THE MEETING

Date, Time and Place

The annual meeting will be held on May 9, 2007 at 2:00 p.m. local time at the Hyatt Regency Greenwich, 1800 East Putnam Avenue, Old Greenwich, CT 06870.

Matters to be Considered

At the meeting, stockholders will be asked to consider and vote to elect five Class II directors, to approve an amendment to the 2005 Long-Term Incentive Plan to increase the number of shares of common stock available for

issuance thereunder from 2,000,000 to 4,000,000 shares and to ratify the selection of the independent registered public accounting firm. See “ELECTION OF DIRECTORS,” “RATIFICATION OF SELECTION OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM” and “AMENDMENT TO THE 2005 LONG-TERM INCENTIVE PLAN.” The Board of Directors does not know of any matters to be brought before the meeting other than as set forth in the notice of meeting. If any other matters properly come before the meeting, the persons named in the enclosed form of proxy or their substitutes will vote in accordance with their best judgment on such matters.

Record Date; Stock Outstanding and Entitled to Vote

Stockholders as of the record date, i.e., the close of business on April 2, 2007, are entitled to notice of, and to vote at, the meeting. As of the record date, there were 72,667,374 common shares outstanding and entitled to vote, with each share entitled to one vote.

Required Votes

Election of Directors. Under Delaware law, the affirmative vote of the holders of a plurality of shares of common stock voting on this matter is required to elect each director. Consequently, only shares that are voted in favor of a particular nominee will be counted toward such nominee’s achievement of a plurality. For purposes of the election of directors, abstentions and broker non-votes will each be included in the determination of the number of shares present for purposes of constituting a quorum, but will not be counted as votes cast.

Amendment of the 2005 Long-Term Incentive Plan. The affirmative vote of the holders of a majority of the shares of common stock voting on this matter at the meeting is required to approve the issuance of additional common shares available for grant under the 2005 Long-Term Incentive Plan. For purposes of the amendment of the 2005 Long-Term Incentive Plan, abstentions and broker non-votes will each be included in the determination of the number of shares present for purposes of constituting a quorum, but will not be counted as votes cast.

Ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm. The affirmative vote of the holders of a majority of the shares of common stock voting on this matter at the meeting is required to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm. For purposes of ratifying the selection of Deloitte & Touche LLP as our independent registered public accounting firm, abstentions and broker non-votes will each be included in the determination of the number of shares present for purposes of constituting a quorum, but will not be counted as votes cast.

Other Matters. If any other matters are properly presented at the meeting for action, including a question of adjourning or postponing the meeting from time to time, the persons named in the proxies and acting thereunder will have discretion to vote on such matters in accordance with their best judgment.

Shares Held by Brokers

If you are the beneficial owner of shares held for you by a broker, your broker must vote those shares in accordance with your instructions. If you do not give voting instructions to your broker, your

broker may vote your shares for you on any discretionary items of business to be voted upon at the annual meeting, such as the election of directors and the ratification of the appointment of Deloitte & Touche LLP. The approval of an amendment to the 2005 Long-Term Incentive Plan, however, is considered a non-discretionary item and therefore, your broker may not vote your shares without instructions from you. If you do not provide voting instructions on a non-discretionary item, the shares will be treated as “broker non-votes.” “Broker non-votes” will be included in determining the presence of a quorum at the annual meeting but are not counted as votes cast.

Voting and Revocation of Proxies

Stockholders of record are requested to vote by proxy in one of three ways:

- Use the toll-free telephone number shown on your proxy card;
- Visit the Internet website indicated on your proxy card and follow the on-screen instructions;
- or
- Mail, date, sign and promptly return your proxy card in the enclosed postage prepaid envelope.

Shares of our common stock represented by properly executed proxies received by us or proxies submitted by telephone or via the Internet, which are not revoked will be voted at the meeting in accordance with the instructions contained therein. If instructions are not given, proxies will be voted FOR election of each nominee for director named herein, FOR the issuance of additional securities available for grant under the 2005 Long-Term Incentive Plan and FOR ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm.

Voting instructions (including instructions for both telephonic and Internet proxies) are provided on the proxy card. The Internet and telephone proxy procedures are designed to authenticate stockholder identities, to allow stockholders to give voting instructions and to confirm that stockholders' instructions have been recorded properly. A control number, located on the proxy card, will identify stockholders and allow them to submit their proxies and confirm that their voting instructions have been properly recorded. Costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, must be borne by the stockholder. If you submit your proxy by Internet or telephone, it will not be necessary to return your proxy card.

If your shares are held in the name of a bank or broker, follow the voting instructions on the form you receive from your record holder. The availability of Internet and telephone proxies will depend on their voting procedures.

If a stockholder does not return a signed proxy card or submit a proxy by the Internet or by telephone, and does not attend the meeting and vote in person, his or her shares will not be voted.

Any proxy signed and returned by a stockholder or submitted by telephone or via the Internet may be revoked at any time before it is exercised by giving written notice of revocation to the Secretary at our address set forth herein, by executing and delivering a later-dated proxy (either in writing, by telephone or via the Internet) or by voting in person at the meeting. Attendance at the meeting will not, in and of itself, constitute revocation of a proxy.

Proxy Solicitation

We will bear the costs of solicitation of proxies for the meeting, including preparation, assembly, printing and mailing of this Proxy Statement, the proxy card and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of common stock beneficially owned by others to forward to such beneficial owners. The Company may reimburse persons representing beneficial owners of common stock for their costs of forwarding solicitation material to such beneficial owners. In addition, the Company has retained The Altman Group to act as proxy solicitor in conjunction with the meeting. The Company has agreed to pay that firm a base fee of \$6,000 plus customary

call-based fees and reasonable out of pocket expenses, for proxy solicitation services. Solicitation of proxies by mail may be supplemented by telephone, telegram or personal solicitation by directors, officers, or other regular employees of the Company. No additional compensation will be paid to directors, officers or other regular employees for such services.

Independent Registered Public Accounting Firm

We have been advised that a representative of Deloitte & Touche LLP, our independent registered public accounting firm for the year ended December 31, 2006, will attend the annual meeting, will have an opportunity to make a statement if he desires to do so, and will be available to respond to appropriate questions.

Nomination Arrangements in Connection with the Viisage/Identix Merger

Effective as of the closing of the merger (the ‘‘Merger’’) of Viisage Technology, Inc. (‘‘Viisage’’) with Identix Incorporated (‘‘Identix’’) in August 2006, Milton E. Cooper, Malcolm J. Gudis, John E. Lawler and Boykin Rose became directors of the Company. Each of Messrs. Cooper, Gudis and Lawler previously served as a director of Identix. These four directors were appointed pursuant to the terms of the merger agreement (the ‘‘Merger Agreement’’), which provided that following the closing, the Company’s board would initially consist of thirteen members, nine of whom would be designated by the Company and four of whom would be designated by Identix. The nine designees of the Company, including Messrs. LaPenta, Nessen, Gelbard, Loy, Berube, Beck, Freeh and Tenet and Ms. Mouchly-Weiss, were all Company directors at the time of the Merger. In addition, pursuant to the terms of the Merger Agreement, the directors designated by Identix were granted the right to appoint an additional director following the closing of the Merger. The directors designated by Identix have not yet appointed an additional director.

Effective as of the closing of Merger, the Company’s board was reclassified to consist of (i) Messrs. Cooper, Gudis, Lawler and Rose as Class III directors (each designated by Identix), whose term of office will expire in 2008, (ii) Robert V. LaPenta, Peter Nessen, Robert Gelbard, James Loy and Harriet Mouchly-Weiss (each designated by the Company) as Class II directors whose term of office expires in 2007, and (iii) Denis K. Berube, B.G. Beck, Louis Freeh and George Tenet (each designated by the Company) as Class I directors whose term of office will expire in 2009. If the directors designated by Identix appoint an additional director, that director will serve in Class I.

Effective as of the closing of the Merger, (a) the Audit Committee was reconstituted to consist of Mr. Nessen as Chairman, Mr. Lawler as Vice Chairman and Messrs. Gudis, Freeh and Loy, and Ms. Mouchly-Weiss as members, (b) the Compensation Committee was reconstituted to consist of Mr. Cooper as Chairman and Messrs. Loy, Gudis, Tenet and Rose and Ms. Mouchly-Weiss as members and (c) the Nominating and Corporate Governance Committee was reconstituted to consist of Mr. Gelbard as Chairman and Messrs. Lawler, Nessen, Freeh and Rose and Ms. Mouchly-Weiss, as members. The committees were reconstituted pursuant to the terms of the Merger Agreement, which

9

provided that at least one director designated by Identix be appointed to serve on each and every committee of the Company until the expiration of the term of the Class III directors.

Pursuant to the terms of the Merger Agreement, the Company’s certificate of incorporation was also amended to (i) delegate to the Nominating and Corporate Governance Committee the full and exclusive power and authority otherwise conferred upon the Board of Directors to evaluate candidates and nominate persons to stand for election to the Board of Directors or fill vacancies on the Board of Directors or newly created directorships and (ii) require that any change in the size of the Board of Directors require the approval of (A) at least two thirds of the entire Board of Directors and (B) at least two thirds of the independent members of the Board of Directors.

CORPORATE GOVERNANCE

Board Independence Standards for Directors

Pursuant to our Corporate Governance Policy, a copy of which is available on our website at www.Llid.com, the Board of Directors is required to affirmatively determine that a majority of the directors is independent under the listing standards of the New York Stock Exchange (‘‘NYSE’’), the principal exchange on which the Company’s Common Stock is traded.

In accordance with the Corporate Governance Policy, the Board of Directors undertakes an annual review of director independence. During this review, the Board of Directors considers all information it deems relevant, including without limitation, any transactions and relationships between each director or any member of his immediate family and the Company and its subsidiaries and affiliates. The Board of Directors also considers the recommendations of the Nominating and Corporate Governance Committee, which conducts a separate independence assessment of all directors as part of its nomination process for the Board of Directors and its respective committees. The purpose of this review is to determine whether any such relationship or transaction is considered a “material relationship” that would be inconsistent with a determination that a director is independent. The Board of Directors has not adopted any “categorical standards” for assessing independence, preferring instead to consider all relevant facts and circumstances in making an independence determination including, without limitation, applicable independence standards promulgated by the NYSE.

As a result of this review, the Board of Directors affirmatively determined that, other than Robert V. LaPenta, B.G. Beck and Denis K. Berube, all of the directors are independent, as defined by the rules of the NYSE. Based on the recommendations of the Nominating and Corporate Governance Committee, the Board of Directors concluded that a certain contractual arrangement between Strategy XXI Group and the Company (the “Agreement”) signed by the Company in October 2006 does not constitute a “material relationship” and therefore does not affect the independence determination for Ms. Mouchly-Weiss. Ms. Mouchly-Weiss is a Managing Partner at Strategy XXI Group. Pursuant to the Agreement, Strategy XXI Group provides marketing consulting services to the Company in China in exchange for compensatory fees. To date the Company has paid approximately \$35,000 in fees to Strategy XXI Group. After a review and analysis of the Agreement and a discussion of the related facts and circumstances, the Nominating and Corporate Governance Committee concluded that, given the immaterial nature of the Agreement, the immaterial dollar value of the Agreement, and the immaterial nature of the relationship between the Company and Strategy XXI Group, and furthermore, given the fact that Ms. Mouchly-Weiss did not directly participate in providing consulting services to the Company, neither the Agreement nor Strategy XXI Group’s relationship with the Company constituted a “material relationship”, and, therefore, neither the Agreement nor Strategy XXI Group’s relationship with the Company affected the independence determination for Ms. Mouchly-Weiss under the NYSE rules.

In discharging its duties, the Audit Committee has the sole authority to select, retain, oversee and terminate, if necessary, the independent registered public accounting firm, review and approve the scope of the annual audit, review and pre-approve the engagement of our independent registered public accounting firm to perform audit and non-audit services, meet independently with our independent registered public accounting firm and senior

management, review the integrity of our financial reporting process and review our financial statements and disclosures and certain SEC filings.

From August 29, 2006 through March 23, 2007, the Audit Committee was composed of Mr. Peter Nessen (Chairman), Mr. John E. Lawler, Mr. Malcolm J. Gudis, Mr. Louis J. Freeh and Mr. James M. Loy and Ms. Harriet Mouchly-Weiss. Ms. Mouchly-Weiss voluntarily resigned from the Audit Committee on March 23, 2007. On March 28, 2007, the Company notified the NYSE that for the period of October 17, 2006 through March 23, 2007, the Company's Audit Committee did not satisfy, for wholly-inadvertent reasons, certain requirements of Section 303A.06 of the NYSE Listed Company Manual (the "Manual"). Section 303A.06 of the Manual states that the audit committee of a listed company satisfy the requirements of Rule 10A-3 under the Exchange Act of 1934, which requires, among other things, that no member of the audit committee receive, directly or indirectly, any consulting, advisory, or other compensatory fee from the issuer. In October 2006, the Company signed a consulting agreement with Strategy XXI Group, a marketing firm. Ms. Mouchly-Weiss is a Managing Partner of Strategy XXI Group. Pursuant to the Agreement, Strategy XXI Group provided certain marketing services for the Company in China in exchange for compensatory fees. To date the Company has paid approximately \$35,000 in fees to Strategy XXI Group under the Agreement. Because of the Agreement and these otherwise immaterial fees, on March 23, 2007, the Company's Nominating and Corporate Governance Committee found that Ms. Mouchly-Weiss was not independent for purposes of serving on the Audit Committee from October 17, 2006 through March 23, 2007. Effective March 23, 2007, Ms. Mouchly-Weiss voluntarily resigned from the Company's Audit Committee in order to remedy the unintentional and wholly inadvertent noncompliance. As a result of Ms. Mouchly-Weiss' resignation, the Company is now in full compliance with Section 303A.06 of the Manual and all of the NYSE listing standards. On March 30, 2007, the NYSE informed the Company that, based on the Company's disclosures, no further action by the NYSE was necessary. Following Ms. Mouchly-Weiss' resignation, the Company's Audit Committee consists of Mr. Peter Nessen (Chairman), Mr. John E. Lawler (Vice Chairman), Mr. Malcolm J. Gudis, Mr. Louis J. Freeh and Mr. James M. Loy.

The Board of Directors has determined that all five members of the Audit Committee, Messrs. Nessen, Lawler, Gudis, Freeh and Loy are independent, as defined by the rules of the NYSE and the Securities and Exchange Commission ("SEC"), and that each of Mr. Peter Nessen and Mr. John E. Lawler meets the additional criteria imposed by the SEC to qualify as an audit committee financial expert. Mr. Nessen serves as Chairman and Mr. Lawler serves as Vice-Chairman of the Audit Committee.

The Audit Committee met 6 times in 2006. The Audit Committee regularly holds meetings at which it meets with our independent registered public accounting firm without management present.

Loy, Mr. Boykin Rose, Mr. George J. Tenet and Ms. Harriet Mouchly-Weiss are independent, as defined by the rules of the NYSE. Mr. Cooper serves as Chairman of the Compensation Committee. Mr. Gelbard was appointed to the Compensation Committee by the Board of Directors on April 3, 2007, subsequent to the approval of the CD&A.

The Viisage Board of Directors engaged Mercer Human Resource Consulting to provide support to the Compensation Committee and management in determining or recommending the amount or form of executive and director compensation during the most recently completed fiscal year, including compensation benchmarking of the Named Executive Officers, and the Company engaged Mercer to assist with the preparation of the compensation disclosure in this Proxy Statement. The decisions made by the Compensation Committee and Company management are their responsibility and may reflect factors and considerations other than the information and recommendations provided by Mercer.

The Compensation Committee met 6 times in 2006. The Compensation Committee acts pursuant to a written charter, adopted by the Board of Directors, which is available on our website at www.L1id.com

Nominating and Corporate Governance Committee

The functions of the Nominating and Corporate Governance Committee are, among others, to (a) identify and evaluate candidates and nominate individuals to serve as directors of the Company and on committees of the Board of Directors, (b) develop, recommend and review corporate governance guidelines on a regular basis, (c) fill any vacancies created by removal, resignation or retirement from the Board of Directors or the death of any director, (d) upon any increase in the number of directors, appoint any number of such additional directors authorized in accordance with the requirements of the Company's charter and (e) assist the Board of Directors in its annual review of the Board of Directors performance. Pursuant to the terms of the Merger Agreement, the Company's certificate of incorporation was amended to delegate to the Nominating and Corporate Governance Committee the full and exclusive power and authority otherwise conferred upon the Board of Directors to evaluate candidates and nominate persons to stand for election to the Board of Directors or fill vacancies on the Board of Directors or newly created directorships.

The Board of Directors has determined that all seven members of the Nominating and Corporate Governance Committee, Mr. Robert S. Gelbard, Mr. Malcom J. Gudis, Mr. John E. Lawler, Mr. Peter Nessen, Mr. Louis J. Freeh, Mr. Boykin Rose and Ms. Harriet Mouchly-Weiss are independent, as

defined by the rules of the NYSE. Mr. Gelbard serves as Chairman of the Nominating and Corporate Governance Committee. Mr. Gudis was appointed to the Nominating and Corporate Governance Committee by the Board of Directors on April 3, 2007.

The Nominating and Corporate Governance Committee met 4 times in 2006. The Nominating and Corporate Governance Committee acts pursuant to a written charter, adopted by the Board of Directors, which is available on our website at www.L1id.com.

Stockholder Nominations

The Company's By-Laws contain provisions which address the process by which a stockholder may nominate an individual to stand for election to the Board of Directors at the Company's annual meeting of stockholders. The Board of Directors has also adopted a formal policy concerning stockholder recommendations of Board of Directors' candidates to the Nominating and Corporate Governance Committee. This policy is set forth in the Company's Nominating and Corporate Governance Committee charter, which is available on the Company's website at www.L1id.com. Under this policy, the Nominating and Corporate Governance Committee considers director candidates recommended by stockholders who satisfy the notice, information and consent requirements set forth in the Company's By-Laws. To recommend a nominee for election to the Board of Directors, a stockholder must submit his or her recommendation to the Secretary at the Company's principal executive offices at 177 Broad Street, Stamford, CT 06901. A stockholder's recommendation must be received by the Company (i) no later than the 75th day, nor earlier than the 120th day, prior to the first anniversary of the date that our Company's Proxy Statement was released to stockholders in connection with the previous year's annual meeting of stockholders, (ii) or, in the event that the annual meeting of stockholders is called for a date more than 7 days prior to the first anniversary of the date that our Company's Proxy Statement was released to stockholders in connection with the previous year's annual meeting of stockholders, (A) no later than the close of business on the 20th day following the first date on which the date of such meeting was publicly disclosed or (B) if such date of public disclosure occurs more than 75 days prior to such scheduled date of such meeting, then the later of (x) the 20th day following the first date of public disclosure of the date of such meeting or (y) the 75th day prior to the scheduled date of such meeting.

A stockholder's recommendation must be accompanied by the following information with respect to a stockholder director nominee as specified in the By-Laws (i) the name, age, business address and residence address of the recommended person, (ii) the principal occupation or employment of the recommended person during the past five years, (iii) the class and number of shares of the Company stock beneficially owned by the recommended person on such date, (iv) whether in the past five years the recommended person has (1) filed for bankruptcy, (2) been convicted in a criminal proceeding or named subject of a criminal proceeding, (3) been found by any court of competent jurisdiction to have violated any Federal law or Federal commodities law, and such judgment or finding was not been subsequently reversed, suspended or vacated or (4) been subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any competent jurisdiction or of any Federal or state governmental or quasi-governmental agency, authority or commission enjoining him or her or otherwise limiting him or her from engaging in any type of business practice or in any activity in connection with the purchase or sale of any security or commodity and (v) the consent of the recommended person to serve as a director of the Company in the event that he or she is elected.

The recommending stockholder must also include in the notice (i) his or her name and address, (ii) the number of shares beneficially owned by him or her on the date of notice and the number of shares beneficially owned by any other stockholder supporting such nomination, (iii) a representation that he or she intends to appear in person at the meeting or that he or she nominates the person specified in the notice and (iv) a description of all arrangements or understanding between him or her and the nominee.

We may require any proposed nominee to furnish other information as we may reasonably require to determine the eligibility of the proposed nominee to serve as a director of the Company.

See “PROPOSALS BY STOCKHOLDERS” for the deadline for nominating persons for election as directors for the 2008 annual meeting of stockholders.

Criteria for Director Nominees

In evaluating director nominees, the Nominating and Corporate Governance Committee considers the following factors:

- character and integrity;
- expertise and experience, including leadership qualities and experience, high-level managerial experience in a relatively complex organization or experience dealing with complex problems;
- ability to provide advice and practical guidance based on experience;
- independence pursuant to the rules promulgated by the SEC and the NYSE;
- sound and independent business judgment and commitment to stockholder value;
- sufficient time for Board activities and towards fulfillment of responsibilities to the Company;
- and
- whether the candidate assists in achieving a mix of Board of Directors members that represents a diversity of background and professional experience.

Other than the foregoing, there are no minimum criteria for director nominees, although the Nominating and Corporate Governance Committee may consider such other factors as it may deem are in the best interests of the Company and its stockholders. The Nominating and Corporate Governance Committee does not assign specific weights to, and a potential or incumbent director will not necessarily satisfy all of, the foregoing criteria and in evaluating a candidate does not distinguish on the basis of whether the candidate was recommended by a stockholder.

Process for Identifying and Evaluating Director Nominees

The Nominating and Corporate Governance Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board of Directors with skills and experience that are relevant to the Company’s business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors does not wish to continue in service or if the Nominating and Corporate Governance Committee decides not to re-nominate a member for re-election, the Nominating and Corporate Governance Committee identifies the desired skills and experience of a new nominee based on the criteria listed above. Current members of the Nominating and Corporate Governance Committee and Board of Directors are polled for suggestions as to individuals meeting the criteria of the Nominating and Corporate Governance Committee. Research may also be performed to identify qualified individuals. The Company has, in the past, engaged a third party to identify and evaluate potential nominees.

Attendance at Meetings

Board and Committee Meetings

It is our policy that directors are expected to dedicate sufficient time to the performance of his or her duties as a director, including by attending meetings of the stockholders, Board of Directors and committees of which he or she is a member.

In 2006, the Board of Directors held 25 meetings (including regularly scheduled and special meetings) and took action by unanimous written consent on one other occasion. All directors, other than Mr. Louis J. Freeh, Mr. Robert S. Gelbard, Ms. Harriet Mouchly-Weiss and Mr. George J. Tenet, attended at least 75% of the total number of meetings of the Board of Directors and committees of

14

the Board of Directors on which such director served. Certain of our directors did not serve on the Board of Directors or any committee thereof prior to the Merger and each individual's attendance record only covers meetings held while such individual was a member of the Board of Directors and/or any committee thereof.

Stockholder Meeting

In August 2006, we held a special meeting in lieu of our annual meeting of stockholders in connection with the approval of the Merger. All of the directors of Viisage at that time attended the special meeting.

Stockholder Communications with the Board of Directors

Our Board of Directors provides a process for stockholders to send communications to the Board of Directors.

Stockholders and other parties interested in communicating directly with the Board of Directors as a group, may do so by writing to the Board of Directors, c/o Secretary, 177 Broad Street, Stamford, CT 06901. The Secretary will review all correspondence and regularly forward to the Board of Directors all such correspondence that, in the opinion of the Secretary, deals with the functions of the Board of Directors or committees thereof or that the Secretary otherwise determines requires attention. Concerns relating to accounting, internal controls or auditing matters will immediately be brought to the attention of the Chairman and Vice Chairman of the Audit Committee. We have adopted a Whistleblower Policy, which establishes procedures for submitting these types of concerns, either personally or anonymously through a toll free telephone "hotline" operated by an independent party. A copy of our Whistleblower Policy is available on our website at www.L1id.com.

Code of Business Ethics & Standards of Conduct

We have adopted a Code of Business Ethics & Standards of Conduct (the "Code"), that applies to all of our directors, officers and employees, including our principal executive officer, principal financial officer and principal accounting officer. Copies of our Code are available without charge upon requests directed to Investor Relations, 177 Broad Street, Stamford, CT 06901, and from our website at www.L1id.com. Any amendments to, or waivers under, our Code which are required to be disclosed by the rules promulgated by the SEC will be disclosed on the Company's website at www.L1id.com.

Ebzery, President, Viisage Division; Dr. Mohamed Lazzouni, Senior Vice President, Viisage Division; and Iftikhar A. Ahmad, Senior Vice President of Secure Credentials, Viisage Division. These are the persons named in the Summary Compensation Table presented in this Proxy Statement (the “Named Executive Officers”). The Compensation Discussion and Analysis appearing in this section (the “CD&A”) includes information regarding, among other things, our executive compensation philosophy, the overall objectives of our executive compensation program, each element of the compensation that we provide, and what our compensation policies are designed to reward.

Introduction

We provide products, systems, and solutions that protect and secure personal identities. Our customers include domestic and international governments, law enforcement and border management agencies, various U.S. military branches, and commercial businesses. The security industry has grown rapidly in recent years and is constantly changing as a result of sweeping technological advances, the ever-increasing sophistication of our customers, and the unprecedented demand for comprehensive security solutions. In an effort to maintain our leadership position in identity solutions and to meet ever-changing security needs, we need to attract and retain executives who are experienced in the security industry and in running growing global businesses. Our long-term success is dependent on a leadership team with the integrity, skills, and dedication necessary to oversee a dynamic organization and the vision to anticipate and respond to future market developments. Our executive compensation program is designed to enable us to motivate and reward individuals who possess these characteristics.

Viisage/Identix Merger

In 2006, our executive compensation program, as well as several specific compensation decisions, was shaped, in large part, by the Merger. The Merger, which was publicly announced in January 2006 and completed in August 2006, resulted in the reconstitution of our management team, as a new Chief Executive Officer and Chief Financial Officer joined the Company (our CEO and our CFO), a number of Viisage and Identix executives assumed new roles with the combined company, and the former Viisage Chief Executive Officer and Chief Financial Officer (our former CEO and

former CFO) left the combined company.

In March 2006, we entered into employment offer letters with several Viisage executives offering them different or expanded roles with the Company following the Merger. Among other things, these offer letters set forth the specific terms of their compensation arrangements with the combined company. In connection with the Merger, we entered into employment agreements with members of L-1 Investment Partners LLC (“L-1 Investment Partners”), who joined the Company to become our CEO and our CFO and to assume other senior executive roles. We also entered into employment agreements with several of the former executives of Identix to retain their services as executives of the combined company. Finally, we entered into separation agreements with our former CEO and former CFO to specify the respective rights and obligations of the parties in connection with their decision not to serve as executive officers of the combined company following the Merger. As a result of these transactions, many of the standard processes that would have occurred and decisions that would be made in a normal year with respect to executive compensation were largely superseded in 2006 by the terms and conditions of these agreements and arrangements with respect to these individuals’ 2006 compensation.

We also made a number of individual compensation decisions in 2006 that were directly related to the Merger. For example, to ensure the successful integration of the two organizations, we paid

20

special, one-time bonuses to several executives to encourage them to stay with the combined company through the completion of the Merger. We also made stock option grants at the time of the Merger to several executives, including Messrs. LaPenta and DePalma and Dr. Lazzouni, either to honor commitments made under their employment agreements and employment offer letters or to reflect their enhanced roles in the combined company, which were made outside of our normal equity award cycle.

Since the Merger, we have begun a comprehensive re-evaluation of all of our compensation programs, including our executive compensation program, to ensure that they are properly aligned with the Company’s long-term strategic objectives and the necessary compensation philosophy for a larger, more complex global organization.

Overview of the Executive Compensation Program

Philosophy and Objectives

Our executive compensation program is designed to further the Company’s annual and long-term business objectives by providing our executives with compensation that is competitive within our industry sector and geographic region and that will motivate our executives to make decisions that enhance both the Company’s financial position and the value of our stockholders’ investments. The program links compensation directly to both corporate and individual performance to motivate executives to superior performance and to ensure their continuing employment.

Role of Board of Directors and Compensation Committee

The Board of Directors of the Company is solely responsible for making all compensation decisions for our executives, including the Named Executive Officers. The Compensation Committee of the Board of Directors formulates and recommends to the Board of Directors for its approval the compensation policies and individual compensation decisions for our executives, including the Named Executive Officers, and directors and ensures that

these policies and decisions are consistent with overall corporate performance. In most cases, the Compensation Committee's recommendations are developed with input from our CEO and, where appropriate, other senior executives. The Compensation Committee is responsible for reviewing and approving the corporate goals and objectives relevant to our CEO's compensation and leading the Board of Directors in evaluating his performance in light of those objectives. The Compensation Committee also reviews and recommends to the Board of Directors for its approval the target annual incentive pool, the annual objectives for participants, and actual payouts to participants, including the Named Executive Officers, under our annual Management Incentive Plan. Since December 2006, the Compensation Committee has the authority to approve all stock option grants and other equity awards to our employees, except for grants and awards for directors and executives, which must be approved by the Board of Directors.

To assist it in performing its duties, the Compensation Committee may, from time to time, engage an outside compensation consulting firm. In 2006, the Compensation Committee of the Viisage Board of Directors retained Mercer Human Resource Consulting to prepare an evaluation of executive compensation for the positions to be assumed by the members of L-1 Investment Partners who joined the Company in connection with the Merger. As described further below, this evaluation was used to ensure that the compensation of these individuals as a whole was competitive in the general marketplace.

Compensation-Setting Process

Pre-Merger. Typically, at the beginning of the year, the Compensation Committee of the Viisage Board of Directors, under the direction of its chairman, would meet with and review the recommendations of the Chief Executive Officer (except in the case of his own compensation) to set the base salaries, target bonus opportunities and performance objectives (which would involve both corporate and individual objectives) for the other Viisage executives and to discuss the Chief

21

Executive Officer's base salary, target bonus opportunity and performance objectives for the year. At that time, it was expected that the Compensation Committee would meet with the Chief Executive Officer at the end of the year to conduct a performance review of the executives based on each individual's performance (and that of his organization) during the year against the pre-established targets and objectives, his or her contribution to Viisage's performance, and other individual accomplishments. They then would use this information to make compensation recommendations for the executives (as well as the Chief Executive Officer) for the just completed fiscal year and the current year for input and approval by the Viisage Board of Directors. This is the process that was used to set Messrs. Bailey's and Miller's compensation for 2006, as well as that of Messrs. Ebzery and Ahmad and Dr. Lazzouni.

Executives' compensation was linked to both corporate and individual performance. To establish a target total compensation range for each executive, the Viisage Board of Directors considered various measures of corporate and industry performance relevant to Viisage's business. Typically, the relative relationship of these measures was not based on a formula or assigned weights. Instead, a subjective determination of the appropriate target level was made after considering the measures collectively. The Viisage Board of Directors also used specific corporate performance measures to determine the size of annual bonus payouts and to determine the size of stock option grants and other equity awards to be made to executives. In addition, individual performance was also an important consideration in setting the compensation of the executives.

When considering base salaries, target bonus opportunities, and long-term incentive awards for the executives, the Compensation Committee of the Viisage Board of Directors reviewed compensation data published by several independent sources.

Merger-Related Executive Compensation. In setting the initial compensation of our CEO and CFO and the other two individuals who joined the Company from L-1 Investment Partners, we used the information provided by Mercer to establish an overall target compensation level for the senior management team on an aggregate basis. In the case of base salary and annual incentive award opportunities, we matched each executive's position at general industry companies of comparable size (\$250 million in annual revenue on a post-Merger basis). In the case of equity awards, we considered data on long-term equity incentives for high-technology and computer software industry companies.

We determined that, while the aggregate base salary amount for these four individuals would exceed the aggregate median for the companies reviewed, it would fall just above the 75th percentile of the comparative pay for these companies. Given the industry experience and seniority of these individuals, we believed that setting their base salary to the 75th percentile was appropriate. In the case of annual incentive award opportunities, we determined that our proposed award multiple target of 50% of base salary compared favorably to the median aggregate of base salary represented by the 75th percentile of the companies reviewed.

While the aggregate value of the stock options granted to these four individuals exceeded the median of the companies reviewed, for annual grants we believed that the aggregate award level was necessary to obtain Mr. LaPenta's service as Chief Executive Officer, Mr. DePalma's service as Chief Financial Officer, and to persuade the other individuals to join our management team. In addition, we believed that the overall award level was appropriate in view of the Company's aggressive growth plan, these individuals' anticipated roles in completing several strategic acquisitions, and our desire to motivate them to dedicate a substantial portion of their time to the Company instead of pursuing other investment opportunities. The actual decisions with respect to the allocation of this compensation between the individual executives was determined by our CEO and ratified by the Board of Directors.

Post-Merger. Going forward, the Compensation Committee intends to develop a structured process consistent with industry best practices for making compensation decisions. At scheduled times during the year, the Compensation Committee will formulate recommendations for the Board of Directors concerning base salary adjustments, if any, for each executive, as well as target annual incentive award opportunities and long-term incentive awards. These recommendations will be developed with input from our CEO (except in the case of his own compensation).

22

In the case of annual incentive award opportunities, this process will also involve setting performance objectives (which would include both corporate and individual objectives) for each executive. At the end of the year, the Compensation Committee will meet again to review the evaluations made by our CEO for each executive (the Compensation Committee will conduct its own evaluation of our CEO) based on his or her individual performance (and that of his organization) during the year against the pre-established objectives, his or her contribution to the Company's performance, and other individual accomplishments. The Compensation Committee will use these reviews to make recommendations to the Board of Directors for annual incentive award payouts for the just completed fiscal year and to set compensation for the current year. In connection with this review, the Compensation Committee will also review the Company's deferred compensation arrangements, perquisites and other compensation, and payments that would be required under various severance and change-in-control scenarios.

To the extent that it believes such data is relevant, the Compensation Committee intends to continue to obtain and consider relevant survey data to the extent it is available, to benchmark an executive's target total compensation, as well as individual elements of compensation, to ensure that the Company's executive compensation program remains competitive within our industry sector and geographic region. The Compensation Committee may also develop one or more "peer groups" of comparable companies as a further tool to evaluate and measure relative and absolute compensation levels.

Elements of Compensation

In 2006, the primary compensation elements for our executives, including the Named Executive Officers, were:

- base salary;
- annual incentive awards;
- long-term incentive awards (in the form of stock options and restricted stock); and
- retirement and other benefits.

In addition, as described above, some of our executives, including our CEO and CFO, have employment agreements that provide for certain retirement benefits and potential payments upon termination of employment for a variety of reasons, including a change in control of the Company. Other executives are entitled to certain benefits and payments upon a termination of employment or in connection with a change in control of the Company as specified in their employment offer letters.

Base Salary

Under our executive compensation program, we view the purpose of base salary to fairly and competitively compensate our executives with a fixed amount of cash for the jobs we ask them to perform. Accordingly, we seek to ensure that base salary levels are competitive and consistent with industry practices.

Our CEO's and CFO's employment agreements specify the base salary level that they are to receive during the agreements' term. The Compensation Committee may in its discretion set their salary at any higher level that it deems appropriate.

Salary levels are reviewed annually by the Compensation Committee and adjustments vary and are dependent upon factors including base salary relative to similar positions as reflected in the survey data, length of service, professional experience, and relative contribution to our performance.

The base salaries paid to the Named Executive Officers during 2006 are reported in the Summary Compensation Table on page 32 of this Proxy Statement.

Management Incentive Plan

As part of our executive compensation program, we provide an annual incentive award opportunity to our executives that is designed to enhance both the Company's financial position and

the value of our stockholders' investments and to achieve individual strategic objectives. Generally, at the beginning of each year, our CEO will develop an annual incentive award plan for the year for our employees and executives, including the Named Executive Officers, as well as other key members of the Company's management team (the "Management Incentive Plan" or "MIP"). This plan is then submitted to the Compensation Committee for consideration and approval.

Target award levels for plan participants, expressed as a percentage of base salary, are established by our CEO at the time of hire, promotion, or transfer to an eligible position; or, at other times, based on position (for example, vice president, senior vice president), prior award targets and actual payouts, last performance rating, exceptional contributions, market value of the position, division performance, and requirements of any pre-existing employment agreement. The aggregate target award amount is then approved by the Compensation Committee. Award payouts are based on the Company's actual performance for the year measured against one or more corporate goals (as determined by the Compensation Committee and approved by the Board of Directors) and individual performance for the year measured against one or more individual goals (as deemed achieved by our CEO and approved by the Compensation Committee). Typically, these corporate and individual performance goals are established by March of each year and payouts are made in March of the following year.

2006 MIP. At the beginning of 2006, Viisage established a Management Incentive Plan for its executives. There were to be two corporate performance objectives in 2006: the achievement of \$75 million in revenue and the achievement of \$10.5 million in earnings before interest, income taxes, depreciation, and amortization and after adjustment for stock-based compensation expense ("Adjusted EBITDA"). The corporate performance component represented 50% of the annual incentive award opportunity.

To be eligible for payout, the overall achievement of the corporate performance objectives had to meet an 80% threshold for each objective. If the threshold for either objective was not met, then there would be no payout under this component of the program. If the threshold for both objectives was exceeded, then the payout would increase at designated intervals as the level of performance increased. For example, meeting the two specified target performance objectives would result in a 100% payout, while achieving 120% of the targeted objectives could result in up to a 125% payout.

In addition, each plan participant was required to meet individual performance objectives, as mutually agreed upon between our former CEO, the individual participant's manager, and the individual. The individual performance component represented 50% of the annual incentive award opportunity.

To be eligible for payout under this component, a plan participant would have to receive an above-average performance rating using the then-existing Viisage employee rating system. Individual ratings were to be based on our former CEO's evaluation of the plan participant's performance (subject to the approval of the Compensation Committee), with an opportunity to earn more or less than the target level based on an individual's actual performance rating. For example, exceeding expectations would result in a 100% payout, while far exceeding expectations could result in a higher percentage payout. On the other hand, falling short of expectations in one or more areas could result in no payout or in a payout of less than the target level.

In late 2005 and 2006, the Company underwent several significant changes, including the following:

- The successful acquisitions of SecuriMetrics, Iridian, SpecTal, and IBT;
- The successful completion of the Merger;
- The installation of a new management team led by our CEO;
- The development and implementation of several management processes and procedures, which strengthened internal controls and positioned the Company for continued growth; and
- The successful integration of the various businesses into the Company, with attendant

cost-reductions that enhanced the Company's financial position.

24

As a result, following the Merger we concluded that it would no longer be practical to implement the MIP in its original form to determine annual incentive awards for the year. Thus, the following approach was used to evaluate corporate and individual performance and to decide the appropriate payout levels for executives, including the Named Executive Officers.

For most corporate-level executives, the target award level was determined to be 50% of base salary, the level established at the beginning of the year by Viisage. In the case of our CEO and CFO, their target award levels of 50% of base salary were specified in their employment agreements. For vice presidents, target award levels ranged from 20% to 50% of base salary, depending on job function and the other criteria listed above. The target award levels for Messrs. Ebzery and Ahmad and Dr. Lazzouni for 2006 were specified in their employment offer letters.

Our CEO formulated recommendations for the Compensation Committee with respect to proposed award payouts (including his own award), based on a review of each division's performance against the internal revenue and Adjusted EBITDA targets that were established at the beginning of the year. In the case of divisions that were formerly a part of Identix, the comparison principally was based on financial performance over the last half of 2006. It also took into consideration the Company's plans for the integration of the two companies and the Company's level of profitability during a complex transition period.

Individual performance objectives were given less weight than originally contemplated due to the absence of formally documented objectives for each plan participant. Instead, our CEO based his recommendations with respect to this component on his evaluation of each individual's performance in completing the Merger and working toward the integration of the two companies, while, at the same time, handling his or her corporate or divisional responsibilities and contributing to the Company's overall profitability.

Our CEO submitted his recommendations to the Compensation Committee, which upon due consideration approved his recommended annual incentive award payouts for 2006.

In the case of our CEO and CFO, recommended payouts were \$183,000 and \$108,000, respectively. In the case of the other Named Executive Officers, recommended payouts ranged from \$40,000 to \$100,000.

Our CEO also recommended that, to reinforce the Company's philosophy of encouraging executives to make long-term decisions that enhance our financial position and the value of our stockholders' investments, a significant portion of the award payouts for the Named Executive Officers may be made in the form of equity. Specifically, he recommended that the award payouts for him and the CFO be made half in shares of stock and half in stock options, while the award payouts to certain other Named Executive Officers be made either 50% in cash and 50% in stock options or 75% in cash and 25% in stock options. The Compensation Committee, upon due consideration, approved our CEO's recommendations.

The annual cash incentive award payouts to the Named Executive Officers for 2006 are reported in the Summary Compensation Table on page 32 of this Proxy Statement. Additional information about these awards is reported in the Grants of Plan-Based Awards Table on page 34 of this Proxy Statement.

2007 MIP. At the beginning of 2007, we established a new Management Incentive Plan for our executives. The MIP will operate in the following manner:

Under the 2007 MIP, the Compensation Committee establishes performance objectives for plan participants, which include both a Company performance component as well as an individual performance component. The Company performance component is comprised of total Company/division revenue, Adjusted EBITDA, and other specific measurable objectives. In the case of corporate-level executives, these measures are based on overall Company performance. In the case of divisional executives, the measures are based on division or business unit performance. Generally, the Company performance component represents 50% of the annual incentive award opportunity, including revenue, Adjusted EBITDA, and other specific measurable objectives.

25

To ensure better accountability, the individual performance component is based on the achievement of pre-established strategic goals reflecting corporate or business unit objectives. We believe that this will better align individual performance with our corporate and divisional goals for the year. The individual performance component represents 50% of the annual incentive award opportunity.

Target award levels for each plan participant are established and the aggregate target award amount under the plan is approved by the Compensation Committee. In the case of executives, target award levels are established by executive employment agreements and employment offer letters. In the case of other plan participants, target award levels are based on the recommendation of our CEO and the division presidents as appropriate, taking into consideration job function, level, past performance, market value, and other factors.

Actual award payouts will depend on actual corporate and individual performance against an executive's pre-established objectives. Generally, a 90% threshold performance level has been established for each objective. If this threshold is not met for a given component, then there would be no payout under that component of the program. Where this threshold is exceeded, then the payout will increase at designated intervals as the level of performance increases. Meeting the pre-established performance objectives for an individual component will result in a full payout, while exceeding the targeted objectives may result in a greater payout, subject to the approval of the Compensation Committee.

For example, if a plan participant's total target award level is \$100,000, the portion of the award based on Company performance (at target) is \$50,000. Similarly, the portion of the award based on individual performance is set at \$50,000. If either of the corporate performance measures (actual sales revenue or profitability) is greater than 90% of the 2007 business plan but less than 100%, the potential award payout for this component is limited to 75% of the target, and, if actual revenue or profitability is less than 90% of the 2007 business plan, there will be no payout with respect to the Company performance component.

The individual performance component of the 2007 MIP is based on the achievement of individual strategic goals. It is the objective of the Compensation Committee to establish these goals for each plan participant by March 15 of each year. Generally, if the participant's actual performance against his or her strategic goals is less than 50%, there will be no credit granted for this particular factor. Generally, if actual performance is greater than 50% but less than 90%, the maximum credit to be granted is 50% of the assigned weight for the goal. If actual performance is greater than 90% (but less than 100%), payment for this component is capped at a maximum of 75%.

Integration Bonuses

In 2006, the Compensation Committee approved cash “integration” bonuses for certain executives, including several of the Named Executive Officers, which were payable subject to the successful consummation of the Merger. These payments were intended to serve as a retention device to encourage these executives to remain with the Company through the completion of the Merger. Mr. Bailey (our former CEO) received a payment of \$105,000, while Mr. Miller (our former CFO) received a payment of \$20,000. Messrs. Ebzery and Ahmad and Dr. Lazzouni received payments of \$57,750, \$34,125, and \$31,500, respectively.

Long-Term Incentive Awards

In our executive compensation program, we employ two forms of equity incentives for our executives: stock options and restricted stock awards. We believe that these incentives encourage our executives to act with the long-term perspective necessary to ensure the continued success of the Company. We also believe that they ensure that our executives are properly focused on enhancing the value of our stockholders’ investments.

Stock Options. Stock options are intended to create and maintain an environment that motivates retention and longevity of key employees and to provide additional incentive to executives to promote

26

the success of the Company’s business. By providing them a direct stake in the Company’s welfare, stock options are intended to assure a closer identification of executives’ interests with those of the Company and its stockholders and to stimulate the executives’ efforts on the Company’s behalf and to strengthen their desire to remain with the Company.

Restricted Stock Awards. Restricted stock awards are intended to provide motivation via potential stock price appreciation as well as a retention device through a continued service requirement in order to earn the awarded shares.

We believe that the upside potential in stock options is attractive to our employees and that an option’s greater reward for performance and growth orientation compared to restricted stock is well-aligned with our stockholders’ interests. At the same time, restricted stock gives us the flexibility to manage dilution levels while reducing the leverage in each individual’s total compensation package, which may assist retention, while still motivating them through potential stock price appreciation.

In addition, the characteristics and design of these awards emphasize the Company’s long-term performance. Stock options vest through continued service over four years in equal annual 25% increments, which ensure that an executive will realize value from his or her award only if the market price of the Company’s common stock appreciates and stays above the option’s exercise price for a sustained period.

2006 Equity Awards. Our 2006 equity awards were largely shaped by the Merger and our desire to establish total compensation levels and long-term equity incentives for our executives commensurate with their roles in the combined company. To ensure the proper alignment of our new management team with our stockholders’ interests, we made only stock option awards to our executives in 2006. We did not grant any restricted stock awards to our executives, including the Named Executive Officers, in 2006.

Merger Options. At the time of the Merger, we granted stock options to Messrs. LaPenta and DePalma, as required by their employment agreements. We also granted a stock option to Dr. Lazzouni as required by his employment offer letter. These options have an exercise price that is equal to the weighted average closing market price per share of the Company's common stock over the 20 most recent trading days prior to the effective date of the Merger, a 10-year term, and a four-year vesting schedule. The 20-day average closing price was used to set the stock options' exercise price in lieu of the closing market price of the Company's common stock on the date of grant in an effort to mitigate the volatility in the Company's stock price resulting from the Merger.

Assumed Identix Options. In connection with the Merger, we assumed outstanding stock options for approximately 3 million shares granted by Identix to employees who joined the Company. Prior to the Merger, these options had exercise prices equal to the fair market value of Identix common stock on the date of grant and, as assumed, these exercise prices were adjusted to preserve the intrinsic value of the options as of the date of the Merger. Executives, including Named Executive Officers, who held Identix options before the Merger received substitute options at the time of the Merger on shares of the Company's common stock with the same terms and conditions as the options they replaced that have an option exercise price that the Board of Directors determined properly reflects the substitution.

Post-Merger Options. The Board of Directors granted stock option awards on August 29, 2006 (in connection with the Merger) and then again on December 8, 2006. Our CEO formulated recommendations for each award based on several factors including: the position and level of the employee in the organization; his or her most recent performance rating; his or her length of service and retention risks; the current market price of the Company's common stock; the number of options held, both vested and unvested, if any; and the value of the options as determined using a standard option pricing model. These included grants to newly appointed directors, executives of SpecTal in connection with its acquisition, executives who were promoted in connection with the Merger, and a few key employees, whose previously granted options had fully vested, for retention purposes. These recommendations were considered and accepted by the Compensation Committee and then approved by the Board of Directors.

27

2007 Equity Awards.

As discussed in "Management Incentive Plan — 2006 MIP" above, based on management's recommendation, the Compensation Committee considered and approved that the entire annual incentive awards payouts for our CEO and CFO, and one-quarter of the payouts to the other Named Executive Officers, would be paid in the form of equity. Our CEO and CFO received half of their award payouts in fully-vested shares of our common stock, with the number of shares received determined by dividing the closing market price per share of the Company's common stock on the date of the Committee's decision into \$91,500, in the case of our CEO, and \$54,000, in the case of our CFO. Our CEO and CFO received half of their award payouts, and the other Named Executive Officers received one-quarter of their award payouts, in the form of stock options for fully-vested shares of the Company's common stock. The number of shares subject to each option was determined by dividing the grant date fair value of an option with a five-year contractual term into \$91,500, in the case of our CEO, \$54,000, in the case of our CFO, and one-quarter of their respective award payouts, in the case of the other Named Executive Officers.

Equity Award Grant Practices. Stock options and restricted stock awards are granted under the Viisage Technology, Inc. 2005 Long-Term Incentive Plan and the 2002 Equity Incentive Plan (formerly, the Identix Plan) until the 2002 Plan share reserve is exhausted. The Company is requesting stockholder approval for an increase in the share reserve for the Viisage Technology, Inc. 2005 Long-Term Incentive Plan, as described on page 56 of this Proxy Statement.

Generally, options or other equity awards are granted to newly-hired employees on the later of either the first day of employment with the Company, or the date the option grant is approved by the Compensation Committee or the Board of Directors, as the case may be. Options and other equity awards are granted to continuing executives, our other employees, and directors on a regular basis based on performance and other factors. In the case of directors, options and other equity awards are granted when a new director joins the Board of Directors and then annually as part of the directors' total compensation for the year. All awards are effective on the date of approval by the Compensation Committee or the Board of Directors, as the case may be. In determining the size of the grant pool, the Company will consider the number of shares available for future grant, the number of outstanding equity awards, historical run rates, the current value of the shares, the total number of recipients, and competitive practices.

Stock options and other equity awards are granted in accordance with the Company's Stock Option Grant and Administration Policy as approved by the Board of Directors in December 2006. Our CEO reviews all recommendations for option and other equity awards from each division president, and submits his recommendations to the Compensation Committee for final review and approval. Recommendations for grants and awards to executives, including the Named Executive Officers, and directors are made to the Board of Directors by the Compensation Committee taking into account management recommendations, as appropriate. The Board of Directors must approve all stock option grants and other equity awards to executives and directors. The Board of Directors retains the discretion to make additional awards to executives at other times in connection with the initial hiring of a new employee, for retention purposes, or otherwise.

Each stock option grant and other equity award must specify all of the material terms of the grant or award, including the date of grant, exercise price, vesting schedule, term, and any other terms the Compensation Committee or the Board of Directors deems appropriate. Option grants made to our executives, or any of our other employees or directors, are generally made with an exercise price equal to the fair market value of the Company's common stock on the date of grant. Fair market value, for these purposes, is the closing sales price of a share of the Company's common stock on the date of grant. Except in the case of the Merger options described above, we have not determined the exercise price of option grants by using average prices or lowest prices of the Company's common stock in a period preceding, surrounding or following the grant date. Neither the Board of Directors nor the Compensation Committee can delegate its authority or responsibility with respect to stock option grants to any other subcommittee or member of management.

The compensation cost recognized during 2006 in connection with the long-term incentive awards made to the Named Executive Officers is reported in the Summary Compensation Table on page 32 of

28

this Proxy Statement. Additional information on these awards, including the number of shares subject to each award, is reported in the Grants of Plan-Based Awards Table on page 34 of this Proxy Statement.

Retirement and Other Benefits

The Company provides a tax-qualified defined contribution Section 401(k) plan to its employees, including the Named Executive Officers. This plan permits participants to make pre-tax contributions of up to 90% of their base salary or the applicable statutory income tax limitation. In addition, we may make discretionary contributions to the plan in any year, up to certain limits.

Additional benefits received by our executives, including the Named Executive Officers, include health care benefits, dental, vision, disability, and life insurance coverage. These benefits are the same as those provided to all of the Company's other employees. The Named Executive Officers do not receive any perquisites or other personal benefits, except that Mr. Bailey received the items described in the Summary Compensation Table on page 33 of this Proxy Statement and our CEO and CFO are eligible for an "executive class" life insurance benefit of \$1 million (of which \$700,000 is guaranteed). This benefit became available on January 1, 2007. Our standard life insurance benefit for our employees generally provides coverage in an amount equal to two times an employee's base salary.

We permit certain employees, including the Named Executive Officers, to defer the receipt of all or any portion of their annual incentive award payouts. We provide this benefit because we wish to permit these employees to defer the obligation to pay taxes on certain elements of their compensation while also potentially receiving earnings on deferred amounts. This arrangement was implemented to motivate and ensure the retention of key employees by providing them with greater flexibility in structuring the timing of their compensation payments. We believe that this arrangement is an important retention and recruitment tool for our Company, as many of the companies with which we compete for executive talent provide similar plans or arrangements for their senior employees. To date, none of the Named Executive Officers have elected to defer the receipt of their annual incentive award payouts.

Employment, Severance and Change-in-Control Agreements

Employment Agreements with Our CEO and Our CFO

During 2006, we entered into employment agreements with our CEO and CFO in connection with the Merger in order to obtain their services to serve as Chief Executive Officer and Chief Financial Officer, respectively, of the Company. These agreements provide each executive with job security for the term of the agreement (through August 29, 2009) by specifying reasons why their employment may be terminated by the Board of Directors and providing them with certain compensation and benefits under certain circumstances. For a description of these payments and benefits, see Potential Payments Upon Termination or Change in Control and the accompanying narrative on pages 35 and 36 of this Proxy Statement.

The agreements also protect the Company's interests during and following termination of employment by providing specific reasons for termination and by prohibiting the executives from engaging directly or indirectly in competition with the Company, from recruiting or soliciting any officer or employee, from diverting customers to a competitor, or from disclosing confidential Company information or business practices. These executives will forfeit their right to receive post-termination compensation if they breach these or other restrictive covenants in the employment agreements. We believe that these provisions help ensure our long-term success.

The agreements also provide for the immediate and full vesting of all outstanding stock options and restricted stock awards in the event of a change in control of the Company. In addition, our CEO and CFO are entitled to certain payments and benefits if their employment is terminated following a change in control of the Company for certain specified reasons or under certain specified conditions.

The Company is also obligated under the employment agreements to pay our CEO and CFO an additional amount so that the net amount paid to or for the benefit of the executive, after deduction

of all federal and state income, excise, employment, and any other applicable taxes is equal to what the executive would have received if he or she was not required to pay the taxes. The effects of these taxes generally are unpredictable and can have widely divergent and unexpected effects based on an executive's personal compensation history. Therefore, to provide an equal level of benefit across individuals without regard to the effect of the excise tax, we have determined that these payments are appropriate for our most senior executives.

For more information about the severance and change-in-control provisions of these employment agreements, see the discussion of Potential Payments Upon Termination or Change in Control and the accompanying narrative on pages 39 to 43 of this Proxy Statement.

Employment Agreements with Other Executives

In connection with the Merger, we entered into employment agreements providing for certain compensation and benefits in the event of termination of employment under certain circumstances with Mr. Joseph S. Paresi and Ms. Doni L. Fordyce, both of whom joined the Company from L-1 Investment Partners, and Messrs. James Moar, Mark S. Molina and Dr. Joseph J. Atick, who joined the Company from Identix, in order to retain their services to serve as executives of the Company.

Severance and Change-in-Control Arrangements with Messrs. Ebzery and Ahmad and Dr. Lazzouni

To help assure a smooth transition when an executive terminates employment, we believe that it is appropriate to provide severance arrangements for key executives who are terminated by the Company without cause or who voluntarily leave the Company following a "constructive" termination. In our experience, these arrangements are common among the companies in our industry. In 2006, we entered into such arrangements with Messrs. Ebzery and Ahmad and Dr. Lazzouni as part of employment offer letters setting forth the terms and conditions of their employment with the Company. Generally, these arrangements provide for the continuation of the executive's base salary and benefit coverage for a period of 12 months after termination. We believe that these payments and benefits are appropriate, taking into account the time it is expected to take the executive to find another job under circumstances which are beyond the control of the executive.

In addition, in the event of a change in control of the Company, Messrs. Ebzery and Ahmad and Dr. Lazzouni would also receive immediate and full vesting of all outstanding stock options and restricted stock awards held by them at the time of the change in control of the Company.

We believe that these severance and change in control arrangements are an important part of the overall compensation for all of our Named Executive Officers because they help to secure the continued employment and dedication of these executives, notwithstanding any concern that they might have regarding their own continued employment prior to or following a change in control of the Company. We also believe that these arrangements are important as a recruitment and retention device, as most of the companies with which we compete for executive talent have similar agreements in place for their senior employees.

For more information about these severance and change-in-control arrangements, see the discussion of Potential Payments Upon Termination or Change in Control and the accompanying narrative on page 44 of this Proxy Statement.

Separation Agreements with Messrs. Bailey and Miller

In connection with their termination of employment at the time of the Merger, we entered into individual separation agreements with Messrs. Bailey and Miller. These agreements provided each of them with certain payments and benefits, such as accrued base salary and unused vacation time, a lump-sum severance payment, accelerated vesting of all outstanding equity awards, and integration bonus, and, in the case of Mr. Bailey, a lump sum payment in exchange

for a non-competition clause. We believe that these agreements were appropriate and in the best interest of stockholders as they compensated these individuals for the services that they performed in connection with the successful completion of the Merger.

30

The agreements also protect the Company's interests by prohibiting the former executives from engaging directly or indirectly in competition with the Company for a period of one year, from recruiting or soliciting any officer or employee, from diverting customers to a competitor, or from disclosing confidential Company information or business practices. We believe that these provisions help ensure our long-term success.

Rule 10b5-1 Trading Plans

Executives may implement a trading plan under Exchange Act Rule 10b5-1 after pre-clearing the plan with the Company's Compliance Officer and as long as the plan is entered into when the executive is not in possession of material nonpublic information and during an open trading window.

Tax Policies

While we generally seek to ensure the deductibility of the incentive compensation paid to our executives, the Compensation Committee retains the flexibility necessary to provide cash and equity compensation in line with competitive practice, our compensation philosophy, and the best interests of our stockholders even if these amounts are not fully tax deductible.

(2)The amounts reported in the Stock Awards column represent the portion of the grant date fair value of the stock-based awards made to the Named Executive Officers during 2006 and in prior years that was recognized for financial reporting purposes with respect to 2006 in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004) "Share-Based Payment" (SFAS 123(R)). Pursuant to SEC rules, the amounts reported exclude the impact of estimated forfeitures related to service-based vesting conditions. The assumptions made in calculating the grant date fair value amounts for the awards made in 2004, 2005, and 2006 are incorporated herein by reference to the discussion of those assumptions in footnote 10 to the Company's financial statements as contained in the Company's Annual Report on Form 10-K filed with the SEC on March 14, 2007. See the Grants of Plan-Based Awards Table for information on awards made in 2006. Note that the amounts reported in this column reflect the Company's accounting cost for these awards, and do not correspond to the actual economic value that will be received by the Named Executive Officers from the awards. Mr. LaPenta received 2,323 in shares of Viisage common stock (with a grant date value of \$37,500) on July 21, 2006 as payment for his services as a non-employee director of Viisage prior to the Merger.

Pursuant to SEC rules, the amounts reported exclude the impact of estimated forfeitures related to service-based vesting conditions. The assumptions made in calculating the grant date fair value amounts for the options granted in 2004, 2005, and 2006 are incorporated herein by reference to the discussion of those assumptions in footnote 10 to the Company's financial statements as contained in the Company's

Nonqualified Deferred Compensation Table for 2006

The Company does not maintain any nonqualified deferred compensation plan for its employees, including the Named Executive Officers. Potential Payments Upon Termination or Change in Control

Current Executive Officers

Under the Company's employment agreements with Messrs. LaPenta and DePalma, and the employment offer letters with Messrs. Ebzery and Ahmad and Dr. Lazzouni, each of the Named Executive Officers is entitled to payment and benefits upon his termination of employment for specified reasons and in the event of a change in control of the Company. The information below describes and quantifies certain compensation that would be payable to these individuals under the arrangements if the Named Executive Officer's employment had terminated on December 31, 2006, given the individual's compensation as of that date and, if applicable, based on the closing market price of the Company's common stock on December 29, 2006 (\$15.13), the last trading day of the fiscal year. These benefits are in addition to the benefits generally available to the Company's salaried employees.

Messrs. LaPenta and DePalma:

Termination of Employment. The executive's employment may be terminated at any time:

- by a majority vote of the disinterested members of the Company's Board of Directors with Cause (as defined) or without Cause;
- in the event of the death or disability of the executive; or
- by the executive for Good Reason (as defined) or for no reason.

Termination with Cause or without Good Reason. If the executive's employment is terminated by the Company with Cause or by the executive without Good Reason, the executive will receive the following payments and benefits:

- payments of base salary, any awarded but unpaid annual incentive award for any prior completed fiscal year, and expense reimbursement that had accrued but had not been paid prior to the date of termination;
- payments for any accrued but unused vacation time; and
- any benefits due through the date of termination as provided under the Company's compensation or benefit plans.

Generally, "Cause" means the executive's (i) willful and continued failure to substantially perform his reasonably assigned duties as an officer of the Company or otherwise perform his obligations under his employment agreement (following a 30-day cure period after receipt of notification of nonperformance); (ii) willful and continued breach of the Company's Board-approved material corporate policies (following a 30-day cure period after receipt of notification of the breach); (iii) willful engagement in illegal conduct or gross misconduct which is materially injurious to the Company; (iv) willful violation of any federal or state securities laws or the Company's Trading Policy; or (v) material breach of certain provisions of his employment agreement (following a 30-day cure period after receipt of notification of the breach).

Generally, “Good Reason” means any of the following events or circumstances that occur without the executive’s consent (following a 30-day cure period after receipt of notification of the event or circumstance):

- a material change in the executive’s duties, a material diminution in the executive’s position, authority, title, or responsibilities or any change in reporting relationship, or a relocation of his principal base of operations to more than 25 miles from Stamford, Connecticut;
- a reduction in his base salary or target annual incentive award;
- the Company’s failure to maintain a material compensation or benefit plan in which he participates (unless a substitute or alternative plan is made available), continue the executive’s participation in these plans on a basis that is materially equal to his current participation, obtain comparable compensation and benefits and termination arrangements from a successor to the Company, to pay compensation and benefit amounts when due, or any other material breach of the employment agreement.

Termination without Cause or for Good Reason. If the executive’s employment is terminated by the Company without Cause or by the executive for Good Reason, the executive will receive the following payments and benefits:

- the payments and benefits described in the section concerning termination with Cause or without Good Reason;
- accelerated vesting of all outstanding but unvested service-based stock options, which will remain exercisable for a period of three years after the termination;
- a payment equal to the annual incentive award payout to the executive for the last completed fiscal year pro rated for the portion of the current fiscal year that the executive was employed; and
- until the earlier of either 12 months following the date of termination or the end of the current term of the employment agreement, a payment equal to (i) the executive’s base salary at the rate in effect at the date of termination and (ii) the annual incentive award payout to the executive for the last completed fiscal year (calculated on a pro rated basis if the severance period is less than 12 months) (the “Severance Payment”). During this period, the executive is also to receive continued coverage under the Company’s then-existing medical and dental benefit plans. If the executive is not permitted by the terms of the plans or applicable law to continue participation in these plans, the Company will provide the executive with commensurate insurance coverage at its expense.

One-half of the Severance Payments is to be paid at the time of termination, with remaining one-half to be paid within six months of the termination date.

Death or Disability. If the executive’s employment is terminated as a result of his death or disability, he (or his representatives) will receive all of the payments and benefits described in the section concerning termination without Cause, except that no Severance Payment or continuing medical and dental coverage is required.

Change in Control. In the event of a Change in Control of the Company during the term of the employment agreement, where the executive’s employment is subsequently terminated and the executive can reasonably demonstrate that the termination was at the request of a third party who has taken steps reasonably calculated to effect a change in control or otherwise arose in anticipation of or as a result of a change in control, the executive will receive

all of the payments and benefits described in the section concerning termination without cause, except that the pre- and post-termination payments that are based on the annual incentive award payout are to be based on the target amount in effect on the date of termination.

Generally, a “Change in Control” means:

- an acquisition of 50% or more of (i) the then-outstanding common stock or (ii) the combined voting power of the then-outstanding securities entitled to vote for directors by any person (but not including a restructuring or recapitalization by the Company or an acquisition by a Company-sponsored employee benefit plan);

40

-
- a time when the continuing directors (that is, the directors who were serving when the employment agreement was executed or their duly recommended or endorsed successors) do not constitute a majority of the Board of Directors;
 - a business combination (such as a merger, consolidation, reorganization, or sale of all or substantially all of the Company’s assets), unless, following the business combination, the beneficial owners of the Company’s securities continue to beneficially own a majority of the outstanding securities of the resulting entity and this ownership is substantially in the same proportion as their ownership before the transaction; and
 - approval by the Company’s stockholders of a complete liquidation or dissolution of the Company.

Tax Reimbursement Arrangements. In the event that any payment or benefit received or to be received by the executive with respect to any equity-based award, bonus or other incentive award payout, or any severance or other plan or arrangement or agreement would be subject to the “golden parachute” excise tax imposed by the federal income tax laws, the Company will pay the executive the additional amount necessary to ensure that the net amount retained by the executive, after deduction of all excise taxes and all taxes on the excise tax payment, as well as any interest, penalties or additions to tax payable by the executive, will be equal to the total present value of the payments intended to be made to the executive at the time these payments are made.

Conditions to Payment. The payments and benefits provided in the event of a termination of employment without Cause or for Good Reason or following a Change in Control of the Company are contingent upon the executive executing a general release in favor of the Company. In addition, the Company’s obligation to pay any premiums for medical or dental insurance benefits will cease if the executive becomes eligible to receive similar benefits from another employer.

Executive Covenants. As provided in their employment agreements, Messrs. LaPenta and DePalma are subject to (i) confidentiality provisions that prohibit them from disclosing any confidential information of the Company, except in the course of performing their duties for the Company or as required by law, (ii) certain post-employment restrictions on the development of intellectual property rights, and (ii) noncompetition provisions that prohibit them, during their employment and for a one-year period following termination of employment, from operating or participating in a business that competes with the Company and from soliciting any of the Company’s employees or customers.

If an executive materially breaches his obligations with respect to the Company’s intellectual property rights or the noncompetition provision, the Company may, following a 30-day notice and cure period, cease any Severance Payments made to the executive and recover all prior Severance Payments made to the executive. The Company may

also pursue any other legal remedies to rectify the breach.

41

The following tables set forth the potential (estimated) payments and benefits to which Messrs. LaPenta and DePalma would be entitled upon termination of employment or following a change in control of the Company, as specified under their employment agreements with the Company.

Messrs. Ebzery and Ahmad and Dr. Lazzouni:

As provided in their employment offer letters, each of these Named Executive Officers is to receive the following payments and benefits in the event of his termination of employment or a change in control of the Company:

Termination of Employment. If the individual's (i) employment is terminated by the Company without cause, or (ii)

he resigns following (x) a change in his current position with the Company, (y) a reduction in compensation in bad faith, or (z) a change in job location by more than 50 miles, then:

- He receives his then-current base salary for a period of 12 months; and
- Continuation of his then-current benefit coverage and premium contributions for a period of 12 months.

Change in Control. In the event of a change in control of the Company, all outstanding unvested stock options and restricted stock awards will vest in full upon the change in control.

The following table sets forth the potential (estimated) payments and benefits to which each individual would be entitled upon termination of employment or following a change in control of the Company, as specified under his employment offer letter with the Company.

- the date of termination of employment was December 31, 2006;
- the market price per share of the Company's common stock on the date of the relevant triggering event was \$15.13 per share;
- each Named Executive Officer's base salary was the amount paid in 2006 and is continued for a period of 52 weeks; and
- The value of the accelerated vesting of outstanding stock options is the intrinsic value of the options as of December 31, 2006 (that is, the value based upon the market price of the Company's common stock less the option exercise price).

(2)Based on an exercise price of \$16.43 per share, Messrs. Ebzery and Ahmad's unvested stock options had no intrinsic value as of December 31, 2006.

Former Executive Officers

Under individual Separation Agreements that the Company entered into with Messrs. Bailey and Miller, each of these former executives was entitled to, and received, the following payments and benefits upon his termination of employment with the Company on September 30, 2006, in connection with the Merger:

Any compensation he received during 2006 for his services as a director of Viisage prior to the Merger is included in All Other Compensation column of the Summary Compensation Table on page 32 of this Proxy Statement. Mr. Bailey, the former Chairman of the Board of Directors of Viisage, is not included in this table because he was an employee of Viisage and, thus, received no compensation for his services as a director. The compensation received by Messrs. LaPenta and Bailey as employees of the Company and Viisage, respectively, is reported in the Summary Compensation Table on page 32 of this Proxy Statement.

Viisage did reimburse them, however, for their out-of-pocket expenses incurred in attending Board or committee meetings. Directors also received an annual stock option grant under the Viisage Technology, Inc. 1996 Directors Stock Option Plan. See the Director Equity Awards Table for 2006 below for information on the 2006 stock option grants.

In 2006, the compensation received by the Viisage directors for board service was pro rated for the period from January 1, 2006 through the anticipated effective date of the Merger, as follows: a \$37,500 annual cash retainer, \$3,125 for the Audit Committee chair and \$2,187.50 for the Nominating and Corporate Governance and Compensation Committee chairs.

Under the Viisage Technology, Inc. 2001 Stock in Lieu of Cash Compensation for Directors Plan (the “Director Compensation Plan”), non-employee directors could elect to take all or a portion of their annual cash fees in shares of Viisage common stock. In 2006, in accordance with the Director Compensation Plan, three directors, Messrs. The closing price of Viisage common stock on July 21, 2006 was \$16.14 per share. Directors are paid \$2,000 in cash for attending meetings of the Board of Directors and \$1,000 for attending Board committee meetings. Directors also receive an annual stock award of 3,000 shares of the Company’s common stock under the Viisage Technology, Inc. 2005 Long-Term Incentive Plan that is payable annually on January 1st.

- (4)The amounts reported in the Stock Awards column represent the portion of the grant date fair value of the stock-based awards made to the non-employee directors during 2006 and in prior years that was recognized for financial reporting purposes with respect to 2006 in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004) “Share-Based Payment” (FAS 123(R)). Pursuant to SEC rules, the amounts reported exclude the impact of estimated forfeitures related to service-based vesting conditions. The assumptions made in calculating the grant date fair value amounts for the awards made in 2006 are incorporated herein by reference to the discussion of those assumptions in footnote 10 to the Company’s financial statements as contained in the Company’s Annual Report on Form 10-K filed with the SEC on March 14, 2007.

Pursuant to SEC rules, the amounts reported exclude the impact of estimated forfeitures related to service-based vesting conditions. The assumptions made in calculating the grant date fair value amounts for the options

granted in 2004, 2005, and 2006 are incorporated herein by reference to the discussion of those assumptions in footnote 10 to the Company's financial statements as contained in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 14, 2007. Note that the amounts reported in this column reflect the Company's accounting cost for these options, and do not correspond to the actual economic value that will be received by the non-employee directors from the options. Beck, Berube, Gelbard, Nessen, and Tenet and Ms. Mouchly-Weiss elected to take all or a portion of their cash compensation for service on the Viisage Board of Directors in shares of Viisage common stock. For information about these elections, see Footnote 2 to the Director Compensation Table.

(2) On July 21, 2006, Messrs. Beck, Berube, Gelbard, Levine, Nessen, Principato, Reilly, and Tenet and Ms. Mouchly-Weiss each received a stock option grant for 2,500 shares of Viisage common stock for service on the Viisage Board of Directors. On August 29, 2006, for services provided in connection with the Merger, Messrs. Beck, Berube, Principato, and Tenet each received a stock option grant for 2,500 shares of the Company's common stock, Messrs. Gelbard, Levine, and Reilly and Ms. Mouchly-Weiss each received a stock option grant for 12,500 shares of the Company's common stock, and Mr. Nessen received a stock option grant for 20,000 shares of the Company's common stock. On December 8, 2006, Messrs. Freeh, Loy, Rose, and Tenet each received a stock option grant for 25,000 shares of the Company's common stock for service on the Company's Board of Directors.

(3) The stock options granted on July 21, 2006 have an exercise price equal to the per share closing market price of Viisage common stock on that date. (4) The stock options granted on December 8, 2006 were originally authorized by the Compensation Committee on November 1, 2006 with an exercise price equal to the per share closing market price of the Company's common stock on that date (\$13.94), subject to approval by the Board of Directors. The options were approved by the Board on December 8, 2006 when the per share closing market price of the Company's common stock was \$16.43. The underlying option shares vest in four equal annual installments commencing on the first anniversary of the date of grant. In the event that the option holder ceases to be a director for any reason other than a voluntary separation of service, any unvested option shares will immediately vest in full.

Certain Relationships And Related Transactions

Relationship with Lau Security Systems

On January 10, 2002, we acquired the assets of Lau Security Systems, a division of Lau Technologies (“Lau”), including all of its intellectual property, contracts and distribution channels. As a result of this transaction, certain obligations on our part to license intellectual property to Lau were terminated. We assumed certain liabilities related to the acquired business and will pay Lau a royalty of 3.1% of certain of our face recognition revenues until June 30, 2014, up to a maximum of \$27.5 million. Lau is owned by Denis K. Berube, Executive Vice President and Chief Officer of Lau and a member of our Board, and his wife, Joanna Lau. Mr. Berube is the beneficial owner of more than 3% of our outstanding stock.

In connection with the purchase of the business of Lau Security Systems, we entered into consulting agreements with Ms. Lau and Mr. Berube. Under the consulting agreements, Ms. Lau and Mr. Berube will each receive annual compensation of \$125,000. The agreement terminates at the earlier of January 10, 2012 or the commencement of Ms. Lau’s or Mr. Berube’s full-time employment elsewhere.

Consulting Agreement with Mr. Beck

In connection with the acquisition of TDT on February 14, 2004, we entered into a consulting agreement with B.G. Beck, the former President and Chief Executive Officer of TDT. Immediately upon the completion of the acquisition, Mr. Beck was appointed to our board of directors. Mr. Beck is the beneficial owner of more than 3% of our outstanding stock. Under the consulting agreement, Mr. Beck received annual compensation of \$300,000. The consulting agreement terminated on April 16, 2006 and Mr. Beck no longer receives compensation under such agreement.

Relationship with L-1 Investment Partners, LLC and Aston Capital Partners, L.P.

Investment in the Company. Aston Capital Partners LP (“Aston”) is a private investment fund organized as a limited partnership and managed by its general partner, Aston Capital Partners GP LLC and L-1 Investment Partners. On December 16, 2005, we issued and sold to Aston, 7,619,047 shares of our common stock at \$13.125 per share and warrants to purchase up to an aggregate of 1,600,000 shares of our common stock at an exercise price of \$13.75 per share. Prior to its investment

49

in the Company, the Company had no other relationships with L-1 Investment Partners and its affiliates, except that Messrs. LaPenta and DePalma were individual investors in the Company. The warrants issued to Aston are exercisable until December 16, 2008, subject to the following vesting provisions: warrants to purchase (i) 1,280,000 shares of our common stock vest on a pro rata basis when and if acquisitions involving the payment of aggregate consideration of \$125 million are consummated; (ii) 213,333 shares of our common stock vest when and if the Company’s gross revenues for any four consecutive quarters are equal to or greater than \$200 million; and (iii) 106,667 shares of our common stock vest when and if the Company’s gross revenues for any four consecutive quarters are equal to or greater than \$300 million. The warrants to purchase 1,280,000 shares of our common stock are fully vested as a result of the Merger and certain other transactions. Robert LaPenta, James DePalma, Joseph Paresi and Doni Fordyce directly and indirectly hold all the beneficial ownership in the general partner and L-1 Investment Partners. Under the terms of the investment agreement entered into with Aston, Aston had certain governance and other rights which terminated in August 2006 in connection with the Merger. In addition, Aston has the right on two occasions to demand that we file a registration statement covering the resale of the shares of our common stock held by Aston and the shares of our common stock issuable upon exercise of the warrants.

IBT Warrants. On December 16, 2005, upon the completion of the acquisition of IBT, we issued warrants to purchase 440,000 shares of our common stock with an exercise price of \$13.75 per share to L-1 Investment Partners for strategic advice, due diligence and other services relating to the acquisition. Warrants to purchase 280,000 of the shares were fully vested and are exercisable for three years. If during any of 2006, 2007 or 2008, the IBT business generates earnings before interest, taxes, depreciation and amortization of \$6 million or more, the remaining warrants to purchase 160,000 shares of our common stock will vest. These warrants have a term of three years from the date of such vesting, if any.

Consulting Agreement. We have entered into a consulting agreement with L-1 Investment Partners, whereby we appointed and ratified L-1 Investment Partners as our advisor in connection with the IBT acquisition, the SecuriMetrics acquisition and the Merger. Pursuant to the consulting agreement, L-1 Investment Partners will not be entitled to any further compensation or expense reimbursement in connection with the IBT acquisition. However, L-1 Investment Partners received a fee of \$2.5 million simultaneously with the closing of the Merger as consideration for professional services provided by L-1 Investment Partners in connection with the acquisition of SecuriMetrics and in connection with the Merger, of which \$2.0 million was allocated to the Merger and \$0.5 million was allocated to the acquisition of SecuriMetrics. This one-time fee compensates L-1 Investment Partners for services provided by L-1 Investment Partners, including assisting the Company in (1) analyzing the operations and historical performance of target companies (which include SecuriMetrics, Identix and other potential transactions that have not been consummated); (2) analyzing and evaluating the transactions with such target companies; (3) financial, business and operational due diligence; and (4) evaluating related structuring and other acquisition-related matters. L-1 Investment Partners is not entitled to any other fees. The agreement contains standard representations and warranties by both parties and indemnification of L-1 Investment Partners and its affiliates for losses incurred in connection with any actions arising out of, relating to, or in connection with the services provided pursuant to this agreement except those losses arising out of the bad faith, gross negligence or willful misconduct of L-1 Investment Partners in connection with the services or a breach by L-1 Investment Partners of the agreement. The consulting agreement terminated upon the closing of the Merger.

Sale of Afix. Aston and the Company have reached an agreement in principle whereby Aston may sell AFIX Technologies, Inc., a portfolio company of Aston which provides fingerprint and palmprint identification software to local law enforcement agencies, to the Company at fair market value, which will be determined by an independent appraiser. At the time of this Proxy Statement, no other terms of this potential sale have been agreed to and it is subject to the negotiation, execution and delivery of a definitive acquisition agreement mutually acceptable to the parties.

50

Sublease. In connection with the relocation of the corporate headquarters of the Company to the offices of L-1 Investment Partners in Stamford, Connecticut, the Company entered into a sublease with L-1 Investment Partners, pursuant to which the Company will pay the rent and other costs payable by L-1 Investment Partners from the effective time of the Merger, until the earlier of (i) the expiration or termination of the lease or (ii) unless otherwise agreed to by the Company and L-1 Investment Partners, as promptly as practicable but in no event later than 60 days following the date upon which Mr. LaPenta ceases to be Chief Executive Officer of the Company for any reason. The Company estimates the costs to be approximately \$720,000 per year. The sublease contains standard representations and warranties by both parties. In addition, the Company covenants to maintain the premises in accordance with the lease; maintain the insurance required to be maintained by L-1 Investment Partners under the lease; use the premises only for the purposes expressly permitted under the lease; and be responsible for obtaining and paying the cost for any

utilities the offices require, to the extent that such utilities are not provided by the landlord.

Non-competition Agreement. As a condition to the closing of the merger, the Company and L-1 Investment Partners entered into a termination and non-compete agreement which among other things, (1) terminates all arrangements (other than those specifically identified in the agreement) whereby L-1 Investment Partners and its affiliates provide financial, advisory, administrative or other services to us or our affiliates, and (2) prohibits L-1 Investment Partners and its affiliates from directly advising, performing services for, investing in or entering into any other agreement with any person that competes directly or indirectly with us or Identix, which includes without limitation in the world-wide biometric, credentialing and ID management business (other than with respect to investments of L-1 and its affiliates specifically identified in such agreement).

Employment of Robert V. LaPenta, Jr.

On March 15, 2007, we extended an offer letter to Robert V. LaPenta, Jr, the son of our Chairman, President and Chief Executive Officer, Robert V. LaPenta. Mr. LaPenta, Jr. accepted the offer on March 20, 2007. Pursuant to the offer letter, Mr. LaPenta, Jr. will serve as Vice President, M&A/Corporate Development of the Company and will receive a base salary of \$150,000 from the Company plus nonqualified options to purchase 30,000 shares of Company common stock. The exercise price of the options will be the closing price of the Company's common stock on the NYSE on the grant date, which date will be the later of (i) the first day of employment with the Company or (ii) the date the option grant is approved by the Board. The options will vest at a rate of 25% per year on each annual anniversary of the date of grant and will expire on the tenth anniversary of the date of grant. The vesting of the options is conditional on Mr. LaPenta, Jr.'s continued employment by the Company on each vesting date. Mr. LaPenta, Jr.'s employment with the Company is at will.

The hiring of Mr. LaPenta, Jr. was disclosed to the full Board and reviewed and discussed by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee also discussed applicable disclosure and governance issues related to the hiring and employment of Mr. LaPenta, Jr. and agreed that it was appropriate for the Company to provide complete disclosure and transparency on this relationship to the Company's stockholders.

Procedures for Approval of Related Party Transactions

Pursuant to the Company's Nominating and Corporate Governance Committee Charter, the Nominating and Corporate Governance Committee reviews and approves any material transaction between the Company and any director or executive officer of the Company (or any person or entity controlled by or controlling such director or officer, or in which such director or officer has a direct or indirect material financial interest). Prior to approving any such transaction, the Nominating and Corporate Governance Committee considers whether such transaction is in the best interests of the Company. If the Nominating and Corporate Governance Committee approves the transaction, the Nominating and Corporate Governance Committee reviews the public disclosure of such transaction prior to such disclosure.

The Compensation Committee has reviewed the Compensation Discussion and Analysis (“CD&A”) contained in the Company’s 2007 Proxy Statement and discussed that CD&A with management. Based on the Compensation Committee’s review of, and discussions with, management, the Compensation Committee recommended to the Board of Directors, and the Board of Directors has approved, that the CD&A be included in the Company’s Annual Report on Form 10-K for 2006 and this Proxy Statement.

PROPOSAL NO. 2
PROPOSED AMENDMENT TO
2005 LONG-TERM INCENTIVE PLAN

The Board of Directors of the Company is recommending that the stockholders approve an amendment to the 2005 Long-Term Incentive Plan (the "Long-Term Incentive Plan"), as described below. If stockholder approval is received, the provisions of the Long-Term Incentive Plan, as amended, would go into effect immediately.

Description of Amendment to the Long-Term Incentive Plan

On April 3, 2007, the Board of Directors, upon the unanimous recommendation of the Compensation Committee, approved, subject to stockholder approval, an amendment (the "Amendment") to the Long-Term Incentive Plan (the "Amended Plan"). The proposed Amendment would increase the number of common shares available for issuance by 2 million common shares, so that an aggregate of approximately 4 million common shares would be available for grant under the Long-Term Incentive Plan. These share counts reflect the 1 for 2.5 reverse stock split effective December 15, 2005. In all other respects, the Long-Term Incentive Plan would remain unchanged.

In making its recommendation to the Board of Directors, the Compensation Committee considered the recent history of the Company's discretionary option grants under the Long-Term Incentive Plan, the intended purpose of the Long-Term Incentive Plan, the total number of shares that would be reserved for issuance under the Amended Plan (representing approximately 5.5% of the currently outstanding common shares), and the fact that the Long-Term Incentive Plan was designed to comply with Section 162(m) of the Code.

The Company currently grants stock options to a broad group of employees, including directors and executive officers, to align their interests with those of stockholders. In addition, the Company has recently conducted several strategic acquisitions and is actively engaged in a few additional acquisitions that will increase the employee population. The increase in the number of employees who will be eligible to receive stock option grants will require a larger share reserve under the Long-Term Incentive Plan than is currently available.

The Long-Term Incentive Plan is intended to attract and retain the best available personnel for positions of substantial responsibility, including directors, executives and other employees who are experienced in the security industry and in running growing global businesses. They also provide additional incentive to employees and directors to act with the long-term perspective necessary to promote the continued success of the Company's business. We believe that by providing directors, executives and other employees a direct stake in the Company's welfare, stock options and other equity awards encourage them to focus on enhancing the value of our stockholders' investments and assure a closer identification of their interests with those of the Company and its stockholders.

Initially, the Long-Term Incentive Plan authorized the issuance of 2,000,000 common shares, of which 858,977 common shares remained available for issuance as of December 31, 2006. The Board of Directors believes that the

increase in the aggregate number of common shares available for future grants under the Long-Term Incentive Plan is appropriate to permit the continued grant of options to employee and directors. The Amendment has been adopted and approved by the Board of Directors; however, if the Amendment is not approved by the stockholders, the provision of the Amendment increasing the aggregate number of common shares available for future grant will not become effective and the amount of common shares available for issuance under Long-Term Incentive Plan will remain at 2,000,000.

Summary of 2005 Long-Term Incentive Plan

The following summary of the Amended Plan is not intended to be complete and is qualified in its entirety by reference to the Amended Plan, the full text of which is set forth in Annex A hereto.

On March 1, 2005, our Board of Directors adopted, subject to stockholder approval, the Viisage Technology, Inc. 2005 Long-Term Incentive Plan (the ‘2005 Plan’). The following summary of the

55

2005 Plan does not purport to be complete and is qualified in its entirety by reference to the full text of the 2005 Plan, which was included as Appendix B to our Definitive Proxy Statement on Form 14A, filed with the SEC on September 7, 2005.

Purposes

The purposes of the 2005 Plan are to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees and directors, and to promote the success of our business. Options, stock purchase rights and other stock-based awards may be granted under the 2005 Plan. This will give the Company greater flexibility in providing stock-based incentive compensation to our employees and directors than is currently available under the Company’s existing stock option plans.

Administration

The 2005 Plan is administered by the Board of Directors, which may delegate its powers under the 2005 Plan to one or more committees or sub-committees of the Board of Directors. Subject to the provisions of the 2005 Plan, the administrator of the 2005 Plan has authority in its discretion to: (1) determine fair market value of our common stock; (2) select employees and directors to whom awards may be granted; (3) determine the number of shares covered by awards; (4) approve forms of agreement for use under the 2005 Plan; (5) determine the terms and conditions of awards; (6) determine whether and under what circumstances an option may be settled in cash instead of common stock; (7) prescribe, amend or rescind rules and regulations relating to the 2005 Plan; and (8) construe and interpret the terms of the 2005 Plan and awards granted pursuant to the 2005 Plan. While we expect that the plan administrator will make awards from time to time under the 2005 Plan, it has no current plans, proposals or arrangements to make any specific grants under the 2005 Plan.

Shares Subject to the 2005 Plan

The stock subject to options and awards under the 2005 Plan is authorized but unissued shares of our common stock or shares of treasury common stock. Any shares subject to an option that for any reason expires or is terminated

unexercised as to such shares and any restricted stock that is forfeited and repurchased by us at not more than its exercise price as a result of the exercise of a repurchase option may again be the subject of an option or award under the 2005 Plan. The number of shares of common stock that may be issued under the 2005 Plan as proposed to be amended may not exceed 4,000,000 shares, subject to adjustment, as described below.

Section 162(m) Limitations

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to the chief executive officer or any of the four other most highly compensated officers. Certain performance-based compensation is specifically exempt from the deduction limit if it otherwise meets the requirements of Section 162(m). One of the requirements for equity compensation plans is that there must be a limit to the number of shares granted to any one individual under the plan. Accordingly, the 2005 Plan provides that no participant may receive, over the term of the 2005 Plan, awards for more than an aggregate of 1,000,000 shares of common stock with respect to which awards may be granted under the 2005 Plan. Stockholder approval of this proposal will constitute stockholder approval of this limitation for Section 162(m) purposes.

Eligibility

Nonstatutory stock options, or NSOs, stock purchase rights and other stock-based awards (other than incentive stock options) may be granted to employees and directors. Incentive stock options, ISOs, may be granted only to employees. Each option will be designated in the stock option agreement as either an ISO or an NSO. As of December 31, 2006, we estimate that approximately

56

1,047 employees, as well as our twelve non-employee directors, were eligible to participate in the 2005 Plan. Notwithstanding the terms of any award under the 2005 Plan, in the event of certain misconduct by a participant, all awards to that participant will be terminated and all shares acquired by the participant under the 2005 Plan will be subject to repurchase by us at any time within 180 days after we have knowledge of such misconduct.

Terms and Conditions of Options

Exercise Price. The exercise price for shares issued upon exercise of options will be determined by the 2005 Plan administrator. The exercise price of ISOs may not be less than 100% of the fair market value on the date the option is granted. The exercise price of ISOs granted to a 10% or greater stockholder may not be less than 110% of the fair market value on the date of grant.

Form of Consideration. The means of payment for shares issued upon exercise of an option will be specified in each option agreement. The 2005 Plan permits payment to be made by cash, check, promissory note of the participant, wire transfer, other shares of our common stock (with some restrictions), consideration received by us under a cashless exercise program implemented by us in connection with the 2005 Plan, or any combination of the foregoing.

Term of Options. The term of an option may be no more than ten years from the date of grant, except that the term of an option granted to a 10% or greater stockholder may not exceed five years from the date of grant.

Termination of Employment. No option may be exercised more than three months following termination other than by reason of the participant's death or disability, or such other period as set forth in the option agreement. If, on the date of termination, a participant is not fully vested, the shares covered by the unvested portion will revert to the 2005 Plan.

Death or Disability. An option is exercisable for 12 months following death of the participant or termination for a disability or such other period as set forth in the option agreement. If, on the date of death or termination, a participant is not fully vested, the shares covered by the unvested portion will revert to the 2005 Plan.

Other Provisions. The stock option agreement for each option grant may contain other terms, provisions and conditions not inconsistent with the 2005 Plan, as may be determined by the 2005 Plan administrator.

Terms and Conditions of Stock Purchase Rights

Rights to Purchase. Stock purchase rights may be issued either alone, in addition to, or in tandem with, other awards granted under the 2005 Plan and/or cash awards made outside of the 2005 Plan. The offer to purchase stock under the 2005 Plan will be accepted by execution by the participant of a stock purchase agreement.

Right of Repurchase. Unless the 2005 Plan administrator determines otherwise, the stock purchase agreement will give the Company the right to repurchase the stock sold upon the termination of the participant's service to the Company or upon the failure to satisfy any performance objectives or other conditions specified in the stock purchase agreement. The repurchase price will be the purchase price paid by the participant or such other price as set forth in the stock purchase agreement. The repurchase right will lapse upon such conditions or at such rate as the 2005 Plan administrator may determine and set forth in the stock purchase agreement.

Other Stock-Based Awards

The 2005 Plan administrator will have the right to grant other awards based upon the Company's common stock, having such terms and conditions as the 2005 Plan administrator may determine, including the grant of shares based upon certain conditions, the grant of securities convertible into common stock, the grant of stock appreciation rights and the grant of dividend equivalent rights.

Adjustments

Changes in Capitalization. In the event of a stock split, reverse stock split, stock dividend, recapitalization, combination of shares, reclassification of shares, spin-off or other similar change in

57

capitalization or event, or any distribution to holders of common stock other than a normal cash dividend, (1) the number and class of securities available under the 2005 Plan, (2) the per-participant limit, (3) the number and class of securities and exercise price per share subject to each outstanding award, (4) the price per share at which outstanding restricted shares may be repurchased, and (5) the terms of each other outstanding award will be appropriately adjusted (or substituted awards may be made, if applicable) to the extent that the administrator of the 2005 Plan determines, in good faith, necessary and appropriate.

Dissolution or Liquidation. The 2005 Plan administrator in its discretion may provide for a participant to have the right to exercise his or her award until 15 days prior to any dissolution or liquidation of the Company. To the extent not previously exercised, an award will terminate immediately prior to the consummation of any proposed dissolution or liquidation.

Sale of the Company. Except as otherwise provided in any stock option agreement or stock purchase agreement or other document evidencing such rights, in the event a third party acquires a majority of the voting power of the Company, whether through the sale of substantially all of its assets, the sale of its voting securities or a merger or consolidation, the 2005 Plan administrator, in its discretion, may provide for the assumption, substitution or adjustment of each outstanding award, accelerate the vesting of options and terminate any restrictions on stock awards, or cancel awards for a cash payment to the participant.

Limits on Transferability

An incentive stock option granted under the 2005 Plan may not be transferred during a participant's lifetime and will not be transferable other than by will or by the laws of descent and distribution following the participant's death. Nonstatutory stock options, stock purchase rights or shares granted under the 2005 Plan may be assigned during a participant's lifetime to members of the participant's family or to a trust established for such family members or the participant's former spouse pursuant to the participant's estate plan or pursuant to a domestic relations order.

Amendment and Termination

The Board of Directors of the Company may at any time amend, alter, suspend or terminate the 2005 Plan. The Board will obtain stockholder approval of any 2005 Plan amendment to the extent necessary and desirable to comply with applicable laws. No amendment, alteration, suspension or termination of the 2005 Plan will impair the rights of any participant, unless mutually agreed in writing.

Federal Income Tax Consequences

Incentive Stock Options — A participant who receives an ISO will recognize no taxable income for regular federal income tax purposes upon either the grant or the exercise of such ISO. However, when a participant exercises an ISO, the difference between the fair market value of the shares purchased and the option price of those shares will be includable in determining the participant's alternative minimum taxable income.

If the shares are retained by the participant for at least one year from the date of exercise and two years from the date of grant of the options, gain will be taxable to the participant upon sale of the shares acquired upon exercise of the ISO, as a long-term capital gain. In general, the adjusted basis for the shares acquired upon exercise will be the option price paid with respect to such exercise. The Company will not be entitled to a tax deduction arising from the exercise of an ISO if the employee qualifies for such long-term capital gain treatment.

Nonstatutory Stock Options (NSOs) — A participant will not recognize taxable income for federal income tax purposes at the time an NSO is granted. However, the participant will recognize compensation taxable as ordinary income at the time of exercise for all shares that are not subject to a substantial risk of forfeiture. The amount of such compensation will be the difference between the option price and the fair market value of the shares on the date of exercise of the option. The

Company will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the participant is deemed to have recognized compensation income with respect to shares received upon exercise of the NSO. The participant's basis in the shares will be adjusted by adding the amount so recognized as compensation to the purchase price paid by the participant for the shares.

The participant will recognize gain or loss when he or she disposes of shares obtained upon exercise of an NSO in an amount equal to the difference between the selling price and the participant's tax basis in such shares. Such gain or loss will be treated as long-term or short-term capital gain or loss, depending upon the holding period.

The Board of Directors recommends that the Amended Plan be approved by the stockholders.

**PROPOSAL NO. 3
RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

The Board of Directors recommends that the stockholders ratify the selection of Deloitte & Touche LLP, as our independent registered public accounting firm to audit our consolidated financial statements including those of our subsidiaries for the year ended December 31, 2007. The Audit Committee approved the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2007. Deloitte & Touche LLP is currently our independent registered public accounting firm.

The Board of Directors recommends a vote FOR this proposal.

Change of Independent Registered Public Accounting Firm

By letter dated March 21, 2006, BDO Seidman, LLP ("BDO") notified the Company that BDO had resigned as the Company's independent registered public accounting firm. BDO served as the Company's independent registered public accounting firm since November 3, 1999.

During the two most recent fiscal years and through March 21, 2006, there have been no disagreements with BDO on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of BDO, would have caused BDO to make reference to the subject matter of the disagreement in connection with its reports on the financial statements for such periods.

During the two most recent fiscal years and through March 21, 2006, there have been no reportable events as described in Item 304(a)(1)(v) of Regulation S-K, other than the material weaknesses noted below.

BDO's reports on the Company's financial statements for the fiscal years ended December 31, 2005 and December 31, 2004 did not contain any adverse opinion or disclaimer of opinion, and were not qualified or modified as to audit scope or accounting principles, although the reports contained an explanatory paragraph in each year concerning a material uncertainty relative to a class action suit brought against the Company and its officers and board members. As described in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, BDO's report on management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting as of December 31, 2005 expressed the opinion that the Company did not maintain effective internal control over financial reporting due to the following material weakness: the ineffectiveness of the Company's financial statement close process due to insufficient personnel within the accounting function to effect a timely and accurate financial statement close process with the necessary level of review and supervision. As described in the Company's Annual Report on Form 10-K for the year ended December 31, 2004, BDO's report on management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting as of December 31, 2004, expressed the opinion that the Company did not maintain effective internal control over financial reporting due to the following material weaknesses: the lack of sufficient personnel resources and technical accounting expertise within the accounting function to effect a timely financial close process and effectively evaluate and resolve non-routine and/or complex accounting transactions and the lack of control processes around information technology systems.

The Company provided BDO with a copy of the Current Report on Form 8-K filed on March 24, 2006 and Form 8-K/A filed April 3, 2006 related to this matter and requested that BDO furnish it with a letter addressed to the Securities and Exchange Commission, stating whether it agreed with the statements made by the Company, and if not, stating the respects in which it did not agree. By letter dated April 3, 2006, BDO stated that it agreed with the statements contained in the foregoing disclosure.

On May 1, 2006, the Audit Committee of the Company decided to engage Deloitte & Touche LLP as the Company's independent registered public accounting firm commencing with the audit for the fiscal year ending December 31, 2006.

60

During the Company's fiscal years ended December 31, 2005 and December 31, 2004 and the period from December 31, 2005 through May 1, 2006, neither the Company, nor anyone on its behalf, consulted with Deloitte & Touche LLP with respect to either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, and no written report or oral advice was provided by Deloitte & Touche LLP that Deloitte & Touche LLP concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing, or financial reporting issue or (ii) any matter that was the subject of either a disagreement as defined in Item 304(a)(1)(iv) of Regulation S-K or a reportable event as described in Item 304(a)(1)(v) of Regulation S-K.
