COLE CREDIT PROPERTY TRUST II, INC.

**SUPPLEMENT NO. 18 DATED APRIL 18, 2007
TO THE PROSPECTUS DATED JUNE 27, 2005**

This document supplements, and should be read in conjunction with, the prospectus of Cole Credit Property Trust II, Inc. dated June 27, 2005, Supplement No. 13 dated December 20, 2006, Supplement No. 14 dated January 11, 2007, Supplement No. 15 dated January 24, 2007, Supplement No. 16 dated March 20, 2007 and Supplement No. 17 dated March 29, 2007. Supplement 13 supersedes and replaces all prior supplements to the prospectus. Unless otherwise defined in this supplement, capitalized terms used in this supplement shall have the same meanings as set forth in the prospectus.

The purpose of this supplement is to describe the following:

- (1) the status of the offering of shares in Cole Credit Property Trust II, Inc.;
- (2) the replacement and supplement of our real property investments;
- (3) the disclosure of distributions made; and
- (4) the termination of a purchase agreement for a single-tenant, net leased commercial retail property containing approximately 75,000 rentable square feet in Sherwood, Arkansas.

Status of the Offering

We commenced our initial public offering of shares of our common stock on June 27, 2005. We have accepted investors' subscriptions received through April 13, 2007, and have issued an aggregate of approximately 47.8 million shares of our common stock to stockholders, with gross proceeds of approximately \$478 million distributed to us. For additional information, see the Plan of Distribution Subscription Process section of the prospectus beginning on page 133.

Replace and Supplement Real Property Investments

The following information replaces the section of our prospectus captioned "Prospectus Summary - Description of Real Estate Investments" beginning on page 8 of the prospectus:

For additional information regarding our prior acquisitions, see the discussion below under the caption Real Property Investments.

We expect to use substantially all of the net proceeds from this offering to acquire and operate a portfolio of commercial real estate consisting primarily of freestanding, single-tenant commercial properties net leased to investment grade tenants, which generally are companies that have a debt rating by Moody s of Baa3 or better or a credit rating by Standard & Poor s of BBB or better, or are guaranteed by a company with such rating, and other creditworthy tenants located throughout the United States. We also may invest in a smaller number of multi-tenant properties that compliment our overall investment objectives. In addition, we may invest in entities that make similar investments. If our advisor determines that, due to the state of the real estate market or in order to diversify our investment portfolio, it would be advantageous to us, we also may invest in mortgage loans secured by commercial properties similar to those in which we invest directly. We intend to hold each property for eight to ten years.

Our advisor, Cole Advisors II, makes recommendations to our board of directors for our investments. All acquisitions of commercial properties are evaluated for tenant creditworthiness and the reliability and stability of their future income and capital appreciation potential. We consider the risk profile, credit quality and reputation of potential tenants and the impact of each particular acquisition as it relates to the portfolio as a whole. Our board of directors will exercise its fiduciary duties to our stockholders in determining to approve or reject each of these investment recommendations. See the section of this prospectus captioned Investment Objectives and Policies Real Property Investments for a description of our properties as of the date of this prospectus. As we acquire properties, we will supplement this prospectus to describe material changes to our portfolio.

The following information replaces the first paragraph of the section of our prospectus captioned "Investment Objectives and Policies - Real Property Investments" beginning on page 82 of the prospectus:

Real Property Investments

We engage in the acquisition and ownership of commercial properties throughout the United States. We invest primarily in income-generating retail properties, net leased to investment grade and other creditworthy tenants.

As of April 11, 2007, we, through separate wholly-owned limited partnerships or limited liability companies, have acquired a 100% fee simple interest in 124 properties consisting of an aggregate of approximately 6,000,000 gross rentable square feet located in 43 states and the U.S. Virgin Islands. The properties were generally acquired through the use of mortgage notes payable and proceeds from our ongoing public offering of our common stock. The following table summarizes these properties in order of acquisition date.

The fixed rate debt mortgage notes require monthly interest-only payments with the principal balance due on various dates from July 2008 through October 2018. The variable rate debt mortgage notes bear interest at the one-month LIBOR rate plus 200 basis points and require monthly interest-only payments and generally mature within 90 days. Each of the mortgage notes are secured by the respective property. The mortgage notes

are generally non-recourse to the Company and Cole Op II, but both are liable for customary non-recourse carveouts.

The fixed rate mortgage notes generally may not be prepaid, in whole or in part, except under the following circumstances: (i) full prepayment may be made on any of the three (3) monthly payment dates occurring immediately prior to the maturity date, and (ii) partial prepayments resulting from the application of insurance or condemnation proceeds to reduce the outstanding principal balance of the mortgage notes. Notwithstanding the prepayment limitations, the Company may sell the properties to a buyer that assumes the respective mortgage loan. The transfer would be subject to the conditions set forth in the individual property's mortgage note document, including without limitation, the lender's approval of the proposed buyer and the payment of the lender's fees, costs and expenses associated with the sale of the property and the assumption of the loan.

In the event that a mortgage note is not paid off on the respective maturity date, each mortgage note includes hyperamortization provisions. The interest rate during the hyperamortization period shall be the fixed interest rate as stated on the respective mortgage note agreement plus two percent (2.0%). The individual mortgage note maturity date, under the hyperamortization provisions, will be extended by twenty (20) years. During such period, the lender will apply 100% of the rents collected to (i) all payments for escrow or reserve accounts, (ii) payment of interest at the original fixed interest rate, (iii) payments for the replacement reserve account, (iv) any other amounts due in accordance with the mortgage note agreement other than any additional interest expense, (v) any operating expenses of the property pursuant to an approved annual budget, (vi) any extraordinary expenses, (vii) payments to be applied to the reduction of the principal balance of the mortgage note, and (viii) any additional interest expense, which is not paid will be added to the principal balance of the mortgage note.

For federal income tax purposes, the depreciable basis in the properties noted above is approximately \$708 million in total. When we calculate depreciation expense for tax purposes, we will use the straight-line method. We depreciate buildings and improvements based upon estimated useful lives of 40 years, respectively. The depreciable basis in the properties noted above are detailed as follows:

Potential Property Investments

Our advisor has identified the following properties as potential suitable investments for us. The acquisition of each such property is subject to a number of conditions. A significant condition to acquiring any one of these potential acquisitions is our ability to raise sufficient proceeds in this offering to pay a portion of the purchase price. An additional condition to acquiring these properties will be our securing debt financing to pay the balance of the purchase price. Such financing may not be available on acceptable terms or at all.

Our evaluation of a property as a potential acquisition, including the appropriate purchase price, will include our consideration of a property condition report; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators.

We will decide whether to acquire these properties generally based upon:

satisfaction of the conditions to the acquisitions contained in the respective contracts;

no material adverse change occurring relating to the properties, the tenants or in the local economic conditions;

our receipt of sufficient net proceeds from the offering of our common stock to the public and financing proceeds to make these acquisitions; and

our receipt of satisfactory due diligence information including appraisals, environmental reports and tenant and lease information.

Other properties may be identified in the future that we may acquire before or instead of these properties. Due to the considerable conditions to the consummation of the acquisition of these properties, we cannot make any assurances that the closing of these acquisitions is probable.

Amounts include acquisition fees payable to an affiliate of our advisor for acquisition fees in connection with the property acquisition and payments to our advisor for finance coordination fees for services in connection with the origination or assumption of debt financing to acquire the respective property.

Each potential property acquisition is subject to a net lease, pursuant to which the tenants are required to pay substantially all operating expenses and capital expenditures in addition to base rent. In the case of a multi-tenant commercial property the tenants are also required to pay a proportionate amount of common area maintenance charges in addition to the items listed above.

Cole Advisors II, our advisor, is continually evaluating various potential property investments and engaging in discussions and negotiations with sellers, developers and potential tenants regarding the purchase and development of properties for us and other Cole-sponsored programs. At such time while this offering is pending, if we believe that a reasonable probability exists that we will acquire a specific property, this prospectus will be supplemented to disclose the negotiations and pending acquisition of such property. We expect that this will normally occur upon the signing of a purchase agreement for the acquisition of a specific property, but may occur before or after such signing or upon the satisfaction or expiration of major contingencies in any such purchase agreement, depending on the particular circumstances surrounding each potential investment. A supplement to this prospectus will describe any improvements proposed to be constructed thereon and other information that we consider appropriate for an understanding of the transaction. Further data will be made available after any pending acquisition is consummated, also by means of a supplement to this prospectus, if appropriate. **YOU SHOULD UNDERSTAND THAT THE DISCLOSURE OF ANY PROPOSED ACQUISITION CANNOT BE RELIED UPON AS AN ASSURANCE THAT**

WE WILL ULTIMATELY CONSUMMATE SUCH ACQUISITION OR THAT THE INFORMATION PROVIDED CONCERNING THE PROPOSED ACQUISITION WILL NOT CHANGE PRIOR TO ANY ACTUAL PURCHASE.

Each of our properties is adequately covered by insurance and we intend to obtain adequate insurance coverage for all future properties that we acquire.

Distributions

The following information replaces the section of our prospectus captioned **Distribution Policies** beginning on page 81 of the prospectus:

Distribution Policy and Distributions

We currently pay distributions to our stockholders and we intend to continue to pay regular distributions to our stockholders. We currently calculate our monthly distributions on a daily record and declaration date. Therefore, new investors will be entitled to distributions immediately upon the purchase of their shares.

Because substantially all of our operations will be performed indirectly through Cole OP II, our operating partnership, our ability to pay distributions depends in large part on Cole OP II's ability to pay distributions to its partners, including to us. In the event we do not have enough cash from operations to fund the distribution, we may borrow, issue additional securities or sell assets in order to fund the distributions or make the distributions out of net proceeds from this offering.

Historically, we have primarily declared distributions to stockholders as of daily record dates and aggregated and paid such distributions monthly. Our board of directors declared distributions equal to \$0.05 per share for stockholders of record as of the close of business on the seventh day of each month during the period from October 2005 through February 2006 and \$0.0521 per share for stockholders of record on March 7, 2006. During the period from April 1, 2006 through June 30, 2006, our board of directors declared daily distributions of \$0.0017123 per share for stockholders of record as of the close of business on each day during the period. During the period from July 1, 2006 through March 31, 2007, our board of directors declared daily distributions of \$0.0017808 per share for stockholders of record as of the close of business on each day during the period.

Our board of directors began declaring distributions in October 2005, after we commenced business operations. We have primarily declared distributions on a quarterly basis, with daily record dates. These distributions generally are aggregated and paid monthly. Our board of directors intends to continue this distribution policy for so long as it decides this policy is in the best interests of our stockholders. We have made the following distributions to our stockholders:

Period Ended	Date Paid	Distribution
12/31/2005(1)	1/3/2006	\$ 195,209
3/31/2006(1)	4/3/2006	621,070
4/30/2006	5/26/2006	368,157

(1) Distribution was paid on a quarterly basis.

Distributions to stockholders are characterized for federal income tax purposes as ordinary income, capital gains, non-taxable return of capital or a combination of the three. Distributions that exceed our current and accumulated earnings and profits (calculated for tax purposes) constitute a return of capital for tax purposes rather than a distribution and reduce the shareholders' basis in our common shares. To the extent that a distribution exceeds both current and accumulated earnings and profits and the shareholders' basis in the common shares, it will generally be

treated as a capital gain. We annually notify stockholders of the taxability of distributions paid during the preceding year.

For the year ended December 31, 2006, approximately 42% of the distributions paid were taxable to the investor as ordinary taxable income and approximately 58% were treated as return of capital for federal income tax purposes. No distributions were paid during the year ended December 31, 2005. The amount of distributions paid and taxable portion in this period are not indicative or predictive of amounts anticipated in future periods.

We expect to continue to regularly pay distributions on a monthly basis, unless our results of operations, our general financial condition, general economic conditions, or other factors inhibit us from doing so. Distributions will be authorized at the discretion of our board of directors, which will be directed, in substantial part, by its obligation to cause us to comply with the REIT requirements of the Internal Revenue Code. The funds we receive from operations that are available for distribution may be affected by a number of factors, including the following:

- the amount of time required for us to invest the funds received in the offering;
- our operating and interest expenses;
- the ability of tenants to meet their obligations under the leases associated with our properties;
- the amount of distributions or dividends received by us from our indirect real estate investments;
- our ability to keep our properties occupied;
- our ability to maintain or increase rental rates when renewing or replacing current leases;
- capital expenditures and reserves for such expenditures;
- the issuance of additional shares; and
- financings and refinancings.

We must distribute to our stockholders at least 90% of our taxable income each year in order to meet the requirements for being treated as a REIT under the Internal Revenue Code. This requirement is described in greater detail in the Federal Income Tax Considerations Requirements For Qualification as a REIT Operational Requirements Annual Distribution Requirements section of this prospectus. Our directors may authorize distributions in excess of this percentage as they deem appropriate. Because we may receive income from interest or rents at various times during our fiscal year, distributions may not reflect our income earned in that particular distribution period, but may be made in anticipation of cash flow that we expect to receive during a later period and may be made in advance of actual receipt of funds in an attempt to make distributions relatively uniform. To allow for such differences in timing between the receipt of income and the payment of expenses, and the effect of required debt payments, among other things, could require us to borrow funds from third parties on a short-term basis, issue new securities, or sell assets to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT. These methods of obtaining funding could affect future distributions by increasing operating costs and decreasing available cash. In addition, such distributions may constitute a return of capital. See Federal Income Tax Considerations Requirements for Qualification as a REIT.

Prior Potential Property Investments

A prior supplement to this prospectus described a potential acquisition of an approximately 75,000 square foot single-tenant retail building on an approximately 6.0 acre site located in Sherwood, Arkansas. The purchase agreement between Cole Acquisitions I, LLC, an affiliate of our advisor, and the seller for the acquisition of the property was terminated prior to assignment to the Company, and this property is no longer under consideration for purchase.
