Proxy Statement**

Solicitation of Proxies

Our Board of Directors is soliciting the accompanying proxy in connection with matters to be considered at our 2006 Annual Meeting of Stockholders to be held at our offices at 700 Northwest 107th Avenue, Second Floor, Miami Florida 33172 on Thursday, March 30, 2006 at 11:00 a.m. Eastern time. The individuals named on the proxy will vote all shares represented by proxies in the manner designated or, if no designation is made, they will vote in accordance with the unanimous recommendation of our Board of Directors as follows:

- (1) FOR each of the two nominees for Director named in this proxy statement;
- (2) AGAINST each of the two stockholder proposals; and

- (3) In their best judgment with respect to other matters that properly come to a vote at the meeting.

The individuals acting as proxies will not vote shares that are the subject of a proxy card on a particular matter if the proxy card instructs them to abstain from voting on that matter or to the extent the proxy card is marked to show that some of the shares represented by the proxy card are not to be voted.

Record Date

Only stockholders of record at the close of business on February 6, 2006 will be entitled to notice of and to vote at this annual meeting or any adjournment of the meeting. **We are mailing this proxy statement and the accompanying proxy card on or about February 28, 2006 to all stockholders of record on February 6, 2006.**

Shares Outstanding and Voting Rights

On February 6, 2006 we had two classes of voting stock outstanding, Class A common stock and Class B common stock. At February 6, 2006, 126,066,959 shares of Class A common stock were outstanding and 32,828,646 shares of Class B common stock were outstanding. Each outstanding share of Class A common stock entitles the holder to one vote. Each outstanding share of Class B common stock entitles the holder to ten votes.

Table of Contents

Counting Votes

The inspector of election appointed for the meeting will count the votes cast by proxy or in person at the annual meeting. A majority in voting power, and not less than one-third in number of the shares entitled to vote, represented in person or by proxy, will constitute a quorum for the transaction of business at the annual meeting. Our 401(k) plan provides that the trustee of the 401(k) plan will vote the shares of our common stock that are not directly voted by the participants. Abstentions and broker shares that are voted as to any matter at the meeting will be included in determining if a quorum is present or represented at the annual meeting. Brokers who hold shares in street name for customers have the authority under the rules of the New York Stock Exchange to vote on certain matters when they have not received instructions from beneficial owners. Brokers that do not receive instructions are entitled to vote those shares with respect to the election of directors. Shares for which brokers have not received instructions, and therefore are not voted with respect to a certain proposal are referred to as broker non-votes. Abstentions from voting on a proposal described in this proxy statement and broker non-votes will not affect the outcome of the vote on that proposal.

Voting Requirements

Each Director will be elected by a plurality of the votes cast with regard to the election of Directors by the holders of shares of our Class A and Class B common stock, voting together as a single class. A majority of the votes cast by the holders of shares of our Class A and Class B common stock, voting together as a single class, is required to approve the stockholder proposal regarding declassifying the Board of Directors or the stockholder proposal regarding indexed stock options.

Board of Directors

Our Board of Directors is responsible for overseeing the management of our business. We keep Directors informed of our business at meetings and through reports and analyses presented to the Board of Directors and committees of the Board. Regular communications between the Directors and management also occur apart from meetings of the Board of Directors and committees of the Board.

Our Board of Directors currently consists of nine members divided into three classes, with members of each class serving for staggered three-year terms. In September 2005, Dr. Jeffrey Sonnenfeld was appointed as an independent Director and our Board of Directors increased to a total of ten members. In January 2006, Mr. Steve Saiontz, who had served as a Director since 1990, resigned his directorship to pursue other business interests, resulting in our current nine-member Board. Also in January 2006, Mr. Hervé Ripault informed the Board that he will not stand for reelection to his directorship, which will end at the 2006 Annual Meeting. In connection with Mr. Ripault's decision, our Board has determined to reduce the number of directors from nine to eight upon the expiration of Mr. Ripault's term.

- (2) to set compensation policies and review management decisions regarding compensation of our senior executives, other than our principal executive officer; and
- (3) to prepare the Compensation Committee Report that appears in our annual meeting proxy statement.

In addition, the Compensation Committee makes recommendations to the Board of Directors regarding incentive-compensation plans and equity-based plans that will apply to our senior management.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee consists of Dr. Shalala (Chairperson), Messrs. Bolotin, Ripault and Dr. Sonnenfeld. Mr. Ripault's service on the committee will end when his directorship expires at our 2006 Annual Meeting. Our Board of Directors has determined that all the members of the Nominating and Corporate Governance Committee are independent under the New York Stock Exchange Corporate Governance Standards. The Nominating and Corporate Governance Committee met two times during fiscal 2005.

Our Board of Directors has adopted a charter for the Nominating and Corporate Governance Committee. A copy of the Nominating and Corporate Governance Committee Charter is available on our website at www.lennar.com and is available in print to any stockholder who requests a copy from us. Under its charter, the principal functions of the Nominating and Corporate Governance Committee are:

- (1) to identify individuals qualified to serve on the Board;
- (2) to recommend the persons the Board should nominate for election at our annual meeting of stockholders;
- (3) to develop and recommend to our Board corporate governance guidelines applicable to us; and
- (4) to oversee the evaluation of the Board and management.

The Nominating and Corporate Governance Committee identifies and evaluates director nominees from many sources, including nominees recommended by stockholders in accordance with the procedures described below. The Nominating and Corporate Governance Committee reviews the personal characteristics and professional competencies of director candidates with the Board members to ensure that the nominees selected are those best suited, from a corporate governance standpoint, to join our Board and oversee our strategies and operations.

The Nominating and Corporate Governance Committee and the Board of Directors have determined that a Director should have the following characteristics, as set forth in our Corporate Governance Guidelines:

Ability to comprehend our strategic goals and to help guide us towards the accomplishment of those goals;

A history of conducting his/her own personal and professional affairs with the utmost integrity and observing the highest standards of values, character and ethics;

Table of Contents

Time availability for in-person participation and to be present at the annual meeting of stockholders;

Willingness to demand that our officers and employees insist upon honest and ethical conduct throughout the company;

Knowledge of, and experience with regard to at least some of the following: (a) real estate properties, loans and securities, including any lending and financing activities related thereto; (b) public company regulations imposed by the Securities and Exchange Commission and the New York Stock Exchange, amongst others; (c) portfolio and risk management; (d) the major geographic locations within which we operate; (e) sound business practices; and (f) accounting and financial reporting; and

If applicable, ability to satisfy the criteria for independence established by the Securities and Exchange Commission and the New York Stock Exchange, as they may be amended from time-to-time.

The Nominating and Corporate Governance Committee will consider candidates recommended by stockholders. If a stockholder wishes to recommend a nominee for director, the stockholder should mail a recommendation to us containing the following information:

The recommending stockholder's name and contact information;

The candidate's name and contact information;

A brief description of the candidate's background and qualifications;

The reasons why the recommending stockholder believes the candidate would be well suited for the Board;

A written statement by the candidate that the candidate is willing and able to serve on the Board;

A written statement by the recommending stockholder that the candidate meets the criteria established by the Board; and

A brief description of the recommending stockholder's ownership of our common stock and the period during which such shares have been held.

In making its determination whether to recommend that the Board of Directors nominate a candidate who has been recommended by a stockholder, the Nominating and Corporate Governance Committee will consider, among other things, the appropriateness of adding another Director to the Board and the candidate's background and qualifications. The Nominating and Corporate Governance Committee may conduct an independent investigation of the background and qualifications of a candidate recommended by a stockholder, and may request an interview with the candidate. The Nominating and Corporate Governance Committee will not determine whether to recommend that the Board nominate a candidate until the Nominating and Corporate Governance Committee completes what it believes to be a reasonable investigation, even if the recommendation is delayed until after it is too late for the candidate to be nominated for election at a particular meeting of stockholders. When the Nominating and Corporate Governance Committee determines not to recommend that the Board nominate a candidate recommended by a stockholder, or the Board determines to nominate or not to nominate a candidate, the Nominating and Corporate Governance Committee will notify the recommending stockholder and the candidate of the determination.

Executive Committee

Our By-Laws provide that the Board of Directors may establish an Executive Committee, which has all authority to act on behalf of the Board of Directors, except as that power is limited by the corporate laws of the State of Delaware, where our company is incorporated, and except as our Board of Directors otherwise provides. During fiscal 2005, our Executive Committee consisted of Messrs. Miller, Saiontz and Strudler. Following Mr. Saiontz's resignation from our Board in January 2006, Messrs. Miller and Strudler comprise the Executive Committee. The Executive

Committee took action by unanimous written consent 89 times during fiscal 2005.

Director Compensation

On March 29, 2005, our Board of Directors approved a revised compensation program for our non-employee Directors. Under this program, non-employee Directors are paid annual fees of \$50,000 per year, payable on a quarterly basis, 50% in cash and 50% in shares of our common stock. These shares will not be transferable (other than to the Director's estate) until three years after the last day of the quarter in which the shares are issued. In addition to the annual fees, each non-employee Director will receive \$3,000 for each board meeting and \$1,000 for each committee meeting, other than Audit Committee meetings, attended in person (but only one fee for all Board or committee meetings attended on a single day), and \$500 for each Board meeting and \$250 for each committee meeting attended by teleconference. Audit Committee members receive an additional \$3,000 and the Audit Committee Chairperson receives an additional \$5,000 for each Audit Committee meeting attended. Audit Committee fees are paid in addition to fees for other meetings attended on the same day. A Director may elect to defer payment of both the cash and stock portion of fees until he or she no longer serves as a Director of our company, and may elect to receive the deferred payments in cash or in shares of our Class A common stock.

In addition to the fees described above, each year, on the date of our annual meeting of stockholders, each non-employee Director receives options to purchase 2,500 shares of our Class A common stock at an exercise price equal to the fair market value of our Class A common stock on that date. These options become exercisable in full on the first anniversary of the grant date and expire on the third anniversary of the grant date.

Our Lead Director receives an additional \$15,000 per year for his services in that capacity.

Directors who are also our employees receive no additional remuneration for their service as a Director.

Compensation Committee Report on Executive Compensation

The following statement is furnished by the Compensation Committee of Lennar Corporation and is not incorporated by reference into any document that we file with the Securities and Exchange Commission.

The Compensation Committee of the Board of Directors (the Committee) presents this report to describe the compensation procedures it applied with regard to the compensation of the Company's executive officers for fiscal 2005, and the basis for the compensation of Stuart A. Miller, who served as the Company's President and Chief Executive Officer (CEO) during fiscal 2005.

The Committee reviews the compensation of the Company's employees whose combined salary and bonus equals or exceeds \$500,000. This review includes management's recommendations as to salary, bonus and long-term, stock-based compensation for the upcoming year. Salaries for the Company's employees are generally determined by considering the employee's performance and prevailing levels of compensation in areas in which a particular employee works. Bonuses for employees are generally based on bottom-line profitability, return on capital or net assets, customer satisfaction, overall company growth, corporate governance, adherence to policies and procedures and other factors that vary depending on an employee's responsibilities. The long-term compensation structure is intended to align the performance of the Company's employees with the Company's long-term performance for its stockholders.

The Committee reviews in greater depth the compensation of the CEO and the Company's four other most highly compensated executive officers. This review includes proposed salaries, bonuses and long-term, stock-based compensation. In November 2002, the Committee engaged an independent consulting firm, Hewitt Associates LLC, to conduct a study of the Company's program for compensating its senior executives, including the CEO. This study compared the Company's compensation levels both with that of other members of the homebuilding industry peer group, and with that of companies with revenues similar to the Company's. The study analyzed salaries, bonuses and long-term, stock-based compensation. In September 2003, Hewitt Associates conducted a further analysis of the CEO's compensation and in March 2005, Hewitt Associates conducted a further analysis of CEO bonus payments. The Committee considered the results of these studies as part of its determination as to what it believed would be a fair compensation program in view of the Company's earnings, returns and other corporate goals.

At a meeting in December 2004 and at subsequent meetings during fiscal 2005, the Compensation Committee reviewed Mr. Miller's compensation. The Committee discussed the contributions Mr. Miller has made as the Company's CEO, and his expected future contributions. The Committee decided that, as in past years, Mr. Miller's bonus should be based on a percentage of the Company's pre-tax earnings, with the percentage for 2005 depending on the Company's return on capital (from 0.5% if return on capital is below 17% to a high of 1% if return on capital equals or exceeds 22%). However, in order to reach the maximum percentage of pre-tax earnings, a specified customer satisfaction rating and earnings per share must be achieved. Because in fiscal 2005, the Company's return on capital exceeded 22% and the Company exceeded the customer satisfaction rating and earnings per share goals, the bonus percentage for fiscal 2005 was 1%, which is the maximum percentage that could have been achieved. This is the same percentage that was achieved in fiscal 2004. Because the Company's pre-tax earnings grew from \$1.5 billion in fiscal 2004 to \$2.2 billion in fiscal 2005, Mr. Miller's bonus eligibility increased from \$15.2 million in 2004 to \$21.8 million in 2005. Mr. Miller's bonus is paid half in stock and half in cash. Mr. Miller and some of the Company's other employees agreed with the Company to reduce their bonus payments in order to increase amounts available under the Company's bonus pool. The amount by which Mr. Miller agreed to reduce his bonus was \$250,000. Mr. Miller also received stock options and restricted stock that reward him on the basis of the Company's long-term performance and benefit to the Company's stockholders.

Compensatory Plans and Arrangements

Equity Plans

The Lennar Corporation 2003 Stock Option and Restricted Stock Plan provides for the granting of up to ten million shares of Class A or Class B common stock that may be issuable upon the exercise of stock options or stock appreciation rights, or that may be awarded as shares of restricted common stock, to key officers, employees and Directors. The exercise prices of stock options and stock appreciation rights may not be less than the market value of the common stock on the date of the grant. No options granted under the 2003 Plan may be exercised until at least six months after the date of the grant. Thereafter, options become exercisable in installments determined when options are granted. Each stock option and stock appreciation right will expire on a date determined at the time of the grant, but not more than ten years after the date of the grant. Restricted stock grants vest over four years from the date of issuance.

After we adopted the 2003 Stock Option and Restricted Stock Plan, we made all equity-based awards to key officers, employees and Directors under the 2003 Plan and ceased making grants under prior plans. However, we provide the following information regarding our prior plans because some awards issued under those plans remain outstanding.

The Lennar Corporation 2000 Stock Option and Restricted Stock Plan provided for the granting of Class A stock options and stock appreciation rights and awards of restricted common stock to key officers, employees and Directors. No options granted under the 2000 Plan may be exercised until at least six months after the date of the grant. Thereafter, options become exercisable in installments determined when options are granted. Each stock option and stock appreciation right expires on a date determined at the time of the grant, but not more than ten years after the date of the grant. Restricted stock grants vest over five years from the date of issuance.

The Lennar Corporation 1997 Stock Option Plan provided for the granting of Class A stock options and stock appreciation rights to key employees of the company to purchase shares at prices not less than the market value of the common stock on the date of the grant. No options granted under the 1997 Plan may be exercised until at least six months after the date of the grant. Thereafter, exercises are permitted in installments determined when options are granted. Each stock option and stock appreciation right granted will expire on a date determined at the time of the grant, but not more than ten years after the date of the grant.

The Lennar Corporation 1991 Stock Option Plan provided for the granting of Class A stock options to key employees of the company to purchase shares at prices not less than the market value of the common stock on the date of the grant. No options granted under the 1991 Plan may be exercised until at least six months after the date of the grant. Thereafter, exercises are permitted in installments determined when options are granted. Each stock option granted will expire on a date determined at the time of the grant, but not more than ten years after the date of the grant.

Deferred Compensation Plan

Under our Deferred Compensation Plan, a member of senior management can elect to defer cash compensation or return to us restricted shares before they vest and receive in exchange our agreement to (1) pay at a later date the amount of cash compensation deferred, plus a return on the cash compensation based on hypothetical investments selected by the person or (2) issue shares of Class A or Class B common stock equal to the number of shares of restricted stock that are returned.

Compensation Committee Interlocks And Insider Participation

During fiscal 2005, Messrs. Bolotin, Gerard and Landon served on our Compensation Committee. Mr. Bolotin, who was elected to the Compensation Committee in January 2002, was our Senior Vice President

from 1972 until his retirement in December 1998. During fiscal 2005, none of our executive officers served on the compensation committee of any other entity, any of whose directors or executive officers served either on our Board of Directors or on our Compensation Committee.

Performance Graph

The following graph compares the five-year cumulative total return of our Class A common stock with the Dow Jones U.S. Total Market Index and the Dow Jones U.S. Home Construction Index. The graph assumes \$100 invested on November 30, 2000 in our Class A common stock, the Dow Jones U.S. Total Market Index and the Dow Jones U.S. Home Construction Index, and the reinvestment of all dividends. Because of our dividend of Class B common stock in April 2003, our returns for the fiscal years ended November 30, 2005, 2004 and 2003 are based on the sale price of one share of our Class A common stock and one-tenth of the sale price of one share of our Class B common stock.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934 requires our Directors, officers and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership of such securities with the Securities and Exchange Commission. They are required to furnish us with copies of the reports they file pursuant to Section 16(a). Based on our review of the copies of reports we have received, we believe that our Directors, officers and greater than 10% beneficial owners made all required filings on a timely basis.

Related Party Transactions

Transactions with LNR Property Corporation

In 1997, we transferred our commercial real estate investment and management business to LNR Property Corporation, and spun-off LNR to our stockholders. As a result, LNR became a publicly-traded company, and the family of Stuart A. Miller, our President, Chief Executive Officer and a Director, which had voting control of us, became the controlling shareholder of LNR.

At the time of the spin-off, we entered into an agreement which, among other things, prevented us, in some circumstances, from engaging through December 2002 in any of the businesses in which LNR was engaged, or anticipated becoming engaged, at the time of the spin-off, and prohibited LNR from engaging, at least through December 2002, in any of the businesses in which we were engaged, or anticipated becoming engaged, at the time of the spin-off (except in limited instances in which our then activities or anticipated activities overlapped with LNR). This agreement was extended through November 30, 2005 and expired on that date.

Since the spin-off, we have entered into a number of joint ventures and other transactions with LNR. Many of the joint ventures were formed to acquire and develop land, part of which was subsequently sold to us or other homebuilders for residential building and part of which was subsequently sold to LNR for commercial development. Because LNR was controlled by Mr. Miller and his family, all significant transactions we or our subsidiaries engaged in with LNR or entities in which it had an interest were reviewed and approved by the Independent Directors Committee of our Board of Directors.

In January 2004, a company of which we and LNR each own 50% acquired The Newhall Land and Farming Company for approximately \$1 billion. In connection with the acquisition, we agreed to purchase 687 homesites, and received options to purchase an additional 623 homesites, from Newhall. On November 30, 2004, we and LNR each transferred our interests in most of our joint ventures to the jointly-owned company that had acquired Newhall, and that company was renamed LandSource Communities Development LLC.

In February 2005, LNR was acquired by a privately-owned entity. Although Mr. Miller's family acquired a 20.4% interest in that privately-owned entity, neither Mr. Miller nor anybody else in his family is an officer or director, or otherwise is involved in the management, of LNR or its parent. Nonetheless, because the Miller family has a 20.4% interest in LNR's parent, significant transactions with LNR or entities in which it has an interest are still reviewed and approved by the Independent Directors Committee of our Board of Directors.

During our fiscal year ended November 30, 2005, we paid \$66.6 million to purchase properties from entities we owned jointly with LNR, and we were paid management fees and general contractor fees totaling \$8.9 million by entities we owned jointly with LNR.

In August 2005, Mr. Miller entered into a Time-Sharing Agreement with U.S. Home Corporation, a wholly-owned subsidiary of our Company, relating to the use by Mr. Miller of a private aircraft, which is leased by U.S. Home. The agreement provides that U.S. Home may sub-lease the aircraft and its flight crew to Mr. Miller for non-business purposes. Under the agreement, Mr. Miller will pay to U.S. Home, out of a \$100,000 prepayment fund established in connection with this agreement, the aggregate incremental cost of each flight based on a list of expenses authorized by federal regulations. U.S. Home retains sole discretion to determine what flights may be scheduled by Mr. Miller, and the Company's prior planned use of the aircraft will take precedence over Mr. Miller's non-business use.

Report of the Audit Committee

The following statement is furnished by the Audit Committee of Lennar Corporation and is not incorporated by reference into any document that we file with the Securities and Exchange Commission.

Management has the primary responsibility for producing the Company's financial statements and for implementing the Company's financial reporting process, including the Company's system of internal control over financial reporting. The independent registered public accounting firm is responsible for performing an independent audit of the Company's financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and issuing a report thereon. The Audit Committee's responsibility is to assist the Board of Directors in its oversight of the Company's financial statements. In fulfilling its oversight responsibilities, the Audit Committee reviewed the Company's audited financial statements for the year ended November 30, 2005 with management, including a discussion of the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

During the course of fiscal 2005, management completed the documentation, testing and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act and related regulations. The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and Deloitte & Touche LLP at each Audit Committee meeting. At the conclusion of the process, the Audit Committee reviewed the report of management contained in the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2005, filed with the Securities and Exchange Commission, as well as Deloitte & Touche LLP's Reports of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audits of: (i) the consolidated financial statements, (ii) management's assessment of the effectiveness of internal control over financial reporting and (iii) the effectiveness of internal control over financial reporting. The Audit Committee continues to oversee the Company's efforts related to its internal control over financial reporting and management's preparations for the evaluation in fiscal 2006.

The Audit Committee has discussed with the Company's independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. The Audit Committee has received and reviewed the written disclosures and the letter from the independent registered public accounting firm required by the Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as amended, and has discussed with Deloitte & Touche LLP the firm's independence. The Audit Committee has also considered whether the providing of audit-related and other non-audit services by Deloitte & Touche LLP to the Company is compatible with maintaining the firm's independence.

The Audit Committee has evaluated the independent registered public accounting firm's role in performing an independent audit of the Company's financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and applicable professional and firm auditing standards, including quality control standards. The Audit Committee has received assurances from the independent registered public accounting firm that the audit was subject to its quality control system for its accounting and auditing practice in the United States. The independent registered public accounting firm has further assured the Audit Committee that its engagement was conducted in compliance with professional standards and that there was appropriate continuity of personnel working on the audit and availability of national office consultation to conduct the relevant portions of the audit.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors and the Company's management that the audited financial statements be included in the Annual Report on Form 10-K for the Company's fiscal year ended November 30, 2005 that was filed with the Securities and Exchange Commission. By recommending to the Board of Directors and the Company's management that the audited financial statements be so included, the Audit Committee is not opining on the accuracy, completeness or presentation of the information contained in the audited financial statements.

Table of Contents**Proposal 1: Election of Directors**

Our Board of Directors, upon recommendation of the Nominating and Corporate Governance Committee, has designated the persons named below as nominees for election as Directors, for a term of three years expiring at our 2009 Annual Meeting of Stockholders. Both nominees are currently serving as Directors of our company. Each Director is elected by a plurality of the votes cast with regard to the election of Directors. The persons named in the enclosed proxy will vote the proxies they receive for the election of the nominees named below, unless a particular proxy card withholds authorization to do so or provides contrary instructions. Each of the nominees has indicated that he is willing and able to serve as a Director. If, before the Annual Meeting, either nominee becomes unable to serve, an event that is not anticipated by the Board of Directors, the proxies will be voted for the election of such nominees as the Board of Directors may designate. Beginning on page 6 of this document, we provide biographical information about each nominee for Director under the heading *Biographical Information about Our Director Nominees and Other Current Directors*.

Proposal 2: Stockholder Proposal Regarding Declassifying the Board of Directors

This stockholder proposal is sponsored by the Board of Trustees of the International Brotherhood of Electrical Workers Pension Benefit Fund. Its address and the number of voting securities held will be provided to any stockholder upon oral or written request made to the General Counsel of Lennar Corporation. Lennar Corporation is not responsible for the content of this stockholder proposal or the statement in support of the proposal.

The Proposal

Resolved, that the stockholders of Lennar Corporation (the *Company*) urge that the Board of Directors take the necessary steps to declassify the Board of Directors for the purpose of establishing annual elections for directors. The Board of Directors declassification shall be done in a manner that does not affect the unexpired terms of directors previously elected.

Supporting Statement: In our opinion, the election of corporate directors is a primary avenue for stockholders to influence corporate affairs and ensure management is accountable to the *Company's* stockholders. However, under the classified voting system at the *Company*, individual directors face election only once every three years, and stockholders only vote on roughly one-third of the Board of Directors each year. In our opinion, such a system serves to insulate the Board of Directors and management from stockholder input and the consequences of poor financial performance.

By eliminating the classified Board of Directors, we believe stockholders can register their views annually on the performance of the Board of Directors and each individual director. We feel this will promote a culture of responsiveness and dynamism at the *Company*, qualities necessary to meet the challenge of increasing stockholder value.

Table of Contents

We submit that by introducing annual elections and eliminating the classified Board of Directors at the Company, management and the Board of Directors will be more accountable to stockholders. We believe that by aligning the interest of the Board of Directors and management with the interests of stockholders, our Company will be better equipped to enhance stockholder value. For the above reasons, we urge a vote FOR the resolution.

Board Recommendation

The Board of Directors unanimously recommends a vote **AGAINST** this stockholder proposal for the following reasons:

The Company's Articles of Incorporation and By-laws provide for a Board of Directors that is divided into three classes, with directors elected to staggered three-year terms. Staggered elections are designed to prevent a sudden change in the entire composition of the Board in any one year and thus, the Board believes, ensures continuity and stability in the management of the business and affairs of the Company, since a majority of the directors will have prior experience as directors and in-depth knowledge of the Company and its business and strategies. Further, the Board believes that continuity on the Board is integral to developing, refining and executing a long-term strategic plan.

The Board also believes continuity provides directors with a historical perspective of the Company that enhances their ability to make fundamental decisions that are best for the Company and its stockholders. Staggered terms give new directors an opportunity to gain knowledge about the Company's business from continuing directors. If all directors were elected annually, all of the directors could be replaced each year, which could result in directors who are unfamiliar with the Company and its business strategies. This could jeopardize the Company's long-term strategies and growth plans. Maintaining three-year terms for directors also assists the Company in attracting director candidates who are interested in long-term involvement with the Company.

The Board does not believe that the benefits of a classified board structure come at the cost of directors' accountability to stockholders. All directors are required to uphold their fiduciary duties to the Company and its stockholders, regardless of the length of their term of office.

The Board of Directors is committed to good governance practices and has implemented a variety of measures, including those described in our Corporate Governance Guidelines, which are available on the Company's website, to ensure a strong governance structure. The Board and its Nominating and Corporate Governance Committee evaluate the Company's corporate governance practices to ensure that such practices remain in the best interests of the Company and its stockholders. Accordingly, the Board of Directors unanimously recommends that you vote against this stockholder proposal.

Our Board of Directors unanimously recommends a vote AGAINST the stockholder proposal regarding declassifying the Board of Directors. Proxies executed and returned will be so voted unless contrary instructions are indicated on the proxy.

Proposal 3: Stockholder Proposal Regarding Indexed Options

This proposal is sponsored by the Massachusetts Laborers' Pension Fund. Its address and the number of voting securities held will be provided to any stockholder upon oral or written request made to the General Counsel of Lennar Corporation. Lennar Corporation is not responsible for the content of this stockholder proposal or the statement in support of the proposal.

Table of Contents

The Proposal

Resolved, that the stockholders of Lennar Corporation (the Company) request that the Board of Directors adopt an executive compensation policy that all future stock option grants to senior executives shall be performance-based. For the purposes of this resolution, a stock option is performance-based if the option exercise price is indexed or linked to an industry peer group stock performance index so that the options have value only to the extent that the Company's stock price performance exceeds the peer group performance level.

Statement of Support: As long-term stockholders of the Company, we support executive compensation policies and practices that provide challenging performance objectives and serve to motivate executives to achieve long-term corporate value maximization goals. While salaries and bonuses compensate management for short-term results, the grant of stock and stock options has become the primary vehicle for focusing management on achieving long-term results. Unfortunately, stock option grants can and do often provide levels of compensation well beyond those merited. It has become abundantly clear that stock option grants without specific performance-based targets often reward executives for stock price increases due solely to a general stock market rise, rather than to extraordinary company performance.

Indexed stock options are options whose exercise price moves with an appropriate peer group index composed of a company's primary competitors. The resolution requests that the Company's Board ensure that future senior executive stock option plans link the options exercise price to an industry performance index associated with a peer group of companies selected by the Board, such as those companies used in the Company's proxy statement to compare five year stock price performance.

Implementing an indexed stock option plan would mean that our Company's participating executives would receive payouts only if the Company's stock price performance was better than that of the peer group average. By tying the exercise price to a market index, indexed options reward participating executives for outperforming the competition. Indexed options would have value when our Company's stock price rises in excess of its peer group average or declines less than its peer group average stock price decline. By downwardly adjusting the exercise price of the option during a downturn in the industry, indexed options remove pressure to reprice stock options. In short, superior performance would be rewarded.

At present, stock options granted by the Company are not indexed to peer group performance standards. As long-term owners, we feel strongly that our Company would benefit from the implementation of a stock option program that rewarded superior long-term corporate performance. In response to strong negative public and stockholder reactions to the excessive financial rewards provided executives by non-performance based option plans, a growing number of stockholder organizations, executive compensation experts, and companies are supporting the implementation of performance-based stock option plans such as that advocated in this resolution. We urge your support for this important governance reform.

Board Recommendation

The Board of Directors of Lennar Corporation unanimously recommends a vote **AGAINST** this stockholder proposal for the following reasons:

The Board believes that its present approach to executive compensation, of which stock options is one important component, is performance-based. The Compensation Committee of the Board of Directors, which consists of three independent, non-management directors, reviews and approves the compensation of the Company's senior executive officers. This includes review and approval of management's recommendations as to salary, bonus and long-term, equity-based compensation, including stock options, for each fiscal year. Notably, as described in the Compensation Committee Report included in this Proxy Statement, in granting long-term, equity-based compensation, the Compensation Committee attempts to align executive performance with the Company's long-term performance for its stockholders. Thus, the Board believes that its stock options are inherently performance-based.

Table of Contents

The Compensation Committee regularly examines the compensation practices of similar companies as well as companies in different industry groups to assure the appropriateness, from a competitive standpoint, of executive compensation, including stock options. Indeed, twice, in the last five years the Compensation Committee has engaged an outside independent consulting firm to study the Company's program for compensating its senior executive officers, including its Chief Executive Officer. The Company believes that it must offer a competitive compensation program to attract and retain the most qualified executives to manage its business. Most of the companies with which the Company competes offer compensation in the form of stock options. If the Company implemented an indexed stock option plan, as called for in the stockholder proposal, the Company believes its stock option program would compare less favorably to the programs of other comparable companies, and that the Company would be disadvantaged in the competition to attract and retain qualified senior executives.

Finally, the proposal fails to state that, if adopted, its implementation could have serious and adverse accounting implications for the Company. Under the proposal, the exercise price of the indexed options would not be known on the date of grant. As a result, the Company would be required to periodically remeasure the compensation expense of such options and report the revised expense in its quarterly earnings until the exercise price of the options is known. Consequently, the use of indexed options could have a material impact on the Company's calculation of compensation expense related to the grant of stock options, which in turn, could affect the Company's net earnings and earnings per share. In years when the Company's stock performed well compared with its peers, its earnings could be hurt. In years when the Company's stock performed poorly compared to its peers, its earnings could be helped. The Board does not believe that this inverse result is appropriate.

The Board believes that the Company's existing executive compensation program, including its methods of granting and pricing stock options, is in the best interest of the Company. The Board believes that the proposal would undermine stockholder interests both by adversely affecting the Company's ability to attract and retain qualified executives and by resulting in an accounting change that could lead to irrational fluctuations in the Company's net earnings and earnings per share. Accordingly, the Board of Directors unanimously recommends that you vote against this stockholder proposal.

* * * *

Our Board of Directors unanimously recommends a vote AGAINST the stockholder proposal regarding indexed options. Proxies executed and returned will be so voted unless contrary instructions are indicated on the proxy.
