

XCEL ENERGY INC
Form U-13-60
April 30, 2004

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM U-13-60

ANNUAL REPORT

FOR THE PERIOD

Beginning January 1, 2003 and ending December 31, 2003

TO THE

U.S. SECURITIES AND EXCHANGE COMMISSION

OF

XCEL ENERGY SERVICES INC.

(Exact Name of Reporting Company)

A Subsidiary SERVICE COMPANY
(Mutual or Subsidiary)

Date of Incorporation April 2, 1997

State or Sovereign Power under which Incorporated or Organized: Delaware

Location of Principal Executive Offices of Reporting Company: Minneapolis, MN

Name, title, and address of officer to whom correspondence concerning this
report should be addressed:

Teresa S. Madden	Vice President and	414 Nicollet Mall Minneapolis, MN 55402
(Name)	Controller	(Address)
	(Title)	

Name of Principal Holding Company Whose Subsidiaries are served by Reporting Company:

XCEL ENERGY INC.

INSTRUCTIONS FOR USE OF FORM U-13-60

- 1. Time of Filing.** Rule 94 provides that on or before the first day of May in each calendar year, each mutual service company and each subsidiary service company as to which the Commission shall have made a favorable finding pursuant to Rule 88, and every service company whose application for approval or declaration pursuant to Rule 88 is pending shall file with the Commission an annual report on Form U-13-60 and in accordance with the Instructions for that form.
 - 2. Number of Copies.** Each annual report shall be filed in duplicate. The company should prepare and retain at least one extra copy for itself in case correspondence with reference to the report becomes necessary.
 - 3. Period Covered by Report.** The first report filed by any company shall cover the period from the date the Uniform System of Accounts was required to be made effective as to that company under Rules 82 and 93 to the end of that calendar year. Subsequent reports should cover a calendar year.
 - 4. Report Format.** Reports shall be submitted on the forms prepared by the Commission. If the space provided on any sheet of such form is inadequate, additional sheets may be inserted of the same size as a sheet of the form or folded to each size.
 - 5. Money Amounts Displayed.** All money amounts required to be shown in financial statements may be expressed in whole dollars, in thousands of dollars or in hundred thousands of dollars, as appropriate and subject to provisions of Regulation S-X (210.3-01(b)).
 - 6. Deficits Displayed.** Deficits and other like entries shall be indicated by the use of either brackets or a parenthesis with corresponding reference in footnotes. (Regulation S-X,210.3-01(c))
 - 7. Major Amendments or Corrections.** Any company desiring to amend or correct a major omission or error in a report after it has been filed with the Commission shall submit an amended report including only those pages, schedules, and entries that are to be amended or corrected. A cover letter shall be submitted requesting the Commission to incorporate the amended report changes and shall be signed by a duly authorized officer of the company.
 - 8. Definitions.** Definitions contained in Instruction 01-8 to the Uniform System of Accounts for Mutual Service Companies and Subsidiary Service Companies, Public Utility Holding Company Act of 1935, as amended February 2, 1979 shall be applicable to words or terms used specifically within this Form U-13-60.
 - 9. Organization Chart.** The service company shall submit with each annual report a copy of its current organization chart.
 - 10. Methods of Allocation.** The service company shall submit with each annual report a listing of the currently effective methods of allocation being used by the service company and on file with the Securities and Exchange Commission pursuant to the Public Utility Holding Company Act of 1935.
 - 11. Annual Statement of Compensation for Use of Capital Billed.** The service company shall submit with each annual report a copy of the annual statement supplied to each associate company in support of the amount of compensation for use of capital billed during the calendar year.
-

Schedule XIV NOTES TO FINANCIAL STATEMENTS

INSTRUCTIONS: The space below is provided for important notes regarding the financial statements or any account thereof. Furnish particulars as to any significant contingent assets or liabilities existing at the end of the year. Notes relating to financial statements shown elsewhere in this report may be indicated here by reference.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Organization and Financial Statement Presentation**

Xcel Energy Services Inc. (XES or the Company) is a wholly owned subsidiary of Xcel Energy Inc. (Xcel Energy). XES is the service company for Xcel Energy and its subsidiaries and began its operations effective August 1, 2000. XES provides various administrative, management, environmental and other support services to Xcel Energy and its subsidiaries, at cost, pursuant to service agreements approved by the Securities and Exchange Commission (SEC) under the Public Utility Holding Company Act of 1935 (PUHCA), as amended. The majority of the services performed by XES for Xcel Energy and its subsidiaries are provided to Xcel Energy's four major operating utilities, Northern States Power Company, a Minnesota corporation (NSP-Minnesota), Northern States Power Company, a Wisconsin corporation (NSP-Wisconsin), Public Service Company of Colorado (PSCo) and Southwestern Public Service Company (SPS).

Until 2003, Xcel Energy's regulated businesses included Viking Gas Transmission Co., which was sold in January 2003, and Black Mountain Gas Co., which was sold in October 2003.

Xcel Energy also divested its ownership interest in NRG Energy, Inc. (NRG), an independent power producer, in 2003. At Dec. 31, 2002, NRG was a wholly-owned subsidiary of Xcel Energy. On May 14, 2003, NRG and certain of its affiliates filed voluntary petitions in the U.S. Bankruptcy Court for the Southern District of New York for reorganization under Chapter 11 of the U.S. Bankruptcy Code to restructure their debt. On Dec. 5, 2003, NRG completed its reorganization and emerged from bankruptcy. As a result, Xcel Energy divested its ownership interest in NRG.

Regulation

XES is subject to regulation by the SEC under the PUHCA. XES's accounting policies conform to accounting principles generally accepted in the United States of America. XES maintains its accounts in accordance with the Uniform System of Accounts for Mutual Service Companies as administered by the SEC.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying amount of financial instruments approximates fair value. Fair values have been determined through information obtained from market sources and management estimates.

Income Taxes

The Company's operations are included in the consolidated Federal income tax return of Xcel Energy. The allocation of income tax consequences to the Company, including alternative minimum tax, is calculated under a parent company policy which provides that benefits or liabilities created by the Company, computed on a separate return basis, will be allocated to (and paid to or by) the Company to the extent the benefits are usable or additional liabilities are incurred in Xcel Energy's consolidated tax returns. Deferred taxes are provided on temporary differences between the financial accounting and tax bases of assets and liabilities using the tax rates that are in effect at the balance sheet date (see Note 6).

Stock-based Compensation

The Company uses the intrinsic value based method of accounting for its stock-based compensation plan.

2. COMMON STOCK

XES is authorized to issue 1,000 shares of Common Stock at a par value of one cent (\$0.01) per share. As of Dec. 31, 2003, all shares of common stock were issued and held by Xcel Energy.

3. SHORT-TERM BORROWINGS

At Dec. 31, 2003, Xcel Energy had \$400 million in credit facilities with several banks.

Period Beginning	Term	Credit Line
November 2000	5 years	\$400 million

The line of credit provides short-term financing in the form of notes payable to banks and letters of credit. At Dec. 31, 2003, there were \$18.5 million in letters of credit outstanding under the Xcel Energy credit facilities. The borrowing rate under this line of credit is based on either the bank's published base rate or the applicable London Interbank Offered Rate (LIBOR) plus a euro dollar rate margin.

The Board of Directors has authorized the Company to borrow directly from Xcel Energy. At Dec. 31, intercompany borrowings outstanding and the weighted average interest rate were as follows (dollars in thousands):

	2003	2002
Intercompany borrowings	\$20,100	\$65,909
Weighted average interest rate	1.24%	2.79%

Beginning in 2003 and upon receiving the necessary state regulatory approvals, NSP-Minnesota, NSP-Wisconsin, PSCo, SPS and Cheyenne Light Fuel and Power (Cheyenne), a wholly-owned utility subsidiary of Xcel Energy, will participate in a utility money pool. At Dec. 31, 2003, Cheyenne is the only utility that has received the necessary approvals for participation in the money pool. The utility money pool arrangement allows excess funds of the holding company to be made available to the utility subsidiaries for short-term borrowing purposes. It also allows excess funds of the utility subsidiaries to be made available to one another; however, the money pool arrangement does not allow loans to the Xcel Energy parent company. The utility money pool is funded with either external or internal funds, or

both. The cost of external funds is the underlying cost of credit facility borrowings. The rate for internal funds is the 30-day commercial paper rate for the previous month-end.

XES is the administrator of the utility money pool. At Dec. 31, 2003, XES held a note payable to Xcel Energy and a note receivable from Cheyenne, both in the amount of \$26.2 million, related to funds contributed to the utility money pool from Cheyenne. The interest rate for funds in the utility money pool was 1.02% at Dec. 31, 2003.

4. COMMITMENTS AND CONTINGENCIES

Leasing Programs

The Company made payments for leases of various facilities used in the normal course of business. The majority of the operating leases are under a leasing program that has initial noncancelable terms of one year, while the remaining leases have various terms. These leases may be renewed or replaced. No material restrictions exist in these leasing agreements concerning

dividends, additional debt, or further leasing. Rental expense for the years ended Dec. 31, 2003 and 2002 was approximately \$12.5 million and \$18.0 million, respectively.

Estimated future minimum lease payments at Dec. 31, 2003 are as follows (thousands of dollars):

2004	\$ 10,092
2005	10,383
2006	8,405
2007	5,907
2008	5,907
All years thereafter	5,907

Technology Agreement

XES has a contract that extends through 2011 with International Business Machines Corporation (IBM) for information technology services. The contract is cancelable at our option, although there are financial penalties for early termination. In 2003, XES paid IBM \$114.2 million under the contract and \$19.4 million for other project business. The contract also has a committed minimum payment each year from 2004 through 2011.

5. BENEFIT PLANS AND OTHER POSTRETIREMENT BENEFITS

Xcel Energy offers various benefit plans to its benefit employees. At Dec. 31, 2003, there were 10,854 Xcel Energy employees (including 2,973 Company employees) eligible for benefits.

Pensions

The Company participates in various tax qualified noncontributory defined benefit pension plans, which cover substantially all Xcel Energy employees. Xcel Energy, as the plan sponsor, has overall responsibility for directly allocating such costs of each individual plan to each of the participating employers. The plans' actuary determined this allocation based on benefit obligations for active participants. Benefits are based on a combination of years of service, the employee's average pay and Social Security benefits.

Xcel Energy's policy is to fully fund into an external trust the actuarially determined pension costs recognized for ratemaking and financial reporting purposes, subject to the limitations of applicable employee benefit and tax laws. Plan assets principally consist of the common stock of public companies, corporate bonds and U.S. government securities. The target range for the Plan's asset allocation is 75 to 80 percent with equity investments, 5 to 10 percent with fixed income investments, no cash investments and 10 to 15 percent with nontraditional investments, such as real estate, timber ventures, private equity and venture capital.

The actual composition of pension plan assets at Dec. 31 was:

	<u>2003</u>	<u>2002</u>
Equity securities	75%	68%
Debt securities	14	16

Edgar Filing: XCEL ENERGY INC - Form U-13-60

Real estate	3	
Cash		4
Nontraditional investments	8	12
	<u> </u>	<u> </u>
	100%	100%

Summary information of the actuarially computed benefit obligation, plan assets, funded status and prepaid pension asset for the Xcel Energy plans at Dec. 31, 2003 and 2002, is presented in the following table (in thousands):

	<u>2003</u>	<u>2002</u>
Benefit obligation	\$2,632,491	\$2,505,576
Fair value of plan assets	<u>3,024,661</u>	<u>2,639,963</u>
Funded status: Plan assets exceed benefit obligations	<u>\$ 392,170</u>	<u>\$ 134,387</u>
Xcel Energy prepaid pension asset	<u>\$ 567,227</u>	<u>\$ 466,229</u>

The Company's net periodic pension credit for the years ended Dec. 31, 2003 and 2002 was \$18.3 million and \$22.7 million, respectively. Significant assumptions used by the Company's actuary in the determination of these amounts are presented in the following table:

	<u>2003</u>	<u>2002</u>
Significant assumptions used to measure benefit obligations:		
Discount rate for year-end valuation	6.25%	6.75%
Expected average long-term increase in compensation level	3.50%	4.00%
Significant assumptions used to measure costs:		
Expected average long-term rate of return on assets	9.25%	9.50%

Defined Contribution Plans

The Company participates in various defined contribution plans, which cover substantially all Xcel Energy employees. Total contributions to these plans by Xcel Energy were approximately \$15.9 million and \$18.3 million in 2003 and 2002, respectively.

Until May 6, 2002, Xcel Energy had a leveraged employee stock ownership plan (ESOP) that covered substantially all employees of NSP-Minnesota and NSP-Wisconsin. Xcel Energy made contributions to this noncontributory, defined contribution plan to the extent it realized tax savings from dividends paid on certain ESOP shares. ESOP contributions had no material effect on Xcel Energy earnings because the contributions were essentially offset by the tax savings provided by the dividends paid on ESOP shares. Xcel Energy allocated leveraged ESOP shares to participants when it repaid ESOP loans with dividends on stock held by the ESOP.

In May 2002, the ESOP was terminated and its assets were combined into the Xcel Energy Retirement Savings 401(k) Plan. The ESOP component of the 401(k) Plan is no longer leveraged.

Postretirement Health Care Benefits

The Company participates in various health and welfare plans administered by Xcel Energy. Xcel Energy has contributory health and welfare benefit plans that provide health care and death benefits to most Xcel Energy retirees. The NSP plan was terminated for nonbargaining employees retiring after 1998 and for bargaining employees after 1999. In conjunction with the 1993 adoption of Statement of Financial Accounting Standards No. 106 Employers Accounting for Postretirement Benefits Other Than Pensions, Xcel Energy elected to amortize the unrecognized accumulated postretirement benefit obligation (APBO) on a straight-line basis over 20 years.

The investment strategy for the postretirement health care fund assets is fairly conservative, with minimal exposure to equity markets and a focus on fixed income and cash equivalents to preserve investment capital while earning modest income.

The actual composition of postretirement benefit plan assets at Dec. 31, was:

	<u>2003</u>	<u>2002</u>
Fixed income/debt securities	2%	2%
Equity mutual fund securities	14	12
Cash equivalents	84	85
Other	—	1
	—	—
	100%	100%

Summary information of the actuarially computed benefit obligation, plan assets, funded status and accrued benefit cost for the Xcel Energy plans at Dec. 31 is presented in the following table (in thousands):

	<u>2003</u>	<u>2002</u>
Benefit obligation	\$775,230	\$767,975
Fair value of plan assets	<u>285,861</u>	<u>250,983</u>
Funded status: Plan obligations exceed assets	<u>\$489,369</u>	<u>\$516,992</u>
Xcel Energy accrued benefit liability recorded	<u>\$120,510</u>	<u>\$151,967</u>

The Company's net periodic postretirement benefit cost for the years ended Dec. 31, 2003 and 2002 was \$1.3 million and \$2.7 million, respectively. Significant assumptions used by the Company's actuary in the determination of these amounts are presented in the following table:

	<u>2003</u>	<u>2002</u>
Significant assumptions used to measure benefit obligations:		
Discount rate for year-end valuation	6.25%	6.75%
Significant assumptions used to measure costs:		
Expected average long-term rate of return on assets	8.0-9.0%	9.0%

The assumed health care cost trend rate for 2003 is approximately 7.5 percent, decreasing gradually to 5.5 percent in 2007 and remaining level thereafter. A 1-percent increase in the assumed health care cost trend rate would increase the Company's total accumulated benefit obligation by approximately \$2,943,000 and the service and interest cost components of net periodic postretirement benefit costs by approximately \$233,000. A 1-percent decrease in the

assumed health care cost trend rate will decrease the Company's total accumulated benefit obligation by approximately \$2,544,000 and the service and interest cost components of net periodic postretirement benefit costs by approximately \$202,000.

Impact of 2003 Medicare Legislation On Dec. 8, 2003, President Bush signed into law the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act). The Act expanded Medicare to include, for the first time, coverage for prescription drugs. This new coverage is generally effective Jan. 1, 2006. Many of Xcel Energy's retiree medical programs provide prescription drug coverage for retirees over age 65 with coverage at least equivalent to the benefit to be provided under Medicare. While retirees remain in Xcel Energy's postretirement health care plan without participating in the new Medicare prescription drug coverage, Medicare will share the cost of Xcel Energy's plan. This legislation has therefore reduced Xcel Energy's share of the obligation for future retiree medical benefits.

The postretirement health care benefit obligation shown in the chart previously is the actuarial present value, as of Dec. 31, 2003, of Xcel Energy's share of future retiree medical benefits attributable to service through the current year. This obligation has been reduced to reflect the effects of this legislation. The FASB has not yet issued authoritative guidance on the method it prefers to reflect the Act in these calculations. In addition, regulations implementing this legislation have not yet been issued by Medicare agencies. As a result, when guidance and regulations are issued, the estimates of future costs and obligations could change and previously estimated information may require revision.

As of Dec. 31, 2003, Xcel Energy had reduced the postretirement health care benefit obligation by \$64.6 million due to the expected sharing of the cost of the program by Medicare under the new legislation. Also, beginning in 2004, it is expected that the annual net periodic postretirement benefit cost will be reduced by approximately \$10 million as a result of the expected sharing of the cost of the program by Medicare, with similar savings in subsequent years. This reduction includes both the decrease in the cost of future benefits being earned during this year, and an amortization of the benefit obligation reduction,

previously noted, over approximately nine years. These estimated reductions do not reflect any changes that may result in future levels of participation in the plan or the associated per capita claims cost due to the availability of prescription drug coverage for Medicare-eligible retirees. Also, in reflecting this legislation, Medicare cost sharing for a plan has been assumed only if Xcel Energy's projected contribution to the plan is expected to be at least equal to the Medicare Part D basic benefit.

6. INCOME TAXES

The provision for income taxes for the years ended Dec. 31, 2003 and 2002 consist of the following (in thousands of dollars):

	<u>2003</u>	<u>2002</u>
Current income taxes:		
Federal	\$ 164	\$(2,833)
State	(380)	(393)
	<u> </u>	<u> </u>
Total current income taxes	(216)	(3,226)
	<u> </u>	<u> </u>
Deferred income taxes:		
Federal	380	1,319
State	71	183
	<u> </u>	<u> </u>
Total deferred income taxes	451	1,502
	<u> </u>	<u> </u>
Total provision for income taxes	\$ 235	\$(1,724)
	<u> </u>	<u> </u>

A reconciliation of the statutory U.S. income tax rate and the effective tax rates for the years ended Dec. 31, 2003 and 2002 follows (dollars in thousands):

	<u>2003</u>		<u>2002</u>	
Tax computed at U.S. statutory rate on pre-tax accounting income	\$ 82	35%	\$ (604)	35%
Increase (decrease) in tax from:				
State income taxes, net of Federal income tax benefit	(211)	(90)	(136)	7
Non-deductible business meals	395	168	110	(6)
Stock options	(155)	(66)	(1,838)	107

Edgar Filing: XCEL ENERGY INC - Form U-13-60

Lobbying expenses	140	60	709	(41)
Other	(16)	(7)	35	(2)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total income taxes	\$ 235	100%	\$(1,724)	100%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

The tax effects of significant temporary differences representing deferred tax liabilities and assets are as follows (in thousands):

	<u>2003</u>	<u>2002</u>
Deferred income tax liabilities:		
Difference between book and tax basis of property	\$ 1,415	\$
Information systems charges	2,500	4,537
Pension related costs	19,929	12,338
Rent adjustments	2,307	2,307
Vacation liability	652	447
Prepaid advertising	175	
	<u> </u>	<u> </u>
Total	<u>\$26,978</u>	<u>\$ 19,629</u>
Deferred income tax assets:		
Postretirement benefit costs	\$ 4,913	\$ 4,249
Employee severance costs	504	4,125
NOL carryforward adjustment	199	
Executive incentive plans	9,855	
	<u> </u>	<u> </u>
Total	<u>\$15,471</u>	<u>\$ 8,374</u>
Net deferred income tax liability	<u>\$11,507</u>	<u>\$11,255</u>

ANNUAL REPORT OF XCEL ENERGY SERVICES INC.**METHODS OF ALLOCATION**

Revenue Ratio - Based on the sum of the monthly revenue amounts for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Employee Ratio - Based on the number of employees at the end of the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Assets Ratio, with 15 Percent of Assets assigned to Xcel Energy Inc. - Based on the total assets as of December 31 for the prior year, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. Xcel Energy Inc. will be assigned fifteen percent of the total assets. This ratio will be determined annually, or at such time as may be required due to significant changes.

Total Assets Ratio - Based on the total assets as of December 31 for the prior year, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Square Footage Ratio - Based on the total square footage as of December 31 for the prior year, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Invoice Transaction Ratio - Based on the sum of the monthly number of invoice transactions processed for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Customer Bills Ratio - Based on the average of the monthly total number of customer bills issued during the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such a time as may be required due to significant changes.

MWh Generation Ratio - Based on the sum of the monthly electric MWh generated during the prior year ending December 31, the numerator of which is for an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

ANNUAL REPORT OF XCEL ENERGY SERVICES INC.

METHODS OF ALLOCATION

Total MWh Sales Ratio - Based on the sum of the monthly electric MWh hours sold during the prior year ending December 31, the numerator of which is for an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This includes sales to ultimate customers, wholesale customers, and non-requirement sales for resale. This ratio will be determined annually, or at such time as may be required due to significant changes.

Customers Ratio - Based on the average of the monthly total electric customers (and/or gas customers, or residential, business and large commercial and industrial customers where applicable) for the prior year ending December 31, the numerator of which is for an applicable Operating Company or affiliate company and the denominator of which is for all applicable Operating Companies and affiliate companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

Labor Dollars Ratio - Based on the XES department (performing center) labor dollars charged to Operating companies and other affiliates for the month. The numerator of which is the labor dollars charged to an Operating Company or affiliate company and the denominator of which is for all Operating Companies and affiliate companies charged by the department for the month.

Delivery Services Gross Plant Ratio - Based on transmission and distribution gross plant for the Delivery Business unit, both electric and gas for the prior year ending December 31, the numerator of which is an applicable Operating Company and the denominator of which is for all applicable Operating Companies. This ratio will be determined annually, or at such time as may be required due to significant changes.

ANNUAL REPORT OF XCEL ENERGY SERVICES INC.

ANNUAL STATEMENT OF COMPENSATION FOR USE OF CAPITAL BILLED

For the Period Ended December 31, 2003

The following annual statement was supplied to each associate company in support of the amount of compensation for use of capital billed during 2003:

In accordance with Instruction 01-12 of the Securities and Exchange Commission's Uniform System of Accounts for Mutual Service Companies and Subsidiary Service Companies, Xcel Energy Services Inc. (XES) submits the following information on the billing of interest on borrowed funds to associated companies for the year 2003:

- A. Amount of interest billed to associate companies is contained on page 16, Analysis of Billing.
 - B. Amount of interest XES pays Xcel Energy Inc. is based on Xcel Energy's weighted cost of debt adjusted for their commitment (facilities) fees. Interest is billed to associate companies based on each company's Accounts Receivable balance weighted with other significant Service Company assets in which the benefits can be directly assigned to specific companies. Companies with outstanding Accounts Receivable balances greater than 30 days and more than \$1,000 are charged a 1% penalty on the outstanding balance in addition to their monthly interest expense. The penalty amounts reduce the monthly interest amount allocated based on total Accounts Receivable balances.
-
