On November 21, 2002, Xcel Energy Inc. issued a press release announcing that it closed on the sale of \$230 million of 7.5% convertible senior notes, which includes the issuance of \$30 million associated with 15 percent over-allotment option granted to the initial purchasers. The 7.5% senior notes were issued in a private placement transaction exempt from registration under the Securities Act of 1933. The 7.5% senior notes have an annual interest rate of 7.5 percent, mature in 2007 and are convertible into shares of the Company's common stock at a conversion price of \$12.33. The conversion price represents a 25-percent premium over the \$9.86 closing price of the Company's stock on November 19, 2002. For more information see the Indenture, which sets forth the terms of the 7.5% senior notes and is included in this Form 8-K as Exhibit 99.01, the Registration Rights Agreement, which, among other things, describes the ability of the holders of the 7.5% senior notes to resell their notes pursuant to a registration statement and is included as Exhibit 99.02 to this Form 8-K, and the press release included in this Form 8-K as Exhibit 99.03.

As stated in the press release, a portion of the net proceeds from the offering of the 7.5% senior notes was to be used to redeem \$100 million of the Company's 8% convertible senior notes issued on November 8, 2002. This redemption occurred on November 25, 2002. Reference is made to the agreement attached as Exhibit 99.04, regarding the terms of redemption of the 8% convertible senior notes.
