ITEM 5. OTHER EVENTS

On June 24, 2003, Apache Corporation issued a press release announcing that it will begin directly marketing its U.S. natural gas production, beginning with its July production. Apache also announced that Cinergy Marketing and Trading, LLC and Apache had terminated the marketing arrangement between the two companies and dismissed the arbitration pending between them. This news release is filed as Exhibit 99.1 to this report.

On July 3, 2003, Apache announced that it had acquired producing properties on the Outer Continental Shelf of the Gulf of Mexico from Shell Exploration and Production Company for \$200 million, subject to normal post-closing adjustments,

## Edgar Filing: APACHE CORP - Form 8-K

including adjustment for the exercise by third parties of preferential purchase rights. The properties were subject to a volumetric production payment, which was sold by Shell to Morgan Stanley Capital Group, Inc. for \$300 million. Accordingly, Apache will not report any of the volumes delivered to Morgan Stanley as reserves or production. Apache is recording a liability of approximately \$60 million, representing the estimated costs to operate and deliver the production to Morgan Stanley. Apache will book proved reserves of 124.6 billion cubic feet (Bcf) of natural gas and 6.6 million barrels of oil, (which is net of the 68.4 Bcf equivalent production payment as of the acquisition date). The news release announcing the acquisition is filed as Exhibit 99.2 to this report.

### ITEM 7. FINANCIAL STATEMENTS, PRO FORMA FINANCIAL INFORMATION AND EXHIBITS

#### (c) EXHIBITS.
