OVERVIEW

LETTER TO SHAREHOLDERS
January 17, 2003

Dear Shareholder,

During the bull market of the 1990s, many investors ignored what investment risk really means: the possibility of losing money. Instead, investors came to define risk as "more reward."

Today, it's clear that for many people, the pendulum has swung to the opposite extreme. Many are reluctant to enter the market, stick with their long-term plans, or assume prudent levels of risk. Not knowing what action to take, many investors are taking none.

Regardless of how you define risk and regardless of the market environment, your investment goals don't go away. Parents will want to send children to college, retirees will want to enjoy their golden years, and families will want to purchase homes. And history bears out that a prudent investment may be one of the best ways to get there.

How can you reconcile the reality of market risk with the
pursuit of your long-term investment goals? At Van Kampen, we

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

believe that diversification and asset allocation are the best strategies for managing the market's ups and downs. That's why Van Kampen offers a full range of fund choices. We encourage you to work with your advisor to make sure that you have an asset allocation that's suitable for you.

As we enter a new year, all of us at Van Kampen remain grateful for the trust you have placed in us and for the opportunity to help you enjoy life's true wealth.

Sincerely,

[SIG]

ECONOMIC SNAPSHOT

THE ECONOMY

ECONOMIC DATA RELEASED IN DECEMBER 2002 SEEMED TO SUGGEST THE ECONOMY WAS EMERGING FROM ITS AUTUMN SOFT SPOT. RETAIL SALES AND INDUSTRIAL PRODUCTION RECORDED GAINS THAT SURPASSED EXPECTATIONS. BOTH NEW AND EXISTING HOME SALES CONTINUED TO REMAIN AT HISTORICALLY HIGH LEVELS. EVEN THE BELEAGUERED MANUFACTURING SECTOR ENJOYED SOME GOOD NEWS: THE INSTITUTE OF SUPPLY MANAGEMENT REPORTED THAT NEW ORDERS WERE SO ROBUST, THEY REGISTERED THE LARGEST MONTHLY INCREASE SINCE 1980. EQUALLY ENCOURAGING, INFLATION PRESSURES REMAINED STABLE THROUGHOUT THE REPORTING PERIOD--DESPITE RISING OIL PRICES.

AGAINST THIS BACKDROP, THE FEDERAL RESERVE MAINTAINED ITS ACCOMMODATIVE MONETARY POLICY WHICH, AS A RESULT, ALLOWED INTEREST RATES TO CONTINUE HOVERING AT THE LOWEST LEVELS IN DECADES.

YET, POCKETS OF WEAKNESS PERSISTED. DECEMBER'S JOB LOSSES WERE THE STRONGEST RECORDED IN RECENT MONTHS, CAUSING INVESTORS TO QUESTION THE SUSTAINABILITY OF ECONOMIC ACTIVITY MOVING FORWARD.

FURTHER CLOUDING THE ECONOMIC HORIZON, THE DOLLAR MOVED LOWER AS TRADERS AND INVESTORS QUESTIONED THE NEWLY APPOINTED TREASURY SECRETARY'S COMMITMENT TO A STRONG DOLLAR. WHILE THE DECLINING DOLLAR SEEMED LIKE ANOTHER DARK CLOUD, A POSSIBLE SILVER LINING REMAINS: DOLLAR WEAKNESS COULD TRANSLATE INTO IMPROVED EXPORTS IN 2003, FURTHER SUPPORTING ECONOMIC GROWTH.

Q&A WITH YOUR PORTFOLIO MANAGERS

WE RECENTLY SPOKE WITH THE PORTFOLIO MANAGEMENT TEAM FOR THE VAN KAMPEN BOND FUND ABOUT THE KEY EVENTS AND ECONOMIC FORCES THAT SHAPED THE MARKETS AND INFLUENCED THE FUND'S RETURN DURING THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2002. THE FUND IS MANAGED BY THE ADVISER'S TAXABLE FIXED-INCOME TEAM. CURRENT MEMBERS(1) OF THE TEAM INCLUDE DAVID S. HOROWITZ, EXECUTIVE DIRECTOR AND GORDON W. LOERY, EXECUTIVE DIRECTOR. THE FOLLOWING DISCUSSION REFLECTS THEIR VIEWS ON THE FUND'S PERFORMANCE.

(1) Team members may change without notice at any time.

Q WHAT WAS THE MARKET ENVIRONMENT OF THE PAST SIX MONTHS?

A The U.S. credit markets were highly volatile during the last six months of 2002. They entered the period reeling from a series of widely publicized corporate-governance and accounting scandals that included two of the largest bankruptcies in U.S. history. At the same time, continued weakness in the U.S. economy led to ongoing disappointments in corporate profits. This put further pressure on corporate yield spreads, which reached a high of 217 basis points by the end of September.

The fourth quarter proved to be a somewhat more rewarding time for corporate bond investors. Like the equity markets, the corporate bond markets began to rally as investor confidence began to reassert itself. Spreads narrowed somewhat, though by the end of the period they remained wide by historical standards.

Q HOW DID THE FUND PERFORM IN THIS ENVIRONMENT?

A For the six-month period ended December 31, 2002, the fund generated a total return of 3.13 percent, based on common share market price. The fund's return reflects a decrease in common share market price from \$18.50 per share on June 30, 2002, to \$18.45 per share on December 31, 2002. The fund's quarterly dividend of \$0.3150 per share translates to a distribution rate of 6.83 percent based on the fund's closing common share market price on December 31, 2002. Of course, past performance is no guarantee of future results. Investment return, share price and net asset value will fluctuate and fund shares, when sold, may be worth more or less than their original cost. As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor.

7

By comparison, the Lehman Brothers BBB Corporate Bond Index posted a total return of 8.02 percent for the same period. The Lehman Brothers BBB Corporate Bond Index is a broad-based, unmanaged index, which reflects the performance of corporate bonds. Its returns do not include any sales charges or fees that would be paid by an investor purchasing the securities it represents. Such costs would lower performance. It is not possible to invest directly in an index. For additional performance results, please refer to the chart and footnotes on page 4.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

Q WHAT WERE THE KEY DRIVERS OF THE FUND'S RELATIVE PERFORMANCE?

A The fund's performance suffered somewhat from its exposure to underperforming bonds in the utilities sector. We recognized that the sector was headed for difficulties and began paring the portfolio's exposure there. We were especially concerned about accounting irregularities and some of the companies' trading operations. Unfortunately, we were not able to reduce the fund's holdings in time to protect it from problems at a few of these companies.

Q WHAT STRATEGIES DID YOU USE TO MANAGE THE FUND?

A One of our primary strategies was to align the portfolio in an effort to protect shareholders from continued volatility in the markets. In keeping with our strategy earlier in the year, we took actions to maintain the relatively high credit quality of the portfolio in order to contain the risk of adverse credit events. We also reduced the fund's duration in order to protect shareholders from potential negative movements in interest rates.

As mentioned, we also reduced the portfolio's exposure to utilities. In their stead, we boosted the fund's holdings of financials and food bonds. Financials are generally strong defensive plays, and our analysts were able to locate several attractively-priced issues in that sector. Food and pharmaceuticals are also fairly defensive plays since the demand for their products exists independent of economic cycles.

Q WHAT IS YOUR OUTLOOK FOR THE FUND AND THE MARKETS IN THE COMING MONTHS?

A Economically speaking, we expect 2003 to be a more stable year. We do not expect any more wild gyrations in the economy, and look forward to greater investor confidence on the credit side of the fixed-income markets. Inflation is likely to remain a non-issue in the U.S.

As a result of these factors, yield spreads between government and higher-risk sectors are likely to move closer to historic levels over the course of the year. While it's impossible to say when this will happen, it is also likely that interest rates will trend moderately upward once the Fed believes the economy has turned the corner. We will continue to monitor the economy and the markets closely for opportunities.

GLOSSARY OF TERMS

A HELPFUL GUIDE TO SOME OF THE COMMON TERMS YOU'RE LIKELY TO SEE IN THIS REPORT AND OTHER FINANCIAL PUBLICATIONS.

BOND: A debt security issued by a government or corporation that pays the bondholder a stated rate of interest and repays the principal at the maturity date.

CREDIT RATING: An evaluation of a bond issuer's credit history and capability of repaying debt obligations. Standard & Poor's Ratings Group and Moody's Investors Service are two companies that assign credit ratings. Standard & Poor's ratings range from a high of AAA to a low of D, Moody's from a high of Aaa to a low of C.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

CREDIT SPREAD: Also called quality spread; the difference in yield between higher-quality issues (such as Treasury securities) and lower-quality ones. Normally, lower-quality issues provide higher yields to compensate investors for their additional credit risk.

VOLATILITY: A measure of the fluctuation in the market price of a security. A security that is volatile has frequent, large swings in price.

YIELD: The annual rate of return on an investment, expressed as a percentage.

NOTES TO

Edgar Filing: VAN KAMPEN BOND FUND - Form N-30D

FINANCIAL STATEMENTS

December 31, 2002 (Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sale price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will maintain, in a segregated account with its custodian, assets having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At December 31, 2002, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash

balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management Inc. (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund

will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2002, the Fund had an accumulated capital loss carryforward for tax purposes of \$848,660, which will expire on June 30, 2009.

At December 31, 2002, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$202,270,079
	=====
Gross tax unrealized appreciation.....	\$ 11,806,360
Gross tax unrealized depreciation.....	(2,079,096)

Net tax unrealized appreciation on investments.....	\$ 9,727,264
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

As of June 30, 2002, the component of distributable earnings on a tax basis was as follows:

Undistributed ordinary income..... \$666,671

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions.

F. EXPENSE REDUCTIONS During the six months ended December 31, 2002, the Fund's custody fee was reduced by \$2 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.50%
Next \$100 million.....	.45%
Next \$100 million.....	.40%
Over \$350 million.....	.35%

For the six months ended December 31, 2002, the Fund recognized expenses of approximately \$8,200 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom (Illinois), counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates cost of such services to each fund. For the six months ended December 31, 2002, the Fund recognized expenses of approximately \$9,500 representing Van Kampen Investments Inc.'s or its affiliates'

(collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation

plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$60,352,870 and \$55,014,012, respectively.

4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a future commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the
