NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2001

(1) Basis of Presentation

The consolidated financial statements heretofore presented have been prepared by Star Struck, Ltd., ("the Company" or "SSL"), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's latest annual report on Form 10-KSB. The interim figures presented are unaudited and are subject to any adjustments which may result from the year-end audit of the Company's consolidated financial statements. However, in the opinion of management, the information furnished reflects all adjustments necessary to fairly state the consolidated financial statements for the interim periods presented.

Net loss per common share is computed based on the weighted average number of shares outstanding during each period. The weighted average number of shares used in the computation of earnings per share was 2,026,000 for 2001 and 2000.

The profit and loss information for the interim periods presented are not necessarily indicative of results to be expected for the year.

(2) Inventories

Inventories, with the exception of gold, are stated at the lower of cost (first-in, first-out) or market. Gold inventory (approximately \$71,000 at March 31, 2001) is valued at market. Inventories consist principally of finished goods.

(4) Borrowings Under Line of Credit

The Company has a \$3,000,000 line of credit agreement with one of its banks, as amended. Availability under this line is based on the Borrowing Base, as defined in the agreement with the bank. The amount available under the Borrowing Base was approximately \$153,000 at March 31, 2001. This agreement extends through October 2001 and bears interest at the prime rate plus three-quarters of one

Edgar Filing: STAR STRUCK LTD - Form 10QSB

percent (9.25% at March 31, 2001). The Company's accounts receivable and a portion of its inventory have been pledged as collateral for this line of credit. The agreement contains certain financial covenants, including the requirement for Star Struck, Inc. to maintain a minimum tangible net worth and debt service coverage ratio. Star Struck, Inc. did not comply with these covenants at March 31, 2001 and was in default of the line of credit agreement. The Company is currently negotiating the extension of the current agreement, as well as a new agreement. As of March 31, 2001, the Company had \$1,479,000 outstanding under this line of credit, all of which is included in current liabilities on the accompanying consolidated balance sheet.

(5) Related Party Notes Payable

In August 2000, the Company entered into promissory notes, (the "Notes") with three of the Company's shareholders, two of which are members of the Company's management, for an aggregate of \$1,000,000. Each note bears interest at 10%, due quarterly, and the principal amount matures in August 2003. In connection with these loans, the Company issued warrants for the purchase of 500,000 shares of the Company's common stock at an exercise price of \$2.00 per share. The fair value of these warrants of \$240,000 has been recorded as original issue discount, resulting in a reduction in the carrying value of this debt. The original issue discount will be amortized into interest expense over the period of the debt. These loans are subordinate to the Company's borrowings under the line of credit. Interest expense for notes payable to shareholders totaled \$45,000 for the three months ended March 31, 2001. Included in this amount is \$20,000 of amortized debt discount.

The note payable to an officer of the Company is a non-interest bearing note payable on demand related to working capital advances.

(6) Recent Accounting Pronouncements

In June 2000, the Financial Accounting Standards Board issued SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities," which amends the accounting and reporting standards of SFAS No. 133. SFAS No. 133 was previously amended by SFAS No. 137, which deferred the effective date of SFAS No. 133 to fiscal years commencing after June 15, 2000. The statement establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability and be measured at its fair value. Additionally, any changes in the derivative's fair value are to be recognized currently in earnings, unless specific hedge accounting criteria are met. The Company does not believe that adoption of this statement will have a material impact on its consolidated financial statements.
