OVERVIEW

LETTER TO SHAREHOLDERS
July 22, 2002

Dear Shareholder,

Due to events in the markets and the well-publicized controversies surrounding certain companies, the recent months have been challenging for many investors.

Against this backdrop, you may be re-evaluating your investments. In this regard, your financial advisor is a particularly valuable resource. Your advisor can help you review your current asset allocation and determine whether it remains appropriate for your goals, risk tolerance and time horizon.

You also have a time-tested partner in Van Kampen. With roots extending to 1927, our legacy spans other market downturns and periods of uncertainty. While the causes of turbulence have changed, our generations of experience have taught us the enduring value of patience, discipline and long-term focus.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

Thank you for your continued trust in Van Kampen. We appreciate the opportunity to help you and your loved ones enjoy life's true wealth--family, friends and life's daily pleasures.

Sincerely,

[SIG]

Richard F. Powers, III
President and CEO
Van Kampen Asset Management Inc.

1

ECONOMIC SNAPSHOT

THE ECONOMY

OVERALL ECONOMIC ACTIVITY INCREASED MODESTLY IN JUNE, CONTINUING THE TREND THAT HAS BEEN EVIDENT THROUGHOUT 2002.

SIGNS OF GROWTH WERE EVIDENT IN MANY OF THE STATISTICAL MEASURES RELEASED THROUGHOUT THE MONTH. FOR EXAMPLE, MANUFACTURING ACTIVITY, WHICH SLOWLY GAINED MOMENTUM IN RECENT MONTHS, CLIMBED TO ITS HIGHEST LEVEL SINCE JUNE 1999.

AND, DESPITE LESS-THAN-ANTICIPATED EMPLOYMENT GROWTH AND INCREASING UNCERTAINTY IN WORLD ECONOMICS AND POLITICS, U.S. CONSUMERS CONTINUED TO SUPPORT DOMESTIC GROWTH THROUGH THE PURCHASE OF HOUSES, CARS AND EVERYDAY MERCHANDISE AND SERVICES.

FINALLY, AS IF ACKNOWLEDGING HOW FAR THE ECONOMY HAS COME--AND HOW FAR IT STILL HAS TO GO--THE FEDERAL RESERVE BOARD CHOSE TO LEAVE SHORT-TERM INTEREST RATES AT THE REMARKABLY LOW LEVELS THAT PREVAILED THROUGHOUT THE FIRST HALF OF 2002.

PERFORMANCE SUMMARY

RETURN HIGHLIGHTS

(as of June 30, 2002)

NYSE Ticker Symbol - VBF

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

One-year total return(1)	3.50%
Five-year average annual total return(1)	6.87%
Ten-year average annual total return(1)	7.34%
Distribution rate as a % of closing common share market price(2)	6.81%
Net asset value	\$18.78
Closing common share market price	\$18.50
One-year high common share market price (07/03/01)	\$20.35
One-year low common share market price (09/24/01)	\$17.85

(1) Total return assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Fund's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(2) Distribution rate represents the annualized distributions of the Fund at the end of the period and not the earnings of the Fund.

Past performance is no guarantee of future results. Investment return, common share market price and net asset value will fluctuate and Fund shares, when sold, may be worth more or less than their original cost. An investment in the Fund is subject to investment risks, and you could lose money on your investment in the Fund. As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor.

The solid line above represents the fund's net asset value (NAV), which indicates overall changes in value among the fund's underlying securities. The fund's common share market price is represented by the dashed line, which indicates the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions.

Q&A WITH YOUR PORTFOLIO MANAGERS

WE RECENTLY SPOKE WITH THE PORTFOLIO MANAGEMENT TEAM FOR THE VAN KAMPEN BOND FUND ABOUT THE KEY EVENTS AND ECONOMIC FORCES THAT SHAPED THE MARKETS AND INFLUENCED THE FUND'S RETURN DURING THE 12-MONTH PERIOD ENDED JUNE 30, 2002. THE FUND IS MANAGED BY THE ADVISER'S TAXABLE FIXED INCOME TEAM. CURRENT MEMBERS(1) OF THE TEAM INCLUDE DAVID S. HOROWITZ, VICE PRESIDENT, AND GORDON W. LOERY, EXECUTIVE DIRECTOR. THE FOLLOWING DISCUSSION REFLECTS THEIR VIEWS ON THE FUND'S PERFORMANCE.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

(1) Team members may change at any time without notice.

Q WHAT WAS THE MARKET ENVIRONMENT OF THE PAST 12 MONTHS?

A The credit market entered the period in a slump as concerns over the state of the U.S. economy and corporate governance improprieties led many investors to trim their exposure to corporate bonds. The situation was only worsened by the tragic events of September 11, after which the corporate bond market suffered steep losses.

The market seemed to recover its footing toward the end of the year as investors' expectations turned to imminent recovery for the U.S. economy and, as a result, for corporate profits. The equity markets also appeared to stabilize during that time and through the first months of 2002, which provided further support to the credit market. Wide spreads relative to Treasuries were the final ingredient that enticed many investors back into the credit markets.

The corporate market suffered another reversal in the spring, when a string of high-profile accounting scandals began to seriously erode investor confidence in public companies. Both the equity and the credit markets suffered greatly from this loss of confidence.

In sector terms, market performance was widely varied. Company-specific scandals in such areas as energy/utilities (Enron) and cable (Adelphia) seemed to drag down entire industry sectors, regardless of individual company fundamentals. The telecom area continued its string of underperformance, suffering more defaults than any other industry sector. Two high-profile companies--WorldCom and Qwest--were downgraded from investment grade to high yield, which further undermined confidence in the sector.

Q HOW DID THE FUND PERFORM IN THIS ENVIRONMENT?

A For the 12-month period ended June 30, 2002, the fund generated a total return of 3.50 percent, based on common share market price. The

7

fund's return reflects a decrease in common share market price from \$19.15 per share on June 30, 2001, to \$18.50 per share on June 30, 2002. The fund's quarterly dividend of \$0.3150 per share translates to a distribution rate of 6.81 percent based on the fund's closing common share market price on June 30, 2002. Of course, past performance is no guarantee of future results. Investment return, share price and net asset value will fluctuate and fund shares, when sold, may be worth more or less than their original cost. As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor.

By comparison, the Lehman Brothers BBB Corporate Bond Index posted a total return of 5.18 percent for the same period. The Lehman Brothers BBB Corporate Bond Index is a broad-based, unmanaged index, which reflects the performance of corporate bonds. Its returns do not include any sales charges or fees that would be paid by an investor purchasing the securities it represents. Such costs would lower performance. It is not possible to invest directly in an index. For additional performance results, please refer to the chart and footnotes on page 4.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

Q WHAT WERE THE KEY DRIVERS OF
THE FUND'S RELATIVE PERFORMANCE?

A Our search for well-priced companies led us in recent years to invest in the telecommunications sector. The sector suffered significant losses during the period as several companies faced deep financial crises. We trimmed the portfolio's exposure, but the fund still suffered from what exposure it had.

On a more positive note, the fund benefited from its relatively high credit quality. We grew increasingly cautious about the state of the economy over the period and boosted the fund's quality as a buffer against further deterioration in the economy. We did this through the purchase of higher-quality corporates as well as a small position in Treasuries. This strategy proved beneficial as investors gravitated to the higher-quality exposure.

Q WHAT STRATEGIES DID YOU USE
TO MANAGE THE FUND?

A While we kept the portfolio's credit quality high in case the economy continued its slump, we also started to position the fund to benefit from a potential turnaround. We added selectively to the fund's holdings in the financial sector in the belief that these companies would be among the first to gain if the economy turned the corner.

In a similar vein, we added some exposure to hotel and travel companies. As with the financials, we believe that these companies are well positioned to benefit from an economic recovery. They had the added attraction of being quite cheap because of the travel industry's difficulties in the wake of September 11.

Our analysts were also able to identify what we believed were several attractive bonds in the health-care sector. Many of these companies had suffered from financing difficulties, leading the market to cast the entire sector in a poor

8

light. Through careful research, we found what we believe to be solid companies at very attractive prices.

As mentioned, we did trim the fund's holdings in telecommunications stocks substantially. We had purchased these issues several years ago when the sector's prospects appeared more constructive. As the bonds' prices began to fall, we opted to sell holdings selectively in order to capture the best available prices for shareholders. We made several such sales during the period, so that the fund's holdings in telecommunications were reduced to below market weightings.

Q WHAT IS YOUR OUTLOOK FOR
THE FUND AND THE MARKETS IN THE COMING MONTHS?

A Broadly speaking, we remain optimistic about the credit market. Spreads continue to be relatively wide, with the market offering some compelling values. We anticipate that the economy is likely to grow moderately over the next 18 months. This growth should aid corporate balance sheets, which will in turn help lower defaults.

We also believe that the high-yield market will benefit from a structural shift in its makeup that has occurred over the past year. One of the greatest excesses of the late 1990s occurred when more and more lower-quality companies were able to tap the high-yield market for financing. This wave of lower-quality companies helped drag down the market's overall credit quality and was a major

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

contributor to the climbing default rates of the past two years. That trend has reversed in the past year, as lower-quality companies have been all but shut out of the market for new issuance. As a result, roughly 44 percent of last year's issuance was rated BB, relative to a historical average of 29 percent. This shift upward in quality should also help to reduce broader market default rates back to their historical averages from recent elevated levels.

9

GLOSSARY OF TERMS

A HELPFUL GUIDE TO SOME OF THE COMMON TERMS YOU'RE LIKELY TO SEE IN THIS REPORT AND OTHER FINANCIAL PUBLICATIONS.

CREDIT RATING: An evaluation of a bond issuer's credit history and capability of repaying debt obligations. Standard & Poor's Ratings Group and Moody's Investors Service are two companies that assign credit ratings. Standard & Poor's ratings range from a high of AAA to a low of D, while Moody's ratings range from a high of Aaa to a low of C.

DEFAULT: The failure to make required debt payments on time.

INVESTMENT-GRADE BONDS: Generally, securities rated BBB and above by Standard & Poor's Ratings Group or Baa and above by Moody's Investors Service. Bonds rated below BBB or Baa are noninvestment grade.

YIELD: The annual rate of return on an investment, expressed as a percentage.

YIELD CURVE: The pattern that results from viewing the yields of U.S. Treasury securities maturing in 1, 5, 10 and 30 years. When grouped together and graphed, a pattern of increasing yield is often reflected as the time-to-maturity extends. This pattern creates an upward sloping "curve." A "flat" yield curve represents little difference between short- and long-term interest rates, while a "negative" yield curve represents decreasing yields as the time-to-maturity extends.

YIELD SPREAD: The additional yield investors can earn by either investing in bonds with longer maturities or by investing in bonds with lower credit ratings. The spread is the difference in yield between bonds with short maturities and long maturities or the difference in yield between high-quality bonds and lower-quality bonds.

- (a) As required, effective July 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the year ended June 30, 2002 was to decrease net investment income per share by \$.04, increase net realized and unrealized gains and losses per share by \$.04 and decrease the ratio of net investment income to average net assets by .24%. Per share, ratios and supplemental data for periods prior to June 30, 2002 have not been restated to reflect this change in presentation.
- (b) Total return based on common share market price assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Fund's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.
- (c) On January 3, 1995, the Fund paid off its outstanding convertible extendible note.

NOTES TO
FINANCIAL STATEMENTS

June 30, 2002

1. SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sale price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange in which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will maintain, in a segregated account with its custodian, assets having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At June 30, 2002, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash

24

NOTES TO FINANCIAL STATEMENTS

June 30, 2002

balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management Inc. (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

As required, effective July 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies (the "Guide") and began amortizing premium on fixed income securities. Prior to July 1, 2001, the Fund did not amortize premiums on fixed income securities. The cumulative effect of this accounting change had no impact on total net assets of the Fund, but resulted in a \$588,991 reduction in cost of securities and a corresponding \$588,991 increase in net unrealized appreciation based on securities held by the Fund on July 1, 2001.

The effect of this change for the year ended June 30, 2002 was to decrease net investment income by \$545,535; decrease net unrealized depreciation by \$91,135, and decrease net realized losses by \$454,400. The Statement of Changes in Net Assets and Financial Highlights for prior periods have not been restated to reflect this change in presentation.

The revised version of the Guide also requires that paydown gains and losses on mortgage- and asset-backed securities be presented as interest income. Previously, paydown gains and losses on mortgage- and asset-backed securities were shown as a component of realized gain/loss. The effect of this change for the year ended June 30, 2002 was to decrease net investment income and decrease net realized loss by \$534.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30,

NOTES TO FINANCIAL STATEMENTS

June 30, 2002

2002, the Fund had an accumulated capital loss carryforward for tax purposes of \$848,660, which will expire on June 30, 2009.

At June 30, 2002, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$206,331,182
	=====
Gross tax unrealized appreciation.....	\$ 5,519,841
Gross tax unrealized depreciation.....	(5,852,688)

Net tax unrealized depreciation on investments.....	\$ (332,847)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during 2002 and 2001 was as follows:

	2002	2001
Distributions paid from:		
Ordinary income.....	\$15,283,368	\$15,336,914
Long-term capital gain.....	-0-	-0-
	-----	-----
	\$15,283,368	\$15,336,914
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gain/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. Permanent book and tax differences relating to expenses which are not deductible for tax purposes totaling \$17,055 were reclassified from accumulated undistributed net investment income to capital and \$98 relating to the recognition of net realized gains on paydowns of mortgage pool obligations was reclassified from accumulated net realized loss to accumulated undistributed net investment income.

As of June 30, 2002, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$666,671
Undistributed long-term capital gain.....	-0-

26

NOTES TO
FINANCIAL STATEMENTS

June 30, 2002

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions, gains or losses recognized for tax purposes on open future transactions on June 30, 2002 and post-October losses which may not be recognized for tax purposes until the first day of the following fiscal year.

F. EXPENSE REDUCTIONS During the year ended June 30, 2002, the Fund's custody fee was reduced by \$6,346 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND
OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.50%
Next \$100 million.....	.45%
Next \$100 million.....	.40%
Over \$350 million.....	.35%

For the year ended June 30, 2002, the Fund recognized expenses of approximately \$11,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom (Illinois), counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates cost of such services to each fund. For the year ended June 30, 2002, the Fund recognized expenses of approximately \$18,200 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

27

NOTES TO FINANCIAL STATEMENTS

June 30, 2002

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$223,751,723 and \$229,056,174, respectively.

4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a future commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the year ended June 30, 2002, were as follows:

	CONTRACTS
Outstanding at June 30, 2001.....	0
Futures Opened.....	2,005
Futures Closed.....	(1,602)

Outstanding at June 30, 2002.....	403
	=====

NOTES TO
FINANCIAL STATEMENTS

June 30, 2002

The futures contracts outstanding as of June 30, 2002 and the descriptions and unrealized appreciation/depreciation are as follows:

	CONTRACTS	UNREALIZED APPRECIATION/ DEPRECIATION
LONG CONTRACTS:		
5-Year U.S. Treasury Note Future, September 2002 (Current Notional Value of \$107,422 per contract).....	244	\$522,484
2-Year U.S. Treasury Note Future, September 2002 (Current Notional Value of \$209,953 per contract).....	10	16,366

	---	-----
	403	\$259,520

REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees and Shareholders of Van Kampen Bond Fund

We have audited the accompanying statement of assets and liabilities of Van Kampen Bond Fund (the "Fund"), including the portfolio of investments, as of June 30, 2002, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Fund's financial highlights for the periods ended prior to June 30, 2000, were audited by other auditors whose report, dated July 23, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2002, by correspondence with the Fund's custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Bond Fund as of June 30, 2002, the results of its operations, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DELOITTE & TOUCHE LLP
Chicago, Illinois
August 8, 2002

DIVIDEND REINVESTMENT PLAN

The Fund pays distributions in cash, but if you own more than 100 shares in your own name, you may elect to participate in the Fund's dividend reinvestment plan (the "Plan"). Under the Plan, shares will be issued by the Fund at net asset value on a date determined by the Board of Trustees between the record and payable dates on each distribution; however, if the market price including brokerage commissions, is less than the net asset value, the amount of the distribution will be paid to the Plan Agent, which will buy such shares as are available at prices below the net asset value. (If the market price is not significantly less than the net asset value, it is possible that open market purchases of shares may increase the market price so that such price plus brokerage commissions would equal or exceed the net asset value of such shares.) If the Plan Agent cannot buy the necessary shares at less than net asset value

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

before the distribution date, the balance of the distribution will be made in authorized but unissued shares of the Fund at net asset value. The cost per share will be the average cost, including brokerage commissions, of all shares purchased. Since all shares purchased from the Fund are at net asset value, there will be no dilution, and no brokerage commissions are charged on such shares.

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gain distributions does not relieve you of any income tax which may be payable (or required to be withheld) on dividends or distributions.

You may begin or discontinue participation in the Plan at any time by written notice to the address below. If you withdraw from the Plan, you may rejoin at any time if you own the required 100 shares. Elections and terminations will be effective for distributions declared after receipt. If you withdraw from the Plan, a certificate for the whole shares and a check for the fractional shares, if any, credited to your Plan account will be sent as soon as practicable after receipt of your election to withdraw. Except for brokerage commissions, if any, which are borne by Plan participants, all costs of the Plan are borne by the Fund. The Fund reserves the right to amend or terminate the Plan on 30 days' written notice prior to the record date of the distribution for which such amendment or termination is effective.

Record stockholders should address all notices, correspondence, questions or other communications about the Plan to:

STATE STREET BANK AND TRUST COMPANY

C/O EQUISERVE LLP

P.O. BOX 8200

BOSTON, MA 02266-8200

1-800-821-1238

If your shares are not held directly in your name, you should contact your brokerage firm, bank or other nominee for more information and to see if your nominee will participate in the Plan on your behalf. If you participate through your broker and choose to move your account to another broker, you will need to re-enroll in the Plan through your new broker.

RESULTS OF
SHAREHOLDER VOTES

The Annual Meeting of Shareholders of the Fund was held on June 12, 2002, where shareholders voted on the election of trustees.

1) With regards to the election of the following trustees by the common shareholders of the Fund:

	# OF SHARES	
	IN FAVOR	WITHHELD
David C. Arch.....	9,870,821	161,284
Howard J Kerr.....	9,854,347	177,758

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

The other trustees of the Fund whose terms did not expire in 2002 are Hugo F. Sonnenschein, Rod Dammeyer, Richard F. Powers, III, Theodore A. Myers, and Wayne W. Whalen.

TRUSTEE AND OFFICER INFORMATION

The business and affairs of the Trust are managed under the direction of the Trust's Board of Trustees and the Trust's officers appointed by the Board of Trustees. The tables below list the trustees and officers of the Trust and their principal occupations for the last five years, other directorships held by the trustees and their affiliations, if any, with Van Kampen Investments Inc. ("Van Kampen Investments"), Van Kampen Investment Advisory Corp. ("Advisory Corp."), Van Kampen Asset Management Inc. ("Asset Management"), Van Kampen Funds Inc. (the "Distributor"), Van Kampen Advisors Inc., Van Kampen Exchange Corp. and Van Kampen Investor Services Inc. ("Investor Services"). Advisory Corp. and Asset Management sometimes are referred to herein collectively as the "Advisers." For purposes hereof, the term "Fund Complex" includes each of the investment companies advised by the Advisers. Trustees serve three year terms or until their successors are duly elected and qualified. Officers are annually elected by the trustees.

Privacy Notice

The Van Kampen companies and investment products* respect your right to privacy. We also know that you expect us to conduct and process your business in an accurate and efficient manner. To do so, we must collect and maintain certain nonpublic personal information about you. This is information we collect from you on applications or other forms, and from the transactions you make with us, our affiliates, or third parties. We may also collect information you provide when using our web site, and text files (a.k.a. "cookies") may be placed on your computer to help us to recognize you and to facilitate transactions you initiate. We do not disclose any nonpublic personal information about you or any of our former customers to anyone, except as permitted by law. For instance, so that we may continue to offer you Van Kampen investment products and services that meet your investing needs, and to effect transactions that you request or authorize, we may disclose the information we collect to companies that perform services on our behalf, such as printers and mailers that assist us in the distribution of investor materials. These companies will use this information only for the services for which we hired them, and are not permitted to use or share this information for any other purpose. To protect your nonpublic personal information internally, we permit access to it only by authorized employees, and maintain physical, electronic and procedural safeguards to guard your nonpublic personal information.

* Includes Van Kampen Investments Inc., Van Kampen Investment Advisory Corp., Van Kampen Asset Management Inc., Van Kampen Advisors Inc., Van Kampen Management Inc., Van Kampen Funds Inc., Van Kampen Investor Services Inc., Van Kampen Trust Company, Van Kampen System Inc. and Van Kampen Exchange Corp., as well as the many Van Kampen mutual funds and Van Kampen unit investment trusts.
