average selling price. The decrease in average selling price reflects a combination of factors, including changes in product mix and geographic mix of homes closed during the period as well as lower market selling prices.

Homebuilding gross profit margins from home settlements decreased to 10.9% for the three months ended March 31, 2007, compared with 22.9% for the same period in the prior year. The significant decrease in gross profit margins is attributable to the difficult market conditions and challenging sales environment where we have realized increased sales incentives and higher material, labor, land and land development costs. In addition, valuation adjustments of \$62.4 million were taken during the three months ended March 31, 2007 related to impairments of 35 communities. There were no significant land valuation adjustments recorded during the three months ended March 31, 2006.

**Table of Contents****Homebuilding Operations Summary (continued)**

We consider land acquisition and entitlement among our core competencies. We acquire land primarily for the construction of our homes for sale to homebuyers. We select locations for development of homebuilding communities after completing extensive market research, enabling us to match the location and product offering with our targeted consumer group. Where we develop land, we engage directly in many phases of the development process, including land and site planning, obtaining environmental and other regulatory approvals, as well as constructing roads, sewers, water and drainage facilities, and other amenities. We will often sell select parcels of land within or adjacent to our communities to retail and commercial establishments. On occasion, we also will sell lots within our communities to other homebuilders. Gross profits from land sales for the three months ended March 31, 2007 had a negative margin contribution of \$15.7 million, compared with a positive margin contribution of \$4.8 million for the same period in 2006. The gross profit contribution from specific land sales transactions was approximately \$2.5 million for the three months ended March 31, 2007. This margin contribution was offset by an \$18.2 million fair market value adjustment related to commercial and residential land held for disposition. Revenues and their related gains/losses may vary significantly between periods, depending on the timing of land sales. We continue to evaluate our existing land positions to ensure the most effective use of capital. As of March 31, 2007, we had \$422.1 million of land held for sale.

Selling, general and administrative expenses as a percentage of home settlement revenues was 15.7% for the three months ended March 31, 2007 compared with 9.9% for the same period in the prior year. The increase is attributable primarily to reduced overhead leverage as a result of the significant reduction in revenues, lower absorption into inventory of overhead costs due to lower construction volume, and an increase in insurance-related expenses, partially offset by our internal initiatives focused on controlling costs in the current business environment.

Other income (expense), net, includes the write-off of deposits and pre-acquisition costs resulting from decisions not to pursue certain land acquisitions and options, which totaled \$51.5 million and \$5.1 million for the three months ended March 31, 2007 and 2006, respectively. These write-offs were partially offset by higher customer deposit income resulting from increased customer cancellations.

Unit settlements decreased 37% for the three months ended March 31, 2007, to 5,420 units, compared with the same period in 2006. The average selling price for homes closed decreased 2% to \$330,000 for the three months ended March 31, 2007 compared with the same period in the prior year. For the three months ended March 31, 2007, unit net new orders decreased 21% to 8,499 units, compared with the same period in 2006. Net new orders were impacted by the overall difficult market conditions, including a lack of consumer confidence, decreased housing affordability, increased interest rates, large supplies of resale and new home inventories and related pricing pressures, and increased cancellation rates. Cancellation rates for the quarter were 24%, compared with 21% for the same period in 2006. Most markets have experienced a substantial increase in resale home inventory, and this, combined with declining consumer confidence, difficulties experienced by customers in selling their existing homes, and the more restrictive mortgage financing market, has resulted in higher cancellation rates and reduced net new orders during 2007 compared with the first quarter of 2006. The dollar value of net new orders decreased 21% for the three months ended March 31, 2007, compared with the same period in 2006. However, while net new order dollars decreased year-over-year, selling prices remained stable in many of our markets. For the quarter ended March 31, 2007, we had 691 active selling communities, which is comparable with the same period in the prior year. Ending backlog, which represents orders for homes that have not yet closed, was 13,334 units at March 31, 2007 with a dollar value of \$4.7 billion.

At March 31, 2007 and December 31, 2006, our Homebuilding operations controlled approximately 220,100 and 232,200 lots, respectively. Approximately 154,200 and 158,800 lots were owned, and approximately 57,100 and 63,700 lots were under option agreements approved for purchase at March 31, 2007 and December 31, 2006, respectively. In addition, there were approximately 8,800 and 9,700 lots under option agreements, pending approval, at March 31, 2007 and December 31, 2006, respectively. For the three months ended March 31, 2007, we withdrew from land contracts representing approximately 10,700 lots valued at \$625.5 million. We believe that the depth of our existing land supply, coupled with our entitlement expertise, will enable us to continue opening new communities to meet existing business demand.

The total purchase price related to approved land under option for use by our Homebuilding operations at future dates approximated \$3.6 billion at March 31, 2007. In addition, the total purchase price related to land under option pending approval was valued at approximately \$298.4 million at March 31, 2007. Land option agreements, which may be cancelled at our discretion, may extend over several years and are secured by deposits and pre-acquisition costs totaling \$324.2 million, of which \$5.8 million is refundable and \$7.4 million is related to deposits that our Homebuilding operations have made in regards to lots optioned from an unconsolidated joint venture in which we have an equity interest. This balance excludes \$77.3 million of contingent payment obligations which may or may not become actual obligations of the Company.

**Table of Contents**

**Homebuilding Segment Operations**

The Homebuilding operations represent our core business. Homebuilding offers a broad product line to meet the needs of first-time, first and second move-up, and active adult homebuyers. We have determined our operating segments to be our Areas, which are aggregated into seven reportable segments based on similarities in the economic and geographic characteristics of our homebuilding operations. We conduct our operations in 50 markets, located throughout 26 states, and have presented our reportable homebuilding segments as follows:

Northeast: Northeast and Mid-Atlantic Areas include the following states:  
*Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Virginia*

Southeast: Southeast Area includes the following states:  
*Georgia, North Carolina, South Carolina, Tennessee*

Florida: Florida Area includes the following state:  
*Florida*

Midwest: Great Lakes Area includes the following states:  
*Illinois, Indiana, Michigan, Ohio, Minnesota*

Central: Rocky Mountain and Central Areas include the following states:  
*Colorado, Kansas, Missouri, Texas*

Southwest: Southwest and Nevada Areas include the following states:  
*Arizona, Nevada, New Mexico*

\*California: Northern California and Southern California Areas include the following state:  
*California*

\* *Our homebuilding operations located in Reno, Nevada are reported in the California segment, while our remaining Nevada homebuilding operations are reported in the Southwest segment.*

**Table of Contents****Homebuilding Segment Operations (continued)**

The following table presents selected financial information for our homebuilding reportable segments:

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Home sale revenue (settlements) (\$000 s omitted):		
Northeast	\$ 163,122	\$ 353,788

**Table of Contents****Homebuilding Segment Operations (continued)**

	<b>As of March 31, 2007</b>	<b>As of December 31, 2006</b>
Controlled Lots:		
Northeast	21,404	27,524
Southeast	24,668	23,332
Florida	48,948	48,640
Midwest	15,865	18,436
Central	20,795	22,966
Southwest	63,940	66,034
California	24,503	25,291
	220,123	232,223

*Northeast:*

The Northeast was the earliest of our segments to show signs of the industry's slowdown and has shown some signs of stabilization. During the first quarter of 2007, Northeast home sale revenues decreased 54% compared with the prior year period due to a 48% decrease in unit settlements combined with an 11% decrease in the average selling price. The loss before income taxes was primarily attributable to this reduction in revenues as well as a significant decline in gross margin. The Northeast also wrote-off \$23.2 million of deposits and pre-acquisition costs associated with land transactions we no longer plan to pursue in Maryland and Pennsylvania, resulting in a reduction of approximately 6,400 controlled lots. There were no significant impairments or land-related charges in the prior year period. The number of active communities was flat with the prior year. Net new orders declined by 3% due to the difficult market conditions, though the cancellation rate improved slightly to 17% compared with 18% in the prior year period.

*Southeast:*

Our Southeast segment contributed positively to operating results in the first quarter of 2007 due to strength in local demographic factors and a continued shift in our product mix, especially in regards to active adult buyers as large active adult communities were opened in Charlotte, Raleigh, and Georgia at various points during 2006. Home sale revenues increased 2% compared with the prior year period due to a 14% decrease in unit settlements offset by an 18% increase in the average selling price. Income before income taxes increased 17% compared with the prior year period due to higher home sale revenues combined with a slight increase in gross margins. These favorable items were partially offset by a moderate increase in overhead expenses due to an increase in the number of active communities. The Southeast did not incur any significant impairments or land-related charges in the first quarter of either 2007 or 2006. Net new orders declined by 36% compared with the prior year period, primarily due to the prior year period including new orders from the successful grand opening of our large active adult community in Charlotte. The cancellation rate increased to 23% compared with 15% in the prior year period, primarily due to the significant reduction in gross signups.

*Florida:*

Our Florida segment continues to be challenged due to the combination of a significant decrease in demand combined with high levels of new and existing home inventories in the majority of our markets, especially in Fort Myers, Orlando, Tampa, and Jacksonville. During the first quarter of 2007, Florida home sale revenues decreased 42% compared with the prior year period due to a 37% decrease in unit settlements combined with an 8% decrease in the average selling price. The decrease in income before income taxes was primarily attributable to this reduction in revenues as well as a significant decline in gross margin. Florida also recorded \$2.4 million in impairments in three

communities in Tampa and Jacksonville in the first quarter of 2007. There were no significant impairments or land-related charges in the prior year period. Net new orders declined by 16% due to the difficult market conditions and an increased cancellation rate of 21% compared with 18% in the prior year period.

**Table of Contents****Homebuilding Segment Operations (continued)***Midwest:*

Our Midwest segment continues to face difficult local economic conditions in all of its markets. During the first quarter of 2007, Midwest home sale revenues decreased 41% compared with the prior year period due to a 40% decrease in unit settlements. Average selling prices were flat. The increase in the loss before income taxes was primarily attributable to the reduction in revenues, a small decline in gross margin, \$12.2 million of impairments in four communities in Michigan and Minnesota, and \$4.4 million of write-offs of deposits and pre-acquisition costs, which resulted in a reduction of approximately 2,000 controlled lots. The Midwest recorded \$2.5 million of impairments and land-related charges in communities in the first quarter of 2006. The Midwest also significantly reduced overhead expenses, though overhead leverage still declined slightly in spite of these cost savings due to the significant reduction in revenues. The number of active communities was flat with the prior year period. Net new orders declined by 37% due to the difficult market conditions and an increased cancellation rate of 18% compared with 12% in the prior year period.

*Central:*

Home sale revenues for the Central segment decreased 13% during the first quarter of 2007 compared with the prior year period due to a 34% decrease in unit settlements. This lower unit volume was largely offset by a 33% increase in average selling prices. The increase in average selling prices occurred primarily in our Dallas, San Antonio, and Denver markets and reflects a change in community mix toward higher average selling price communities. The Central segment's loss before income taxes increased significantly compared to the prior year period primarily due to recording \$35 million of impairments in 22 communities across the majority of Central's markets and \$18.2 million of net realizable value adjustments on commercial property in Colorado. There were no significant impairments or land-related charges in the first quarter of 2006. The number of active communities decreased moderately compared with the prior year quarter. Net new orders declined by 48% due to the difficult market conditions and an increased cancellation rate of 29% compared with 25% in the prior year period.

*Southwest:*

The Southwest segment contributed positively to income before income taxes though the segment experienced a significant decline in profitability from the prior year period. During the first quarter of 2007, Southwest home sale revenues decreased 36% compared with the prior year period due to a 34% decrease in unit settlements, primarily in Las Vegas, combined with a 3% decrease in the average selling price. The decrease in income before income taxes was primarily attributable to the reduction in revenues as well as a significant decline in gross margin, especially in Phoenix. The Southwest also wrote off \$18.2 million of deposits and pre-acquisition costs associated with land transactions we no longer plan to pursue in Las Vegas, resulting in a reduction of approximately 700 controlled lots. There were no significant impairments or land-related charges in the prior year period. Net new orders increased by 2% due to a strong increase in net new orders in Arizona, including the opening of a large community in Tucson, offset by a sharp decline in net new orders in Las Vegas. The cancellation rate improved slightly to 25% compared with 26% in the prior year period.

*California:*

Our California operations have been impacted by significantly weakened demand for new homes and an excess supply of resale inventory, especially in Sacramento. California home sale revenues decreased 51% during the first quarter of 2007 compared with the prior year period due to a 52% decrease in unit settlements, primarily in Sacramento and southern California, partially offset by a 3% increase in the average selling price. The loss before income taxes was primarily attributable to the reduction in revenues as well as a significant decline in gross margin. California also recorded \$7.8 million of impairments in six communities and \$5.7 million of write-offs relating to deposits and pre-acquisition costs associated with land transactions we no longer plan to pursue in southern California, resulting in a reduction of approximately 400 controlled lots. There were no significant impairments or land-related charges in the prior year period. The number of active communities was flat with the prior year period. Net new orders declined by 10% due to the difficult market conditions. The cancellation rate improved slightly to 27% compared with 30% in the prior year period.

**Table of Contents****Financial Services Operations**

We conduct our financial services business, which includes mortgage and title operations, through Pulte Mortgage and other subsidiaries. The following table presents selected financial information for our financial services operations:

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Net gain from sale of mortgages	\$ 24,826	\$ 26,504
Mortgage origination and servicing fees	2,984	3,711
Interest income	6,235	8,001
Title services	4,634	5,856
Other revenues	902	785
 Total financial services revenues	 39,581	 44,857
Expenses	(26,430)	(27,240)
Gain on sale of equity investment		31,635
Equity income	44	92
 Income before income taxes	 \$ 13,195	 \$ 49,344
 Total originations:		
Loans	5,158	8,091
 Principal (\$000 s omitted)	 \$ 1,143,000	 \$ 1,744,200
 Originations for Pulte customers:		
Loans	5,134	8,060
 Principal (\$000 s omitted)	 \$ 1,137,900	 \$ 1,736,500

Mortgage origination unit volume decreased 36% while mortgage origination principal volume decreased 34% for the three months ended March 31, 2007 compared with the same period in the prior year. The decrease in unit volume is attributable to lower home settlements in the first quarter of 2007 compared with the same period in 2006, partially offset by an increase in the capture rate to 93% compared with 89% in the prior year. Our capture rate represents loan originations from our homebuilding business as a percent of total loan opportunities, excluding cash settlements, from our homebuilding business. The decrease in mortgage origination principal volume resulted from the reduced settlement volume partially offset by a slight increase in the average loan size. Our homebuilding customers continue to account for substantially all total loan production, representing nearly 100% of unit production for the three months ended March 31, 2007 and 2006.

During the three months ended March 31, 2007, there was a shift away from adjustable rate mortgages (ARMs), which generally have a lower profit per loan than fixed rate products. ARMs represented 15% of total funded origination dollars and 11% of total funded origination units for the three months ended March 31, 2007, compared with 35% and 28%, respectively, in the prior year period. Interest only mortgages, a component of ARMs, represented 81% of ARM origination dollars and 80% of ARM origination units for the three months ended March 31, 2007, compared with 77% and 80%, respectively, in the prior year period. Interest only mortgages represented 12% and

27%, respectively, of total funded origination dollars for the three months ended March 31, 2007 and 2006.

Our customers' average FICO scores for the three months ended March 31, 2007 and 2006 were 744 and 733, respectively. Average Combined Loan-to-Value was 83% and 82% for the three months ended March 31, 2007 and 2006, respectively. At March 31, 2007, our loan application backlog decreased to \$2.9 billion compared with \$4.1 billion at March 31, 2006 due primarily to the lower backlog in our homebuilding operations.

Based on principal dollars, approximately 5% of the loans we originated in the first quarter of 2007 were considered sub-prime loans, which we define as first mortgages with FICO scores below 620. Approximately 23% of first quarter 2007 originations were considered Alt-A loans, which we define as non-full documentation first mortgages with FICO scores of 620 or higher. The remaining 72% of first quarter 2007 originations were prime loans, which we define as full documentation first mortgages with FICO scores of 620 or higher. Because we sell our loans monthly on a flow basis and retain only limited risk for sold loans for a short period of time, we believe that our Financial Services operations do not have any material risks related to sub-prime and Alt-A loans.

**Table of Contents****Financial Services Operations (continued)**

Pre-tax income of our financial services operations for the three months ended March 31, 2007 was \$13.2 million compared with \$49.3 million for the prior year period. During February 2006, we sold our investment in Su Casita, a Mexico-based mortgage banking company. As a result of this transaction, we recognized a pre-tax gain of approximately \$31.6 million for the three months ended March 31, 2006. Excluding this gain, pre-tax income decreased moderately in the first quarter of 2007 compared with the prior year due to the significant decrease in home settlements. This decrease was partially offset by the slight increase in average loan size and the shift in product mix toward more profitable loans, including an increased mix of fixed rate and agency loans. Additionally, for the three months ended March 31, 2007, 25% of total origination dollars were from brokered loans, which are less profitable to us, compared with 22% in the prior year.

Interest income in the three months ended March 31, 2007 was 22% lower than the prior year period primarily due to the significant decrease in volume offset slightly by an improved loan yield. Revenues from our title operations decreased 21% compared with the prior year period due primarily to the significant reduction in home settlements. Expenses decreased 3% due to the decrease in volume offset by slightly higher operating expenses and loan loss reserves.

We hedge portions of our forecasted cash flow from sales of closed mortgage loans with derivative financial instruments to minimize the impact of changes in interest rates. We do not use derivative financial instruments for trading purposes.

**Other Non-Operating**

Other non-operating expenses consist of income and expenses related to corporate services provided to our subsidiaries. These expenses are incurred for financing, developing and implementing strategic initiatives centered on new business development and operating efficiencies, and providing the necessary administrative support associated with being a publicly-traded entity listed on the New York Stock Exchange. Accordingly, these results will vary from year to year as these strategic initiatives evolve.

The following table presents results of operations for the three months ended March 31, 2007 and 2006 (\$000 s omitted):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Net interest income	\$ 954	\$ 1,090
Other expenses, net	(8,311)	(10,473)
Loss before income taxes	\$ (7,357)	\$ (9,383)

Net interest income decreased slightly from the prior year. The decrease in other expenses, net is due primarily to reduced incentive compensation resulting from reduced profitability.

Interest capitalized into homebuilding inventory is charged to home cost of sales based on the cyclical timing of our unit settlements over a period that approximates the average life cycle of our communities. Interest capitalized increased based on increased debt levels during 2007 compared with the prior year. Interest expense for the three months ended March 31, 2007 includes \$5 million of capitalized interest related to inventory impairments. Information related to interest capitalized into homebuilding inventory is as follows (\$000 s omitted):

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Interest in homebuilding inventory at beginning of period	\$ 235,596	\$ 229,798

Interest capitalized into homebuilding inventory	60,360	56,624
Interest expensed to homebuilding cost of sales	(47,958)	(41,169)
Interest in homebuilding inventory at end of period	\$ 247,998	\$ 245,253
Interest incurred *	\$ 61,350	\$ 58,501

\* *Interest incurred includes interest on our senior debt, short-term borrowings, and other financing arrangements and excludes interest incurred by our financial services operations.*

**Table of Contents****Income Taxes**

Our income tax liability and related effective tax rate are affected by a number of factors. Income taxes were provided at an effective tax rate of 39.9% and 37.1% during the three months ended March 31, 2007 and 2006, respectively. The increase in the effective tax rate resulted primarily from the adoption of FASB Interpretation No. 48 (FIN 48) and a change in the overall state tax rate associated with the geographical mix of income and certain other tax matters.

**Liquidity and Capital Resources**

We finance our homebuilding land acquisitions, development and construction activities by using internally generated funds and existing credit arrangements. We routinely monitor current operational requirements and financial market conditions to evaluate the use of available financing sources, including securities offerings. Based on our current financial condition and credit relationships, we believe that our operations and borrowing resources will provide for our current and long-term capital requirements. However, we continue to evaluate the impact of market conditions on our liquidity and may determine that modifications are necessary if market conditions deteriorate or if the current difficult market conditions extend beyond our expectations.

At March 31, 2007, we had cash and equivalents of \$116.9 million and no borrowings outstanding under our unsecured revolving credit facility. We also had \$3.5 billion of senior notes outstanding. Other financing included limited recourse land-collateralized financing totaling \$21.5 million. Sources of our working capital include our cash and equivalents, our \$2 billion committed unsecured revolving credit facility and Pulte Mortgage's \$955 million committed credit arrangements.

Our ratio of debt-to-total capitalization, excluding our land-collateralized and Pulte Mortgage debt, was approximately 35.4% at March 31, 2007, and approximately 34.6% net of cash and equivalents.

Our unsecured revolving credit facility includes an uncommitted accordion feature, under which the credit facility may be increased from \$2 billion to \$2.25 billion. We have the capacity to issue letters of credit up to \$1.125 billion. Borrowing availability is reduced by the amount of letters of credit outstanding. The credit facility contains restrictive covenants, including financial covenants which require that we not exceed a debt-to-total capitalization ratio of 60% and to maintain a minimum interest coverage ratio of 2:1 (EBITDA to interest incurred), as defined in the agreement. As of March 31, 2007, there were no borrowings outstanding and \$1.5 billion available for borrowing under this facility.

Pulte Mortgage provides mortgage financing for many of our home sales and uses its own funds and borrowings made available pursuant to various committed and uncommitted credit arrangements. At March 31, 2007, Pulte Mortgage had committed credit arrangements of \$955 million comprised of a \$405 million bank revolving credit facility and a \$550 million asset-backed commercial paper program. The credit agreements require Pulte Mortgage to maintain a consolidated tangible net worth of at least the higher of \$50 million or eighty-five percent of the average month-end tangible net worth for the last twelve months of the preceding calendar year (\$52.6 million for 2007) and restricts funded debt to 15 times tangible net worth. At March 31, 2007, Pulte Mortgage had \$286.6 million outstanding under its committed credit arrangements. Given the continued weakness in new home sales and closings, we have reduced the amount of capacity available under our asset-backed commercial paper program effective June 1, 2007 as permitted by our existing agreement as we do not anticipate needing such capacity during 2007.

Pursuant to the two \$100 million stock repurchase programs authorized by our Board of Directors in October 2002 and 2005, and the \$200 million stock repurchase authorization in February 2006 (for a total stock repurchase authorization of \$400 million), we have repurchased a total of 9,688,900 shares for a total of \$297.7 million though there were no repurchases under these programs during the three months ended March 31, 2007. We have remaining authorization to purchase common stock aggregating \$102.3 million at March 31, 2007.

Our net cash provided by operating activities for the three months ended March 31, 2007 was \$202.1 million, compared with net cash used in operating activities of \$396.5 million for the three months ended March 31, 2006. For the three months ended March 31, 2007, we focused on right-sizing our land and house inventory to better match current market conditions, which resulted in a net decrease to inventories compared with a sizable increase in the prior year period. This impact was partially offset by lower net income and a decrease in accounts payable, accrued and other liabilities. For the three months ended March 31, 2006, net income was offset primarily by significant

investments in land necessary to support the continued growth of our business.

Cash used in investing activities was \$93.7 million for the three months ended March 31, 2007, compared with \$43.3 million for the three months ended March 31, 2006. During the three months ended March 31, 2007, we made \$81.7 million of capital contributions to and received \$1.9 million in capital distributions from our unconsolidated joint ventures. We also incurred \$16.3 million in capital expenditures.

**Table of Contents****Liquidity and Capital Resources (continued)**

During the three months ended March 31, 2006, we invested approximately \$65.8 million, net of cash acquired, to purchase the remaining 50% of an entity that installs basic building components and operating systems. In addition, we received cash of \$49.2 million for the sale of our investment in Su Casita, a Mexico-based mortgage banking company. Also, we made \$13.5 million of capital contributions to and received \$1.7 million in capital distributions from our unconsolidated joint ventures for the three months ended March 31, 2006. Furthermore, we incurred approximately \$15.3 million in capital expenditures.

Net cash used in financing activities totaled \$542.7 million for the three months ended March 31, 2007, compared with \$441.3 million for the three months ended March 31, 2006. Repayments under Financial Services credit arrangements and other borrowings for the three months ended March 31, 2007 were \$528.1 million and \$5.4 million, respectively. Additionally, we expended \$4.8 million related to shares surrendered by employees for payment of minimum tax obligations upon the vesting of restricted stock and paid \$10.2 million in dividends for the three months ended March 31, 2007.

For the three months ended March 31, 2006, net repayments under Financial Services credit arrangements totaled \$446 million. Net borrowings under our revolving credit facility totaled \$24.5 million, while proceeds from other borrowings were \$36.4 million. Additionally, we expended \$49.7 million for stock repurchases and paid \$10.3 million in dividends.

**Inflation**

We, and the homebuilding industry in general, may be adversely affected during periods of high inflation because of higher land and construction costs. Inflation also increases our financing, labor and material costs. In addition, higher mortgage interest rates significantly affect the affordability of permanent mortgage financing to prospective homebuyers. We attempt to pass to our customers any increases in our costs through increased sales prices.

**Contractual Obligations and Commercial Commitments**

We are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. We are also subject to income tax in certain foreign jurisdictions related to operations previously sold or discontinued. As of January 1, 2007, we had \$86.7 million of gross unrecognized tax benefits and \$24.5 million and \$13.3 million of related accrued interest and penalties, respectively. We are currently under examination by various taxing jurisdictions and anticipate finalizing the examinations with certain jurisdictions within the next twelve months. However, the final outcome of these examinations is not yet determinable. The statute of limitations for our major tax jurisdictions remains open for examination for tax years 1998-2006.

**Off-Balance Sheet Arrangements**

At March 31, 2007 and December 31, 2006, aggregate outstanding debt of unconsolidated joint ventures was \$803.6 million and \$935.9 million, respectively. At March 31, 2007 and December 31, 2006, our proportionate share of joint venture debt was approximately \$244.3 million and \$312.8 million, respectively. We provided limited recourse guarantees for \$234.8 million and \$304.1 million of joint venture debt at March 31, 2007 and December 31, 2006, respectively. Accordingly, we may be liable, on a contingent basis, through limited guarantees with respect to a portion of the secured land acquisition and development debt. However, we would not be liable unless the joint venture was unable to perform its contractual borrowing obligations. As of March 31, 2007, we do not anticipate we will incur any significant costs under these guarantees.

If additional capital infusions are required and approved by our unconsolidated joint ventures (or required by the limited recourse financing guarantees discussed above), we would have to contribute our pro-rata portion of those capital needs in order not to dilute our ownership in the joint ventures.

**New Accounting Pronouncements**

See Note 1 to the Condensed Consolidated Financial Statements included elsewhere in this Form 10-Q.

**Critical Accounting Policies and Estimates**

There have been no significant changes to our critical accounting policies and estimates during the three months ended March 31, 2007 compared with those disclosed in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, included in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Table of Contents****Item 3. Quantitative and Qualitative Disclosures About Market Risk***Quantitative disclosure:*

We are subject to interest rate risk on our rate-sensitive financing to the extent long-term rates decline. The following table sets forth, as of March 31, 2007, our rate-sensitive financing obligations, principal cash flows by scheduled maturity, weighted-average interest rates and estimated fair market values (\$000 s omitted):

	As of March 31, 2007 for the years ended December 31,							
	2007	2008	2009	2010	2011	There- after	Total	Fair Value
<b>Rate sensitive liabilities:</b>								
<i>Fixed interest rate debt:</i>								
Senior notes	\$	\$	\$400,000	\$	\$698,563	\$2,450,000	\$3,548,563	\$3,502,541
Average interest rate			4.88%		7.95%	6.24%	6.42%	
Limited recourse collateralized financing	\$3,060	\$11,684	\$4,022	\$1,833	\$779	\$74	\$21,452	\$21,452
Average interest rate	2.26%	.95%	2.48%	8.27%	7.25%	7.25%	2.3%	

*Qualitative disclosure:*

There has been no material change to the qualitative disclosure found in Item 7A., *Quantitative and Qualitative Disclosures about Market Risk*, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

**Special Notes Concerning Forward-Looking Statements**

As a cautionary note, except for the historical information contained herein, certain matters discussed in Item 2., *Management's Discussion and Analysis of Financial Condition and Results of Operations* and Item 3., *Quantitative and Qualitative Disclosures About Market Risk*, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among other things, (1) general economic and business conditions; (2) interest rate changes and the availability of mortgage financing; (3) the relative stability of debt and equity markets; (4) competition; (5) the availability and cost of land and other raw materials used in our homebuilding operations; (6) the availability and cost of insurance covering risks associated with our business; (7) shortages and the cost of labor; (8) weather related slowdowns; (9) slow growth initiatives and/or local building moratoria; (10) governmental regulation, including the interpretation of tax, labor and environmental laws; (11) changes in consumer confidence and preferences; (12) required accounting changes; (13) terrorist acts and other acts of war; and (14) other factors over which we have little or no control. See our Annual Report on Form 10-K for the year ended December 31, 2006 and our other public filings with the Securities and Exchange Commission for a further discussion of these and other risks and uncertainties applicable to our business. We undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in our expectations.

**Item 4. Controls and Procedures**

Management, including our President & Chief Executive Officer and Executive Vice President & Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2007. Based upon, and as of the date of that evaluation, our President & Chief Executive Officer and Executive Vice President & Chief Financial Officer concluded that the disclosure controls and procedures were effective as of March 31, 2007.

There was no change in our internal control over financial reporting during the quarter ended March 31, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II. OTHER INFORMATION****Item 1A. Risk Factors**

The following is a discussion of the material changes in our risk factors as previously disclosed in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2006:

***Our income tax provision and tax reserves may be insufficient if a taxing authority is successful in asserting positions that are contrary to our interpretations and related reserves, if any.***

Significant judgment is required in determining our provision for income taxes and our reserves for federal, state, and local taxes. In the ordinary course of business, there may be matters for which the ultimate outcome is uncertain. Although we believe our approach to determining the tax treatment is appropriate, no assurance can be given that the final tax authority review will not be materially different than that which is reflected in our income tax provision and related tax reserves. Such differences could have a material adverse effect on our income tax provision in the period in which such determination is made and, consequently, on our net income for such period.

From time to time, we are audited by various federal, state and local authorities regarding tax matters. Our current audits are in various stages of completion; however, no outcome for a particular audit can be determined with certainty prior to the conclusion of the audit, appeal and, in some cases, litigation process. As each audit is concluded, adjustments, if any, are appropriately recorded in our financial statements in the period determined. To provide for potential tax exposures, we maintain tax reserves based on reasonable estimates of potential audit results. However, if the reserves are insufficient upon completion of an audit, there could be an adverse impact on our financial position and results of operations.

***Future increases in interest rates, reductions in mortgage availability or increases in the effective costs of owning a home could prevent potential customers from buying our homes and adversely affect our business or our financial results.***

Most of our customers finance their home purchases through our mortgage bank. Interest rates have been at historical lows for several years. Many homebuyers have also chosen adjustable rate, interest only or mortgages that involve initial lower monthly payments. As a result, new homes have been more affordable. Increases in interest rates or decreases in availability of mortgage financing, however, could reduce the market for new homes. Potential homebuyers may be less willing or able to pay the increased monthly costs or to obtain mortgage financing that exposes them to interest rate changes. Lenders may increase the qualifications needed for mortgages or adjust their terms to address any increased credit risk. Even if potential customers do not need financing, changes in interest rates and mortgage availability could make it harder for them to sell their current homes to potential buyers who need financing. These factors could adversely affect the sales or pricing of our homes and could also reduce the volume or margins in our financial services business. Beginning in early 2007, the availability of certain mortgage financing products has become more constrained as the mortgage industry began to more closely scrutinize sub-prime, Alt-A, and other non-conforming mortgage products. While we do not retain any material risks associated with the loans we originate, our financial services business could be impacted to the extent we are unable to match interest rates and amounts on loans we have committed to originate through the various hedging strategies we employ. Additionally, these developments have had and may continue to have a material adverse effect on the overall demand for new housing and thereby on the results of operations for our homebuilding business.

In addition, we believe that the availability of FHA and VA mortgage financing is an important factor in marketing some of our homes. We also believe that the liquidity provided by Fannie Mae and Freddie Mac to the mortgage industry is important to the housing market. However, the federal government has recently sought to reduce the size of the home-loan portfolios and operations of these two government-sponsored enterprises. Any limitations or restrictions on the availability of the financing or on the liquidity by them could adversely affect interest rates, mortgage financing and our sales of new homes and mortgage loans.

**Table of Contents****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**  
**Issuer Purchases of Equity Securities (1)**

	(a) Total Number  of shares purchased (2)	(b) Average  price paid per share (2)	(c) Total number of shares purchased as part of publicly announced plans or programs	(d) Approximate dollar value of shares  that may yet be purchased under the plans or programs  (\$000 s omitted)
January 1, 2007 through January 31, 2007				\$ 102,342(1)
February 1, 2007 through February 28, 2007	136,143	\$ 34.97		\$ 102,342(1)
March 1, 2007 through March 31, 2007				\$ 102,342(1)
Total	136,143	\$ 34.97		

(1) Pursuant to the two \$100 million stock repurchase programs authorized and announced by our Board of Directors in October 2002 and 2005 and the \$200 million stock repurchase authorized and announced in February 2006 (for a total stock repurchase

authorization of \$400 million), the Company has repurchased a total of 9,688,900 shares for a total of \$297.7 million. There are no expiration dates for the programs.

- (2) During February 2007, 136,143 shares were surrendered by employees for payment of minimum tax obligations upon the vesting of restricted stock, and were not repurchased as part of our publicly announced stock repurchase programs.

**Item 6. Exhibits**

**Exhibit Number and Description**

- 3(a) Articles of Incorporation, as amended, of Pulte Homes, Inc. (Incorporated by reference to Exhibit 3.1 of our Registration Statement on Form S-4, Registration No. 333-62518)
- 3(b) Certificate of Amendment to the Articles of Incorporation of Pulte Homes, Inc. (Dated May 16, 2005) (Incorporated by reference to Exhibit 3(a) of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2006)
- 3(c) By-laws, as amended, of Pulte Homes, Inc. (Incorporated by reference to Exhibit 3.1 of our Current Report on Form 8-K dated September 15, 2004)
- 4(a) Any instrument with respect to long-term debt, where the securities authorized thereunder do not exceed 10% of the total assets of Pulte Homes, Inc. and its subsidiaries, has not been filed; these instruments relate to (a) long-term senior and subordinated debt of the Company issued pursuant to supplements to the indenture filed as Exhibit 4(a) to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006, which supplements have also been filed with the SEC as exhibits to various Company registration statements or to reports incorporated by reference in such registration statements and (b) other long-term debt

of the Company. The Company agrees to furnish a copy of such instruments to the SEC upon request.

- 31(a) Rule 13a-14(a) Certification by Richard J. Dugas, Jr., President and Chief Executive Officer
- 31(b) Rule 13a-14(a) Certification by Roger A. Cregg, Executive Vice President and Chief Financial Officer
- 32 Certification Pursuant to 18 United States Code § 1350 and Rule 13a-14(b) under the Securities Exchange Act of 1934
