This prospectus supplement (Supplement No. 2) supplements the prospectus dated September 14, 2005 of Exide Technologies relating to the sale by certain of our securityholders (and their transferees, pledgees, donees and successors) of our Floating Rate Convertible Senior Subordinated Notes due 2013 and the common stock issuable upon conversion of the notes. You should read this Supplement No. 2 in conjunction with the prospectus, and this prospectus supplement is qualified by reference to the prospectus, except to the extent that the information in this Supplement No. 2 supercedes the information contained in the prospectus.

The information appearing under the heading Selling Securityholders in the prospectus is hereby amended by the addition or substitution, as applicable, of the following:

SELLING SECURITYHOLDERS

We originally issued \$60 million of the notes to the initial purchasers in a private placement on March 18, 2005. The initial purchasers resold the notes in transactions exempt from the registration requirements of the Securities Act to persons reasonably believed by the initial purchasers to be qualified institutional buyers within the meaning of Rule 144A under the Securities Act. Selling securityholders, including their transferees, pledges or donees or their successors, may from time to time offer and sell pursuant to this prospectus any or all of the notes and common stock into which the notes are convertible.

The following table sets forth certain information with respect to the selling securityholders and the respective principal amounts of notes and number of shares of common stock beneficially owned by each of them that may be offered under this prospectus. The information is based on information provided by or on behalf of the selling securityholders to us in a selling securityholder questionnaire and is as of the date specified by the selling securityholders in such questionnaires. The selling securityholders may offer all or some portion of the notes or common stock into which the notes are convertible, therefore no estimate can be given as to the amount of the notes or the common stock that will be held by the selling securityholders upon consummation of any particular sale. In addition, the selling

securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of any such securities since the date on which they provided us information regarding their holdings, in transactions exempt from the registration requirements under the Securities Act. As of June 30, 2006, we had \$60.0 million in principal amount of the notes and 24,551,008 shares of common stock outstanding.

Information concerning the selling securityholders may change from time to time and any changed information will be set forth in supplements to this prospectus if and when necessary.
