On April 24, 2007, Inverness Medical Innovations, Inc. (the "Company") announced its intention to restate its consolidated financial statements as of and for the year ended December 31, 2007 (the "2007 Financial Statement") to correct two errors and the Company has subsequently amended its Annual Report on Form 10-K to do so. The first error related to the calculation of the Company's provision for income taxes for the fourth quarter of 2007, which was understated by approximately \$1.8 million for a non-cash charge related to the write-off of in-process research and development expense recorded during the quarter. The second error related to the calculation of the Company's sales and marketing expense for the fourth quarter of 2007, which was understated by approximately \$2.4 million for non-cash amortization expense related to a 2007 acquisition. The Company hereby further amends this Current Report on Form 8-K, event date February 14, 2008, in order to reflect the impact of these two errors on the pro forma financial information contained herein.
