Item 1. Report to Shareholders

Welcome, Shareholder

In this update, you'll learn about how your fund performed during the reporting period. The portfolio management team will provide an overview of the market climate, and discuss some of the factors that helped or hindered performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments, as well as other information.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the fund will achieve its investment objective. The fund is subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and, therefore, the value of the fund shares may be less than what you paid for them. Accordingly, you can lose money investing in this fund.

The solid line above represents the fund's net asset value (NAV), which indicates overall changes in value among the fund's underlying securities. The fund's common share market price is represented by the dashed line, which indicates the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions.

AVERAGE ANNUAL TOTAL RETURNS	MARKET PRICE
10-year	7.24%
5-year	7.36
1-year	12.67

Past performance is no guarantee of future results. Investment return, common share market price and net asset value will fluctuate and fund shares, when sold, may be worth more or less than their original cost.

As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit [vankampen.com](http://vankampen.com) or speak with your financial advisor. Total return assumes an investment at the common share market price at the beginning of the period, reinvestment of all distributions for the period in accordance with the fund's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period. Distribution rate is as a percent of closing common share market price, and represents the annualized distributions of the fund at the end of the period and not the earnings of the fund.

The Lehman Brothers BBB Corporate Bond Index is generally representative of corporate bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment.

Fund Report

FOR THE 12-MONTH PERIOD ENDED JUNE 30, 2003

Van Kampen Bond Fund is managed by the Adviser's Taxable Fixed Income team. Members of the team include David S. Horowitz, Executive Director, and Gordon W. Loery, Executive Director.(1) The following discussion reflects their views on the fund's performance.

- Q. BEFORE YOU DISCUSS HOW THE FUND PERFORMED, PLEASE DESCRIBE THE OVERALL MARKET ENVIRONMENT.
- A. As in the broader fixed-income markets, the corporate-bond sector was highly volatile during the reporting period. Geopolitical concerns around the war in Iraq and terrorism contributed to volatility, though the

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

tension in the market was somewhat eased by the end of the initial combat phase of the war.

Ongoing concerns about the strength of the U.S. economy caused the Federal Reserve Bank (the Fed) to cut interest rates several times over the period, taking Treasury yields to 45-year lows.

The corporate sector was among the best-performing areas of the bond market from October through the end of the period, with lower-quality securities performing especially strongly in the 2003 rally.

Q. HOW DID THE FUND PERFORM DURING THE REPORTING PERIOD?

- A. -- The fund returned 12.67 percent for the 12 months ended June 30, 2003, based on common share market price.
- By comparison, the fund's benchmark, the Lehman Brothers BBB Corporate Bond Index, returned 18.33 percent.
- The fund's quarterly dividend of \$0.290 translated to a distribution rate of 5.93 percent, based on the fund's common share market price as of June 30, 2003.

See Performance Summary for additional information and index definitions.

Q. WHAT FACTORS HINDERED PERFORMANCE?

- A. -- In light of recent business difficulties in the technology and utilities sectors, we chose to underweight these sectors relative to the benchmark. During the rally, which rewarded lower-quality companies, these were two of the best-performing sectors. Therefore, the fund did not benefit as it might have, had it held a larger weighting. As of the end of the period, however, our outlook and

(1) Team members may change at any time without notice.

2

therefore, the fund's positions in these sectors, remain basically unchanged.

- The fund's lower interest-rate sensitivity caused it to lag when interest rates declined.

Q. WHAT HELPED PERFORMANCE DURING THE REPORTING PERIOD?

- A. -- We shifted assets from Treasuries into corporate securities, giving the portfolio greater exposure to the strong performance of corporate bonds.
- The portfolio's overweight positions (versus the benchmark index) in the financial, media and transportation sectors achieved solid, double-digit performance during the reporting period.
- Our analysis indicated that the consumer-nondurable and food/tobacco sectors were fully priced, which led us to significantly underweight the sectors versus the benchmark. This strategy added to performance as these sectors underperformed for the period.

Q. PLEASE WALK US THROUGH HOW YOU POSITIONED THE FUND, HIGHLIGHTING KEY THEMES.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

- A. Our expectations for the economy centered on an anticipated return to positive growth in the relatively near term. This led us to keep the portfolio's duration shorter than that of its benchmark in order to avoid unwanted volatility. In a similar vein, we positioned assets in lower investment-grade paper--paper believed to offer more value and wider yield spreads in today's market. We also attempted to keep the portfolio well-diversified across sectors and individual names to give it broader exposure to opportunities as well as to help minimize overall risk.

Subject to change daily. All percentages are as a percentage of long-term investments. Provided for informational purposes only and should not be deemed as a recommendation to buy securities in the sectors shown above. Securities are classified by sectors that represent broad groupings of related industries. Rating allocations based upon ratings as issued by Standard and Poor's and Moody's, respectively. Morgan Stanley is a full-service securities firm engaged in securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services.

3

- Q. NOW THAT YOU'VE PROVIDED AN OVERVIEW OF THE FUND, DO YOU HAVE ANY CLOSING THOUGHTS FOR THE SHAREHOLDERS?

- A. We believe there are several factors that indicate rising interest rates are more likely than falling rates over the near term. First, the economy's underlying strength appears to remain fundamentally sound. Second, Treasury yields ended the period at multi-decade lows that appear to be unsustainable. Lastly, both fiscal and monetary policy remain geared to spurring near-term economic growth.

That said, it is still difficult to predict with certainty where interest rates are headed. We will continue to monitor the economy and markets closely for potential opportunities.

NOTES TO FINANCIAL STATEMENTS

June 30, 2003

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sale price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will maintain, in a segregated account with its custodian, assets having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At June 30, 2003, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management Inc. (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2003

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2003, the Fund had an accumulated capital loss carryforward for tax purposes of \$11,597,056, which will expire between June 30, 2009 and June 30, 2011.

At June 30, 2003, the cost and related gross unrealized appreciation and depreciation are as follows:

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Cost of investments for tax purposes.....	\$201,565,836
	=====
Gross tax unrealized appreciation.....	\$ 19,012,901
Gross tax unrealized depreciation.....	(368,721)
	-----
Net tax unrealized appreciation on investments.....	\$ 18,644,180
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during the years ended June 30, 2003 and 2002 was as follows:

	2003	2002
Distributions paid from:		
Ordinary income.....	\$13,747,783	\$15,283,368
Long-term capital gain.....	-0-	-0-
	-----	-----
	\$13,747,783	\$15,283,368
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gain/ losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. Permanent book and tax differences relating to expenses which are not deductible for tax purposes totaling \$5,773 were reclassified from accumulated undistributed net investment income to capital and \$598 relating to the recognition of net realized losses on paydowns of

21

NOTES TO  
FINANCIAL STATEMENTS

mortgage pool obligations was reclassified from accumulated undistributed net investment income to accumulated net realized loss. Additionally, a permanent difference relating to book to tax amortization differences totaling \$1,539,470 was reclassified from accumulated undistributed net investment income to accumulated net realized loss.

As of June 30, 2003, the component of distributable earnings on a tax basis was as follows:

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Undistributed ordinary income..... \$392,256

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions, gains or losses recognized for tax purposes on open future transactions on June 30, 2003 and post-October losses which may not be recognized for tax purposes until the first day of the following fiscal year.

F. EXPENSE REDUCTIONS During the year ended June 30, 2003, the Fund's custody fee was reduced by \$69 as a result of credits earned on cash balances.

### 2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.50%
Next \$100 million.....	.45%
Next \$100 million.....	.40%
Over \$350 million.....	.35%

For the year ended June 30, 2003, the Fund recognized expenses of approximately \$12,900 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom (Illinois), counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates cost of such services to each fund. For the year ended June 30, 2003, the Fund recognized expenses of approximately \$19,500 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's

years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

### 3. INVESTMENT TRANSACTIONS

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$118,102,231 and \$117,587,531, respectively.

#### 4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/ depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to the delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the year ended June 30, 2003, were as follows:

	CONTRACTS
Outstanding at June 30, 2002.....	403
Futures Opened.....	2,388
Futures Closed.....	(2,235)

REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees and Shareholders of Van Kampen Bond Fund:

We have audited the accompanying statement of assets and liabilities of Van Kampen Bond Fund (the "Fund"), including the portfolio of investments, as of June 30, 2003, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Fund's financial highlights for the periods ended prior to June 30, 2000, were audited by other auditors whose report, dated July 23, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2003, by correspondence with the Fund's custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Bond Fund as of June 30, 2003, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

### DIVIDEND REINVESTMENT PLAN

The Fund pays distributions in cash, but if you own more than 100 shares in your own name, you may elect to participate in the Fund's dividend reinvestment plan (the "Plan"). Under the Plan, shares will be issued by the Fund at net asset value on a date determined by the Board of Trustees between the record and payable dates on each distribution; however, if the market price including brokerage commissions, is less than the net asset value, the amount of the distribution will be paid to the Plan Agent, which will buy such shares as are available at prices below the net asset value. (If the market price is not significantly less than the net asset value, it is possible that open market purchases of shares may increase the market price so that such price plus brokerage commissions would equal or exceed the net asset value of such shares.) If the Plan Agent cannot buy the necessary shares at less than net asset value before the distribution date, the balance of the distribution will be made in authorized but unissued shares of the Fund at net asset value. The cost per share will be the average cost, including brokerage commissions, of all shares purchased. Since all shares purchased from the Fund are at net asset value, there will be no dilution, and no brokerage commissions are charged on such shares.

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gain distributions does not relieve you of any income tax which may be payable (or required to be withheld) on dividends or distributions.

You may begin or discontinue participation in the Plan at any time by written notice to the address below. If you withdraw from the Plan, you may rejoin at any time if you own the required 100 shares. Elections and terminations will be effective for distributions declared after receipt. If you withdraw from the Plan, a certificate for the whole shares and a check for the fractional shares, if any, credited to your Plan account will be sent as soon as practicable after receipt of your election to withdraw. Except for brokerage commissions, if any, which are borne by Plan participants, all costs of the Plan are borne by the Fund. The Fund reserves the right to amend or terminate the Plan on 30 days' written notice prior to the record date of the distribution for which such amendment or termination is effective.

Record stockholders should address all notices, correspondence, questions or other communications about the Plan to:

c/o EquiServe LLP  
P.O. Box 8200  
Boston, MA 02266-8200  
1-800-821-1238

If your shares are not held directly in your name, you should contact your brokerage firm, bank or other nominee for more information and to see if your nominee will participate in the Plan on your behalf. If you participate through your broker and choose to move your account to another broker, you will need to re-enroll in the Plan through your new broker.
