**Item 2.02 Results of Operations and Financial Condition**

On July 23, 2008, First BanCorp. (the Corporation ) issued a press release announcing its unaudited results of operations for the second quarter ended June 30, 2008. The Corporation has included in this release a non-GAAP financial measure which consists of computing the net interest margin rate on a tax equivalent basis excluding the unrealized changes in the fair value of derivative instruments and certain financial liabilities (mainly changes in the fair value of interest rate swaps and certain brokered certificates of deposit). The Corporation believes this non-GAAP measure provides meaningful information to investors about the Corporation s net interest margin and facilitates period-over-period comparability and analysis because the changes in valuation do not affect interest paid or received. Investors should be aware that non-GAAP measures have inherent limitations and should be read only in conjunction with the Corporation s consolidated financial data prepared in accordance with GAAP. A copy of the press release which is attached hereto as Exhibit 99.1, is incorporated herein by reference.
