**PROPOSAL NO. 1
ELECTION OF DIRECTORS**

Patterson-UTI's bylaws provide that the number of members of the Board of Directors of Patterson-UTI shall be fixed either by amendment to the bylaws or by resolution of the Board of Directors. Directors are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified. Patterson-UTI's bylaws provide that the affirmative vote of a plurality of the votes cast at the meeting at which a quorum is present is required for the election of directors. Shares as to which a stockholder withholds authority to vote on the election of directors and shares as to which a broker indicates that it does not have discretionary authority to vote on the election of directors will not be counted as voting thereon and will not affect the election of the nominees receiving a plurality of the votes cast.

The enclosed form of proxy provides a means for you to either:

vote **FOR** the election of the nominees to the Board of Directors listed below,

withhold authority to vote for one or more of the nominees, or

withhold authority to vote for all of the nominees.

The Board of Directors recommends that you vote FOR all of the nominees. Unless you give contrary instructions in your proxy, your proxy will be voted **FOR** the election of all of the nominees to the Board of Directors. If any nominee should become unable or unwilling to accept nomination or election, the person acting under the proxy will vote for the election of such other person as the Board of Directors may recommend. The Board has no reason, however, to believe that any of the nominees will be unable or unwilling to serve if elected.

The Board of Directors has adopted a written charter for the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee held one meeting during the year ended December 31, 2005.

On behalf of the Board, the Nominating and Governance Committee considers director nominees recommended by Patterson-UTI's stockholders if the recommendations are made in accordance with all legal requirements, including applicable provisions of Patterson-UTI's restated certificate of incorporation and bylaws. In accordance with Patterson-UTI's bylaws, in addition to any other applicable requirements, any person recommending a nominee for Patterson-UTI's Board must be a stockholder of record on the date of the giving of the notice provided for below and on the record date for the determination of stockholders entitled to vote at such annual meeting and must give timely notice of such nomination in writing to the Secretary of Patterson-UTI. a representation that such stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in the notice.

Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and to serve as a director if elected.

(1) These options were granted pursuant to the terms and conditions of the Patterson-UTI Energy, Inc. Amended and Restated 1997 Long Term Incentive Plan. These options vest over a three year period as follows: 33.33% on April 27, 2006, and then in equal monthly installments over the twenty-four months following April 27, 2006.

(2) The value of the options were estimated using the Black-Scholes option valuation model. The following assumptions were used in the calculation: dividend yield of 0.65%, risk-free interest rate of 3.84%, volatility of 26.95% and an expected term of 4 years. No discount was considered for the non-transferability or the risk of forfeiture of the options. The actual value, if any, of any option will depend on the amount, if any, by which the stock price exceeds the exercise price on the date the option is exercised. Thus, this valuation may not be a reliable indication as to the value and there is no assurance the value realized will be at or near the value estimated by the Black-Scholes model.

The following table sets forth information concerning stock options exercised in 2005 and stock options unexercised at December 31, 2005 for the executive officers listed in the Summary Compensation Table during 2005:

**CHANGE IN CONTROL ARRANGEMENTS; EMPLOYMENT CONTRACTS;
INDEMNIFICATION AGREEMENTS**

On January 29, 2004, Patterson-UTI entered into change in control agreements (each, an Agreement and collectively, the Agreements) with Messrs. Siegel, Talbott, Berns and Vollmer, (each, an Employee and collectively, the Employees). The Agreements were entered into to protect the Employees should a change in control occur, thereby encouraging the Employee to remain in the employ of Patterson-UTI and not be distracted from the performance of his duties to Patterson-UTI by the possibility of a change in control.

In the event of a change in control of Patterson-UTI in which an Employee s employment is terminated by Patterson-UTI other than for cause or by the Employee for good reason, the terms of the Agreement would entitle the Employee to, among other things:

a bonus payment equal to the greater of the highest bonus paid after the Agreement was entered into and the average of the two annual bonuses earned in the two fiscal years immediately preceding a change in control (such bonus payment prorated for the portion of the fiscal year preceding the termination date),

a payment equal to 2.5 times (in the case of Messrs. Siegel and Talbott) or 1.5 times (in the case of Messrs. Berns and Vollmer) of the sum of (1) the highest annual salary in effect for such Employee and (2) the average of the three annual bonuses earned by the Employee for the three fiscal years preceding the termination date, and

continued coverage under Patterson-UTI s welfare plans for up to three years (in the case of Messrs. Siegel and Talbott) or two years (in the case of Messrs. Berns and Vollmer).

Each Agreement provides the Employee with a full gross-up payment for any excise taxes imposed on payments and benefits received under the Agreements or otherwise including other taxes that may be imposed as a result of the gross-up payment.

A change in control is principally defined by the Agreement as:

an acquisition by any individual, entity or group of beneficial ownership of 35% or more of either Patterson-UTI s then outstanding Common Stock or the combined voting power of the then outstanding voting securities of Patterson-UTI entitled to vote in the election of directors,

a change occurs in which the members of the Board of Directors as of the date of the Agreement cease to constitute at least a majority of Patterson-UTI s Board of Directors unless that change occurs through a vote of at least a majority of the incumbent members of the Board of Directors, or

a change in the beneficial ownership of Patterson-UTI following consummation of a reorganization, merger, consolidation, sale of Patterson-UTI or any subsidiary of Patterson-UTI or a disposition of all or substantially all of the assets of Patterson-UTI in which the beneficial owners immediately prior to the transaction own 65% or less of outstanding Common Stock of the newly combined or merged entity.

The Agreements terminate on the first to occur of:

the Employee s death, disability or retirement,

the termination of the Employee s employment, or

three years from the date the Agreement was signed although, unless otherwise terminated, the Agreements will automatically renew for successive twelve-month periods unless Patterson-UTI notifies the Employee at least 90 days before the expiration of the initial term or the renewal period, as applicable, that the term will not be extended.

All unvested stock options held by executive officers vest upon a change of control as defined by the underlying stock option plan.

Table of Contents

Patterson-UTI has entered into written letter agreements with each of Messrs. Siegel, Berns and Vollmer confirming and evidencing the existing agreements between Patterson-UTI and each of them pursuant to which Patterson-UTI has agreed to pay each such person within ten days of the termination of his employment with Patterson-UTI for any reason (including voluntary termination by him), an amount in cash equal to his annual base salary at the time of such termination. Any such payment made by Patterson-UTI pursuant to the agreement evidenced in these letter agreements will reduce dollar for dollar any payment owed to such person, if any, pursuant to the change in control agreements discussed above.

In connection with Mr. Vollmer's appointment as Chief Financial Officer following Mr. Nelson's embezzlement (which is described in Note 2 of Notes to Consolidated Financial Statements included as a part of Item 8 of Patterson-UTI's Annual Report on Form 10-K, as amended, for the year ended December 31, 2005), Patterson-UTI delivered a letter to Mr. Vollmer dated February 6, 2006 (the "Letter Agreement"). Pursuant to the Letter Agreement, Patterson-UTI agreed, to the extent permitted by law and provided that the applicable accounting restatement has not resulted from Patterson-UTI's material non-compliance with financial reporting requirements under the federal securities laws as a result of knowing misconduct by Mr. Vollmer:

Patterson-UTI is not entitled to and will not make any claim against Mr. Vollmer for reimbursement of any bonus or other incentive or equity based compensation received by him or any profits realized by him from the sale of securities of Patterson-UTI, under Section 304 of the Sarbanes-Oxley Act of 2002 ("Section 304") on account of the restatement of any financial statements of Patterson-UTI covering any accounting period ending on or prior to September 30, 2005;

Patterson-UTI will not make any claim against Mr. Vollmer for any profits realized from the sale of securities of Patterson-UTI that were owned by him prior to his becoming Chief Financial Officer or were acquired by him on account of the exercise of options or the settling of restricted stock units that were held by him immediately prior to his becoming Chief Financial Officer, under Section 304 on account of the restatement of any financial statements of Patterson-UTI covering any period during which he was Chief Financial Officer; and

Patterson-UTI will indemnify Mr. Vollmer against all losses in connection with his defense of any claim against him under Section 304 in contravention of the two immediately preceding bullets, to the extent he is obligated to reimburse Patterson-UTI for any bonus or other incentive or equity compensation received by him or any profits realized by him for the sale of Patterson-UTI securities.

Notwithstanding recent court decisions that Patterson-UTI's right to make any such claims appears doubtful, Patterson-UTI has entered into this agreement because of the breadth of language of Section 304 and the uncertainty as to how the statute may be interpreted by the courts in the future and the importance of Mr. Vollmer's continued service as Chief Financial Officer.

Patterson-UTI has entered into an employment agreement with A. Glenn Patterson pursuant to which Patterson-UTI will employ Mr. Patterson for five years at an annual compensation of \$250,000 per year.

Patterson-UTI has entered into an indemnification agreement with each of its executive officers and directors containing provisions that may require Patterson-UTI, among other things, to indemnify such executive officers and directors against liabilities that may arise by reason of their status or service as executive officers or directors (subject to certain exceptions) and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

CERTAIN TRANSACTIONS

In connection with the acquisition by REMY Capital Partners III, L.P. ("REMY Capital") of an ownership interest in UTI in March 1995, REMY Capital succeeded to a registration rights agreement with UTI. As the successor-in-interest to UTI, Patterson-UTI assumed this registration rights agreement pursuant to which REMY Capital has the right to require Patterson-UTI to use its reasonable efforts to register shares held by REMY Capital under the Securities Act of 1933, as amended. In the event that such rights are

Table of Contents

exercised in connection with a primary offering proposed by Patterson-UTI (or a secondary offering with which Patterson-UTI agrees to participate), REMY Capital would bear its pro rata share of the costs of the offering, other than legal, accounting and printing costs, all of which Patterson-UTI would bear. In the event that REMY Capital elected to exercise such rights other than in connection with an offering in which Patterson-UTI participates, REMY Capital would bear all costs of the offering. These rights continue so long as REMY Capital continues to own the Common Stock that it acquired in March 1995.

Mr. Siegel, Chairman of the Board of Patterson-UTI, is President and sole stockholder of REMY Investors, which is the general partner of REMY Capital. Mr. Berns, a director and Senior Vice President of Patterson-UTI, is an executive of REMY Investors.

During 2005, Patterson-UTI paid approximately \$424,000 to TMP Truck and Trailer LP (TMP), during the period it was owned by Thomas M. Patterson (son of A. Glenn Patterson, Patterson-UTI s former President and Chief Operating Officer), for certain equipment and metal fabrication services. Purchases from TMP were at current market prices.

During 2005, Patterson-UTI paid approximately \$273,000 to Melco Services (Melco) for dirt contracting services and \$59,000 to L&N Transportation (L&N) for water hauling services. Both entities are owned by Lance D. Nelson, brother of Jonathan D. Nelson, Patterson-UTI s former Chief Financial Officer. Purchases from Melco and L&N were at current market prices.

Patterson-UTI operates certain oil and natural gas properties in which certain of its officers, former officers and members of their respective families have participated, either individually or through entities they control, in the prospects or properties in which Patterson-UTI has an interest. These participations, which have been on a working interest basis, have been in prospects or properties originated or acquired by Patterson-UTI. At December 31, 2005, affiliated persons were working interest owners of 254 of the 305 wells operated by Patterson-UTI. Sales of working interests are made by Patterson-UTI to reduce its economic risk in the properties. Generally, it is more efficient for Patterson-UTI to sell the working interests to these affiliated persons than to market them to unrelated third parties. Sales were made by Patterson-UTI at its cost, including Patterson-UTI s costs of acquiring and preparing the working interests for sale. These costs were paid by the working interest owners on a pro rata basis based upon their working interest ownership percentage. The price at which working interests were sold to affiliated persons was the same price at which working interests were sold to unaffiliated persons.

Table of Contents

The following table sets forth production revenues received and joint interest costs of each of the affiliated persons during 2005 for all wells operated by Patterson-UTI in which they have working interests. These amounts do not necessarily represent their profits or losses from these interests because the joint interest costs do not include the parties' related drilling and leasehold acquisition costs incurred prior to January 1, 2005. These activities resulted in a payable to the affiliated persons of approximately \$1.5 million at December 31, 2005 and a receivable from the affiliated persons of approximately \$1.2 million at December 31, 2005.

Nelson, our former Chief Financial Officer.

COMPENSATION COMMITTEE REPORT

Overview. The Compensation Committee sets and administers the policies that govern the compensation of executive officers and directors of Patterson-UTI. As part of its duties, the Compensation Committee determines the base compensation of executive officers, the total amount of bonuses to be paid annually and grants all awards of restricted stock, and stock options under Patterson-UTI's long-term incentive plan. The Compensation Committee consists of Messrs. Huff and Hunt, and Ms. Smith, each of whom is an

Table of Contents

independent director as defined by the NASD published listing standards. In performing its duties, the Compensation Committee receives recommendations and advice from senior management and the Audit Committee on individual performance and compensation matters. The Committee has also retained an independent compensation consultant who reports directly to the Compensation Committee.

The Compensation Committee's policy is to provide to the executives competitive compensation packages that will permit Patterson-UTI to attract and retain highly qualified individuals and to motivate and reward Patterson-UTI's executives for performance that benefits the Company and its shareholders. Patterson-UTI's executive compensation package has in recent years consisted of a combination of base salary, a 401(k) plan, cash bonus awards and long-term incentive opportunities in the form of restricted stock and stock options. The Compensation Committee is also currently engaged in a complete review of its compensation policies and structures for 2006 in light of market and other factors.

In fixing the compensation plan for 2005, the Compensation Committee considered a wide variety of information, including (i) compensation for executive officers at similarly situated oilfield service companies, (ii) historical and projected financial and operational results at Patterson-UTI, including margin improvements, rig activations, net income and earnings before interest, taxes, depreciation and amortization (EBITDA) and return on equity and capital, (iii) historical stock performance and (iv) individual performance. In addition, in reviewing bonuses for 2005, the Compensation Committee considered the record financial and operating results of Patterson-UTI in 2005, including \$738 million in EBITDA, a 295% increase in net income to \$373 million in 2005 from \$94 million in 2004, an increase in the average number of operating rigs to 276 in 2005 from 211 in 2004, a 116% increase in average margin per rig operating day to \$7,050 in 2005 from \$3,270 in 2004, and record results in Patterson-UTI's pressure pumping, fluids and oil and gas operations.

In November 2005 we discovered that our prior Chief Financial Officer, Jonathan D. Nelson, had engaged in a multi-year embezzlement scheme in which over \$77 million was stolen by him from Patterson-UTI. Following the discovery of the embezzlement, the Audit Committee of Patterson-UTI engaged in an investigation of the circumstances surrounding the embezzlement and determined that certain material weaknesses and significant deficiencies existed in our internal controls, including our control environment. The embezzlement also resulted in a concerted effort by Patterson-UTI to trace the stolen assets and to reflect properly the effects of the embezzlement in a restatement of the historical financial statements of Patterson-UTI for prior periods. As discussed below, bonus decisions for 2005 took into account the existence and circumstances of the embezzlement and the efforts of senior and other management in responding to it.

Executive Salaries. Executive salaries are reviewed annually by the Compensation Committee and are determined generally for each officer based on (i) subjective evaluations of the officer's functional position and specific performance, (ii) assessment of the relative importance of each position at Patterson-UTI, (iii) a comparison to salary ranges for executives of other companies in the oilfield service industry with market, financial and operational characteristics similar to those of Patterson-UTI, (iv) Patterson-UTI's financial results and position and (v) Patterson-UTI's performance compared to similar companies. The process applied by the Compensation Committee is intended to allow the committee to set salaries in a manner that is both competitive and reasonable within the industry. Historically, the Compensation Committee has tried to emphasize performance based compensation in the form of incentive bonuses and equity compensation so that salary adjustments have been minimized. As a result, the base compensation of our Chief Executive Officer and Chairman have historically been in the lower quartile against similarly situated companies with bonuses and equity incentives targeted to provide potential upper quartile compensation if the Company's operational, financial and stock performance were similarly strong.

Executive Bonuses. In recent years, including 2005, Patterson-UTI's bonus plan for its executive officers has been tied to a bonus pool based on 1% of Patterson-UTI's EBITDA. The bonus pool would then be allocated among the executive officers of Patterson-UTI based on a pre-determined sharing percentage of the bonus that reflected a team-based philosophy as well as the organizational structure of the top management team. The allocations have also been subject to modification by the Compensation Committee based on individual and corporate performance. In 2005 the potential executive bonus pool was \$7.4 million, but it was

Table of Contents

adjusted down to \$5.8 million in light of the Nelson embezzlement. In addition, the allocations under the bonus pool were adjusted in light of Nelson embezzlement, including the previously reported results of the Audit Committee's investigation and the significant efforts of management in responding to and addressing the financial and operational impacts of the embezzlement.

Stock Based Compensation. Equity based compensation consists of both awards of options to purchase Common Stock and shares of restricted stock. It is the policy of the Compensation Committee to review stock-based compensation of Patterson-UTI on at least an annual basis. Awards of stock-based compensation reflect the Board's and the Compensation Committee's desire to provide Patterson-UTI's employees who have substantial responsibility for management and growth with additional incentives by increasing their proprietary interest in the success of Patterson-UTI. The Compensation Committee believes that there should be an emphasis on equity-based compensation in order to provide incentives and rewards that are closely aligned with shareholders.

Patterson-UTI's equity-based compensation has historically been given more weight in our executive's overall compensation package than cash compensation. Grants of options and restricted stock vest over time, with restricted stock grants currently having a four year vesting schedule whereby no shares vest until three years after grant subject to certain acceleration events. The allocation of equity-based compensation among the executive officers of Patterson-UTI is made by the Compensation Committee based on various factors, including the executive's position and contribution to the overall goals and objectives of Patterson-UTI. The allocation and mix of equity-based compensation between restricted stock and options in 2005 followed this approach, with an emphasis on option based compensation over restricted stock in order to ensure that the greatest awards would only be earned for increasing the Company's equity value.

CEO 2005 Compensation. The compensation of the Chief Executive Officer of Patterson-UTI for 2005 was determined in accordance with the policies described above. Mr. Talbott's base annual salary was fixed at \$450,000 in 2005 reflecting Patterson-UTI's emphasis on incentive compensation. Mr. Talbott also received a cash bonus for 2005 of \$1,000,000 from the executive bonus pool discussed above. This bonus reflected the significant contribution that Mr. Talbott provided to Patterson-UTI in achieving operational successes, including record earnings, margins and profitability. However, this bonus was less than it otherwise would have been without the occurrence of the Nelson embezzlement. The Compensation Committee in 2005 also awarded Mr. Talbott 30,000 shares of restricted stock having a four-year vesting period and options to purchase 150,000 shares of Common Stock at the then current market price.

Share Ownership Guidelines. The Compensation Committee in 2004, with the approval of the Board, enacted share ownership guidelines applicable to all executive officers and directors of Patterson-UTI. Under this policy and subject to a four-year phase-in, each of Patterson-UTI's Chairman, Chief Executive Officer and President is required to hold shares of Common Stock having a value equal to at least five times the officer's base compensation and each of Patterson-UTI's other executive officers is required to hold shares of Common Stock having a value equal to at least three times the officer's base compensation. The Compensation Committee also imposed share ownership guidelines for directors. Under those guidelines, subject to a four-year phase-in, each director of Patterson-UTI is required to hold shares of Common Stock having a value equal to at least four times the cash compensation provided to the director.

Section 162(m) Considerations. In considering compensation decisions for the executive management of Patterson-UTI, the Compensation Committee of Patterson-UTI routinely considers the potential effect of section 162(m) of the tax code. Section 162(m) imposes a limitation on corporate tax deductions for non-performance based compensation to certain officers that exceeds \$1 million that can be taken by a publicly held corporation for compensation paid to certain of its executive officers. The Committee believes that tax deduction limitations should not compromise the Company's ability to establish and maintain appropriate executive compensation programs and reserves the right to award non-deductible pay in certain situations.

The following graph compares the cumulative stockholder return on the Common Stock of Patterson-UTI, for the period from December 31, 2000 through December 31, 2005, with the cumulative total return of the Standard and Poors 500 Stock Index, the Standard and Poors MidCap Index, the Oilfield Service Index, and a Patterson-UTI determined peer group. Patterson-UTI's 2005 peer group consists of Grey Wolf, Inc., Helmerich & Payne, Inc., Nabors Industries, Ltd., Pioneer Drilling Co. and Unit Corp. Patterson-UTI's 2004 peer group index comprised the companies in its 2005 peer group plus Precision Drilling Corp. Precision Drilling Corp. was not included in Patterson-UTI's 2005 peer group index because it was converted to a trust during 2005. All of the companies in Patterson-UTI's 2005 peer group are providers of land-based drilling services. The graph assumes investment of \$100 on December 31, 2000 and reinvestment of all dividends.
