ITEM 4.01 CHANGES IN REGISTRANT'S CERTIFYING ACCOUNTANT

On May 12, 2005, Compass Minerals International, Inc. (the "Company") dismissed PricewaterhouseCoopers LLP ("PwC") as its independent registered

## Edgar Filing: COMPASS MINERALS INTERNATIONAL INC - Form 8-K

public accounting firm. The decision to dismiss PwC was approved by the Company's Audit Committee of the Board of Directors.

The reports of PwC on the Company's financial statements for the years ended December 31, 2003 and December 31, 2004 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principle.

During the years ended December 31, 2003 and 2004, and through May 12, 2005, there have been no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of PwC, would have caused them to make reference thereto in their reports on the financial statements for such years.

During the years ended December 31, 2003 and 2004, and through May 12, 2005, there have been no reportable events (as defined in Regulation S-K Item 304(a)(1)(v) and referred to herein as "Reportable Events"), except as follows. In accordance with Section 404 of the Sarbanes-Oxley Act, the Company completed its assessment of the effectiveness of its internal control over financial reporting and concluded that the Company's internal control over financial reporting was not effective as of December 31, 2004 due to material weaknesses in its internal control over the valuation and completeness of its income taxes payable, deferred income tax assets and liabilities (including the associated valuation allowance) and the income tax provision because it did not have accounting personnel with sufficient knowledge of generally accepted accounting principles related to income tax accounting and reporting. PwC issued an adverse opinion on the effectiveness of internal control over financial reporting as of December 31, 2004. More details on the material weaknesses in internal control over financial reporting and management's plans to remediate these weaknesses are discussed in Item 9A of the Company's 2004 Form 10-K.

In connection with the 2003 Form 10-K/A as filed on November 12, 2004, the Company noted material weaknesses in its internal control over financial reporting due to weaknesses in its internal control over the valuation and completeness of its income taxes payable, deferred income tax assets and liabilities (including the associated valuation allowance) and the income tax provision because it did not have accounting personnel with sufficient knowledge of generally accepted accounting principles related to income tax accounting and reporting. These items are further discussed in Item 9A of the Company's 2003 Form 10-K/A and 2004 Form 10-K, referenced above.

The Company requested that PwC furnish it with a letter addressed to the Securities and Exchange Commission stating whether or not it agrees with the above statements. A copy of such letter, dated May 18, 2005, is filed as Exhibit 16.1 to this Form 8-K.

The Company engaged Ernst & Young LLP ("E&Y") as its new independent registered public accounting firm on May 12, 2005. The retention of E&Y was approved by the Audit Committee of the Board of Directors. During the years ended December 31, 2003 and 2004, and through May 12, 2005, the Company did not consult with E&Y regarding (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, or (ii) any Reportable Event, except that in connection with the 2003 Form 10-K/A described above as it related to the three-year period ended December 31, 2001 for which E&Y had previously provided audit opinions, the Company consulted with E&Y on the income tax matters that resulted in the restatement, as discussed in the aforementioned 2003 Form 10-K/A.
