**BankAtlantic Bancorp Reports Financial Results for First Quarter, 2007**

FORT LAUDERDALE, Florida April 25, 2007 BankAtlantic Bancorp, Inc. (NYSE: BBX), reported financial results for the quarter ended March 31, 2007. Net income for the first quarter of 2007 was \$5.7 million, or \$0.09 per diluted share, compared to \$6.5 million, or \$0.10 per diluted share reported for the first quarter of 2006. The Company recorded a loss from continuing operations of (\$2.2) million, or (\$0.04) per diluted share, compared to income from continuing operations of \$8.0 million, or \$0.13 per diluted share for the first quarter of 2006.

BankAtlantic Bancorp's Chairman and Chief Executive Officer, Alan B. Levan, commented, "During the quarter, over 79,000 new customer accounts joined BankAtlantic as we celebrated the Company's 5<sup>th</sup> birthday and fifth anniversary as *Florida's Most Convenient Bank*. We also experienced continued core deposit growth and were successful in achieving our goals in our new store expansion program, including our entry into the Orlando market. As previously announced, we've pursued expense management initiatives with a focus on reducing operational expenses.

While we believe Florida remains a very attractive market, Florida's real estate market has slowed significantly, and we are facing the challenges associated with this slowdown. As discussed later in this release, we experienced an increase in non-accrual loans in our residential real estate development portfolio during the quarter and expect that we may experience further deterioration in the portfolio during 2007. Additionally, because of the flat yield curve, we are experiencing, along with the rest of the industry, slower deposit growth and margin compression.

We continue to believe the Florida market is resilient and that organic deposit growth and aggressive new store openings will build a broad foundation for the future, yielding long-term franchise and shareholder value.

---

**Accomplishments and highlights include:**

**BankAtlantic**

**Store Expansion Program** BankAtlantic's Chief Executive Officer and President, Jarett S. Levan, commented, "During the first quarter of 2007, BankAtlantic marked its fifth anniversary as *Florida's Most Convenient Bank* with the grand opening of five new stores, including its first two stores in the greater Orlando area. We have opened a total of 22 new stores since January 1, 2005, accounting for \$136 million in core deposit and \$227 million in total deposit balances respectively. In the first quarter of 2007, the new stores generated \$44 million of core deposit balance growth and over 25,000 core deposit accounts. We continue to be very pleased with these new stores, which on average have met or exceeded our goals in core deposit balances in their first year and to breakeven on a current earnings basis in 12-15 months. As of quarter-end, we had a total of 93 stores throughout Florida.

Due to the time required for newly opened stores to breakeven, the expenses associated with BankAtlantic's store expansion program negatively impacted BankAtlantic's first quarter results by \$2.7 million after tax, and increased the efficiency ratio by approximately 550 basis points. We anticipate that the expansion program will have a negative impact on 2007 net income by approximately \$8.2 million. However, we believe this continued investment is well supported by the success achieved by the store expansion program to date, particularly in the contribution to the Bank's overall core deposit growth, and will continue to contribute to the overall franchise value.

**Core Deposit Accounts and Balances** We are pleased with the core deposit growth achieved during the quarter, particularly in light of continued competitive and economic pressures. The quarter's growth in total bank core deposit balances was \$189.0 million, or 8.4% over the fourth quarter of 2006. At quarter end, total bank and same store core deposit balances increased 5.9% and 5.0%, respectively, compared with the first quarter of 2006, representing a total bank net increase of \$135.1 million in core deposit balances. In the first quarter of 2007, BankAtlantic opened over 79,000 new core deposit accounts, which represent an increase of 3.6% over the number of accounts opened in the corresponding 2006 period and an increase of 8.5% from the immediately preceding quarter. Core deposit balances now represent 59.5% of total deposits, up from 57.9% in the comparable 2006 period.

---

**Net Income** For the first quarter of 2007, the Bank's net income was \$0.6 million, down from \$10.2 million in the comparable 2006 quarter. As discussed in detail in subsequent sections of this release, the reduction was caused primarily by net interest margin compression, combined with an increased loan loss provision. Both factors reflect current economic conditions impacting our business. Net income was also negatively impacted by the expenses associated with the store expansion program, as well as the costs associated with our steps to reduce personnel expense.

**Credit Quality** During the first quarter of 2007, non-accrual loans increased \$19.6 million from the first quarter of 2006, the majority of which related to residential land acquisition and development loans in our commercial real estate loan portfolio. As a result, the ratio of non-performing loans to total loans increased from 0.14% at March 31, 2006 to 0.55% at March 31, 2007. The provision for loan losses in the first quarter of 2007 was \$7.5 million, or 0.64% of average loans (annualized) versus \$0.2 million, or 0.01% for the first quarter of 2006. The allowance for loan losses increased \$8.5 million from \$41.9 million (0.94% of total loans) at March 31, 2006 to \$50.4 million (1.08% of total loans) at March 31, 2007; and the ratio of allowance for loan losses to non-performing loans stood at 196% at March 31, 2007.

The current environment for residential land acquisition and development loans is a concern, particularly in Florida, and represents an area where we remain very cautious in our credit management. In view of market conditions, we anticipate we may experience further deterioration in the portfolio over the next several quarters as the market attempts to absorb an oversupply of available lot inventory.

On the other hand, we remain pleased with the performance of our purchased residential mortgage portfolio, which was approximately \$2.1 billion at quarter-end, representing 38.2% of earning assets. The portfolio has no sub-prime or negative amortizing loans, and each loan is individually underwritten prior to purchase. The portfolio's average FICO score is 736, and delinquency at quarter-end was approximately 30 basis points.

---

**Net Interest Margin and Earning Assets** Net interest income for the first quarter of 2007 was \$52.1 million compared to \$55.1 million in the corresponding 2006 quarter, reflecting a 1.3% increase in earning assets combined with a 24 basis point decline in the tax equivalent net interest margin. Average earning assets increased \$75.2 million, while average core deposits and total deposits increased \$132.6 million and \$71.1 million respectively. The period-end ratio of borrowings to deposits and borrowings declined in the first quarter of 2007 to 26.4%, from 30.4% in the fourth quarter of 2006.

The tax equivalent net interest margin was 3.78% in the first quarter of 2007, down from 4.11% in the corresponding quarter of 2006. While earning asset yields improved 32 basis points, the cost of interest bearing liabilities increased 59 basis points, reflecting the growth in higher cost deposit categories and the impact of balance growth within our tiered-pricing structure. Future improvement in net interest margin is challenged by a protracted flatness of the yield curve, recent increases in non-accrual assets and growth dynamics impacting the mix of both interest bearing liabilities and earning assets (All references to net interest margin and earning assets exclude loan participations sold previously recognized as secured borrowings).

**Non-interest income** Non-interest income for the first quarter was \$35.0 million, or 29.8% greater than the comparable 2006 period. Additionally, fee income as a percent of total revenues rose to 36.3% in the first quarter of 2007 compared to 30.8% in 2006, reflecting the increase in transaction accounts, and the increasing base of revenues not directly impacted by the interest rate environment.

**Non-interest expense** Non-interest expense for the first quarter of 2007 was \$76.2 million, before one-time charges of \$2.6 million related to a reduction in staff in the first quarter, \$8.4 million greater than the corresponding quarter of 2006, and \$2.3 million less than the fourth quarter of 2006. The increase in expenses is primarily related to the store expansion program. As discussed in this release, we anticipate that the impact of the staff reductions and the reduced marketing expenditures will be fully effective starting the second quarter of 2007.

---

**Expense Management** During the quarter, we've worked to reduce our operating expenses without impacting the store expansion program or affecting our customer service standards. We reduced our workforce by approximately 225 associates, or 8%. The quarter's results include the \$2.6 million charge associated with this workforce reduction. The expected annualized compensation and benefits savings is approximately \$10 million. The impact will begin to be fully reflected in the results for the second quarter. As noted earlier, marketing expenses were also reduced in the quarter and should approximate our 2005 levels. We continue to explore opportunities for expense savings throughout the organization, concluded Jarett S. Levan.

**BankAtlantic Bancorp:**

As previously announced, during the quarter, BankAtlantic Bancorp completed the sale of Ryan Beck Holdings, Inc. (Ryan Beck) to Stifel Financial Corp. (NYSE:SF) in a tax-free transaction. Income from discontinued operations includes a gain of \$16.5 million on that transaction. Net of the operating loss of Ryan Beck prior to its sale, we recorded after-tax income of \$7.9 million from Ryan Beck. A significant portion of the loss at Ryan Beck prior to the sale is related to one-time charges directly tied to this sale.

Additionally, as part of the sale of Ryan Beck, BankAtlantic Bancorp is to receive warrants to purchase approximately 482,000 shares of Stifel common stock at an exercise price of \$36.00 per share. The warrants are accounted for as derivatives, and accordingly changes in value are reflected in earnings. We recorded a \$1.5 million loss associated with the change in value of the warrants resulting from a decline in Stifel stock price from the time of acquisition to the March 31, 2007 period-end.

As part of our ongoing stock buyback program, BankAtlantic Bancorp repurchased 1.3 million shares during the first quarter of 2007.

Further, BankAtlantic Bancorp's Board of Directors declared a cash dividend of \$0.041 per share to all shareholders of record of its Class A and Class B Common Stock at the close of trading on April 4, 2007. The first quarter's dividend declaration marked BankAtlantic Bancorp's 5<sup>th</sup> consecutive quarterly dividend payment.
