The accompanying notes are an integral part of these consolidated financial statements.

Table of Contents**AFFILIATED COMPUTER SERVICES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)****1. BASIS OF PRESENTATION**

The consolidated financial statements include the accounts of Affiliated Computer Services, Inc. (ACS) and its majority-owned subsidiaries. All material intercompany profits, transactions and balances have been eliminated. We are a Fortune 500 and S&P 500 company with more than 43,000 people providing business process and technology outsourcing solutions to commercial and government clients.

The financial information presented should be read in conjunction with our consolidated financial statements for the year ended June 30, 2004. The foregoing unaudited consolidated financial statements reflect all adjustments (all of which are of a normal recurring nature), which are, in the opinion of management, necessary for a fair presentation of the results of the interim periods. The results for the interim periods are not necessarily indicative of results to be expected for the year.

Significant accounting policies are detailed in our Annual Report on Form 10-K for the year ended June 30, 2004. For discussion of our critical accounting policies, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations.

2. STOCK-BASED COMPENSATION

We follow Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, (APB 25) in accounting for our stock-based compensation plans. Under APB 25, no compensation expense is recognized for our stock-based compensation plans since the exercise prices of awards under our plans are at the current market price of our stock on the date of grant. Had compensation cost for our stock-based compensation plans been determined based on the fair value at the grant date under those plans consistent with the fair value method of Statement of Financial Accounting Standards No. 123 Accounting for Stock-Based Compensation , our net income and earnings per share would have been reduced to the pro forma amounts indicated below (in thousands, except per share amounts):

	Three Months Ended September 30,	
	2004	2003
Net Income		
As reported	\$94,157	\$86,808
Less: Pro forma employee compensation cost of stock-based compensation plans, net of income tax	5,566	4,806
Pro forma	<u>\$88,591</u>	<u>\$82,002</u>

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

Basic earnings per share		
As reported	\$ 0.74	\$ 0.65

(UNAUDITED)**

3. ACQUISITIONS

In July 2004, we acquired Heritage Information Systems, Inc. (Heritage). Heritage provides clinical management and pharmacy cost containment solutions to 14 state Medicaid programs, over a dozen national commercial insurers and Blue Cross Blue Shield licensees and some of the largest employer groups in the country. The transaction was valued at approximately \$23.1 million plus related transaction costs, excluding contingent consideration of a maximum of \$17 million based upon future financial performance, and was funded from borrowings under our Prior Facility (defined in Note 10) and cash on hand. The purchase price was allocated to assets acquired and liabilities assumed based on estimated fair value as of the date of acquisition. We acquired assets of \$26.6 million and assumed liabilities of \$3.5 million. We recorded \$14.3 million in goodwill, which is deductible for income tax purposes, and intangible assets of \$2.4 million. The \$2.4 million of intangible assets are attributable to customer relationships and non-compete agreements with useful lives of five years. We believe this acquisition enhances our clinical management and cost containment service offerings. The operating results of the acquired business are included in our financial statements in the Government segment from the effective date of the acquisition, July 1, 2004.

In August 2004, we acquired BlueStar Solutions, Inc. (BlueStar), an information technology outsourcer specializing in applications management of packaged enterprise resource planning and messaging services. The transaction was valued at approximately \$73.5 million, plus related transaction costs. The transaction value includes \$6.4 million attributable to the 9.2% minority interest we held in BlueStar prior to the acquisition; therefore, the net purchase price was approximately \$67.1 million. Of this amount, approximately \$52.4 million was paid to former BlueStar shareholders by September 30, 2004 and was funded from borrowings under our Prior Facility and cash on hand. The remaining purchase price (net of approximately \$6.0 million of holdbacks) will be paid in the second quarter of fiscal year 2005. The purchase price was allocated to assets acquired and liabilities assumed based on estimated fair value as of the date of acquisition. We acquired assets of \$97.8 million and assumed liabilities of \$30.7 million. We recorded goodwill of \$38.2 million, which is not deductible for income tax purposes, and intangible assets of \$11.6 million. The \$11.6 million of intangible assets are attributable to customer relationships with a useful life of seven years. We believe that the acquisition of BlueStar improves our existing information technology services with the addition of applications management and messaging services. The operating results of the acquired business are included in our financial statements in the Commercial segment from the effective date of the acquisition, August 26, 2004. Our consolidated balance sheet as of September 30, 2004 reflects the preliminary allocation of the purchase price to the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. Additional analysis is being performed with regard to our ability to utilize BlueStar's pre-acquisition net operating loss carryovers in the post-acquisition tax years. As a result, the purchase price allocated to the initial deferred tax asset of \$29.2 million, primarily related to net operating losses acquired, may be adjusted in future periods if necessary.

These acquisitions are not considered material to our results of operations, either individually or in the aggregate; therefore, no pro forma information is presented.

4. EQUITY

Our Board of Directors has authorized two share repurchase programs totaling \$1.25 billion of our Class A common stock. On September 2, 2003, we announced that our Board of Directors authorized a share repurchase program of up to \$500 million of our Class A common stock and on April 29, 2004, we announced that our Board of Directors

authorized a new, incremental share repurchase program of up to \$750 million of our Class A common stock. The programs, which are open-ended, will allow us to repurchase our shares on the open market from time to time in accordance with Securities and Exchange Commission (SEC) rules and regulations, including shares that could be purchased pursuant to SEC Rule 10b5-1. The number of shares to be purchased and the timing of purchases will be based on the level of cash and debt balances, general business conditions and other factors, including alternative investment opportunities. We intend to fund the repurchase program from various sources, including, but not limited to, cash on hand, cash flow from operations, and borrowings under our Credit Facility (defined in Note 10). As of September 30, 2004, we had repurchased approximately 15 million shares at a total cost of approximately \$743.2 million. We did not repurchase any shares in the first quarter of fiscal year 2005. As of September 30, 2004, there remained approximately \$506.8 million authorized under our share repurchase programs.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying amount of goodwill for the three months ended September 30, 2004 are as follows (in thousands):

	<u>Government</u>	<u>Commercial</u>	<u>Total</u>
Balance as of June 30, 2004	\$ 1,082,536	\$ 886,790	\$ 1,969,326
Acquisition activity	15,294	38,428	53,722
	<u> </u>	<u> </u>	<u> </u>
Balance as of September 30, 2004	<u>\$ 1,097,830</u>	<u>\$ 925,218</u>	<u>\$ 2,023,048</u>

Goodwill activity for the three months ended September 30, 2004 was primarily due to the acquisitions of Heritage and BlueStar (see Note 3). Approximately \$1.7 billion, or 84%, of the original gross amount of goodwill recorded is deductible for income tax purposes.

The following information relates to our other intangible assets (in thousands):

	<u>September 30, 2004</u>		<u>June 30, 2004</u>	
	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>
Amortized intangible assets:				
Acquired customer-related intangibles	\$ 205,620	\$ (55,748)	\$ 191,517	\$ (49,425)
Customer-related intangibles	149,708	(60,677)	142,802	(53,334)
All other	2,854	(1,506)	2,854	(1,447)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total	<u>\$ 358,182</u>	<u>\$ (117,931)</u>	<u>\$ 337,173</u>	<u>\$ (104,206)</u>
Unamortized intangible asset:				
Title plant	<u>\$ 50,800</u>		<u>\$ 50,800</u>	

Aggregate Amortization:

For the quarter ended September 30, 2004	\$ 14,316
For the quarter ended September 30, 2003	9,864

Estimated amortization for the years ended June 30,	
2005	\$49,357
2006	42,212
2007	37,388
2008	34,263
2009	28,444

Amortization includes amounts charged to amortization expense for customer-related intangibles and other intangibles, other than contract inducements. Amortization of contract inducements of \$3.1 million and \$2.6 million for the three months ended September 30, 2004 and 2003, respectively, is recorded as a reduction of related contract revenue. Amortization expense includes approximately \$7.9 million and \$4.2 million for acquired customer-related intangibles for the three months ended September 30, 2004 and 2003, respectively. Amortized intangible assets are amortized over the related contract term. The amortization period of customer-related intangible assets ranges from 1 to 11 years, with a weighted average of approximately 8 years. The amortization period for all other intangible assets, including trademarks, ranges from 4 to 20 years, with a weighted average of 7 years.

(UNAUDITED)

6. COMPREHENSIVE INCOME

Statement of Financial Accounting Standards No. 130, Reporting Comprehensive Income (SFAS 130), establishes standards for reporting and display of comprehensive income and its components in financial statements. The objective of SFAS 130 is to report a measure of all changes in equity of an enterprise that result from transactions and other economic events of the period other than transactions with owners. Comprehensive income is the total of net income and all other non-owner changes within a company's equity.

The components of comprehensive income are as follows (in thousands):

	Three months ended September 30,	
	2004	2003
Net income	\$94,157	\$86,808
Other comprehensive income (loss):		
Foreign currency translation adjustment (net of income tax effect of \$(467) and \$723, respectively)	779	(1,205)
	<u> </u>	<u> </u>
Comprehensive income	<u>\$94,936</u>	<u>\$85,603</u>

7. EARNINGS PER SHARE

In accordance with Statement of Financial Accounting Standard No. 128, Earnings per Share, the following table sets forth the computation of basic and diluted earnings per share (in thousands except per share amounts):

	Three Months Ended September 30,	
	2004	2003
Numerator:		
Numerator for earnings per share (basic) - Income available to common stockholders	\$ 94,157	\$ 86,808
Effect of dilutive securities:		
Interest on 3.5% convertible debt, net of income tax	<u> </u>	<u>2,054</u>
Numerator for earnings per share assuming dilution - Income available to common stockholders	<u>\$ 94,157</u>	<u>\$ 88,862</u>

Denominator:		
Weighted average shares outstanding (basic)	127,948	133,235
Effect of dilutive securities:		
3.5% convertible debt		7,298
Stock options	3,122	3,427
	<u>3,122</u>	<u>10,725</u>
Total potential common shares	<u>3,122</u>	<u>10,725</u>
Denominator for earnings per share assuming dilution	<u>131,070</u>	<u>143,960</u>
Earnings per share (basic)	\$ 0.74	\$ 0.65
	<u>\$ 0.74</u>	<u>\$ 0.65</u>
Earnings per share assuming dilution	\$ 0.72	\$ 0.62

8. SEGMENT INFORMATION

During fiscal year 2004, as the result of the sale of the majority of our Federal business, we combined our State and Local Government and Federal segments into our Government segment. Prior period reporting has been restated to conform to the new segment reporting.

The following is a summary of certain financial information by reportable segment (in thousands):

	<u>Government</u>	<u>Commercial</u>	<u>Corporate</u>	<u>Consolidated</u>
<u>Three Months Ended September 30, 2004</u>				
Revenues (a)	\$551,519	\$494,663	\$	\$1,046,182
Operating expenses (excluding depreciation and amortization)	439,960	384,769	12,093	836,822
Depreciation and amortization	19,475	34,328	516	54,319
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Operating income	<u>\$ 92,084</u>	<u>\$ 75,566</u>	<u>\$(12,609)</u>	<u>\$ 155,041</u>
<u>Three Months Ended September 30, 2003</u>				
Revenues (a)	\$696,783	\$339,852	\$	\$1,036,635
Operating expenses (excluding depreciation and amortization)	575,647	262,749	12,899	851,295
Depreciation and amortization	18,391	22,449	571	41,411
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Operating income	<u>\$102,745</u>	<u>\$ 54,654</u>	<u>\$(13,470)</u>	<u>\$ 143,929</u>

- (a) Revenues in our Government segment for the three months ended September 30, 2004 and 2003 include revenues from operations divested during fiscal year 2004 of \$0.5 million and \$177.6 million, respectively. Revenues in our Commercial segment for the three months ended September 30, 2003 include revenues from operations divested during fiscal year 2004 of \$5.1 million.

9. COMMITMENTS AND CONTINGENCIES

Our Education Services business, which is included in our Commercial segment, performs third party student loan servicing in the Federal Family Education Loan program (FFEL) on behalf of various financial institutions. We

service these loans for investors under an outsourcing arrangement and do not acquire any servicing rights that are transferable by us to a third party. At September 30, 2004, we serviced a FFEL portfolio of approximately 1.5 million loans with an outstanding principal balance of approximately \$19.2 billion. Some servicing agreements contain provisions that, under certain circumstances, require us to purchase the loans from the investor if the loan guaranty has been permanently terminated as a result of a loan default caused by our servicing error. If defaults caused by us are cured during an initial period, any obligation we may have to purchase these loans expires. Loans that we purchase may be subsequently cured, the guaranty reinstated and then we repackage the loans for sale to third parties. We evaluate our exposure under our purchase obligations on defaulted loans and establish a reserve for potential losses, or default liability reserve, through a charge to the provision for loss on defaulted loans purchased. The reserve is evaluated periodically and adjusted based upon management's analysis of the historical performance of the defaulted loans. This reserve was approximately \$3.9 million and \$3.7 million at September 30, 2004 and June 30, 2004, respectively. During quarters ended September 30, 2004 and 2003, we purchased and charged against the reserve \$0.4 million and \$0.9 million of loans, respectively, and recovered or sold loans with proceeds totaling \$0.2 million and \$0.5 million, respectively, which were credited to our reserve. We recorded provisions of \$0.4 million and \$0.6 million in the quarters ended September 30, 2004 and 2003, respectively.

Certain contracts, primarily in our Government segment, require us to provide a surety bond or a letter of credit as a guarantee of performance. As of September 30, 2004, \$287.1 million of outstanding surety bonds and \$84.7 million of our outstanding letters of credit secure our performance of contractual obligations with our clients. In addition, we had approximately \$9.2 million of letters of credit which secure our casualty insurance programs. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations under each contract, the probability of which we believe is remote. We believe that we have sufficient capacity in the surety markets and liquidity from our cash flow and our new Credit Facility to respond to future requests for proposals.

(UNAUDITED)**

We are obligated to make certain contingent payments to former shareholders of acquired entities upon satisfaction of certain contractual criteria. As of September 30, 2004, the maximum aggregate amount of the outstanding contingent obligations is approximately \$87 million. Upon satisfaction of the specified contractual criteria, any such payment would result primarily in a corresponding increase in goodwill. During the first quarter of fiscal year 2005, we paid \$0.4 million related to these obligations.

On December 16, 1998, a state district court in Houston, Texas entered final judgment against us in a lawsuit brought by 21 former employees of Gibraltar Savings Association and/or First Texas Savings Association (collectively, GSA/FTSA). The former employees alleged that they were entitled to the value of 803,082 shares of our stock (adjusted for February 2002 stock split) pursuant to options issued to them in 1988 in connection with a former technology outsourcing services agreement between GSA/FTSA and us. The judgment against us was for approximately \$17 million, which included attorneys' fees and pre-judgment interest. The judgment was appealed by the former employees and us. As a result of the appeals, the trial court's judgment was reversed and the case was remanded to the trial court for further proceedings, except that the trial court judgment was affirmed in part as to one of the former employees and the trial court's dismissal of certain of our affirmative defenses was upheld. The amount of the judgment for the one former employee whose judgment was upheld has been settled for \$1.3 million. In August 2004, mediation was conducted which resulted in the settlement of claims of the other former employees. As a result of this settlement, we accrued \$10 million in other operating expenses in the fourth quarter of fiscal year 2004 related to this settlement and paid \$10 million in full settlement of all claims of the other former employees in August 2004.

One of our subsidiaries, ACS Defense, LLC, and several other government contractors received a grand jury document subpoena issued by the U.S. District Court for the District of Massachusetts in October 2002. The subpoena was issued in connection with an inquiry being conducted by the Antitrust Division of the U.S. Department of Justice (DOJ). The inquiry concerns certain IDIQ (Indefinite Delivery Indefinite Quantity) procurements and their related task orders, which occurred in the late 1990s at Hanscom Air Force Base in Massachusetts. Our revenue from the contracts that we believe to be the focus of the DOJ's inquiry was approximately \$17.2 million for the fiscal year ended June 30, 2004 representing approximately 0.4% of our revenue for fiscal year 2004. In February 2004, we sold the contracts associated with the Hanscom Air Force Base relationship to ManTech International Corporation; however, we have agreed to indemnify ManTech with respect to this DOJ investigation. We are continuing our previously announced internal investigation of this matter through outside legal counsel and we are continuing to cooperate with the DOJ in producing documents in response to the subpoena. At this stage of this inquiry, we are unable to express an opinion as to its likely outcome.

We have indemnified Lockheed Martin Corporation against certain specified claims from certain pre-sale litigation, investigations, government audits and other issues related to the sale of the majority of our Federal business to Lockheed Martin Corporation in fiscal year 2004. Our maximum exposure under these indemnifications is \$85 million; however, we believe the actual exposure to be significantly less. As of September 30, 2004, other accrued liabilities include a reserve for these claims in an amount we believe to be adequate at this time. As discussed above, we have agreed to indemnify ManTech International Corporation with respect to the DOJ investigation related to purchasing activities at Hanscom during the period 1998-2000.

Another of our subsidiaries, ACS State & Local Solutions, Inc. (ACS SLS), and a teaming partner of this subsidiary, Tier Technologies, Inc. (Tier), received a grand jury document subpoena issued by the U.S. District Court for the Southern District of New York in May 2003. The subpoena was issued in connection with an inquiry

being conducted by the Antitrust Division of the DOJ. The inquiry concerns the teaming arrangements between ACS SLS and Tier on child support payment processing contracts awarded to ACS SLS, and Tier as a subcontractor to ACS SLS, in New York, Illinois and Ohio. Effective June 30, 2004, Tier was no longer a subcontractor to us in Ohio. Our revenue from the contracts for which Tier was a subcontractor was approximately \$67 million in fiscal year 2004 and approximately \$10.2 million in the first quarter of fiscal year 2005, representing approximately 1.6% and 1.0% of our fiscal year 2004 and first quarter fiscal year 2005 revenues, respectively. Our teaming arrangement also contemplated the California child support payment processing request for proposals, which was issued in late 2003; however, we did not enter into a teaming agreement with Tier for the California request for proposals. Based on Tier's recent filings with the Securities and Exchange Commission, we understand that on November 20, 2003 the DOJ granted conditional amnesty to Tier in connection with this inquiry pursuant to the DOJ's Corporate Leniency Policy. The policy provides that the DOJ will not bring any criminal charges against Tier as long as it continues to fully cooperate in the inquiry (and makes restitution payments if it is determined that parties were injured as a result of impermissible anticompetitive conduct). We are continuing our previously announced internal investigation of this matter through outside legal counsel and we are continuing to cooperate with the DOJ in producing documents in response to the subpoena. At this stage of this inquiry, we are unable to express an opinion as to its likely outcome.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

On January 30, 2004, the Florida Agency for Workforce Innovation's (AWI) Office of Inspector General (OIG) issued a report that reviewed 13 Florida workforce regions, including Dade and Monroe counties, and noted concerns related to the accuracy of customer case records maintained by our local staff. Our total revenue generated from the Florida workforce services amounts to approximately 1% of our total fiscal year 2004 revenue. In March 2004, we filed our response to the OIG report. On May 20, 2004, at a meeting of the Workforce Florida, Inc. (WFI) Board of Directors which was attended by representatives of ACS SLS, which is our subsidiary performing these services, a representative of WFI, which is the principal workforce policy organization for the State of Florida and oversees and monitors the administration of the State's workforce policy as well as the programs and services carried out by regional workforce boards and AWI, indicated that WFI did not see a systemic problem with the performance of these workforce services by ACS SLS and that it considered the issue closed. There were also certain contract billing issues that arose during the course of our performance of our workforce contract in Dade County, Florida, which ended in June 2003. However, during the first quarter of fiscal year 2005, we settled all financial issues with Dade County with respect to our workforce contract with that county and the settlement is fully reflected in our results of operations for the first quarter of fiscal year 2005. We were also advised in February 2004 that the SEC is conducting an informal investigation into the matters covered by the OIG's report. On March 22, 2004, ACS SLS received a grand jury document subpoena issued by the U.S. District Court for the Southern District of Florida. The subpoena was issued in connection with an inquiry being conducted by the DOJ and the Inspector General's Office of the U.S. Department of Labor (DOL) into the subsidiary's workforce contracts in Dade and Monroe counties in Florida, which expired in June 2003, and which were included in the OIG's report. On August 25, 2004, ACS SLS received a grand jury document subpoena issued by the U.S. District Court for the Middle District of Florida in connection with an inquiry being conducted by the DOJ and the Inspector General's Office of the DOL. The subpoena relates to a contract in Pinellas County in Florida for the period from January 1999 to the contract's expiration in March 2001, which was prior to our acquisition of this business from Lockheed Martin Corporation in August 2001. Further, we settled a civil lawsuit with Pinellas County in December 2003 with respect to claims related to services rendered to Pinellas County by Lockheed Martin Corporation prior to our acquisition of ACS SLS (those claims having been transferred with ACS SLS as part of the acquisition), and which settlement resulted in Pinellas County paying ACS SLS an additional \$600,000. We are continuing our internal investigation of these matters through outside legal counsel and we are continuing to cooperate with the DOJ, the SEC and DOL to produce documents in connection with their investigations. At this stage of these investigations, we are unable to express an opinion as to their likely outcome. We anticipate that we may receive additional subpoenas for information in other Florida Workforce regions as a result of the AWI report issued in January 2004.

In June 2004, the Mississippi Department of Environmental Quality (MDEQ) issued a Notice of Violation to ACS Image Solutions, Inc., one of our subsidiaries, that alleged noncompliance with the Clean Water Act and the Federal Resource Conservation and Recovery Act. On September 20, 2004, we agreed to settle this matter with the MDEQ for \$150,000. We have closed the specific operation whose activities resulted in this Notice.

In addition to the foregoing, we are subject to certain other legal proceedings, inquiries, claims and disputes, which arise in the ordinary course of business. Although we cannot predict the outcomes of these other proceedings, we do not believe these other actions, in the aggregate, will have a material adverse effect on our financial position, results of operations or liquidity.

10. SUBSEQUENT EVENTS

On October 27, 2004, we entered into a Five Year Competitive Advance and Revolving Credit Facility Agreement with JPMorgan Chase Bank, as Administrative Agent (JP Morgan), and Wells Fargo Bank, National Association, as Syndication Agent, and various other lenders (the Credit Facility), with the proceeds from advances under the Credit Facility to be used for general corporate purposes. The Credit Facility provides for an unsecured \$1.5 billion multi-currency revolving credit and competitive advance facility (fully available in US\$, Euros or competitive loans in any currency). Multi-currency commitments (available in certain specified currencies other than US\$ or Euros) in an initial aggregate amount of \$200 million and swing line loans in an amount up to \$150 million are provided under the facility. The Credit Facility may be increased by up to \$300 million, subject to certain conditions. The lending commitments under the Credit Facility are scheduled to terminate October 27, 2009. At the closing of the Credit Facility, we borrowed \$316 million under the Credit Facility to pay off and terminate the Prior Facility (defined below). In addition, \$94 million in letters of credit were issued under the Credit Facility to replace letters of credit outstanding under the Prior Facility.

Other than competitive loans and swing line loans, advances under the Credit Facility will bear interest at a Eurocurrency Rate or a Base Rate (generally equal to the prime rate of JP Morgan), plus a percentage determined based on our credit rating. We are required to pay accrued interest at established intervals based upon our elected interest period.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

Among other fees, we will pay a facility fee of 0.110% per annum (due quarterly), based on our credit rating on the aggregate commitment of the Credit Facility, whether used or unused. We will also pay a utilization fee of 0.125% on the total amount outstanding under the Credit Facility for each day that such amount exceeds 50% of the aggregate commitments then in effect.

The Credit Facility contains customary covenants, including but not limited to, restrictions on our ability, and in certain instances, our subsidiaries' ability, to incur liens, merge or dissolve, finance its accounts receivables, or sell or transfer assets. The Credit Facility also limits our ability to incur additional indebtedness at the subsidiary level. In addition, we may not permit our consolidated leverage ratio to exceed 2.75 to 1.0 or our consolidated interest coverage ratio to be less than 3.50 to 1.0 during specified periods.

Upon the occurrence of certain events of default, our obligations under the Credit Facility may be accelerated and the lending commitments under the Credit Facility terminated. Such events of default include, but are not limited to, payment default to lenders, material inaccuracies of representations and warranties, covenant defaults, material payment defaults (other than under the Credit Facility), voluntary and involuntary bankruptcy proceedings, material money judgments, material ERISA events, or change of control.

Simultaneously with entering into the \$1.5 billion Credit Facility referenced above, we terminated our existing \$875 million revolving credit facility (the Prior Facility) on October 27, 2004. The lending commitments under the Prior Facility were evidenced by that certain Revolving Credit Agreement, dated as of September 12, 2002 among us and other borrowers from time to time party thereto, Wells Fargo Bank Texas, National Association, as administrative agent, and various other lenders, and were scheduled to expire in December 2005.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations that are not based on historical fact are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (which Sections were adopted as part of the Private Securities Litigation Reform Act of 1995). While management has based any forward-looking statements contained herein on its current expectations, the information on which such expectations were based may change. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties, and other factors, many of which are outside of our control, that could cause actual results to materially differ from such statements. Such risks, uncertainties, and other factors include, but are not necessarily limited to, those set forth under the caption "Risks Related to our Business." In addition, we operate in a highly competitive and rapidly changing environment, and new risks may arise. Accordingly, investors should not place any reliance on forward-looking statements as a prediction of actual results. We disclaim any intention to, and undertake no obligation to, update or revise any forward-looking statement.

We report our financial results in accordance with generally accepted accounting principles in the United States (GAAP). However, we believe that certain non-GAAP financial measures and ratios, used in managing our business, may provide users of this financial information with additional meaningful comparisons between current results and prior reported results. Certain of the information set forth herein and certain of the information presented by us from time to time (including free cash flow and internal revenue growth) may constitute non-GAAP financial measures within the meaning of Regulation G adopted by the Securities and Exchange Commission (SEC). We have presented herein and we will present in other information we publish that contains any of these non-GAAP financial measures a reconciliation of these measures to the most directly comparable GAAP financial measure. The presentation of this additional information is not meant to be considered in isolation or as a substitute for comparable amounts determined in accordance with GAAP.

GENERAL

We are a Fortune 500 and S&P 500 company with more than 43,000 people providing business process and technology outsourcing solutions to commercial and government clients. Our clients have time-critical, transaction-intensive business and information processing needs, and we typically service these needs through long-term contracts.

During the quarter ended September 30, 2004, we signed contracts with new clients and incremental business with existing clients representing \$127 million of annualized recurring revenue. The Government segment contributed 53% of the new contract signings, including contracts with the State of Texas to support the statewide roll-out of the Medicaid Primary Care Case Management, Center for Medicare and Medicaid Services for the Medicare-approved Transitional Assistance Card for Long Term Care Residents, and Maryland Department of Health and Mental Hygiene to provide claims processing services. The Commercial segment contributed 47% of the new contract signings, including contracts with Nextel to provide business process outsourcing services and Scotts Company to provide information technology services. We define new business signings as recurring revenue from new contracts, including the incremental portion of renewals, signed during the period and represents the estimated annual recurring revenues, as measured under GAAP, to be recorded under that contract after full implementation of our services.

In November 2003, we completed the sale of a majority of our Federal government business to Lockheed Martin Corporation (the "Divested Federal Business"). As of September 30, 2003, we classified as held for sale those assets and liabilities related to that portion of our Federal business expected to be disposed of in the sale. Statement of

Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* requires that depreciation and amortization of long-lived assets held for sale be suspended during the holding period prior to sale. Accordingly, we suspended depreciation and amortization in the amount of \$4.3 million (\$2.7 million, net of income tax) in the first quarter of fiscal year 2004 related to those long-lived assets held for sale at September 30, 2003. We also completed the sale of two other small contracts during fiscal year 2004. Revenues in our Government segment for the three months ended September 30, 2004 and 2003 include revenues from operations divested through June 30, 2004 (primarily the Divested Federal Business) of \$0.5 million and \$177.6 million, respectively. Revenues in our Commercial segment for the three months ended September 30, 2003 include revenues from operations divested as of June 30, 2004 (primarily the Divested Federal Business) of \$5.1 million.

Table of Contents**REVENUE GROWTH**

Internal revenue growth is measured as total revenue growth less acquired revenue from acquisitions and revenues from divested operations. Acquired revenue from acquisitions is based on pre-acquisition normalized revenue of acquired companies. We use the calculation of internal revenue growth to measure revenue growth excluding the impact of acquired revenues and the revenue associated with divested operations and we believe these adjustments to historical reported results are necessary to accurately reflect our internal revenue growth. The following table sets forth the calculation of internal revenue growth (in thousands):

	Three months ended September 30,			
	2004	2003	\$ Growth	Growth %
Consolidated:				
Total Revenues	\$1,046,182	\$1,036,635	\$ 9,547	1%

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

Adjusted	\$ 494,663	\$ 334,758	\$ 159,905	48%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Acquired revenues (2)	\$ 86,132	\$	\$ 86,132	26%
Internal revenues	408,531	334,758	73,773	22%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total	\$ 494,663	\$ 334,758	\$ 159,905	48%
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

(1) Divested revenues are revenues of businesses divested as if the divestiture had occurred at the beginning of the period. Amounts presented are primarily related to the sale of the Divested Federal Business and other fiscal year 2004 divestitures.

(2) Acquired revenues are based on pre-acquisition normalized revenues of acquired companies.

Table of Contents**RESULTS OF OPERATIONS**

The following table sets forth certain items from our consolidated statements of income as a percentage of revenues:

	Three months ended September 30,	
	2004	2003
Revenues	100.0%	100.0%
Expenses:		
Wages and benefits	41.3	46.0

Income tax expense	<u>5.4</u>	<u>5.0</u>
Net income	<u>9.0%</u>	<u>8.4%</u>

COMPARISON OF THE THREE MONTHS ENDED SEPTEMBER 30, 2004 TO THE THREE MONTHS ENDED SEPTEMBER 30, 2003*Revenues*

In the first quarter of fiscal year 2005, our revenue increased \$9.5 million, or 1%, to \$1.046 billion from \$1.037 billion in the first quarter of fiscal year 2004. Revenues related to the Divested Federal Business and other small contracts (collectively, the 2004 Divestitures) were \$0.5 million and \$182.6 million in the quarters ended September 30, 2004 and 2003, respectively. Excluding the impact of the revenues related to the 2004 Divestitures, revenues increased from \$854 million in the first quarter of fiscal year 2004 to \$1.046 billion in the first quarter of fiscal year 2005, or 22%.

Internal revenue growth, excluding the impact of the revenues related to the 2004 Divestitures, for the first quarter of fiscal year 2005 was 11%. The remainder of the growth was related to acquisitions.

Revenue in our Government segment, which represents 53% of consolidated revenue for the first quarter of fiscal year 2005, decreased \$145.3 million, or 21%, to \$551.5 million in the first quarter of fiscal year 2005 compared to the same period last year. Revenues related to the 2004 Divestitures included in the Government segment were \$0.5 million and \$177.6 million for the quarters ended September 30, 2004 and 2003, respectively. Excluding the impact of the revenues related to the 2004 Divestitures, total Government segment revenues grew 6% in the first quarter of fiscal year 2005 to \$551 million from \$519.2 million in the first quarter of fiscal year 2004. Internal revenue growth, excluding the impact of the revenues related to the 2004 Divestitures, was 4%, primarily due to increased revenues for our Texas Medicaid, Department of Education, North Carolina Medicaid and New Jersey EZPass contracts and our unclaimed property business, offset by decreases related to the Georgia Department of Community Health contract and lower HIPAA related revenues. These contracts collectively represent 78% of our internal growth for the period in this segment. The remaining growth was from acquisitions.

Revenue in our Commercial segment, which represents 47% of consolidated revenue for the first quarter of fiscal year 2005, increased \$154.8 million, or 46%, to \$494.7 million in the first quarter of fiscal year 2005 compared to the same period last year. Revenues related to the Divested Federal Business included in the Commercial segment were \$5.1 million in the first quarter of fiscal year 2004. Excluding the impact of the revenues related to the Divested Federal Business, revenues grew 48% in the first quarter of fiscal year 2005 compared to the same period in fiscal year 2004. Internal revenue growth, excluding the impact of the revenues related to the Divested Federal Business, was 22% due primarily to increased revenues related to contracts with McDonalds, Nextel, Goodyear, University of Phoenix, Queens Medical Center, General Motors, General Electric, and Trilegiant, as well as revenues related to the termination of our relationship with Gateway, which was effectively terminated during the first quarter of fiscal year 2005. These increases were partially offset by the loss of the Roadway contract, which was terminated at the end of fiscal year 2004 due to

Table of Contents

Roadway's acquisition by Yellow Freight. These contracts collectively represent 72% of our internal growth for the period in this segment. The remaining growth was from acquisitions.

Operating Expenses

Wages and benefits decreased \$45.3 million, or 9.5%, to \$431.8 million. As a percentage of revenue, wages and benefits decreased 4.7% to 41.3% in the first quarter of fiscal year 2005 from 46% in the same quarter of fiscal year 2004. The sale of the Divested Federal Business and the acquisition of Lockheed Martin Corporation's commercial information technology outsourcing business were primarily responsible for the decrease in wages and benefits as a percentage of revenue. The Divested Federal Business, which provided primarily system integration services to the Federal Government and its agencies, had a higher proportion of labor related expenses to its revenues. The acquisition of Lockheed Martin Corporation's commercial information technology outsourcing business has a lower proportion of labor costs as a percentage of revenue than our business process outsourcing operations. Other factors that decreased wages and benefits as a percentage of revenue include Gateway revenues in the first quarter of fiscal year 2005, which had a lower proportion of wages and benefit costs due to the termination of the contract, and increased revenues related to our unclaimed property business in the first quarter of fiscal year 2005, which had a minimal impact on wages and benefits. In addition, we experienced a reduction in HIPAA remediation work during the first quarter of fiscal year 2005 versus 2004, which was labor intensive and therefore had a higher proportion of wages and benefits as compared to revenue.

Services and supplies increased \$10.1 million, or 3.8%, to \$275.1 million. As a percentage of revenue, services and supplies increased 0.8% to 26.3% in the first quarter of fiscal year 2005 from 25.5% in the first quarter of fiscal year 2004. The increase as a percentage of revenue is primarily due to increased subcontractor costs related to the new Common Services for Borrowers contract with the Department of Education and lower HIPAA revenues during the first quarter of fiscal year 2005, which had a low component of services and supplies expense. This increase was offset by the impact of the sale of the Divested Federal Business which had a lower component of services and supplies than our ongoing operations, as well as revenues related to the Gateway contract, which had a lower proportion of services and supplies expense during the first quarter of fiscal year 2005 due to the contract termination.

Rent, lease and maintenance increased \$23.1 million, or 24%, to \$119 million. As a percentage of revenue, rent, lease and maintenance increased to 11.4% in the first quarter of fiscal year 2005 from 9.3% in the first quarter of fiscal year 2004. This increase was primarily due to the impact of the sale of the Divested Federal Business in fiscal year 2004, which primarily provided system integration services to its clients. These services typically have a lower component of rent, lease and maintenance than information technology services, which have higher equipment costs. The acquisition of Lockheed Martin Corporation's commercial information technology outsourcing business also increased rent, lease and maintenance as a percentage of revenue, since information technology services have higher equipment costs than business process outsourcing services.

Depreciation and amortization increased \$12.9 million, or 31.2%, to \$54.3 million. As a percentage of revenue, depreciation and amortization increased 1.2%, to 5.2% due to increased capital expenditures and additions to intangible assets necessary to support our new business, as well as the cessation of \$4.3 million of depreciation in the first quarter of fiscal year 2004 as a result of classifying the assets related to the Divested Federal Business as held-for-sale at September 30, 2003. In addition, depreciation and amortization increased as a percentage of revenue due to accelerated intangible asset amortization related to the Gateway contract termination.

Interest expense

Interest expense decreased \$1.3 million in the first quarter of fiscal year 2005 compared to the first quarter of fiscal year 2004, primarily as a result of the conversion of our 3.5% Subordinated Convertible Notes to Class A common

stock in the third quarter of fiscal year 2004 partially offset by interest expense on higher average balances on our \$875 million Prior Facility (defined below) during the current year quarter.

Income tax expense

Our effective tax rate was approximately 37.5% in the first quarter of fiscal year 2005. Our effective tax rate is higher than the 35% statutory rate due to the net effect of state income and foreign income taxes.

LIQUIDITY AND CAPITAL RESOURCES

We finance our ongoing business operations through cash flows from operations and utilize excess cash flow combined with the issuance of debt and equity to finance our acquisition strategy.

During the first quarter of fiscal year 2005, we generated approximately \$119.1 million in cash flow from operations compared to \$59.4 million in the same period of fiscal year 2004. The increase from the prior year quarter was primarily a result of growth in our business and the corresponding increase in net income as well as an increase in accounts receivable collections. These increases were offset by the GSA/FTSA settlement of \$10 million (see Note 9), which was paid during the quarter, and increased payments for accrued compensation due to the timing of payments of employee benefit obligations. The first quarter of the fiscal year is typically our lowest quarter of cash flow due to the payment of annual incentive compensation in August.

Table of Contents

Free cash flow was approximately \$48.2 million for the first quarter of fiscal year 2005 versus approximately \$9.1 million for the first quarter of fiscal year 2004. The increase is due to the items discussed above offset by an increase in our capital expenditures, primarily related to new business signings. Our capital expenditures, defined as purchases of property, equipment and software, net, and additions to other intangible assets, were approximately \$70.9 million, or 6.8% of total revenues, and \$50.3 million, or 4.9% of total revenues, for the quarters ended September 30, 2004 and 2003, respectively.

Free cash flow is measured as operating cash flows (net cash provided by operating activities, as reported in our consolidated statements of cash flows) less capital expenditures (purchases of property, equipment and software, net of sales, as reported in our consolidated statements of cash flows) less additions to other intangible assets (as reported in our consolidated statements of cash flows). We believe this free cash flow metric provides an additional measure of available cash flow after we have satisfied the capital expenditure requirements of our operations, and should not be taken in isolation to be a measure of cash flow available for us to satisfy all our obligations and execute our business strategies. We also rely on cash flows from investing and financing activities, which together with free cash flow, are expected to be sufficient for us to execute our business strategies. Our measure of free cash flow may not be comparable to similarly titled measures of other companies. The following table sets forth the calculations of free cash flow (in thousands):

	Three months ended September 30,	
	2004	2003
Net cash provided by operating activities	\$ 119,123	\$ 59,382
Purchases of property, equipment and software, net	(61,587)	(42,760)
Additions to other intangible assets	(9,360)	(7,531)
	<hr/>	<hr/>
Free cash flow	\$ 48,176	\$ 9,091

During the three months ended September 30, 2004, net cash used in investing activities was \$144.9 million. We used \$70.7 million for acquisitions during the period, primarily the purchase of BlueStar Solutions, Inc. and Heritage Information Systems, Inc. Cash used for the purchase of property, equipment and software and additions to other intangible assets was \$70.9 million and \$50.3 million for the quarters ended September 30, 2004 and 2003, respectively. Cash used for the purchase of investments to support deferred compensation plan obligations was \$4.5 million for the quarter ended September 30, 2004.

During the first three months of fiscal year 2005, cash provided by financing activities was \$8.4 million. Such financing activities include proceeds from stock options and proceeds from issuance of treasury shares to fund employer contributions under our Employee Stock Purchase and 401(k) plans offset by net repayments of debt, primarily on our Prior Facility (defined below).

During the first quarter of fiscal year 2005, we had an \$875 million unsecured revolving credit facility (Prior Facility), which would have matured in December 2005. The Prior Facility provided for unsecured borrowings at rates based on our credit rating. Borrowings under the Prior Facility bore interest at LIBOR (1.84% at September 30, 2004) plus

0.575%. The agreement contained certain covenants, including maintaining certain interest coverage and debt-to-equity ratios, as defined by the agreement. At September 30, 2004, we were in compliance with these covenants.

Draws made under our Prior Facility were made to fund cash acquisitions, share repurchases and for general working capital requirements. During the twelve months ending September 30, 2004, the balance outstanding under our Prior Facility for borrowings ranged from \$0 to \$443.9 million. At September 30, 2004, we had approximately \$418.1 million available on our Prior Facility after giving effect to \$93.9 million of outstanding letters of credit that secure certain contractual performance and other obligations and which reduce the availability of our Prior Facility. At September 30, 2004, we had \$363 million outstanding on our Prior Facility, which is reflected in long-term debt.

On October 27, 2004, we entered into a Five Year Competitive Advance and Revolving Credit Facility Agreement with JPMorgan Chase Bank, as Administrative Agent (JP Morgan), and Wells Fargo Bank, National Association, as Syndication Agent, and various other lenders (the Credit Facility), with the proceeds from advances under the Credit Facility to be used for general corporate purposes. The Credit Facility provides for an unsecured \$1.5 billion multi-currency revolving credit and competitive advance facility (fully available in US\$, Euros or competitive loans in any currency). Multi-currency commitments (available in certain specified currencies other than US\$ or Euros) in an initial aggregate amount of \$200 million and swing line loans in an amount up to \$150 million are provided under the facility. The Credit Facility may be increased by up to \$300 million, subject to certain conditions. The lending commitments under the Credit Facility are scheduled to terminate October 27, 2009. At the closing of the Credit Facility, we borrowed \$316 million under the Credit Facility to pay off and terminate the Prior Facility. In addition, \$94 million in letters of credit were issued under the Credit Facility to replace letters of credit outstanding under the Prior Facility.

Other than competitive loans and swing line loans, advances under the Credit Facility will bear interest at a Eurocurrency Rate or a Base Rate (generally equal to the prime rate of JP Morgan), plus a percentage determined based on our credit rating. We are required to pay accrued interest at established intervals based upon our elected interest period.

Table of Contents

Among other fees, we will pay a facility fee of 0.110% per annum (due quarterly), based on our credit rating on the aggregate commitment of the Credit Facility, whether used or unused. We will also pay a utilization fee of 0.125% on the total amount outstanding under the Credit Facility for each day that such amount exceeds 50% of the aggregate commitments then in effect.

The Credit Facility contains customary covenants, including but not limited to, restrictions on our ability, and in certain instances, our subsidiaries' ability, to incur liens, merge or dissolve, finance its accounts receivables, or sell or transfer assets. The Credit Facility also limits our ability to incur additional indebtedness at the subsidiary level. In addition, we may not permit our consolidated leverage ratio to exceed 2.75 to 1.0 or our consolidated interest coverage ratio to be less than 3.50 to 1.0 during specified periods.

Upon the occurrence of certain events of default, our obligations under the Credit Facility may be accelerated and the lending commitments under the Credit Facility terminated. Such events of default include, but are not limited to, payment default to lenders, material inaccuracies of representations and warranties, covenant defaults, material payment defaults (other than under the Credit Facility), voluntary and involuntary bankruptcy proceedings, material money judgments, material ERISA events, or change of control.

Simultaneously with entering into the \$1.5 billion Credit Facility referenced above, we terminated our \$875 million Prior Facility on October 27, 2004. The lending commitments under the Prior Facility were evidenced by that certain Revolving Credit Agreement, dated as of September 12, 2002 among us and other borrowers from time to time party thereto, Wells Fargo Bank Texas, National Association, as administrative agent, and various other lenders, and were scheduled to expire in December 2005.

Certain contracts, primarily in our Government segment, require us to provide a surety bond or a letter of credit as a guarantee of performance. As of September 30, 2004, \$287.1 million of outstanding surety bonds and \$84.7 million of our outstanding letters of credit secure our performance of contractual obligations with our clients. In addition, we had approximately \$9.2 million of letters of credit which secure our casualty insurance programs. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations under each contract, the probability of which we believe is remote. We believe that we have sufficient capacity in the surety markets and liquidity from our cash flow and Credit Facility to respond to future requests for proposals.

At September 30, 2004, we had cash and cash equivalents of \$59.6 million compared to \$76.9 million at June 30, 2004. Our working capital (defined as current assets less current liabilities) increased \$29 million to \$435.9 million at September 30, 2004 from \$406.9 million at June 30, 2004. Our current ratio (defined as total current assets divided by total current liabilities) was 1.7 and 1.6 at September 30, 2004 and June 30, 2004, respectively. Our debt to capitalization ratio (defined as the sum of short-term and long-term debt divided by the sum of short-term and long-term debt and equity) was 12.1% and 12.6% at September 30, 2004 and June 30, 2004, respectively.

Our Board of Directors has authorized two share repurchase programs totaling \$1.25 billion of our Class A common stock. On September 2, 2003, we announced that our Board of Directors authorized a share repurchase program of up to \$500 million of our Class A common stock and on April 29, 2004, we announced that our Board of Directors authorized a new, incremental share repurchase program of up to \$750 million of our Class A common stock. The programs, which are open-ended, will allow us to repurchase our shares on the open market from time to time in accordance with SEC rules and regulations, including shares that could be purchased pursuant to SEC Rule 10b5-1. The number of shares to be purchased and the timing of purchases will be based on the level of cash and debt balances, general business conditions and other factors, including alternative investment opportunities. We intend to fund the repurchase program from various sources, including, but not limited to, cash on hand, cash flow from operations, and borrowings under our Credit Facility. As of September 30, 2004, we had repurchased approximately 15 million shares at a total cost of approximately \$743.2 million. We did not repurchase any shares in the first quarter

of fiscal year 2005. As of September 30, 2004, there remained approximately \$506.8 million authorized under our share repurchase programs. Through November 3, 2004, on a trade date basis, we have repurchased 15.2 million shares at a total cost of approximately \$753.9 million.

Management believes that available cash and cash equivalents, together with cash generated from operations and available borrowings under our Credit Facility, will provide adequate funds for our anticipated internal growth and operating needs, including capital expenditures, and to meet the cash requirements of our contractual obligations below. In addition, we intend to continue our growth through acquisitions, which could require significant commitments of capital. In order to pursue such opportunities we may be required to incur debt or to issue additional potentially dilutive securities in the future. No assurance can be given as to our future acquisitions and expansion opportunities and how such opportunities will be financed.

Table of Contents**DISCLOSURES ABOUT CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS AS OF SEPTEMBER 30, 2004 (IN THOUSANDS):**

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term debt (1)	\$365,722	\$ 2,103	\$363,619	\$	\$
Capital lease obligations	6,643	3,972	2,467	204	
Operating leases	481,416	140,876	175,807	77,822	86,911
Total Contractual Cash Obligations	\$853,781	\$146,951	\$541,893	\$78,026	\$86,911

Other Commercial Commitments	Total Amounts Committed	Amount of Commitment Expiration per Period			
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Standby letters of credit	\$ 93,939	\$ 93,939	\$	\$	\$
Surety bonds	287,061	249,591	37,455	15	
Total Commercial Commitments	\$381,000	\$343,530	\$ 37,455	\$ 15	\$

(1) Includes \$363 million related to our Prior Facility.

As discussed previously, certain contracts, primarily in our Government segment, require us to provide a surety bond or a letter of credit as a guarantee of performance. As of September 30, 2004, \$287.1 million of outstanding surety bonds and \$84.7 million of our outstanding letters of credit secure our performance of contractual obligations with our clients. In addition, we had approximately \$9.2 million of letters of credit which secure our casualty insurance programs. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations under each contract, the probability of which we believe is remote.

We are obligated to make certain contingent payments to former shareholders of acquired entities upon satisfaction of certain contractual criteria. As of September 30, 2004, the maximum aggregate amount of the outstanding contingent payments to former shareholders of acquired entities is approximately \$87 million. Upon satisfaction of the specified contractual criteria, any such payment would result primarily in a corresponding increase in goodwill. During the first quarter of fiscal year 2005, we paid \$0.4 million related to these obligations.

We have indemnified Lockheed Martin Corporation against certain specified claims from certain pre-sale litigation, investigations, government audits and other issues related to the Divested Federal Business. Our contractual maximum exposure under these indemnifications is \$85 million; however, we believe the actual exposure to be significantly less. As of September 30, 2004, other accrued liabilities include a reserve for these claims in an amount we believe to be adequate at this time. We have agreed to indemnify ManTech International Corporation with respect to the DOJ investigation related to purchasing activities at Hanscom during the period 1998-2000. (Please see Part II. Item 1. Legal Proceedings for further discussion.)

Our Education Services business, which is included in our Commercial segment, performs third party student loan servicing in the Federal Family Education Loan program (FFEL) on behalf of various financial institutions. We service these loans for investors under an outsourcing arrangement and do not acquire any servicing rights that are transferable by us to a third party. At September 30, 2004, we serviced a FFEL portfolio of approximately 1.5 million loans with an outstanding principal balance of approximately \$19.2 billion. Some servicing agreements contain provisions that, under certain circumstances, require us to purchase the loans from the investor if the loan guaranty has been permanently terminated as a result of a loan default caused by our servicing error. If defaults caused by us are cured during an initial period, any obligation we may have to purchase these loans expires. Loans that we purchase may be subsequently cured, the guaranty reinstated and then we repackage the loans for sale to third parties. We evaluate our exposure under our purchase obligations on defaulted loans and establish a reserve for potential losses, or default liability reserve, through a charge to the provision for loss on defaulted loans purchased. The reserve is evaluated periodically and adjusted based upon management's analysis of the historical performance of the defaulted loans. This reserve was approximately \$3.9 million and \$3.7 million at September 30, 2004 and June 30, 2004, respectively. During quarters ended September 30, 2004 and 2003, we purchased and charged against the reserve \$0.4 million and \$0.9 million of loans, respectively, and recovered or sold loans with proceeds totaling \$0.2 million and \$0.5 million, respectively, which were credited to our reserve. We recorded provisions of \$0.4 million and \$0.6 million in the quarters ended September 30, 2004 and 2003, respectively.

Table of Contents

CRITICAL ACCOUNTING POLICIES

The preparation of our financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. We base our estimates on historical experience and on various other assumptions or conditions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties and may result in materially different results under different assumptions and conditions. We believe that the following critical accounting policies used in the preparation of our consolidated financial statements involve significant judgments and estimates.

Revenue recognition. A significant portion of our revenue is recognized based on objective criteria that does not require significant estimates or uncertainties. For example, transaction volumes and time and costs under time and material and cost reimbursable arrangements are based on specific, objective criteria under the contracts. Accordingly, revenues recognized under these methods do not require the use of significant estimates that are susceptible to change. Revenue recognized using the percentage-of-completion accounting method does require the use of estimates and judgment as discussed below.

Our policy follows the guidance from SEC Staff Accounting Bulletin 104 Revenue Recognition (SAB 104). SAB 104 provides guidance on the recognition, presentation, and disclosure of revenue in financial statements and updates existing Staff Accounting Bulletin Topic 13 to be consistent with Emerging Issues Task Force Issue No. 00-21,

Revenue Arrangements with Multiple Deliverables (EITF 00-21). We recognize revenues when persuasive evidence of an arrangement exists, the services have been provided to the client, the sales price is fixed or determinable, and collectibility is reasonably assured.

During fiscal year 2004, approximately 62% of our revenue was recognized based on transaction volumes, approximately 19% were fixed fee based, wherein our revenue is earned as we fulfill our performance obligations under the arrangement, approximately 10% were related to cost reimbursable contracts, approximately 5% of our revenues were recognized using percentage-of-completion accounting and the remainder is related to time and material contracts.

Revenues on cost reimbursable contracts are recognized by applying an estimated factor to costs as incurred, such factor being determined by the contract provisions and prior experience. Revenues on unit-price contracts are recognized at the contractual selling prices of work completed and accepted by the client. Revenues on time and material contracts are recognized at the contractual rates as the labor hours and direct expenses are incurred.

Revenues for business process outsourcing services are recognized as services are rendered, generally on the basis of the number of accounts or transactions processed. Information technology processing revenues are recognized as services are provided to the client, generally at the contractual selling prices of resources consumed or capacity utilized by our clients. Revenues from annual maintenance contracts are deferred and recognized ratably over the maintenance period. Revenues from hardware sales are recognized upon delivery to the client and when uncertainties regarding customer acceptance have expired.

Revenues on certain fixed price contracts where we provide information technology system development and implementation services are recognized over the contract term based on the percentage of development and implementation services that are provided during the period compared with the total estimated development and implementation services to be provided over the entire contract using Statement of Position 81-1, Accounting for

Performance of Construction-Type and Certain Production-Type Contracts (SOP 81-1). SOP 81-1 requires the use of percentage-of-completion accounting for long-term contracts that are binding agreements between us and our customers in which we agree, for compensation, to perform a service to the customer s specifications. These services require that we perform significant, extensive and complex design, development, modification and implementation activities for our customers systems. Performance will often extend over long periods, and our right to receive future payment depends on our future performance in accordance with the agreement.

The percentage-of-completion methodology involves recognizing revenue using the percentage of services completed, on a current cumulative cost to total cost basis, using a reasonably consistent profit margin over the period. Due to the longer term nature of these projects, developing the estimates of costs often requires significant judgment. Factors that must be considered in estimating the progress of work completed and ultimate cost of the projects include, but are not limited to, the availability of labor and labor productivity, the nature and complexity of the work to be performed, and the impact of delayed performance. If changes occur in delivery, productivity or other factors used in developing the estimates of costs or revenues, we revise our cost and revenue estimates, which may result in increases or decreases in revenues and costs, and such revisions are reflected in income in the period in which the facts that give rise to that revision become known.

EITF 00-21 addresses the accounting treatment for an arrangement to provide the delivery or performance of multiple products and/or

Table of Contents

services where the delivery of a product or system or performance of services may occur at different points in time or over different periods of time. The Emerging Issues Task Force reached a consensus regarding, among other issues, the applicability of the provisions regarding separation of contract elements in EITF 00-21 to contracts where one or more elements fall within the scope of other authoritative literature, such as SOP 81-1. EITF 00-21 does not impact the use of SOP 81-1 for contract elements that fall within the scope of SOP 81-1, such as the implementation or development of an information technology system to client specifications under a long-term contract. Where an implementation or development project is contracted with a client, and we will also provide services or operate the system over a period of time, EITF 00-21 provides the methodology for separating the contract elements and allocating total arrangement consideration to the contract elements. We adopted the provisions of EITF 00-21 on a prospective basis to transactions entered into after July 1, 2003. We believe that EITF 00-21 did not have a material impact on our financial position or results of operations.

Revenues earned in excess of related billings are accrued, whereas billings in excess of revenues earned are deferred until the related services are provided.

Valuation of goodwill and intangibles. Due to the fact that we are primarily a services company, our business acquisitions typically result in significant amounts of goodwill and other intangible assets, which affect the amount of future period amortization expense and possible expense we could incur as a result of an impairment. In addition, in connection with our revenue arrangements, we incur costs to originate contracts and to perform the transition and setup activities necessary to enable us to perform under the terms of the arrangement. We capitalize certain incremental direct costs in connection with these activities and amortize them over the term of the arrangement. From time to time, we also provide certain inducements to customers in the form of various arrangements, including contractual credits, which are capitalized and amortized as a reduction of revenue over the term of the contract. The determination of the value of goodwill and other intangibles requires us to make estimates and assumptions about future business trends and growth. We continually evaluate whether events and circumstances have occurred that indicate the balance of goodwill or intangible assets may not be recoverable. In evaluating impairment, we estimate the sum of expected future cash flows derived from the goodwill or intangible asset. Such evaluation is significantly impacted by estimates and assumptions of future revenues, costs and expenses and other factors. If an event occurs which would cause us to revise our estimates and assumptions used in analyzing the value of our goodwill or other intangibles, such revision could result in a non-cash impairment charge that could have a material impact on our financial results.

Allowance for doubtful accounts. We make estimates of the collectibility of our accounts receivable. We specifically analyze accounts receivable and historical bad debts, customer credit-worthiness, current economic trends, and changes in our customer payment terms and collection trends when evaluating the adequacy of our allowance for doubtful accounts. Any change in the assumptions used in analyzing a specific account receivable may result in additional allowance for doubtful accounts being recognized in the period in which the change occurs.

RISKS RELATED TO OUR BUSINESS

The risks described below should not be considered to be comprehensive and all-inclusive. Additional risks that we do not yet know of or that we currently think are immaterial may also impair our business operations. If any events occur that give rise to the following risks, our business, financial condition, cash flow or results of operations could be materially and adversely affected, and as a result, the trading price of our Class A common stock could be materially and adversely impacted. These risk factors should be read in conjunction with other information set forth in this report, including our Consolidated Financial Statements and the related notes.

Loss of, or reduction of business from, clients. The loss of clients and/or the reduction of volumes and services provided to our clients could materially affect our revenues, profitability and cash flows. In addition, we incur fixed

costs related to our information technology outsourcing and business process outsourcing clients. Therefore the loss of any one of our significant clients could leave us with a significantly higher level of fixed costs than is necessary to serve our remaining clients, thereby reducing our revenues, profitability and cash flow.

Termination of all or a part of a contract by a client or deterioration of the financial condition of a client. We may be required to make significant capital investments in order to attract and retain large outsourcing agreements. The termination of all or a part of a client contract or the deterioration of the financial condition or prospects of a client has in the past, and may in the future, result in an impairment of the net book value of the assets recorded, including a portion of our intangible assets, and a reduction in our earnings and cash flow.

Competition. We expect to encounter additional competition as we address new markets and new competitors enter our existing markets. If we are forced to lower our pricing or if demand for our services decreases, our business, financial condition, results of operations, and cash flow may be materially and adversely affected. Some of our competitors have greater resources, and they may be able to use their resources to adapt more quickly to new or emerging technologies or to devote greater resources to the promotion and sale of their products and services. In addition, we must frequently compete with a client's own internal business process and information technology capabilities, which may constitute a fixed cost for the client.

Table of Contents

Difficulties in executing our acquisition strategy. We intend to continue to expand our business through the acquisition of complementary companies. We cannot, however, make any assurances that we will be able to identify any potential acquisition candidates or consummate any additional acquisitions or that any future acquisitions will be successfully integrated or will be advantageous to us. Without additional acquisitions, we are unlikely to maintain historical total growth rates.

Failure to properly manage our operations and our growth. We have rapidly expanded our operations in recent years. We intend to continue expansion in the foreseeable future to pursue existing and potential market opportunities. This rapid growth places a significant demand on our management and operational resources. In order to manage growth effectively, we must implement and improve our operational systems, procedures, and controls on a timely basis. If we fail to implement these systems, procedures and controls on a timely basis, we may not be able to service our clients' needs, hire and retain new employees, pursue new business, complete future acquisitions or operate our businesses effectively. We could also trigger contractual credits to clients. Failure to properly transition new customers to our systems, properly budget transition costs or accurately estimate new contract operational costs could result in delays in our contract performance, trigger service level penalties or result in contracts whose profit margins did not meet our expectations or our historical profit margins. Failure to properly integrate acquired operations could result in increased cost. As a result of any of these problems associated with expansion, our business, financial condition, and results of operations could be materially and adversely affected.

Government clients' termination rights, audits and investigations. A substantial portion of our revenues are derived from contracts with state and local governments and from contracts with the Department of Education. Governments and their agencies may terminate most of these contracts at any time, without cause. Also, our Department of Education contracts are subject to the approval of appropriations being made by the United States Congress to fund the expenditures to be made by the Federal government under these contracts. Additionally, government contracts are generally subject to audits and investigations by government agencies. If the government finds that we improperly charged any costs to a contract, the costs are not reimbursable or, if already reimbursed, the cost must be refunded to the government. If the government discovers improper or illegal activities in the course of audits or investigations, the contractor may be subject to various civil and criminal penalties and administrative sanctions, which may include termination of contracts, forfeiture of profits, suspension of payments, fines and suspensions or debarment from doing business with the government. Any resulting penalties or sanctions could have a material adverse effect on our business, financial condition, results of operations and cash flow. Further, the negative publicity that arises from findings in such audits, investigations or the penalties or sanctions therefore could have an adverse effect on our reputation in the industry and reduce our ability to compete for new contracts and may also have a material adverse effect on our business, financial condition, results of operations and cash flow.

Exercise of contract termination provisions and service level penalties. Most of our contracts with our clients permit termination in the event our performance is not consistent with service levels specified in those contracts, or provide for credits to our clients for failure to meet service levels. In addition, if clients are not satisfied with our level of performance, our clients may seek damages as permitted under the contract and/or our reputation in the industry may suffer, which could materially and adversely affect our business, financial condition, results of operations, and cash flow.

Pricing risks. Some of our contracts contain provisions requiring that our services be priced based on a pre-established standard or benchmark regardless of the costs we incur in performing these services. Some of our contracts contain pricing provisions that require the client to pay a set fee for our services regardless of whether our costs to perform these services exceed the amount of the set fee. Some of our contracts contain re-pricing provisions which can result in reductions of our fees for performing our services. In such situations, we are exposed to the risk that we may be unable to price our services to levels that will permit recovery of our costs, and may adversely affect our operating results and cash flow.

Loss of significant software vendor relationships. Our ability to service our clients depends to a large extent on our use of various software programs that we license from a small number of primary software vendors. If our significant software vendors were to terminate or refuse to renew our contracts with them, we might not be able to replace the related software programs and would be unable to serve our clients, which could have a material adverse effect on our business, revenues, profitability and cash flow.

Intellectual property infringement claims. We rely heavily on the use of intellectual property. We do not own the majority of the software that we use to run our business; instead we license this software from a small number of primary vendors. If these vendors assert claims that we or our clients are infringing on their software or related intellectual property, we could incur substantial costs to defend these claims, which could have a material effect on our profitability and cash flow. In addition, if any of our vendors' infringement claims are ultimately successful, our vendors could require us (1) to cease selling or using products or services that incorporate the challenged software or technology, (2) to obtain a license or additional licenses from our vendors, or (3) to redesign our products and services which rely on the challenged software or technology. If we are unsuccessful in the defense of an infringement claim and our vendors require us to initiate any of the above actions, then such actions could have a material adverse effect on our business, financial condition, results of operations and cash flow.

Rapid technological changes. The markets for our information technology services are subject to rapid technological changes and

Table of Contents

rapid changes in client requirements. We may be unable to timely and successfully customize products and services that incorporate new technology or to deliver the services and products demanded by the marketplace.

Federal and State laws relating to individually identifiable information. We process and store information relating to identifiable individuals, both in our role as a service provider and as an employer. As a result, we are subject to numerous Federal and State laws and regulations designed to protect individually identifiable information, including financial and health information. For example, in 1996, Congress passed the Health Insurance Portability and Accountability Act and as required therein, the Department of Health and Human Services established regulations governing, among other things, the privacy, security and electronic transmission of individually identifiable health information. We have taken measures to comply with each of those regulations on or before the required dates. Other Federal and State laws apply to the processing of individually identifiable information as well, and additional legislation may be enacted at any time. Failure to comply with these types of laws may subject us to liability for monetary damages, fines and/or criminal prosecution and may have a material adverse effect on our profitability and cash flow.

Budget deficits at, or fluctuations in the number of requests for proposals issued by, state and local governments and their agencies. A substantial portion of our revenues are derived from contracts with state and local governments and their agencies. Currently, many state and local governments that we have contracts with are facing potential budget deficits. Also, the number of requests for proposals issued by state and local government agencies is subject to fluctuation. While this has not had a material adverse impact on our results of operations through the first quarter of fiscal year 2005, it is unclear what impact, if any, these deficits may have on our future business, revenues, results of operations and cash flow.

International risks. Recently we have expanded our international operations and have also contemplated the acquisition of companies formed and operating in foreign countries. We have approximately 12,000 employees in Mexico, Guatemala, India, Ghana, Jamaica, Dominican Republic, Spain, Malaysia, Ireland, Germany and China, as well as several other countries, that support our commercial business process outsourcing services. International operations and acquisitions are subject to a number of risks including, but not limited to the following: fluctuations in foreign currency exchange rates; licensing and labor counsel requirements; staffing key managerial positions; cultural differences; integration of companies, their management, and operations, which are located in distant locations; data privacy laws adopted by various countries in which we do business, including but not limited to member states of the European Union; general economic conditions in foreign countries; additional expenses and risks inherent in conducting operations in geographically distant locations; laws of those foreign countries; political instability; trade restrictions such as tariffs and duties or other controls affecting foreign operations, and other factors that may adversely affect our business, financial condition and operating results.

Armed hostilities and terrorist attacks. Terrorist attacks and further acts of violence or war may cause major instability in the U.S. and other financial markets in which we operate. In addition, armed hostilities and acts of terrorism may directly impact our physical facilities and operations, which are located in North America, Central America, South America, Europe, Africa, Australia, Asia and the Middle East, or those of our clients. These developments subject our worldwide operations to increased risks and, depending on their magnitude, could have a material adverse effect on our business.

Failure to attract and retain necessary technical personnel and skilled management and qualified subcontractors. Our success depends to a significant extent upon our ability to attract, retain and motivate highly skilled and qualified personnel and to subcontract with qualified, competent subcontractors. If we fail to attract, train, and retain, sufficient numbers of these technically-skilled people or are unable to contract with qualified, competent subcontractors, our business, financial condition, and results of operations will be materially and adversely affected. Our success also depends on the skills, experience, and performance of key members of our management team and on qualified,

competent subcontractors. The loss of any key employee or the loss of a key subcontract relationship could have an adverse effect on our business, financial condition, cash flow, results of operations and prospects.

Servicing Risks. We service (for various lenders and under various service agreements) a portfolio of approximately \$19.2 billion of loans made under the Federal Family Education Loan Program, which loans are guaranteed by a Federal government agency. If a loan is in default, then a claim is made upon the guarantor. If the guarantor denies the claim because of a servicing error, then under certain of the servicing agreements we may be required to purchase the loan from the lender. Upon purchase of the loan, we attempt to cure the servicing errors and either sell the loan back to the guarantor (which must occur within a specified period of time) or sell the loan on the open market to a third party. We are subject to the risk that we may be unable to cure the servicing errors or sell the loan on the open market. Our reserves, which are based on historical information, may be inadequate if our servicing performance results in the requirement that we repurchase a substantial number of loans, which repurchase could have a material adverse impact on our cash flow and profitability.

Disruption in Utility or Network Services. Our services are dependent on the companies providing electricity and other utilities to our operating facilities, as well as network companies providing connectivity to our facilities and clients. While there are backup systems in many of our operating facilities, an extended outage of utility services may have a material adverse effect on our operations, revenues, cash flow and profitability.

Table of Contents

Indemnification Risk. Our contracts, including our agreements with respect to divestitures, include various indemnification obligations. If we are required to satisfy an indemnification obligation, that may have a material adverse effect on our business, profitability and cash flow.

Other Risks. We have attempted to identify material risk factors currently affecting our business and company. However, additional risks that we do not yet know of, or that we currently think are immaterial, may occur or become material. These risks could impair our business operations or adversely affect revenues, cash flow or profitability.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates and foreign currency exchange rates. There have been no material changes in our market risk from June 30, 2004. For further information regarding our market risk, refer to our Annual Report on Form 10-K for the fiscal year ended June 30, 2004.

ITEM 4. CONTROLS AND PROCEDURES

The management of the Company, including the Company's principal executive officer and principal financial officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) as of September 30, 2004. Based on such evaluation, the Company's principal executive officer and principal financial officer have concluded that such disclosure controls and procedures were operating effectively as of September 30, 2004. There have not been any changes in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) of the Securities Exchange Act of 1934) during the quarter ended September 30, 2004 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Table of Contents**PART II****ITEM 1. LEGAL PROCEEDINGS**

On December 16, 1998, a state district court in Houston, Texas entered final judgment against us in a lawsuit brought by 21 former employees of Gibraltar Savings Association and/or First Texas Savings Association (collectively, GSA/FTSA). The former employees alleged that they were entitled to the value of 803,082 shares of our stock (adjusted for February 2002 stock split) pursuant to options issued to the them in 1988 in connection with a former technology outsourcing services agreement between GSA/FTSA and us. The judgment against us was for approximately \$17 million, which included attorneys fees and pre-judgment interest. The judgment was appealed by the former employees and us. As a result of the appeals, the trial court s judgment was reversed and the case was remanded to the trial court for further proceedings, except that the trial court judgment was affirmed in part as to one of the former employees and the trial court s dismissal of certain of our affirmative defenses was upheld. The amount of the judgment for the one former employee whose judgment was upheld has been settled for \$1.3 million. In August 2004, mediation was conducted which resulted in the settlement of claims of the other former employees. As a result of this settlement, we accrued \$10 million in other operating expenses in the fourth quarter of fiscal year 2004 related to this settlement and paid \$10 million in full settlement of all claims of the other former employees in August 2004.

One of our subsidiaries, ACS Defense, LLC, and several other government contractors received a grand jury document subpoena issued by the U.S. District Court for the District of Massachusetts in October 2002. The subpoena was issued in connection with an inquiry being conducted by the Antitrust Division of the U.S. Department of Justice (DOJ). The inquiry concerns certain IDIQ (Indefinite Delivery Indefinite Quantity) procurements and their related task orders, which occurred in the late 1990s at Hanscom Air Force Base in Massachusetts. Our revenue from the contracts that we believe to be the focus of the DOJ s inquiry was approximately \$17.2 million for the fiscal year ended June 30, 2004, representing approximately 0.4% of our revenue for fiscal year 2004. In February 2004, we sold the contracts associated with the Hanscom Air Force Base relationship to ManTech International Corporation; however, we have agreed to indemnify ManTech with respect to this DOJ investigation. We are continuing our previously announced internal investigation of this matter through outside legal counsel and we are continuing to cooperate with the DOJ in producing documents in response to the subpoena. At this stage of this inquiry, we are unable to express an opinion as to its likely outcome.

Another of our subsidiaries, ACS State & Local Solutions, Inc. (ACS SLS), and a teaming partner of this subsidiary, Tier Technologies, Inc. (Tier), received a grand jury document subpoena issued by the U.S. District Court for the Southern District of New York in May 2003. The subpoena was issued in connection with an inquiry being conducted by the Antitrust Division of the DOJ. The inquiry concerns the teaming arrangements between ACS SLS and Tier on child support payment processing contracts awarded to ACS SLS, and Tier as a subcontractor to ACS SLS, in New York, Illinois and Ohio. Effective June 30, 2004, Tier was no longer a subcontractor to us in Ohio. Our revenue from the contracts for which Tier was a subcontractor was approximately \$67 million in fiscal year 2004 and approximately \$10.2 million in the first quarter of fiscal year 2005, representing approximately 1.6% and 1.0% of our fiscal year 2004 and first quarter fiscal year 2005 revenues, respectively. Our teaming arrangement also contemplated the California child support payment processing request for proposals, which was issued in late 2003; however, we did not enter into a teaming agreement with Tier for the California request for proposals. Based on Tier s recent filings with the Securities and Exchange Commission, we understand that on November 20, 2003 the DOJ granted conditional amnesty to Tier in connection with this inquiry pursuant to the DOJ s Corporate Leniency Policy. The policy provides that the DOJ will not bring any criminal charges against Tier as long as it continues to fully cooperate in the inquiry (and makes restitution payments if it is determined that parties were injured as a result of impermissible anticompetitive conduct). We are continuing our previously announced internal investigation of this matter through outside legal counsel and we are continuing to cooperate with the DOJ in producing documents in response to the

subpoena. At this stage of this inquiry, we are unable to express an opinion as to its likely outcome.

On January 30, 2004, the Florida Agency for Workforce Innovation's (AWI) Office of Inspector General (OIG) issued a report that reviewed 13 Florida workforce regions, including Dade and Monroe counties, and noted concerns related to the accuracy of customer case records maintained by our local staff. Our total revenue generated from the Florida workforce services amounts to approximately 1% of our total fiscal year 2004 revenue. In March 2004, we filed our response to the OIG report. On May 20, 2004, at a meeting of the Workforce Florida, Inc. (WFI) Board of Directors which was attended by representatives of ACS SLS, which is our subsidiary performing these services, a representative of WFI, which is the principal workforce policy organization for the State of Florida and oversees and monitors the administration of the State's workforce policy as well as the programs and services carried out by regional workforce boards and AWI, indicated that WFI did not see a systemic problem with the performance of these workforce services by ACS SLS and that it considered the issue closed. There were also certain contract billing issues that arose during the course of our performance of our workforce contract in Dade County, which ended in June 2003. However, during the first quarter of fiscal year 2005, we settled all financial issues with Dade County with respect to our workforce contract with that county and the settlement is fully reflected in our results of operations for the first quarter of fiscal year 2005. We were also advised in February 2004 that the SEC is conducting an informal investigation into the matters covered by the OIG's report. On March 22, 2004, ACS SLS received a grand jury document subpoena issued by the U.S. District Court for the Southern District of Florida. The

Table of Contents

subpoena was issued in connection with an inquiry being conducted by the DOJ and the Inspector General's Office of the U.S. Department of Labor (DOL) into the subsidiary's workforce contracts in Dade and Monroe counties in Florida, which expired in June 2003, and which were included in the OIG's report. On August 25, 2004, ACS SLS received a grand jury document subpoena issued by the U.S. District Court for the Middle District of Florida in connection with an inquiry being conducted by the DOJ and the Inspector General's Office of the DOL. The subpoena relates to a contract in Pinellas County in Florida for the period from January 1999 to the contract's expiration in March 2001, which was prior to our acquisition of this business from Lockheed Martin Corporation in August 2001. Further, we settled a civil lawsuit with Pinellas County in December 2003 with respect to claims related to the services rendered to Pinellas County by Lockheed Martin Corporation prior to our acquisition of ACS SLS (those claims having been transferred with ACS SLS as part of the acquisition), and which settlement resulted in Pinellas County paying ACS SLS an additional \$600,000. We are continuing our internal investigation of these matters through outside legal counsel and we are continuing to cooperate with the DOJ, the SEC and DOL to produce documents in connection with their investigations. At this stage of these investigations, we are unable to express an opinion as to their likely outcome. We anticipate that we may receive additional subpoenas for information in other Florida Workforce regions as a result of the AWI report issued in January 2004.

In June 2004, the Mississippi Department of Environmental Quality (MDEQ) issued a Notice of Violation to ACS Image Solutions, Inc., one of our subsidiaries, that alleged noncompliance with the Clean Water Act and the Federal Resource Conservation and Recovery Act. On September 20, 2004, we agreed to settle this matter with the MDEQ for \$150,000. We have closed the specific operation whose activities resulted in this Notice.

In addition to the foregoing, we are subject to certain other legal proceedings, inquiries, claims and disputes, which arise in the ordinary course of business. Although we cannot predict the outcomes of these other proceedings, we do not believe these other actions, in the aggregate, will have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our Board of Directors has authorized two share repurchase programs totaling \$1.25 billion of our Class A common stock. On September 2, 2003, we announced that our Board of Directors authorized a share repurchase program of up to \$500 million of our Class A common stock and on April 29, 2004, we announced that our Board of Directors authorized a new, incremental share repurchase program of up to \$750 million of our Class A common stock. The programs, which are open-ended, will allow us to repurchase our shares on the open market from time to time in accordance with SEC rules and regulations, including shares that could be purchased pursuant to SEC Rule 10b5-1. The number of shares to be purchased and the timing of purchases will be based on the level of cash and debt balances, general business conditions and other factors, including alternative investment opportunities. We intend to fund the repurchase program from various sources, including, but not limited to, cash on hand, cash flow from operations, and borrowings under our Credit Facility. As of September 30, 2004, we had repurchased approximately 15 million shares at a total cost of approximately \$743.2 million; however, we did not repurchase any shares in the first quarter of fiscal year 2005. As of September 30, 2004, there remained approximately \$506.8 million authorized under our share repurchase programs. Through November 3, 2004, on a trade date basis, we have repurchased 15.2 million shares at a total cost of approximately \$753.9 million.

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

At our 2004 Annual Meeting of Stockholders held on October 28, 2004, the following actions were taken:

1. The following Directors were elected for terms of office expiring in 2005:

Name	For	Withheld
Darwin Deason	166,228,418	3,714,952
Jeffrey A. Rich	167,047,189	2,896,181
Mark A. King	165,483,160	4,460,210
Joseph P. O Neill	167,926,056	2,017,314
Frank A. Rossi	167,918,836	2,024,534
J. Livingston Kosberg	167,920,647	2,022,723
Dennis McCuiston	167,944,202	1,999,168

Pursuant to the terms of our Notice of Annual Meeting and Proxy Statement, proxies received were voted, unless authority was withheld, in favor of the election of the seven nominees named.

2. A proposal by the Board of Directors to approve Performance Based Incentive Compensation for our executive officers was approved by the stockholders. The stockholders cast 164,894,545 votes in favor of this proposal and 4,202,525 votes were cast against this proposal. There were 845,900 abstentions and 400 broker non-votes.

3. A proposal by the Board of Directors to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2005 was approved by the stockholders. The stockholders cast 168,166,208 votes in favor of the proposal and 1,037,953 votes against the proposal. There were 739,209 abstentions.

INDEX TO EXHIBITS

Exhibit Number	Exhibit Name
3.1	Certificate of Incorporation of the Company (filed as Exhibit 3.1 to our Registration Statement on Form S-3, filed March 30, 2001, File No. 333-58038 and incorporated herein by reference).
3.2	Certificate Of Correction to Certificate of Amendment of the Company, dated August 30, 2001 (filed as Exhibit 3.2 to our Annual Report on Form 10-K, filed September 17, 2003 and incorporated herein by reference).
3.3	Bylaws of the Company, as amended and in effect on September 11, 2003 (filed as Exhibit 3.3 to our Quarterly Report on Form 10-Q, filed February 17, 2004 and incorporated herein by reference).
4.1	Form of New Class A Common Stock Certificate (filed as Exhibit 4.3 to our Registration Statement on Form S-1, filed May 26, 1994, File No. 33-79394 and incorporated herein by reference).
4.2	Amended and Restated Rights Agreement, dated April 2, 1999, between the Company and First City Transfer Company, as Rights Agent (filed as Exhibit 4.1 to our Current Report on Form 8-K, filed May 19, 1999 and incorporated herein by reference).
4.3	Amendment No. 1 to Amended and Restated Rights Agreement, dated as of February 5, 2002, by and between the Company and First City Transfer Company (filed as Exhibit 4.1 to our Current Report on Form 8-K, filed February 6, 2002 and incorporated herein by reference).
4.4	Form of Rights Certificate (included as Exhibit A to the Amended and Restated Rights Agreement (Exhibit 4.2)).
10.1	Form of Severance Agreement, each dated as of March 1, 2004 except as otherwise noted, by and between Affiliated Computer Services, Inc. and each of Jeffrey A. Rich, Mark A. King, Warren D. Edwards, Lynn Blodgett, Harvey Braswell (September 14, 2004), John Brophy and William L. Deckelman, Jr. (filed as Exhibit 10.1 to our Quarterly Report on Form 10-Q, filed May 17, 2004 and incorporated herein by reference).
10.2	Five Year Competitive Advance and Revolving Credit Facility Agreement, dated as of October 27, 2004, by and among Affiliated Computer Services, Inc., other Borrowers from time to time party thereto, the Lender Parties from time to time party thereto, JPMorgan Chase Bank, as Administrative Agent, Wells Fargo Bank, National Association, as Syndication Agent, and others (filed as Exhibit 10.1 to our Current Report on Form 8-K, filed October 29, 2004 and incorporated herein by reference).
10.3	Guaranty, dated as of October 27, 2004, by Affiliated Computer Services, Inc. for the benefit of JPMorgan Chase Bank, as Administrative Agent for the benefit of the Lender Parties (filed as Exhibit 10.2 to our Current Report on Form 8-K, filed October 29, 2004 and incorporated herein by reference).
31.1*	Certification of Chief Executive Officer of Affiliated Computer Services, Inc. pursuant to Rule 13a-14(a) promulgated under the Securities Exchange Act of 1934, as amended.

- 31.2* Certification of Chief Financial Officer of Affiliated Computer Services, Inc. pursuant to Rule 13a-14(a) promulgated under the Securities Exchange Act of 1934, as amended.
- 32.1* Certification of Chief Executive Officer of Affiliated Computer Services, Inc. pursuant to Rule 13a-14(b) promulgated under the Securities Exchange Act of 1934, as amended and Section 1350 of Chapter 63 of Title 18 of the United States Code. Pursuant to SEC Release 34-47551, this Exhibit is furnished to the SEC and shall not be deemed to be filed.
- 32.2* Certification of Chief Financial Officer of Affiliated Computer Services, Inc. pursuant to Rule 13a-14(b) promulgated under the Securities Exchange Act of 1934, as amended and Section 1350 of Chapter 63 of Title 18 of the United States Code. Pursuant to SEC Release 34-47551, this Exhibit is furnished to the SEC and shall not be deemed to be filed.
