GAMESTOP CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except per share data)
(Unaudited)

1. Basis of Presentation

GameStop Corp. (together with its predecessor companies, GameStop, we, our, or the Company), a Delaware corporation, is the world's largest retailer of video games and entertainment software. The unaudited consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. All dollar and share amounts in the consolidated financial statements and notes to the consolidated financial statements are stated in thousands of U.S. dollars unless otherwise indicated.

The unaudited consolidated financial statements included herein reflect all adjustments (consisting only of normal, recurring adjustments) which are, in the opinion of the Company's management, necessary for a fair presentation of the information for the periods presented. These unaudited condensed consolidated interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and do not include all disclosures required under GAAP for complete financial statements. These consolidated financial statements should be read in conjunction with the Company's annual report on Form 10-K for the 52 weeks ended February 2, 2008 (fiscal 2007). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by management could have significant impact on the Company's financial results. Actual results could differ from those estimates.

Due to the seasonal nature of the business, the results of operations for the 26 weeks ended August 2, 2008 are not indicative of the results to be expected for the 52 weeks ending January 31, 2009 (fiscal 2008).

Certain reclassifications have been made to conform the prior period data to the current interim period presentation.

2. Change in Accounting Principles

Effective February 3, 2008, the Company implemented Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for its measurement and expands disclosures about fair value measurements. The Company elected to implement this Statement with the one-year deferral permitted by FASB Staff Position (FSP) 157-2 for nonfinancial assets and nonfinancial liabilities measured at fair value, except those that are recognized or disclosed on a recurring basis (at least annually). We do not expect any significant impact to our consolidated financial statements when we implement SFAS 157 for these assets and liabilities.

Due to our election under FSP 157-2, for fiscal 2008, SFAS 157 applies to our foreign exchange contracts, foreign currency options and cross-currency swaps (together, the Foreign Currency Contracts), Company-owned life insurance policies with a cash surrender value and certain nonqualified deferred compensation liabilities that are measured at fair value on a recurring basis in periods subsequent to initial recognition. The implementation of

SFAS 157 did not result in a significant change in the method of calculating fair value of assets or liabilities. The primary impact from adoption was additional disclosures.

SFAS 157 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly through market-

Table of Contents**GAMESTOP CORP.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

corroborated inputs. Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants.

We value our Foreign Currency Contracts, Company-owned life insurance policies with cash surrender values and certain nonqualified deferred compensation liabilities based on Level 2 inputs using quotations provided by major market news services, such as Bloomberg and The Wall Street Journal, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures. When appropriate, valuations are adjusted to reflect credit considerations, generally based on available market evidence.

The following table provides the fair value of our financial assets and liabilities measured on a recurring basis and recorded on our condensed consolidated balance sheet as of August 2, 2008:

| | August 2, 2008 Level 2 (In thousands) |
|-------------------------------------|--|
| Assets | |
| Foreign Currency Contracts | \$ 2,951 |
| Company-owned life insurance | 3,220 |
| Total assets | \$ 6,171 |
| Liabilities | |
| Foreign Currency Contracts | \$ 11,165 |
| Non-qualified deferred compensation | 1,424 |
| Total liabilities | \$ 12,589 |

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). This Statement permits entities the option to measure many financial instruments and certain other items at fair value at specific election dates. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 was effective for our Company on February 3, 2008. The adoption of SFAS 159 did not have a material impact on our consolidated financial statements.

3. Business Combinations and Goodwill

On April 5, 2008, the Company purchased all the outstanding stock of Free Record Shop Norway AS, a Norwegian private limited liability company (FRS), for \$21,006, net of cash acquired. FRS operates 49 record stores in Norway and also operates office and warehouse facilities in Oslo, Norway. The Company is converting these stores into video game stores with an inventory assortment similar to its other stores in Norway. The acquisition was accounted for

using the purchase method of accounting, with the excess of the purchase price over the net assets acquired, in the amount of \$17,369, recorded as goodwill.

In 2003, the Company purchased a 51% controlling interest in GameStop Group Limited which operates stores in Ireland and the United Kingdom. Under the terms of the purchase agreement, the minority interest owners of the remaining 49% have the ability to require the Company to purchase their remaining shares in incremental percentages at a price to be determined based partially on the Company's price to earnings ratio and GameStop Group Limited's earnings. On May 21, 2008, the minority interest owners exercised their right to sell one-third of their shares, or approximately 16% of GameStop Group Limited, to the Company under the terms of the original purchase agreement for \$27,383. The transaction was completed in June 2008 and recorded in accordance with the provisions of the Statement of Financial Accounting Standards No. 141, *Business Acquisitions*.

Table of Contents**GAMESTOP CORP.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During July 2008, the Company purchased certain assets and website operations from The Gamesman Limited, a video game and entertainment software retailer, including eight stores in New Zealand for \$1,910. The acquisition was accounted for using the purchase method of accounting, with the excess of the purchase price over the net assets acquired, in the amount of \$605, recorded as goodwill.

The pro forma effect assuming the above acquisitions were made at the beginning of fiscal 2007 is not material to the Company's consolidated financial statements.

4. Accounting for Stock-Based Compensation

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. This valuation model requires the use of subjective assumptions, including expected option life, expected volatility and the expected employee forfeiture rate. The Company uses historical data to estimate the option life and the employee forfeiture rate, and uses historical volatility when estimating the stock price volatility. There were no options to purchase common stock granted during the 13 weeks ended August 2, 2008 and August 4, 2007. The options to purchase common stock granted during the 26 weeks ended August 2, 2008 and August 4, 2007 were 1,362 and 939, respectively, with a weighted-average fair value estimated at \$15.45 and \$10.16 per share, respectively, using the following assumptions:

| | 26 Weeks Ended | |
|-------------------------|---------------------------|---------------------------|
| | August 2, 2008 | August 4, 2007 |
| Volatility | 38.2% | 40.5% |
| Risk-free interest rate | 2.4% | 4.8% |
| Expected life (years) | 3.5 | 4.0 |
| Expected dividend yield | 0% | 0% |

In the 13 weeks ended August 2, 2008 and August 4, 2007, the Company included compensation expense relating to stock option grants of \$3,998 and \$3,895, respectively, in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations. In the 26 weeks ended August 2, 2008 and August 4, 2007, the Company included compensation expense relating to stock option grants of \$8,818 and \$8,071, respectively, in selling, general and administrative expenses. As of August 2, 2008, the unrecognized compensation expense related to the unvested portion of our stock options was \$22,332 which is expected to be recognized over a weighted average period of 2.1 years. The total intrinsic value of options exercised during the 13 weeks ended August 2, 2008 and August 4, 2007 were \$10,584 and \$42,933, respectively. The total intrinsic value of options exercised during the 26 weeks ended August 2, 2008 and August 4, 2007 were \$83,745 and \$177,902, respectively.

There were no restricted stock shares granted during the 13 weeks ended August 2, 2008 and 7 shares of restricted stock were granted during the 13 weeks ended August 4, 2007 with a fair market value of \$39.83 per share. During the 26 weeks ended August 2, 2008 and August 4, 2007, the Company granted 534 shares and 964 shares, respectively, of restricted stock. The shares had a fair market value of \$49.95 and \$26.78 per share, respectively, and vest in equal installments over three years. During the 13 weeks ended August 2, 2008 and August 4, 2007, the Company included

compensation expense relating to the restricted share grants in the amount of \$4,304 and \$2,789, respectively, in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations. During the 26 weeks ended August 2, 2008 and August 4, 2007, the Company included compensation expense relating to the restricted share grants in the amount of \$11,251 and \$5,574, respectively, in selling, general and administrative expenses. As of August 2, 2008, there was \$29,640 of unrecognized compensation expense related to nonvested restricted stock awards that is expected to be recognized over a weighted average period of 2.1 years.

Table of Contents**GAMESTOP CORP.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Computation of Net Earnings per Common Share**

On February 7, 2007, all outstanding shares of Class B common stock were converted into shares of Class A common stock on a one-for-one basis (the Conversion). In addition, as of February 9, 2007, the Board of Directors of the Company authorized a two-for-one stock split, effected by a one-for-one stock dividend to stockholders of record at the close of business on February 20, 2007, paid on March 16, 2007 (the Stock Split). The effect of the Conversion and the Stock Split has been retroactively applied to all periods presented in the condensed consolidated financial statements and notes thereto. The Company now has only Class A common stock outstanding and computes earnings per share in accordance with Statement of Financial Accounting Standards No. 128, *Earnings per Share*. A reconciliation of shares used in calculating basic and diluted net earnings per common share follows:

6. Debt

In October 2005, in connection with the Company's merger with Electronics Boutique Holdings Corp. ("EB") (the "merger"), the Company entered into a five-year, \$400,000 Credit Agreement (the "Revolver"), including a \$50,000 letter of credit sub-limit, secured by the assets of the Company and its U.S. subsidiaries. The Revolver places certain restrictions on the Company and its subsidiaries, including limitations on asset sales, additional liens and the incurrence of additional indebtedness. In April 2007, the Company amended the Revolver to extend the maturity date from October 11, 2010 to April 25, 2012, reduce the LIBO interest rate margin, reduce and fix the rate of the unused commitment fee and modify or delete certain other covenants.

The availability under the Revolver is limited to a borrowing base which allows the Company to borrow up to the lesser of (x) approximately 70% of eligible inventory and (y) 90% of the appraisal value of the inventory, in each case plus 85% of eligible credit card receivables, net of certain reserves. Letters of credit reduce the amount available to borrow by their face value. The Company's ability to pay cash dividends, redeem options and repurchase shares is generally prohibited, except that if availability under the Revolver is or will be after any such

payment equal to or greater than 25% of the borrowing base, the Company may repurchase its capital stock and pay cash dividends. In addition, in the event that credit extensions under the Revolver at any time exceed 80% of the lesser of the total commitment or the borrowing base, the Company will be subject to a fixed charge coverage ratio covenant of 1.5:1.0.

The interest rate on the Revolver is variable and, at the Company's option, is calculated by applying a margin of (1) 0.0% to 0.25% above the higher of the prime rate of the administrative agent or the federal funds effective rate plus 0.50% or (2) 1.00% to 1.50% above the LIBO rate. The applicable margin is determined quarterly as a function of the Company's consolidated leverage ratio. As of August 2, 2008, the applicable margin was 0.0% for prime rate loans and 1.00% for LIBO rate loans. In addition, the Company is required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of August 2, 2008, there were no borrowings outstanding under the Revolver and letters of credit outstanding totaled \$7,271.

In September 2007, the Company's Luxembourg subsidiary entered into a discretionary, \$20,000 Uncommitted Line of Credit (the Line of Credit) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit will be made available to the Company's foreign subsidiaries for use primarily as a bank overdraft facility for short term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of August 2, 2008, there was \$3,730 of cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$4,874.

In September 2005, the Company, along with GameStop, Inc. as co-issuer (together with the Company, the Issuers), completed the offering of U.S. \$300,000 aggregate principal amount of Senior Floating Rate Notes due 2011 (the Senior Floating Rate Notes) and U.S. \$650,000 aggregate principal amount of Senior Notes due 2012 (the Senior Notes) and, together with the Senior Floating Rate Notes, the Notes). The Notes were issued under an Indenture dated September 28, 2005 (the Indenture), by and among the Issuers, the subsidiary guarantors party thereto, and Citibank, N.A., as trustee (the Trustee). The net proceeds of the offering were used to pay the cash portion of the merger consideration paid to the stockholders of EB in connection with the merger.

The Senior Notes bear interest at 8.0% per annum, mature on October 1, 2012 and were priced at 98.688%, resulting in a discount at the time of issue of \$8,528. The discount is being amortized using the effective interest method. As of August 2, 2008, the unamortized original issue discount was \$4,780. The rate of interest on the Senior Floating Rate Notes prior to their redemption on October 1, 2007 was 9.2350% per annum. The Issuers pay interest on the Senior Notes semi-annually, in arrears, every April 1 and October 1, to holders of record on the immediately preceding March 15 and September 15, and at maturity.

The Indenture contains affirmative and negative covenants customary for such financings, including, among other things, limitations on (1) the incurrence of additional debt, (2) restricted payments, (3) liens, (4) sale and leaseback transactions and (5) asset sales. Events of default provided for in the Indenture include, among other things, failure to pay interest or principal on the Notes, other breaches of covenants in the Indenture, and certain events of bankruptcy and insolvency. As of August 2, 2008, the Company was in compliance with all covenants associated with the Revolver and the Indenture.

Under certain conditions, the Issuers may on any one or more occasions prior to maturity redeem up to 100% of the aggregate principal amount of Senior Notes issued under the Indenture at redemption prices at or in excess of 100% of

the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date. The circumstances which would limit the percentage of the Notes which may be redeemed or which would require the Company to pay a premium in excess of 100% of the principal amount are defined in the Indenture. Upon a Change of Control (as defined in the Indenture), the Issuers are required to offer to purchase all of the Notes then outstanding at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase. The Issuers may acquire Senior Notes by means other than redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisitions do not otherwise violate the terms of the Indenture.

In May 2006, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of \$100,000 of its Senior Floating Rate Notes and Senior Notes. As of February 3, 2007, the Company had repurchased the maximum authorized amount, having acquired \$50,000 of its Senior Notes and \$50,000 of its Senior Floating Rate Notes, and delivered the Notes to the Trustee for cancellation.

On February 9, 2007, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of an additional \$150,000 of its Senior Notes and Senior Floating Rate Notes. As of August 4, 2007, the Company had repurchased the maximum authorized amount, having acquired \$20,000 of its Senior Notes and \$130,000 of its Senior Floating Rate Notes, and delivered the Notes to the Trustee for cancellation. The associated loss on retirement of this debt was \$2,027 and \$8,751 for the 13 and 26 week periods ended August 4, 2007, respectively, which consists of the premium paid to retire the Notes and the recognition of the deferred financing fees and the original issue discount on the Notes.

On June 28, 2007, the Company announced that its Board of Directors authorized the redemption of the remaining \$120,000 of Senior Floating Rate Notes outstanding. The Company redeemed the Senior Floating Rate Notes on October 1, 2007 at the redemption price specified by the Senior Floating Rate Notes of 102.0%, plus all accrued and unpaid interest through the redemption date. The Company incurred a one-time pre-tax charge of \$3,840 associated with the redemption, which represents a \$2,400 redemption premium and \$1,440 to recognize unamortized deferred financing costs.

On February 7, 2008, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of an additional \$130,000 of its Senior Notes. The timing and amount of the repurchases will be determined by the Company's management based on their evaluation of market conditions and other factors. In addition, the repurchases may be suspended or discontinued at any time. As of August 2, 2008, the Company had repurchased \$30,000 of its Senior Notes pursuant to this new authorization and delivered the Senior Notes to the Trustee for cancellation. The associated loss on retirement of debt is \$2,331, which consists of the premium paid to retire the Senior Notes and the write-off of the deferred financing fees and the original issue discount on the Senior Notes.

During October 2007, the Company paid the final principal payment of \$12,173 to Barnes & Noble, Inc. (Barnes & Noble) on the promissory note that was issued in connection with the repurchase of GameStop's common stock held by Barnes & Noble, satisfying the promissory note in full. The note was unsecured and bore interest at 5.5% per annum.

for years before and including the fiscal year ended January 31, 2004. The Internal Revenue Service (IRS) commenced an examination of the Company s U.S. income tax returns for the fiscal years ended January 29, 2005 and January 28, 2006 in the first quarter of fiscal 2007 that is anticipated to be completed in 2008. The Company does not anticipate any adjustments that would result in a material impact on its condensed consolidated financial statements.

For the 13 weeks ended August 2, 2008 and August 4, 2007, the Company recognized an increase of \$3 and a decrease of \$1,649 in the liability for unrecognized tax benefits, respectively, and an increase of \$433 and \$377 for interest and penalties, respectively. For the 26 weeks ended August 2, 2008 and August 4, 2007, the Company recognized a decrease of \$657 and \$1,388 in the liability for unrecognized tax benefits, respectively, and an increase of \$757 and \$819 for interest and penalties, respectively. As of August 2, 2008, the gross amount of unrecognized tax benefits, interest and penalties was \$24,325. The total amount of unrecognized tax benefit that, if recognized, would affect the effective tax rate was \$19,895 as of August 2, 2008. The Company had \$4,430 in interest and penalties related to unrecognized tax benefits accrued as of August 2, 2008.

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of our unrecognized tax positions could significantly increase or decrease within the next 12 months as a result of settling ongoing audits. At this time, an estimate of the range of the reasonably possible outcomes cannot be made.

The tax provisions for the 13 weeks and 26 weeks ended August 2, 2008 and August 4, 2007 are based upon management s estimate of the Company s annualized effective tax rate.

9. Certain Relationships and Related Transactions

The Company operates departments within nine bookstores operated by Barnes & Noble, a stockholder of the Company until November 2004 and an affiliate through a common stockholder who is the chairman of the Board of Directors of Barnes & Noble and a member of the Company s Board of Directors. The Company pays a license fee to Barnes & Noble on the gross sales of such departments. Management deems the license fee to be reasonable and based upon terms equivalent to those that would prevail in an arm s length transaction. During the 13 weeks ended August 2, 2008 and August 4, 2007, these charges amounted to \$290 and \$255, respectively. During the 26 weeks ended August 2, 2008 and August 4, 2007, these charges amounted to \$584 and \$487, respectively.

Until June 2005, GameStop participated in Barnes & Noble s workers compensation, property and general liability insurance programs. The costs incurred by Barnes & Noble under these programs were allocated to GameStop based upon total payroll expense, property and equipment, and insurance claim history of GameStop. Management deemed the allocation methodology to be reasonable. Although the Company secured its own insurance coverage, costs will likely continue to be incurred by Barnes & Noble on insurance claims which were incurred under its programs prior to June 2005 and any such costs applicable to insurance claims against the Company will be allocated to the Company. During the 13 weeks ended August 2, 2008 and August 4, 2007, these allocated charges amounted to \$31 and \$69, respectively. During the 26 weeks ended August 2, 2008 and August 4, 2007, these allocated charges amounted to \$104 and \$135, respectively.

In October 2004, the Company s Board of Directors authorized a repurchase of the common stock held by Barnes & Noble. The Company repurchased 12,214 shares of its common stock at a price equal to \$9.13 per share for aggregate consideration before expenses of \$111,520. The Company paid \$37,500 in cash and issued a promissory note in the

principal amount of \$74,020, which was payable in installments and bore interest at 5.5% per annum, payable when principal installments were due. The Company's final scheduled principal payment of \$12,173 was paid in October 2007. Interest expense on the promissory note for the 13 weeks and 26 weeks ended August 4, 2007 totaled \$169 and \$338, respectively.

In May 2005, the Company entered into an arrangement with Barnes & Noble under which www.gamestop.com became the exclusive specialty video game retailer listed on www.bn.com, Barnes & Noble's e-commerce site. Under the terms of this agreement, the Company pays a fee to Barnes & Noble for sales of video

game or PC entertainment products sold through www.bn.com. The fee to Barnes & Noble was \$72 and \$45 for the 13 weeks ended August 2, 2008 and August 4, 2007, respectively, and \$143 and \$99 for the 26 weeks ended August 2, 2008 and August 4, 2007, respectively.

10. Commitments and Contingencies

On February 14, 2005, and as amended, Steve Strickland, as personal representative of the Estate of Arnold Strickland, deceased, Henry Mealer, as personal representative of the Estate of Ace Mealer, deceased, and Willie Crump, as personal representative of the Estate of James Crump, deceased, filed a wrongful death lawsuit against GameStop, Sony, Take-Two Interactive, Rock Star Games and Wal-Mart (collectively, the Defendants) and Devin Moore, alleging that Defendants' actions in designing, manufacturing, marketing and supplying Defendant Moore with violent video games were negligent and contributed to Defendant Moore killing Arnold Strickland, Ace Mealer and James Crump. Moore was found guilty of capital murder in a criminal trial and was sentenced to death in August 2005.

Plaintiffs' new Alabama counsel has named a new expert, a psychiatrist who testified at the criminal trial on behalf of the criminal defendant, who will opine (if allowed) that violent video games were a substantial factor in causing the murders. This same testimony from this same expert was excluded in the criminal trial from the same judge hearing this case. The motion to bar this testimony in this case is set for October 30, 2008. The ruling on this motion will have an effect on whether the case is able to proceed. There is no current trial date. The Company does not believe there is sufficient information to estimate the amount of the possible loss, if any, resulting from the lawsuit.

In the ordinary course of the Company's business, the Company is, from time to time, subject to various other legal proceedings. Management does not believe that any such other legal proceedings, individually or in the aggregate, will have a material adverse effect on the Company's financial condition or results of operations.

ITEM 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

The following discussion should be read in conjunction with the information contained in our consolidated financial statements, including the notes thereto. Statements regarding future economic performance, management's plans and objectives, and any statements concerning assumptions related to the foregoing contained in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute forward-looking statements. Certain factors, which may cause actual results to vary materially from these forward-looking statements, accompany such statements or appear in GameStop's Annual Report on Form 10-K for the fiscal year ended February 2, 2008 filed with the Securities and Exchange Commission (the SEC) on April 2, 2008 (the Form 10-K), including the factors disclosed under Item 1A. Risk Factors.

General

GameStop Corp. (together with its predecessor companies, GameStop, we, our, or the Company) is the world's largest retailer of video game products and PC entertainment software. We sell new and used video game hardware, video game software and accessories, as well as PC entertainment software and related accessories and other merchandise. As of August 2, 2008, we operated 5,557 stores in the United States, Australia, Canada and Europe, primarily under the names GameStop and EB Games. We also operate electronic commerce websites under the names www.gamestop.com and www.ebgames.com and publish *Game Informer*, the industry's largest multi-platform video game magazine in the United States based on circulation.

Our fiscal year is composed of 52 or 53 weeks ending on the Saturday closest to January 31. The fiscal years ending January 31, 2009 (fiscal 2008) and ended February 2, 2008 (fiscal 2007) consist of 52 weeks.

Growth in the video game industry is driven by the introduction of new technology. In 2005 in the North American markets, Sony introduced the PlayStation Portable (the PSP) in March and Microsoft introduced the Xbox 360 in November. In November 2006, Nintendo introduced the Wii hardware platform worldwide and Sony introduced the PlayStation 3 hardware platform in the North American markets. Sony introduced the PlayStation 3 platform in the Australian and European markets in March 2007. Typically, following the introduction of new video game platforms, sales of new video game hardware increase as a percentage of total sales in the first full year following introduction. As video game platforms mature, the sales mix attributable to complementary video game software and accessories, which generate higher gross margins, generally increases in the subsequent years. The net effect is generally a decline in gross margins in the first full year following new platform releases and an increase in gross margins in the years subsequent to the first full year following the launch period. Unit sales of maturing video game platforms are typically also driven by manufacturer-funded retail price reductions, further driving sales of related software and accessories. We expect that the installed base of the hardware platforms listed above and sales of related software and accessories will increase in the future. The Company's gross margin in the 13 and 26 weeks ended August 2, 2008 and August 4, 2007 was impacted by the recent launches of these new products and manufacturer-funded retail price reductions on certain of these products.

Critical Accounting Policies

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and do not include all disclosures required under GAAP for complete financial statements. Preparation of these statements requires management to make judgments and estimates. Some accounting policies have a significant impact on amounts reported in these financial statements. For a summary of significant accounting policies and the means by which we develop estimates thereon, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2007 Annual Report on Form 10-K.

13 weeks ended August 2, 2008 compared with the 13 weeks ended August 4, 2007

Sales increased by \$466.2 million, or 34.8%, from \$1,338.2 million in the 13 weeks ended August 4, 2007 to \$1,804.4 million in the 13 weeks ended August 2, 2008. The increase in sales was attributable to the comparable store sales increase of 20.0% for the second quarter of fiscal 2008, the addition of non-comparable store sales from the 835 stores opened since May 5, 2007 of approximately \$268.8 million and increases related to changes in foreign exchange rates of \$36.0 million. Stores are included in our comparable store sales base beginning in the thirteenth month of operation and exclude the effect of changes in foreign exchange rates. The comparable store sales increase was driven by strong sales of new video game software which is typical as the installed base of the new hardware platforms increases in the years following their launch. The new software sales increase was spread across all platforms and included several strong video game titles, such as Wii Fit, Metal Gear Solid 4, and Grand Theft Auto IV.

New video game hardware sales increased \$85.9 million, or 29.2%, from \$293.8 million in the 13 weeks ended August 4, 2007 to \$379.7 million in the 13 weeks ended August 2, 2008, primarily due to continued expansion of the installed base of the new hardware platforms and the increase in store count since the end of the second quarter of fiscal 2007. New video game software sales increased \$210.8 million, or 42.7%, from \$494.2 million in the 13 weeks ended August 4, 2007 to \$705.0 million in the 13 weeks ended August 2, 2008, primarily due to the strong sales of new video game titles and the increased sales related to the new hardware platforms discussed above, as well as the new stores added since last year. Used video game product sales also grew due to an increase in store count and an increase in the availability of hardware and software associated with the new hardware platforms as those platforms age and expand. Used video game product sales increased \$114.2 million, or 32.0%, from \$357.3 million in the 13 weeks ended August 4, 2007 to \$471.5 million in the 13 weeks ended August 2, 2008. Sales of other product categories grew 28.7%, or \$55.3 million, from the 13 weeks ended August 4, 2007 to the 13 weeks ended August 2, 2008, due to the increase in store count and the increase in new hardware platform accessories sales.

As a percentage of sales, new video game hardware, used video game products and the other product category decreased in the 13 weeks ended August 2, 2008 compared to the 13 weeks ended August 4, 2007. This was due to the strong sales of new video game software driven by the continued expansion of the installed base of the new video game consoles mentioned earlier and a strong lineup of video game titles released in the quarter.

Cost of sales increased by \$343.4 million, or 35.2%, from \$976.9 million in the 13 weeks ended August 4, 2007 to \$1,320.3 million in the 13 weeks ended August 2, 2008 as a result of the increase in sales and the changes in gross profit discussed below.

Gross profit increased by \$122.8 million, or 34.0%, from \$361.3 million in the 13 weeks ended August 4, 2007 to \$484.1 million in the 13 weeks ended August 2, 2008. Gross profit as a percentage of sales decreased slightly from 27.0% in the 13 weeks ended August 4, 2007 to 26.8% in the 13 weeks ended August 2, 2008. Gross profit as a

percentage of sales on new video game hardware decreased from 7.3% in the prior year quarter to 6.0% of sales this quarter due to a change in the mix of hardware units sold and a reduction in warranty attachment sales during the second quarter of fiscal 2008. Gross profit as a percentage of sales on used video game products increased from 48.5% in the 13 weeks ended August 4, 2007 to 49.7% in the 13 weeks ended August 2, 2008 due to fewer promotional activities during the second quarter of fiscal 2008.

Selling, general and administrative expenses increased by \$69.3 million, or 24.9%, from \$278.4 million in the 13 weeks ended August 4, 2007 to \$347.7 million in the 13 weeks ended August 2, 2008. This increase was primarily attributable to the increase in the number of stores in operation and the related increases in store, distribution and corporate office operating expenses. Selling, general and administrative expenses as a percentage of sales decreased from 20.8% in the 13 weeks ended August 4, 2007 to 19.3% in the 13 weeks ended August 2, 2008. The decrease in selling, general and administrative expenses as a percentage of sales was primarily due to leveraging as a result of the higher sales discussed above. Included in selling, general and administrative expenses is \$8.3 million and \$6.7 million in stock-based compensation expense for the 13 weeks ended August 2, 2008 and August 4, 2007, respectively.

Depreciation and amortization expense increased \$4.2 million from \$32.1 million for the 13 weeks ended August 4, 2007 to \$36.3 million in the 13 weeks ended August 2, 2008. This increase was primarily due to capital expenditures associated with the opening of 125 new stores during the second quarter of fiscal 2008 and investments in management information systems.

Interest income resulting from the investment of excess cash balances decreased from \$2.7 million in the 13 weeks ended August 4, 2007 to \$1.6 million in the 13 weeks ended August 2, 2008. Interest expense decreased from \$16.1 million in the 13 weeks ended August 4, 2007 to \$10.8 million in the 13 weeks ended August 2, 2008 primarily due to the retirement of \$30 million of the Company's senior notes and \$120 million of the Company's senior floating rate notes since August 4, 2007. Debt extinguishment expense of \$2.0 million was recognized in the 13 weeks ended August 4, 2007 as a result of premiums paid related to debt retirement and the write-off of deferred financing fees and unamortized original issue discount.

Income tax expense for the 13 weeks ended August 4, 2007 and the 13 weeks ended August 2, 2008 was based upon management's estimate of the Company's annualized effective tax rate. Income tax expense was \$13.6 million for the 13 weeks ended August 4, 2007 compared to \$33.7 million for the 13 weeks ended August 2, 2008.

26 weeks ended August 2, 2008 compared with the 26 weeks ended August 4, 2007

Sales increased by \$1,000.8 million, or 38.2%, from \$2,617.2 million in the 26 weeks ended August 4, 2007 to \$3,618.0 million in the 26 weeks ended August 2, 2008. The increase in sales was attributable to the comparable store sales increase of 23.5% for the 26 week-period ended August 2, 2008, the addition of non-comparable store sales from the 921 stores opened since February 3, 2007 of approximately \$306.2 million, and increases related to changes in foreign exchange rates of \$77.1 million. Stores are included in our comparable store sales base beginning in the thirteenth month of operation and exclude the effect of changes in foreign exchange rates. The comparable store sales increase was driven by strong sales of new video game software, which is typical as the installed base of the new hardware platforms increases in the years following their launch.

an increase in the availability of hardware and software associated with the new hardware platforms as those platforms age and expand. Used video game product sales increased \$203.5 million, or 29.8%, from \$683.7 million in the 26 weeks ended August 4, 2007 to \$887.2 million in the 26 weeks ended August 2, 2008. Sales of other product categories grew 27.5%, or \$110.8 million, from the 26 weeks ended August 4, 2007 to the 26 weeks ended August 2, 2008, due to the increase in store count and the increase in new hardware platform accessories sales.

As a percentage of sales, new video game hardware, used video game products and the other product category decreased in the 26 weeks ended August 2, 2008 compared to the 26 weeks ended August 4, 2007. This was due to the strong sales of new video game software driven by the continued expansion of the installed base of the new video game consoles mentioned earlier and a strong lineup of video game titles in fiscal 2008.

Cost of sales increased by \$753.4 million, or 39.5%, from \$1,907.1 million in the 26 weeks ended August 4, 2007 to \$2,660.5 million in the 26 weeks ended August 2, 2008 as a result of the increase in sales and the changes in gross profit discussed below.

Gross profit as a percentage of sales decreased from 27.1% in the 26 weeks ended August 4, 2007 to 26.5% in the 26 weeks ended August 2, 2008. The gross profit percentage decrease was caused primarily by the increase in sales of new video game software as a percentage of total sales in the 26 weeks ended August 2, 2008, which resulted in a decrease in sales of higher margin used video game products and other products as a percentage of total sales. Gross profit as a percentage of sales on new video game hardware decreased from 7.5% of sales for the 26 weeks ended August 4, 2007 to 6.0% of sales for the 26 weeks ended August 2, 2008 due to a change in the mix of hardware units sold and a reduction in warranty attachment sales during fiscal 2008. Gross profit as a percentage of sales on new video game software, used video game products and the other product category had no significant change from the same period in the prior fiscal year.

Selling, general and administrative expenses as a percentage of sales decreased from 20.4% in the 26 weeks ended August 4, 2007 to 18.7% in the 26 weeks ended August 2, 2008. Depreciation and amortization expense increased \$7.9 million from \$63.2 million for the 26 weeks ended August 4, 2007 to \$71.1 million in the 26 weeks ended August 2, 2008. This increase was primarily due to capital expenditures associated with the opening of 335 new stores during the 26 weeks ended August 2, 2008 and investments in management information systems.

Interest income remained at \$6.6 million for both 26-week periods ended August 4, 2007 and August 2, 2008. Interest expense decreased from \$34.0 million in the 26 weeks ended August 4, 2007 to \$24.3 million in the 26 weeks ended August 2, 2008 primarily due to the retirement of \$120 million of the Company's senior floating rate notes and \$30 million of the Company's senior notes since August 4, 2007. Segment operating income for the 13 and 26 weeks ended August 2, 2008 increased by 116.3% and 91.1%, respectively, compared to the 13 and 26 weeks ended August 4, 2007 driven by strong sales of new video game software and used video game products and their related accessories, as well as the leveraging of selling, general and administrative expenses.

The increase in sales was due to higher sales at existing stores and the additional sales at the 83 and 98 stores opened since May 5, 2007 and February 3, 2007, respectively. The increase in sales at existing stores was primarily due to a strong software title lineup and the availability of the new hardware platforms in the second quarter of fiscal 2008 when compared to the prior fiscal year following the launch of the Sony PlayStation 3 in the first quarter of fiscal 2007. In addition, the new hardware platforms drove an increase in used product sales as the installed base of the platforms increased and more software became available. Liquidity and Capital Resources

Cash Flows

During the 26 weeks ended August 2, 2008, cash used in operations was \$210.2 million, compared to cash used in operations of \$196.6 million during the 26 weeks ended August 4, 2007. The increase of cash used in operations of \$13.6 million from the 26 weeks ended August 4, 2007 to the 26 weeks ended August 2, 2008 was primarily due to an increase in cash provided by net earnings, including the non-cash adjustments to net earnings, of \$81.5 million and a decrease in the operating activities adjustment related to the excess tax benefits realized from the exercise of stock-based awards of \$29.5 million. Also contributing to the increase in cash used in operations for the 26 weeks ended August 2, 2008 compared to the same period ended August 4, 2007 was an increase in working capital of \$124.6 million primarily due to an increase in merchandise inventories of \$133.1 million due to an increase in store count and sales levels.

Cash used in investing activities was \$131.8 million and \$70.3 million during the 26 weeks ended August 2, 2008 and August 4, 2007, respectively. During the 26 weeks ended August 2, 2008, \$81.5 million of cash was used primarily to open new stores in the U.S. and internationally and to invest in information systems. In addition, the Company used \$50.3 million, net of cash acquired, to acquire FRS, The Gamesman Limited and an increased ownership interest in GameStop Group Limited. During the 26 weeks ended August 4, 2007, \$71.4 million of cash was used primarily to open 236 new stores in the U.S. and internationally and to invest in information systems, offset by \$1.1 million of cash received related to the finalization of the purchase price of Game Brands Inc. which was acquired during the fourth quarter of the 53 weeks ended February 3, 2007.

Cash provided by financing activities was \$24.5 million for the 26 weeks ended August 2, 2008 and cash used in financing activities for the 26 weeks ended August 4, 2007 was \$37.1 million. The cash provided by financing activities for the 26 weeks ended August 2, 2008 was primarily due to the issuance of shares relating to stock option exercises of \$26.7 million and \$33.0 million for the realization of tax benefits relating to the stock option exercises and vested restricted stock, respectively. These inflows were offset by the repurchase of \$30.0 million of principal value of the Company's senior notes. The cash used in financing activities for the 26 weeks ended August 4, 2007 was primarily due to the repurchase of \$20.0 million and \$130.0 million of principal value of the Company's senior notes and senior floating rate notes, respectively. These cash outflows were offset by \$46.8 million received for the issuance of shares relating to stock option exercises and \$62.6 million for the realization of tax benefits relating to the stock option exercises and vested restricted stock.

Sources of Liquidity

We utilize cash generated from operations and have funds available to us under our revolving credit facility to cover seasonal fluctuations in cash flows and to support our various growth initiatives. Our cash and cash equivalents are carried at cost, which approximates market value, and consist primarily of time deposits with highly rated commercial banks and money market investment funds holding direct U.S. Treasury obligations.

In October 2005, in connection with the merger with EB, the Company entered into a five-year, \$400 million Credit Agreement (the "Revolver"), including a \$50 million letter of credit sub-limit, secured by the assets of the Company and its U.S. subsidiaries. The Revolver places certain restrictions on the Company and its subsidiaries, including limitations on asset sales, additional liens and the incurrence of additional indebtedness. In April 2007, the Company amended the Revolver to extend the maturity date from October 11, 2010 to April 25, 2012, reduce the LIBO interest rate margin, reduce and fix the rate of the unused commitment fee and modify or delete certain other covenants.

The availability under the Revolver is limited to a borrowing base which allows the Company to borrow up to the lesser of (x) approximately 70% of eligible inventory and (y) 90% of the appraisal value of the inventory, in each case plus 85% of eligible credit card receivables, net of certain reserves. Letters of credit reduce the amount available to borrow by their face value. The Company's ability to pay cash dividends, redeem options, and repurchase shares is generally prohibited, except that if availability under the Revolver is or will be after any such payment equal to or greater than 25% of the borrowing base, the Company may repurchase its capital stock and pay cash dividends. In addition, in the event that credit extensions under the Revolver at any time exceed 80% of the

Table of Contents

lesser of the total commitment or the borrowing base, the Company will be subject to a fixed charge coverage ratio covenant of 1.5:1.0.

The interest rate on the Revolver is variable and, at the Company's option, is calculated by applying a margin of (1) 0.0% to 0.25% above the higher of the prime rate of the administrative agent or the federal funds effective rate plus 0.50% or (2) 1.00% to 1.50% above the LIBO rate. The applicable margin is determined quarterly as a function of the Company's consolidated leverage ratio. As of August 2, 2008, the applicable margin was 0.0% for prime rate loans and 1.00% for LIBO rate loans. In addition, the Company is required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of August 2, 2008, there were no borrowings outstanding under the Revolver and letters of credit outstanding totaled \$7.3 million.

In September 2007, the Company's Luxembourg subsidiary entered into a discretionary, \$20 million Uncommitted Line of Credit (the Line of Credit) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit will be made available to the Company's foreign subsidiaries for use primarily as a bank overdraft facility for short term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of August 2, 2008, there was \$3.7 million of cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$4.9 million.

In September 2005, the Company, along with GameStop, Inc. as co-issuer (together with the Company, the Issuers), completed the offering of U.S. \$300 million aggregate principal amount of Senior Floating Rate Notes due 2011 (the Senior Floating Rate Notes) and U.S. \$650 million aggregate principal amount of Senior Notes due 2012 (the Senior Notes and, together with the Senior Floating Rate Notes, the Notes). The Notes were issued under an Indenture dated September 28, 2005 (the Indenture), by and among the Issuers, the subsidiary guarantors party thereto, and Citibank, N.A., as trustee (the Trustee). The net proceeds of the offering were used to pay the cash portion of the merger consideration paid to the stockholders of EB in connection with the merger.

The Senior Notes bear interest at 8.0% per annum, mature on October 1, 2012 and were priced at 98.688%, resulting in a discount at the time of issue of \$8.5 million. The discount is being amortized using the effective interest method. As of August 2, 2008, the unamortized original issue discount was \$4.8 million. The rate of interest on the Senior Floating Rate Notes prior to their redemption on October 1, 2007 was 9.2350% per annum. The Issuers pay interest on the Senior Notes semi-annually, in arrears, every April 1 and October 1, to holders of record on the immediately preceding March 15 and September 15, and at maturity.

The Indenture contains affirmative and negative covenants customary for such financings, including, among other things, limitations on (1) the incurrence of additional debt, (2) restricted payments, (3) liens, (4) sale and leaseback transactions and (5) asset sales. Events of default provided for in the Indenture include, among other things, failure to pay interest or principal on the Notes, other breaches of covenants in the Indenture, and certain events of bankruptcy and insolvency. As of August 2, 2008, the Company was in compliance with all covenants associated with the Revolver and the Indenture.

Under certain conditions, the Issuers may on any one or more occasions prior to maturity redeem up to 100% of the aggregate principal amount of Senior Notes issued under the Indenture at redemption prices at or in excess of 100% of the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date. The circumstances which would limit the percentage of the Notes which may be redeemed or which would require the Company to pay a premium in excess of 100% of the principal amount are defined in the Indenture. Upon a Change of Control (as defined in the Indenture), the Issuers are required to offer to purchase all of the Notes then outstanding at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase. The Issuers may acquire Senior Notes by means other than redemption, whether by tender offer, open market purchases, negotiated

transactions or otherwise, in accordance with applicable securities laws, so long as such acquisitions do not otherwise violate the terms of the Indenture.

Uses of Capital

Our future capital requirements will depend on the number of new stores opened and the timing of those openings within a given fiscal year. The Company opened 335 stores in the 26 weeks ended August 2, 2008 and

Table of Contents

expects to open approximately 550 to 600 stores in total during fiscal 2008. Capital expenditures for fiscal 2008 are projected to be approximately \$170 million to \$180 million, to be used primarily to fund new store openings and invest in distribution and information systems in support of operations.

In May 2006, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of \$100 million of its Senior Floating Rate Notes and Senior Notes. As of February 3, 2007, the Company had repurchased the maximum authorized amount, having acquired \$50 million of its Senior Notes and \$50 million of its Senior Floating Rate Notes, and delivered the Notes to the Trustee for cancellation.

On February 9, 2007, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of an additional \$150 million of its Senior Notes and Senior Floating Rate Notes. As of August 4, 2007, the Company had repurchased the maximum authorized amount, having acquired \$20 million of its Senior Notes and \$130 million of its Senior Floating Rate Notes, and delivered the Notes to the Trustee for cancellation. The associated loss on the retirement of this debt was \$2.0 million and \$8.8 million for the 13 and 26 week periods ended August 4, 2007, respectively, which consists of the premium paid to retire the Notes and the recognition of the deferred financing fees and the original issue discount on the Notes.

On June 28, 2007, the Company announced that its Board of Directors authorized the redemption of the remaining \$120 million of Senior Floating Rate Notes outstanding. The Company redeemed the Senior Floating Rate Notes on October 1, 2007 at the redemption price specified by the Senior Floating Rate Notes of 102.00%, plus all accrued and unpaid interest through the redemption date. The Company incurred a one-time pre-tax charge of \$3.8 million associated with the redemption, which represents a \$2.4 million redemption premium and \$1.4 million to recognize unamortized deferred financing costs.

On February 7, 2008, the Company announced that its Board of Directors authorized the buyback of up to an aggregate of an additional \$130 million of its Senior Notes. The timing and amount of the repurchases will be determined by the Company's management based on their evaluation of market conditions and other factors. In addition, the repurchases may be suspended or discontinued at any time. As of August 2, 2008, the Company had repurchased \$30 million of its Senior Notes pursuant to this new authorization and delivered the Senior Notes to the Trustee for cancellation. The associated loss on retirement of debt is \$2.3 million, which consists of the premium paid to retire the Senior Notes and the write-off of the deferred financing fees and the original issue discount on the Senior Notes.

During October 2007, the Company paid the final principal payment of \$12.2 million to Barnes & Noble, Inc. (Barnes & Noble) on the promissory note that was issued in connection with the repurchase of GameStop's common stock held by Barnes & Noble, satisfying the promissory note in full. The note was unsecured and bore interest at 5.5% per annum.

On April 5, 2008, the Company purchased all the outstanding stock of FRS for \$21.0 million, net of cash acquired. FRS operates 49 record stores in Norway and also operates office and warehouse facilities in Oslo, Norway. The Company intends to convert these stores into video game stores with an inventory assortment similar to its other stores in Norway.

In 2003, the Company purchased a 51% controlling interest in GameStop Group Limited which operates stores in Ireland and the United Kingdom. Under the terms of the purchase agreement, the minority interest owners of the remaining 49% have the ability to require the Company to purchase their remaining shares in incremental percentages at a price to be determined based partially on the Company's price to earnings ratio and GameStop Group Limited's earnings. On May 21, 2008, the minority interest owners exercised their right to sell one-third of their shares, or approximately 16% of GameStop Group Limited, to the Company under the terms of the original purchase agreement

for \$27.4 million. The transaction was completed in June 2008 and recorded in accordance with the provisions of the Statement of Financial Accounting Standards No. 141, *Business Acquisitions*.

Based on our current operating plans, we believe that available cash balances, cash generated from our operating activities and funds available under the Revolver will be sufficient to fund our operations, required payments on the Senior Notes, store expansion and remodeling activities and corporate capital expenditure programs for at least the next 12 months.

Recent Accounting Policies

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 requires enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for and their effect on an entity's financial position, financial performance, and cash flows. SFAS 161 is effective for the Company on February 1, 2009. The Company is currently evaluating the impact that the adoption of SFAS 161 may have on its consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)). SFAS 141(R) amends the principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141(R) also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. SFAS 141(R) is effective for the Company on February 1, 2009, and the Company will apply SFAS 141(R) prospectively to all business combinations subsequent to the effective date.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51* (SFAS 160). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 also establishes disclosure requirements that clearly identify and distinguish between the controlling and noncontrolling interests and requires the separate disclosure of income attributable to controlling and noncontrolling interests. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact that the adoption of SFAS 160 will have on its consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). This statement permits entities the option to measure many financial instruments and certain other items at fair value at specific election dates. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 was effective for our Company on February 3, 2008. The adoption of SFAS 159 did not have a material impact on our consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 applies to other accounting pronouncements that require or permit fair value measurements. The Company adopted SFAS 157 on February 3, 2008 as required for its financial assets and liabilities. However, in February 2008, the FASB issued FASB Staff Position 157-2, *Effective Date of FASB Statement No. 157*, which delays the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The adoption of SFAS 157 for our financial assets and liabilities did not have a material impact on the Company's financial condition and results of operations. We do not believe the adoption of SFAS 157 for our non-financial assets and liabilities, effective February 1, 2009, will have a material impact on our consolidated financial statements.

Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). The forward-looking statements involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or

achievements expressed or implied by these forward-looking statements. These factors include, but are not limited to:

- our reliance on suppliers and vendors for sufficient quantities of their products and for new product releases;
- general economic conditions in the U.S. and internationally and specifically, economic conditions affecting the electronic game industry;
- the competitive environment in the electronic game industry;
- our ability to open and operate new stores;
- our ability to attract and retain qualified personnel;
- the impact and costs of litigation and regulatory compliance;
- unanticipated litigation results;
- the risks involved with our international operations;
- alternate sources of distribution of video game software; and
- other factors described in the Form 10-K, including those set forth under the caption Item 1A. Risk Factors.

In some cases, forward-looking statements can be identified by the use of terms such as anticipates, believes, continues, could, estimates, expects, intends, may, plans, potential, predicts, pro forma, should, expressions. These statements are only predictions based on current expectations and assumptions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. ITEM 3. *Quantitative and Qualitative Disclosures About Market Risk*

Interest Rate Exposure

We do not use derivative financial instruments to hedge interest rate exposure. We limit our interest rate risks by investing our excess cash balances in short-term, highly-liquid instruments with a maturity of one year or less. In addition, the Senior Notes outstanding issued in connection with the merger carry a fixed interest rate. We do not expect any material losses from our invested cash balances, and we believe that our interest rate exposure is modest.

Foreign Currency Risk

The Company follows the provisions of Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133), as amended by Statement of Financial Accounting Standards No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* and Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 133 requires that all derivative instruments be recorded on the balance sheet at fair value while SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether the derivative is designated as part of a hedge transaction, and if it is, depending on the type of hedge transaction.

Table of Contents

The Company uses forward exchange contracts, foreign currency options and cross-currency swaps, (together, the Foreign Currency Contracts) to manage currency risk primarily related to intercompany loans denominated in non-functional currencies and certain foreign currency assets and liabilities. These Foreign Currency Contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans and foreign currency assets and liabilities. The aggregate fair value of the Foreign Currency Contracts at August 2, 2008 was a liability of \$8.2 million as measured by observable inputs obtained from market news reporting services, such as Bloomberg and The Wall Street Journal, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures. A hypothetical strengthening or weakening of 10% in the foreign exchange rates underlying the Foreign Currency Contracts from the market rate as of August 2, 2008 would result in a (loss) or gain in value of the forwards, options and swaps of (\$23.9 million) or \$23.9 million, respectively.

ITEM 4. *Controls and Procedures*

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company's management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports.

(b) Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. *Legal Proceedings*

On February 14, 2005, and as amended, Steve Strickland, as personal representative of the Estate of Arnold Strickland, deceased, Henry Mealer, as personal representative of the Estate of Ace Mealer, deceased, and Willie Crump, as personal representative of the Estate of James Crump, deceased, filed a wrongful death lawsuit against GameStop, Sony, Take-Two Interactive, Rock Star Games and Wal-Mart (collectively, the Defendants) and Devin Moore, alleging that Defendants' actions in designing, manufacturing, marketing and supplying Defendant Moore with violent video games were negligent and contributed to Defendant Moore killing Arnold Strickland, Ace Mealer and James Crump. Moore was found guilty of capital murder in a criminal trial and was sentenced to death in August 2005.

Plaintiffs' new Alabama counsel has named a new expert, a psychiatrist who testified at the criminal trial on behalf of the criminal defendant, who will opine (if allowed) that violent video games were a substantial factor in causing the murders. This same testimony from this same expert was excluded in the criminal trial from the same judge hearing

this case. The motion to bar this testimony in this case is set for October 30, 2008. The ruling on this motion will have an effect on whether the case is able to proceed. There is no current trial date. The Company does not believe there is sufficient information to estimate the amount of the possible loss, if any, resulting from the lawsuit.

Table of Contents

In the ordinary course of the Company's business, the Company is, from time to time, subject to various other legal proceedings. Management does not believe that any such other legal proceedings, individually or in the aggregate, will have a material adverse effect on the Company's financial condition or results of operations.

There have been no other material developments in previously reported legal proceedings during the fiscal quarter covered by this Form 10-Q.

ITEM 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Item 1A. Risk Factors in our Form 10-K for the fiscal year ended February 2, 2008 filed with the SEC on April 2, 2008. These risks could materially and adversely affect our business, financial condition and results of operations. The risks described in our Form 10-K have not changed materially, however, they are not the only risks we face. Our operations could also be affected by additional factors that are not presently known to us or by factors that we currently consider immaterial to our business.
