PROXY STATEMENT FOR 2007 ANNUAL MEETING OF STOCKHOLDERS

May 31, 2007

INFORMATION CONCERNING SOLICITATION AND VOTING

Your vote is very important. For this reason our Board of Directors is requesting that you permit your shares of common stock to be represented at our 2007 Annual Meeting of Stockholders by the proxies named on the enclosed proxy card. This proxy statement contains important information for you to consider in deciding how to vote on the matters brought before the meeting.

General Information

Ultra Clean Holdings, Inc., referred to in this proxy statement as Ultra Clean, the Company or we, is soliciting the enclosed proxy for use at our Annual Meeting of Stockholders to be held on May 31, 2007 at 2:00 p.m., Pacific time or at any adjournment thereof for the purposes set forth in this proxy statement. Our annual meeting will be held at the offices of Davis Polk & Wardwell, 1600 El Camino Real, Menlo Park, California 94025.

This proxy statement and the enclosed proxy card will be mailed on or before May 4, 2007 to all stockholders entitled to vote at the meeting.

Who May Vote at Our Annual Meeting

All holders of our common stock, as reflected in our records at the close of business on April 18, 2007, the record date for voting, may vote at the meeting.

Each share of common stock that you owned on the record date entitles you to one vote on each matter properly brought before the meeting. As of the record date, there were issued and outstanding 21,197,396 shares of our common stock, \$0.001 par value.

Holding Shares as a Beneficial Owner (or in Street Name)

Most stockholders are considered the beneficial owners of their shares, that is, they hold their shares through a broker, bank or nominee rather than directly in their own names. As summarized below, there are some distinctions between shares held of record and those owned beneficially or in street name .

Stockholder of Record. If your shares are registered directly in your name with our transfer agent, you are considered the stockholder of record with respect to those shares. If you are a stockholder of record, we are sending these proxy materials directly to you. As our stockholder of record, you have the right to grant your voting proxy directly to us or to vote in person at the annual meeting. We have enclosed a proxy card for your vote.

Beneficial Owner. If your shares are held in a stock brokerage account or by a bank or nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker, bank, or nominee (who is considered the stockholder of record with respect to those shares). As the beneficial

owner, you have the right to direct your broker, bank, or nominee how to vote if you follow the instructions you receive from your broker, bank, or nominee. You are also invited to attend the annual meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the annual meeting

Table of Contents

unless you bring to the meeting an account statement or letter from the nominee stating that you beneficially owned the shares on April 18, 2007, the record date for voting.

How to Vote

You may vote in person at the meeting or by proxy. All valid proxies properly executed and received by us prior to or at the meeting will be voted in accordance with the instructions they contain. We recommend that you vote by proxy even if you plan to attend the meeting. You may change your vote at the meeting even if you have previously submitted a proxy.

How Proxies Work

This proxy statement is furnished in connection with the solicitation of proxies by Ultra Clean for use at the annual meeting and at any adjournment of that meeting. If you give us your proxy you authorize us to vote your shares at the meeting in the manner you direct. You may vote for all, some or none of our director candidates. You may also vote for or against the other proposals, or you may abstain from voting.

If you give us your proxy but do not specify how your shares shall be voted on a particular matter, your shares will be voted FOR the election of each of the named nominees for director, FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm and, with respect to any other matter that may come before the annual meeting, as recommended by our Board of Directors or otherwise in the proxies discretion.

If you hold your shares in street name, your broker, bank or nominee will include a voting instruction card with this proxy statement. You should vote your shares by following the instructions provided on the voting instruction card. Your broker, bank or nominee may provide instructions for voting by telephone or over the Internet.

Changing Your Vote

You have the right to revoke your previously submitted proxy at any time before the polls close at the annual meeting.

If you are a stockholder of record, you may revoke your proxy before it is voted by:

submitting a new proxy with a date later than the date of your previously submitted proxy;

notifying our Secretary in writing before the meeting that you wish to revoke your previously submitted proxy; or

voting in person at the meeting.

If you are a beneficial owner and your shares are held in the name of your broker, bank or nominee and you wish to revoke your previously submitted proxy, you should follow the instructions provided to you by your broker, bank or nominee. You may also revoke your proxy by voting in person at the meeting, provided you comply with the requirements indicated below.

Important Notice Regarding Delivery of Stockholder Documents

Only one proxy statement and set of accompanying materials is being delivered by us to multiple stockholders sharing an address until we receive contrary instructions from one or more of the stockholders. We will deliver, promptly

upon written or oral request, a separate copy of the proxy statement and accompanying materials to a stockholder at a shared address to which a single copy of the documents was delivered. A stockholder who wishes to receive a separate copy of the proxy statement and accompanying materials now or in the future, or stockholders sharing an address who are receiving multiple copies of proxy materials and wish to receive a single copy of such materials, should submit a written request to us at the address on page 5.

Table of Contents

Attending in Person

Any stockholder of record may vote in person. All meeting attendees will be required to present a valid, government-issued photo identification, such as a driver's license or passport, in order to enter the meeting.

If you are a beneficial owner and your shares are held in the name of your broker, bank or nominee, you must bring to the meeting an account statement or letter from the nominee indicating that you beneficially owned the shares at the close of business on April 18, 2007, the record date for voting.

Votes Needed to Hold the Meeting and Approve Proposals

In order to carry on the business of the annual meeting, stockholders entitled to cast a majority of the votes at a meeting of stockholders must be represented at the meeting, either in person or by proxy. In accordance with Delaware law, only votes cast for a matter constitute affirmative votes. A properly executed proxy marked abstain with respect to any matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Since abstentions will not be votes cast for a particular proposal, they will have the same effect as negative votes or votes against that proposal. Broker non-votes are also counted for the purpose of determining the presence of a quorum. Broker non-votes occur when shares held by a broker on behalf of a beneficial owner are not voted with respect to a particular proposal, which generally occurs when the broker has not received voting instructions from the beneficial owner and lacks the discretionary authority to vote the shares itself. We believe that the election of directors and ratification of our independent registered public accounting firm are considered routine proposals for which brokerage firms may vote shares held on behalf of beneficial owners who have not voted with respect to the particular proposal.

The election of directors requires a plurality of the votes cast for the election of directors. Plurality means that the seven nominees who receive the highest number of votes will be elected as directors. In the election of directors, votes may be cast in favor of or withheld from any or all nominees. The affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and entitled to vote on the item will be required to ratify the appointment of our independent registered public accounting firm for the current fiscal year. Approval of any other matter properly submitted to the stockholders at the annual meeting generally will require the affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and entitled to vote on that matter.

Security Ownership of Certain Beneficial Owners and Management

The table below sets forth information as of March 31, 2007 regarding the beneficial ownership (as defined by Rule 13d-3(d)(1) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) of our common stock by:

each person or group known by us to own beneficially more than five percent of our common stock;

each of our directors and named executive officers individually; and

all directors and officers as a group.

In accordance with applicable rules of the Securities and Exchange Commission rules, beneficial ownership includes voting or investment power with respect to securities and includes the shares issuable pursuant to stock options that

are exercisable within 60 days of March 31, 2007. Shares issuable pursuant to stock options are deemed outstanding for the purpose of computing the ownership percentage of the person holding such options but are not deemed outstanding for computing the ownership percentage of any other person. The percentage of beneficial ownership for the following table is based on 21,187,946 shares of common stock outstanding as of March 31, 2007.

Structure of Board of Directors and Corporate Governance Information

Director Independence. We are required to comply with the director independence rules of the NASDAQ Stock Market (NASDAQ) and the SEC. These rules require that the board of directors of a listed company be composed of a majority of independent directors and that the audit committee, compensation committee and nominating and corporate governance committees be composed solely of independent directors. NASDAQ provides an exemption from these director independence rules for a controlled company , a company of which more than 50% of the voting power is held by an individual, group or other company. Prior to March 15, 2006, FP-Ultra Clean, L.L.C. owned approximately 55% of our outstanding common stock and, as a result, we were exempt from NASDAQ's director independence rules. We have not been a controlled company since March 15, 2006. FP-Ultra Clean, L.L.C sold all of the shares of our common stock that it previously owned in February 2007. Under NASDAQ's transition rules, we

were required to and do comply with all NASDAQ and SEC director independence rules since March 15, 2007.

Table of Contents

Our Board of Directors has determined that Brian R. Bachman, Susan H. Billat, Kevin C. Eichler, David T. ibnAle and Thomas M. Rohrs are each independent in accordance with applicable NASDAQ and SEC rules. Accordingly, a majority of our Board of Directors is independent as required by NASDAQ rules.

Director Responsibilities. We are governed by our Board of Directors and its various committees that meet throughout the year. Our Board of Directors currently consists of seven directors. During 2006, there were six meetings of our Board of Directors. We expect directors to attend and prepare for all meetings of the Board of Directors and the meetings of the committees on which they serve. During 2006, Mr. Dipanjan Deb attended less than 75% of the aggregate number of meetings of the Board of Directors and the committees on which he served. Mr. Deb resigned from our Board of Directors in February 2007. Each of our other directors attended more than 75% of the aggregate number of meetings of the Board of Directors and the committees on which they served.

Executive Sessions of the Independent Directors. Our independent directors met in an executive session during each regularly scheduled meeting of the Board of Directors in 2006.

Chairman of the Board. On October 26, 2006, Clarence L. Granger was appointed Chairman of the Board of Directors. The duties of the Chairman include: (i) presiding over all meeting of the Board of Directors, (ii) ensuring that the Board works as a cohesive team and providing the leadership essential to achieve this objective, (iii) ensuring that the Board has adequate resources in support of its work and that the Board is provided with the information it requires, (iv) setting the Board's agenda in consultation with the lead director, and (v) meeting, from time to time, with the Corporate Governance and Nominating Committee to review the Board, Board Committees, Committee chairs and Board members' performance and to discuss nominees and directors to be submitted to the Board for approval.

Lead Director. On February 7, 2007, our Board of Directors appointed Kevin C. Eichler to serve as our lead director. The duties of the lead director include: (i) presiding over all meetings of non-executive independent directors, (ii) periodically providing the Chief Executive Officer input coming out of the independent directors' meeting, (iii) approving the meeting agenda for meetings of the Board of Directors and (iv) approving meeting schedules to assure that there is sufficient time for discussion of all items. The lead director also has the authority to call meetings of the Board of Directors.

Corporate Governance. Our Board of Directors has adopted corporate governance guidelines. These guidelines address items such as the qualifications and responsibilities of our directors and director candidates and the corporate governance policies and standards applicable to us in general. Consideration of Director Nominees

Director Qualifications. The Nominating and Corporate Governance Committee Charter specifies the criteria applied to nominees recommended by the Nominating and Corporate Governance Committee for a position on our Board of Directors. Candidates for director nominees are reviewed in the context of the current composition of our Board of Directors, our operating requirements and the interests of our stockholders. In

Table of Contents

conducting its assessment the committee considers issues of judgment, diversity, age, skills, background, experience and such other factors as it deems appropriate given the needs of the Company and the Board of Directors. The Nominating and Corporate Governance Committee also considers the independence, financial literacy and financial expertise standards required by our committee charters and applicable laws, rules and regulations, and the ability of the candidate to devote the time and attention necessary to serve as a director and a committee member.

Identifying and Evaluating Nominees for Director. In the event that vacancies are anticipated or otherwise arise, the Nominating and Corporate Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through current directors, professional search firms engaged by us, stockholders or other persons. Candidates are evaluated at regular or special meetings of the Nominating and Corporate Governance Committee and may be considered at any point during the year.

Stockholder Nominees. Candidates for director recommended by stockholders will be considered by the Nominating and Corporate Governance Committee. Such recommendations should include the candidate's name, home and business contact information, detailed biographical data, relevant qualifications for membership on our Board of Directors, information regarding any relationships between the candidate and Ultra Clean within the last three years and a written indication by the recommended candidate of the candidate's willingness to serve, and should be sent to the committee at the address listed on page 5 of this proxy statement.

Director Compensation

Employee directors do not receive any additional compensation for their service on our Board of Directors.

For fiscal 2007, each non-employee director will be paid a \$20,000 annual retainer fee, as well as, if applicable, a \$12,000 annual fee for serving on the Audit Committee, a \$5,000 annual fee per committee for serving on the Compensation and the Nominating and Corporate Governance Committees, a \$12,000 annual fee for serving as chairman of the Audit Committee, a \$10,000 annual fee for serving as chairman of the Compensation and Nomination and Corporate Governance Committees and \$15,000 annual fee for serving as lead director. In addition, upon initially joining our board, each non-employee director is granted options to purchase 15,000 shares of our common stock that vest over four years, and each year, on the date of our Annual Meeting of Stockholders, each non-employee director is granted 5,000 restricted shares of our common stock that fully vest after one year. The Compensation Committee annually reviews the numbers of shares of restricted stock to be granted to non-employee directors based on our average stock price and the median equity compensation levels at peer companies.

Stock Ownership Guidelines

The Board of Directors has adopted stock ownership guidelines for our directors to more closely align the interests of our directors with those of our stockholders. The guidelines were revised in February 2007 to provide that each director should maintain an investment in our common stock with an aggregate market value equal to three times the annual cash compensation amount paid to each such director as retainer for Board membership (currently a total of \$60,000), and that each director be allowed three years from either the date such director joined the Company's Board of Directors or until February 7, 2010, whichever is later, to accumulate such number of shares of our common stock.

Certain Relationships and Related Transactions

Relationship with Former Sieger Stockholders. As consideration for their stock in Sieger Engineering, Inc., we issued an aggregate of 2,599,393 shares of our common stock to former Sieger stockholders when Sieger was merged into one of our subsidiaries in June 2006. Set forth below is a brief description of the existing agreements between us and former Sieger stockholders.

FP-Ultra Clean, L.L.C., Leonid Mezhvinsky, other former Sieger stockholders and we entered into an amended and restated stockholders agreement. The stockholders agreement covers matters of corporate governance and information rights. Following the sale by FP Ultra Clean, L.L.C. of all of its holdings of our common stock in February 2007, the parties to the stockholders agreement determined that it is in their mutual best interest to terminate the agreement. The amended and restated stockholders agreement was terminated on April 25, 2007.

FP-Ultra Clean, L.L.C., Leonid Mezhvinsky, other former Sieger stockholders and we have also entered into an amended and restated registration rights agreement. The registration rights agreement provides that, at the request of FP-Ultra Clean, L.L.C. or Leonid Mezhvinsky as the agent for the former Sieger stockholders, we can be

Table of Contents

required to effect registration statements, or demand registrations, registering the securities held by FP-Ultra Clean, L.L.C. and the former Sieger stockholders. FP-Ultra Clean, L.L.C. does not currently own any of our securities and therefore has no demand registration right. Leonid Mezhvinsky can request us to register the securities held by former Sieger stockholders only once through December 29, 2009. We are required to pay the registration expenses in connection with each demand registration. We may decline to honor any of these demand registrations if the aggregate gross proceeds expected to be received does not equal or exceed \$5 million or if we have effected a demand registration within the preceding 90 days. If a demand registration is underwritten and the managing underwriter advises us that the number of securities offered to the public needs to be reduced, priority of inclusion in the demand registration shall be such that first priority shall be given to the stockholder requesting registration.

In addition to our obligations with respect to demand registrations, if we propose to register any of our securities, other than on Form S-8 or S-4 or successor forms of these forms, whether or not such registration is for our own account, former Sieger stockholders will have the opportunity to participate in such registration. Expenses relating to these incidental registrations are required to be paid by us.

If an incidental registration is underwritten and the managing underwriter advises us that the number of securities offered to the public needs to be reduced, priority of inclusion shall be such that first priority shall be given to us and second priority shall be given to former Sieger stockholders. We and the stockholders selling securities under a registration statement are required to enter into customary indemnification and contribution arrangements with respect to each registration statement.

Transactions with Management and Directors. The wife of Bruce Weir, our Vice President of Engineering, is the sole owner of Acorn Travel, Inc., our primary travel agency. We incurred fees for travel-related services, including the cost of airplane tickets, provided by Acorn Travel to Ultra Clean for a total of \$292,000 in the year ended December 31, 2006.

As part of the acquisition of Sieger, the Company leases a facility from an entity controlled by Leonid Mezhvinsky, our President and Director. From the time of acquisition to December 31, 2006, the Company incurred rent and other expense resulting from the lease of this facility of \$133,000.

Related Person Transaction Policy. Our Board of Directors adopted a Related Person Transaction Policy in February 2007. The policy requires the Board of Directors or the Nominating and Corporate Governance Committee to review and approve all related person transactions. Our directors and officers are required to promptly notify our Chief Compliance Officer of any transaction which potentially involves a related person. The Board or the Nominating and Corporate Governance Committee then considers all relevant facts and circumstances, including without limitation the commercial reasonableness of the terms of the transaction, the benefit and perceived benefit, or lack thereof, to the Company, opportunity costs of alternate transactions, the materiality and character of the related person's direct or indirect interest, and the actual or apparent conflict of interest of the related person. The Board or the Nominating and Corporate Governance Committee will not approve or ratify a related person transaction unless it has determined that, upon consideration of all relevant information, the transaction is in, or not inconsistent with, the best interests of the Company and its stockholders.

Board Recommendation

Our Board of Directors unanimously recommends that you vote FOR each of the nominees to the Board of Directors set forth in this Proposal One.

Preapproval Policy of Audit Committee of Services Performed by Independent Auditors

The Audit Committee's policy requires that the committee preapprove audit and non-audit services to be provided by the Company's independent auditors before the auditors are engaged to render services. The Audit Committee may delegate its authority to pre-approve services to one or more Audit Committee members; provided that such designees present any such approvals to the full Audit Committee at the next Audit Committee meeting.

All services provided by Deloitte & Touche were pre-approved in accordance with the Audit Committee's pre-approval policies.

EXECUTIVE OFFICER COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program and Philosophy

Our compensation program is intended to meet three principal objectives:

- (1) attract, reward and retain officers and other key employees;
- (2) motivate key employees to achieve short-term and long-term corporate goals that enhance stockholder value; and
- (3) promote internal equity and external competitiveness.

To meet these objectives, we have adopted the following overriding compensation policies:

Pay compensation that is competitive with the practices of our peer group of high technology and electronics manufacturing services (EMS) companies; and

Pay for performance by:

offering cash incentives upon achievement of challenging performance goals; and

providing long-term, significant incentives in the form of stock options and other equity, in order to retain those individuals with the leadership abilities necessary for increasing long-term stockholder value while aligning the interests of our officers with those of our stockholders.

Our Compensation Committee (the Committee) considers these policies in determining the appropriate allocation of long-term compensation, current cash compensation, short-term bonus compensation and other benefits. Other considerations include our business objectives, fiduciary and corporate responsibilities (including internal equity considerations and affordability), competitive practices and trends, and regulatory requirements. In determining the particular elements of compensation that will be used to implement our overall compensation policies, the Committee takes into consideration a number of factors related to corporate performance, such as earnings per share, profitability, return on invested capital, revenue growth, and operational and financial performance, as well as competitive practices among our peer group.

Process for Determining Executive Compensation

The Committee has engaged Radford Surveys + Consulting as its outside compensation consultant to assist in creating and administering our compensation policies. This consultant advises the Committee on all of the principal aspects of executive compensation, including base salaries and annual and long-term incentives. The consultant often attends meetings of the Committee and also communicates with the Committee outside of meetings. The consultant reports to the Committee rather than to management, although the consultant meets with management from time to time for purposes of gathering information on proposals that management may make to the Committee. The Committee has the authority to replace the compensation consultant or hire additional consultants at any time.

The Committee on occasion meets with Mr. Granger and other executives to obtain recommendations with respect to Company compensation programs, practices and packages. Management makes recommendations to the Committee on the base salary, bonus targets and equity compensation for the executive team and other employees. Although the Committee considers management's recommendations with respect to executive compensation, the Committee makes all final decisions on executive compensation matters. The Committee also typically seeks input from its independent compensation consultant prior to making any final determinations.

Mr. Granger attends most of the Committee's meetings, but the Committee also regularly holds executive sessions not attended by any members of management or non-independent directors. The Committee makes decisions with respect to Mr. Granger's compensation without him present. The Committee has the ultimate authority to make decisions with respect to the compensation of our named executive officers, but may, if it chooses, delegate some of its responsibilities to subcommittees. The Committee has not delegated authority with respect to the compensation of executive officers. The Committee has delegated to Mr. Granger the authority to grant stock

Table of Contents

options to employees below the level of corporate vice president under guidelines approved by the Committee and to make salary adjustments and short-term bonus decisions for employees (other than certain officers) under guidelines approved by the Committee.

Elements of Compensation

The following are the primary elements of our executive compensation program:

- (i) base salary;
- (ii) annual performance-based cash incentive opportunities;
- (iii) long-term incentives through equity awards; and
- (iv) retirement and welfare benefit plans, including a deferred compensation plan, a 401(k) plan, limited executive prerequisites and other benefit programs available generally to all employees.

We have selected these elements because each is considered useful and/or necessary to meet one or more of the principal objectives of our compensation policy. For example, base salary and bonus target percentage are set with the goal of attracting employees and adequately compensating and rewarding them for the time spent, the Company's annual financial results and the services they perform, while our equity programs are geared toward providing an incentive and reward for the achievement of long-term business objectives and retaining key talent. We believe that these elements of compensation, when combined, are effective, and will continue to be effective, in achieving the objectives of our compensation program.

The Committee reviews base salary, cash incentive programs and long-term incentive programs on at least an annual basis. Other programs are reviewed from time to time to ensure that benefit levels remain competitive but are not included in the annual determination of an executive's compensation package. In setting compensation levels for a particular executive, the Committee takes into consideration the proposed compensation package as a whole and each element individually, as well as the executive's past and expected future contributions to our business. Messrs Granger, Mezhvinsky and Sexton are the only executive officers with employment or severance agreements. All three agreements are discussed below under the section entitled Employment Contracts and Separation Agreements.

Base Salary and Annual Incentive Opportunities

Base salaries and cash bonuses are a significant portion of our executive compensation package. We believe this helps us remain competitive in attracting and retaining executive talent. Bonuses also are paid in order to motivate the achievement of the Company's business goals. The Committee determines each officer's target total annual cash compensation (salary and bonuses) after reviewing similar compensation information from a group of 17 companies. The selected peer group includes a broad range of companies in the high technology and EMS industries with whom we compete for executive talent. For fiscal 2006, the Committee considered major high technology and EMS competitors for executive talent and companies of at least a similar size and scope to us, as measured by market capitalization, revenue, net income and total shareholder return. The Committee annually reviews the peer group companies. The peer group currently consists of the following companies:

Advanced Energy Industries	Excel	RadiSys
Asyst Technologies	Intevac	SMTC
Brooks Automation	Mattson Technologies	Suntron

CTS
DDI
Entegris

Merix
MKS Instruments
Multi-Fineline

TTM
Zygo

Data on the compensation practices of this peer group generally is gathered through searches of publicly available information, including publicly available databases. Because publicly available information does not typically include information regarding target cash compensation, we also rely upon a compensation survey prepared by Radford Surveys + Consulting, the Committee's outside consultant, to benchmark target cash

Table of Contents

compensation levels against the above peer group. Peer group data is gathered with respect to base salary, bonus targets and all equity awards (primarily stock options).

Our goal is to target base pay and total cash compensation between the 25th and 50th percentile among the peer group. However, in determining base salary, the Committee also considers other factors such as job performance, skill set, prior experience, the executive's time in his or her position and/or with the Company, internal consistency regarding pay levels for similar positions or skill levels within the Company, external pressures to attract and retain talent, and market conditions generally. Positioning base pay below the 50th percentile of peer companies combined with targeting total compensation (including equity) at or above the 50th percentile, and therefore providing higher incentive compensation opportunity, promotes pay for performance while controlling fixed costs, rewards exceptional goal achievement and allows total compensation to be more competitive as a whole, while taking into account the cyclical nature of our business.

Base Salaries. For fiscal 2006, after taking into consideration compensation survey data and Mr. Granger's recommendations, the Committee set the base salaries of each of the named executive officers. For fiscal 2007, Mr. Granger made recommendations to the Committee with respect to proposed salaries for each of the named executive officers other than himself. The Committee reviewed Mr. Granger's recommendations and set salaries that were appropriate to achieve the desired market positioning for each executive. For fiscal 2007, Mr. Granger's salary was increased approximately 6% to \$370,000, based on Mr. Granger's contribution and our performance during the year and the desired market positioning relative to the peer group.

Incentive Bonuses. Payment of bonus amounts, and therefore total cash compensation, depends on the achievement of specified performance goals. For fiscal 2006, our performance goals were revenue and operating profit as a percent of revenue. Generally bonuses are paid under our Management Bonus Plan only if the performance goals that the Committee sets at the beginning of the fiscal year are achieved, although the Committee retains the ability to revise performance measures during the year or to award bonuses based on extraordinary events or individual performance even if corporate performance goals are not met. For fiscal 2006, the Committee approved performance bonuses at 90% of target amounts based on the Company's financial results for 2006 in the areas of revenue and operating profit performance compared to the goals set at the beginning of the year. In addition, in anticipation of the successful completion certain projects, including the successful integration of Sieger, the Committee approved a supplemental bonus in the aggregate amount of \$120,000 to be paid to executives and other employees in 2007. We intend the performance goals to be challenging to acknowledge and reflect strong corporate performance. The maximum allowable bonus under the plan is two times an employee's target annual bonus. Bonuses paid as a percentage of the aggregate target bonus were 70%, 0% and 90% in years 2004, 2005 and 2006, respectively, which we believe shows that the Company must perform well for executives to receive significant bonuses. To help achieve our goal of retaining key talent, an executive must remain an employee through the time the bonus is paid in order to be eligible for any bonus under the Management Bonus Plan.

For fiscal 2006, total target cash compensation (i.e., assuming target goals were met) was below the targeted 25th percentile of the peer group, which the Committee believes is slightly low but offset by higher equity packages as described below. The Committee intends to increase over time the target total cash compensation to between the 25th and 50th percentile, which the Committee feels is an appropriate range, when coupled with our long-term incentive package, to enable us to attract and retain key personnel and to motivate our executives to meet our business goals.

At the beginning of fiscal 2006, Mr. Granger made recommendations to the Committee with respect to target bonus amounts for each of the named executive officers, other than himself. The Committee reviewed these proposals, then established target bonus amounts which were consistent with our intention to migrate total cash compensation to between the 25th and 50th percentile level and approved Mr. Granger's recommendations substantially as proposed. In

setting Mr. Granger's target bonus, the Committee reviewed market competitive data and the strong belief that Mr. Granger significantly and directly influences our overall performance.

Long-Term Incentive Compensation

Our long-term incentive compensation has consisted mainly of stock options that vest over four years of continued employment. Our equity compensation program is intended to align the interests of our officers with

Table of Contents

those of our stockholders by creating an incentive for our officers to maximize stockholder value. The equity compensation program also is designed to encourage our officers to remain employed with us in a very competitive labor market. We target the value of equity awards to be in the 50th to 75th percentile of the peer group described above. The Committee believes it is appropriate to make awards in this higher percentile for equity awards compared to cash awards because of the nature of our industry which places importance on equity compensation, and our size and stage of growth.

All stock option grants have a per share exercise price equal to the fair market value of our common stock on the grant date. Under the terms of our plan, fair market value is defined as the closing price on the day preceding the grant date. We have implemented procedures to regularize our option grant process, such as making new hire grants on the same day each month. The Committee has not granted, nor does it intend in the future to grant, equity compensation awards to executives in anticipation of the release of material nonpublic information that is likely to result in changes to the price of our common stock, such as a significant positive or negative earnings announcement. Similarly, the Committee has not timed, nor does it intend in the future to time, the release of material nonpublic information based on equity award grant dates. Because our stock option awards typically vest over a four year period, we believe recipients are motivated to see our stock price grow in the long-term rather than benefit from an immediate but short-term increase in the price of our stock following a grant.

The Committee regularly monitors the business environment in which we operate and may make changes at any time to our equity compensation program to help us meet our goals, including achieving long-term stockholder value. Stock options have been an effective tool for meeting our goal of increasing long-term stockholder value by tying the value of the stock options to improved performance in the future. Employees are able to profit from stock options only if our stock price increases in value over the stock option's exercise price.

The Committee further believes that our ability to attract, retain and motivate key executives is critical to achieving strategic goals, which in turn helps build long-term value creation. The number of options the Committee grants to each officer is determined based on a variety of factors, including market data collected regarding the equity grant ranges for the peer companies listed above and our goal to award grants between the 50th to 75th percentile of this group, as well as the performance rating each executive is given by Mr. Granger. Mr. Granger assigns a performance rating to each member of the executive team that reports to him based on a number of factors, including the individual's accomplishments during the prior fiscal year and over the course of his or her service, how effectively the individual reflects Company values, and the feedback regarding the executive from other employees who have an interest in or are affected by the executive's job performance.

For fiscal 2006, the Committee relied upon the above factors to approve stock option grants for the named executive officers. In approving the grant to Mr. Granger, the Committee also considered market pay data provided by its compensation consultant and the strong belief that the Chief Executive Officer significantly and directly influences our overall performance.

Other Benefit Plans

Deferred Compensation. We maintain a non-qualified deferred compensation plan, which allows eligible employees, including executive officers, to voluntarily defer receipt of the portion of his/her salary above a specified amount and all or a portion of a bonus payment until the date or dates elected by the participant, thereby allowing the participating employee to defer taxation on such amounts. This plan gives highly compensated employees the opportunity to defer more compensation than they would otherwise be permitted to defer under a tax-qualified retirement plan, such as our 401(k) plan. We believe that deferred compensation is a competitive practice to enable us to attract and retain top talent. We do not make matching or other employer contributions to the deferred compensation plan because we believe the deferral opportunity is enough of a benefit on its own.

Executive Perquisites. In addition to health care coverage that is generally available to our other employees, our executive officers are eligible for annual physical examinations more extensive than under the Company's standard plans. Mr. Granger and employees in sales and marketing also receive a car allowance.

Other Benefits. We also offer a number of other benefits to the executive officers pursuant to benefit programs that provide for broad-based employee participation. For example, our retirement plan is a tax-qualified

Table of Contents

401(k) plan, which is a broad-based employee plan. Under the 401(k) plan, all participating employees (including executive officers) are eligible to receive limited matching contributions that are subject to vesting over time.

The main objectives of our benefits programs are to give our employees access to quality healthcare, financial protection from unforeseen events, assistance in achieving retirement financial goals, enhanced health and productivity and to provide support for global workforce mobility, in full compliance with applicable legal requirements. These generally available benefits typically do not specifically factor into decisions regarding an individual executive's total compensation or equity award package.

Employment and Severance Agreements

We have entered into employment agreements with Messrs. Granger, Sexton and Mezhvinsky. As further described in detail below in this proxy statement, these employment agreements would provide for severance benefits in the event of certain terminations of employment. We believe these agreements offer severance benefits that are reasonable in amount, while providing competitive protection to key executive officers who would be likely to receive similar benefits from our competitors. The Committee reviews the potential costs and triggering events of employment and severance agreements before approving them.

Accounting and Tax Considerations

In designing its compensation programs, the Committee generally considers the accounting and tax effects as well as direct costs. For example, we intend to limit the accounting expense for our equity compensation programs in an amount determined by the Committee from time to time. When determining how to apportion between differing elements of compensation, the goal is to meet our compensation objectives while maintaining cost neutrality. For example, if we increase benefits under one program resulting in higher compensation expense, we may seek to decrease costs under another program based on our determination of the affordability level. We recognize a charge to earnings for accounting purposes when stock options are granted. The Committee considers the impact to dilution and overhang when making decisions pertaining to equity instruments.

We do not require executive compensation to be tax deductible for the Company, but instead balance the cost and benefits of tax deductibility to comply with our executive compensation goals.

Nonqualified Deferred Compensation

We maintain a non-qualified deferred compensation plan, the Ultra Clean Holdings, Inc. 2004 Executive Deferred Compensation Plan (the EDCP), which allows eligible employees, including executive officers, to voluntarily defer receipt of the portion of his/her salary above a specified amount and all or a portion of a bonus payment until the date or dates elected by the participant, thereby allowing the participating employee to defer taxation on such amounts. Amounts credited to the EDCP consist only of cash compensation that has been earned and payment of which has been deferred by the participant. The amounts deferred under the EDCP are credited with realized gains on investments and interest at market rates on cash balances. We do not make matching or other employer contributions to the EDCP.

Employment Contracts and Separation Agreements

Employment Agreement with Clarence L. Granger. We entered into an employment agreement with Clarence L. Granger dated November 15, 2002, as amended on March 2, 2004 and May 9, 2005. In October 2006, Mr. Granger agreed to serve as our Chairman and Chief Executive Officer. His amended employment agreement has a term through March 2009 and provides for a base salary of \$350,000. Pursuant to his original employment agreement, Mr. Granger received a signing bonus, of which approximately \$74,000 was paid in cash, \$88,000 was paid in cash but used to purchase our common stock, and approximately \$265,000 was placed in a deferred compensation arrangement payable after seven years (or earlier in the discretion of our Board of Directors). Under this deferred compensation arrangement, we agreed to pay interest of 2.7% per year on the deferred amount, payable on June 30 and December 31 of each year. Under his employment agreement, Mr. Granger is eligible to receive an annual bonus of up to \$175,000, subject to the satisfaction of performance goals as may be set by our Board of Directors. In the event that Mr. Granger is terminated by us without cause at any time or Mr. Granger resigns within six months after a

change of control with good reason, he is entitled to continue to receive 12 months of base salary (offset by any income earned by him during such 12 months), health coverage and accelerated vesting of stock options. If Mr. Granger had been terminated on December 31, 2006, he would have received \$350,000 in severance, a value of approximately \$9,000 in health benefits and accelerated vesting of 155,625 options which had an aggregate intrinsic value (based on our stock price as of December 31, 2006, less the option exercise price) of approximately \$910,117.

Employment Agreement with Leonid Mezhvinsky. We entered into a one-year employment agreement with Leonid Mezhvinsky dated June 29, 2006. Under this agreement, Mr. Mezhvinsky will receive a base salary of \$297,500 and is eligible to receive an annual bonus of up to \$148,750, subject to the satisfaction of performance goals as may be set by our Board of Directors. Mr. Mezhvinsky was granted a stock option to purchase 315,000 shares of common stock of the Company. In the event that Mr. Mezhvinsky is terminated by us without cause, he is entitled to receive 12 months of base salary, earned and unpaid bonus, health coverage and accelerated vesting of stock options. If Mr. Mezhvinsky had been terminated on December 31, 2006, he would have received \$297,500 in severance, a value of approximately \$13,000 in health benefits and accelerated vesting of 111,562 options which had an aggregate intrinsic value (based on our stock price as of December 31, 2006, less the option exercise price) of approximately \$483,063.

Employment Agreement with Jack Sexton. We entered into an employment agreement with Jack Sexton dated June 21, 2005. Under this agreement, Mr. Sexton will receive a base salary of \$200,000 and is eligible to receive an annual bonus with a target bonus of 40% of base salary, subject to the satisfaction of performance goals as may be set by our Board of Directors. In the event that Mr. Sexton is terminated by us without cause, he is entitled to receive 12 months of base salary, health coverage and accelerated vesting of stock options. If Mr. Sexton had been terminated on December 31, 2006, he would have received \$220,000 in severance, a value of approximately \$10,000 in health benefits and accelerated vesting of 53,125 options which had an aggregate intrinsic value (based on our stock price as of December 31, 2006, less the option exercise price) of approximately \$263,038.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee of the Board of Directors shall not be deemed to be soliciting material or to be filed with the SEC nor shall this information be incorporated by reference into any future filing under the Securities Act of 1933 (the Securities Act) or the Securities Exchange Act of 1934 (the Exchange Act), each as amended, except to the extent that Ultra Clean specifically incorporates it by reference into such filing.

The Audit Committee (the Committee) serves in an oversight capacity and is not intended to be part of Ultra Clean s operational or managerial decision-making process. Ultra Clean s management is responsible for preparing the consolidated financial statements, and its independent registered public accounting firm, Deloitte & Touche LLP, is responsible for auditing those statements. The Committee s principal purpose is to monitor these processes.

The Committee is currently composed of three directors, each of whom meets the requirements of applicable NASDAQ Stock Market and Securities and Exchange Commission rules for independence. The key responsibilities of our committee are set forth in our charter, which is available on our website at

www.uct.com/investors/governance.html.

The Committee regularly met and held discussions with management and Deloitte & Touche LLP in 2006. Management represented to us that Ultra Clean's consolidated financial statements were prepared in accordance with generally accepted accounting principles applied on a consistent basis, and we have reviewed and discussed the

Table of Contents

quarterly and annual earnings press releases and consolidated financial statements with management and Deloitte & Touche LLP. We also discussed with Deloitte & Touche LLP matters required to be discussed by Statement on Auditing Standards No. 61 (Communication With Audit Committees), as amended, and rule 2-07 (communications with Audit Committee) of Regulation S-X.

The Committee has discussed with Deloitte & Touche LLP its independence from Ultra Clean and its management, including the matters, if any, in the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions With Audit Committees). The Committee also considered whether Deloitte & Touche LLP's provision of audit and non-audit services to Ultra Clean by Deloitte & Touche LLP is compatible with maintaining the independence of Deloitte & Touche from the Company.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. To avoid certain potential conflicts of interest, the law prohibits a publicly traded company from obtaining certain non-audit services from its independent audit firm. The Company obtains these services from other service providers as needed.

Based on the reviews and discussions referred to above, we recommended to our Board of Directors, and our Board of Directors approved, that the audited financial statements be included in Ultra Clean's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the Securities and Exchange Commission.

We have appointed Deloitte & Touche LLP as Ultra Clean's independent auditors for 2007.
