EXPLANATORY NOTE

In response to comments raised by the staff of the U.S. Securities and Exchange Commission, Stericycle, Inc. is filing this Form 10-K/A (Amendment No. 1) (i) to supplement the disclosures in our Form 10-K for year ended December 31, 2005 that we originally filed on March 6, 2006 (the original Form 10-K) relating to the settlement of class action litigation by the minority shareholders of our then majority-owned (and now wholly-owned) subsidiary, 3CI Complete Compliance Corporation, and (ii) to reclassify as an operating expense a \$1.823 million licensing legal settlement that we recorded in other income in our original Form 10-K. We do not consider this latter reclassification to be material.

This Form 10-K/A relates to Item 3, Legal Proceedings, Item 6, Selected Consolidated Data, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation, and Item 8, Consolidated Financial Statements and Supplemental Data, of our original Form 10-K. In accordance with Rule 12b-15 under the Securities and Exchange Act of 1934, the complete text of each of these four items as amended is set forth in this amendment.

The changes to these four items by this Form 10-K/A are as follows:

In Item 3, under the caption, 3CI Litigation, the first and second paragraphs have been revised and a new third and sixth paragraphs have been added.

In Item 6, under the caption, Statements of Income Data, our income from operations for 2005 has been reduced to reflect the reclassification of the licensing legal settlement.

In Item 7, in the section, Year Ended December 31, 2005 Compared to Year Ended December 31, 2004, the discussion under the captions Selling General and Administrative Expenses, Income from Operations, and Legal Settlements has been revised to reflect the reclassification of the licensing legal settlement.

In Item 8, on our consolidated statements of income, the line item, Licensing legal settlement, has been reclassified from Other income (expense) to Costs and expenses, and the amounts for 2005 for Total costs and expenses, Income from operations, and Total other expense have been adjusted accordingly.

In Item 8, in Note 15 to our consolidated financial statements, under the caption, 3CI Litigation, the first and second paragraphs have been revised and a new third, fourth and seventh paragraphs have been added.

In Item 8, in Note 17 to our consolidated financial statements, the line item, Licensing legal settlement, has been reclassified as an operating expense, and the amount for Income from operations for the fourth quarter of 2005 has been adjusted accordingly.

In Item 8, in Note 18 to our consolidated financial statements, the third paragraph has been revised.

This Form 10-K/A does not reflect events occurring after the filing of the original Form 10-K or update any disclosures in the original Form 10-K. Information not affected by this amendment is unchanged and reflects the disclosures made at the time of filing our original Form 10-K on March 6, 2006. Accordingly, this Form 10-K/A should be read in conjunction with our original Form 10-K and with our filings with the U.S. Securities and Exchange Commission subsequent to the filing of our original Form 10-K.

PART I

Item 3. *Legal Proceedings*

We operate in a highly regulated industry and must deal with regulatory inquiries or investigations from time to time that may be instituted for a variety of reasons. We are also involved in a variety of civil litigation from time to time.

3CI Litigation. In November 2005, we entered into a preliminary settlement to resolve class action litigation by the minority shareholders of our majority-owned subsidiary, 3CI Complete Compliance Corporation (3CI), in which 3CI joined with the class as a plaintiff. This litigation is pending in state court in Louisiana (Robb, et al. v. Stericycle, Inc., et al., First Judicial District Court, Caddo Parish, Louisiana (No. 467704-A)). Although we did not believe that any of the plaintiffs' claims had merit, we settled this litigation because of the uncertainties of trying a complicated corporate law case before a jury in what we viewed as a hostile state court which had ruled in October 2005, at a hearing on the plaintiffs' motion to compel discovery and for sanctions, that we would not be allowed to present evidence at trial on the issue of our liability.

Under the terms of the preliminary settlement, we agreed to pay \$32.5 million in cash to a trust fund to be established by a claims administrator approved by the court for the purpose of (i) settling all claims in the Louisiana litigation and in related litigation in state court in Texas (3CI Complete Compliance Corporation v. Waste Systems, Inc., et al., 269th Judicial District, Harris County, Texas (No. 2003-46899)) (together, the 3CI litigation), (ii) canceling or otherwise acquiring all of the shares of 3CI common stock held by members of the plaintiff class and (iii) paying court-approved administrative expenses and legal fees. In accordance with the terms of the preliminary settlement, we made the required \$32.5 million deposit with the claims administrator following the court's preliminary approval of the settlement in December 2005.

On motions by counsel for the plaintiff class, the court has preliminarily allocated the \$32.5 settlement proceeds principally to (i) payment of fees of \$10.8 million to counsel for the plaintiff class and reimbursement of expenses not expected to exceed \$0.5 million and (ii) the distribution to class members of settlement proceeds expected to total approximately \$20.0 million. Of the distribution to class members, a purchase consideration component, expected to be \$0.60 per share, will be distributed to class members who still own their shares of 3CI stock when the preliminary settlement receives final approval, and a damages consideration component will be distributed to class members in proportion to the time that they held shares of 3CI stock during the class period (September 30, 1998 through February 10, 2005). The damages consideration to be distributed to class members who held their shares of 3CI stock for the entire class period is expected to be at least \$6.00 per share.

The preliminary settlement remains subject to the court's final approval. A hearing on final approval was held on February 21, 2006. The court has not yet rendered its decision.

The parties to the preliminary settlement intend that, through the settlement, we will acquire sufficient shares of 3CI common stock so that, with the shares that we and one of our subsidiaries already own, we will own 90% or more of 3CI's outstanding common stock. This level of ownership would enable us to acquire the balance of the outstanding 3CI common stock through a short-form merger under Delaware law. If we do acquire 90% or more of 3CI's common stock as contemplated, we intend to conduct such a short-form merger as soon as practicable as we determine.

The 3CI litigation alleged that we, a wholly-owned subsidiary of ours and the four directors of 3CI who are or were serving as our designees (and who are or were also officers or directors of ours) breached our fiduciary duties,

oppressed the minority stockholders and unjustly enriched Stericycle at the expense of 3CI and its other shareholders. The plaintiffs alleged that we wrongfully diverted 3CI's cash and assets, manipulated and increased 3CI's debt to our subsidiary, wrongfully increased our direct and indirect ownership of 3CI, forced 3CI to declare significant cash dividends on its preferred stock payable to our subsidiary, usurped 3CI's corporate opportunities, misappropriated 3CI's customers, unfairly competed with 3CI, and operated 3CI with the goal of maximizing our profitability and furthering a plan to integrate its operations

with ours. The plaintiffs sought, among other relief, actual and punitive damages and an order requiring the buyout of 3CI's minority shareholders.

Private Antitrust Litigation. In January 2003, we were sued in federal court in Arizona by a private plaintiff claiming anticompetitive conduct in Arizona, Colorado and Utah from November 1997 to the present and seeking certification of the lawsuit as a class action on behalf of all customers of ours in the three-state area during this period. Over the next several months, four similar suits were filed in federal court in Utah, Arizona, Colorado and New Mexico. These five lawsuits have been consolidated for multidistrict proceedings in federal court in Utah, and the plaintiffs have filed a consolidated class action complaint, superseding their prior, separate complaints, alleging various anticompetitive conduct, including monopolization of the market for medical waste services. In December 2004 the plaintiffs filed a motion for class certification, and in October 2005 the court heard arguments on the plaintiffs' motion. The court has not yet issued a ruling. Discovery in these proceedings is at an early stage.

In December 2003, a sixth suit was filed in federal court in Utah alleging monopolistic and other anticompetitive conduct in California from 1999 through the present and seeking certification of the lawsuit as a class action on behalf of all California customers of ours during this period. In December 2004 the plaintiffs filed a motion for class certification, and in October 2005 the court heard arguments on the plaintiffs' motion. The court has not yet issued a ruling. Discovery in this lawsuit, which is coordinated with discovery in the multidistrict proceedings, is at an early stage.

In February 2003, we were sued in federal court in Utah by a third-party hauler of medical waste alleging various anticompetitive conduct, including an alleged denial of access to one of our incinerators. Discovery in this lawsuit, which is consolidated with discovery in the multidistrict proceedings, is at an early stage.

We do not believe that any of these lawsuits has merit and are vigorously defending them.

Other Litigation. In Australia, we are in arbitration with SteriCorp Limited over the ETD equipment that we sold to them. Discovery is pending in these proceedings. We currently expect that the arbitration hearing will be held during the second quarter of 2006.

During 2005, we were in arbitration regarding various disputes under an exclusive marketing and distribution license agreement with a licensor of software. The licensor claimed, among other things, that our license had ceased to be exclusive because of our failure to pay minimum royalties under the license agreement, and we claimed, among other things, that the licensor's actions entitled us to rescind the license agreement and to be repaid the \$1.8 million license fee we had paid. On March 1, 2006, the arbitrator awarded the licensor \$0.4 million in damages for breach of the license agreement and denied all of the parties' other claims, including our claim for rescission, and the license agreement was effectively terminated. As a result of the arbitrator's decision we wrote-off the remaining \$1.4 million unamortized portion of our license intangible asset.

(1) See Note 4 to the Consolidated Financial Statements for information concerning our acquisitions during the three years ended December 31, 2005.

(2) See Note 10 to the Consolidated Financial Statements for information concerning the computation of net income per common share. In 2005, net income includes costs related to the 3CI preliminary settlement of class action litigation of \$23.4 million net of tax, South Africa note receivable write-down of \$1.5 million net of tax, fixed asset impairments of \$0.5 million net of tax, acquisition-related costs of \$0.5 million net of tax, settlement of licensing litigation of \$1.1 million net of tax, and items related to debt restructuring of \$0.3 million net of tax which negatively impacted EPS by \$0.60 per share. Of the total of \$27.3 million of such items, \$3.4 million were non-cash items. In 2004, net income includes acquisition-related costs of \$0.5 million net of tax, fixed asset write-offs of \$0.7 million net of tax, and items related to debt restructuring and redemption of senior

subordinated debt of \$2.8 million net of tax that negatively impacted EPS by \$0.09 per share. Of the total of \$4.0 million of such items, \$1.4 million were non-cash items. In 2003, net income includes acquisition-related costs of \$0.4 million net of tax and items related to debt restructuring and subordinated debt repurchase of \$2.0 million net of tax, which negatively impacted EPS by \$0.04 per share. Of the total of \$2.4 million of such items, \$0.5 million were non-cash items. In 2002, net income includes acquisition-related costs of \$0.2 million net of tax, fixed asset write-offs of \$1.8 million net of tax and items related to debt restructuring and subordinated debt repurchases of \$1.4 million net of tax, which negatively impacted EPS by \$0.08 per share. Of the total of \$3.4 million of such items, \$2.0 million were non-cash items. In 2001, net income includes acquisition-related costs of \$0.2 million

net of tax, fixed asset write offs of \$2.0 million net of tax and items related to debt restructuring and subordinated debt repurchases, of \$7.3 million net of tax, which negatively impacted EPS by \$0.12 per share. Of the total of \$9.5 million of such items, \$5.5 million were non-cash items.

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operation*

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes in Item 8 of this Report.

Introduction

We are the largest provider of regulated medical waste services in North America. In addition we offer OSHA compliance services to health care providers and other monitoring services. During 2004, we acquired White Rose Environmental Ltd., which is a leading provider of regulated medical waste services in the United Kingdom.

We derive our revenues from services to two principal types of customers: (i) outpatient clinics, medical and dental offices, biomedical companies, pharmacies municipal entities, long-term and sub-acute care facilities and other smaller-quantity generators of regulated medical waste (small account customers) and (ii) hospitals, blood banks, pharmaceutical manufacturers and other larger-quantity generators of regulated medical waste (large account customers).

Substantially all of our services are provided pursuant to customer contracts specifying either scheduled or on-call services, or both. Contracts with small account customers generally provide for annual price increases and have an automatic renewal provision unless the customer notifies us to the contrary prior to the expiration of the current term of the contract. Contracts with hospitals and other large account customers, which may run for more than one year, typically include price escalator provisions, which allow for price increases generally tied to an inflation index or set at a fixed percentage.

We also serve pharmacies, distributors and manufacturers of pharmaceutical products by managing the return and disposal of expired or surplus pharmaceutical products and by managing the recall of pharmaceutical products being recalled by the manufacturer. In 2005, we completed four acquisitions of companies that provide these services.

As of December 31, 2005, we served approximately 333,000 customers, of which approximately 325,000 were small account customers and approximately 7,700 were large account customers.

Critical Accounting Policies and Procedures

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires that we make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities. We believe that of our significant accounting policies (see Note 2 to our consolidated financial statements), the following ones may involve a higher degree of judgment on our part and greater complexity of reporting.

Revenue Recognition. We recognize revenue for our medical waste services at the time of medical waste collection. Revenue and costs on contracts to supply our proprietary ETD treatment equipment are recognized based on shipment of equipment and services provided for in the individual contract. We routinely review total estimated costs and shipments to complete each contract and revise the revenues and estimated gross margin on the contract as necessary. Payments received in advance are deferred and recognized as services are provided. Royalty revenues are calculated

based on measurements specified in each contract or license and revenues are recognized at the end of each reporting period when the activity being measured has been completed. Revenues from product sales are recognized at the time the goods are shipped to the ordering customer. Software licensing revenues are recognized on a prorated basis over the term of the license agreement. Revenues from pharmaceutical services are recorded at the time services are performed. We do not

have any contracts in a loss position. Losses would be recorded when known and estimable for any contracts that should go into a loss position. Payments received in advance are deferred and recognized as services are provided.

Goodwill and Other Identifiable Intangible Assets. Goodwill associated with the excess purchase price over the fair value of assets acquired is not amortized. We have determined that our permits have indefinite lives and, accordingly are not amortized. This position is in accordance with Statements of Financial Accounting Standards (FAS) No. 142, which became effective for fiscal years beginning after December 15, 2001.

Our balance sheet at December 31, 2005 contains goodwill, net of accumulated amortization, of \$685.2 million. In accordance with FAS 142, we evaluate on at least an annual basis, using the fair value of reporting units, whether goodwill is impaired. If we were to determine that a significant impairment has occurred, we would be required to incur non-cash write-offs of the impaired portion of goodwill that could have a material adverse effect on our results of operations in the period in which the write-off occurs. We use the market value of our stock as the current measurement of total fair value of our reporting units and any unforeseen material drop in our stock price maybe an indicator of a potential impairment of goodwill. The results of the 2005 impairment test conducted in June 2005 did not show any impairment of goodwill, and there have not occurred any events since that time that indicate that an impairment situation exists.

Our permits are currently tested for impairment annually at December 31 or more frequently if circumstances indicate that they may be impaired. We use a discounted cash flow model as the current measurement of the fair value of the permits. The estimate of cash flow is based upon, among other things, certain assumptions about expected future operating performance and an appropriate discount rate determined by management. Our estimates of discounted cash flow may differ from actual cash flow due to, among other things; inaccuracies in economic estimates and actual cash flow could materially affect the future financial value of the permits. The results of the 2005 impairment test did not show any impairment of our permits and no events have occurred since that time that would indicate an impairment situation exists.

Other identifiable intangible assets, such as customer lists, tradenames and covenants not-to-compete, are currently amortized using the straight-line method over their estimated useful lives. We have determined that our medical waste business customer lists have 40-year lives and our pharmaceutical services business customer lists have 20-year lives. These assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may be less than the undiscounted cash flows. There have been no indicators of impairment of these intangibles (see Note 8 to our consolidated financial statements).

During 2005 we were in arbitration proceedings regarding various disputes under an exclusive marketing and distribution license agreement with a licensor of software. On March 1, 2006, subsequent to year-end, the arbitrator awarded damages to the licensor and the license agreement was effectively terminated. Although this event occurred after the end of the year, we are required to write-off the unamortized portion of the license fee that we had previously paid. The effect is a reduction in the carrying amount of this intangible by \$1.8 million and a reduction in the accumulated amortization of \$0.4 million.

Income Taxes. Deferred income tax liabilities and assets are determined based on the differences between the financial statement and income tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Accounts Receivable. Accounts receivable consist primarily of amounts due to us from our normal business activities. Accounts receivable balances are determined to be delinquent when the amount is past due based on the contractual terms with the customer. We maintain an allowance for doubtful accounts to reflect the expected uncollectibility of accounts receivable based on past collection history and specific risks identified among uncollected accounts.

Accounts receivable are charged to the allowance for doubtful accounts when we have determined that the receivable will not be collected and/or when the account has been referred to a third party collection agency. No single customer accounts for more than 2% of our revenues.

Insurance. Our insurance for worker's compensation, vehicle liability and physical damage, and employee-related health care benefits is obtained using high deductible insurance policies. A third-party administrator is used to process all such claims. We require all workers' compensation, vehicle liability and physical damage claims to be reported within 24 hours. As a result, we accrue our worker's compensation, vehicle and physical damage liability based upon the claim reserves established by the third-party administrator at the end of each reporting period. Our employee health insurance benefit liability is based on our historical claims experience rate. Our earnings would be impacted to the extent that actual claims vary from historical experience. We review our accruals associated with the exposure to these liabilities for adequacy at the end of each reporting period.

Litigation. We operate in a highly regulated industry and deal with regulatory inquiries or investigations from time to time that may be instituted for a variety of reasons. We are also involved in a variety of civil litigation from time to time. Settlements from litigation would be recorded when known, probable and estimable.

Stock Option Plans. We have issued stock options to employees and directors as an integral part of our compensation programs. Accounting principles generally accepted in the United States allow alternative methods of accounting for these plans. We have chosen to account for our stock option plans under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). As required by FAS 148, Accounting for Stock-Based Compensation-Transition and Disclosure, calculations of pro forma net income and earnings per share, computed in accordance with the method prescribed by FAS No. 123, Accounting for Stock-Based Compensation, are set forth in Note 11 to our consolidated financial statements.

We will adopt the provisions of FAS 123 (revised 2004), Share-Based Payments, (FAS 123R) on January 1, 2006. Among other things, FAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first interim or annual period after January 1, 2006. See Note 2-New Accounting Pronouncements in Item 8, Financial Statements and Supplemental Data for further information.

Revenues. Our revenues increased \$93.2 million, or 18.1%, to \$609.5 million in 2005 from \$516.2 million in 2004. Revenues generated from the sale of ETD equipment and licensing of technology internationally were \$1.0 million during 2005, compared to \$8.2 million during 2004. This decrease is a result of the delivery of a large portion of an order of ETD equipment to a customer in Japan in 2004. During 2005, acquisitions less than one year old contributed approximately \$63.6 million to the increase in our revenues from 2004. For the year, internal growth for small account customers increased approximately 9% while revenues from large quantity customers increased by approximately 5%.

During 2005, the size of the regulated medical waste market in the United States remained relatively stable. Through our acquisition of White Rose Environmental Ltd. in June 2004 and subsequent United Kingdom acquisitions in 2005, we were able to expand our geographic presence outside of North America.

Cost of Revenues. Our cost of revenues increased \$53.4 million or 18.5%, to \$341.4 million during 2005, from \$288.0 million during 2004. The increase was primarily related to the increase in revenues during 2005 compared to 2004. Our gross margin percentage decreased to 44.0% during 2005 from 44.2% during 2004 as we experienced higher energy related costs. Domestic energy costs increased in 2005, which were partially offset by higher revenues

related to fuel surcharges. Employee benefit costs as a percentage of compensation costs decreased by 2.0% in 2005. This was a result of the changes to our employee healthcare programs including changes to our providers and program formats.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$98.8 million during 2005, from \$81.4 million during 2004. This increase was primarily the result of increased spending on marketing our Steri-Safesm program and *Bio Systems* sharps management program and the expansion into the pharmaceutical services programs. Bad debt expense increased during 2005 to \$2.7 million from \$0.8 million in 2004 due to higher sales and increased write-offs in 2005. In addition, as noted in the cost of revenues discussion above, employee benefit costs as a percentage of compensation costs decreased in 2005. Amortization decreased to \$1.6 million during 2005, from \$2.4 million during 2004 as a

result of intangibles becoming fully amortized at the end of 2004. Selling, general and administrative expenses as a percentage of revenue increased to 16.2% during 2005 compared to 15.8% in 2004.

Income from Operations. Income from operations increased to \$166.5 million during 2005 from \$145.7 million during 2004. The increase was due to higher revenues partially offset by higher costs of revenues and selling, general and administrative expenses. During the year ended December 31, 2005 3CI Complete Compliance Corporation, of which we own a majority of the common stock, recorded a non-cash impairment charge of \$0.9 million on its Springhill, Louisiana building and property. In December 2005, we recorded a cash charge of \$0.4 million for damages and a non-cash charge of \$1.4 million, representing the write-off of the unamortized portion of a license fee that we previously paid, as a result of an arbitrator's award in March 2006 and the license agreement being effectively terminated. During the year ended December 31, 2004 we recorded a non-cash write-down of idled Stericycle incinerator equipment at our Baltimore, Maryland and Terrell, Texas facility of \$1.2 million. Income from operations as a percentage of revenue decreased to 27.6% during 2005 from 28.2% during 2004 as a result of the factors described above.

Interest Expense and Interest Income. Interest expense increased to \$13.0 million during 2005, from \$11.2 million during 2004, primarily due to higher debt levels during the year. Interest income was \$0.8 million during 2005 and \$0.6 million during 2004.

Write-down of note receivable. During 2005 we wrote-down a \$2.5 million note receivable that we had recorded from the sale of interest in our former South African joint venture when we had determined that the amount was uncollectible.

Legal Settlement. During November 2005 we incurred \$36.5 million in expenses related to the preliminary settlement of the 3CI class action litigation and related legal expenses.

Debt Extinguishments and Refinancing Expenses. During 2005 we incurred \$0.5 million in refinancing expense for non-cash accelerated amortization of financing fees related to amendments to our bank credit facility agreements. During 2004 we repurchased the remaining \$50.9 million of our senior subordinated notes. As a result, in 2004 we incurred \$3.1 million in redemption premium expenses and \$1.1 million in non-cash accelerated amortization of financing fees associated with the repurchase of the notes.

Income Tax Expense. Income tax expense for the years 2005 and 2004 reflects an effective tax rate of approximately 40.0% and 39.2%, respectively, for federal and state income taxes. Excluding the effect of the legal settlement expense, the effective tax rate for 2005 was 39%.

Year Ended December 31, 2004 Compared to Year Ended December 31, 2003

The following summarizes (in thousands) our operations:

	Year Ended December 31,

Revenues. Our revenues increased \$63.0 million, or 13.9%, to \$516.2 million in 2004 from \$453.2 million in 2003. Revenues generated from the sale of ETD equipment and licensing of technology internationally were \$8.2 million during 2004, compared to \$2.8 million during 2003. This increase is a result of the delivery of a large portion of an order of ETD equipment to a customer in Japan in 2004. During 2004, acquisitions less than one year old contributed approximately \$47.6 million to the increase in our revenues from 2003. For the year, internal growth for small account customers increased approximately 9% while revenues from large quantity customers decreased by approximately 4% because of our program of improving lower-margin accounts. This margin improvement program identifies large quantity customers with margins below internally acceptable thresholds and we make adjustments to pricing or service in an effort to improve the margin. These adjustments may result in our not renewing the customer contract and therefore may result in a reduction of revenues.

During 2004, the size of the regulated medical waste market in the United States remained relatively stable. Through our acquisition in June of White Rose Environmental Ltd., we were able to expand our geographic presence outside of North America.

Cost of Revenues. Our cost of revenues increased \$31.4 million or 12.2%, to \$288.0 million during 2004, from \$256.6 million during 2003. The increase was primarily related to the increase in revenues during 2004 compared to 2003. Our gross margin percentage increased to 44.2% during 2004 from 43.4% during 2003 as we realized improvements from our continuous programs to improve margins on our large quantity business, increased our number of small quantity customers electing our Steri-Safesm program from 70,000 to 87,000 and improved our

transportation productivity by increasing route density. During the year fuel prices as a percent of revenue increased by 20%. Employee benefit costs as a percentage of compensation costs decreased by 3.3% in 2004. This was a result of the changes implemented in late 2003 to our employee healthcare programs including changes to our third-party administrators and providers. The lower gross margins of White Rose, which started consolidating into our financials in June 2004, reduced the gross margin percentage for the consolidated business by 134 basis points in 2004.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$81.4 million during 2004, from \$70.2 million during 2003. This increase was primarily the result of increased spending as a result on marketing our Steri-Safesm program and the national rollout of the *Bio*

Systems sharps management program and the acquisition of White Rose in June 2004. Amortization increased to \$2.4 million during 2004, from \$1.9 million during 2003. Acquisition related costs increased to \$0.8 million in 2004 from \$0.7 million in 2003. Bad debt expense decreased during 2004 to \$0.8 million from \$2.0 million in 2003. This decrease was the result of improved collections and decreased write-offs during 2004. Legal expenses increased to \$5.4 million in 2004 from \$3.4 million in 2003 as a result of litigation expense of which, \$1.5 million was incurred by our majority-owned subsidiary 3CI under the direction of the special committee of its board of directors. In addition, as noted in the cost of revenues discussion above, employee benefit costs as a percentage of compensation costs decreased in 2004. Selling, general and administrative expenses as a percentage of revenue increased to 15.8% during 2004 compared to 15.5% in 2003.

Income from Operations. Income from operations increased to \$145.7 million during 2004 from \$126.4 million during 2003. The increase was due to higher revenues, offset by higher costs of revenues and selling, general and administrative expenses. During the year ended December 31, 2004 we had a non-cash write down of idled incinerator equipment and related spare parts in the amount of \$1.2 million. Income from operations as a percentage of revenue increased to 28.2% during 2004 from 27.9% during 2003 as a result of the factors described above.

Interest Expense and Interest Income. Interest expense decreased to \$11.2 million during 2004, from \$12.8 million during 2003, primarily due to lower debt levels and lower interest rates during the year. Interest income was \$0.6 million during 2004 and 2003.

Debt Extinguishments and Refinancing Expenses. During 2004 we repurchased the remaining \$50.9 million of our senior subordinated notes compared to a repurchase of \$17.8 million of notes in 2003. As a result, in 2004 we incurred \$3.1 million in redemption premium expenses and \$1.1 million in non-cash accelerated amortization of financing fees associated with the repurchase of the notes compared to \$2.8 million and \$0.5 million, respectively, in 2003. In addition, we amended our bank credit facility agreement in 2004 and paid \$0.3 million in financing fees.

Income Tax Expense. Income tax expense for the years 2004 and 2003 reflects an effective tax rate of approximately 39.2% and 39.5%, respectively, for federal and state income taxes.

Liquidity and Capital Resources

In June 2005, we obtained a new \$400.0 million senior unsecured revolving credit facility maturing in June 2010 in place of our existing senior secured credit facility. The new credit facility reduced the interest rates that we are charged by reducing the applicable margin that is added to the relevant interest rate. The new credit facility also allowed us to borrow in pre-approved currencies other than United States dollars. Our borrowings bear interest at fluctuating interest rates determined, at our election in advance for any quarterly or other applicable interest period, by reference to (i) a base rate (the higher of the prime rate at Bank of America, N.A. or 0.5% above the rate on overnight federal funds transactions) or (ii) the London Interbank Offered Rate, or LIBOR, plus, in either case, the applicable margin within the relevant range of margins provided in our credit agreement. The applicable margin is based upon our consolidated leverage ratio. As of December 31, 2005, the margin for interest rates on borrowings under our new credit facility was 0.0% on base rate loans and 0.75% on LIBOR loans.

In December 2005, we amended our \$400.0 million senior unsecured revolving credit facility. The facility was increased to \$550.0 million, with additional capacity available up to \$650.0 million upon request. We also increased the letter of credit sub-limit from \$125.0 million to \$150.0 million.

Our amended credit facility requires us to comply with various financial, reporting and other covenants and restrictions, including a restriction on dividend payments. At December 31, 2005, our material financial covenants were as follows:

The permitted maximum leverage ratio is 3.00:1.00. As of December 31, 2005, our actual leverage ratio was 1.80:1.00.

The permitted minimum interest coverage ratio is 3.00:1.00. As of December 31, 2005, our actual interest coverage ratio was 16.45:1.00.

As of December 31, 2005, we had \$291.7 million of borrowings outstanding under our senior unsecured credit facility, which includes foreign currency borrowings of \$5.2 million. In addition, we had \$65.9 million committed to outstanding letters of credit.

Working Capital. At December 31, 2005, our working capital was \$45.3 million compared to working capital of \$32.3 million at December 31, 2004. As noted, we have available a \$550.0 million revolving line of credit under our senior unsecured credit facility and at December 31, 2005 had borrowed \$291.7 million under this line and had an additional \$65.9 million committed in letters of credit.

Net Cash Provided or Used. Net cash provided by operating activities was \$94.3 million during the year ended December 31, 2005 compared to \$114.6 million for 2004. This decrease primarily reflects higher accounts receivable, accrued liability balances and lower net income. The decrease in net income was primarily the result of the \$23.4 million, net of tax, recorded for the preliminary settlement of the 3CI class action litigation. Net cash provided by operating activities in 2005 included a \$7.4 million tax benefit from disqualifying dispositions of stock options.

Net cash used in investing activities for 2005 was \$156.0 million compared to \$105.1 million for 2004. This increase is primarily attributable to the increase in payments for acquisitions. Cash investments in acquisitions and international joint ventures for 2005 were \$139.7 million compared to \$72.4 million in 2004. The increase was primarily the result of our acquisition of pharmaceutical return businesses. In addition, in 2005 we sold the Consumer Products Division of Universal Solutions, Inc., which we had acquired as part of the Universal Solutions, Inc. acquisition, and received \$10.3 million of net proceeds. Capital expenditures were \$26.3 million for 2005, for investments in capital equipment to support a nationwide rollout of the *Bio Systems* sharps management program and other improvements in our infrastructure, compared to \$33.3 million in 2004. As of December 31, 2005 we had less than 9% of our treatment capacity in North America in incineration and approximately 91% in non-incineration technologies such as our proprietary ETD technology and autoclaving. The implementation of our commitment to move away from incineration in North America may result in a write-down of the incineration equipment as and when we close incinerators that we are currently operating. Our commitment to move away from incineration in North America is in the nature of a goal to be accomplished over an undetermined number of years. Because of uncertainties relating, among other things, to customer education and acceptance and legal requirements to incinerate portions of the medical waste, we do not have a timetable for this transition or specific plans to close any of our existing incinerators.

Net cash provided by financing activities was \$59.5 million during 2005 compared to \$6.9 million net cash used in financing activities in 2004. During 2005 we borrowed money to fund acquisitions, stock repurchases and the 3CI legal settlement. In addition, we made debt repayments of \$198.9 million when we terminated our 2001 senior credit facility, \$60.7 million in common stock repurchases, \$12.8 million repayments on promissory notes and \$0.8 million for capital leases. In 2005, we also amended our \$400.0 million senior unsecured revolving credit facility. The facility was increased to \$550.0 million, in which we borrowed \$371.5 million and made debt repayments of \$79.8 million.

In addition, at December 31, 2005 we had \$68.0 million outstanding primarily related to promissory notes issued in connection with acquisitions made during 2002 through 2005.

Contractual Cash Commitments. The following table displays our future contractual cash commitments.

Payments Due by Period (In Thousands)	Total	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long term debt*	\$ 441,224	\$ 30,504	\$ 98,832	\$ 309,151	\$ 2,737
Capital lease obligations*	1,298	1,068	230		
Purchasing obligations	1,650	864	786		
Operating leases	97,742	24,747	47,364	15,550	10,081
Other long-term liabilities*	3,187	839	1,634	417	297
Total contractual cash obligations	\$ 545,101	\$ 58,022	\$ 148,846	\$ 325,118	\$ 13,115

* The long-term debt, capital lease and other long-term liabilities items include both the future principal payment amount as well as an amount calculated for expected future interest payments. For long-term debt with variable rates of interest, management used judgment to estimate the future rate of interest.

At December 31, 2005 we had \$65.9 million in stand-by letters of credit issued.

We anticipate that our operating cash flow, together with borrowings under our senior secured credit facility, will be sufficient to meet our anticipated future operating expenses, capital expenditures and debt service obligations as they become due during the next 12 months and the foreseeable future.

Guarantees. We have guaranteed a loan to the Azoroa Bank in Japan on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding their medical waste management business and has a five-year loan with a current balance of \$6.5 million with the Azoroa Bank that expires in June 2009. Management currently believes no amount will be paid under the guarantee.

Item 8. Consolidated Financial Statements and Supplemental Data

Management's Report on Internal Control Over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rules 13a-15(f) under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, a company's principal executive and principal financial officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the

Company are being made only in accordance with authorizations of management and directors of the Company; and

(iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2005. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*.

Based on this assessment and those criteria, management concludes that the Company maintained effective internal control over financial reporting as of December 31, 2005.

The Company's independent auditors have issued an attestation report on management's assessment of the Company's internal control over financial reporting. That report appears on page 30.

**Report of Independent Registered Public Accounting Firm
on Internal Control over Financial Reporting**

The Board of Directors and Shareholders of Stericycle, Inc.

We have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting, that Stericycle, Inc. maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Stericycle, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Stericycle, Inc. maintained effective internal control over financial reporting as of December 31, 2005 is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, Stericycle, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005 based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Stericycle, Inc. and Subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of income, cash flows and changes in shareholders' equity for each of the three years in the period ended December 31, 2005 and our report dated March 1, 2006 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Stericycle, Inc.

We have audited the accompanying consolidated balance sheets of Stericycle, Inc. and Subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of income, cash flows and changes in shareholders' equity for each of the three years in the period ended December 31, 2005. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Stericycle, Inc. and Subsidiaries at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Stericycle, Inc.'s internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2006 expressed an unqualified opinion thereon.

STERICYCLE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2005

Unless the context requires otherwise, we, us or our refers to Stericycle, Inc. and its subsidiaries on a consolidated basis.

Note 1 Description of Business

We were incorporated in 1989 and presently serve approximately 333,000 customers throughout the United States, Puerto Rico, Canada, Mexico and the United Kingdom. In North America we have a fully integrated, national medical waste management network. Our network includes 45 treatment/collection centers and 105 additional transfer and collection sites. We use this network to provide a broad range of services to our customers. Our medical waste treatment technologies include our proprietary electro-thermal-deactivation system, or ETD, as well as traditional methods such as autoclaving and incineration. In the United Kingdom we have a fully integrated waste management network, which includes 12 treatment/collection centers and two additional transfer/collection sites.

We also serve pharmacies, distributors and manufacturers of pharmaceutical products, from five processing centers within the United States, by managing the return and disposal of expired or surplus pharmaceutical products and by managing the recall of pharmaceutical products being recalled by the manufacturer.

Note 2 Summary of Significant Accounting Policies

Principles of Consolidation:

The consolidated financial statements include the accounts of Stericycle, Inc. and its wholly owned subsidiaries as well as our 64.5% ownership in Medam S.A. de C.V. (Medam) (a Mexican company) and 67.5% common stock ownership in 3CI Complete Compliance Corporation (3CI). All significant intercompany accounts and transactions have been eliminated. In addition, we have a 37.5% ownership in Medam B.A. Srl (an Argentine company), which is accounted for using the equity method. Minority interest expense related to our majority owned subsidiaries and our equity interest in the income or loss of unconsolidated subsidiaries are included in the other income (expense).

Revenue Recognition:

We recognize revenue for our medical waste services at the time of medical waste collection. Revenue and costs on contracts to supply our proprietary ETD treatment equipment are recognized based on shipment of equipment and services provided for in the individual contract. We routinely review total estimated costs and shipments to complete each contract and revise the revenues and estimated gross margin on the contract as necessary. Payments received in advance are deferred and recognized as services are provided. Royalty revenues are calculated based on measurements specified in each technology contract and revenues are recognized at the end of each reporting period when the activity being measured has been completed. Revenues from product sales are recognized at the time the goods are shipped to the ordering customer. Software licensing revenues are recognized on a prorata basis over the term of the license agreement. Revenues from pharmaceutical services are recorded at the time services are performed. We do not have any contracts in a loss position. Losses would be recorded when known and estimable for any contracts that should go into a loss position. Payments received in advance are deferred and recognized as services are provided.

Cash Equivalents and Short-Term Investments:

We consider all highly liquid investments with a maturity of less than three months when purchased to be cash equivalents. Short-term investments consist of certificates of deposit, which mature in less than one year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005

Property, Plant and Equipment:

Property, plant and equipment are stated at cost. Depreciation and amortization, which include the depreciation of assets recorded under capital leases, are computed using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and Improvement	3 to 30 years
Machinery and Equipment	3 to 20 years
Containers	2 to 20 years
Transportation Equipment	4 to 10 years
Office Equipment and Furniture	3 to 10 years
Software	3 to 7 years

During the year ended December 31, 2005, 3CI of which we own a majority of the common stock, recorded a non-cash impairment charge of \$0.9 million on its Springhill, Louisiana building and property. During the year ended December 31, 2004 we recorded a non-cash write-down of idled Stericycle incinerator equipment at our Baltimore, Maryland and Terrell, Texas facility of \$1.2 million.

During 2004 we evaluated the estimated useful life of our reusable Bio Systems containers by performing durability studies. Based on these studies we determined that the useful life of the containers was actually longer than our current life used to calculate depreciation. During 2004 we adjusted the total useful lives from 3 years to 17 years for containers that had been purchased during 2003 and 2004. In addition we adjusted the useful lives on the containers originally acquired with the Scherer Healthcare acquisition in January 2003 to a total of 10 years from the date of the original purchase. The impact of the change in the estimated useful life was immaterial to our results in 2004.

Goodwill and Intangibles:

Goodwill and other indefinite lived intangibles are not amortized but are subject to an annual impairment test. According to Statements of Financial Accounting Standards (FAS) No. 142, other intangible assets will continue to be amortized over their useful lives. We have determined that our customer relationships have useful lives from 20 to 40 years based upon the type of customer. We have non-compete intangibles with useful lives from one to five years. We have tradename intangibles with useful lives from 20 to 40 years. We have a software technology intangible with a useful life of five years. We have determined that our permits have indefinite lives and thus they are not amortized.

Income Taxes:

Deferred income tax liabilities and assets are determined based on the differences between the financial statement and income tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Accounts Receivable:

Accounts receivable consist primarily of amounts due to us from our normal business activities. Accounts receivable balances are determined to be past due when the amount is overdue based on the contractual terms with the customer. We maintain an allowance for doubtful accounts to reflect the expected uncollectibility of accounts receivable based on past collection history and specific risks identified among uncollected accounts. Accounts receivable are written off against the allowance for doubtful accounts when we have determined that the receivable will not be collected and/or when the account has been referred to a third party collection agency.

STERICYCLE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005

Financial Instruments:

Our financial instruments consist of cash and cash equivalents, short-term investments, derivatives, accounts receivable and payable and long-term debt. The fair values of these financial instruments were not materially different from their carrying values. Financial instruments, which potentially subject us to concentrations of credit risk, consist principally of accounts receivable. Credit risk on trade receivables is minimized as a result of the large size of our customer base. No single customer represents greater than 2% of total accounts receivable. We perform ongoing credit evaluation of our customers and maintain allowances for potential credit losses. For any contracts in loss positions, losses are recorded when known and estimable. These losses, when incurred, have been within the range of our expectations.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Some areas where we make estimates include allowance for doubtful accounts, credit memo reserve, accrued employee health and welfare benefits, income tax liabilities and accrued auto and workers compensation insurance claims. Such estimates are based on historical trends and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from our estimates.

Derivative Instruments:

We have three forward contracts for the purchase of Sterling (GBP) as hedging instruments for an intercompany loan from the parent company to our subsidiary in the United Kingdom, Stericycle International Ltd, which are described more fully in Note 7. The subsidiary borrowed the funds for the purchase of White Rose. The forward contracts align with the anticipated repayment schedule of the loan and the last contract expires in July 2009. On October 1, 2005, we prospectively designated our existing foreign currency forward contracts as cash flow hedges to receive hedge accounting treatment.

Stock-Based Compensation:

At December 31, 2005, we have stock-based compensation plans, which are described more fully in Note 11. We have elected to follow Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25) and related interpretations in accounting for employee stock options using the intrinsic value method because the alternative fair value accounting method provided for under Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (FAS 123), requires use of option valuation models that were not developed for use in valuing employee stock options. Under APB 25, because the exercise price of our employee stock options equals the market price of the underlying stock on the measurement date (date of grant), no compensation expense is recognized.

Foreign Currency Translation:

Assets and liabilities of foreign affiliates that use the local currency as their functional currency are translated at current exchange rates, and income statement accounts are translated at the average rates during the period. Related translation adjustments are reported as a component of comprehensive income (loss) directly in equity.

Environmental Matters:

We record a liability for environmental remediation or damages when a cleanup program becomes probable and the costs or damages can be reasonably estimated. We do not have environmental liabilities recorded at December 31, 2005 nor are we aware of any issues at our facilities that could initiate the need for environmental remediation.

Reclassifications:

Certain amounts in the 2003 and 2004 financial statements have been reclassified to conform to the 2005 presentation.

New Accounting Standards:

In December 2004, the Financial Accounting Standards Board (FASB) issued FAS 123R, which replaces FAS 123 and supersedes APB 25. FAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first interim or annual period after January 1, 2006. The pro forma disclosures previously permitted under FAS 123 no longer will be an alternative to financial statement recognition. We will begin expensing stock options in the first quarter of 2006 and will use the modified prospective transition method. The modified prospective method requires that compensation expense be recorded for both new awards and awards previously granted but not fully vested as of the adoption date. We anticipate that we will continue to use the Black-Scholes option-pricing model to determine the fair value of options granted to employees. We expect the adoption of FAS 123R will have a material impact on our consolidated statements

STERICYCLE, INC. AND SUBSIDIARIES

of income and earnings per share. We have no reason to believe that the amounts reported as a result of the adoption will be materially different from our currently disclosed pro forma amounts.

Note 3 Income Taxes

Significant components of our income tax expense for the years ended December 31, are as follows (in thousands):

At December 31, 2005, net operating loss carry forwards for U.S. federal income tax purposes have been fully utilized, excluding net operating loss carry forwards related to 3CI. We have a foreign tax credit of approximately \$0.5 million, which will begin to expire beginning in 2010. Undistributed earnings of foreign subsidiaries are considered to be permanently invested, and therefore, no U.S. deferred taxes are recorded thereon. The cumulative amounts of such earnings are \$22.3 million at December 31, 2005, and it was not practicable to estimate the U.S. and withholding tax thereon assuming repatriation. 3CI, our majority owned subsidiary, has net operating loss carry forwards for federal and state purposes of \$10.0 million beginning to expire in 2006. Stericycle has net operating loss carry forwards for state purposes of \$4.4 million, which expire through 2018.

Note 4 Acquisitions and Divestiture

During the year ended December 31, 2005 we completed the acquisition of nine domestic medical waste businesses and four pharmaceutical returns (reverse distribution) businesses, our Mexican subsidiary completed the acquisition of seven medical waste businesses and our United Kingdom subsidiary completed the acquisition of two medical waste businesses. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005

During the quarter ended March 31, 2003 we completed the acquisition of two medical waste businesses, consisting of all of the common and preferred stock of Scherer Healthcare, Inc. which operated in 10 northeastern and Mid-Atlantic states and selected assets of Kuglen Services, Ltd., LLP, which operated in Texas.

During the quarter ended June 30, 2003 we completed the acquisition of selected assets of Environmental Management Group, Inc., which operated a medical waste business in Ohio and Kentucky. Our majority owned subsidiary, 3CI, acquired selected assets of PMT USA, Inc., dba Air & Sea Environmental, which operated a medical waste business in southeast Texas.

During the quarter ended September 30, 2003 we completed the acquisition of selected assets of NAWA Medical Disposal, L.L.C., which operated a medical waste business in western Texas. In addition, we acquired substantially all of the assets of Pharmacy Software Solutions, Inc. (PSSI), a pharmaceutical returns software company based in Illinois. Our wholly owned Canadian subsidiary completed the acquisition of selected assets of Enviro-Med Canada, Inc., which operated a medical waste business in northern Ontario.

The aggregate net purchase price of these acquisitions during 2003 was approximately \$37.4 million, of which approximately \$37.2 million was paid in cash; \$0.2 million was paid by the issuance of unregistered shares of our common stock.

For financial reporting purposes these acquisition transactions were accounted for using the purchase method of accounting. The total purchase price for 2005, 2004 and 2003 of \$189.4 million, \$90.6 million and \$37.4 million, respectively, net of cash acquired, was allocated to the assets acquired and liabilities assumed based on the estimated fair market value at the date of acquisition. The total purchase price for acquisitions completed in 2004 and 2003 includes the value of 8,323 and 1,906 shares respectively, of our common stock issued to the sellers. In certain cases, the purchase price is or was subject to downwards adjustment if revenues from customer contracts acquired failed to reach certain specified levels. The excess of the purchase price over the fair market value of the net assets acquired is reflected in the accompanying consolidated balance sheets as goodwill. Goodwill was recorded in the amounts of \$170.0 million and \$49.6 million during the years of 2005 and 2004, respectively. The results of operations of these acquired businesses have been included in the consolidated statements of income from the date of the acquisition.

Senior Credit Facility

In June 2005, we obtained a new \$400.0 million senior unsecured revolving credit facility maturing in June 2010, containing a letter of credit sub limit of \$125.0 million, in place of our existing senior secured credit facility.

The new revolving credit facility, provided under a credit agreement with various financial institutions, reduced the interest rates that we are charged by reducing the applicable margin that is added to the relevant

interest rate. The new facility also allows us to borrow in pre-approved currencies other than United States dollars. Our borrowings bear interest at fluctuating interest rates determined, at our election in advance for any quarterly or other applicable interest period, by reference to (i) a base rate (the higher of the prime rate at Bank of America, N.A. or 0.5% above the rate on overnight federal funds transactions) or (ii) the London Interbank Offered Rate, or LIBOR, plus, in either case, the applicable margin within the relevant range of margins provided in our credit agreement. The applicable margin is based upon our consolidated leverage ratio. As of December 31, 2005, the margin for interest rates on borrowings under our revolving new credit facility was zero on base rate loans and 0.75% on LIBOR loans.

Our credit agreement requires us to comply with various financial, reporting and other covenants and restrictions, including restrictions on dividend payments. At December 31, 2005, we were in compliance with these covenants and restrictions.

In December 2005, we increased our revolving credit facility from \$400.0 million to \$550.0 million and also increased the letter of credit sub limit from \$125.0 million to \$150.0 million.

As of December 31, 2005, we had \$291.7 million of borrowings outstanding under our senior unsecured credit facility, which includes foreign currency borrowings of \$5.2 million. In addition, we had \$65.9 million committed to outstanding letters of credit. The weighted average rate of interest on the unsecured revolving credit facility was 4.99% per annum.

As of December 31, 2004, our senior secured credit facility consisted of a \$205.0 million revolving credit facility and a Term A loan in the principal amount of \$62.4 million.

As of December 31, 2004, we had \$171.4 million of borrowings outstanding under our senior secured credit facility, of which \$109.0 million consisted of borrowings under the revolving credit component and \$62.4 million under the Term A component. In addition at December 31, 2004 we had \$30.9 million of standby letters of credit issued under our revolving credit component. As of December 31, 2004, the margin for interest rates on borrowings under our revolving credit facility and the Term A component was zero on base rate loans and 1.25% on LIBOR loans. The average rate of interest on the revolving credit facility was 3.64% per annum and the average rate of interest on the Term A loan was 3.66% per annum. This secured credit facility was replaced in June 2005 with the unsecured credit facility discussed above.

Senior Subordinated Notes

On November 15, 2004 we redeemed the remaining \$50.9 million of our senior subordinated notes in accordance with the terms of the governing specified in the trust indenture. The redemption price was 106.1875% of the principal face amount plus accrued interest as of the redemption date. The interest rate for the senior subordinated notes was 123/8% per annum. These notes had a maturity date of November 15, 2009.

Notes Payable

At December 31, 2005 we had promissory notes, primarily issued as a result of acquisitions totaling \$68.0 million. The weighted average interest rate on these notes is 5.30%. The fixed rate to floating rate ratio is 78.4% to 21.6%. The weighted average maturity is approximately 4.2 years.

At December 31, 2004 we had \$17.5 million outstanding related to promissory notes issued in connection with acquisitions during 2002 and 2004, consisting primarily of a three-year note issued as part of the White Rose Environmental Ltd. acquisition, which had an outstanding balance of \$10.9 million at December 31, 2004.

Note 7 Derivative Instruments

In July 2004, we entered into four forward contracts to hedge a GBP Sterling-based intercompany loan between our US-based subsidiary, Stericycle International L.L.C. and our subsidiary in the United Kingdom, Stericycle International Ltd. The subsidiary borrowed the funds for the purchase of White Rose. The forward contracts align with the anticipated repayment schedule of the loan and the last contract expires in July 2009. Initially, we did not elect hedge accounting on the forward contracts and have been recognizing the change in value of the hedges through other income (expense). This amount has been generally offset by the currency adjustment to the intercompany receivable. During 2004 the cost of the forward contract was immaterial to our net income.

On October 1, 2005, we prospectively designated these existing forward contracts as cash flow hedges and are using hedge accounting. We expect the income related to this hedge accounting election will be \$0.1 million, recognized over the remaining life of the contracts through interest income. During 2005 and 2004 the cost of the forward contracts recognized was immaterial to our net income. As of December 31, 2005, the total notional amount of hedges outstanding is GBP 13.0 million. At December 31, 2005 the hedges were determined to be 100% effective.

Note 8 Goodwill and Other Intangible Assets

In June 2001, the FASB issued FAS No. 141, Business Combinations, and FAS No. 142, Goodwill and Other Intangible Assets. Under FAS 142, goodwill and other indefinite lived intangibles are no longer amortized and are subject to an annual impairment test, or to more frequent testing if circumstances indicate that they may be impaired. In 2005 and 2004 we performed our annual impairment evaluations and determined that there was no impairment. At December 31, 2005 and 2004, we had \$18.5 million and \$17.4 million, respectively, of indefinite lived intangibles that consist of environmental permits for which we performed an annual impairment test, and determined there was no impairment.

We have two geographical reporting segments, United States and Foreign Countries, both of which have goodwill. The changes in the carrying amount of goodwill for the years ended December 31, 2005 and 2004 was as follows (in thousands):

Balance as of December 31, 2005	\$ 621,496	\$ 63,673	\$ 685,169

According to FAS 142, other intangible assets will continue to be amortized over their useful lives.

During the year ended December 31, 2005 we recorded at fair value the intangibles acquired in connection with our acquisitions of Sanford Motors, Iowa Medical Waste Reduction Center, Automated Health Technologies, L.L. Horizons, Bio-Med Tech, Envirotech, Bio Clean, Medical Systems, Med Trac, and the acquisitions completed by our United Kingdom and Mexican subsidiaries. We assigned \$13.3 million to customer relationships with amortization periods of 20 to 40 years, \$1.7 million to facility environmental permits with indefinite lives and \$0.4 million to non-compete agreements with amortization periods of one to five years.

During 2005 we were in arbitration proceedings regarding various disputes under an exclusive marketing and license agreement with a licensor of software. On March 1, 2006, subsequent to year-end, the arbitrator awarded in favor of the licensor. Although this event occurred after the end of the year, we are required to write-off the unamortized portion of the license fee that we had previously paid because the license agreement was effectively terminated. The effect is a reduction in the carrying amount of this intangible by \$1.8 million and a reduction in the accumulated amortization of \$0.4 million.

During the year ended December 31, 2004 we recorded at fair value the intangibles acquired in connection with our acquisitions of PSSI, American Waste Industries, Inc. Texas Environmental Services, Inc., White Rose Environmental Ltd., and Sterimed S.A.de C.V. We assigned \$11.7 million to customer relationships with amortization periods of 20 to 40 years, \$2.2 million to tradenames with an amortization period of 20 to 40 years, \$6.4 million to facility environmental permits with indefinite lives, \$0.5 million to a software license with an amortization period of 5 years and \$0.2 million to non-compete agreements with amortization periods of one to five years.

Note 11 Preferred Stock, Stock Options and Warrants

Preferred Stock

At December 31, 2005 and 2004 we had 1,000,000 authorized shares of preferred stock and no shares issued or outstanding.

Stock Options

We have adopted five stock option plans: (i) the 2005 Incentive Stock Option Plan (the 2005 Plan), which our stockholders approved in April 2005; (ii) the 2000 Nonstatutory Stock Option Plan (the 2000 Plan), which our Board of Directors adopted in February 2000; (iii) the 1997 Stock Option Plan (the 1997 Plan), which our stockholders approved in April 1997; (iv) the Directors Stock Option Plan (the Directors Plan), which our shareholders approved in July 1996 (prior to our initial public offering in August 1996); and (v) the 1995 Incentive Compensation Plan (the 1995 Plan), which our stockholders approved in September 1995.

The 2005 Plan authorizes awards of stock options and stock appreciation rights for a total of 2,400,000 shares; as amended, the 2000 Plan authorizes stock option grants for a total of 3,500,000 shares; the

STERICYCLE, INC. AND SUBSIDIARIES

1997 and 1995 Plans each authorize stock option grants for a total of 3,000,000 shares; and as amended, the Directors Plan authorizes stock option grants for a total of 1,170,000 shares.

The 2005 Plan provides for the grant of nonstatutory stock options (NSOs) and incentive stock options intended to qualify under section 422 of the Internal Revenue Code (ISOs) as well as stock appreciation rights; the 2000 Plan provides for the grant of NSOs; the 1997 and 1995 Plans each provide for the grant of NSOs and ISOs; and the Directors Plan provides for the grant of NSOs.

The 2005 Plan authorizes awards to our officers, employees and consultants and, following the expiration of the Directors Plan in May 2006, to our directors; the 2000 Plan authorizes stock option grants to our employees and consultants but not to our officers and directors; the 1997 and 1995 Plans each authorize stock option grants to our officers, directors, employees and consultants; and the Directors Plan authorizes stock option grants to our outside directors.

The exercise price per share of an option granted under any of our stock option plans may not be less than the closing price of a share of our common stock on the date of grant. The maximum term of an option granted under any plan may not exceed 10 years. An option may be exercised only when it is vested and, in the case of an option granted to an employee (including an officer), only while he or she remains an employee and for a limited period following the termination of his or her employment.

Options granted to officers and employees generally vest over five years. During 2005, options granted to officers and employees generally vested at the rate of 20% of the option shares on each of the first five anniversaries of the option grant date. During 2004, options granted to officers and employees generally vested at the rate of 20% of the option shares on the first anniversary of the option grant date and then at the rate of 1/60 of the option shares for each of the next 48 months. In 2000, our Board of Directors approved the 2000 Nonstatutory Stock Option Plan (the 2000 Plan), which in total now provides for the granting of 3,500,000 shares of our common stock in the form of stock options to employees, (but not to officers or directors).

Shares of the Company s common stock have been reserved for issuance upon the exercise of outstanding options and warrants. These shares, which include both shares available for option grant and shares granted as options but not yet exercised, have been reserved as follows at December 31, 2005:

1995 Plan options	367,615
1996 Directors Plan options	602,112
1997 Plan options	952,182

We have elected to follow APB 25, *Accounting for Stock Issued to Employees* and related interpretations in accounting for its employee stock options because, as discussed below, the alternative fair value accounting provided for under FAS 123, *Accounting for Stock-Based Compensation*, requires use of option valuation models that were not developed for use in valuing employee stock options. Under APB 25, because the exercise price of our employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

Pro forma information regarding net income and net income per share is required by FAS 123 as if we had accounted for our employee stock options granted subsequent to December 31, 1994 under the fair value method of that statement. Options granted were valued using the Black-Scholes option-pricing model. In 2005, in anticipation of the adoption of FAS 123R on January 1, 2006, we reviewed the values of the variables used to determine the fair value of its stock options granted in 2003, 2004 and 2005. We determined that the values of the expected volatility, weighted average expected life of the option and risk-free interest rates variables should be modified slightly in order to provide a better estimate of the fair value of the employee stock options. The modifications resulted in an immaterial reduction in the pro forma stock option expense in 2005, 2004 and 2003. The following revised assumptions were used in 2005, 2004 and 2003: expected volatility of 0.32 in 2005, 0.42 in 2004 and 0.49 in 2003; risk-free interest rates of 4.05% in 2005, 3.43% in 2004, and

STERICYCLE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.97% in 2003; a dividend yield of 0%; and a weighted-average expected life of the option of 52 months in 2005, 56 months 2004 and 56 months in 2003. The revised weighted-average fair values of options granted during 2005, 2004 and 2003 were \$14.52 per share, \$15.57 per share, and \$13.73 per share, respectively.

Option value models require the input of highly subjective assumptions. Because our employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing method does not necessarily provide a reliable single measure of the fair value of its employee stock options.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the option-vesting period. Our pro forma information follows (in thousands, except for per share information):

Warrants:

In June 2000, in connection with our acquisition of an additional 15% interest in Medam, we issued warrants to purchase 88,748 shares of our common stock. Of these warrants, warrants for 62,256 shares were immediately exercisable, while the remaining 26,492 shares become exercisable over five years. The exercise price of the warrants is \$8.75 per share. In 2001, warrants to purchase 65,190 shares were exercised. In 2003, warrants to purchase 12,966 shares were exercised. In 2005, warrants to purchase 10,592 shares were exercised. At December 31, 2005 there were no warrants outstanding.

In September 2003, in connection with our acquisition of NAWA Medical Disposal L.L.C. we issued warrants to purchase 1,000 shares of our common stock. The warrants will become exercisable in September 2008. The exercise price of the warrants is \$47.25 per share. At December 31, 2005 all of the warrants were outstanding.

Note 12 Employee Benefit Plan

We have a 401(k) defined contribution retirement savings plan covering substantially all employees. Each participant may elect to defer a portion of his or her compensation subject to certain limitations. We may contribute up to 50% of the first 5% of compensation contributed to the plan by each employee up to a

maximum of \$1,500 per annum. Our contributions for the years ended December 31 2005, 2004 and 2003 were approximately \$1.3 million, \$1.3 million and \$1.1 million, respectively.

Note 13 Employee Stock Purchase Plan

In October 2000, our Board of Directors adopted the Stericycle, Inc. Employee Stock Purchase Plan (the ESPP) effective as of July 1, 2001. Our stockholders approved the ESPP in May 2001. The ESPP authorizes 300,000 shares of our common stock to be purchased by employees at a 15% discount from the market price of the stock through payroll deductions during two six-month offerings each year. An employee who elects to participate in an offering is granted an option on the first day of the offering for a number of shares equal to the employee's payroll deductions under the ESPP during the offering period (which may not exceed \$5,000) divided by the option price per share. The option price per share is the lower of 85% of the closing price of a share of our common stock on the first trading day of the offering period or 85% of the closing price on the last trading day of the offering period. Every employee who has completed one year's employment as of the first day of an offering and who is a full-time employee, or a part-time employee who customarily works at least 20 hours per week, is eligible to participate in the offering. During 2005, 2004 and 2003, 18,572 shares, 20,363 shares and 22,012 shares, respectively, were issued through the ESPP.

Note 14 Non-Consolidating Joint Ventures

We have an investment in a joint venture, Medam, B.A. Srl, an Argentine corporation, which was formed to utilize our ETD technology to treat medical waste primarily in the Buenos Aires market. Our investment in the joint venture was \$2.6 million and \$2.8 million at December 31, 2005 and 2004 respectively, which is included in other long-term assets.

In 2005, 2004 and 2003, we recorded \$0.3 million, \$0.2 million and \$1.7 million, respectively, of equity losses related to the above joint venture, which was recorded in the other income (expense).

During January 2004 we sold our minority interest investment in Evertrade Medical Waste (Pty) Ltd, a South African company and the associated current receivables and loans due from the joint venture to Reno Africa PTE Ltd for cash and an \$8.1 million note receivable. During the fourth quarter of 2005 the remaining unpaid loan balance was \$2.5 million. During December 2005 we determined that the issuer of the note would be unable to generate the remaining cash to pay off the note receivable and therefore we wrote-off the remaining \$2.5 million balance as uncollectible at December 31, 2005.

Note 15 Legal Proceedings

We operate in a highly regulated industry and must deal with regulatory inquiries or investigations from time to time that may be instituted for a variety of reasons. We are also involved in a variety of civil litigation from time to time.

3CI Litigation. In November 2005, we entered into a preliminary settlement to resolve class action litigation by the minority shareholders of our majority-owned subsidiary, 3CI Complete Compliance Corporation (3CI), in which 3CI joined with the class as a plaintiff. This litigation is pending in state court in Louisiana (Robb, et al. v. Stericycle, Inc., et al., First Judicial District Court, Caddo Parish, Louisiana (No. 467704-A)).

Under the terms of the preliminary settlement, we agreed to pay \$32.5 million in cash to a trust fund to be established by a claims administrator approved by the court for the purpose of (i) settling all claims in the Louisiana litigation and in related litigation in state court in Texas (3CI Complete Compliance Corporation v. Waste Systems, Inc., et al., 269th Judicial District, Harris County, Texas (No. 2003-46899)) (together, the 3CI litigation), (ii) canceling or otherwise acquiring all of the shares of 3CI common stock held by members of

STERICYCLE, INC. AND SUBSIDIARIES

the plaintiff class and (iii) paying court-approved administrative expenses and legal fees. In accordance with the terms of the preliminary settlement, we made the required \$32.5 million deposit with the claims administrator following the court's preliminary approval of the settlement in December 2005.

We recorded the settlement as a new line item, 3CI legal settlement, under Other income (expense) on our consolidated statements of income. The amount recorded represented the \$32.5 million settlement payment plus our legal fees and expenses of \$5.9 million, less \$1.9 million that we allocated to the shares of 3CI common stock to be transferred to us upon final approval of the settlement and recorded in goodwill. We accounted for the acquisition of these shares under purchase accounting. We determined that the fair value of these shares was \$1.9 million on the basis of our determination that approximately 3,161,000 shares would be transferred to us upon the court's final approval of the settlement and that the value of each share was \$0.60. A value of \$0.60 per share was consistent with the trading price of 3CI common stock during the months preceding the preliminary settlement in November 2005 and is the value that was used by the court as purchase consideration as described in the next paragraph.

On motions by counsel for the plaintiff class, the court has preliminarily allocated the \$32.5 settlement proceeds principally to (i) payment of fees of \$10.8 million to counsel for the plaintiff class and reimbursement of expenses not expected to exceed \$0.5 million and (ii) the distribution to class members of settlement proceeds expected to total approximately \$20.0 million. Of the distribution to class members, a purchase consideration component, expected to be \$0.60 per share, will be distributed to class members who still own their shares of 3CI stock when the preliminary settlement receives final approval, and a damages consideration component will be distributed to class members in proportion to the time that they held shares of 3CI stock during the class period (September 30, 1998 through February 10, 2005). The damages consideration to be distributed to class members who held their shares of 3CI stock for the entire class period is expected to be at least \$6.00 per share.

The preliminary settlement remains subject to the court's final approval. A hearing on final approval was held on February 21, 2006. The court has not yet rendered its decision.

The parties to the preliminary settlement intend that, through the settlement, we will acquire sufficient shares of 3CI common stock so that, with the shares that we and one of our subsidiaries already own, we will own 90% or more of 3CI's outstanding common stock. This level of ownership would enable us to acquire the balance of the outstanding 3CI common stock through a short-form merger under Delaware law. If we do acquire 90% or more of 3CI's common stock as contemplated, we intend to conduct such a short-form merger as soon as practicable as we determine.

The 3CI litigation alleged that we, a wholly-owned subsidiary of ours and the four directors of 3CI who are or were serving as our designees (and who are or were also officers or directors of ours) breached our fiduciary duties, oppressed the minority stockholders and unjustly enriched Stericycle at the expense of 3CI and its other shareholders. The plaintiffs alleged that we wrongfully diverted 3CI's cash and assets, manipulated and increased 3CI's debt to our subsidiary, wrongfully increased our direct and indirect ownership of 3CI, forced 3CI to declare significant cash dividends on its preferred stock payable to our subsidiary, usurped 3CI's corporate opportunities, misappropriated 3CI's customers, unfairly competed with 3CI, and operated 3CI with the goal of maximizing our profitability and furthering a plan to integrate its operations with ours. The plaintiffs sought, among other relief, actual and punitive damages and an order requiring the buyout of 3CI's minority shareholders.

Private Antitrust Litigation. In January 2003, we were sued in federal court in Arizona by a private plaintiff claiming anticompetitive conduct in Arizona, Colorado and Utah from November 1997 to the present and seeking certification of the lawsuit as a class action on behalf of all customers of ours and of Browning-Ferris Industries, Inc. in the three-state area during the period in question. Over the next three months, four

STERICYCLE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

similar suits were filed in federal court in Utah, Arizona, Colorado and New Mexico. In February and May 2003, two additional suits were filed, in federal court in Utah and Arizona, claiming substantially the same anticompetitive conduct but not seeking class action certification. In December 2003, an eighth suit was filed in federal court in Utah claiming monopolistic and other anticompetitive conduct in California during the prior four years and seeking certification of the suit as a class action on behalf of all California customers of ours during this four-year period. These eight suits were subsequently consolidated before the same judge in federal court in Utah. The first five suits were consolidated under one consolidated class action complaint; the next two suits were consolidated for discovery purposes; and the eighth suit was coordinated for discovery purposes. In June 2004 we settled, for an immaterial amount, the suit filed in May 2003, which, as noted, did not seek class action certification.

Proceedings in the remaining seven suits remain in the discovery stage. We do not believe that any of these suits has merit and are vigorously defending them.

Other Litigation. In Australia, we are in arbitration with SteriCorp Limited over the ETD equipment that we sold to them. Discovery is pending in these proceedings. We currently expect that the arbitration hearing will be held during the second quarter of 2006.

During 2005, we were in arbitration regarding various disputes under an exclusive marketing and distribution license agreement with a licensor of software. The licensor claimed, among other things, that our license had ceased to be exclusive because of our failure to pay minimum royalties under the license agreement and we claimed, among other things, that the licensor's actions entitled us to rescind the license agreement and to be repaid the \$1.8 million license fee that we had paid. On March 1, 2006, the arbitrator awarded the licensor \$0.4 million in damages for breach of the license agreement and denied all of the parties' other claims, including our claim for rescission, and the license agreement was effectively terminated. As a result of the arbitrator's decision we wrote-off the remaining \$1.4 million unamortized portion of our license intangible asset.

Note 16 Products and Services and Geographic Information

FAS 131, Disclosures about Segments of an Enterprise and Related Information, requires segment information to be reported based on information utilized by executive management to internally assess performance and make operating decisions. In determining our reportable operating segments, management determined that we have two reportable segments, United States and foreign operations, based on our consideration of the following criteria:

the same services are provided,

the same types of customers are serviced,

the same types of medical waste collection, transportation and treatment methods are utilized,

their regulatory environments are similar but vary based upon country specific regulations, and

they employ the same sales and marketing techniques and activities.

The fourth quarter of 2005 includes \$36.5 million (\$23.4 million after tax) in 3CI legal settlement expenses, \$1.8 million (\$1.1 million after tax) in licensing legal settlement, \$2.5 million (\$1.5 million after tax) in non-cash write-down of a note receivable with a former joint venture.

The third quarter of 2005 includes \$0.9 million (\$0.5 million after tax) in a non-cash write-down of impaired building and property.

The fourth quarter of 2004 includes \$3.1 million (\$1.9 million after tax) in redemption premium expense and \$1.1 million (\$0.7 million after tax) in non-cash accelerated amortization of financing fees. See Note 5-Long Term Debt *Senior Subordinated Notes*.

The second quarter of 2004 includes a \$1.2 million (\$0.7 million after tax) non-cash write-down of idled incinerator equipment and related spare parts.

Earnings per share are calculated on a quarterly basis, and, as such, the amounts may not total the calculated full-year earnings per share.

Note 18 Subsequent Event

On February 27, 2006 we completed the acquisition of Sterile Technologies Group Limited, a leading provider of medical waste management services in Ireland and the United Kingdom, for approximately \$131 million, of which \$114 million was paid in cash and \$17 million was paid by assumption of debt. Technologies Group Limited is headquartered in Dublin, Ireland and provides medical waste management services to customers in Ireland, Scotland, England and Wales.

During 2005 we were in arbitration proceedings regarding various disputes under an exclusive marketing and distribution license agreement with a licensor of software. See Note 15, Legal Proceedings - Other Litigation. On March 1, 2006, after we had announced our 2005 results on February 7, 2006, the arbitrator awarded the licensor \$0.4 million in damages for breach of the agreement and denied all of the parties' other claims, and the license agreement was effectively terminated. As a result of the arbitrator's award, we are required to record a pre-tax cash charge of \$0.4 million and a pretax non-cash charge of \$1.4 million, representing the write-off of the unamortized portion of the license fee that we had paid.

Although the arbitrator's award is a subsequent event that occurred after the end of the year, we were required to record these charges for the quarter and year ended December 31, 2005. As a result, our net income for the quarter and year ended December 31, 2005 are reduced by \$1.1 million, net of tax, from the net income for the quarter and year that we announced on February 7, 2006. We have included a new line item, licensing legal settlement, under Costs and expenses on the consolidated statements of income and have made related changes to the other consolidated financial statements, to which these notes are an integral part.
