Item 1. Report to Shareholders.

The Fund's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen Bond Fund performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments as of December 31, 2004.

MARKET FORECASTS PROVIDED IN THIS REPORT MAY NOT NECESSARILY COME TO PASS. THERE IS NO ASSURANCE THAT THE FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVE. FUNDS ARE SUBJECT TO MARKET RISK, WHICH IS THE POSSIBILITY THAT THE MARKET VALUES OF SECURITIES OWNED BY THE FUND WILL DECLINE AND THAT THE VALUE OF THE FUND SHARES MAY THEREFORE BE LESS THAN WHAT YOU PAID FOR THEM. ACCORDINGLY, YOU CAN LOSE MONEY INVESTING IN THIS FUND.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND FUND SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the fund's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers BBB Corporate Bond Index is generally representative of corporate bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Directors of the Adviser; and Gordon W. Loery, Executive Director of the Adviser.

### MARKET CONDITIONS

The review period began with a "soft patch" in the economic recovery. The June employment data released on July 2 reported that non-farm payrolls grew by much less than the median forecast. This included downward revision of prior reports and was followed by the June Consumer Price Index (CPI) report, which suggested that inflation was contained and that the spike in CPI earlier in the year may have been temporary. After the release of the July employment data, another disappointing number, bond prices surged and yields dropped. Although the lackluster data prompted speculation that the Federal Reserve Board ("the Fed") might postpone the interest rate increases, the Fed continued to raise rates by 25 basis point increments at each of its remaining meetings.

Economic data released in September and October showed signs of strength, and investors' attention soon turned toward increasing oil prices and the upcoming U.S. presidential election. The bond market reversed course due largely to these factors. Sentiment in the bond market was further undermined by a combination of issues including high and rising oil prices, a string of weaker-than-expected employment reports, uncertainty surrounding the outcome of the presidential election and concern over both the U.S. trade deficit and budget deficit. The conclusion of the presidential election and a respite in climbing oil prices led to slight gains in the bond market in the last weeks of the period.

The Fed's actions, combined with its stated intention to increase rates well into 2005, led to largely rising yields at the very short end of the market. Yields on intermediate and longer-maturity securities trended lower, however, and ended the period slightly lower.

Against this mixed backdrop, performance varied over the major segments of the fixed-income market. Yield spreads on corporate securities narrowed and medium- and lower-quality issues generated better relative performance than higher-quality issues.

### PERFORMANCE ANALYSIS

Closed-end fund returns can be calculated upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, minus all liabilities, by the total number of common shares outstanding, whereas market price reflects the supply and demand for shares. As a result, the two returns may differ significantly, as they did during the reporting period. The fund showed a 5.82 percent gain on an NAV basis and a 7.63 percent gain on a market-price basis. The fund's returns at NAV and market-price basis outperformed its benchmark, the Lehman Brothers BBB Corporate Bond Index. (See table below.)

One of our key strategies in managing the fund was to emphasize medium-quality issues. These positions benefited from the market's general preference for the attractive yields of medium- and lower-quality issues during the period, and supported the fund's outperformance of its benchmark. The fund also benefited from key exposures in the gaming & lodging, energy and utilities sectors, all of which gained on improved earnings and reduced debt ratios. The fund's portfolio was also overweight relative to the Lehman Brothers BBB Corporate Bond Index in its exposure to the insurance industry, which outperformed.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

The fund's interest rate exposure was somewhat disappointing during the period. While our analysis was correct in indicating that interest rates were likely to move upward in 2004, that upward movement was largely limited to shorter-maturity securities. As a result, the fund's strategy of keeping its duration (a measure of interest rate sensitivity) below that of its benchmark served to limit its exposure to the ongoing gains of longer-maturity securities.

There is no guarantee that any securities will continue to perform well or be held by the fund in the future.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Each Van Kampen fund provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the fund's second and fourth fiscal quarters by filing the schedule electronically with the Securities and Exchange Commission (SEC). The semiannual reports are filed on Form N-CSRS and the annual reports are filed on Form N-CSR. Van Kampen also delivers the semiannual and annual reports to fund shareholders, and makes these reports available on its public web site, [www.vankampen.com](http://www.vankampen.com). In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public web site, each fund files a complete schedule of portfolio holdings with the SEC for the fund's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address ([publicinfo@sec.gov](mailto:publicinfo@sec.gov)) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, each Van Kampen fund makes portfolio holdings information available by periodically providing the information on its public web site, [www.vankampen.com](http://www.vankampen.com). Each Van Kampen fund provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 30 days after the close of the calendar quarter. Van Kampen closed-end funds do not presently provide partial lists of their portfolio holdings on a monthly basis, but may do so in the future.

You may obtain copies of a fund's fiscal quarter filings, or its monthly or calendar-quarter web site postings, by contacting Van Kampen Client Relations at 1-800-847-2424.

### PROXY VOTING POLICIES AND PROCEDURES AND PROXY VOTING RECORD

\* Non-Annualized

(a) As required, effective July 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the year ended June 30, 2002 was to decrease net investment income per share by \$.04, increase net realized and unrealized gains and losses per share by \$.04 and decrease the ratio of net investment income to average net assets by .24%. Per share, ratios and supplemental data for periods prior to June 30, 2002 have not been restated to reflect this change in presentation.

(b) Total return based on common share market price assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Fund's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(c) On January 3, 1995, the Fund paid off its outstanding convertible extendible note.

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2004 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sales price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with its custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At December 31, 2004, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2004, the Fund had an accumulated capital loss carryforward for tax purposes of \$6,354,808, which will expire on June 30, 2011.

At December 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$210,502,079
	=====
Gross tax unrealized appreciation.....	\$ 11,252,878
Gross tax unrealized depreciation.....	(568,466)
	-----
Net tax unrealized appreciation on investments.....	\$ 10,684,412
	=====

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during the year ended June 30, 2004 was as follows:

	2004
Distributions paid from:	
Ordinary income.....	\$12,568,477
Long-term capital gain.....	-0-
	-----
	\$12,568,477
	=====

As of June 30, 2004, the component of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$104,707
------------------------------------	-----------

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions.

F. EXPENSE REDUCTIONS During the six months ended December 31, 2004, the Fund's custody fee was reduced by \$775 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$500 million.....	.42%
Over \$500 million.....	.35%

Effective November 1, 2004, the management fee was reduced from .50% for the first \$150 million, .45% for the next \$100 million, .40% for the next \$100

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

million, and .35% for any average daily net assets greater than \$350 million.

For the six months ended December 31, 2004, the Fund recognized expenses of approximately \$5,000 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Fund is a partner of such firm and he and his law firm provide legal services as legal counsel to the Fund.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates cost of such services to each fund. For the six months ended December 31, 2004, the Fund recognized expenses of approximately \$7,400 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are also officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

### 3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$35,352,354 and \$43,528,749, respectively.

### 4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

22

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2004 (UNAUDITED) continued

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the six months ended December 31, 2004, were as follows:

	CONTRACTS
Outstanding at June 30, 2004.....	325
Futures Opened.....	807
Futures Closed.....	(822)
	----
Outstanding at December 31, 2004.....	310
	====

The futures contracts outstanding as of December 31, 2004 and the descriptions and unrealized appreciation/depreciation are as follows:

	CONTRACTS	UNREALIZED APPRECIATION/ DEPRECIATION
<b>LONG CONTRACTS:</b>		
2-Year U.S. Treasury Note Future, March 2005 (Current Notional Value of \$209,594 per contract).....	13	\$ 5,042
<b>SHORT CONTRACTS:</b>		
U.S. Treasury Bond Future, March 2005 (Current Notional Value of \$112,500 per contract).....	18	(8,413)
5-Year U.S. Treasury Note Future, March 2005 (Current Notional Value of \$109,531 per contract).....	207	34,056
10-Year U.S. Treasury Note Future, March 2005 (Current Notional Value of \$111,938 per contract).....	72	(15,954)
	---	-----
	310	\$ 14,731
	===	=====

### 5. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.
