Cooper-Standard Automotive Announces Third Quarter 2006 Results

## Edgar Filing: Cooper-Standard Holdings Inc. - Form 424B3

Novi, Mich. – November 14, 2006 – Cooper-Standard Holdings Inc., the parent of Cooper-Standard Automotive Inc., today announced its third quarter 2006 financial results. The Company reported record third quarter sales of \$505.5 million. The Company is a leading global manufacturer of body sealing, fluid handling, and noise, vibration, and harshness (NVH) control products and systems for the automotive industry.

A summary of the third quarter and year-to-date unaudited financial results follows:

\$ Millions	Qtr-3 2005	Qtr-3 2006	YTD 2005	YTD 2006
Net Sales	\$ 426.7	\$ 505.5	\$ 1,385.9	\$ 1,638.3
Operating Profit / (Loss)	\$ 11.0	\$ (4.3)	\$ 56.7	\$ 62.3
Net Income / (Loss)	\$ (1.1)	\$ (27.0)	\$ 6.1	\$ (1.5)

Sales in the third quarter 2006 were \$505.5 million, \$78.8 million higher than the same period in 2005. Year-to-date sales were \$1.638 billion, an increase of \$252.4 million over 2005. Both increases were primarily due to the inclusion of Fluid Handling Systems (FHS), which was acquired in February.

Net loss for the quarter was \$27.0 million, primarily attributable to acquisition related amortization, increased restructuring expense, North American automotive industry issues, and higher interest expense. Year-to-date net loss was \$1.5 million, down from a net income of \$6.1 million in 2005, and is primarily related to higher restructuring costs and increased interest expense. Third quarter 2006 net interest expense was \$22.7 million compared to 2005 net interest expense of \$16.5 million, while year-to-date net interest expense was \$64.9 million, compared to \$49.4 million for the same period in 2005. Both the quarter and year-to-date increases were due to the incremental new debt associated with the FHS acquisition and slightly higher interest rates.

“Following a strong first half, the third quarter was a challenge because of vehicle mix and higher raw material costs, but we continue to be positive about the future. The domestic auto industry is undergoing significant restructuring. Abrupt North American OEM production cuts impacted our business, and we will face more challenges in the future,” stated Jim McElya, Chairman and CEO of Cooper-Standard Automotive. “Nevertheless, we are confident in our ability to manage through these challenges, and our people will continue to focus on winning new business and on lowering our costs.”

### Highlights of the Third Quarter 2006

Significant product launches: During the quarter, Cooper-Standard successfully launched products on new OEM vehicle platforms, as well as new products and conquest business on OEM vehicle platforms currently in production:

- DaimlerChrysler (Chrysler Sebring, Dodge Avenger and Nitro, and Jeep Wrangler)
- Ford (Ford Edge, Expedition, and Fusion, and Volvo C30)
- General Motors (Chevrolet Cobalt and Holden Commodore V-Series)
- Nissan (Altima, Maxima, and Sentra)
- PSA (Peugeot 207)
- Renault (Trafic)
- Toyota (Aygo)

Management uses Adjusted EBITDA as a measure of performance and to demonstrate compliance with certain debt covenants. The Adjusted EBITDA may vary slightly from the amount used in calculating covenant compliance due to the classification of joint venture equity earnings. EBITDA should not be construed as income from operations or net income, as determined by generally accepted accounting principles. Other companies may report EBITDA differently.
