**Halifax Corporation**  
**Notes to Condensed Consolidated Financial Statements**  
**(Unaudited)**

**Note 1 Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with the accounting principles generally accepted in the United States of America for interim financial information. Certain information and footnote disclosure normally included in the annual financial statements have been omitted pursuant to those rules and regulations.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all necessary adjustments and reclassifications (all of which are of a normal, recurring nature) that are necessary for fair presentation for the period presented. The results of the three and nine months are not necessarily indicative of the results to be expected for the full fiscal year. It is suggested that these unaudited condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Halifax Corporation's (the Company) latest annual report to the Securities and Exchange Commission on Form 10-K for the year ended March 31, 2002. Certain reclassifications have been made to the prior period financial statements to conform to the current presentation.

Goodwill and Intangible Assets

In June 2001, Financial Accounting Standards Board ( FASB ) issued Statements of Financial Accounting Standards No. 141 Business Combination ( SFAS No. 141 ) and SFAS No. 142 Goodwill and Other Intangible Assets ( SFAS No. 142 ). SFAS No. 141 eliminates the pooling method of accounting for all business combinations initiated after June 30, 2001. SFAS No. 142 requires that goodwill no longer be amortized against earnings, but instead be reviewed periodically for impairment, with any identified impairment (as of the transition date) treated as a cumulative effect of a change in accounting principle. An independent benchmark assessment was performed as of April 1, 2002 and no goodwill impairment was identified.

Edgar Filing: HALIFAX CORP - Form 10-Q

The Company elected to adopt SFAS No. 142, effective April 1, 2002. As a result, amortization of goodwill was discontinued. The following is a proforma presentation of reported net income and earnings per share, adjusted for the exclusion of goodwill amortization net of related income tax effect:

<i>(Amounts in thousands except share data)</i>	<b>Proforma Results</b>			
	<b>The three months ended December 31,</b>		<b>The nine months ended December 31,</b>	
	<b>2002</b>	<b>2001</b>	<b>2002</b>	<b>2001</b>
Reported net income	\$ 151	\$ 109	\$ 484	\$ 187
Goodwill amortization (net of tax)	—	53	—	158
Adjusted net income	\$ 151	\$ 162	\$ 484	\$ 345
Basic earnings per share:				
Reported earnings per share basic	\$ .07	\$ .05	\$ .22	\$ .09
Goodwill amortization (net of tax)	—	.03	—	.08
Adjusted basic earnings per share	\$ .07	\$ .08	\$ .22	\$ .17
Diluted earnings per share:				
Reported earnings per share diluted	\$ .07	\$ .05	\$ .22	\$ .09
Goodwill amortization (net of tax)	—	.03	—	.08
Adjusted diluted earnings per share	\$ .07	\$ .08	\$ .22	\$ .17

Intangible assets as of December 31, 2002 and March 31, 2002 were as follows:

<i>(amounts in thousands):</i>	<b>Gross Assets</b>	<b>Accumulated Amortization</b>	<b>Net Assets</b>
Contracts rights December 31, 2002	\$ 149	\$(141)	\$ 8
March 31, 2002	\$ 149	\$(130)	\$ 19

The net amount of goodwill at December 31, 2002 and March 31, 2002 respectively was approximately \$3 million. There were no intangible assets reclassified to goodwill upon the adoption of SFAS 142.

Amortization expense for intangible assets was \$4 thousand and \$11 thousand for the three and nine month periods ended December 31, 2002 and 2001, respectively. Estimated aggregate future amortization expense for intangible assets remaining as of December 31, 2002 are \$4 thousand for fiscal year 2003 and \$4 thousand for fiscal year 2004.

## Edgar Filing: HALIFAX CORP - Form 10-Q

There was no amortization of goodwill for the three and nine months ended December 31, 2002 compared to \$53 thousand and \$158 thousand for the three and nine months ended December 31, 2001.

### Legal Proceedings

There are no material pending legal proceedings to which Halifax is a party. We are engaged in ordinary routine litigation incidental to our business. While we cannot predict the ultimate outcome of these various legal proceedings, it is management's opinion that the resolution of these matters should not have a material adverse effect on our financial position or results of operations.

### Recent Accounting Pronouncements:

In June 2001 the FASB issued SFAS No. 143 Accounting for Asset Retirement Obligations. SFAS 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS 143 is effective for fiscal years beginning after June 15, 2002. The Company does not believe the adoption of SFAS 143 will have any material impact upon the Company's financial statements.

In August 2001, the FASB issued Statement of Financial Accounting Standards No. 144 ( SFAS 144 ), Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS 144 addresses the financial accounting and reporting for the impairment or disposal of long-lived assets. SFAS 144 supersedes SFAS 121 but retains the fundamental provisions of SFAS 121 for (i) recognition/measurement of impairment of long-lived assets to be held and used, and (ii) measurement of long-lived assets to be disposed of by sale. SFAS 144 also supersedes the accounting and reporting provisions of Accounting Principles Board's No. 30 ( APB 30 ), Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, for segments of a business to be disposed of, but retains APB 30's requirement to report discontinued operations separately from continuing operations and extends that reporting to a component of an entity that either has been disposed of or is classified as held for sale. SFAS 144 is effective for fiscal years beginning after December 15, 2001. The Company adopted the provisions of SFAS 144 effective April 1, 2002. The adoption of this standard did not have any impact on the Company's financial statements.

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statement No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections. This Statement rescinds FASB Statement No. 4, Reporting Gains and Losses from Extinguishment of Debt, and amends FASB Statement No. 64, Extinguishments of Debt Made to Satisfy Sinking-Fund Requirement. This Statement also rescinds FASB Statement No. 44 Accounting for Intangible Assets for Motor Carriers. This Statement amends FASB Statement No. 13, Accounting for Leases, to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions; and amends other existing authoritative pronouncements to make various technical corrections, clarify meanings or describe their applicability under changed conditions. SFAS No. 145 is effective for fiscal years beginning after May 15, 2002. The adoption of this Statement is not expected to have a material impact on the Company's financial position or results of operations.

In June 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities included in restructurings. This Statement eliminates the definition and requirement for recognition of exit costs as defined in EITF Issue 94-3, and requires that liabilities for exit activities be recognized when incurred instead of at the exit activity commitment date. This Statement is effective for exit or disposal activities initiated after December 31, 2002. The adoption of this Statement is not expected to have a material impact on the Company's financial position or results of operations.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock Based Compensation Transition and Disclosure an amendment of FASB Statement No. 123. SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of Statement 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The adoption of this standard will not have a material impact on our financial statements.

**Note 2 Trade Accounts Receivable consists of the following:**

<i>(Amounts in thousands)</i>	<b>December 31, 2002</b>	<b>March 31, 2002</b>
	<u>          </u>	<u>          </u>
Amounts billed	\$ 7,758	\$ 9,738
Amounts unbilled	482	285
	<u>          </u>	<u>          </u>
	8,240	10,023
Allowance for doubtful accounts	(322)	(290)
	<u>          </u>	<u>          </u>
Accounts receivable, net	\$ 7,918	\$ 9,733
	<u>          </u>	<u>          </u>

**Note 3 Inventory**

Inventory consists principally of spare parts, computers and computer peripherals, hardware and software. Inventory is recorded on the balance sheet net of allowances for inventory valuation of \$785 thousand and \$600 thousand at December 31, 2002 and March 31, 2002, respectively.

**Note 4 Tax Matters**

At March 31, 2002, the Company had a net operating loss carryforward of approximately \$10 million, virtually all of which expires in fiscal 2019. Income tax expense (primarily state taxes), for the three and nine months ended December 31, 2002 and 2001 was \$15 thousand and \$45 thousand. Due to the uncertainty of future realization, the Company has not recorded a net benefit for the operating loss carryforward in the financial statements for the quarter ended December 31, 2002.

**Note 5 Debt**

On March 6, 2002, the Company entered into a new revolving credit facility which refinanced its existing line of credit, with a maximum credit line of \$8.0 million. Amounts available under this facility are determined by applying stated percentages to the Company's eligible accounts receivable and inventory. As of December 31, 2002, the Company has \$2.0 million of availability on its credit facility. The agreement has a financial covenant that requires the stockholders' deficit not to increase above \$1.4 million. As of December 31, 2002, the deficit in stockholders equity was \$795 thousand. The revolving credit facility expires on April 6, 2004 and bears interest at the prime rate plus 3/4%. The facility contains an acceleration provision whereby the lender may demand repayment of the loan under certain circumstances, such as failure to make any payment when due, making false statements, or failure to comply with or perform under certain provisions as defined in the agreement.

The revolving credit agreement requires bank approval for the payment of dividends or distributions as well as the payment of principal or interest on the Company's outstanding subordinated debt, which is owned by an affiliate. Interest expense on subordinated debt is accrued on a current basis.

During the quarter ended December 31, 2002 the Company financed the purchase of one vehicle. The note was for \$16 thousand with a term of 24 months, bearing interest at the rate of 0.0%. The monthly payment on the note is \$660.

**Note 6 Transactions with Related Party**

The subordinated debt agreements with an affiliate totaled \$4 million at December 31, 2002. The credit facility agreement dated March 6, 2002 requires bank approval for the payments of principal or interest on the subordinated debt. During the quarter ended December 31, 2002, the Company requested and the bank approved a payment of \$75 thousand for accrued interest on the subordinated debt. (See Note 5 to the consolidated financial statements.)

**Note 7 Concentration of Risk**

The Company has a number of major customers. The Company's largest customer accounted for 17% and 19% of the Company's revenues for the three months ended December 31, 2002 and 2001, respectively and 14% and 19% of the Company's revenue for the nine months ended December 31, 2002 and December 31, 2001, respectively. The Company's five largest customers collectively accounted for 50% and 44% of revenues for the three months ended December 31, 2002 and 2001, respectively and 55% and 42% for the nine months ended December 31, 2002 and 2001, respectively. The Company anticipates that significant customer concentration will continue for the foreseeable future, although the composition of such has changed from reporting period to period. The loss of any one or more of these customers may cause the results of operations to vary materially from those anticipated.

**Note 8 Earnings per Share**

The following table sets forth the computation of basic and diluted earnings per share.

(Amounts in thousands except share data.)

	Three Months Ended December 31,		Nine Months Ended December 31,	
	2002	2001	2002	2001
Numerator for earning per share:				
Net income	\$ 151	\$ 109	\$ 484	\$ 187

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following: general economic and business conditions in the Company's market area, possible disruption in commercial activities related to terrorist activities, inflation, continuation of favorable banking arrangements, the availability of capital to finance planned growth, changes in government regulations, availability of skilled personnel and competition, which may, among other things, impact on the ability of the Company to implement its business strategy.

Forward-looking statements are intended to apply only at the time they are made. Moreover, whether or not stated in connection with a forward-looking statement, the Company undertakes no obligation to correct or update a forward-looking statement should the Company later become aware that it is not likely to be achieved. If the Company were to update or correct a forward-looking statement, investors and others should not conclude that the Company will make additional updates or corrections thereafter.

Application of Critical Accounting Policies

The methods, estimates and judgments we use in applying our most critical accounting policies have a significant impact on the results we report in our financial statements. The Securities and Exchange Commission has defined critical accounting policies as policies that involve critical accounting estimates that require (i) management to make assumptions that are highly uncertain at the time the estimate is made, and (ii) different estimates that could have been reasonably used for the current period, or changes in the estimates that are reasonably likely to occur from period to period, which would have a material impact on the presentation of our financial condition, changes in financial condition or in results of operations. Based on this definition, our most critical policies include: provision for loss contracts, inventory valuation reserve and allowances for doubtful accounts, which impact cost of sales and gross margin; and the assessment of recoverability of goodwill and other intangible assets, which impacts write-offs of goodwill and intangibles. We discuss these policies further below, as well as the estimates and management's judgments involved. We also have other key accounting policies, such as policies for revenue recognition, including unbilled accounts receivable and deferred revenue, as well as policies governing the estimate of the useful life of our property and equipment. We believe these other key policies either do not generally require us to make estimates and judgments that are as difficult or subjective, or it is less likely that they would have a material impact on our reported results of operation for a given period.

We recognize service revenue based on contracted fees earned, net of credits and adjustments as the service is performed. Revenue from long-term fixed unit price contracts is recognized monthly as service is performed based upon the number of units covered and the level of service requested. The pricing in these contracts is fixed as to the unit price but varies based upon the number of units covered and service level requested. Revenue from time-and-material professional service contracts is recognized upon the completion of the service. Certain seat-management contracts include the delivery and installation of new equipment combined with multi-year service agreements. Revenue related to the delivery and installation of equipment under these and certain other contracts is recognized upon the completion of both the delivery and installation. Revenue related to the fixed-price service agreements is recognized ratably over the life of the agreement. Invoices billed in advance are recognized as revenue in the month that services are rendered. Revenues are a function of the mix of long-term services contracts, time-and-material professional services and product sales consisting of computer and communications hardware and software. Revenues from time-and-material professional services and product sales are difficult to forecast because of wide fluctuations in demand. The long-term contracts are more predictable and, as a result, the revenue stream is less difficult to forecast. The gross margins on long-term fixed-price contracts vary inversely with the call volume received from customers in any one reporting period. Our expectation is that we will see continued growth in long-term contracts, which historically have had higher gross margins. We also expect a continued downward trend on hardware and software prices and margins. Provision for loss contracts, if any, are recognized in the period in which they become determinable. Historically, we have had few loss contracts.

The gross margin should benefit from revenue growth and continued cost containment strategies implemented. Our gross margin varies based upon the level of long-term professional services compared to product volume, including the mix of types of products being sold.

Our policy for valuation of inventory, including the determination of obsolete or excess inventory requires us to estimate the future demand based on prior usage to support our contracts and anticipated future demand. If the demand is less than anticipated, we would be required to record additional inventory reserves, which would have a negative impact on our gross margins. The current annual change for inventory obsolescence is approximately \$250 thousand or approximately 5.5% to 6.5% of inventory. A 1% change in the estimate would impact earnings by approximately \$30 thousand. For the last three years, our inventory reserve has ranged from 12% to 19% of inventory.

We maintain allowances for doubtful accounts for estimated losses resulting from the failure of our customers to make required payments. We base our estimates on the aging of our accounts receivable balances and our historical write-off experience, net of recoveries. If the financial condition of our customers were to deteriorate, additional allowances may be required. We believe the accounting estimate related to the allowance for doubtful accounts is a critical accounting estimate because changes in it can significantly affect net income and treatment of the allowance requires us to anticipate the economic viability of our customers and requires a degree of judgment. Our estimate for expense for bad debts is approximately .4% of revenue. A change in the estimate by .1% would have an impact on earnings of approximately \$39 thousand. Over the past three years bad debts expense represented approximately .3% to 1.4% of revenues.

We routinely transfer receivables to a third party in connection with equipment leased to end users. The credit risk passes to the third party at the point of sale of the receivables. Under the provisions of Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, transfers are accounted for as sales and as a result, the related receivables have been excluded from the accompanying Consolidated Balance Sheets. The amount paid to us for the receivables by the transferee is approximately equal to our carrying value and therefore the gain recognized is not material. The end user remits its monthly payments directly to an escrow account held by a third party from which payments are made to the transferee and us, for various services provided to the end users. We provide limited monthly servicing whereby the Company invoices the end user on behalf of the transferee.

We have adopted Financial Accounting Standards No. 141 Business Combinations ( SFAS No 141 ) and No 142 Goodwill and other Intangible Assets ( SFAS No. 142 ) on accounting for business combinations and goodwill effective April 1, 2002, with the exception of the immediate requirement to use the purchase method of accounting for all business combinations initiated after June 30, 2001. Accordingly we no longer amortize goodwill, but continue to amortize other acquisition related costs. Amortization of acquisition related intangibles will be approximately \$15 thousand in fiscal year 2003, down from \$213 thousand of amortized goodwill and acquisition related intangibles and costs in fiscal year 2002. We assign useful lives for long-lived assets based on periodic studies of actual assets lives and our intended use for those assets. We assess the impairment of long-lived assets whenever events or changes in circumstances indicate these carrying values may not be recoverable.

In conjunction with the implementation of the new accounting rules for goodwill, we have completed the initial goodwill impairment test required by SFAS 142. To accomplish this, we identified our reporting units and determined the carrying value of each reporting unit by assigning the assets and liabilities, including existing goodwill and intangible assets, to those reporting units as of the date of adoption and determined the fair value of each reporting unit and compared it to the reporting unit's carrying amount. As discussed below, we consider ourselves to have a single reporting unit. To the extent the reporting unit's carrying amount exceeds its fair value, an indication exists that the reporting unit's goodwill may be impaired and we must perform the second step of the impairment test. In the second step, we must compare the implied fair value of the reporting units goodwill, determined by allocating the reporting unit's fair value to all of its assets and liabilities in a manner similar to a purchase price allocation in accordance with SFAS 141, to its carrying amount, both of which would be measured as of the date of adoption.

We performed the initial goodwill impairment test required by SFAS 142 during the first quarter of fiscal 2003. We consider ourselves to have a single reporting unit. Accordingly, all of our goodwill is associated with our entire Company. Our impairment review is based on a market approach that uses valuation ratios for publicly traded companies based on the ratio of market price of their stock and/or invested capital to various financial parameters. As of April 1, 2002, based on our comparison of the fair value of the reporting unit to its carrying value inclusive of goodwill, there was no impairment of goodwill recorded upon implementation of SFAS 142. We

will continue to test for impairment on an annual basis, prior to our fiscal year end, or on an interim basis if circumstances change that would more likely than not reduce the fair value of our Company's reporting unit below its carrying amount.

We adopted Statements of Financial Accounting Standards No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets ( SFAS No. 144 ) on accounting for the impairment or disposal of long-lived assets effective April 1, 2002. The adoption of this standard did not have a material impact on our financial statements.

In December 2002, the Financial Accounting Standards Board issued Statement of Accounting Financial Standards No. 148, Accounting for Stock Based Compensation Transition and Disclosure an amendment of FASB Statement No. 123 ( SFAS No. 148 ). SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of Statement No.123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The adoption of this standard will not have a material impact on our financial statements.

We currently expect our effective tax rate to be approximately 7% for fiscal year 2003. This estimate is based upon current tax laws, the current estimate of earnings, and the utilization of our net operating loss carry-forward.

We believe that we have the enterprise maintenance solutions offerings, facilities, personnel and competitive resources for continued business success, however, future revenues, costs, margins and profits are influenced by a number of factors, including those discussed above, all of which are difficult to forecast.

Edgar Filing: HALIFAX CORP - Form 10-Q

The following table sets forth the relative percentages that certain items of expense and earnings to revenue for the three and nine month periods ended December 31, 2002 and 2001, respectively and should be read in conjunction with the consolidated financial statements and notes thereto.

(Amounts in thousands, except share data).

Results of Operations	Three Months Ended December 31,				Nine Months Ended December 31,			
	2002	2001	Change	%	2002	2001	Change	%
Revenues	\$ 11,348	\$ 13,249	(1,901)	14%	\$ 39,418	\$ 35,738	3,680	10%
Cost of services	10,070	12,088	(2,018)	17%	35,506	32,190	3,316	11%

## Revenues

The composition of revenue for the three and nine month periods were:

<i>(Amounts in thousands)</i>	Three Months Ended December 31,				Nine Months Ended December 31,			
	2002	2001	Change	%	2002	2001	Change	%
Services	\$ 10,209	\$ 9,926	283	3%	\$ 35,328	\$ 28,572	6,756	24%
Product	1,139	3,323	(2,184)	66%	4,090	7,166	(3,076)	43%
<b>Total Revenue</b>	<b>\$ 11,348</b>	<b>\$ 13,249</b>	<b>(1,901)</b>	<b>14%</b>	<b>\$ 39,418</b>	<b>\$ 35,738</b>	<b>3,680</b>	<b>10%</b>

Revenues for the three months ended December 31, 2002 decreased 14%, or \$1.9 million, to \$11.3 million from \$13.2 million in December 31, 2001. For the nine months ended December 31, 2002, revenues increased from \$35.7 million in 2001 to \$39.4 million, an increase of \$3.7 million, or 10%.

Revenue from services for the three months ended December 31, 2002, increased 3% or \$283 thousand from \$9.9 million at December 31, 2001 to \$10.2 million at December 31, 2002. The increase in revenue is attributable to increased growth in existing services offerings.

For the three months ended December 31, 2002, product sales decreased from \$3.3 million for December 31, 2001 compared to \$1.1 million at December 31, 2002, a decrease of \$2.2 million or 66%. The product market place has been characterized by intense competition, a declining rate of orders and lower margins. We have de-emphasized product sales and will focus primarily on our recurring revenue model for enterprise maintenance solutions. As a result, we expect to see a continued decrease in product sales in future periods.

For the nine months ended December 31, 2002, services revenue increased \$6.8 million from \$28.5 million in 2001 to \$35.3 million, an increase of 24% while product revenue was \$4.0 million at December 31, 2002 compared to \$7.2 million at December 31, 2001 a decrease of 43%.

## Cost of Services

Cost of services is comprised of the following components:

<i>(Amounts in thousands)</i>	Three Months Ended December 31,				Nine Months Ended December 31,			
	2002	2001	Change	%	2002	2001	Change	%
Services	7,134	7,411	(277)	4%	26,632	20,508	6,124	30%
Product	1,004	2,917	(1,913)	66%	3,659	6,291	(2,632)	42%
<b>Total direct costs</b>	<b>8,138</b>	<b>10,328</b>	<b>(2,190)</b>	<b>21%</b>	<b>29,291</b>	<b>26,799</b>	<b>2,492</b>	<b>9%</b>
Indirect costs	1,641	1,505	136	9%	5,410	4,635	775	17%
Selling expense	291	255	36	14%	805	756	49	7%
<b>Cost of Services</b>	<b>10,070</b>	<b>12,088</b>	<b>(2,018)</b>	<b>17%</b>	<b>35,506</b>	<b>32,190</b>	<b>3,316</b>	<b>10%</b>

Direct costs include the direct labor for engineering and technical services, parts and products, and other associated costs in providing our service offerings to our customers. For the three months ended December 31, 2002, direct costs decreased \$2.2 million, or 22%, to \$8.1 million from \$10.3 million in 2001. The decrease in direct costs is associated with a 66% decrease in product sales. In addition, there was an expected decrease in seat management services based upon historical trends, which resulted in a decrease in services costs. For the nine months ended December 31, 2002 direct costs increased to \$29.3 million from \$26.8 million, an increase of \$2.5 million, or 10%. The increase was the result of higher costs to support the increase in services revenues, and additional costs incurred in expanding our service delivery capabilities to 7 days a week 24 hours a day on a nationwide basis.

Indirect costs include costs related to operating our call center, logistics dispatch operations, facility costs and other costs incurred to support the field service technicians and engineers. Indirect costs increased \$136 thousand from \$1.5 million to \$1.6 million for the three months ended December 31, 2002 compared to 2001. For the nine months ended December 31, 2002 indirect costs were \$5.4 compared to \$4.6 million in 2001, a \$775 thousand increase. The increase in indirect costs was attributable to personnel increases required to support the increase in service revenue, the expanded hours of operation, and our growing customer base.

Selling expense was \$291 thousand compared to \$255 thousand for three months ended December 31, 2002 and 2001, respectively. For the nine months ended December 31, 2002 compared to December 31, 2001 selling expense was \$805 thousand and \$756 thousand, respectively.

Total cost of services for the three months ended December 31, 2002 decreased to \$10.0 million from \$12.0 million for the same period in 2001, a decrease of 17%. For the nine months ended December 31, 2002, total cost of services were \$35.5 million compared to \$32.2 million in 2001, an increase of \$3.3 million or 11%. The principal reason for the reduction in cost of services was the decrease in product sales, which have lower margins than our services.

As a percent of revenues, gross margin for each three month period ended December 31, 2002 and 2001 was 11%, or \$1.3 million for December 31, 2002 and 9% or \$1.1 million for December 31, 2001. For the nine months ended December 31, 2002, gross margin was \$3.9 million versus \$3.5 million for the nine months ended December 31, 2001, an increase of 10%, or \$364 thousand. The increase in gross margin dollars was primarily due to revenue from higher margin on revenue from long-term fixed price contracts, offset by reductions in product sales and to lower margin on these sales brought about by intense price competition discussed above.

The shift away from product sales has had a positive effect on our gross margins. Our margins should continue to improve as we continue to increase our enterprise maintenance solutions service base.

#### **Marketing Expense**

Marketing expense for the three and nine months ended December 31, 2002 versus December 31, 2001 was \$190 thousand compared to \$155 thousand and \$464 thousand compared to \$454 thousand, respectively. The increase in marketing expense is due to increases in personnel costs.

**General and Administrative**

The general and administrative expenses of the Company consist primarily of non-allocated overhead costs. These costs include executive salaries, accounting, contract administration, professional services such as legal and audit, business insurance, occupancy and public company costs.

For the three months ended December 31, 2002 general and administrative expense increased from \$742 thousand to \$770 thousand, an increase of \$28 thousand or 4%. For the nine months ended December 31, 2002 and 2001 general and administrative expenses were \$2.4 million, which represented no increase from period to period. However, various factors such as changes in the insurance markets and related costs associated with complying with new Securities and Exchange Commission regulations may increase general and administrative expenses and have a negative impact on earnings in future periods.

**Operating Income**

For the three months ended December 31, 2002 the Company had operating income of \$318 thousand compared to \$264 thousand at December 31, 2001 an increase of 20% as compared to the same period last year. Operating income for the nine months ended December 31, 2002 was \$1.0 million as compared to \$706 thousand, an increase of \$322 thousand or 46% over the comparable period in 2001. The improvement was attributable to the quality of the new revenue and gains realized from ongoing cost containment efforts.

**Interest Expense**

Interest expense for the three months ended December 31, 2002 was \$152 thousand, representing a 9% increase compared to \$140 thousand for the three month period ended December 31, 2001. For the nine months ended December 31, 2002, interest expense increased by 5% to \$499 thousand from \$474 thousand in the comparable period in 2001, principally as a result of increased borrowing activities.

**Income Taxes**

Income taxes for the three and nine months ended December 31, 2002 and 2001 related primarily to state obligations, were \$15 thousand and \$45 thousand, respectively.

The approximate net operating loss carryforward used to reduce current income tax expense was:

*(Amounts in thousands.)*

Three Months Ended December 31,		Nine Months Ended December 31,	
2002	2001	2002	2001
\$550	\$134	\$1,184	\$262

As discussed in Note 4 of the notes to the consolidated financial statements, we have a net operating loss carryforward of approximately \$10.0 million at March 31, 2002.

## Net Income

For the three months ended December 31, 2002, net income was \$151 thousand compared to \$109 thousand for the comparable period in 2001, an increase of 39%. For the nine months ended December 31, 2002 net income was \$484 thousand compared to \$187 thousand for December 31, 2001, representing an increase over the same period last year of \$297 thousand or 159%.

The improvement in net income was the result of several factors. Gross margins increased due to the changes in mix to higher margin services and lower volume of product sales. In addition, marketing and general and administration expenses have increased modestly over the same reporting periods last year.

## Factors That May Affect Future Results

Our future operating results may be affected by a number of factors including uncertainties relative to national economic conditions, especially as they affect interest rates, business insurance industry factors, our ability to successfully increase business, and effectively manage expense margins.

We must continue to effectively manage expenses in relation to revenues by directing new business development towards markets that complement or improve our existing service lines. Management must also continue to emphasize operating efficiencies through cost containment strategies, reengineering efforts and improved service delivery techniques.

We serve our customer base by providing a broad base of enterprise maintenance solutions. This industry has been characterized by rapid technological advances that have resulted in frequent introductions of new products, product enhancements and aggressive pricing practices, which also impacts pricing of service activities. Our operating results could be adversely affected by industry-wide pricing pressures, the ability to recruit, train and retain personnel integral to our operations and the presence of competitors with greater financial and other resources. Also, our operating results could be adversely impacted should our Company be unable to effectively achieve the revenue growth necessary to provide profitable operating margins in various operations. Our plan for growth includes intensified marketing efforts, an expanded national sales program, forging strategic alliances and, where appropriate, acquisitions that expand market share. There can be no assurances these efforts will be successful, or if successful the timing thereof.

## Liquidity and Capital Resources

Historically the Company's primary sources of funding have been cash flows from operations, subordinated notes and borrowing under our credit facilities. In prior years, through a series of private placements, the Company has issued \$4.0 million of subordinated notes due April 6, 2004 to Research Industries Incorporated, a private investment company and an affiliate of the Company. At December 31, 2002, the Company's working capital was \$5.1 million and its current ratio was 1.69. Management believes the improvement in the Company's condition was attributable to more stringent cash management, accelerated collection activities and improved inventory and expense management.

On March 6, 2002, we entered into a new revolving credit facility with a maximum credit line of \$8.0 million. This facility has a term of 25 months, maturing on April 6, 2004 and bears interest at the bank's prime rate plus 3/4%. Advances under the revolving agreement are collateralized by a

first priority security interest in all of our assets as defined in the agreement. Amounts available under this facility are determined by applying stated percentages to the eligible receivables. The agreement has a financial covenant that requires that stockholders' deficit not increase above \$1.4 million. At December 31, 2002, our stockholders' deficit was \$795 thousand. The facility contains an acceleration clause whereby the lender may demand payment on the loan under certain circumstances such as failure to make any payment when due, making false statements, or failure to comply with or perform under certain provisions as defined in the agreement. Our recent results have shown increased profitability on contracts due to a combination of efficiencies gained in the change of mix in our business to more services as well as reduced cost achieved through containment measures, including reduced occupancy cost, consolidation of administrative functions, and higher utilization of our workforce. Our Company believes that these recent profitable trends will continue, thereby allowing us to meet the financial covenant. However, there can be no assurance we will continue to meet this covenant. Should stockholders' deficit rise above \$1.4 million, we would work with the bank to obtain a waiver or to arrive at a temporary equitable solution.

Capital expenditures for the three months ended December 31, 2002 were approximately \$85 thousand and \$279 thousand for the nine months then ended. The Company expects capital expenditures to remain at this level for the next two quarters.

The subordinated debt agreements with an affiliate totaled \$4 million at December 31, 2002. The credit facility agreement dated March 6, 2002 requires bank approval for payments of principal or interest on the subordinated debt. During the quarter ended December 31, 2002, the Company requested and the bank approved a payment of \$75 thousand for accrued interest on the subordinated debt. (See Notes 5 and 6 to the consolidated financial statements.)

During the quarter ended December 31, 2002 the Company financed the purchase of one vehicle. The note was for \$16 thousand with a term of 24 months, bearing interest at the rate of 0.0%. The monthly payment on the note is \$660.

The Company believes that funds generated from operations, bank borrowings, and investing activities should be sufficient to meet its current operating cash requirements through March 31, 2004, although there can be no assurances that all the aforementioned sources of cash can be realized.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to changes in interest rates, primarily as a result of bank debt to finance its business. The floating interest debt exposes us to interest rate risk, with the primary interest rate exposure resulting from changes in the prime rate. It is assumed in the table below that the prime rate will remain constant in the future. Adverse changes in the interest rates or our inability to refinance our long-term obligations may have a material negative impact on our results of operations and financial condition.

Edgar Filing: HALIFAX CORP - Form 10-Q

The definitive extent of the interest rate risk is not quantifiable or predictable because of the variability of future interest rates and business financing requirements. We do not believe such risk is material. We do not customarily use derivative instruments to adjust our interest rate risk profile.

The information below summarizes our sensitivity to market risks as of December 31, 2002. The table presents principal cash flows and related interest rates by year of maturity of our funded debt. Note 6 to the consolidated financial statements in the annual report on Form 10-K for the year ended March 31, 2002 contains descriptions of funded debt and should be read in conjunction with the table below.

<i>(Amounts in thousands)</i>	Period Ending December 31,		Total Debt	Fair Value
	2002	2003		
<b>Long-term debt (including current maturities)</b>				
Revolving credit facility at the prime rate plus 3/4%. Due April 6, 2004. Average interest rate of 5.5%	\$ 5,989	\$ 5,989	\$ 5,989	\$ 5,989
7% subordinated note from affiliate due April 6, 2004	2,000	2,000	2,000	2,042
8% subordinated notes from affiliate due April 6, 2004	2,000	2,000	2,000	2,070
Other long-term debt interest 0.0% to 1.9% due in 48 and 36 months	29	36	80	74
<b>Total fixed rate debt</b>	<b>\$ 4,029</b>	<b>\$ 4,036</b>	<b>\$ 4,080</b>	<b>\$ 4,186</b>
<b>Total debt</b>	<b>\$10,018</b>	<b>\$10,025</b>	<b>\$10,069</b>	<b>\$10,175</b>

At present, all transactions are billed and denominated in U.S. dollars and consequently, our Company does not currently have any material exposure to foreign exchange rate fluctuation risk.

The following table is the amounts of contractual obligations, aggregated by type of contractual obligation *(Amounts in thousands)*

Contractual Obligations	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt	\$ 9,989	\$	\$ 9,989	\$	\$
Capital lease obligations					
Operating leases	3,362	636	1,574	830	322
Unconditional purchase obligations					
Other long-term obligation	80	29	51		
<b>Total contractual obligations</b>	<b>\$13,432</b>	<b>\$665</b>	<b>\$11,615</b>	<b>\$830</b>	<b>\$322</b>

Long-term debt of \$9.9 million represents a revolving credit facility of \$5.9 million and subordinated notes from affiliate of \$4.0 million. Operating leases of \$3.4 million are the future minimum lease payments for office space and certain equipment. Other long-term obligations for \$80 thousand are three installment agreements for vehicles.

**Contingencies**

As a requirement under certain contracts we are required to post performance bonds. In order to secure the bonds aggregating \$794 thousand, we have issued letters of credit to the insurance carrier as collateral for these bonds. The letters of credit expire on June 30, 2003 and will be extended for additional periods of one year at the discretion of the insurance carrier. The following table indicates the amount of the obligations and current maturity.

*(Amounts in thousands)*

Contingent Liabilities and Commitments	Expiration by period	
	Total	Less than 1 year
Standby letters of credit	\$ 794	\$ 794

We are exposed to market risk from changes in interest rates. We do not believe such risk is material.

At December 31, 2002, the Company had \$10.0 million of debt outstanding of which \$4.1 million bears fixed interest rates. If the interest rates charged to the Company on its variable rate debt were to increase significantly, the effect could be materially adverse to future operations.

The Company conducts a limited amount of business overseas, principally in Western Europe. At present all transactions are billed and denominated in U.S. dollars and consequently, the Company does not currently have any material exposure to foreign exchange rate fluctuation risk.

**Item 4. Controls and Procedures**

Quarterly evaluation of the Company's Disclosure Controls and Internal Controls. Within the 90 days prior to the date of this Quarterly Report on Form 10-Q, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures ( Disclosure Controls ). This evaluation ( Controls Evaluation ) was done under the supervision and with the participation of management, including the Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ).

*Limitations on the Effectiveness of Controls.* The Company's management, including the CEO and CFO, does not expect that its Disclosure Controls and its internal controls and procedures for financial reporting ( Internal Controls ) will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

*Conclusions.* Based upon the Controls Evaluation, the CEO and CFO have concluded that, subject to the limitations noted above, the Disclosure Controls are effective to timely alert management to material information relating to the Company during the period when its periodic reports are being prepared.

In accord with SEC requirements, the CEO and CFO note that, since the date of the Controls Evaluation to the date of this Quarterly Report, there have been no significant changes in Internal Controls or in other factors that could significantly affect Internal Controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

*Other.* The audit committee has approved professional services in connection with the review of our corporate tax filings for the tax year ending March 31, 2002. In approving this service, the audit committee has considered whether the provision of this service is compatible with maintaining Deloitte & Touche LLP's independence.

**CERTIFICATION**

I, Charles L. McNew, Chief Executive Officer of Halifax Corporation, certify that:

1. I have reviewed the quarterly report on Form 10-Q of Halifax Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
  - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
  - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
  - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

**CERTIFICATION**

I, Joseph Sciacca, Chief Financial Officer of Halifax Corporation, certify that:

1. I have reviewed the quarterly report on Form 10-Q of Halifax Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
  - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
  - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
  - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
