\*\* Zero coupon swap. The Fund and/or counterparty will make a net payment on the expiration date. The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ), effective July 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FAS 157 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Fund's investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

---

**Table of Contents**

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of September 30, 2008 in valuing the Fund's investments carried at value:

<b>Valuation Inputs</b>	<b>Investments in Securities</b>	<b>Other Financial Instruments*</b>
Level 1 Quoted Prices	\$ 13,420	\$ 308,864
Level 2 Other Significant Observable Inputs	188,454,486	7,720,732
Level 3 Significant Unobservable Inputs	121,495	-0-
<b>Total</b>	<b>\$ 188,589,401</b>	<b>\$ 8,029,596</b>

\*Other financial instruments include futures, forwards and swap contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	<b>Investments in Securities</b>
<b>Balance as of 6/30/08</b>	<b>\$ -0-</b>
Accrued Discounts/Premiums	-0-
Realized Gain/Loss	3,528
Change in Unrealized Appreciation/Depreciation	(1,295,978)
Net Purchases/Sales	(35,393)
Net Transfers in and/or out of Level 3	1,449,338
<b>Balance as of 9/30/08</b>	<b>\$ 121,495</b>
Net Change in Unrealized Appreciation/Depreciation from Investments still held as of 9/30/08	(1,295,978)

**Security Valuation** Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their last sale price as of the close of such securities exchange. Listed and unlisted securities for which the last sale price is not available are valued at the mean of the last reported bid and asked prices. For those securities where quotations or prices are not readily available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Credit default and interest rate swaps are valued using market quotations from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.
